Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,
—AND—
Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one we are selling Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

The Crowning Bargains

OF THE YEAR!

All Other Clothing Sales to be Thrown in the Shade.

AN IMPORTANT BUSINESS CHANGE IN THE CITY CLOTHING STORE.

H. LeBRUN

After having been favoured with a large and prosperous trade during the past Fifteen years, has decided to dispose of a share of his business, in order to give the faithful boys a chance.

Therefore, about the beginning of the New Year, an important change will take in the Business Management of the City Clothing Store, when Mr. JOSEPH PICARD,—who has been in his employ ever since commencing business—will be taken into the Firm, and become an Active Partner of the same.

MAMMOTH PREPARATION SALE

"Now comes the Tug of War." Previous to the above change taking place, I intend to place the whole of my Extensive Stock of Clothing, Cloths, Gents' Furnishings, &c., amounting to

$27,000 WORTH OF STERLING GOODS

at the disposal of the people of the Town and County of Peterborough, and will commence a Sweeping Preparatory Sale, unequalled for Good Value and Big Dividends,

ON SATURDAY, NOVEMBER 17.

In the meantime, the Goods will all be gone over, and re-marked down, including everything in the Store, from cellar to garret. Nothing will be reserved—all MUST go, no matter what the Sacrifice. No tricks during this Sale.,

The Goods are all Clean and New, Fashionable and Seasonable—bought originally at Closest Prices, for Cash, in the Best Canadian Markets; besides a Large Proportion has been imported direct from the Old Country. The Goods do not contain any Bankrupt Stocks, or culls from slaughter houses, but have been manufactured for this season's trade.

In addition to the above regular Stock, I have just made a Splendid purchase of $4,000 worth of Ready-Made Clothing, which was offered to me by the manufacturer, at a very Low Figure for Cash. These Goods will be sold along with the rest of the Stock at about HALF their ACTUAL VALUE, and are bound to go off like hot cakes.

The Customers of the City Clothing Store are aware that our advertisements are always a simple statement of facts. No Brag, No Bluster, No Extravagant and Misleading Talk. When we advertise Positive Bargains, the Public are sure to get them.

Wholesale Prices to be Completely "Snowed Under"—Bankrupt Stocks to get a Rest.

RIOTING STREET-CAR MEN.

SCENES OF VIOLENCE IN THE CITY OF CHURCHES.

Strikers in Nine Cars in Brooklyn Under Police Protection—Frenzied Attacks Upon the Nine Cars.

NEW YORK, Nov. 15.—The striking street-car employes in Brooklyn rioted all morning. At 10.30 the company started a car from the stables near King's county Penitentiary, adjoining Prospect Park. Twelve mounted policemen and a patrol wagon containing nine officers acted as escort. The vehicle proceeded without obstruction until Myrtle avenue was reached, when a tremendous body of strikers and sympathizers filled the streets. They stood on the track and surrounded the car, refusing to give way. The officers charged on the crowd and dispersed them several times, but the rioters followed the car, throwing stones and other missiles.

At Flushing-avenue a large wagon was placed on the track. In the meantime the crowd had increased to enormous proportions. Hundreds of yelling and shrieking men stood on the street asking the officers to come on and fight them. Again and again the officers charged the mob, but it was like trying to break a heavy stone wall. They would not yield an inch. A perfect shower of stones, rocks and clubs descended on the heads of the bluecoats.

The locusts did great work and many of the rioters were carried off the scene with cracked heads, bleeding faces and badly injured limbs. Sergt. Sutton was severely injured by being struck in the face with an immense rock. The same rock after injuring the sergeant struck the driver of the car, a man named Hoffman, and also injured him severely.

At Gwynnett-street, where the Lorimer line branches off, the mob succeeded in tearing up the switch and the attempt to run the car any further was abandoned. The police left the car at the mercy of the mob and began to charge in earnest. The mounted officers drove their horses into the crowd, and many were trampled under foot. After clubbing the mob until they grew tired they devoted themselves to the task of arresting the ringleaders. Hugh Garrett, John Burke and six others were taken into custody.

At 10.30 o'clock a car was started from the stable at Park and Nostrand-avenues. One hundred policemen, twenty-five of them mounted, surrounded the vehicle. They had proceeded only a few blocks when a mob of frantic, howling men advanced upon them hurling all kinds of missiles in the air. Inspector Riley ordered a charge and the big body of policemen swept down the street like a cyclone, driving everything before them. Right and left they whacked their long sticks on the heads of the rioters, scattering them. The mounted men drove into the mob, trampling upon them fearfully; still the rioters rallied. The stones, bricks, mud and clubs continued to fly through the air and many officers were badly injured. Finally a last charge was made by the police and the mob was dispersed. Six men were arrested.

At 11.10 another car was started from the Nostrand-avenue stables. The mob made a feeble attempt to re-form its lines and some of the leaders began to roll heavy boulders on the track to retard the progress of the car. Inspector Riley again swooped down upon the miscreants and in two minutes the street was clear. The car then proceeded.

TORONTO TOPICS.

Fatal Shooting Accident—Alleged Confidence Men in the Toils.

TORONTO, Nov. 16.—On Wednesday afternoon James E. Beswick, agent of the British American Assurance Company, and Edward Apted, of Apted Bros., printers of 40 Colborne-street, started for Ashbridge's Bay for a night and day's shooting. Both carried ordinary breech-loading shot-guns. They rowed across to Sand Island, a small strip of land which lies towards the centre of the Bay, and almost directly opposite the front of Lang-street, St. Matthew's Ward. They rested for a night in a fisherman's hut and went out about 9.30 yesterday morning to shoot at a flock of snow birds which had settled on the shore. Both fired, and Mr. Apted stepped back to reload. He threw open the breech, took out the exploded cartridges and replaced them with loaded ones. The hammers of the guns were down at the time, and the quick action of shutting the weapon caused the plunger to strike the cartridges with sufficient force to explode one of them. Mr. Beswick was standing directly in line with the muzzle of Mr. Apted's weapon, and the charge struck him fairly in the right side inflicting a terrible wound, causing almost instant death. Mr. Apted at once sent across and got Drs. Pickering and Stephenson, but life had fled long before their arrival. The police were notified and the body of the unfortunate sportsman was brought over to the city to the residence of his father. An inquest was held last night when the jury returned this verdict: "That James Edward Beswick came to his death by being accidentally shot at the Island this (Thursday) morning." Mr. Apted, who had been held in custody all day, was at once released. The deceased was a member of the Toronto Gun Club and was a great favorite with all who knew him. He was about 28 years of age and leaves a widow and three children.

A crowd of 10,000 people witnessed the sham fight between the Grenadiers and the Queen's Own Rifles at High Park yesterday. The manœuvres were skilfully performed, the mimic battle reflecting credit on both of the opposing forces.

Detectives Stark and Reburn last night arrested two men, giving their names as William Alexander and Henry Hunter, who are supposed to be the confidence operators who have made many successful hauls recently in Montreal and Toronto.

HOW THEY DIE MURDERERS OFF.

A Medico-Legal Committee on Capital Punishment by Electricity.

NEW YORK, Nov. 15.—At the meeting of the Medico-Legal Society last night the committee on capital punishment by electricity made its report. The committee concluded that the death current should be applied to the criminal in a way that is effective and certain. A long perforated table should be laid on a chair overspread with a rubber cloth. The criminal lies down on the table or sits upright in the chair and is bound tight with strong cords. His head fits into a helmet, which is strapped across his forehead, and around his neck. The helmet should be securely fastened and an electroid not over an inch in diameter should be placed immediately under his back and extending down to the feet. A dynamo with not less than 3000 volts should be used.

LYNCHED BY BALD KNOBBERS.

Five Witnesses Who Testified Against the "Hines" Murderers.

ST. LOUIS, Nov. 15.—A special from Springfield, Mo., says: "A rumor reached this city this morning from Christian County, the home of the famous Bald Knobber King Dave Walker, that five of the witnesses who testified against him in his trial for murder have been lynched by ex-Bald Knobbers. It is said the friends of Walker waited until the Supreme Court had passed upon his case, and when it was announced that the ex-chief must hang they wreaked vengeance on the five leading witnesses.

CHAMBERLAIN'S TREATY.

RATIFIED IN ST. JOHN'S CHURCH AT WASHINGTON.

Nuptials of the Fisheries Commissioner and Miss Mary Endicott, Daughter of the United States Secretary of War.

WASHINGTON, Nov. 14.—Quietly and simply, in the presence of the bride's relatives and personal friends, a few members of Washington's official society and several hundred of the general public, Hon. Joseph Chamberlain and Miss Mary Endicott were married at 2 o'clock this afternoon in St. John's Episcopal Church. The church was absolutely without floral or other decorations, and the awning stretched across the sidewalk to the carriage step was the only sign of an unusual ceremony. No cards or formal invitations had been received, there were no best men or bridesmaids and the entire service was characterized by extreme simplicity.

Each of the friends of the family as had been verbally invited to attend took seats in the body of the church half-an-hour before the ceremony began. The Cabinet meeting was ended at an early hour so as to permit the members to be present at the service, and they were in most cases accompanied by their wives. The President and Mrs. Cleveland entered the church just before 2 o'clock and were escorted to seats in one of the pews in the front row. Members of the Endicott family and relatives were seated immediately in the rear, while as many of the public as could find room in the little church filled the gallery and hallway.

Among the notable persons in attendance, besides the President and Mrs. Cleveland, were Mrs. Whitney, Mrs. Fairchild, Mrs. Dickinson, the Misses Bayard, Miss Vilas, Secretary Bayard, Secretary Fairchild, Secretary Whitney, Secretary Vilas, Postmaster-General Dickinson, Justice Lamar, the Misses Hunt, Mr. Samuel Ward, Col. John Hay, Capt. and Mrs. John P. Rodgers, Admiral and Miss Rodgers, Mrs. Biddle, the Misses Macomb, and Gen. Greely, besides a large number of guests from Boston.

Mr. Chamberlain entered the church at 2 o'clock and waited at the chancel. His appearance was the signal to the organist, who immediately began to play the wedding march from Lohengrin and the bride, leaning on her father's arm, appeared in a pearl gray travelling dress and wearing a dark bonnet, passed up the right aisle and joining the bridegroom knelt before the altar.

Rev. Dr. Leonard, assisted by Rev. Mr. Franks of Salem, Mass., performed the Episcopal wedding service. Both bride and groom gave back the responses in a firm and audible voice. Prayer was pronounced and Joseph Chamberlain and Mary Endicott were man and wife.

Again the organ pealed forth its strains and the party passed slowly along the left aisle out of the church and into the carriages, and were driven immediately to the house of the bride's parents.

A reception was held at the residence of the Secretary, and the newly-married couple received the congratulations of the invited guests. After the reception Mr. and Mrs. Chamberlain drove to the Pennsylvania Railway station, and it is supposed that they went to New York, although their destination was not known even to the bride's parents. They will return to Washington within a week and be the guests of Secretary Endicott for a few days. On Nov. 26 they will sail for Europe.

Wedding Bells in the Hoosier Capital.

INDIANAPOLIS, Nov. 15.—A brilliant society wedding occurred here last night in the marriage of Miss Fannie Belle Voorhees to Hon. Charles S. Voorhees, son of Senator Voorhees, and the present delegate in Congress from Washington Territory. The bride is a daughter of J. H. Valen, one of the prominent retired merchants of Indianapolis.

Frederick's Diary.

BERLIN, Nov. 15.—The North German Gazette says that as the advanced democratic papers have continued to falsely interpret the Chancellor's report to the Reichstag on the subject of the late Emperor Frederick's diary it again begs to refer to the fact that Emperor Frederick's relations with the English Royal family never concealed his regard for England and its dynasty and policy, not even before his father who, owing to the good feeling towards himself of Russia and her dynasty was led into a policy of open discussion which, between father and son, was not advisable from sociable as well as business considerations. The servants of the family were bound by their office and honor not to discuss these matters before the son.

Demented Dougherty.

NEW YORK, Nov. 15.—James M. Dougherty, who was arrested for annoying Miss Anderson, was arraigned in court to-day and removed to a hospital to be examined as to his sanity. Miss Anderson refused to make a complaint against him, so none was made by the police. Dougherty told a long story of his pursuit of the actress under adverse circumstances and gave evidence of dementia in the narrative. While combing his hair he had heard his voice saying, "What beautiful hair" (he is bald), so he cut a lock from a sheet on his car and sent it to her. There was no irrational note on him as to what should be done with him if he got into a trance. If he should die, he wanted Mary to advise as to the disposition of the remains.

Cheated the Executioner.

LOS ANGELES, Cal., Nov. 15.—Fritz Anschlog, who was to have been executed on Friday for the murder of Mr. and Mrs. Hitchcock at Garden Grove in January last and who, in a statement made a few days ago, also confessed to the killing of Judge Peugh, a neighbor, in Butte County in 1880, both of which crimes were committed avowedly for the purpose of securing their landed property or money, committed suicide last night by taking strychnine and died at 10 this morning. Anschlog had concealed the strychnine in a plug of tobacco.

Scott Act Convention.

COBOURG, Nov. 15.—A convention of temperance workers takes place here Wednesday, Nov. 28. The object of the meeting is to resist repeal of the Scott Act in Northumberland and Durham.

WEBB SENTENCED TO DEATH.

The Brandon Wife-Murderer To Be Hanged on Dec. 28.

WINNIPEG, Nov. 15.—Webb, the Brandon wife-murderer, pleaded guilty to-day and was sentenced to death on Dec. 28. He completely broke down and there was a touching scene in the court when he was sentenced.

The City Council will probably order immediate re-building of the burned city market.

Thanksgiving Day was thoroughly observed.

The Wrapping Paper Combine.

CHICAGO, Nov. 15.—The Western manufacturers of wrapping paper yesterday raised the price from $60 to $65 per ton. As the output of the mills, is 200 tons per day, the benefit to the trust will amount to $1000 per day.

A Lunatic's Suicide.

THE DAY'S THANKSGIVING.

How Peterborough Citizens Commemorated Thanksgiving Day.

The Day Among the Churches—Annual Inspection of the Troops—Concerts, Balls and Suppers Galore.

The good people of Peterborough realized that, first of all, thanks should be rendered to the Giver of all things, and, in consequence, the church services were nearly all well attended.

The union thanksgiving meeting in the George street church was attended by a very large congregation, in which Presbyterians, Baptists and Methodists were represented. The large union choir under the leadership of Prof. Carter rendered fine music prepared especially for the occasion. Brief addresses suitable to the occasion were delivered by Rev. Messrs. Bell and Parker, and a collection was taken up in aid of the Barnardo Home.

At St. Luke's and St. John's churches (Episcopalian) the usual thanksgiving services were also held, Rev. Mr. Warren and Rev. Mr. Japp addressing the congregations. In the Mark Street Methodist Church, Ashburnham, a thanksgiving service was held.

The Redcoats' Review.

The 57th Battalion Inspected by Col. Straubenzie—A Creditable Turn-out.

The annual inspection of the 57th Batt. took place Thursday forenoon on Riverside Park before Col. Straubenzie, D.A.G. The battalion made the best showing on this occasion it ever did, and the inspection was altogether satisfactory. Shortly after nine o'clock the battalion left the drill shed in the following order :—

Band, 23 pieces; Leader F.W. Millar.
No. 1 Company—Capt. Edwards, Lt. Mason; 39 men, 3 Sergeants, 2 Corporals and Bugler.
No. 2 Company—Capt. Langford, Lt. Lee; 39 men, 3 Sergeants, 2 Corporals and Bugler.
No. 3 Company—Lt. Shaw in command. Lt. Stevenson; 38 men, 2 Sergeants, 2 Corporals and Bugler.
No. 4 Company—Capt. Dennistoun, Lt. Dixon; 36 men, 3 Sergeants, 3 Corporals and Bugler.
No. 5 Company—Capt. W. Millar, Lt. Matthews; 36 men, 3 Sergeants, 3 Corporals and Bugler.
No. 6 Company—Capt. Brennan, Lieuts. Bennett and Loch; 38 men, 3 Sergeants, 3 Corporals and Bugler.

The regimental colors were borne by a couple of lieutenants, with a guard furnished from No. 2 company.

The total strength of the battalion on parade, including band and officers, was 275.

The mounted officers were :—Col. J. Z. Rogers, Major Grover, Major Bell (Acting Adjt.), and Surgeon Kincaid. Other officers in attendance were Asst.-Surgeon Gorman, Paymaster Howard and Sergt.-Major Rundle.

Col. Straubenzie, inspecting officer, had as a staff, Brigade Major Lewis and District Paymaster King. Arrived at the Park, the inspecting officer made a critical examination of the men and accoutrements, followed by marching and manual exercises. These latter were performed to the general satisfaction of the officers. All the companies showed marked improvement, No. 2 company deserving special mention for general proficiency. No. 4 company did some good marching, and in fact all did so well that special praise would be invidious.

The inspection occupied about two hours, and upon returning to the drill shed the roll was called and the volunteers dismissed. Before falling out, however, Col. Rogers made a short address to the men, telling them that Col. Straubenzie was much pleased with their appearance and proficiency in drill, though he had found fault in several minor matters. For instance, some of the men had appeared without the regulation trousers, and the Col. had explained to the inspecting officer that the battalion was short of clothing. Then a great many rifles were in bad condition, and the Col. had ordered them to be sent down to Kingston to be repaired. With these few words the men were dismissed.

NOTES.

There were several hundred spectators, many of them ladies, to see the inspection and admire the soldierly appearance of the redcoats.

Mr. R. M. Roy was on hand with his photographic apparatus and took views of the volunteers on parade.

Col. Straubenzie and staff returned to Kingston last night.

During the inspection, Captains Edwards, Langford and Brennan were called out and each put the battalion through a series of movements.

Thanksgiving Tea and Concert.

The Endeavor Society of the Charlotte Street Church Contribute to the Day's Doings.

The "grand thanksgiving entertainment and tea," under the auspices of the Endeavor Society, came off in the Charlotte street church Thursday evening. Dinner was served in the school room from five to eight o'clock by the ladies of the society, and it is estimated nearly 300 people sat down to the tables. The general and unanimous verdict of all who partook of the repast was that it did the ladies concerned the greatest credit.

About eight o'clock the concert began in the church. Mr. J. R. Stratton, M. P. P., occupied the chair, and, with a few introductory remarks to the large audience commendatory of the objects and practical results of the labors of the Endeavor Society, ushered in the first number on the following programme :—

PART FIRST.

Instrumental solo ..... Miss Clarke.
Recitation ..... "The Curfew" Miss Bertha Brundrette.
Solo ..... Miss Pearson.
Reading—(encored) ..... Mr. Rowse.
Instrumental solo ..... Miss Wrighton.
Selection ..... Y. M. C. A. Orchestra.
Solo ..... Miss Butcher.

PART SECOND.

Recitation ..... "The Latest Shot" (A legend of the Indian Mutiny.) Miss Sherlock.
Selection ..... Y. M. C. A. Orchestra.
Song—(encored) ..... Miss Cameron.
Read'g ..... Mr. Clegg.
Vocal duet ..... Misses Brundrette and Fawcett.
Recitation—(encored) ..... Miss Saunders.
Selection ..... Y. M. C. A. Orchestra.

Every piece merited the hearty applause by which the audience evinced its satisfaction. Miss Saunders' recitations were perhaps the most pleasing numbers on the programme. The Y.M.C.A. orchestra of six instruments rendered some good selections, and indeed all the performers, vocalists, readers and reciters, did themselves credit. Individual mention is unnecessary.

The Endeavor Society were indebted to the Young People's Association of the George street church for assistance rendered on this occasion, several of their members contributing to the entertainment.

During the evening the chairman, having other duties to attend to, resigned in favor of Rev. Mr. Shorey, and later he was succeeded by Mr. Rowse, who at the close announced that a children's tea would be held the following evening in the schoolroom.

Singing of the doxology and the pronunciation of the benediction by Rev. M. L. Pearson terminated the proceedings.

Lovers of the Dance Commemorate Thanksgiving Day.

The first annual ball of the united trades and labor organizations of Peterborough was held in the opera house Thanksgiving Eve. About 60 couples were in attendance, and to the music of Doucet's full orchestra they enjoyed the dance until early morning. The hall was nicely decorated with bunting and flags, and about the walls and stage were hung placards designating the different unions whose members were interested in the ball—the I.M.U. of N.A., Bricklayers and Moulders, Carpenters and Joiners, Knights of Labor and Typographical Union. Supper was served in the Grand Central dining-rooms across the way, and the *menu* supplied by mine host Daly was excellent indeed.

The committees of management who had all the responsibility in getting up the ball were :—Reception Committee—Messrs. F. McNaughton, Geo. Graham, J. Hickey, J. Whitehair and C. Murty; Floor Committee—Messrs. R. Sheehy, T. McNamara, G. Martin, J. Kelly, J. Londreville and C. Loucks. Over these gentlemen Mr. Frank Farren acted as President and Mr. R. McGregor as Secretary.

The ball was a success financially and in every other way, and the committees are to congratulated.

True Blues Assembly.

The True Blues of the town held another of their successful assemblies at their lodge room on Simcoe street, Wednesday night. About forty-five couples were present, and everything passed off pleasantly and satisfactorily.

At Hymen's Altar.

Duncan—Sinclair.

The sequel to a nice little romance in real life transpired at the residence of Mrs. Carr, George street, Wednesday evening, when Mr. John Duncan, the well-known live stock dealer of Peterborough, was married to Miss Ina Sinclair, of Boston. The wedding was the unanticipated outcome of a youthful fancy, matured and strengthened by nine years' continuous correspondence. The two young people were constant play-mates at school in the early days of their life in Scotland, but later circumstances separated them. Nine years ago Mr. Duncan came to this country, and has succeeded in working up a lucrative business in Peterborough. Meanwhile a correspondence was maintained between them, which culminated in a plighted troth. Three years ago Miss Sinclair crossed over the sea and settled in Boston, from whence she came to be married to her faithful lover. They had not seen each other for the space of nine years, when they were school-mates together, but, in their case, "absence made the heart grow fonder," and the happy event that occurred Wednesday night bound together, for life, two hearts that were so evidently intended to beat as one. Rev. E. F. Torrance tied the nuptial knot. Mr. Isaac Gates was groomsman and Miss Carr bridesmaid. About twenty-five friends of the groom were present, and the many beautiful gifts testified to the high esteem in which Mr. Duncan was held and the sincere wishes of his friends for the future happiness of himself and his beautiful bride. Mr. and Mrs. Duncan will take up residence on Antrim street.

Dredge—Hillier.

At St. Luke's church Wednesday evening, Mr. Geo. Dredge was united in marriage to Miss Lizzie Hillier. Both parties are well known in town, and they have many friends who will wish them a happy and prosperous married life.

Stenton—McGee.

Rev. A. Bell performed a ceremony Wednesday night that joined in wedlock Mr. Robt. Stenton and Mrs. John McGee, widow of the late P.C. McGee. Mr. Stenton is a long and well-known resident of the town, and the friends of both himself and wife will heartily congratulate them upon th ir marriage.

Ashburnham Brevities.

St. Luke's C.E.T.S. held its first concert of this season, on Wednesday night. The attendance was not large, but those present were ethusiastic and made up what was wanting in numbers. The programme was unusually good. There were readings by Messrs. Rooney and Burt, songs by Mrs. Bowman, and Mr. Bowman and Mr. Kingscoat, and instrumental solos by Mrs. Orde and Mrs. Hamilton.

The cribbing on Elizabeth street, in front of the Dickson Co.'s property, immediately east of the roller mills, is being placed in position. It will add very much to the appearance of this part of the estate.

The Thanksgiving services in the churches were not so largely attended as they should have been, owing no doubt to the inspection of the volunteers in the morning and the military concert in the evening.

Importing Workmen.

The Toronto *Monetary Times* says:—"Large gangs of foreign labourers are pouring into Nova Scotia and New Brunswick from the United States in search of work, which they obtain on the railway lines and the Chignecto Ship Railway. These labourers assert that they can earn as good wages in the Provinces as in the United States, while the cost of living is less, and they feel besides that they are under the control of more complete protection at the hands of the authorities."

The above suggests two ideas worthy of consideration by the working classes in Canada.—(1) While the manufacturers, notably the sugar refiners, have protection up to the hilt, there is no protection to labour—no protection for the labouring and consuming classes, which bear the burden of protective taxation; (2) the swindled Italian navvies, who worked on the Hereford Railway, did not find "complete—in fact very little—"protection at the hands of the authorities" best able to protect them. The Dominion Government's protection was all reserved for the subsidised railway contractors.

"Had Been Worried Eighteen Years."

It should have read "married but the proof-reader observed that it amounted to about the same thing, and so did not draw his blue pencil through the error. Unfortunately there was considerable truth in his observation. Thousands of husbands are constantly worried almost to despair by the ill health that afflicts their wives, and often robs life of comfort and happiness. There is but one safe and sure way to change all for the better. The ladies should use Dr. Pierce's Favorite Prescription. b

The Choicest of Apples.

Messrs. Elliott & Tierney have purchased from Mr. G. W. Hatton the entire crop of "Walkerfield" orchard, including Snows, Spitzenburghs, H. Pippins, Northern Spies, Beauties of the West, etc. All choice fruit carefully hand-picked. Parties wishing to lay in a winter supply will find it to their advantage to make an early call at Elliott & Tierney's. Quality unsurpassed; prices reasonable. dt

St. Andrew's Society.

The Annual Meeting—Election of Officers For 1889. St. Andrew's Day to be Celebrated by a Supper.

The annual meeting of St. Andrew's Society was held on Thursday evening, 15th instant. The meeting was a rallying one—a characteristic, genuine, old time gathering—full of cutaneous, sociality and business, and gave evidence of a stir among the clans.

The President, Mr. William Cumming, occupied the chair.

The minutes of the previous meetings were read and on motion confirmed.

In the absence of the Treasurer, no financial statement was submitted. A motion was passed authorizing the President to confer with the treasurer for the purpose of having a full report of the financial affairs of the Society prepared and submitted at an adjourned meeting to be held on Thursday evening next, 22nd instant.

CELEBRATION OF ST. ANDREW'S DAY.

On motion of Mr. James Hendry, seconded by Mr. John Paterson, it was unanimously decided to celebrate St. Andrew's Day (Friday, the 30th inst.) by a supper, and the following committee was appointed to make the necessary preparations for the event, viz.: Messrs. Chas. Cameron, Jas. Hendry, Alex. Morrison, Thos. Telford, Roderick McClennan, Wm. Cumming and the Secretary. The Committee to report at the adjourned meeting on the 22nd inst.

The President and Secretary were appointed to wait upon Rev. E. F. Torrance for the purpose of requesting him to deliver the annual sermon before the members of the Society on Sunday, the 25th inst.

OTHER BUSINESS.

A motion was passed, tendering the thanks of the Society to Mr. John Paterson for his painstaking efforts on behalf of the Society during the many years he had been a member, and especially for the large number of new members and subscriptions he had personally obtained during the past and previous years.

The retiring officers received a vote of thanks for their services during the past year, after which the meeting adjourned until Thursday, the 22nd inst.

Stop That Cough.

Many people neglect what they call a simple cold, which, if not checked in time, may lead to lung trouble. *Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites*, will not only stop the cough but heal the lungs. A Rare Combination.

There is no other remedy or combination of medicines that meets so many requirments, as does Burdock Blood Bitters in its wide range of power over such Chronic diseases as Dyspepsia, Liver and Kidney Complaint, Scrofula and all humors of the blood. 2w45d

Valuable To Know.

Consumption may be more easily prevented than cured. The irritating and harassing cough may be greatly relieved by the use of Hagyard's Pectoral Balsam that cures coughs, colds, bronchitis and all pulmonary troubles. 2w45d

"Eureka" and "Golden Hair Wash."

These are two of A. Dorenwend's standard preparations. The "Golden Hair Wash" gives the hair that beautiful golden shade so universally admired; it does not injure the hair in the slightest degree. "Eureka" removes all superfluous hair from the face, arms or neck at one application. See that each bottle of either preparation bears on the label the signature of A. Dorenwend. For sale by all druggists everywhere. dw

The Modus Operandi.

The mode of operating of Burdock Blood Bitters is that it acts at once and the same time upon the Stomach, Liver, Bowels, Kidneys and the Blood, to cleanse, regulate and strengthen. Hence its almost universal value in Chronic Complaints. 2w45d

A CANADIAN GIRL ADRIFT

ANNIE LYONS FURNISHES GOTHAM A SENSATION.

Failing to Bring Brunette Scott to Terms She Drinks a Dose of Corrosive Sublimate Which Soon Does Its Prompted Out.

NEW YORK, Nov. 15.—"You villain! You betrayed me, and now you want to cast me adrift!"

That sensation was heard by several persons who had halted in front of W. W. Scott's drug store, on the northeast corner of Seventh-avenue and Fourteenth-street. The words were spoken by a young woman, and the charge was directed at the proprietor of the place. Mr. Scott was also heard. He threatened the young woman with arrest if she did not leave his store. Policemen McVey and Gregg, who had been attracted by the crowd surrounding the drug store, asked what was the matter. The young woman, whose name is Annie Lyons, said that three weeks ago she came to this city from Toronto, Canada; with a letter of introduction to Mr. Scott from one of his nieces. Her story was that the druggist promised to look after her while she remained in New York and took her to places of amusement and finally accomplished her ruin. She said that he had cast her adrift, and that the object of her visit was to come to some sort of understanding with him about his intentions toward her.

Scott, who was quite nervous, told the policeman that there was no truth in what the young woman said, and asked for her arrest on a charge of disorderly conduct. McVey took her into custody, and while she was being conveyed as a prisoner along Seventh-avenue she halted near the corner of Fifteenth-street and taking a two-ounce vial from the pocket of her Newmarket cloak, swallowed about half its contents. The vial contained a strong solution of corrosive sublimate, a deadly poison. Without delay an ambulance was called and the sufferer was taken to the New York Hospital. The stomach pump was used with success, and the surgeons, at a late hour last night, were confident that Miss Lyons' life had been saved. Druggist Scott said that Miss Lyons came to his store half a dozen times during the past three weeks and talked to him about Toronto and his relatives there. Scott said that he came to this city from Toronto five years since and denied that Miss Lyons presented any letter of introduction to him from his niece.

Miss Lyons is about 21 years of age. She is a brunette, of stout figure and is not good looking.

AN INSURANCE CASE.

The Question of a Railway Company's Responsibility.

MONTREAL, Nov. 15.—On August 24, 1887, a barn owned by a man named Gardner, in the township of Whitby, Ont., was destroyed by fire alleged to have been caused by sparks from a passing train of the Ontario and Quebec Railway. The barn in question was insured in the Glasgow and London Insurance company for $2400. The company sent up an expert, and after examination paid Gardner $1500, and he transferred to the company any claims that he would have against the railway. They then sued the Canadian Pacific Railway, which pleaded in the first place that the fire was not caused by sparks from their locomotive, and in the second place that, according to the Ontario law, when a railway company uses all modern appliances for cars and locomotives for the protection of property through which said line passes, they are not responsible for such losses as that in question. The evidence in the case was concluded before Mr. Justice Tait yesterday, and His Honor took the case on delibere.

SUICIDE AT NEWMARKET.

John Aikey Mixes Strychnine With His Last Glass of Whisky.

NEWMARKET, Nov. 15.—This afternoon a man named John Aikey, after getting as drink as the money he had would allow, deliberately mixed five grains of strychnine in whisky, drank the compound and died.

Drink and continuous quarrels with his wife were the causes of this suicide. Aikey has no children. He recently served a term in Barrie jail for some petty crime.

Burned to Death.

MONTREAL, Nov. 15.—Mrs. Ann Shepherd, residing at 36½ Hermine-street, aged 65, was sitting in her room last night when the lamp exploded, setting her dress on fire. She shrieked and a neighbor named Andy McGarity did his best to save her. He dragged her out and the ambulance being telephoned for she was removed to the General Hospital. She was found to be terribly burned from head to foot, and after lingering in agony for five hours she died shortly before 1 o'clock. Her husband, Mr. J. Shepherd, works in the Canada Paper Company.

Lost His Wallet on His Wedding Day.

OTTAWA, Nov. 15.—A young man, Albert Carroll by name, arrived from the west last night to be married to a young lady here. Having dined at the Brunswick Hotel, he visited the lavatory and went out. He had his wallet, containing $110, in his inside pocket at that time, but when he returned at 5 o'clock it was gone. When or how he lost it is a mystery to him.

A Dishonest Carter.

MONTREAL, Nov. 15.—A young seamstress named Mary J. Renaud, of Longueuil, a few days ago gave a rascally carter four dozen pair of trousers to deliver for her. Instead of doing this the fellow pawned them. The detectives were informed and succeeded in recovering the articles, but cannot find the carter.

Only a Cent a Month.

MONTREAL, Nov. 15.—An appeal has been issued by the ecclesiastical authorities, asking all Catholics to contribute one cent a month in order to complete the St. Peter's Cathedral. It is calculated that this subscription, from 400,000 Roman Catholics of the province, will produce a sum of $100,000.

Died While Eating.

MONTREAL, Nov. 15.—A man named Alphonse Hebert, aged 45, asked for a meal at the St. Patrick's Hospital yesterday, stating that he was starving. While putting a spoon in his mouth he fell back in his chair dead. At the coroner's inquest a verdict of syncope of the heart was returned.

A Boston Forger Wanted.

OTTAWA, Nov. 16.—Chief McVeity has received a letter from the Superintendent of the Boston police, asking for the apprehension of Eugene A. Witt, who is wanted on the "Hab" for forging paper to the amount of $10,000. He was a student of the Boston University.

THE CAUSES OF DECAY.

General Master Workman Powderly's Annual Report to the K. of L.

INDIANAPOLIS, Nov. 15.—In the Knights of Labor General Assembly to-day two reports were read, one from General Master Workman Powderly and the other from ex-Secretary Litchman. Mr. Powderly's report took two hours of the time and Mr. Litchman followed for an hour and twenty minutes.

Mr. Powderly in his report says the year ending with this session has been the most trying and discouraging to those whose wish was to see the harmonious blending of all classes of workers beneath the shield of knighthood, since the organization of the order. He holds that their circular of false statements concerning the strength of the order, the extravagance of the general officers, the selfish desires of certain members high in the order, and the fact that the members of the Executive Board were not in harmony with each other drove away thousands of members from the order. The unwise strikes and the recent political campaign, during which members and assemblies were pitted against each other on questions which never were made part of the declaration of principles of the Knights of Labor, also had a depressing effect.

Mr. Powderly states that these trials have resulted in good for the order and denied anything like official dishonesty, inviting a thorough examination of all books and accounts. Many changes are desired in the constitution so as to avoid the frequent changes which are recommended at each session. At present he thinks the financial affairs are entrusted to too many hands. One responsible party should be entrusted with the management of the finances.

The afternoon session was cut short owing to the regular meeting of the Woman's Relief Corps, the Barry appeal which was looked for being a probability of to-morrow's session.

BRAKEMEN ON STRIKE.

The Louisville, New Albany and Chicago Employes Still Out.

INDIANAPOLIS, Nov. 15.—The strike of the Louisville, New Albany and Chicago brakemen continues and no freight has been moved in to or out of Lafayette. The company yesterday afternoon made up a train at Lafayette which was moved under protection of the sheriff and police and without brakemen to a station 10 miles out, where it was sidetracked. The strikers endeavored to board the cars and draw the coupling pins but were prevented. Four arrests were made. The tracks near Lafayette have been soaped and greased for some distance. The company claim that some of the strikers desire to return to work but have been intimidated.

Hanged Protesting His Innocence.

WATERLOO, N. Y., Nov. 15.—Charles Johnson, who murdered John Walters, one of the jail employes in January, 1888, was hanged here to-day. He protested that he did not strike the blow which caused Walters' death and expressed pleasure at the knowledge that he was innocent.

A Colored Brute Lynched.

DONALDSONVILLE, La., Nov. 15.—Tuesday afternoon, on a plantation near this place, a negro seized a 11-year-old white girl and endeavored to outrage her. He was taken to jail, but at night 200 men overpowered the jailers and lynched him.

Nerviline. What is It?

Nerviline is a combination of the most powerful pain relieving substance known. Nerviline is not a nostrum, but a preparation which has received from members of the medical profession, clergymen, the press, and others most enthusiastic endorsation. If suffering from pain of any kind, external or local, give Nerviline a trial. Nerviline cures toothache, cramps, neuralgia, and almost insanity. Trial bottles 10 cents, large bottles 25 cents, at druggists and dealers everywhere. 6dw46

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. The Magic Bottle Imp.

A very amusing trick, by means of which a bottle can be made to perform most extraordinary feats. It is a novelty and a brain puzzler. It will stand up as persistently as a flagstaff, and will lay down as readily as a log. It will do anything but talk. It is in your hand, it will be very quiet, but put it on the floor and it will begin to play. It is full of fun, and wagon-loads of merriment. Any one can operate it. It does not require practice. It does it at once, and is not easily seen. The bottle can be handed to any one for examination. Full directions how to work it are with each bottle. Sample by mail, postpaid, 25 cents; 3 for 50 cents. One dozen, postpaid, 75 cents.

COLLEGE FEDERATION.

At first blush the friends of College Federation will be startled, if not surprised, by the action of the Senate of Victoria College at Cobourg on Tuesday. But it is probable that their action will not amount to much more than a multinous assertion of disregard for the solemn decision of the General Conference of the Methodist church upon the question of College Federation. It would appear that the refusal of the Senate, by a vote of 21 to 14, can have no other and more serious effect than a moral one. As a matter of courtesy (since decision upon a matter which had been settled by the highest court of the church was beyond the jurisdiction of the Senate) the board of regents invited the concurrence of the Senate in giving a notice of federation with the provincial university. The vote of the Senate may be regarded as one of the episodes which occur in the course of any great movement, affecting only its rate of progress.

Victoria's Representative.

On November 5th Mr. J A Barron M. P. for North Victoria delivered an address at Fenelon Falls. After an able speech in which he emphasized the benefit and importance of a fuller degree of religious tolerance on both sides—and a fuller recognition of the benefit being effected by the good and honest men of both creeds, he concluded as follows:

"As an instance of the present, he reminded the people of the opening in Peterborough of St. Joseph's hospital, an institution which did not say to man, 'Though you are enduring all the ills that flesh is heir to, yet because you are a Protestant you cannot enter here.' It is indeed a relic of the darkest age of barbarism to have institutions in our day which shut the door to suffering humanity because the sufferer, in the opinion of the institution, sees through a glass dimly. Mr. Barron closed his very instructive remarks by defending Orangeism against ignorant attacks. The rich are sometimes heard to say in deprecating language that the order is composed of men poor in pocket as well as in mind. He would join issue with such statements, but so long as our Saviour was poorer than the foxes and birds of the air, and had not where to lay his head, no Orangeman need regret the accusation when made."

The Baptists' Thanksgiving.

Thanksgiving Prayer and Conference—Oyster Supper and After Meeting.

At the Baptist church there was a thanksgiving prayer and conference meeting. At 4 o'clock there was a very fair attendance and many persons took part in the meeting, especially among the older members, who told of their experiences of God's faithfulness.

At 5.30 there was a supper provided. Very many of the ladies of the church were indefatigable in their efforts to make it successful. They were assisted by Messrs. W. R. Matthews, V. Eastwood, L. Croly, C. B. Routley, etc. A large company sat down and enjoyed the oysters and "trimmings."

In the evening there was a meeting for fraternal intercourse. The pastor presided, and Rev. Mr. Mamie, of Ste. Marie, P. Q., and Rev. J. B. Huff, Smith, gave interesting addresses, the former on the work at the "Grande Ligne Mission," and the latter on the "Influence of Christianity." Messrs. Curtis, Hillier, Elcome, Duff, Grundy and Gillespie also made speeches on the various departments of church work.

Mr. V. Eastwood proposed thanks to the ladies, and Mr. W. Anderson seconded the motion, which was carried nem. con. The benediction by Rev. Mr. Huff brought to a close a very agreeable and profitable meeting. The thank offering amounted to about $55.

Health vs. Business.

R. H. Green, on account of ill health, has decided to sell his entire stock of groceries and provisions at greatly reduced prices, for cash, for the next six weeks, after which time if his health is not improved will offer his stock in trade (*en bloc*) on reasonable terms, etc.

In the meantime parties desiring to procure good fresh groceries, etc., for the holiday season will find it to their advantage to call at the corner of Hunter and Aylmer streets where they will find a well assorted stock to choose from, and which will be sold very cheap for cash.

Apples, potatoes and vegetables always in stock, and will be delivered to any part of the town free of cartage.

Harmonious Volunteers.

The Second Annual Session—Strong Muster of Citizens—An Excellent Programme, Excellently Carried Out.

There was a crowded house on Thursday night at the second annual concert of the 57th Battalion. Seats were all filled. The Opera House hall and stage were beautifully decorated with flags and bunting and other military insignia. Among the audience were Col. Strathenaie, D.A.G., and staff. The programme opened with the descriptive fantasia, "Joan of Arc," which was rendered with the precision and finish characteristic of this Battalion band. The "Manual and Firing," by a select squad, was most capitally done, and was worthy of the warm applause with which it was received. A fencing bout between Capt. Brennan and Lieut. Mason afforded exciting amusement, and gave a good example of the proficiency of the "duellists." The clarionet solo of Mr. McGuire was something exceedingly enjoyable. He brings out an exquisite tone, and his performance was very brilliant and artistic. He responded to a rousing encore. Mr. T. Dunn, the favorite vocalist, rendered "Alone in the Desert" in a splendid manner. Mr. Dunn is a great favorite as a vocalist of the highest order, and many a professional of high reputation would have to look to his laurels in competition. He was, of course, encored, and gave in spirited style, peculiarly his own, the spirited military song, "The Gay Hussar." A single stick bout between Capt. Brennan and Private Bowman, both of No. 6 Company, showed the proficiency of both competitors. The "Tug-of-war" between the right and left wings of the battalion brought out a keen exhibition of strength and—strategy. The victory was awarded the right wing. Between the first and second parts of the programme, Mr. J. K. Stratton, M. P. P., appeared on behalf of a lady friend of the battalion, suggesting that a committee of ladies be formed to procure a new stand of colours, to be presented to the battalion on next 24th May. The present colours were not what so fine a battalion should have. Though passably good to look at, their texture was very frail. It was not safe to take them out in a high wind—they might brave the battle, but they were not strong enough to brave the breeze. It was further suggested that a meeting of the ladies be held at the Y.M.C.A. rooms on Thursday afternoon at 3 o'clock. The suggestion was greeted with hearty applause, and, no doubt, the ladies of Peterborough will procure the new stand of colours. The second part of the programme included a finely performed band selection from "Martiana," a splendid exposition of the bayonet exercise, and a second clarionet solo from Mr. McGuire, which called out even more enthusiasm than his first performance. He responded to an encore. Mr McGuire's first appearance in Peterborough has won for him a popularity which will insure him a hearty welcome whenever he may come to town. Mr. Hoover played his accompaniments and Mr. Dunn's with the real artistic taste characteristic in him. The infantry sword exercise was capitally done, also the "tug-of-war" between the victors of the first tug and a team of non-commissioned officers, the victory going to the privates The two tableaux presented, "The Roll Call" and "Quatre Bras," were splendidly, faithful reproduction of Elizabeth Thompson's celebrated pictures of those titles. The concert was, altogether, a fine success, though critics claim that the military presentations were hardly up to the mark of last year.

Officers' Mess.

After the concert the officers of the battalion attended a supper at Chamberlen's restaurant that had been gotten up out of compliment to Col. Straubenzie and staff, but the honored guests were unable to be present, having to leave on the 8.50 train for the east However, about thirty gentlemen, including the officers and a few friends, sat down to the excellent repast. Col. Rogers occupied the chair, and the usual loyal and patriotic toasts followed the supper.

The Field of Sport.

How the Local Nimrods Put in the Day.

Almost every man and boy who possessed a gun and sufficient enthusiasm to undertake a day's hunting, left town and invaded the haunts of the wild denizens of the forests within a radius of ten miles, more or less. And the powder and shot that was wasted it is estimated would equip a small army of men for battle. Of course the game suffered in proportion, and the slaughter (according to the reports brought in by the hunters—and they ought to know best of any) was terrific.

The Stanley Hunt Club was billed for a day's hunt, but the Treasurer, Mr. Miller, explained to the EXAMINER that, as a consequence of other overpowering attractions the night before, a number of the members failed to connect, and the event was declared off. However, it is intended to have the first hunt next Thursday, when it is expected there will be about fifteen on a side.

However, about a dozen of them, under the leadership of Messrs. Winch and McIntyre, drove about six miles out into Dummer and returned in the evening with a big "pot" of game, including 17 rabbits and 9 partridge. They shot besides (for points) 205 blackbirds and 117 squirrels.

A turkey shoot was held at the quarry Thursday afternoon by Mr. Goldie. The riflemen shot at a target and won turkeys as prizes. The shoot was a successful one, Messrs. J. Stanger and R. H. Smith being the luckiest winners.

Messrs. D. Belleghem and John McKee spent the day duck-shooting with fair success.

Personal.

Mr. A. McNeil was in town yesterday.

Mr. Fred. Armstrong, of Belleville, spent Thanksgiving Day in town.

Mr. Thos. Duncan, deputy postmaster, Belleville, was in town yesterday.

Miss Finlayson has returned home after a six months' trip to her native land, Scotland, feeling much refreshed and invigorated.

Mr. J. Wright, of Ashburnham, traveller for Loudon & Co., Toronto, was in town over Thanksgiving Day.

Dr. Cumberland, of Port Huron, was stricken down with fever shortly after his marriage to Miss Daly here, but is now recovering.

The many friends of Mrs. Robt. Hamilton, sr., who some time since met with an accident with the result of breaking her arm, will be pleased to hear that she has nearly recovered.

Mrs. Bertram Orde and family have left Ashburnham for the winter. Mrs. Orde goes to Chicago to her son's, Miss Juliet to Lindsay to her grandmother's, and Master Bertie to his sister's, Mrs. Hubble.

Mr. J. A. Barron, of Lindsay, M.P. for North Victoria, was in town Wednesday. Mr. Barron spoke in East Northumberland Wednesday and Thursday nights and speaks again to-night.

Mr. J. L. Kerr who has been office manager and Secretary for the last 10 years for the Confederation Life, has been appointed Secretary and Treasurer of the Manufacturers' Life Insurance Co. The appointment is said to be an excellent one,

Mr. W. F. Johnston is to be congratulated upon the successful barristers' examination he passed at Toronto Thursday. He stood first on the list. Mr. Johnston is now a full-fledged barrister, and if the high standing he has always occupied in his examinations is any criterion of his ability, he is destined to become a legal light of note.

Police Court.

FRIDAY, Nov. 16.

Messrs. W. J. Morrow, Geo. Henry, Rash Bros., Connors and Conroy, were each fined $50 and costs for violations of the Scott Act. Three other cases were enlarged.

Don't fail to let the children hear the McGibbony Family at the Opera House Saturday afternoon.

Special Music.

Special Thanksgiving music will be rendered by the St. Paul's church choir, on Sunday, both morning and evening.

A Progressive Step.

In accordance with a resolution of the village council, the work of affixing names to the streets of Ashburnham has been begun.

The A. C. A. Site.

To-morrow the executive committe of the A.C.A. will meet at Toronto. Commodore H. C. Rogers and Messrs. E. B. Edwards and G. W. Haston will go up from Peterborough. The committee appointed to choose a site for the next meet will report and the place will be finally selected at this meeting.

"The Church and the Bible."

The Kingston *Freeman* thus *refers* to the lecture, under the above title, to be delivered in St. Peter's next Sunday evening:—"This will be Bishop Dowling's first lecture in Peterborough, but he has a reputation as a very interesting speaker. His lectures have received high praise when delivered in Canada and in the United States."

His Name Wanted.

Chief Roszel would like to know the name of the young man who saw the burglar GreenGold about 5 o'clock on the morning of 31st August last, the day of the Gough burglary, on the Mad Lake road between the town and Mr. Milburn's. The person in question could materially assist the cause of justice if he will make himself known to the Chief.

The McGibbony Family's special car is a beauty and attracts great crowds to the station.

A New Baptist Publication.

The Baptists of Peterborough and Port Hope have completed arrangements for the publication of a journal devoted to the interests of the Baptist churches of the Peterborough district. Rev. P. Clifton Parker is the managing editor. The journal will be published at THE EXAMINER office and the first number will appear about the tenth of December.

A "Protracted" Meeting.

On Thursday afternoon a thanksgiving class meeting was held in the lecture room of the George street Methodist church. After the conclusion of the services five or six ladies remained chatting in one of the rooms of the basement, and the sexton, not being aware of their presence, locked the doors, thus imprisoning the tardy worshippers. Sometime after the ladies, having reduced their terminal expansiveness of attire to admit of the feat, were to be seen escaping through the windows, like feminine burglars.

News Nuggets.

—The street pay-list for the past two weeks amounted to $163.32.

—A large flock of wild geese passed northward over the town to-day.

—Rev. P. C. Parker will address the meeting in the Y.M.C.A. rooms to-night.

—The meeting in the Y.M.C.A. hall last night was withdrawn, on account of the illness of Rev. S. J. Shorey.

—The steam yacht *Eva* has removed all the double boom from Ullyatt's saw mill at Harwood up to Peterborough.

—The meeting of the Young Men's Guild of St. Luke's Church announced for Thursday evening was postponed for a week.

—P. C. McGinty, Wednesday night, found a quarter of beef on the market. It was sent up to the Protestant Home to-day.

—Only three clubs, the Young Torontos, Niagara and Ingersoll, competed for the intermediate lacrosse championship at Paris Thursday. The Young Torontos won.

A fine lot of Florida Oranges just received at Ostrom's.

—The Belleville *Intelligencer* says:—Three wedding parties came down from the north on the Peterborough train yesterday afternoon, and took the evening train for the west.

—The McGibney family arrived in town on their special car this morning. It stands on the siding at the G. T. R. station and has been inspected and admired by many people to-day.

—A Skibbereen correspondent writes the Cobourg *World*:—"Mr. James Burns is a retired farmer. Mr. Burns intends in the near future to locate in Peterborough for better or for worse.

—The Victoria University football team, of Cobourg, with their male quartette, spent Thanksgiving Day at Norwood, where they played a football match and assisted at a concert in the evening. They passed through town both going and returning, and put up at the Grand Central.

—Thus saith the Lindsay *Post*:—Mr. B. Morrow, the genial registrar of Peterborough, was in town Tuesday afternoon. Many old friends were pleased to see that he had not forgotten Lindsay, and availed themselves of the opportunity to "shake." Mr. Morrow admitted that the town was progressing rapidly, but hinted his belief that it would be "a spell" before we caught up to his burg. Such a loyal expression should be duly honored—"but there ain't nuthin' to it."

Honors for Ontario.

The Guelph *Mercury* says:—The following speaks well for the work of another Canadian abroad:—Mr. John Robertson, jun., a younger brother of our Prof. J. W. Robertson, has spent the past season as dairy instructor in the southwest of Scotland. At the great dairy show held at London, England, his pupils carried off the first prize for the best ton of cheese; second prize for the best four cheddar cheese, and the cup and medal for the best lot of cheese on exhibition. At the Kilmarnock show of dairy products, held on the 26th of Oct., his pupils won the first prize of £20 for the best cheese of any make, the first place in the sweepstakes competition for the best cheese of any make, the first for the best ton of cheese exhibited, besides a number of minor prizes. Kilmarnock show is the largest of its kinds in the world.

The twentieth anniversary of the Ancient Order of United Workmen occurred Sunday before last. The Order number over 215,000. Of these 16,000 are in Ontario. Since its establishment the Order has paid to relatives of deceased members just over $23,000,000. During the past year $200,000 have been paid on the death of members in the Province of Ontario. Judge Masters, of Wisconsin, is Supreme Grand Master Workman of the Order this year, and Mr. D. Spry, of Barrie, Grand Master for Ontario.

We learn that a private banking business will shortly be opened by Messrs. J. G. FitzGibbon & Co. at Norwood, Ont. Mr. FitzGibbon of this firm has received a thorough banking training, having been long in the Merchants' Bank of Canada, and he has recently been employed in the liquidation of the Central. He bears an excellent reputation, and should do well in a growing district such as that he has chosen.—*Monetary Times.*

A Thanksgiving Day Drunk.

Yesterday a respectable farmer from the north was seen in the Arcade in a state of whooping alcoholic hilarity. This morning he explained that he had come to town not thinking it was a holiday. He got drunk because he was so disgusted that he was not able to buy boots and shoes for his family at gough bros., where they are offering the biggest bargains in boots and shoes the town ever saw. While this did not justify, it excused the spree, for the bargains at gough's are so great that the disappointment must have been keenly felt.

TO-NIGHT.

Praise From all Quarters.

The following letter received this morning fully explains itself:—

BOWMANVILLE, Nov. 17, 1888.

Editor Examiner Peterborough:—

MY DEAR STRATTON,—I observe that you are going to have the celebrated McGibney Family in Peterborough. Their entertainment here on Tuesday night exceded in genuine merit anything of the kind we have had here in the last ten years. Our town hall was crowded and everybody was delighted. You can safely advise your best citizens to hear them.

Fraternally Yours,
M. A. JAMES.

This Column Tells What is Doing at Turnbull's.
THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer
Astrachan Caps at $1.00, $1.25, and $1.50,
—AND—
Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.
Who ever heard of Caps at such prices?
READY-MADE CLOTHING.
Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.
DRESS-MAKING.
In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.
FLANNELS and UNDERWEAR
In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.
When you are in town call at Turnbull's. We carry a Big Stock and have Big Bargains for you in every department.

TOPICS FROM THE CAPITAL

IT IS SAID MR. JOHN PRICE IS TO BE CALLED TO THE SENATE.

The Evidence in the Electric Light Case Finished—Dangerous Illness of the Father of Hon. Mr. Foster.

OTTAWA, Nov. 16.—It is understood that the contracts for militia clothing for the next twelve months will be let to the parties who had them last year on the same terms, the work having been satisfactorily performed.

The hearing of evidence in the Edison electric light case before Deputy Commissioner of Patents Pope has been finished and the case adjourned until the evidence can be transcribed and distributed to the lawyers, when the argument will take place.

Hon. Mr. Dewdney left for Toronto to-night on private business. He has received letters from settlers north of the Qu'Appelle lakes that although their crops have suffered from frost they are not discouraged and will put a larger area under crop next spring.

It is rumored that Mr John Price of the firm of Price Bros. & Co. will be called to the Senate in the place of the late Hon. J. Ross.

Hon. Mr. Foster, Minister of Finance, left for home suddenly this afternoon on the receipt of information of the dangerous illness of his father.

Supplementary letters patent have been issued to the Lake of the Woods Milling Company, increasing the capital from $300,000 to $500,000.

Notice is given of application for letters patent to incorporate the Montreal Printing and Publishing Company, to carry on a general printing and publishing business, with a capital of $40,000.

An order-in-council has been passed defining the lands reserved for mountain parks in British Columbia at Griffin Lake, Mount Stephen and Glacier.

Atwater & Mackie of Montreal give notice of application to Parliament for an act to incorporate The Titles and Mortgage Insurance Company of Canada, with power to insure and guarantee titles, mortgages and other investments.

Notice is given by the Northern Pacific and Manitoba Railway of application to Parliament for incorporation for the purpose of building the following lines of railway and telegraph:

1. From a point at or near Winnipeg, on the west side of the Red River, to a point on the international boundary at or near West Lynn.
2. From Winnipeg to Portage la Prairie.

To be Second Lieutenant provisionally. Corporal H. F. Watt, vice Ince promoted.

To be Second Lieutenant provisionally, J. D. MacLennan of the Royal Grenadiers, vice Mackay, promoted.

COLONIAL GOVERNORS.

The Question of Their Appointment Discussed in the Melbourne Assembly.

MELBOURNE, Nov. 16.—The Assembly to-day debated the abstract right of the colonies to take part in the nomination of their respective governors.

The Premier, without discussing the Queensland question, pointed out that the constitution gave to the Queen alone the power of appointment, Her Majesty acting on the advice of ministers responsible to the Imperial Parliament. He called particular attention to the probability of a deadlock if the selection of a governor rested with both the Colonial and Imperial Parliaments. He refused to endorse such a scheme and said he was confident that the less the colonies insisted upon sharing in the power to appoint or nominate, the better it would be for the colonies.

The Premier's remarks were received with cheers.

Other members spoke in a similar strain.

THE SMALLPOX AT SARNIA.

A Statement From Inspector Lehman of the Provincial Board of Health.

SARNIA, Nov. 16.—Dr. Lehman, Inspector for the Provincial Board of Health, authorizes the publication of the following:

Mr. Geo. Leys, Chairman of the Board of Health, Sarnia:

DEAR SIR: At the request of the Secretary of the Provincial Board of Health, I have visited your hospitals and quarantines and in conjunction with Dr. Oliver, your medical health officer, I have made a thorough examination. I find 9 cases of smallpox, 5 in the hospital and 4 of one family in an isolated house. I find the patients doing well, their medical attendance and comfort satisfactory, quarantine and disinfection are strictly enforced and I believe your present efforts with compulsory vaccination, which I strongly recommend, will soon free the town of the disease. A Fatal Accident.

HAMILTON, Nov. 16.—Mrs. Elizabeth Voelker, was cleaning a stove this morning and used turpentine in the blackleed. The heat of the stove ignited the turpentine, and the flames flashed up into Mrs. Voelker's face. Her hair was nearly all burnt off and her face was terribly burned. Blinded and almost crazed with pain, Mrs. Voelker staggered out of the room and fell downstairs, fracturing her collar-bone and receiving many painful bruises.

John Burlinghoff and H. R. Hall were fined $40 at the Police Court to-day for keeping their saloon open after hours.

The Coronation Number.

BARRIE, Nov. 16.—F. J. Lower is the possessor of a copy of The London (Eng.) Sun, dated June 28, 1838. It is the coronation number of that paper, and is printed in gilt letters, contains an excellent cut of the girl Queen, and gives a full description of the coronation festivities in London.

The Dewsbury Election.

LONDON, Nov. 16.—In the parliamentary election at Dewsbury to-day Oldroyd (Gladstonian) received 6071 votes, and Arnold Foster (Unionist) 3969. In the last election the Home Rule candidate received 5117 and the Conservative 2759.

A Large Blaze at Goderich.

GODERICH, Nov. 16.—A fire broke out this afternoon in the stable of Mr. A. McD. Allan. A strong wind prevailed at the time and in a short time the stable and contents were totally destroyed. Loss $300.

New Postal Arrangement.

OTTAWA, Nov. 17.—An arrangement has just been completed by the Postmaster-General with the Postmaster-General of Newfoundland for the interchange by post of parcels between the two countries. The same rate and regulations will apply as now pertain to the parcel post between Canada and England.

QUEBEC'S BOODLE CASE.

SENSATIONAL EVIDENCE AT THE INVESTIGATION.

It Was Curious to Tender Unless Things Were Fixed and as a Contractor Fixed Things.

QUEBEC, Nov. 16.—The civic boodle investigation was resumed to-day. The whole session was occupied by the examination of W. McLea Walbank, the Montreal contractor for the Quebec water works, who told how he manipulated matters so as to obtain the contract. There were three in his syndicate, the other two being S. C. Stevenson and Mr. Lee, both of Montreal.

Walbank deposed that he made the acquaintance of Trudel, chief of the river police, who is charged with bribing aldermen, at the St. Louis Hotel, being introduced by the late Willis Russel, then an alderman, who told him it would be useless to tender unless he fixed things beforehand. Trudel gave witness two names as a guarantee of his good faith, one of which was Hon. Wilfrid Laurier.

After much negotiation Walbank offered Trudel a one-half interest in the contract if he succeeded in getting the Council to grant it to his syndicate. His interest was estimated at $30,000, which was to be divided among Trudel's syndicate, which included Charles Langelier, M.P., Pacaud of L'Electeur, Turbe of Le Canadien, and Carroll of The Telegraph, and afterwards lawyer L. P. Vallee, then a Councillor, was brought in.

Walbank repudiated all intention to bribe the Mayor and Council. He simply wanted local influence.

Shortly before the contracts were awarded Trudel insisted on part of his $30,000 being paid. He wanted cash, but the Walbank syndicate objected. Trudel wanted $10,000, deposited with Vincellette, Warden of Beauport Asylum, to be handed to Trudel after the contract was awarded. This was objected to and finally $9000 was handed Vallee in trust and a package of bills and waste paper was sent Vincellette so as to make the members of the Trudel syndicate believe that the money had been deposited in full.

Further evidence was given tending to show that Trudel took all the money himself and gave the Walbank syndicate little return.

The evidence created much excitement, and further developments are looked for.

A MARKED RADICAL FEELING

Displayed in the House of Commons Against the Queensland Appointment.

LONDON, Nov. 17.—The Queensland Governor question is still much canvassed inside and outside of Parliament. Official circles continue strong in the belief that in view of the frequent intensity of colonial politics it would be most unwise to take the sole responsibility for the selection of governors from the unpartisan hands of the Imperial Ministers; yet it is generally recognised that if Queensland persists in objecting to Governor Blake he cannot be forced upon the colony.

A marked radical feeling against Mr. Blake was shown in the House of Commons last night during the discussion of the question, and it is fully expected that the appointment will be cancelled, though it is hoped that a middle course will be found to satisfy the colonial demand for prior intimation as to a Crown nominee, and thus avoid a recurrence of the unpleasant situation, especially seeing that South Australia would support Queensland, though the colonies generally never evinced a greater desire to co-operate with the Mother Country.

THE PARNELL COMMISSION.

Lady Mountmorris Faints in the Witness Box—Sir Charles Russell's Protest.

LONDON, Nov. 16.—The proceedings of the Parnell Commission to-day were made interesting by the appearance on the witness stand of Lady Mountmorris, whose husband, Lord Mountmorris, was murdered at Clonbar, County Galway, in 1880. Sir Charles Russell, counsel for the Parnellites, was proceeding to cross-examine Lady Mountmorris when the witness fainted and would have fallen to the floor had not a court officer caught her. Sir Charles thereupon intimated that he would not proceed any further in cross-examination.

Sir Henry James, of The Times counsel, then announced that it was proposed to give evidence in relation to outrages committed in County Kerry.

Sir Charles Russell protested and Justice Hannen agreed that the Commission could follow the evidence by the method in which it was proposed to give it only with enormous difficulty, but when assured by counsel that there was no other manner to shorten the case than the course purposed, the court was bound to assent.

Sir Charles thereupon said warmly: "All I can do then is to protest against a course which certainly will not conduce to facilitate the enquiry."

Pat. Sullivan, a farmer of County Kerry, was examined. He said in June, 1884, a man came to his door, called him out and shot him with a revolver. After he had recovered from his wound he was called upon to attend a meeting of the League, where he was asked to let a particular tenant off with a reduction of rent. He assented. Cross-examined, witness said he did not connect the shooting with any member of the League. At the meeting he was not threatened. Sullivan was then re-examined by Attorney-General Webster, who asked: "Since you came here to-day have you spoken to either of the Messrs. Harrington?"

Timothy Harrington, rising from his place in the counsel seat, said: "I never remember having seen the witness before."

Edward Harrington, who was seated on the bench behind counsel, also arose and exclaimed: "This is an unfair imputation. I have never seen the man before to-day. It is hard to have our names thus dragged in."

Justice Hanaan addressing Timothy Harrington said: "This proceeding is quite irregular. You ought to know that you cannot take part in the case both as counsel and witness."

Mr. Harrington replied: "I did not appear as a witness."

"Justice Hannen: "You cannot interfere at all."

Mr. Harrington: "The Attorney-General mentioned my name and I must request you to afford me the protection of the court."

Justice Hannen: "Let the court stand adjourned. We must maintain decorum."

The judges here left the bench hurriedly amid a scene of great excitement. Counsel for both sides remained in their places and Mr. Horrington consulted with counsel for the defense. The judges were absent 10 minutes. When they returned their places on the bench Mr. Harrington immediately said that he had not meant any disrespect to the court.

Justice Hannen responded: "All persons alike must obey the direction of the court. I am glad to receive your statement."

The taking of evidence was then resumed.

A Blizzard Reminder.

PHILADELPHIA, Nov. 16.—The jury in the suit of Frank E. Pooley against the Philadelphia, Wilmington and Baltimore Railroad Company, to recover damages for injuries sustained in a collision on March 12 last, the day of the great blizzard, returned a verdict to-day for the plaintiff for $20,000. The defence of the company was that the accident was unavoidable and due to an act of God: that the engine of the train on which the plaintiff was a passenger was frozen up and could not proceed, and that the engineer of the other train was unable to see before him on account of the snow in

THE GREENFIELD CASE.

Organs in opposition to the Ontario Government, with the usual unfairness, have sought to show that the Government has been attempting to over-reach the municipality of Peterborough and improperly impose upon it the cost in the Greenfield extradition matter. The action of the government in the matter was not only just to Peterborough but, more than that, generous. The *Empire* which had been at considerable pains to misrepresent the action of the government, publishes the following explanation of Deputy Attorney-General Johnston:

"The *Empire* has been misinformed when it stated in effect that the Ontario Government has been endeavoring to raise money out of the municipalities improperly, where the case of the extradition of James Greenfield from Buffalo to Peterborough was instanced. Extradition proceedings are not taken by the Government except in very special instances, and this was not one in which the Government considered it proper to expend provincial moneys in looking after. No demand was ever made by the Government upon the municipality to pay the expenses of the extradition of Greenfield. Proceedings were taken by the local authorities without the knowledge or consent of the Government, and a demand had been made by them on the Dominion Government for the necessary warrants for extradition. The greater part of the work had been done before this Government became aware that any steps had been taken whatever. The authorities at Peterborough, finding, no doubt, that the expense was more than they anticipated, asked the Ontario Government if they would contribute. The Government promised to do so, and have contributed considerably more than half the expense. This was done because Greenfield was an escaped convict from one of our institutions. The warrants were directed to the Chief of Police at Peterborough, whereas, if the case had been properly a Government one, the warrants would have been addressed to a Government officer. The charges here did everything they possibly could to resist the local authorities in getting Greenfield back. The only communication that passed between the authorities at Peterborough and the Government was a request to have a portion of the expense paid, which, as I have stated, was done. There seems to be some mistake in the opinion people have of extradition cases. These proceedings are open to any person, and belong to the Government no more than does an ordinary prosecution in the city of Toronto."

Our local evening contemporary was very prompt in reprinting the *Empire's* "misinformed" strictures on the Ontario government in the Greenfield case, but it has not shown the same readiness in publishing the *Empire's* retraction.

Mormonism and the Bible.

Being a Series of Papers which will Appear from Time to Time, Exposing One of the Most Absurd Paradies of Christianity Ever Attempted to be Palmed Off on the Unlearned and Untaught in Biblical Study.

(*Conclusion of Third Paper.*)

THE PLACE WHERE THE NEW REVELATION WAS TO BE GIVEN.

To return to his assertion that "Ephraim never became a multitude of nations in Palestine." Now the word tribe signifies a family or race from the same ancestor, and this is exactly what the American Indians are, even according to Mr. Smith—tribes, just as the various descendants from Jacob became tribes. To the tribes in America Mr. Smith gives the term "nations," but refuses to give it to the tribes in Palestine. Why? Mr. Smith says that these nations or tribes in America spoke 438 languages and 9000 dialects. But the possession of distinct languages or dialects does not, of itself, make a different nation. For one nation may possess different languages and dialects which cannot be understood in all parts of it, and yet it is still one nation. Take, for example, Canada. A large portion of the inhabitants can only speak French, yet these people are not a different nation from the rest of the Canadians. Then again take England. There are people living there who speak such strange dialects that the ordinary Englishman cannot understand them, and yet they are all English people. Separate nations may be constituted by a separate independence of parts of the same people. The United States became a separate nation from England simply by declaring itself independent. The Southern States tried to make a separate nation from the Northern States by fighting for their independence. Yet they were all the same people. Thus we see that the declaration of independence by parts of the same people constitutes a distinct nation. Now we find in Scripture that the various tribes of Israel were indipendent of each other—Judges, xxi, 25; ii, 16; viii, 1; xii, 1; xviii, 12, 29; 1 Kings xii, 16. Mr. Smith pointed to the fact that at the time of the discovery of America there were 50,000,000 of Indians, numbering over a thousand tribes, or nations, speaking over 438 languages, and over 2,000 dialects. But the number of the tribes and languages in America has nothing to do with the tribes or nations in Palestine, nor does the greater number in the one place reflect against the lesser number in the other. The wonder is that from the time of Abraham to David the Israelites had increased so enormously in so small an area of land as they inhabited. Contrasting the area of North and South America with that of Palestine, the rate of increase in Palestine within the same length of time as allowed for the increase in America is something marvellous, and fully justifies the remark in 1 Kings iv, 20, that "Judah and Israel were many, as the sand which is by the sea, in multitude." They could not have been less than three million souls, which would be in Palestine 400,000 to the square mile, which is nearly the density of England's population. Now, comparing this with the whole area of America, with but 50,000,000 Indians, the population of the latter place would be nothing as compared with the population of Palestine. I have said that the time for the growth of population in both places was the same, viz., 2,000 years. From Abraham to David was 2,000 years, and from 600 years before Christ, when the two families left Jerusalem for America, until America was discovered, is also just 2,000 years. It is a well-established fact that amongst primitive people, the wider range of country, the more rapid the inhabitants increased. The enormous area of the American continent will account somewhat satisfactorily for the 50,000,000 of Indians, as compared with the three million Israelites. I say somewhat; because the greater wonder is on the side of the Israelites for their increase, considering the smallness of the area of Palestine, compared with the great continent of America, far surpasses the increase of the American Indians. Another great point with Mr. Smith is that the middle of the earth, measuring from Goshen, where the blessing was delivered, is America and nowhere else. This may or may not be true, but it has nothing to do with Ephraim and Manasseh becoming a multitude in the midst of the earth. Mr. Smith says that Ephraim and Manasseh were to become a multitude of nations in the midst of the earth in Joseph's land. I have already pointed out his mistake in connecting Manasseh with Ephraim, becoming a multitude of nations. I have now to point out another mistake in his asserting that Ephraim and Manasseh were to become a multitude of nations in the midst of the earth, in Joseph's land. All that Jacob predicted was that these two tribes were to become "a multitude," not "nations," in the midst of the earth. Now, the Hebrew word "earth," Gen., xlviii, 16, is equally well rendered by "land." (See the Variorum teachers' Bible.) And the Bible tells us that Ephraim and Manasseh did grow into a multitude in the midst of the land of Palestine, but not in America. When Joshua divided Palestine amongst the tribes, he gave to Ephraim and Manasseh the very heart, or middle, of the country. (See map of Canaan as divided amongst the tribes, and compare Josh., 16th and 17th chapters.) Now, why to Ephraim and Manasseh, who were not Jacob's sons, should the middle of Palestine have been given, for the middle was the best part of the whole land. Naturally we should have expected that the sons of Jacob would have had the best part, and not the grandsons, but instead, we find the best part given to the grandsons. Surely it is easy to see that here was the fulfilment of part of the prophecy that in the middle of the land they were to grow. For the other part of the prophecy, that they were to grow into a multitude, Mr. Smith has to wait nearly 2,000 years and then has to go outside the Bible. We shall come nearer home, however, and take Scripture for it.

So numerous had the descendants of Joseph become that they demanded of Joshua more land for their families than he had allotted to them. (Josh. xvii., 14v.) which he gave them (Josh. xvii., 18; see also Gen. xlviii., 22). But besides this, Manasseh had also another portion, on the east side of Jordan (Num. xxxii., 33). Now the whole area allotted to the tribes was 10,700 square miles, of which 4,100 belonged to Ephraim and Manasseh; that is to say, these two tribes owned considerably over a quarter of the whole of Palestine. Nor should this surprise us when we reflect that at this time the descendants of Joseph numbered over 8,000 more persons than any other tribe. No wonder, then, that Joshua called them "a great people" (Josh. xvii., 17).

In conclusion, Mr. Smith himself styles the Indians as "tribes," and that is all they were—they were different tribes springing from the one source, as were the tribes of Israel.

To sum up, I have shown—

1. That Mr. Smith makes a mistake in connecting Manasseh with Ephraim in Gen. xlix., 26.

2. That this mistake alters the whole course of Scripture.

3. That any portion of a people may make themselves into a separate nation by asserting their independence.

4. That the tribes of Israel acted independently of each other, and thus may as fairly be looked upon as nations as the independent tribes of American Indians.

5. That the number and increase of the Israelites is far more wonderful than the number and increase of the American Indians in the same given time.

6. That the Bible itself considers the number and increase of the Israelites as so great that it compares them to the sand on the sea shore.

7. That the Bible shows Ephraim and Manasseh became a vast multitude "in the midst of the land" of Palestine, in fulfilment of Gen. xlviii., 16.

8. That Mr. Smith makes a mistake when he says that Ephraim and Manasseh were to become a multitude of nations in the midst of the earth in Joseph's land.

And yet, in the face of all this Scripture, to suit his own theory, Mr. Smith wishes us to leave Palestine, where all this happened, and to take a voyage to America with the book of Mormon. We prefer, however, to remain in Palestine with the Bible.

Literary Notes.

LITTLE MEN AND WOMEN.—The November number of this sparkling juvenile publication is a thanksgiving number, and the little readers who receive it will find additional cause for gratitude in its beautiful pages, brightened with excellent pictures and with most interesting and apt reading matter for the children. Boston: D. Lothrop Co.; monthly, $1 per year, 10 cents per number.

DOMINION ILLUSTRATED.—The current issue of this handsome pictorial weekly is decidedly one of the best yet. It abounds with a large number of beautiful pictures, delicate and true as photograms, and interesting letter press. Montreal: Desbarats & Son; $4 per year; 10 cents per number at the bookstores.

THE BUDGET.—This sterling insurance journal comes to hand in a greatly improved form. It has a nice purple cover, and its contents are of unusual interest, especially the leading paper on the financial outlook in Canada—the first step in a new departure, involving a discussion in its columns of finance and commerce generally, as well as insurance. To deal with such topics, a number of the best men in Canada have been engaged, such as Sir Richard Cartwright, H. W. Darling, Hon. S. C. Wood, W. D. Matthews and others. In the next issue, December 1st, N. Clark Wallace will deal with "Combines," and every number will have articles of weight and merit on leading financial and commercial subjects. The *Budget* is well fitted to fulfil its mission in Canada.

Address and Presentation.

The Tilbury Centre *Times* of November 9th says:—"On Friday Rev. T. and Mrs. Mason, of Merlin, were given a real surprise. About eight p.m. the parsonage was suddenly filled with ladies and gentlemen each one armed with a basket containing a variety of rich cake. They were soon at home and in a short time a sumptuous feast was ready for all in the house. The chief business, however, was the presentation of a kindly worded address read by Miss Foxton, also one by Mrs. Powell for the church and congregation, the presentation of a valuable fur coat to Mrs. Mason as a token of their regard for her faithful work in the church and Sabbath school. Mr. and Mrs. Mason replied to the address and thanked the friends for their great kindness at this time and for their constant efforts to make their stay at Merlin pleasant and happy." Mr. and Mrs. Mason's friends in Peterborough will be pleased to know that their untiring efforts in the Master's vineyard is being appreciated and recognized in such a tangible manner.

A Tremendous Sensation

would have been created one hundred years ago, by the sight of one of our modern express trains whizzing along at the rate of sixty miles an hour. Just think how our grandfathers would have stared at such a spectacle! It takes a good deal to astonish people now-a-days, but some of the marvelous cures of consumption, wrought by Dr. Pierce's Golden Discovery, have created widespread amazement. Consumption is at last acknowledged curable. The "Golden Discovery" is the only known remedy for it. If taken at the right time—which, bear in mind, is not when the lungs are nearly gone—it will go right to the seat of the disease and accomplish its work as nothing else in the world can. o

BABY'S SKIN AND SCALP

Cleansed, Purified and Beautified by Cuticura Remedies.

Our oldest child, now six years of age, when an infant six months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDIES. The effect was simply marvelous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

Clear Skin, Pure Blood.

No mother, who loves her children, who takes pride in their beauty, purity, and health, and in bestowing upon them a child's greatest inheritance,—a skin without a blemish, and a body nourished by pure blood,—should fail to make trial of the CUTICURA REMEDIES.

I have seen the CUTICURA REMEDIES used for milk crust by a visitor in my house, and can testify that the cure was speedy and permanent. I have also used them myself, for eruptions of the skin on my little child, with satisfactory results in every respect. The skin was broken out and began to assume ugly proportions. I have also heard my neighbors speak of CUTICURA REMEDIES in the highest terms.

HIS OWN REVOLVER DID IT

FRED BARBER ENDS HIS LIFE AT SUSPENSION BRIDGE.

A Member of a Well Known Sheffield Cutlery Firm Blows out His Brains Yesterday Afternoon.

TORONTO, Nov. 17. At 9 o'clock last night this telegram was received at the Queen's Hotel from Coroner Cornell of Suspension Bridge, Ont.:

SUSPENSION BRIDGE, Nov. 16, 1888.

The Queen's, Toronto:

Fred Barber committed suicide here to-night by shooting. Do you know him?

W. H. CORNELL, Coroner.

An answer was immediately sent that Mr. Barber was well known at the Queen's and in this city. He was about 40 years of age and was a partner in the firm of Thomas Ellin & Co., cutlerymen, of Sheffield, Eng., and has travelled for them in Canada for 10 years. He has been in the habit of making semi-annual visits to Canada, and whenever in Toronto made the Queen's his headquarters. Mr. Barber has relatives in Oakville, and with them he spent Thanksgiving Day and returned to Toronto yesterday morning. Not feeling well he summoned Dr. Thorburn, who, after making out a prescription, told him to remain in bed all day. After the doctor left the hotel Barber came down to the office and said he had made up his mind to go to New York. He settled his bill and asked the clerk, Mr. Sam. Thompson, for a revolver which he had in the safe. Mr. Thompson says the revolver was empty when he gave it to Mr. Barber. Before leaving the hotel he told Mr. Thompson that he had been advised by his doctor to remain in his room, but that after he left he felt considerably better and thought he would walk around. It was after this that he resolved to leave the city, which he accordingly did at 2.50 p.m. That was the last the hotel people saw or heard of him until the telegram announcing his suicide last night.

Barber was a man of quiet manner and gentlemanly appearance and address. When Dr. Thorburn was consulted he saw that his patient was suffering from some mental disorder, and observed last evening, when he heard of the suicide, that he was not surprised. The deceased was a total abstainer. The Queen's management has cabled Barber's firm in England of the suicide.

Details of the Suicide.

NIAGARA FALLS, Ont., Nov. 16.—Shortly after the arrival of the Grand Trunk mail train at the New York Central depot, Suspension Bridge, N.Y., at 7.55 this evening, the employes around the baggage-room heard what they thought was the explosion of large fire cracker outside on the north platform. Hiller, a newspaper boy, called Bridge Conductor Wm. Rogers, who was standing a few rods away. The boy, pointing to a man lying down, asked him to keep him on his feet. Rogers, thinking that it was some one under the influence of liquor, attempted to raise him when a revolver fell from the folds of his overcoat and he found the man sweltering in his life's blood, he having deliberately placed the nozzle of a Smith & Wesson 44-calibre silver plated self-cocker revolver into his mouth and discharged the contents. The ball entered his head, passing out behind the right ear. Death was instantaneous.

The suicide was well dressed in a dark brown suit, with a heavy black beaver overcoat, black Christy hat, black, yellow and red and broad stripe necktie. On his left hand he wore a heavy gold ring, with large solitaire diamond setting. He is a heavy-set man, 5 ft. 11 in., and weighs 200 pounds. He has a heavy black mustache, tinged with a little grey. Coroner Cornell was at once notified and took the remains to his undertaking rooms.

In his pockets were a large number of letters and papers, both personal and business, and from them it was learned his name is Fred Barber, of 23 Chipping House Road, Sheffield, England, and was representing the Sylvester Works and Thomas Ellin & Co. of Sheffield. He held Grand Trunk Railway baggage certificate No. 2148, issued by Wm. Edgar at Montreal, Nov. 9, 1888. From the papers it was evident he had put up at the Queen's Hotel, Toronto, and St. Lawrence Hall, Montreal, and had sold a bill of goods for Thos. Ellin & Co., to C & J. Allan, Toronto. Amongst a large number of cards were those of Joseph Martin, Montreal, and Joseph S. Tyler, Galt, Ont., also a personal letter from Peter Barclay, of P. Barclay & Co., patent cylinder lubricators, 19 Pearl-street, Boston, Mass., in regard to some patent that gentleman was securing for him. He had $122 in paper money and a gold watch and chain. He was identified by the trainmen on the G.T.R. mail train as a passenger on their train. They did not notice anything wrong, and he acted anything but like a person that would take his own life. When asked about his baggage he spoke very cheerfully and thanked the railway baggage check man when told about changing cars on the American side and that he would have to get his baggage passed through customs before he could go east. He held a through ticket by the New York Central to New York.

After the arrival of the train at the New York Central depot he went to the baggage-room, as directed, and had his large valise and bundle rugs passed through the customs and checked to New York. He must have gone straight from the room around the west end of the depot to the north side and shot himself.

MANITOBA MATTERS.

The House to Adjourn To-day—Fletcher Acquitted at Brandon.

Confidence Man in Court—Death of Neil C. Love, J. P.—The Gardner Contest.

TORONTO, Nov. 17.—Henry Hunter and Wm. Alexander, the two men who were arrested on suspicion of being confidence experts who have been operating in Toronto and Montreal, appeared in the Police Court yesterday morning, charged with having on Nov. 3 received $75 in a confidence game from H. M. Chalmers, a Scotchman on his way to California, who stopped off at Toronto for a short time. They pleaded not guilty and requested to be tried summarily. A remand was asked for till Nov. 23 by the Crown, which was granted.

Mr. Neil C. Love, the well-known magistrate, druggist and ex-alderman, died suddenly from apoplexy yesterday afternoon at 3 o'clock in the 68th year of his age. The deceased was one of the best known residents of Toronto, and was much respected by his large circle of friends.

Mr. J. M. Conroy, clothier of Montreal, has entered a suit for $10,000 against The Empire newspaper on account of an item appearing in its Montreal correspondence on Nov. 7 containing statements which Mr. Conroy alleges to be derogatory to him and his business.

Inspector Stark has received a letter from the Boston police to the effect that James Kennedy, who shot at Constable Welch in the Ward the other evening, has served ten years in the penitentiary for committing burglary there.

Harry Wynne, who played in the game of poker in which W. H. Payne, the young man from Chicago, lost $142, was fined $25 and costs by the magistrate yesterday.

Annie Ferguson, the woman who was murderously assaulted on Edward-street about a fortnight ago by Edward Bell, is in a precarious condition and may not recover. Bell was again remanded yesterday.

Murrey Gorman, an elderly colored man, who resides at No. 38 Hamilton-street, has made a serious charge against his sister-in-law. Gorman is married to a white woman and has had a series of quarrels with her sister, who lives with them. Recently he was seized with an illness, and he alleges that early in the week his sister-in-law poured a quantity of poison into his medicine. His suspicions had been aroused, however, and he did not use the medicine, but is having it analyzed. The police have taken no action in the case as yet.

Late yesterday afternoon a petition was lodged with the Registrar of the Queen's Bench division court against the election of Mr. R. S. White as the member of the House of Commons for Cardwell. It is understood that the petition alleges corruption by agents. The necessary $1000 accompanied the petition.

Balfour Criticizes Gladstone.

LONDON, Nov. 17.—Mr. Balfour made a speech last night at Leeds. In criticizing Mr. Gladstone's recent speech at Birmingham he said that the alleged facts set forth by the ex-Premier were old and refuted by unblushing impudence. It was monstrous that the very man who had appointed the bulk of the resident magistracy in Ireland, although he well knew that such executives had led to murder or suicide, should in order to obtain a shter from the Birmingham mob hold them up to the odium of their fellow men. Never once in the course of a long speech had Mr. Gladstone darkened into accuracy. A more scandalous performance had never been given by a great statesman.

Nervilline. What Is It?

Nervilline is a combination of the most powerful pain relieving substances known. Nervilline is not a nostrum, but a preparation which has received from members of the medical profession, clergymen, other persons and others most enthusiastic endorsation. If suffering from pain of any kind, external or local, give Nervilline a trial. Nervilline cures toothache, cramps, neuralgia, and almost instantly. Trial bottles 10 cents, large bottles 25 cents, at druggists and dealers everywhere. 6dw16

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman, Sons & Co., Montreal, Wholesale Agents. dw

Among The Indians.

"While my husband was trading in furs he came across an Indian who was taken to his lodge to die. He had inward pains and pains in all his limbs. He gave some Yellow Oil internally and applied it externally, and cured him. It also cured my husband of Rheumatism, and I find it valuable for coughs and colds, sore throat, etc." Mrs. A. Beaw, Cook's Mills, Serpent River, Ont. 2w45d.

A Quarter Of A Century.

For more than twenty-five years has Hagyard's Yellow Oil been sold by druggists, and it has never yet failed to give satisfaction as a household remedy for pain, lameness and soreness of the flesh, for external and internal in all painful complaints. 1eo45d

Institute Literary Society.

A meeting of this society was held Friday afternoon in the institute, Mr. H. Fife, president, occupying the chair. The programme consisted of two papers by Mr J. H. Long, Principal, the first, very able and interesting, being on "Responsible government in Canada"; the second, in the form of a poem composed by himself, on the "Carnival at Montreal," which was enthusiastically received by the pupils. Two instrumental pieces by Miss Noble and Miss Fair, which were well rendered, brought the pleasant programme to a close.

Y. M. C. A. Notes.

Rev. P. Clifton Parker delivered an excellent address to the boys in the Y.M.C.A. hall last night.

To-night Rev. A. C. Wilson, of Ashburnham, will address the young men on "Not Afraid to Stand Alone." The workers of the Y. M. C. A. are requested to turn out in full force. The orchestra will assist.

A Complete Amputation.

Friday night Master Regie Dixon, a lad about twelve, had the top of one of his forefingers clean cut off at the Y.M.C.A. parlors. He was sitting in an adjustable camp chair, his hands grasping the sides. Some mischevous lad sportively pulled out the prop, and the hand being caught between the sharp edges of the frame-work, and about half an inch of his finger tip was cut off as clean as if a tin-smith's shears or a surgeon's lion forceps had operated on it. The tip of the bone was exposed for over a quarter of an inch. Dr. Yelland dressed the wound.

Across the Seas.

This morning, Messrs. Porter Bros. shipped to Mr. Thompson, their agent in Glasgow, Scotland, twelve of their celebrated "O.B. & S" road carts, and yesterday morning they received a cablegram; from Mr. Thompson, ordering twelve carts to be shipped to London, England. Old country horsemen know a good thing when they see it, and Porter Bros. will be certain to build up a lucrative trade across the seas. Their enterprise and success are a credit to the town. These orders are the fruit of the visit of Mr. James Stewart, book-keeper for the firm, to the old country last summer, when he established an agency in Glasgow, which has been followed by the establishment of another in London, England, and still another in Ireland. Porter Bros. road carts now run nearly half way round the world, and it is probable that they will in time complete the circuit and reach our Australian antipodes.

The Last Was Found.

Chief Rossel can bear practical testimony to the value of the local newspapers as advertising mediums. Both evening papers yesterday contained an item enquiring for the young man who saw the burglar Greenfield on the morning of Gough's burglary, and to-day a farmer of Smith informed the Chief to-day that it was his son. He said he saw the notice in the papers and responded at once to the call.

Lost—a small boy about the size of a man, with his father's boots on. He had a carpet bag on his back that contained four railway tunnels, and the contracts for the Trent Valley canal and the Sault Ste. Marie canal, and several dead contractors. When last seen he was streaking it up Hunter street to T. B. Brophy's to get boots for himself and several other contractors, before starting work on the T.V.C. You can come, too, and bring your family and get them boots and rubbers, &c, at 168 Hunter street. 1d

A Card of Thanks.

Capt. Annesley and the staff at "Hazel Brae" desire to tender their grateful thanks for $42.00, the amount of the thanksgiving collection at George street church. This kind remembrance of Dr. Barnardo's good work was wholly unsolicited and unexpected, and, on that account, is all the more acceptable as a token of the friendly appreciation of those who know what a real benefit the institution is to the town from a business point of view. It may not be generally known, and, therefore, it may be well to state, that over six thousand dollars are spent in Peterborough every year by the Hazel Brae Home.

TO-NIGHT.

Oysters.

E. Welsh's oyster parlors are now open for the season. Fresh oysters received daily. Call and have a plate. d

They Mean Business.

Now is the time for the back-yard scavenger to get in his work. The recent rains have softened and mingled the various ingredients that make up an ordinary back-yard surface composition, and the unpleasant mixture should be removed before the frosts set in. The Medical Health officer and inspector announce that they are going to inspect the back-yards of the stores on George street, which as a rule are in a decidedly unsanitary condition, and to avoid any "unpleasantness" it might be as well for the merchants to take the hint and be ready to meet the officers of the law with a clear conscience and a clean back-yard.

The Hit of the Season.

The McGibeny family scored the hit of the season at the opera house last night. The hall was well filled and the unanimous verdict of the audience was that it was the best thing of the kind that has ever appeared in Peterborough. Every member of this remarkably talented family is a born and educated musician, from the infant Master Leo to *pater familias* McGibeny. Every number of the programme was heartily applauded, and had encores been allowed whenever demanded the performance would have lasted till midnight. Variety was the spice of the entertainment, and though the programme was entirely musical nothing seemed to be repeated. The songs and instrumental selections were beautifully rendered, the "Il Trovatore" and "Coopers' Chorus" being gems indeed. Mr. Hugh McGibeny showed himself a master of the violin. The songs by the children, the ladies' and gentlemen's quartettes, trombone and clarionet solos, Miss Allie's musical readings, the ladies' cornet duet—in fact, every piece was worthy of special mention. The audience was delighted and praised the performance without stint. The McGibenys appear at the opera house again to-night. This afternoon they gave a matinee for school children that was well attended. There should be a crowded house again to-night.

St. Andrew's President for 1888-9.

The EXAMINER gives it heartiest congratulations to Mr. Charles Cameron on his election to the presidency of St. Andrew's Society. It is a matter for discussion whether he or the Society is most to be congratulated on the occasion. For thirty years the Society has been seeking to place Mr. Cameron in the president's chair, but though in that time he has filled all the other offices, he managed to escape the presidential noose, preferring to see others occupy the position. Mr. Cameron has all the qualifications for filling the chair. He was one of the four associated with the organization of the society in 1858, and had a chief hand in preparing the constitution; in fact, the manuscript of the original constitution exists to day in Mr. Cameron's hand-writing. He is a Scotchman from the crown of his head to the sole of his foot—by birth, by loyalty to the heather land, and by virtue of keeping alive in his large heart the memories, traditions and associations of the mither lan'. He has always been a working member of St. Andrew's Society, and has done all in his power, and that implies a great deal, to promote its interests, and, doubtless, under his presidency the Society, catching the fire of his zeal, will flourish, and during and at the close of his term the members will have "cause to sing with heart and voice,"—

"And here's a hand, my trusty fiere
And gie's a hand o' thine,
And we'll take a right guid willie-waught
For auld lang syne."

Children Cry for Pitcher's Castoria.

Another Crook Captured.

William Ferguson Arrested for Forgery Committed Nearly a Year Ago.

On the 22nd of December, 1887, a man who gave his name as William Ferguson, passed a forged check upon Messrs. Foote & McWhinnie in payment for a pair of boots. The check was for the amount of $18, and purported to be made out by Mayor Stevenson. The boots cost $2.50 and the fellow taking his change got out of town. On taking the check to the bank it was declared a forgery, and Mayor Stevenson denied all knowledge of the check. It was supposed at the time that Ferguson went either to Port Hope or Omemee; he was a native of the former place, but had told Mr. Foote, from whom he got the boots, that he was going to Omemee. Telegrams were sent to the police of these and other places by Acting-Chief Adams, but no trace of the forger was found. It was afterwards discovered he went north from here.

The affair has since been almost forgotten in town, but Chief Douglass, of Port Hope, who knows the man and has several charges against him, awaited his opportunity. Ferguson, or Lewis Ross, as his right name is said to be, kept shady for a long time, but finally gravitated towards the town of his birth. Chief Douglass at once arrested him, and this morning Chief Rossel received a message telling him of the capture and asking if the authorities here intended to push the charge of forgery. The Chief went down to Port Hope on the noon train for his prisoner, and will return with him this evening.

Ferguson will be prosecuted on the charge of forgery, and when the authorities here get through with him Chief Douglass, of Port Hope, will call him to account for several misdemeanors committed by the prisoner at Sleepy Hollow.

The Pulpit.

To the Editor of the Examiner:—

DEAR SIR,—Attending one of our town churches lately, I was grieved and offended that, from the beginning of the sermon to its end, there was not the mention of "The Name" which is above every name, the Only Name by which sinners can be saved.

Being present at the thanksgiving service, I regretted that no call was made upon the cumberers of the ground for gratitude to the long-suffering One that He had spared and not cut them down, as yet, during the past year. This might not have been so acceptable to the natural mind as a compliment paid to the fair sex by relating a heathen fable, to which Timothy, the preacher, was instructed not to give heed; or as a puff afforded to the political partizan by alluding to the attitude of the rulers at Ottawa to our neighbors on the other side of the line. The same attitude has been maintained commonly by all the people of the Dominion, and no extra credit is due to the former. The President uttered only a *bark* towards Canada, but he *acted* differently towards the British Government by summarily disgracing its representative at Washington for a venial offence. And what was done this week to the American Minister, Mr. Phelps? Why, he was entertained in Glasgow to a magnificent banquet in his honor. *That* is a noteworthy fact.

Church Chimes.

ST. PETER'S CATHEDRAL—At St. Peter's Cathedral, Roman Catholic, there will be two masses celebrated, the first at 8 a.m., the second at 10.30 a.m. Vespers at 7 p. m.

His Lordship Bishop Dowling lectures in St. Peter's Cathedral Sunday evening on "The Church and the Bible."

Laymen's evangelistic services for to-morrow are as follows:—Jail, 9.30 a. m.; Protestant Home, 2 p. m.; Nassau, 7 p. m.; Grange Hall, North Monaghan, 3.30 p.m. All are invited.

George Street Methodist Church, Rev. M. L. Pearson, pastor. Sunday school memorial service at 11 a. m. Parents and friends of the scholars are invited. Sunday school and pastor's adult Bible class at 2.30 p. m. Evening sermon to young men by request of the Y. M. C. A. Subject, "A run after a young man." Ushers in attendance to show strangers to seats. A meeting for young men at the close of the evening service.

Services to-morrow in the Methodist church, Mark street Ashburnham, conducted by the pastor, Rev. A. C. Wilson. 11 a.m., subject, "Pluck, not Luck, the Spirit of Bible Faith." 7 p.m., subject, "The Great Separation at the Great Judgment Day." Seats are all free; all made welcome. Subject for Wednesday evening prayer meeting at 7.30, "The opening of the third seal."

A sermon to young men will be delivered in St. Paul's Church on Sabbath evening next by Rev. E. F. Torrance. Subject, "Is life worth living?" A special invitation is addressed to young men not in the habit of attending church.

Baptist church, Murray street, Rev. P. Clifton Parker, the pastor, will preach morning and evening. Evening subject, "By the gate of Jericho." All seats free; strangers welcome.

Auburn mission services will be held as usual on Sunday evening next at 7 o'clock. Mr. E. Kloome, superintendent, will be present. An address will be delivered by Mr. A. Tebb.

Personal.

Mr. T. L. Bayeur is in town to-day.

Dr. Montague, M.P., of Haldimand, was in town this morning, and left for East Northumberland on the G.J.R.

Mr. Arthur Choate has left the Toronto *World* and accepted a position on a new hardware journal, which will make its appearance shortly.

Mr. J. E. Atkison, of the *World*, gave us a call to-day. He left on the 1.30 train for Campbellford, to report Sir John Thompson, who speaks there this evening.

Mr. Wm. Fowler, of North Monaghan, has leased from Mr. Macpherson, the dwelling lately occupied by Mr. James Alexander, on Stewart street, north.

Mr. Thos. Blezard, M.P.P., is in town to-day. Mr. Blezard has just passed through a severe three weeks' sickness, and to-day made his first appearance in town. His numerous friends will be pleased to know that he is able to be about again.

Lt. Geo. S. Matthews, of No. 5 company, 57th Batt., leaves to-day for Lindsay where he will remain for the winter. Mr. Matthews' many personal friends will regret his leaving town, and hope he will come back with the "flowers that bloom in the spring, tra la." Mr. Frank Matthews will come to Peterborough to take his place in the pork-packing establishment.

Health vs. Business.

R. H. Green, on account of ill health, has decided to sell his entire stock of groceries and provisions at greatly reduced prices, for cash, for the next six weeks, after which time if his health is not improved will offer his stock in trade (*en bloc*) on reasonable terms, etc.

In the meantime parties desiring to procure good fresh groceries, etc., for the holiday season will find it to their advantage to call at the corner of Hunter and Aylmer streets where they will find a well assorted stock to choose from, and which will be sold very cheap for cash.

Apples, potatoes and vegetables always in stock, and will be delivered to any part of the town free of cartage.

Children's Tea.

Last night a children's tea was held in the Charlotte street church schoolroom as a social sequence to the thanksgiving dinner Thursday night. About one hundred young people attended, and after supper a short programme was rendered by a dozen or more pupils of the school, who sang, read and recited to an admiring audience.

the prize given by Kidd, the booter, for finding out how much the public ought to pay for a pair of shoddy boots. The price should not exceed 5 @0/73 cents, so that it pays better to have a pair of King's make of boots (from Kidd) at $1.25 than to pay the shoddy shark six cents for a pair. dw

Market Notes.

Persons who attended the market this morning realised the need there was for a new and more commodious building. The place was a perfect jam the whole time, so much so that business could not be properly or expeditiously attended to. On the square there was also an unusually large turn-out. Every place at the platform was filled. There was a little grain coming in, selling: Wheat at $1.10 and barley at 70c. Potatoes went at 50c, and 55c. per bag; apples 90c. and $1. Beef was plentiful at $4.50 to $5 50 per cwt.; dressed hogs, $5.50 to $6. Butter, and there was lots of it, sold at 23c. and 24c.; eggs, 18c.

Your Opportunity.

G. C. Clark's clearing sale of clothing and gents' furnishings for the next two months will afford an opportunity seldom met with for obtaining first-class new goods at less than cost price. Suits—ordered clothing—from $3 00 to $5.00 less than former prices; overcoats and pants at same rate; 50 dozen ties at 15 and 20c.; shirts from 25c. to 50c. less than regular prices. This is a genuine sale, and an unequalled opportunity to secure bargains.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

—AND—

Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 30c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

THE URGENCY IS GREAT.

AN APPEAL TO THE IRISH NATIONAL LEAGUE OF AMERICA.

President Fitzgerald Issues a Manifesto in Which He Begs for Funds for Parnell's Defence.

LINCOLN, Neb., Nov. 18.—The following circular has been addressed by President Fitzgerald to the various branches of the Irish National League:

"To the officers and members of the Irish National League of America:

"The foulest conspiracy known to British history since the days of Titus Oates has been entered into by the present Government of England, under cover of The London Times (newspaper), for the purpose of thwarting the efforts of Mr. Parnell and his colleagues to secure by constitutional agitation the legislative rights of the Irish people. Failing by every other device known to the tyrant and oppressor to repress the aspirations of men who, struggling for liberty, already begin to breathe its atmosphere, this Tory Government, beaten in its role of the tiger, now descends to the slimy methods of the serpent. Salisbury and his Cabinet have stooped to employ bravos, forgers, perjurers and outcasts of society to forswear the character of the Irish leaders and thus drive them from public life, hoping thereby to force the Irish people to adopt as their only alternative the policy of violence and despair, a policy which in Ireland's poverty and helplessness could only end in her destruction.

"Even in this last infamous design this most despicable of all British Governments begins to fear the exposure of its unexampled turpitude. The Royal Commission created by the Tory Government and framed with a view to accord Mr. Parnell and his friends only that modicum of justice which even corruption must pay to public decency, has proved itself incapable of descending to the level of Tory baseness. The opening statement of the Attorney-General has failed in its evil intent and several of the witnesses have under cross examination made admissions damaging to the enemies of Mr. Parnell rather than to himself and his colleagues.

"The evidence the Irish leaders are prepared to offer will prove beyond a doubt the infamy of the Government and its mask, The London Times, is attempting by means of forged letters to destroy not only the representative of the Irish people but the venerable statesman who, as leader of the British Liberals, has dared to inaugurate a policy of justice and conciliation between the people of Great Britain and Ireland. Baffled at every point of its ignoble and malicious course the Salisbury Cabinet is now striving to keep back the damning evidence held by the Irish leaders by prolonging and extending the commission and constantly increasing the enormous costs in the hope of compelling Mr. Parnell to abandon the cause for want of funds to meet the expenditure forced upon him and his friends.

"Irishmen of America, you have nobly supported and encouraged Mr. Parnell in his contest with the enemies of Ireland. He stands now before the bar of British public opinion to answer the charges of villainous conspirators with English secret service money at their backs. Will you desert him now? Will you by apathy and indifference aid the foul conspiracy that seeks to morally assassinate the foremost man of the Irish people? Concentrated in him to-day are the feelings and aspirations of the world-wide Irish race, and shall Charles Stewart Parnell become the victim of the forger and the perjurer because he has not the money that necessity will compel him to expend to defeat the machinations of his and Ireland's enemies? To harbor such a thought would be an insult to every man of Irish blood. Come, then, to the rescue of the man who stands as the ideal representative of our race to-day.

"We have fought our great constitutional battle in America. The heat of the contest is over, and now let Irishmen of every political shade join in friendly grasp and pledge their aid to our brothers beyond the sea. Every branch of the League is most earnestly requested to raise at once a Parnell defence fund and remit the same as speedily as possible to Rev. Charles O'Reilly, D.D., Detroit, Mich. The urgency is very great. Ireland speaks by the voice of Charles Stewart Parnell. He asks assistance, more for the cause of the motherland than the cause of personal defence. He asks your help in the name of the living and by the memory of the dead. I will answer for you—you never failed Ireland in the past and you will not fail her now.

"JOHN FITZGERALD,
"President Irish National Association."

"RANDY" THE REFORMER.

Cleveland's Conduct in the Sackville Case Defended—The Liquor Traffic.

LONDON, Nov. 18.—Lord Randolph Churchill, in a speech yesterday at Paddington, expressed the hope that the post of Minister at Washington would soon be filled. He said there was no doubt that Lord Sackville had been primarily indiscreet and had made an inexcusable blunder. No fault could be found with the action of the United States Government towards the minister. The American people were essentially just and proud in their relations with other countries. He deprecated the insulting and menacing articles which had appeared in the English press since Lord Sackville's dismissal, and said Englishmen ought to inform the Americans that they cherish no ill-feeling towards them. [Cheers.]

Lord Randolph attached the greatest importance to the maintenance by England of an imperturbable and friendly attitude towards the United States, and he regarded the attitude taken by Mr. Cleveland after the rejection of the fisheries treaty by the Senate as an unfortunate one. The utmost allowance ought to be made for the American position on the Sackville affair in view of the time at which it occurred. Mr. Cleveland's action had been rather sharp, but it did not justify the menaces, sneers and sulks in which the newspapers had indulged.

A war between England and America, he declared, would be more atrocious and dangerous than any war since God created the earth. He trusted that the Government's policy towards the new Washington Administration would be conceived with a view to making the American people our best allies on all questions and producing a durable friendship between the English-speaking races, thus guaranteeing to humanity in turn the blessings of liberty and peace.

Lord Randolph approved of the Government taking measures to repress crime in Ireland, and strongly advocated the restriction of the traffic in intoxicating liquors.

MANITOBA MATTERS.

The Legislature Adjourned to Jan. 31—Drowned While Skating.

WINNIPEG, Nov. 18.—The legislature adjourned Saturday until Jan. 31. The bill empowering the Government to grant aid to municipalities for seed grain purposes to distressed settlers was passed. Premier Greenway said the commission appointed to enquire into the charges against the Government would report in due time.

Two brothers, Walter and Percy Shead, sons of J. H Shead, broke through the ice on the Assiniboine while skating yesterday. Percy was drowned and Walter died from the effects of his exposure during the evening. Percy's body was recovered.

FOR WAR OR FOR PEACE.

THE KAISER'S REICHSTAG SPEECH AWAITED WITH INTEREST.

The Movements of Russian Troops Generating Excitement in Germany—Emperor William's Reception Ball.

BERLIN, Nov. 18.—The Emperor's speech at the opening of the Reichstag on Thursday is awaited with exciting interest arising from the revival of the war alarm. The speech, however, will probably be suffused throughout with a spirit of optimism which ought to extinguish the war scare. The prospects are that the session will be pacific and uneventful. Brisk party encounters are likely to occur over the colonial policy, the Progressists and Socialists combining in hostile criticism. The Centre will join with the Nationalists and Conservatives in support of the Government, especially in relation to the slave trade blockade.

In regard to the movements of Russian troops, The Cologne Gazette in a semi-official communication says: "The scope of the new Russian military orders cannot be accurately known until war experts having clear data on the matter can pronounce upon it. The reasons published at St. Petersburg for the redistribution of the army feebly try to conceal the truth, but in Berlin they are estimated at their true value. The fact that Russia is pushing fresh divisions toward the frontier of Germany demands keen attention, although men of business need not discover in these movements any immediate threat against European peace."

Other papers show the same uneasiness, although they concur in considering it improbable that Russia will openly hasten forward her war preparations at the very moment when she is appealing for a new loan. Nevertheless the money market does not like to see Russia borrowing money. The Bourse in Paris does not consider the loan an unmixed evil, since it arranges to use one third of the whole amount for conversion. This fact modifies the hostility to the loan in Berlin. Still no subscription list will be opened in Berlin and Frankfort. On the contrary the semi-official press advises investors to unload on Paris.

It is hoped that the re-opening of the French market to Russian loans will facilitate the sales of German holders. The Post issues a warning against the investment by Germans in Russian bonds. The paper concludes that the purpose of the loan is to strengthen Russian credit and encourage a belief that her permanent policy will be pacific, so that she may ere long raise a large loan designed for war purposes. Already during the week large amounts of Russian stock have been transferred in Paris, where the buyers appear to be influenced by other than business ideas. A spirit akin to the mad excitement relative to the Panama Canal speculation incites the French investors to risk their money in favor of their beloved ally.

The German and English consular authorities in Zanzibar are about to issue similar proclamations forbidding German and English subjects to contract with slave owners for a supply of slave labor. This edict will be difficult of enforcement, as there are a number of ports and stations where the flags of the men hired for work is doubtful.

An odd incident occurred on the Emperor's visit to Breslau. The Emperor congratulated Burgomaster Friedenburg on the result of the recent election, when the Progressists were defeated by two Free-Conservatives and one National-Liberal. His congratulations seemed to be awkwardly received. The Emperor afterwards on asking the reason learned that Friedenburg was a local leader of the Progressists.

Ex-Empress Victoria and the Princesses left for England at 7.30 this morning. On Friday they went to Potsdam and spent a long time at their devotions near Emperor Frederick's tomb in the Friedenskirche.

A TERRIBLE CRIME.

The Horribly Mutilated Body of a Massachusetts Woman Found in a Barn.

BRAINTREE, Mass., Nov. 18.—A most shocking murder was brought to light this afternoon in that portion of North Braintree known as the "Five Corners." The victim was Miss mehitable White, aged 64, who has been running a large farm in that section and who has lived with no other company than a hired man. At 3.30 o'clock this afternoon Ernest W. Dansett, a nephew of the old lady, called at the farm house, but found the doors all locked, while the neighbors had not seen his aunt about the place since Saturday night. A light was burning in the house. Young Dansett went home and returned with his father and a few neighbors. They broke into the house and found everything in confusion, the rooms having been ransacked. The searchers went to the large barn, the doors of which were also locked, and broke in.

A human hand was found protruding from a pile of hay. The covering was quickly thrown off and the horribly mutilated body of Miss White was brought to light, lying face downward, the feet and hands bound with hay ropes, the throat cut from ear to ear as though by a razor, while there was an ugly wound on the head behind the right ear.

Suspicion points strongly to John Thompson, the hired man, who came to the farm only last Monday from a Nova Scotia agency on Washington-street, Boston, and is described by the neighbors as a hard-looking character. He was seen at 5.30 o'clock last night driving home the cows with Miss White. At about 7.30 neighbors saw him driving rapidly towards the depot with the farm team and shortly afterwards return to the house. His trunk was missing.

The motive was evidently money, but it is known that there was little or none in the house.

THE COLONIAL GOVERNORSHIP.

A Report That Sir John Gorst Was Offered Newfoundland.

LONDON, Nov. 18.—A notice posted outside the Conservative Club at Chatham today says that Sir John Gorst, Under Secretary for India, was offered but declined the Governorship of Newfoundland.

The Times again discusses the Queensland incident. While agreeing that reasonable objections to the Crown nominee should receive careful attention, it believes the less the colonies insist upon a claim to share in the nomination of a governor the better for the colonies. The Spectator urges the Government not to withdraw Governor Blake from Queensland. It says the proposal would lessen the cordial relations and mutual respect of the colonies for the Mother Land. It is suggested that, seeing the great importance of the constitutional question, Canada follow the example of Victoria, and express an opinion to assist the decision of the Imperial Government. Victoria heartily supports entire Imperial responsibility.

Gov. Blake to Stay in Newfoundland.

LONDON, Nov. 19.—It is reported that Henry Arthur Blake, whose appointment as Governor of Queensland met with considerable opposition in the colony, will be retained as Governor of Newfoundland.

The Week's Failures.

NEW YORK, Nov. 16.—The business failures occuring throughout the country during the last seven days, as reported to Dun, Wiman & Co., number for the United States 205 and for Canada 32, or a total of 237 as compared with a total of 226 last week and 275 the week previous to the last. For the corresponding week of last year the figures were 224, made up of 205 failures in the United States and 19 in Canada.

TORONTO TOPICS.

Another Sensation in Connection With Fred Barber's Suicide.

TORONTO, Nov. 19.—A sensation has developed since Saturday in connection with the suicide of Frederick Barber in the New York Central depot, Suspension Bridge, N.Y., on Friday evening. It is learned that on Wednesday last Barber was married at Niagara Falls, N.Y., and that his bride had since mysteriously disappeared. Barber and the woman arrived at the New York Central depot at Niagara Falls on Wednesday, and while they sent their baggage to the Prospect House they sought a minister. About 9 o'clock that evening they called at the residence of Rev. C. S. Shortitz, Presbyterian minister, on Buffalo-street, Niagara Falls, and requested him to marry them. He did so. The lady was magnificently dressed, quite handsome and gave her name as Mary Pattison Hill of Toronto, and her age 21 years. After the marriage ceremony Barber and his bride went to the Prospect House and registered as "Fred. Barber and wife, Sheffield, Eng." They were assigned to Room 23, where they remained until Thursday morning. They then left the hotel ostensibly for Toronto. Nothing has been heard or seen of the woman since then and nothing is known of such a person here.

On Saturday afternoon Thomas Douglas, for protesting against John Gardner's throwing a cat into a tub of water, was knocked down by the latter and brutally kicked about the head. Douglas' condition is serious and Gardner will await in custody the outcome of his brutality.

A despatch was received from Gravenhurst Saturday that James Ions, a photographer's assistant who went to Muskoka on a shooting trip five weeks ago, had been drowned.

At St. James' Cathedral on Saturday morning Mr. Lucius R. O'Brien, the well-known Canadian artist, was united in marriage with Mrs. Parker, sister of Mrs. DuMoulin and Mr. C. Brough, manager of the Toronto branch of the Bank of Montreal, Canon DuMoulin officiating.

Henry James Thorpe, a carpenter by trade, is a prisoner in the Dundas-street police station on a serious charge. It is alleged that on Saturday night he visited his father-in-law, Adam Clarke Cooper, at the latter's residence and after abusing him, fired three shots at him, all of which luckily missed.

KILLED HER FORMER HUSBAND.

Henry W. King, Jr., of Chicago Shot to Death in an Omaha Hotel.

OMAHA, Nov. 18. — At 7.30 yesterday morning a fair haired lady-like woman arrived here from Chicago and registered at the Paxton House as Mrs. W. H. King, jr., and proceeded to King's room. Mr. King has been boarding at the hotel for some time with a woman to whom he was recently married. Calling him to the door some conversation ensued, the new comer upbraiding him, while he urged her to go away and leave him. She finally said with tears in her eyes: Harry will you take me to breakfast, mean you no harm." He repulsed her roughly and started for the elevator. She followed, and overtaking him, drew a revolver and shot him in the mouth. He staggered away. She followed and fired three more shots, when he fell down the stairs leading to the rotunda, dying immediately. She rushed after him with the smoking revolver in her hand. Kneeling by his side, she sobbed: "I've murdered my husband!" Judge Brewer of the United States district court and many guests were eyewitnesses of the affair.

Probably His Divorced Wife.

CHICAGO, Nov. 18.—Henry W. King, jr., or "Harry" King, as he was generally known here, was about 30 years of age and a graduate of Williams College. A few years ago he contracted an unfortunate marriage, as the result proved, causing his relatives much trouble and anxiety. Subsequently a divorce was secured and the supposition is that the shooting was done by the woman from whom King was divorced. Young King was a son of a well-known merchant of that name and had been very dissipated.

SENSATIONAL SCENES.

The Parnell Commission's Work During Last Week Reviewed.

LONDON, Nov. 17.—The Parnell Commission has sat but three days this week and has made no great progress. Sir James Hannen has more than once expressed his impatience at the way in which testimony is given, but nothing can hurry Mr. Murphy or Mr. Atkinson, who examine in chief most of the witnesses. It has, however, been a week of sensations. The evidence of those who suffered from outrages has been supported by those who perpetrated them. Maanlon and Flaherty are novelties in English courts. They swore with coolness to the commission of horrible crimes. Maanlon testified that he was both a Land Leaguer and a Fenian. Flaherty avowed himself a Moonlighter with murder in his program; he too was a member of the Land League. Paying rent or taking land from which a member of the League had been evicted was a capital offence.

Yesterday there were three or four scenes in the presence of what might be called a brilliant house. Lady Mountmorres, after testifying of her husband's murder, fainted under Sir Charles Russell's cross-examination. Then came a tussle between Sir Charles and an Irish peasant witness whose stubborn cunning was more than a match for the great lawyer's trained ingenuity. Then, his temper perhaps a little ruffled by this defeat, Sir Charles made another effort to alter the course of proceedings. Baffled in this, he sat down with the angry remark that the Judges' decision was not conducive to the ends of justice; of which Sir James Hannen wisely took no notice.

Last of all Mr. T. Harrington, M.P., who appears as one of the counsel for some of the defendants, tried to appear as a witness too, or to contradict what he supposed the witness on the stand to be saying. He refused to obey Sir James Hannen's repeated orders to be silent, contradicted him, too, talked him down, and became so violent that the president adjourned the court for ten minutes. Then, under pressure from Sir Charles Russell, Mr. Harrington apologized. It is no secret that Mr. Parnell strongly objected to Mr. Harrington's acting as counsel in the case, dreading, no doubt, such scenes as this, which are not helpful to the Irish cause. But even Mr. Parnell does not always have his own way.

CROSS AND WHITE.

The Case of the Boodlers Arrested in Toronto to go to the U. S. Supreme Court.

RALEIGH, N. C., Nov. 18.—One of the counsel for Cross and White, respectively ex-President and Cashier of the State National Bank of this city, left here yesterday for Washington with a copy of the record in the case and a petition for a writ of error, to be presented to one of the Justices of the Supreme Court. Cross and White, who were arrested in Toronto, were convicted of forgery in the Supreme Court at Raleigh last July. They appealed to the State Supreme Court, on the ground that the State could not try them, they having, as officers of a National bank, committed the offence. The Supreme Court sentenced them to long terms of hard labor on the public roads. The case was argued in the Supreme Court, which fully sustained the lower Court. White, who has for many weeks been in jail here for lack of bail, has at last given it and is at large. The case involves, in a very broad sense, the question of State rights, and this deepens public interest in it.

OTTAWA, Nov. 18.—The Governor-General will open the Hamilton Art Exhibition on Dec. 1 next. Lady Stanley will also be present.

THE "CHEEKY" MORMONS.

THEIR SINGULAR REQUEST DENIED BY THE GOVERNMENT.

An Indian Murderer's Case—Immigration Returns for October—Disappointed Canadians Returning from the States.

OTTAWA, Nov. 18.—The Mormon delegates have left, professedly tolerably well satisfied with the result of their mission, but they have really obtained no special concessions from the Government nor been promised any further favors than would be granted to other immigrants. Their application for assisted passages and for special arrangements with regard to the entry of settlers' effects were not granted and, while of course no objection was raised to Mormons settling in Canada, they were clearly given to understand that they must conform to the laws of the country. One proposal made by them, and which may be regarded as somewhat "cheeky," was that those who already had a plurality of wives should be allowed to bring "their whole families" and be guaranteed from molestation, but they were firmly told that the law of Canada does not allow polygamy and if they infringed the law they laid themselves open to prosecution.

Judge Prince has made a report to the Department of Justice of the trial at Hesquiat, B.C., of an Indian named Isaanaquer for the murder in July last of an Indian boy named Moise. Isaanaquer was found guilty and sentenced to be hanged on Dec. 12.

Immigration returns for the month of October show an increase over the same month last year of 2130 in the total number of arrivals and of 3043 in the number of settlers in the Dominion. The total number of arrivals since January 1 has been 146,607, of whom 78,212 settled in Canada, being an increase of 10,611 over the same period last year. West Lynne appears for the first time on the report, there being 246 entries at that point, all of whom settled in Canada. These are presumably either Canadians returning from the United States disappointed or American settlers blown by the blizzards of Dakota to the more congenial climate of the Canadian Northwest.

Cunningham Stewart, Comptroller of Postal Finances, is ill with typhoid fever.

It is reported that the Government steamer Cruiser will be employed next season as a revenue cutter in the St. Lawrence between Kingston and Montreal and that another vessel will either be built or purchased for service on the lakes.

TO TUNNEL DETROIT RIVER.

A Michigan Corporation Organized With That for Its Avowed Object.

DETROIT, Nov. 18.—Articles of Association of the Detroit Railroad and Tunnel Company were filed in the County Clerk's office yesterday afternoon. By the terms of the corporation the capital stock is fixed at $1,500,000, it being stated that this is more than one-half of the estimated cost of the tunnel and the line of railroad at $3000 per mile proposed to be constructed. There are 15,000 shares of stock at $100 each. The sole object of the company is to construct and operate a tunnel under the Detroit river, together with rails and tracks with switches to connect with the same, the tunnel to extend under the river to the national boundary, where it will be joined by another tunnel to be commenced on the Canadian side by a company which will shortly apply to the parliament of Canada for incorporation. Some doubt exists here as to whether the purpose of the incorporation is to actually build a tunnel or merely boom the value of the principal stockholders' real estate.

A SINGULAR STRIKE.

The Hereford Railway Laborers Demanding Full Pay for Half Time.

SHERBROOKE, Que., Nov. 18.—The Hereford railway troubles have been resumed, and about 125 Italians are now on strike at Paquette, six miles from the border. On Thursday night they secured, by cutting away a portion of the track, two engines which had been in use during the day. They had previously prevented the work of the steam plow.

Their grievance is the singular one of demanding full pay for half time work. During last month the weather was so wet that work could not be carried on for about half the time, but the men consider themselves entitled to full pay.

ANOTHER BREAK.

Lock-Gates in the Cornwall Canal Give Way—Navigation Interrupted.

CORNWALL, Nov. 18.—Another accident has occurred on the Cornwall Canal. About 6 o'clock yesterday afternoon, while the barge Cleveland was entering through Giller' lock the gates gave way, causing a stoppage of navigation. A force of men was put to work immediately to repair the damage and will be kept at it until it is completed. The gates will probably be repaired by noon to-morrow, when navigation will again be resumed. The last of the boats that had been delayed at the bend of the river before repairs on the break were completed had just passed through.

A Town Terrorized by Tramps.

SPRINGFIELD, Mass., Nov. 18.—A gang of 23 tramps boarded a local freight train a little after noon yesterday on the Boston and Albany Railroad between this city and Indian Orchard. When the train stopped at Indian Orchard they were obliged to get off while the switching was going on.

They attempted to board the train again and a brisk fight ensued. The train hands beat the men off with coupling pins and the ruffians retaliated by throwing stones until the train got out of reach. They then terrorized the community generally and threw stones at the depot. Help was summoned from this city, and a special train was made up with a force of policemen on board. The tramps were met just west of Indian Orchard station and the officers gave chase, each single out a man. Six were captured in this way and City Marshal Clune shot and killed a seventh.

Fire at Teeswater.

TEESWATER, Nov. 17.—The saw mill, stave, heading, shingle and lath factory, owned by W. R. Thompson and operated by Thompson, Fessant & Co., was totally destroyed by fire last night. By strenuous efforts, aided by a heavy snowstorm, the large stock of heading, lumber, etc., was saved. Loss, about $5000. Insured for $1000.

Look Out for These Fakirs.

WINDSOR, Nov. 18.—The police have been notified to look out for Geo. Elmer and W. Saumpter, who are accused of swindling Londonites out of over $200. They pretended to be artists, and went round taking orders for crayon pictures, collecting $5 in advance on each picture and never delivering any.

Miss Macdonald Dead.

KINGSTON, Nov. 18.—Miss Macdonald, Sir John's sister, died last night. She had been ill for years, but had wonderful tenacity for life. On several occasions it was thought death was near, and Sir John came to the city to bid her farewell, but she gained strength. A week ago the Premier came to Kingston thinking the end was near, but after remaining two days returned to Ottawa, she taking a

AN EPISCOPAL ADDRESS.

His Lordship Bishop Dowling on "The Church and the Bible."

A Large Audience—An Eloquent Address—A Subject Charitably Treated, for a Charitable Object—A Substantial Addition to the Funds of the Society.

Last night St. Peter's Cathedral was filled with a large audience, which embraced a large number of Protestants, attracted by the announcement that His Lordship Bishop Dowling would, on behalf of the funds of the St. Vincent de Paul Society, deliver an address on the subject of "The Church and the Bible." Within the sanctuary rail were seated Rev. Father Keilty, Keinemore; Rev. Father Lynch, town, and the resident clergy. The usual vesper service was sung by Rev Father Dubie. At the conclusion of the service, which was somewhat abbreviated, the address followed.

His Lordship spoke from a platform directly in front of the altar. He was attired in what is known as the court dress of a Roman prelate, viz., cassock, rochet and purple mantelletta, over which he wore the pectoral cross and chain.

Bishop Dowling is a most pleasing speaker. His vocabulary is apparently inexhaustible, and he is never at a loss for a word. He uses simple, plain language, which is however, so employed as to give the most forcible effect. His arguments are admirably arranged, and with a logical sequence which permits the most unlettered, to follow him with an intelligent appreciation of the points, sought to be impressed. His voice has great carrying power, his lowest tones being audible in the remotest parts of the church. His style is calm, dispassionate and argumentative although at times he warms with his subject and ardently delivers a few passionately eloquent periods. His Lordship's address last night was illustrated with numerous anecdotes. He is a *capital raconteur*, and was personally concerned in the most of the anecdotes related. Whether regarded from the standpoint of either the orator or the logician, the address was an able one, and even those who could not assent to his conclusions, would agree that disproof would be no easy task. The following synopsis will give an idea of the arguments adduced but will not afford an idea of the literary and rhetorical finish of Bishop Dowling's address:

He began by saying it gave him very great pleasure to be allowed to lend any services at his command in aid of a charity for the relief of the deserving poor in our midst; so wisely and efficiently administered as that under the direction of

THE SOCIETY OF ST. VINCENT DE PAUL,

under whose auspices they had met this evening. Charity, like every other virtue, was often abused. Bold and bad people often imposed on a charitable community, but the officers of this society knew how to discriminate. They sought the abodes of poverty and suffering, enquired into their wants and quietly and systematically supplied them with food, clothing and fuel, without extravagance and without ostentation. We are thus assured that our contributions reach the deserving poor, and obtain for us their prayers and gratitude and the blessing of our Heavenly Father, who has confided them to our care. Such being the object of the lecture, he would now proceed to the subject announced for discussion, "The church and the Bible." He would define the word church, which had many meanings. Although the term embraced all the faithful, yet, as he was going to discuss the relation of the church to the Bible, he meant to restrict it to the pastors of the Catholic Church, organized by our Lord Jesus Christ Himself into a living corporation, for the purpose of teaching all nations. With this church or corporation Christ promised always to remain, and that he would send the Holy Ghost to abide with it forever.

An impression widely prevailed among our separated brethren that this church always was and is now the enemy of the Bible. Was this charge true or was it false? If true, the church was the enemy of God, and he should cease to be a Catholic and even a Christian. For if this charge be proved, then it would necessarily follow that Christ failed to keep His word, and if He failed to keep His word then Christ and Christianity were alike false, and there was no resource but downright infidelity. If, on the contrary, the charge was proved to be false, then those knowing it to be such bore false witness not only against their Catholic neighbors, but against the Holy Ghost indwelling in His church. And a sin against the Holy Ghost, we were assured by our Lord, will not be forgiven either in this world or in the world to come. That the statement was false would be clearly seen from the propositions he would now proceed to establish, namely, that

THE CATHOLIC CHURCH WAS THE BEST FRIEND OF THE BIBLE.

In proof of this proposition, His Lordship proceeded to show:—Firstly.—That without the Catholic church, Christians would have no Bible at all at the present day, since it is to her, and to her alone, we are indebted for its preservation. Secondly.—Had she been the enemy of the Holy Scriptures she could long ago have destroyed or mutilated them, since she, and she alone, had possession of them for fifteen hundred years before Protestantism came into existence. Thirdly.—She not only preserved the original Scriptures, but she also had them translated into the languages of the peoples she evangelized—first into Latin, the language of the Roman Empire, and, after its downfall, into Saxon, German, French and Italian, and the tongues of other nations that arose amid the ruins of the fallen empire. Fourthly.—That after the invention of printing (an invention due to a Catholic) she ordered the sacred books to be given to the press, and had

NO LESS THAN TWENTY EDITIONS OF THE BIBLE

published in Germany alone before Martin Luther was born. Fifthly.—The Catholic church was not only the preserver and protector of the Holy Bible; she was also its witness, its interpretor and its dispenser—for she alone could bear witness to its authenticity and its inspiration; she alone was authorized to teach and therefore to interpret revealed truth; and she alone was authorized to dispense it. Sixthly.—As a matter of fact it is she alone that converted from Paganism all the nations now Christian, and it was she who furnished their first copies of the written word of God.

In answer to the objection whether or not the church sometimes forbade the reading of Holy Scripture, he answered yes. As often as the church found that they were abused she legislated against the abuse. Thus in the 13th century the councils of Toulouse and Tarragona forbade the reading of the Bible in the vernacular for two reasons: 1st, because the version used was a corrupt one; and 2nd, because the Albigenses (who taught the existence of two Gods, an evil one and a good one, and who denounced marriage as unlawful, etc.) were corrupting the minds and hearts of the faithful. But this prohibition and all others made at times by the church were directed not against the use but the abuse of the written word. In the middle ages when manuscript books were very precious and it was impossible for one family in a thousand to have a copy, she ordained that each church should have a copy of the Bible attended by a chain to a pillar where all might see and read. This was the origin of the story of the chained Bible which was kept for public inspection in the church, much in the same way as newspapers were kept locked up in the desks of our public reading rooms, where all might have recourse to them. The Catholic church treated the holy Scriptures with reverence. Their priests and bishops were sworn to read portions of it every day of their lives and to expound it to the faithful on Sundays and festivals. All the fine arts of painting, sculpture, music and architecture, and all her popular devotions such as the rosary and "way of the cross" were employed by the church as a powerful means of impressing on the minds of the masses

THE GREAT TRUTHS OF SCRIPTURE.

The Scriptures contained, as itself declares, things "*hard* to be understood, which the unlearned and unstable wrest to their own destruction." Hence the necessity of an infallible interpreter. Such an interpreter Jesus had given. It was his church which St. Paul declared to be the pillar and the ground of truth. Whilst the separated brethren professed to look to their Bibles alone for what they are to believe, Catholics have the Bible and the church as well. In the Catholic rule of faith was the revealed word of God, both written and unwritten. The church was in the world before the Bible was written, had received its commission to teach from the Son of God himself, and would continue to exercise the office of teaching all truth, even should every copy of the Bible suddenly disappear from the earth. So far, said his Lordship, was the church from discouraging the reading of the Holy Bible by the faithful with proper disposition, that she even invited and exhorted them to read it and profit by its lessons that they might be able to give a reason for the hope that is in them. Let any one read the words of Pope Pius VI. in a letter addressed to Martini, the author of a translation into Italian to be found in the preface of most of our English Bibles, and judge for himself whether or not it be true, as our modern Bible societies are fond of saying, that the Pope will not allow the Catholics to read the Bible. Here is what the Pope says: "You judge exceedingly well that the faithful should be excited to the reading of the Holy Scriptures; for these," he adds, "are the most abundant sources, *that ought to be left open to everyone*, to draw from them purity of morals and of doctrine." His Lordship next proceeded to point out the harmony that existed between the Bible and the leading doctrines of the Catholic church, summing up by the declaration that as he had shown that the church was the preserver, the guardian, the witness, the interpreter and the dispenser of Holy Scripture, it was evident that, instead of being an enemy, she had always been, and was still, the

BEST FRIEND OF THE HOLY BIBLE.

His Lordship concluded by saying that he was not surprised that so many Christians of other denominations disliked the Catholic church, inasmuch as she was constantly misrepresented to them as the enemy of the written word of God. He hoped that his explanations would tend to remove many misconceptions. He thanked God that in Canada the vast majority of our people were believers in the divinity of Jesus Christ and in the inspiration of the Bible. He loved the Bible, he reverenced the Bible, and he had no respect for the man that repudiated it. When a notorious infidel on the other side of the line lately attacked the sacred scriptures and endeavored to bring its doctrines into contempt, it was a well-known fact, admitted by all the Protestant clergy, that by far the best book written in defence of the Bible was the production of a Catholic priest named Father Lambert. So far from discouraging his separated brethren from reading their Bibles, he would even, in the name of the Catholic Church, say to them, as our Lord, in John, v, 30, said of old, about Himself:—"Search the scriptures, for ye think in them to have life everlasting; and the same are they that give testimony of me." His Lordship closed his address with the following words:—"May the blessing of Almighty God, Father, Son and Holy Ghost descend upon you all and remain with you forever. Amen."

At the conclusion of the lecture, Miss Annie Dunn sang, with excellent taste and execution, Watson's beautiful "Ave Maria," with a violin obligato, performed by Prof. Donoet, choir director, under whose leadership the choir is steadily improving. The latter rendered during the service, in capital style, Lambilotte's grand *Magnificat*. Miss Kitty Hurley, in the absence of the organist, Miss Ealand, through illness, presided at the organ, and, for so young a performer, acquitted herself with great credit. With the "Benediction of the Blessed Sacrament" the services concluded.

The amount added to the funds of the society was the handsome sum of over $200.

Norwood.

Jas. Moore, Esq., will probably be a candidate for the reeveship of Asphodel at the approaching election.

At the annual meeting of the Y. M. C. A., Dr. S. P. Ford was elected president and Mr. A. Finlay secretary.

Mr. Chas. McDonald, who recently removed to this place from Westwood, is converting the Murphy block on Peterborough street into a first-class hotel. Work was commenced on the building on Monday.

We understand that the Methodist body of this place, whom we mentioned in a recent issue as having decided to build a new church, will build the new structure on the church property on the corner of Peterborough and Colborne streets. The new building will cost in the neighbourhood of $15,000 or $20,000.

The late Joseph Jory, who died last week, was born in December, in 1834, of English parents. He lived in this township until he removed to Norwood a few years ago, where he died. He passed through trying afflictions with Christian fortitude, his wife and several members of the family dying in a short time. Not long after the death of his first wife he manifested symptoms of that unusually fatal disease, diabetes, but under treatment, he apparently completely recovered, and was married to his now sorrowing widow, who is a daughter of Mr. Ivison, of Peterborough, formerly of the township of Smith. Visiting Peterborough during the fair, he caught a very severe cold, which was followed by an acute attack of his old enemy, diabetes, to which, after an illness of six weeks, he succumbed. Mr. Jory was a very quiet, unassuming man, but a truly good citizen, whose place it will be exceedingly difficult to fill. He was an ardent friend of the cause of temperance, and nearly all his life a member of the Methodist church. For many years, and at the time of his death, he was a member of the quarterly official board of this circuit. He died as he lived, and being dead, he yet speaketh. His funeral was a very large one, all classes of the community showing their appreciation of his worth. Rev. Mr. Clarke and Rev. Mr. Carmichael conducted the services at the house and at the cemetery. Memorial services were held in the Methodist church in this village and in the South Dummer church.—*Register.*

Shall Women Be Allowed to Vote?

The question of female suffrage has agitated the tongues and pens of reformers for many years, and good arguments have been adduced for and against it. Many of the softer sex could vote intelligently, and many would vote as their husband did, and give no thought to the merits of a political issue. They would all vote for Dr. Pierce's Favorite Prescription, for they know it is a boon to their sex. It is unequalled for the cure of leucorrhœa, abnormal discharges, morning sickness, and the countless ills to which women are subject. It is the only remedy for woman's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money will be refunded. See guarantee on wrapper around bottle. 8

SUN

LIFE ASSURANCE COMPY OF CANADA.

HEAD OFFICE, MONTREAL.

Both in Magnitude and Profitableness, the Business for 1887 has been almost everything that could be desired.

The life policies now in force are 7,196 for $10,873,777.00, on 6741 lives. We have moreover $3,207,000.00 insured under 1,840 accident policies, so that the total current contracts of the Company are 8,909 for $14,081,377.00.

The income for the year shows the very large increase of $122,331.23 over the figures of 1886, the total being $495,981.54. The revenue is now half a million dollars per annum, or as mentioned in the report, over $1,600 for every working day in the year, and even this he believed was but a mere introduction to what it will be in a few years hence. The gains from time to time are well illustrated by the following table:—

Period	Gain in income.	Gain in assets.	Gain in surrenders.
1872 to 1876, four years	$ 54,611 21	$169,422 69	$1,140,743 99
1876 to 1880, four years	29,580 67	198,126 29	1,167,288 14
1880 to 1884, four years	126,976 84	362,924 21	2,982,224 99
1884 to 1887, three years	217,451 89	675,267 24	4,228,273 05
Total in 1887	$428,621 54	$1,750,694 45	$10,873,777 00

It is very pleasing to notice that the gains for the last three years only are 60 per cent. more than those of the preceding four years.

DARING AND SUFFERING.

[CONTINUED]

Wilson was their spokesman. He asked permission to say a word before death, and it was freely accorded. Possibly the surrounding hundreds expected to hear some word of pleading or confession—some solution of what still seemed mysterious in the great raid. But if so they were mistaken. I have received an account of this address from more than a score of persons who were present—soldiers, citizens and negroes—and it made the same impression on all. Wilson was a born orator, and he now spoke with marvelous skill and persuasive eloquence. He had conquered fear and banished all resentment; and his calm and dispassionate earnestness was such as became a man on the threshold of another world.

THE SPEECH OF WILSON ON THE SCAFFOLD.

He began by telling them that though he was condemned to death as a spy, he was no spy, but simply a soldier in the performance of duty; he said he did not regret dying for his country, for that was a soldier's duty, but only the manner of death, which was unbecoming to a soldier. Even those who condemned them well know that they were not spies; then leaving the personal question, he declared that he had no hard feelings toward the south or her people, with whom he had long been well acquainted; that they were generous and brave; he knew they were fighting for what they believed to be right, but they were terribly deceived. Their leaders had not permitted them to know the facts in the case, and they were bringing blood and destruction upon their section of the nation for a mere delusion. He declared that the people of the north loved the whole nation and the flag, and were fighting to uphold them, not to do any injury to the south, and that when victory came the south would reap the benefit as well as the north. The guilt of the war would rest upon those who had misled the southern people, and induced them to engage in a causeless and hopeless rebellion. He told them that all whose lives were spared for but a short time would regret the part they had taken in this rebellion, and that the old Union would yet be restored, and the flag of our common country wave over the very ground occupied by this scaffold.

There were tears couring rapidly down the cheeks of many Confederate soldiers; the emotion of a number of negroes who were a long way off, yet in easy hearing of the trumpet like voice, was almost uncontrollable. One of them said to Capt. Sarratt two years after, "Massa, if that man had only spoke a few minutes longer they could never have hung him in the world." A rebel officer was heard to mutter, "Why don't they stop him? What do they allow such talk for?" But it was not so easy to stop a dying man, whose words were so kind and persuasive, and whose eloquence was of that highest type which throws a spell over friend and enemy.

So the tide of truthful speech flowed on till many of the poor men in the rebel ranks heard for the first time the full arraignment of their own guilty government with a clearness which carried conviction, and then with the bold prophecy of coming triumph for the glorious cause—a prospect which seemed to lift the speaker above all fear of his own death—the hero closed, giving the sign for the deed of shame—dying with this glorious prediction on his lips!

No coffins had been provided. As soon as life was pronounced extinct the bodies were laid in the shallow trench, just wide enough for their length, and long enough for all the seven to lie close together—a brotherhood in death as they had been in life. Here the earth was filled in, and they remained till, at the close of the war, the national government removed their bodies to an honored spot in the beautiful national cemetery at Chattanooga. A monument should mark both this spot and that in Atlanta, where heroism in death shone so brightly.

CHAPTER XXIII.

CONVERSION AND RELIGIOUS EXPERIENCE.

Those who remained in prison suffered scarcely less than their comrades. The bitterness of death was upon us also. We did not think that vengeance would stop with those who had fallen. The hope we had so long cherished was overturned at a blow. In Knoxville we had urged that all should be tried together, or that the sentence of one should stand for all. There was no reason for giving any preference to one over another, and no indication that such preference was to be given. But even if we had not believed that only a few days or hours of prison life lay between us and the scaffold, the parting from our loved friends, whose voices were yet lingering in our ears while they themselves had passed beyond the gates of death, was enough to break the stoutest heart. There were tears then in eyes that would not have quivered in the presence of any danger.

But I could not shed a tear. A cloud of burning heat rushed to my head, and fever seemed to scorch through every vein. For hours I scarcely could realize where I was or the loss that had been suffered. Every glance around the room, revealing the vacant places of friends, would bring our sorrow freshly upon us again. Grief for our comrades and apprehension for ourselves were inseparably blended. The suddenness of the shock by which we were separated seemed to reveal a spirit that forbade us to hope, while it was a terrible aggravation of the pain of parting. Thus the afternoon hours slowly drifted by under a shadow too dark for words. No one ventured as yet to speak of hope.

The first distraction in this terrible hour we owed to our friendly jailer. He asked us if we would like to be all put in one room.

We were eager for this privilege, and he brought over the eight who were in the front room and placed them with us. We were now fourteen, including Capt. Fry, of East Tennessee fame, who was placed with us. There would have been much to talk about in our separate experiences in Knoxville and Chattanooga at any other time, but now the thought of the lost swallowed up everything else.

...T WALK HOME.

K. of L. Delegates Reflective Their Mileage —Barry's Expulsion.

INDIANAPOLIS, Nov. 18.—The Committee on the State of the Order got the floor ahead of the Grievance Committee, and the Saturday morning session of the Knights of Labor Convention was devoted to hearing its reports. On the recommendation of this committee the treasurer was ordered to pay delegates' mileage on the last day of the session at the rate of 4 cents a mile each day. In view of the balance of $49.39 reported as being in the treasury some fears have been expressed by outsiders that there would be no money on hand to pay mileage. This morning it was announced that $500 had been received by the treasurer since Nov. 1, and of this amount $355 was for new charters, showing over twenty-five new assemblies within about two weeks.

Representatives of the glass men, District Assembly 300, announced that in case of need they had $100,000, from which the General Executive Board could draw as much as needed. District Assembly 48 of Cincinnati offered $3000 as a gift and others volunteered various sums, making the aggregate $150,000. Nearly every delegate tried to make some offer and by so doing, prove the falsity of certain newspaper stories regarding the bankrupt condition of the order. Since this showing the members are jubilant and are not slow in showing their good feeling.

At the afternoon session the Committee on Appeals and Grievances got the attention of the General Assembly and reported the Barry case. Although not strictly speaking a follower of Barry, George Schilling of Chicago took the floor in his behalf and made a strong speech in favor of the expelled member. General Master Workman Powderly made a careful statement of his side of the case. Many other able speakers followed and the debate was at times rather warm but for the most part in good temper. At the end of the debate the roll was called and the General Executive Board was sustained by a vote of 122 to 24. It is claimed by various delegates that these figures do not exactly represent the relative strength of the Barry and Powderly forces, for of the 24 they say not more than half-a-dozen are actually Barry's close friends. It is clearly seen that Powderly is growing stronger hourly and will probably meet with little opposition.

Mr. Barry declared last evening that he would take the case to the high court of public opinion. He believed, he said, that when the truth was known the men who control the Knights of Labor and are living at the expense of poverty will be considered the most infamous scoundrels that ever live.

This evening a lecture on "Temperance" was given by General Master Workman Powderly in Masonic Hall.

Thomas B. Barry, the expelled member of the General Executive Board, was hard at work all day in his room and late this afternoon gave to the press a long article explaining his position and repeating his former statements against the Powderly administration. He denies that he had advocated strikes before D. A. 125 of Toronto, as was claimed against him in a letter from that assembly.

THE WONDROUS WIRES.

Sir Andrew Clarke in London in Consultation With a Victoria (B. C.) Physician.

VICTORIA, B. C., Nov. 18.—The Canadian Pacific Railway Company's telegraph was to-day brought into service in a manner that suggests wonderful possibilities in the future. Lord Ennismore, heir to the Earldom of Listowel, is lying at the point of death, at the hospital here, with typhoid fever attended with other complications. Through Sir Donald A. Smith, who is now in London, a telegraph circuit was made from London to Victoria by the Mackay-Bennett cable and Canadian Pacific Railway telegraphs, and Sir Andrew Clarke in London was placed in direct consultation with Doctor Hannington in Victoria. A conversation lasting three hours concerning the distinguished patient's condition was carried on. An unbroken circuit was worked from Victoria to the Mackay-Bennett cable office in New York, where the messages were repeated to London. Replies were received in 3 and 4 minutes

Lord Ennismore, though still in a dangerous condition, is somewhat better to-day.

Nerviline. What is It?

Nerviline is a combination of the most powerful pain relieving substance known. Nerviline is not a nostrum, but a preparation which has received from members of the medical profession, clergymen, the press, and others most enthusiastic endorsation. If suffering from pain of any kind, external or local, give Nerviline a trial. Nerviline cures toothache, cramps, neuralgia, and almost insanity. Trial bottles 10 cents, large bottles 25 cents, at druggists and dealers everywhere. 6dw46

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Mr. Devlin has still on hand a good assortment of horse blankets, and those requiring blankets will save money by buying from Devlin, opposite the post office. 1d2w47

Always a New Subject.

The Gospel has been preached for 1800 years and still its truths are expounded in a million pulpits. The subject is ever new, ever full of inexhaustible interest. With all reverence the same may be said of Belleghem's furniture, there is always something to be said about it worthy of public attention. Therefore the attention of the public is again called to the fact that at Belleghem's mammoth warerooms, Hunter street, there will always be found a superb stock of every kind of first class furniture, from the most modest articles of furniture to the most elaborate. While the goods are of the very best in material, make, style and finish, Belleghem's immense trade and large sales enables to sell his goods and with a living profit, at prices which would be ruinous to smaller dealers. Reference has been made before to the great completeness of Belleghem's manufacturing facilities, to his stock of excellent materials—his facilities for thoroughly seasoning the different woods employed beyond the possibility of shrinkage, to his splendid equipment of machinery, his large staff of skilled workmen, and, in a word, to his unequalled facilities to perform any ordered work promptly and in the most workmanlike and artistic manner. When you want to buy first-class furniture ready for use, or to order special articles, with a guarantee of satisfaction, in both cases, go to D. Belleghem, the furniture king.

Children Cry for Pitcher's Castoria.

St. Andrew's Society.

To the Editor of the Examiner:

SIR,—In a paragraph in Saturday's issue, in which you make kindly reference to myself, and which I consider much too flattering, you will, perhaps, permit me to make a little correction in a matter of fact. The constitution of St. Andrew's Society, referred to, is not in my hand-writing, although I am in possession of a memorandum of the proceedings in connection with the formation of the society, including a first draft of the constitution. Yet, the credit of preparing the same for the press is due, to the best of my recollection, to Mr. Alex. Murray, now of Montreal, and a Mr. McArthur, of whom I have lost all trace. There were also others, some of whom I know to be dead, who, each in turn, used their best endeavours in connection with the (to them) pleasant duty of placing the society on a sound basis. Hoping you will give me space for the above,

I remain, yours faithfully,
C. CAMERON.

November, 19th, 1888.

A Refutation.

To the Editor of the Examiner:

DEAR SIR,—Will you kindly give me space to make an explanation? For some time past several parties have been insinuating, if not actually making the statement, that I had been caught sending watered or skimmed milk to the Keene cheese factory by the Inspector, who visited our factory during the summer. Now, having heard these reports, I at once communicated with Inspector Rollins and received the following reply:

NAPANEE, Oct. 13th, 1888.

Mr. W. J. Miller, Keene:

DEAR SIR,—I am sorry there is any misunderstanding about your milk. The reason I did not go to see your cows milked, was, that I examined the milk in your can that morning and I was satisfied that it was not tampered with. I tested it again at the factory and found it the same quality as you sent the morning previous. Your cows at that time were giving poor milk, which exonerates you from all blame in the matter. Hoping this will be satisfactory, I remain,

Yours, etc.
ROBT. ROLLINS,
Milk Inspector.

It is true that, when the inspector visited our locality, he found a considerable quantity of the milk very poor, and when the inspector was introduced to me by Mr. Wood, the owner of the factory, he told me my milk was poor, and asked me how I accounted for it. I replied by saying that the only way I could account for it was that, since the pasture had failed, I had, night and morning, liberally supplied my cows with bran and corn meal slop, which might have decreased the quality, as it had increased the supply.

I just wish to say, in conclusion, that I have supplied milk to the factory for eight years, that I never placed one drop of water in the milk, that I never took one drop of cream off any milk sent to the factory, and I defy any person to prove to the contrary. I have had two men in my employ for a part of this time, and if any attempt had been made to dilute the milk, surely they would have had an opportunity of knowing.

I hope this will set at rest any rumours that have been going about. Myself and family are prepared to make affidavits to the truthfulness of my statement, if necessary.

Yours truly,
W. J. MILLER.

"Good morning. Thought I would call you up and ask where you were Saturday evening. You promised to meet me at the 'Y.'"

"Oh, that's where you were! Well, I have no doubt that was a most enjoyable affair."

"Did we have a pleasant time? Yes, very! Mrs. Seward filled her own number by that lovely pathetic song, 'A Handful of Earth.' Later she generously filled Mr. Duff's place with another popular Irish song. Miss Kathleen Duff pleased every one with her instrumental selection, and the games, cake and coffee gave the usual bright home-like air to the rooms."

"Oh! there was an unfortunate accident about that reading of Mr. Herbison, for which the President of the "Y" is responsible. Anyone wishing particulars is requested to call upon that officer."

"Perhaps it was a fortunate accident did you say? So that you and others who were not there may have the pleasure another time? Well there's comfort in that reflection, but don't miss one of these evenings when you can be there, for they promise that a fortunate accident of that kind is not going to be repeated suddenly."

"Next Saturday night we are going to arrange for a programme of Scotch selections. Tell all your friends what a cosy time we have when we go. I'll call around for you if I get out in time."

"That's all, thank you. Good morning."

Ashburnham Brevities.

One of the residents of Lake street took a midnight flit last week. Some of the business men feel sorry they had ever formed an acquaintance with this gentlemen, as they have used a good deal of paper and ink on him with small returns. The old story—long credit.

Street Inspector Craig has the placarding of the street corners nearly completed. The work is well done, as is all work entrusted to Mr. Craig. The only pity is that the village fathers had not worked in concert with the town fathers and had the houses numbered.

The farmers coming from the direction of Otonabee to town are complaining of two stone-piles, one on each side of the Grand Junction railway on Maria street. They say it is very difficult to draw a load over with with waggons, and that in the winter the snow will melt on these stones before any other place and leave it in such a condition that it will be impossible to draw loads over on sleighs. It would be wise for the street inspector to send men to break these stones and cover with a light coat of fine gravel. It will be a detriment to the business men of Ashburnham to have all the Otonabee farmers come to town by way of the locks bridge, but what is Ashburnham's loss is Peterborough's gain.

While on the stone question, it might be well to ask what's to be done with that ornamentation of stone piles on the old market square. Might it not be well to have them built up as a kind of fork, in case the villagers should be attacked by their republican neighbors?

Mr. H. Calcutt has let the contract to Mr. John Stevenson, boat builder, for the building of another new boat, to be ready for navigation in the spring. Mr. Calcutt intends to boom the lake traffic next season, and it is hoped his enterprise will meet with unbounded success. Mr. Calcutt is one of those men that no town can well do without.

The Bishop's Lecture.

The amount realized at the lecture last night amounts to $160 and not $200 as stated elsewhere in this issue. The "form" containing the larger figures was printed before the correct amount was supplied. The St. Vincent de Paul Society desire to specially thank the ladies of the Sodality, who were so successful in selling tickets.

—The Otonabee Canoe club meets to-night at 7.30 sharp. Full attendance requested.

FOOTBALL.

An exciting game of Association football was played here Thursday between the first eleven of Victoria University, Cobourg, and the Norwood High School team. The ball was faced at 2.30. During the first half the visitors pressed the home team hard, but without any success. The ball was kept moving alternately from one goal to the other very often, giving the backs of either side considerable to do. Half time was called and no goals were yet scored. The home team now appeared to be gaining ground. Many times the ball was found dangerously near the Cobourg goal. At length by sharp passing and combined play a goal was scored for Norwood. From this out the home team had decidedly the advantage, and more than once came very nearly scoring. However, when time was called the score still stood: Norwood, 1; Cobourg, 0. The game was a friendly, but strongly contested, one throughout. The Norwoods owe their victory to their combined play. The Vics. do more of the individual work. The following composed the teams:—

Cobourg.		*Norwood.*
Lister	goal	Hutchison
Snider, Carson	backs	Finlay, Renwick
Taylor, Drope	backs	Smith, Roberts
Irwin, Waite	right wing	Brackenridge, Guerin, H. Bewell (capt)

REYNOLDS Police Court.

Ross Arraigned and Remanded—The Trial of Shouldice Begun.

MONDAY, Nov. 19.

Louis Ross, the alleged forger, was arraigned before Police Magistrate Dumble this morning for a preliminary hearing. After the taking of the evidence of Mayor Stevenson, who denied having made the check passed by Ross on Messrs. Foote & McWhinnie, the prisoner was remanded till Wednesday.

The trial of Thos. Shouldice, of Harvey, charged with house-breaking, was begun before P. M. Edmison to-day, County Crown Attorney Wood prosecuting. After taking certain evidence, a *resume* of which will be published to-morrow, the prisoner was remanded for a week.

Personal.

Mr. A. E. Edmonds, of the Guelph Junction C.P.R., spent Sunday in town.

Messrs. Scott and Annesley are out of the hospital and progressing nicely.

Mrs. Wm. Fowler returned from California Saturday night, where she has been visiting since early in the summer.

A letter from the Rev. W. C. Bradshaw was read at St. Luke's C.E.T.S. concert last Wednesday night. The reverend gentleman said he was feeling much improved in health. He had had *many pressing invitations* to preach in the city but had not accepted any as he wished to take entire rest. At the time of writing he was in Denver city.

Mr. W. B. Haloombe, of Boston, travelling representative of the Oddfellows' Fraternal Accident Association of Westfield, Mass., is in town to-day. Mr. J. B. King, Grand Secretary of the I. O. O. F., is the resident agent of this association for the province of Ontario. Mr. Haloombe proposes remaining in Peterborough for a few days, and will, during his stay, visit the Peterborough Lodges. Mr. E. E. Henderson has been appointed local agent. This is an accident association for Oddfellows only and will, no doubt, do a large business.

Sunday Sermons to Young Men.

Special sermons were preached by the pastors of George street and Charlotte street Methodist churches, and also by Rev. E. F. Torrance of St. Paul's. During the service at St. Paul's the choir gave Gounod's anthem "Send out thy Light," and the singing throughout was unusually good, reflecting the highest credit on the training of the choirmaster, Mr. Parker.

AT OPERA HOUSE

Just What Might be Expected.

The McGibeny family closed their engagement here Saturday night with a good house. The McGibenys have met with uninterrupted success on their Canadian tour. This is their first visit to the Dominion, and was decided on as a sort of *pis aller* on account of the Presidential elections in the United States, which so absorbed public interest that entertainments of this class became unremunerative. Mr. McGibeny expresses himself pleasantly surprised at the experiences of the trip. He had no idea that the Kanucks were such hospitable and appreciative people and that their country was so advanced and progressive; but now that he has seen and felt all this, he announces that he will certainly visit Canada again. He considered Peterborough the finest town he had yet struck on this side of the border.

Mesmerism.

Mr. Johnie Miller, of Toronto, lately of Dumble & Leonard's Law office, writes as follows:—

TORONTO, 19th November 1888.

To the Editor of the Examiner,—

DEAR SIR,—For eleven nights out of the last twelve, I have attended the exhibitions of mesmerism given nightly by Professor John Reynolds in Shaftesbury hall here, and feel compelled to say I never saw a more wonderful or interesting performance and cannot advise you too strongly to go and see it yourself. I went a sceptic, but after the closest scrutiny for eleven *nights* of the different experiments, I came away convinced of the utter absence of humbug or deception. There was no difficulty whatever in securing a sufficient number of subjects from the audience at any time, and during the closing nights of his engagement here, the volunteers were almost too numerous. Let me again strongly advise your readers to go and see what is done.

Yours, etc.,
JOHN MILLER.

An Accident.

On Saturday Mr. George Munro, superintendent of the William Hamilton Company's Manufacturing Works, fell through an opening in the floor, made in the course of repairs, and sustained injuries more painful than serious. He is able to be about to-day.

Sunday School Memorial Service.

At the George street Methodist church yesterday Rev. M. L. Pearson conducted a solemn service in memoriam of three pupils of the Sunday school who have died since the beginning of his pastorate—Carrie Cobb, Walter Johnston and Eddie Tyrell. The school children occupied the middle range of seats and led the excellent singing, while the general public occupied the remainder of the church. The pastor took for his subject, "Death," treating it acrostically under these heads:—"Decision," "early," "active," "temperance" and "Heaven." The service was very solemn and impressive, perhaps the best of the kind ever heard in the church.

A New Way to Collect Debts.

Mr. A. Nedens, representing Thurston, Thorley & Co., of Toronto, is in town to-day. This firm have a novel mode of collecting debts. The plan of operation is, in brief, as follows:—Business men may become members by paying $10.00; then, if they have any poor accounts to collect, a notice is sent to the debtor that unless the debt is paid by a certain date a uniformed collector will make him a visit. The collector wears a blue uniform glistening with brass buttons, and if he fails to get the money the first time, he promises to appear again. After three calls he comes before the delinquent with a badge upon his hat reading, "Collector of bad debts." This generally brings the money. If it does not he calls daily and demands payment. These calls attract the attention of the neighbors, and Madam Grundy takes it up and there is music in the air in case the debtor persists in his refusal to pay.

ANNIE LYONS' GRAVE CHARGE.

Against a New York Druggist—The Girl's Story Told to Justice Duffy.

NEW YORK, Nov. 17.—Annie Lyons, the girl who attempted to commit suicide by swallowing corrosive sublimate after her arrest on Tuesday evening for raising a disturbance in W. Scott's drug store at Fourteenth-street and Seventh-avenue, was before Justice Duffy yesterday as a complaining witness against Scott, whom she charges with betraying her. Annie, who said she arrived here August 7 from Toronto, testified that Scott accomplished her *ruin under promise of* marriage, having first plied her with a quart bottle of wine and unlimited lager. She also related the particulars of two subsequent occasions when their alleged intimacy was renewed. Mr. Scott emphatically denied the whole story. Justice Duffy remanded the accused in the custody of his counsel until Monday.

Went Through a Bridge.

ELDORADO, Kan., Nov. 16.—A heavily loaded cattle train of 25 cars on the Missouria Pacific Railway went through Walnut River bridge last night. The engine and 10 cars were completely wrecked, 100 cattle were killed and many crippled. Fireman Kellogg was thrown 50 feet and although he was badly bruised he crawled back into the wreck and held up Engineer Spencer's head and kept him from drowning for 55 minutes until they were rescued. Spencer was caught between the engine and tender and terribly injured. It is thought he cannot recover. The loss to the company is $50,000.

Limits to the Rights of Insinuation.

ST. PETERSBURG, Nov. 16.—The Journal de St. Petersbourg, referring to assertions made by The Paris Matin in relation to a Franco-Russian alliance, says: "There are limits to the rights of insinuation. Russia certainly desires to see France regain her legitimate position among the nations, which is necessary to preserve the equilibrium of Europe, but she is convinced that peace is for the interest of both France and Russia. Such insinuations, therefore, can only injure the cause they claim to defend."

Children's Tea.

Last night a children's tea was held in the Charlotte street church schoolroom as a social sequence to the thanksgiving dinner Thursday night. About one hundred young people attended, and after supper a short programme was rendered by a dozen or more pupils of the school, who sang, read and recited to an admiring audience.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,
—AND—
Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

GATHERING FOR THE FRAY

COUNSEL IN THE CROSSING CASE ASSEMBLING AT OTTAWA.

General Middleton Contradicts the Rumor of His Alleged Intended Resignation—Waiters Rewarded for Bravery

OTTAWA, Nov. 20. The forces for the legal battle to be commenced before the Supreme Court on Wednesday on the Manitoba Railway question are assembling. Mr. Clark, solicitor for the Canadian Pacific Railway, arrived on Friday. Attorney General Martin got here Sunday, and Mr. D'Alton McCarthy, Q.C., Hon. Oliver Mowat and Hon. Edward Blake are expected to-day.

General Middleton returned to the city yesterday after inspecting the Dufferin Rifles. He flatly contradicts the story published in the United Service Gazette and copied into Canadian papers that he intends resigning his position in January next on account of disagreement with the Government. He says that he has always been treated with the greatest consideration by the Government, and as the Canadian Government with the approval of the Imperial authorities and at the suggestion of the Minister of Militia had extended his term of service to November, 1892, he had no idea of retiring before that time had expired.

The captain, first officer and four seamen of the West India mail steamer Barracouta have been presented by the Marine Department with a handsome binocular, a gold watch and four silver watches for bravery in rescuing the crew of the schooner Henrietta, wrecked while voyaging between Arguilla and Lunenburg.

The Council of the Village of Aylmer, nine miles from here in the Province of Quebec, vote to-day on the question of imposing license fees on non-resident merchants, and the bylaw will probably be carried unanimously. Ottawa merchants are in the habit of sending delivery wagons two or three times a week to supply the village, especially in summer when many Ottawaites reside there, and the village merchants complain that all their trade is being taken from them.

It is estimated that the settlers in Manitoba and the Northwest this season will be double the number for 1887. The total amount of arrivals for last spring is approximately given as exceeding 9400.

A short time ago a train on the Pontiac Pacific Railway was derailed near Parker's Station by running down and killing five horses which had strayed on the track owing to the carelessness of a farmer named Courneau in leaving open the gate of a field in which the horses were kept. Damage to the extent of $7000 was done to the train. On Saturday Courneau was tried before Stipendiary Magistrate St. Julien at Aylmer and fined $20 for his carelessness in leaving the gate open, and the company will sue him for the damage done.

It is stated that Hon John Carling, Minister of Agriculture, will shortly commence the distribution of the grants made to the Northwest agricultural societies.

Lord and Lady Stanley visited Rideau street Convent yesterday and were present with the usual addresses.

Mr Morgan continues his useful literary work and has now in press the volume of the "Dominion Annual Register" for 1887-88 besides preparing a new edition of his "Bibliotheca Canadensea."

THE KNIGHTS OF LABOR.

All the Canadian Delegates Ask Powderly to Continue as Chief.

INDIANAPOLIS, Ind., Nov. 20.—The desire of the delegates to the General Assembly of the Knights of Labor to continue Powderly as chief has been expressed to him formally. The next to the delegates who represent the Canadian assemblies called on him and asked him to accept the office once more. He gave them to understand that he would do so providing he could choose his own advisers on the General Executive Board. Everything indicates that he will be given his wish, and there is now only a difference of opinion regarding the way it shall be done. One plan is for him to choose eight names, four of which will be selected by the Assembly. Another plan contemplates the nomination of four men, and if any be rejected new names shall be presented until the number is complete. Under any circumstances Mr. Powderly will undoubtedly continue in office and will choose his own cabinet.

Canada wants to be represented in the General Executive Board, the South has a like desire, and a movement is on foot looking to the selection of some representative business man. It is reported that a proposition looking to the formation of an entirely new constitution has been made to the General Assembly and has been considered by the committee. As there is a strong feeling in favor of a radical revision of the present constitution, there is little doubt that the new constitution will have many supporters.

Mr. Barry has ready another instalment of his attack on the Powderly administration, and it is said he will keep up his denunciations in the form of long articles for several days. This is his way of keeping before the public and preparing the way for the new order which he proposes to establish.

At the afternoon session of the General Assembly no active business was completed although a lively time interested the delegates. Last week George E. Detweiler, editor of The Knights of Labor, a Chicago publication, was in this city in his individual capacity of editor and member of the order after which his paper is named and of which it is not the official organ. On his return home he wrote an editorial which appeared in his publication on Saturday and was read here yesterday. This editorial was an attack on the character and position of this General Assembly, stating that Powderly is the ruling mind, that the convention was packed in the interest of the General Master Workman, and that Powderly and Litchman were afraid of publicity and therefore both of them were ready to make peace and promptly did so at the first chance.

Powderly took the floor and made a vigorous denial and denunciation of the whole matter. He had introduced and referred to a committee a resolution that whenever a member of the order shall through the public press make accusations of misdemeanor against members or officials of the order, without first having made and sustained those accusations before the proper court of the order, he lays himself open to immediate expulsion by the General Executive Board without trial.

Ex-Secretary Charles H. Litchman followed Mr. Powderly in a denunciation of the editorial and a denial of its statements.

W. F. Lewis, the Master Workman of the Miners' Assembly, and others followed, and all denied and denounced, while none defended the editor in his criticism.

The stand taken by Mr. Lewis in this case is regarded as significant and Powderly's friends hope it means that the miners will not desert the order. There has been a great fear of that and it will not be fully settled until after the meeting to be held by the miners at Columbus, O., on Dec. 5. By a secret circular Mr. Powderly has asked them to remain in the order and try to add to it those miners who are out. In like manner Mr. Lewis replied to Mr. Powderly saying that the Knights of Labor must do something for them.

BARBER'S BRIDE LOCATED.

THE WOMAN WHO MARRIED THE SUSPENSION BRIDGE SUICIDE.

A Love Match on the Atlantic Followed by a Wedding—A Dramatic Story of Intrigue—"Polly" Bredin's History.

TORONTO, Nov. 20.—Many of the mysteries surrounding the suicide of Fred Barber at Suspension Bridge last Friday evening have been cleared up. Early yesterday morning a middle-aged woman, richly dressed and wearing an overcoat of mourning, was shown into the reception-room at the Queen's Hotel and sought an audience with Mr. McCaw. This was granted, and to the host of the well-known Front-street hostelry the new-comer told the story of her marriage with the dead man on Wednesday last at Niagara Falls, N. Y. She also informed Mr. McCaw that she lived at No. 17 Windsor-street, the gate-guarded thoroughfare of St. George's Ward, and that she would claim the remains now lying in the metallic casket in the vault of St. James' Cemetery.

Mrs. Barber was seen at her home by a reporter last night. She was dressed in a rich costume of black, and appeared to be greatly distressed. Mrs. Barber is probably 45 years of age, and talks with a pronounced Scotch accent. She is intelligent looking and apparently a person of education. She is of somewhat low stature, and may be classed as between a blonde and brunette. However, she cannot be described as the beauty which the reporters of the associated press at Niagara painted her in their despatches to the Toronto papers. She said:

"Mr. Barber had the utmost confidence in me and we loved each other very much. I first met him on board an Atlantic steamer a few months ago, when I was on my way to the Old Country. We became friends, and before we left the steamer on the other side were engaged to be married. So we were. I first learned of Mr. Barber's suicide about 8 o'clock last Saturday night. I read it in the papers. I did not believe it, but the news so prostrated me that I was unable to go out, or I would have gone to the Queen's Hotel and proclaimed myself the missing bride. I have not the slightest idea why Mr. Barber shot himself, except that he may have been suffering from temporary insanity. We were married last Wednesday evening at Niagara Falls. After we were married we put up at the Prospect House for the night. Mr. Barber was very careful not to register me at the hotel as his wife until after we were married. Thursday we left the Falls and came to Toronto. We arrived in this city at 12.40 on Friday morning (by the late train) and came straight to this house. That is the reason Mr. Barber did not go to his hotel. He left me about 9.30 Friday morning to attend to some business. That is the last I saw of him. Before going I set me wrote a letter to his mother—('there it is,' said Mrs. Barber displaying it)—and one to Mr. Eyre, the father of his first wife. The letter to Mr. Eyre was only half finished, and it spoke of domestic troubles at home."

The letter to his mother is as follows:

TORONTO, Nov. 16, 1888.

DEAR MOTHER,—. . . . Now, mother, I told you I had met the woman who would make me a wife when I arrived home last time, and from this opinion I have never varied. I therefore decided, after arriving here, to ask her to marry me and we have been married. I promised you before leaving home that if this were so, you should be the first dear to know, and I therefore write you at once. Now my mother, I protest against my incineration, that you shall stay with me during your life, and be both a stay to her and a lovely cage as well.

You know, dear mother, we, that is you and I, have both talked and agreed this matter over and I have said "Get settled." I have done so, I hope for me. I have got a brave, loving wife, who will make a mother by Eyre, a kind daughter to you and a sweetheart to me. She will write herself to enclose with this, but my dear mother don't leave us, stay with us and we will try our utmost to all be loving and kind so that you may be happier than you have been for some years.

My will meet me in Hastings, from whence we sail (D. V.) in the Saxmatian on Dec. 15, and you may expect us to reach home about Xmas. I will write you further details as my letters go along, but in the meantime will you, like a dear, kind, loving mother, as you have always been to me, give though we have had our ups and downings up, try and get a good servant into the house for me. I have done with you both when told me you would like to see me do, and now I have done I know you would not do anything but what would tend to the happiness of all parties.

I shall write Mr. Eyre this mail and also my partners, to whom it will not come as much of a surprise, knowing as they do that I have been in correspondence with my wife for some time. I don't know that I have more to say this time, but hope the step I have taken will be for the general good, and never be regretted by anybody. With affectionate love,

FRED.

"That tells the story," said the woman, "I was to have met Mr. Barber at the Queen's at noon on Friday and his letter and my letter were to have been put in the same envelope and despatched to England. Then we were to procure our berths on board the Sarmatian, and I was to meet him at Halifax on Dec. 15, as stated in the letter.

"I have been married before and have three children. I do not care to say anything about my first husband more than that I divorced myself from him. I do not wish, either, to say where my children are at present. They are at a boarding school."

That Fred Barber was led into a deliberate trap there seems to be no reasonable doubt. Mrs. Barber's maiden name was Mary Pattison Hill, and she came from Scotland to Canada several years ago and married Thomas W. Bredin, the son of highly respectable parents at Whitby. Bredin's father is a clergyman, and is said now to be in the neighborhood of Alliston. When Bredin married Mary Hill he was a teller in the Whitby branch of the Ontario Bank. Dissipation and irregular habits lost him his situation, and he and his wife separated, she accusing him of cruelty and he of infidelity. Mrs. Bredin, about five years ago, came to Toronto and became an inmate of Bella Howard's irregular resort in Terauley-street. She afterwards moved to No. 104 Richmond-street west, with Miss Howard, where she remained for a time. About three years ago she opened a house of assignation at No. 180 Adelaide-street west. For 2½ years she kept this place so quiet that even the police did not know of its existence. In the directory she described herself as a music teacher. She is highly educated in music and speaks three or four languages. Her establishment was run on exclusive principles. Young men and boys of the city were not allowed to bring women to her place. Her patrons were traveling men of means and strangers of wealth. She had an extensive patronage, flourished and made money. But still the police never "got on" to her place, nor were there ever any complaints against her. One inspector, however, did visit the place one fine evening, but he could see nothing wrong and did not interfere. "No. 180" was painted in large letters on the transom over the front door. To her patrons she was known as "Polly" Bredin. Her husband, Thomas P. Bredin, was directoried as being a boarder at No. 180, and he is now or was a porter in the employ of the Grand Trunk Railway.

About six months ago Mrs. Bredin made a trip to Scotland and she met Barber on shipboard. He became infatuated with her and fell in love with her. It is stoutly asserted by those who now know the facts that Barber did not know the character of his new acquaintance. This is probably true and undoubtedly the cause of Fred Barber's suicide was due to some vague as yet unknown he was made acquainted with the past history of "Polly Bredin."

AN AMERICAN CROOK.

Captured in Hamilton—A Railway Collision—Fined for Fighting.

HAMILTON, Nov. 20.—Late Saturday night Provincial Government Detective Griffin of Fort Erie, arrived here in search of Joseph Jeddo, alias Woodworth, whom he wanted for bringing stolen property into Canada. Jeddo is a smart and good-looking young fellow of about 26 years of age. He comes from West Seneca, N. Y., where he has a handsome young wife. He left his home a few weeks ago and went to Buffalo, where he stole a buggy. He also purchased a horse on the instalment plan, and then shipped across the river to Fort Erie, where he traded it for two horses. From Fort Erie he went to Stevensville and sold the buggy, which was worth over $50 for $15. He also disposed of the horses at ridiculously low prices. Jeddo was found at the Walker House and placed under arrest. The only money found on him was 15 cents. Detective Griffin took his man to Fort Erie, where his trial will probably take place.

Shortly before 12 o'clock yesterday morning a collision occurred at the Northern and Northwestern switch on Ferguson-avenue near Kelly-street, between the express from the north and the pony engine, but little damage was done.

Before Judge Sinclair in chambers yesterday F. Fitzgerald, on behalf of Barton township, moved for orders appointing an engineer for the purpose of examining the roads of the Barton toll road company, Barton and Glanford road company and the Hamilton and Stoney Creek macadamized road company. Judge Sinclair, after hearing both parties, appointed Thomas Munro, engineer of the Welland canal at St. Catharines, to examine the three roads.

At the Police Court yesterday morning Pat McGrath and Michael Driscoll, who were found fighting in an alley Sunday afternoon and resisted arrest, were fined $3 each for fighting, McGrath being sent to jail for two months for assaulting an officer and Driscoll fined $2 for being drunk. Michael McGrath was fined $2 for being drunk also sent to jail for a month for interfering with an officer.

Albert Pomfret, a young man living at 170 John-street north, was accidentally shot in the forehead on Saturday. He and a friend from Galt were examining a bulldog revolver. The Galt man didn't know it was loaded and snapped the trigger. It was loaded, and the bullet struck Pomfret in the forehead, tearing a long furrow through the scalp and glancing from the bone it entered the ceiling.

Mr. John Davis, the well-known fish dealer of the Arcade, is in luck again. On Saturday night before closing up his store he made sure that there was no money left there and nothing that could be carried away. Yesterday morning on going to his place of business he found that it had been broken into and ransacked. The tills were pulled out and every place bore signs of having been searched. Nothing was missing, but Mr. Davis was surprised to find a $2 bill which the would-be robber had dropped.

Bishop Logue in Trouble.

LONDON, Nov. 20.—It is announced that the Vatican authorities intend to proceed with the utmost sternness against Bishop Logue of Raphoe for presiding at the banquet given in celebration of the release of Father McFadden from prison, and also for permitting McFadden to be absent from his parish for the purpose of making a political tour of England. The case is beginning to resemble that of Dr. McGlynn in New York.

TRADE AND TRAFFIC.

Review of the Leading Grain and Produce Markets at Home and Abroad.

TORONTO, Nov. 20.—The receipts at St. Lawrence Market yesterday were small and prices steady as follows: Beef, sirloin, 14c to 15c; round steak, 10c to 12c. Mutton, legs, 12½c; chops, 15c. Lamb, hindquarters, 15c; forequarters, 10c. Veal, best cuts, 12½c; inferior, 6c to 10c. Pork, chops, 12c. Butter, pound rolls, 22c to 24c; large rolls, 18c to 20c; inferior, 14c to 16c. ATTACKED BY GLADSTONE

LAST NIGHT'S DEBATE IN THE BRITISH HOUSE.

The Bill Granting £5,000,000 to Carry Out the Ashbourne Act Introduced—The Liberal Leader's Amendment.

LONDON, Nov. 20.—In the House of Commons last evening Mr. Madden, Solicitor-General for Ireland, in the absence of Mr. Balfour, who is ill, brought in the bill to further facilitate the purchase by tenants of land in Ireland by adding £5,000,000 to the amount applicable under the Ashbourne Act. Mr. Madden, in explaining the proposed measure, described the Ashbourne Act as a great success. There had been 14,338 signed agreements for the purchase of land, of which 9632 had been completed. There were only two courses open to the Government: One was to abandon the scheme of land purchase, and the other was to extend the act.

When Mr. Madden had finished Mr. Gladstone arose. He was received with prolonged cheering from the Opposition. Mr. Gladstone moved this amendment to the Government proposal:

"That in lieu of voting £5,000,000 it is expedient, in view of the lamentable sufferings arising from recent evictions in Ireland, to extend the land law of 1887 so as to empower the courts to reduce or cancel arrears of rents that are bound to be excessive."

Mr. Gladstone complained that the Government had broken their pledge to the House after obtaining the whole command of the time at the disposal of the members under engagement that no controversial measures should be introduced. His amendment did not strike at the Ashbourne Act, nor would it necessarily stop its operations. He did not desire to stop the operations of the act, whatever he might consider its dangers, and he did not oppose the bill because it proposed to keep the act alive, but he objected to it because of the amount demanded. The Government ought to have asked Parliament for a limited grant which would suffice to enable them to continue the operations of the act until the spring, when Parliament could consider the whole matter. The Opposition would cheerfully agree to such an advance but the Government instead of taking that course produced a bill involving Parliament in a fresh approval of its land purchase policy. [Cries of "Hear! Hear!"]

Mr Gladstone continued, stating that it was the manifest design of the Government to withdraw the subject of Irish land from the view of Parliament for several years. [Cheers]. That was not the course which could be allowed. The principle of the previous land act was totally different from the Ashbourne Act, under which £5,000,000 were obtained, apparently as a precedent for another £5,000,000, thus drawing the House by slow degrees into a system from which there was no escape from putting the land into the hands of the state, making the state the immediate landlord without proper guarantees. How different was the proposal from the Liberal side when Mr. Trevelyan laid down the principle that the Government should not ask the national taxpayers to advance purchase money unless the taxpayers in Ireland evinced confidence in the tenants by offering local guarantees.

What reason has the Government for refusing with such tenacity to deal with the arrears? Where they the means of insuring the servitude of the tenants? (Parnellite cheers.) It was certain that this bill would give the landlords a leverage to bring up rents, while it would enable only a handful of tenants to acquire holdings.

The Government were not justified in relying upon the tenants' will to pay, after the recent declaration of Lord Salisbury that the majority of 3,000,000 in Ireland were bent upon putting down the minority of 2,000,000 in order to get at and rifle their pockets. [Cheers.]

The tenants themselves had urgently demanded a settlement of arrears. A similar necessity had been acknowledged in the case of the crofters of Scotland. Much greater had been the need of Ireland, where the arrears were running without limit and led to a paralysis of the farmers' engagements and an increasing flow of evictions. He asked the House to intervene and prevent a resurrence of mischief, too certain to ensue, perhaps on a greatly augmented scale, under the Government's policy. Let them do justice to Ireland in the matter of arrears. [Cheers.]

Mr. Goschen, Chancellor of the Exchequer, denied that the Government were pledged not to introduce controversial measures during the winter session. Mr. Gladstone's statement, that if the Government had asked just sufficient to keep the act in operation till the next session it would have been granted, was incorrect. Steps were taken to ascertain whether such a proposal would be acceptable, and the response did not encourage the attempt. ["Hear! Hear!"]

The immediate extension of the Ashbourne Act was a necessity. It was desired by the tenants and he hoped the House and the country would perceive that they were dealing with land purchase which was not incompatible with dealing with arrears. The Government was prepared to deal with arrears in the course of time. ["Hear! hear!"] The suggestion that they were practically assisting the landlords in a conspiracy to allow the arrears to continue and to encourage evictions was so absurd that it was scarcely worth answering. [Cheers.]

Mr. O'Brien maintained that the bill would make rich tenants richer, but would leave poor colliers in the west in as bad a position as ever. It was merely a plan to shovel English gold into the pockets of the Irish landlords.

Mr. Campbell-Bannerman (Lib.) severely censured the manner in which the Government were thrusting the bill upon the House.

THE SLAVE TRADE.

France Has Not Engaged to Co-Operate in the East African Blockade.

PARIS, Nov. 20.—In the Chamber of Deputies yesterday M. Goblet, Minister of Foreign Affairs, stated that France had not engaged to co-operate with England and Germany in a blockade of the coast of East India. Both powers, he said, had requested permission from the French Government to search the ships flying the French flag which were suspected of being engaged in the slave trade or importing arms into Africa. The Government had replied that it could not recognize the right of England or Germany to search all vessels under the French flag. Certain abuses due to the slave trade might have arisen, but they did not have the sanguinary with which it was sought to invest them. They were not to be compared with those perpetrated in the interior by or on the coast of North Africa. Nevertheless a French war ship would be sent to prevent more trading being conducted under the French flag.

Our Work—What it is and What it Should be.

The work of the Young Men's Christian Association in Peterborough is familiar doubtless to the majority of the readers of this paper, yet, in the hope that a short sketch will not prove uninteresting, I wish to deepen the favorable impression already held. The object of this Association is, as is the object of all Y.M.C. Associations, "to seek to unite those young men who, regarding Jesus Christ as their God and Saviour, according to the Holy Scriptures, desire to become his disciples, in their doctrine and in their life, and to associate their efforts for the extension of His Kingdom among young men." To an Association with such an object there opens a wide field of usefulness. In Peterborough alone we have about two thousand young men, about one thousand of which have homes. The other thousand look elsewhere for that sympathy, that entertainment, that social enjoyment, of which they are deprived, and in consequence we find many of them lounging on the street corners, frequenting the gaming table, indulging in the social glass or perhaps falling into greater evil. How many places has Satan provided in Peterborough for the entertainment of these young men? More than we can imagine. Are not these young men worth being saved? Can we afford to allow those who in a few years will control the affairs of our town to grow up in the pursuit of sin, folly and destruction? Certainly, we cannot. Just here comes in the work of the Association. Consisting of young men of all denominations, banded together with a definite object, it presents one way of bettering this state of affairs. It provides a home for the young man, where he can find an abundance of healthful reading, a cosy parlor in which to meet his friends, a social and entertaining host, whose duty is to make him welcome, and as far as possible every home convenience and attraction. If he is a Christian he finds plenty of meetings to attend where he can assist and be assisted. I must confess our Association "home" is not as attractive as it should be, yet it rests with the people of Peterborough to make it possible for us to increase its attractiveness. We are greatly in need of a good library, always a great attraction to a young man, and a volume each from our many friends in Peterborough would place us all right in this respect. Then, too, our hall is seated with benches, which should be replaced by chairs, and if *someone* wishes a way in which to show his beneficence, let him provide these for us. Our present membership is 200. In a town the size of Peterborough it should be 500, and could we make these necessary improvements, I believe it would soon be so. People of Peterborough, is not this work worthy of support? If it is, help to uphold and support those who are working, by your money, your encouraging words and your advice.

Advice is excellent, especially if accompanied by the means of carrying it out, but we often get more advice than money.

If you have not visited our rooms yet, do so at once and you will receive a hearty welcome. Further, identify yourself with the work for young men by taking out a membership ticket. It will cost you only one dollar. If you feel too old to come, buy one for your boy. We want to do a good work for the young men of Peterborough, but to do this we *must* have the support of the people. Will you not be one to help us all you can this year?

Japan Letter.

We clip the following from the last number of the *Christian Guardian*. The writer of the letter left Peterborough a short time since for Japan, and the following will be of special interest here:—

EIWA JO GAKKO, 14 Torikaka, }
Azabu, Tokio, Japan. }

DEAR MRS. STRACHAN,—We arrived at Yokohama the morning of the 15th. The agent of the C. P. S. S. Company and the porter from the hotel met me on the boat with notes from Mrs. Large, containing thoughtful messages and words of welcome. Miss Wintemute came to Yokohama and took charge of me and my luggage. We reached the school about dark. Miss Lund, Miss Morgan and Miss Preston were at the street corner watching for us, and, amid much talking and laughing and many kind questions and words of welcome, we arrived at the school, where Mrs. Large welcomed me again, and I forgot that I was among strangers, and have not remembered it since. I received your letter, and Miss Cartmell's, at Vancouver. I appreciated the thoughtful kindness that met me with letters there. Your kind wish has been realized, and I am much healthier looking, and feel improved in every way by the journey. Mrs. Large has arranged for me to do no work until I am rested—Miss Morgan, who goes to Shidzoka, taking my place until then. We had a very pleasant company on the boat. Thirteen were missionaries, nine for Japan and four for China. The most helpful and delightful talks took place, and our "family worship," every morning and evening, was exceedingly enjoyable.

When leaving home, I felt so unprepared for the work, so ignorant, that only for the fact that it was the Lord's work, and he had chosen me, I would have been very much afraid. I prayed about it, and he has answered my prayer, not only by placing me among such good and trustful travelling companions, but in many, many other ways; and so I feel more courageous now, for He who has called me and trained me so wonderfully since will, I am sure, continue his teaching and will help me to do his work.

Our company of missionaries seemed so large when we boarded the steamer at Vancouver, but in the crowds at Yokohama it seemed almost ironical to send such a handful among so many, and the words, "The harvest is great, but the laborers are few," came again and again into my mind, and I prayed to the Lord of the harvest to send laborers. So many without a chance of learning of God and heaven and eternal life! Oh, if the people in Canada could see these people they would then know how much help is needed. I never felt it until I saw it, and came here only because God brought me.

I remain, yours, very sincerely,
JESSIE K. MCNEIL.

"Purgatory Bullets."

An excited Irishman lately rushed into a Boston drug store, having a "broken-up" appearance generally. "Be jabbers"! he yelled, "I'm all wrong entoirely. I want some shtuff to straighten me out. Some o'thim 'Purgatory Bullets' will fix me, I'm thinkin'. What d'ye tax for thim"? "What do you mean"? asked the clerk. "Purgatory Bullets,' eor, or somethin' loike that, they call thim," replied the man. "Shure, I'm in purgatory already, with headache, and liver complaint, and bad shtomach, and the divil knows what all." The clerk passed out a vial of Dr. Pierce's Pleasant Purgative Pellets, and Pat went off contented. These little Pellets cure all derangements of liver, stomach and bowels. Sugar-coated little larger than mustard seeds and pleasant to take. Druggists. b

The Harvey House-Breaker.

Case at the Evidence Against Thos. Shouldice. Charged with House-breaking.

Thos. Shouldice, of Harvey, charged with house breaking, was given a preliminary hearing before P. M. Edmison at the court house on Monday. Mr. R. E. Wood, C.C.A., conducted the prosecution.

Mr. W. H. Clarke gave testimony of his finding his lodge on *Pigeon Lake* broken into on Nov. 6th, and the contents stolen.

Harvey Thompson stated that prisoner had admitted to him while in Bobcaygeon gaol that he had broken into Mr. Clarke's house, but said his father and mother had put him up to do it. Also heard prisoner repeat words to the same effect on the boat.

Tillman Niles told how he had gone with Constable Staples to the lodge on Nov. 10th and found it looted. Went to prisoner's father's house, and as they entered the back door prisoner went out to Mr. Crowley's. They followed him and Niles accused him of the robbery, but he denied it. Then told him his wife had informed on him, when he admitted that he had stolen the goods and offered to show where they were hid, but after walking a mile in the bush refused, saying he could not find them. At Bobcaygeon gaol he offered to make a clean breast of everything, blaming his mother for his trouble, but when pressed for a statement he said he would keep his mouth shut.

Constable Staples corroborated the previous witness' evidence, stating that he heard prisoner admit he was guilty and would plead guilty.

Timothy H. Crowley, at whose house prisoner was found, also corroborated Detective Niles' evidence anent prisoner's conduct.

W. J. Adams and Maria Shouldice, mother of prisoner, also were witnesses. The latter said she knew nothing of the breaking open of the lodge or the stolen goods.

The prisoner was further remanded for a week to procure additional evidence.

Your Opportunity.

G. C. Clark's clearing sale of clothing and gents' furnishings for the next two months will afford an opportunity seldom met with for obtaining first-class new goods at less than cost price. Suits—ordered clothing—from $3.00 to $5.00 less than former prices; overcoats and pants at same rate; 50 dozen ties at 15 and 20c.; shirts from 25c. to 50c. less than regular prices. This is a genuine sale, and an unequalled opportunity to secure bargains.

"Eureka" and "Golden Hair Wash."

These are two of A. Dorenwend's standard preparations. The "Golden Hair Wash" gives the hair that beautiful golden shade so universally admired; it does not injure the hair in the slightest degree. "Eureka" removes all superfluous hair from the face, arms or neck at one application. See that each bottle of either preparation bears on the label the signature of A. Dorenwend. For sale by all druggists everywhere. dw

The Magic Bottle Imp.
A very amusing trick, by means of which a bottle can be made to perform most astonishing antics. It is a curiosity and a brain puzzler. It will stand up as perfectly as a Regular, and when you think you have it, it will tumble over on its side. But as soon as you take it in your hand, it will be very obliging, dance as it will fit, and bow to you as gracefully as a courtier. It causes heaps of fun, and wagon-loads of merriment. Any one can perform this simple trick, but the secret is known only to a few. The bottle can be handed to any one for examination. Full directions for performing the trick sent with each Bottle. Sample by mail, postpaid, 10 cents; 3 for 25 cents. One dozen, postpaid, 75 cents.

MUNCASTER'S

DARING AND SUFFERING.

[CONTINUED]

At length some voice suggested—rather faintly at first, for only a few hours before it would have met keen ridicule—that it would be well for us to pray. The thought was warmly welcomed. Not the slightest objection was offered by any one, and we at once all knelt. One member of the party has lately told me that while he knelt with the rest, and was careful to say nothing to discourage us, yet he never led in prayer, or said anything to indicate that he had changed his life purpose. I did not notice the exception at the time, as every head was bowed and every face covered. Capt. Fry was first requested to lead us, which was peculiarly appropriate, as he had always maintained a consistent religious life, and now seemed to feel our great sorrow as if it were his own. He prayed with deep earnestness, strong sobs mingling with his fervent petitions. Then others led, and we continued until all but the one already alluded to had prayed in turn; then those who had prayed before began again. There seemed to be some help in simply telling our trouble. On my own part, I do not think that there was a great deal of faith, at least so far as temporal deliverance was concerned, but there came a calmness and a passing away of bitterness that was restful to our tired hearts. We besought God mainly that he would prepare us for the fate that seemed inevitable, and that as he had led us into great trials, he would in some manner sustain us there. We kept on praying with but short intervals till the sun went down. As twilight deepened into darkness—the emblem of our own lives—so our petitions grew more solemn. God seemed nearer than ever before. In the darkness it appeared easier to behold the heavenly light. We began to ask for deliverance in this world as well as in the hour of death, and to have a hope, very faint and trembling, that it might be granted. Then little by little we began to profess our purpose to live religious lives while we were spared, whether the time was long or short. I do not know that there was anything clear and definite in the way of conversion or sudden change on the part of any; but when it is remembered that in the forenoon we had amused ourselves by all kind of games, that profane words and jests were not uncommon, and that we would have been ashamed to speak of prayer or of religion in any way except as a mere theory, it will be seen that there was no slight alteration in us already. From that hour I date the birth of an immortal hope and a new purpose in life. And in this experience I am not solitary.

It is an interesting fact, which the rationalist may explain as he will, that from the time of that long prison prayer meeting—from early afternoon to midnight—the fortunes of our party began to improve. There were fearful trials still before us, not much inferior to any that we had passed; we long held our lives by the frailest thread; yet till the close of the war, though many perished around us, death did not claim another victim from our midst. We committed ourselves to the Lord, not expecting deliverance in this world; and in his boundless mercy he bestowed upon us all we asked, and far more than we had dared to hope.

Few things in our whole prison experience were more fearful than awakening the next morning. The chill light of a new day—the dispelling of dreams that may have been very pleasant, and have brought home vividly before us—always made the morning hour the most dreary of the day. But on this occasion we looked around and saw the places of our friends vacant, and all the great sorrow of our bereavement again rolled over us like the incoming of the sea.

But we wished to do something. A small Bible was borrowed from Mr. Turner when he came to bring our scanty breakfast—Mr. Thoer, who was always with him to see that he gave us no undue indulgence, did not object—and then we had reading, singing and prayer—nearly every one praying, so that it might rather be called a morning prayer meeting than "family worship," though the latter was the title used. We now resolved to continue this practice as long as our prison life lasted.

From this time forward we had religious exercises morning and evening, and found them a great consolation and support. They began and closed the day aright, and thus added sweetness to all its hours, supplying a subject or thought not bearing directly upon our own gloomy prospects, and thus enabling us to maintain better mental health. We always sung a hymn or two on these occasions. Indeed there was nearly as much singing as at Chattanooga, but of a far different and more inspiring character. Instead of "Nettie More," "Carrier Dove" and such harmless sentimentality, we sang "Rock of Ages," "Jesus, Lover of My Soul," and others of a pronounced spiritual cast. This greatly astonished the guards. They were given strict charge to watch us closely, with the statement that we were the most desperate characters in the whole United States; then to hear us sing Methodist hymns, and to know that we had prayers, morning and evening, was a contradiction they found it hard to reconcile. Soon the story of the heroic death of our comrades and our own religious bearing was noised about Atlanta, and no doubt there were many expressions which gave some ground for the bitter complaint of "sympathy" made afterward by the provost marshal in his report. But we cared comparatively little for this, of which, indeed, we then knew nothing. We had never expected to receive much help from the people outside, and would not have dared, for fear of treachery, to accept it if offered. But we wished to find that peace in believing that we had heard of Christians possessing. What would we not now have given for the counsels and assistance of a minister we could fully trust!

It is a delicate matter to speak of the beginning of one's own religious life—to say neither too much nor too little; but in the hope of guiding some other who is feeling after the truth, I will venture, using the light that twenty-five years have thrown back on those early days.

After the terrible 18th of June I am not conscious of any experience of a religious character for several days, except a profound and burning conviction that it is folly to wait for death before trying to be right with God. I might be sinful or wicked again, but the idea that the great business of life may safely be left to the last could influence me no more. Just how to be religious was a puzzle. I knew if I had a command to execute from an army officer I would do it, if in my power, no matter how difficult or dangerous; and I wished intensely that it was just as easy to be religious as to be a soldier. But there was the question of right feelings and right motives that did not seem to come into play very much in the army; for if a soldier did his duty, he was not apt to be asked how he felt about it; I had the belief that I must have joy and rapture in thinking of death, a readiness to shout God's praises which I did not feel; and for a time it seemed as if I could never reach a genuine conversion. I diligently read the Bible which we had borrowed, but while I enjoyed many things in it, little direct guidance for me was found.

I asked counsel of Capt. Fry, for whom I had the greatest esteem and respect. But it was so easy for him to believe that I thought his case must be very unlike my own. I also spoke to J. R. Porter, the only one of our number who had a clear religious faith, and seemed to be happy in it. His first answer was very striking. I asked how he felt about death. He thought that I referred to our worldly prospects, and answered that probably we would soon all be put to death. "But what is your feeling about death itself?" I continued. He said:

"I am not afraid to die, if it is God's will; I trust him now, and I expect to trust him to the last." He took my hand, and there was a steady light in his eye that made me believe every word he said. But when I asked him how he got such a faith he could only tell me that he went to a Methodist "mourners' bench" two years before and sought till he found it. This did me no good, for there was no such place accessible here.

THE QUEBEC BOODLE CASE.

Editor Maguire Refuses to Give up His Informant's Name.

QUEBEC, Nov. 20.—The boodle investigation was resumed before Judge Dugas yesterday morning, but only progressed a few steps when a forced adjournment was taken. In the evidence Saturday Contractor W. McLea Walbank made a reflection on the press of the city, stating that all the journals were interested one way or the other. All except The Chronicle and The Telegraph are in his favor.

Yesterday morning Ernest Pacaud, proprietor and editor of L'Electeur, and Carrel of the Daily Telegraph denied that they were in any way interested and then James Maguire, formerly editor of The Mercury, was called.

It was he who, by articles in The Mercury in February, 1887, naming several Councillors as having received bribes and giving the amounts against their names raised the investigation. Later he was tried and convicted for libel and spent several months in jail.

Yesterday he admitted the publication of the charges but when asked for his authority for the statement flatly refused to answer.

A long discussion between counsel ensued and finally Judge Dugas took the matter en delibere, Crown Counsel Fitzpatrick declaring that unless the question was answered it would be impossible to proceed further with the inquiry.

Honoring a Comrade.

Mr. W. F. Johnston, who stood first on the list of successful candidates in the barristers' examination at Toronto last week, has won additional laurels—the gold medal presented by the law society for general proficiency. Mr. Johnston is a clever young student who has made a record to be proud of, and his comrades in town will, on Thursday night, hold a supper in his honor at the Croft House, as a token of their admiration of his talents and good wishes for his future.

Pigeon Thieves.

Last Thursday evening, before Mr. G. B. Sproule closed up his photograph gallery on Hunter street, a couple of boys, unobserved, entered the studio and secreted themselves till Mr. Sproule had locked up and gone home. Then they ascended to the mansard roof, where Mr. Sproule keeps a flock of fancy pigeons, and, after capturing half a dozen pairs of the best birds, let themselves out through the studio. Mr. Sproule got track of the boys and this morning recovered the birds, and it is possible the thieves will be prosecuted.

The Opening Debate.

A meeting of the Otonabee Canoe Club was held last night to arrange for the first of a series of debates which will be held weekly throughout the winter. It was decided to change the night of meeting to Friday, to meet the convenience of most of the members. The opening debate will be held Friday, Nov. 30th, upon the subject: Protection vs. Free Trade for Canada. Mr. A. Febb will champion Protection and Mr. A. Clegg will look after the opposition. Each will choose a second between this and the night of debate. Mr. James Little will act as chairman and decide the debate.

Curling Notes.

Curlers are beginning to wake up as the season advances, and preparations are being begun on all sides for indulgence in the grand game. Already several members of the club have got new curling stones, among them Messrs. W. G. Ferguson, C. McGill, Dr. Boucher, Jno. Burnham, J. H. Burnham, T. Counsel, D. Bellegheen and R. S. Davidson.

The old reliable John Cousins will superintend the rink again this winter and supply the excellent ice for which he is famous. He is getting the floors ready for flooding.

Toronto curlers had good ice last Saturday and enjoyed their first game of the season.

Anniversary Meeting.

Anniversary meetings in connection with the Fraserville Methodist church, will be held on Sunday and Monday, December 2nd and 3rd. On Sunday, sermons will be preached by the Rev. John Bredin, D.D., both morning and evening. On Monday evening a public meeting will be held in the church, when addresses will be delivered by Rev. M. L. Pearson, President of Bay of Quinte Conference, Wm. Barns and Mr. Bredin. Mr. J. R. Stratton, M.P.P., will occupy the chair and, an excellent programme will be provided for the Monday evening meeting, which will commence at 7 p.m.

Business and Fraternal.

A meeting of Otonabee lodge of Oddfellows was held last night that was of a combined business and fraternal nature. There were a number of visitors present, among them Mr. W. B. Holcombe, of Boston, representing the Oddfellows' Fraternal Accident Insurance Association of America, and Mr. Samuel McKiver, of the Covenant Mutual Aid Society. Each of these gentlemen explained the advantages offered by their respective associations to persons insuring, for the purpose of securing risks. Mr. Hamilton, of Guelph, and some local visitors were present, and after the business had been concluded the remainder of the evening was spent in jovial and fraternal intercourse.

The Endeavor Society.

At the regular weekly meeting of the Endeavor Society last night it was decided to engage Prof. Williamson, of Oshawa, to give one of his dissolving views entertainments in December. Prof. Williamson gives one of the finest entertainments of this character that can be got, and the Society are to be congratulated in securing such a treat for all. A choice literary programme was rendered after the business part of the meeting was over, including an instrumental duet by Misses Batcher and Brownscombe. One of the principal features in the programme for Monday evening next will be an essay by one of the members on "The pleasure of the dance in its relation to religion and morality."

Zera Semon Novelty Company.

The Belleville *Intelligencer* says:—This company gave a repetition of Monday evening's performance last night, with some material changes and enlargements. The company is truly a good one and their scenic effects are magnificent, especially in Mme. Strong's "Fata Morgana." Zera Semon performed some wonderfully clever tricks, and as a ventriloquist has few equals. The music produced by Miss Gilbert and Sig. Giovanni on the musical glasses was loudly encored. The "Royal Marionettes" were productive of much mirth and are really a fine piece of mechanism. The canaries are well trained and exhibit almost human intelligence. About one hundred persons received presents, all of which were valuable and useful. The drawing was conducted in a satisfactory manner to all. The audience was large and appreciative. The company appear again to-night in a change of programme. The grand prize will be a handsome gold watch.—The Zera Semon Novelty Company open a week's engagement at the opera house here next Monday, 26th inst.

A Mesmerist's Power.

The opera house was packed last night and the mesmeric exhibitions of Prof. Reynolds kept the audience in a constant roar of laughter. Free passes were distributed about town during the day, and this means to draw a crowd the first night and so advertise the performance proved very successful. There was no lack of subjects, young men of the town well-known to all, and some of the most susceptible were so completely under the mesmerist's power that they became utterly passive. They did whatever they were told, and experienced all the sensations called upon them by the Professor. The subjects have lively recollections of 40° below zero weather, mosquitoes, fleas, hot coins, icicles down their backs, uncontrollable laughter, sore shins and hands from blows with a cane, and many other imaginary feelings. It was amusing in the extreme for the audience, and Prof. Reynolds established his reputation beyond a doubt. He continues at the opera house all week.

A. C. A. Executive Meeting.

The annual meeting of the Executive Committee of the A. C. A. was held at Toronto Saturday. Commodore H. C. Rogers and Secretary-Treasurer G. W. Hatton were the Peterborough representatives. The first business was the report of the Site Committee, including a number of letters relating to the various proposed sites in the Bay of Quinte, Rideau lakes and the St. Lawrence. After considerable discussion re the various good points of the above mentioned sites, Sagar island, in the St. Lawrence, was finally selected. It is a beautiful island for camping, cruising and racing, and is easy of access, being only four miles from Gananoque, and one and a quarter miles from the old camping grounds of 1884, '85 and '86. The date was fixed from August 16 to 30 inclusive. A motion was passed deprecating the introduction of special racing appliances. A number of honorary lady members were elected, among them Mrs. R. B. Landy and Miss S. E. Vair, of Peterborough. In the evening a supper was tendered the visitors by the Toronto canoe club. About 70 canoeists were present, among them Mr. E. B. Edwards, of Peterborough.

Personal.

Mr. Fred Hayes, of British Columbia, is visiting his brother, Mr. L. M. Hayes.

Mr. Richard Benson has returned from Niagara, where he has been spending three or four pleasant months.

Mr. Geo. Matthews, of Lindsay and Peterborough, attended the Pork Packers' meeting at Toronto Monday.

Mr. Geo. Beltou, who has been for some time in Detroit in the interests of his hot water heater, is in town for a few days.

Mr. Wilson Irwin, Toronto, general agent for the Travellers' Insurance Company of Hartford, was in town yesterday.

W. A. Sims, manager for Canada, London, and Lancshire Fire Insurance Co., is in town, looking after the interests of his company, which is represented by Wilson & Morrison.

Mr. R. H. Henderson, special agent of the Travellers' Life and Accident Insurance Company, and formerly with the C.P.R., is in town. He is accompanied by Mr. Wilson Irwin, district agent for Ontario, of Toronto.

Despatches from Kingston state that the fellow Ferguson, or Ross, held here for forgery, is undoubtedly the man who swindled several merchants there. He is also wanted at Trenton and Port Hope for similar offences.

Partridge Hunters.

Messrs. D. Bellegham and John McKee and three Toronto friends, are scouring Smithtown in search of partridge. All the acquaintances of these local nimrods are fixing their mouths for partridge pie in anticipation—for the prowess of these valiant hunters is well known.

The First Skating.

Trust the much abused but indefatigable small boy to discover the first possible skating. There was a keen frost last night and Spaulding's Bay presented a glassy surface of tempting appearance this morning, that the youngsters in the locality were not slow to test. Quite a number of them enjoyed their first skate of the season without accident. The bay is shallow and, of course, easily frozen.

The First Instalment.

A meeting of the Peterborough branch of the Irish National League was held last night, when reports of the canvassing committees were received, and the first instalment in behalf of the Parnell defence fund, $150, was forwarded to Dr. O'Reilly, Detroit, secretary of the American League. Another meeting is to be held a week from Friday night, when a number of resolutions will be passed and a second instalment of money forwarded.

Baptist Y. P. C. E.

The Young People's Christian Endeavor of the Baptist church met in the large vestry of the school last night. There was a large attendance. Mr. V. Eastwood read a paper on the "Excellency of David's character," and Mr. H. Grundy on the "Defects." Both papers gave evidence of ample research and careful preparation. An interesting discussion followed. Messrs. Bell, Turnbull, Duff, J. C. Turnbull, Minore, Billings, Gillespie and the pastor took part in the discussion.

Imperial Federation League.

At a meeting of the Canadian branch of the Imperial Federation League, held in Toronto a few days ago, the Hon. R. Hamilton, of Peterborough, was placed upon the Council for Canada, and James Stevenson, Esq., M.P., and J. H. Long, both of Peterborough, were appointed members of the Executive Committee. A resolution was passed, and a committee appointed to urge upon the Government the calling together at an early date, of delegates from the Australasian and other colonies, for the discussion of mutual trade, postal and telegraphic communication, etc.

Court of Revision.

A Court of Revision of the voters' list of the town of Peterborough was held by His Honor Judge Weller at the court house this forenoon. There were fifteen applications for placing of names on the voters' list, and all were allowed as follows:—

No. 1 Ward—James A. Ellis, Benj. Laurin, T. Cavanagh, Alfred Sutton, R. Sheehy, jr., Jno. Donovan, James Whitehair and Geo. Stevens.

No. 2 Ward—A. H. Stratton and R. R. Hall.

No. 3. Ward—G. F. Kearney.

No. 4 Ward—R. M. Dennistoun, John Stirling, James Davidson and Geo. McKee.

That Milk Case.

At the Toronto law court Monday the following case was heard:—

Queen v. Wason.—Motion for order absolute on behalf of defendant to quash conviction made by Geo. Edmison, Esq., P.M. for the county of Peterborough, under Ontario Act of last session respecting the supplying of milk to cheese factories. Edwards (Peterborough), in support of the motion, contended that the Act was *ultra vires* the Ontario Legislature on the ground that it dealt with criminal matters and matters relating to criminal procedure, which are by the B.N.A. Act reserved for the exclusive jurisdiction of the Dominion Legislature. E. F. B. Johnston on behalf of the Attorney-General. C. J. Holman on behalf of private prosecutor. Judgment reserved.

A Tall Man's Troubles.

Short men may have frequent cause to regret their sawed-off stature, but there is one very tall young business men in Peterborough who heartily wished the other evening that his head had been a few inches nearer the floor. He was in Campbellford and called upon a merchant friend upon business. On leaving to catch the train for Peterborough, his head struck a chandelier, upsetting the burning lamp on the floor. In an instant the blazing oil spread over the floor and the flames shot up to the ceiling. Matters looked serious for a time and it was thought the shop would be burned, but by catching up brooms and sweeping the oil into the middle of the floor, where the flames were smothered, the fire was got under control and extinguished. After the danger was past, this very tall young man hustled off to the station, barely in time to catch the train.

New Masonic Library.

A large and substantial bookcase has been erected in the waiting room of the Masonic Hall, Water street. It was made in sections at the cabinet factory of Mr. D. Bellegheem, and put together afterwards at the Hall. The material is a fancy wood, with sliding glass front and adjustable shelves, and enclosed receptacles at bottom. The craft started a Masonic library some time during the past summer, and the sub-committees of each of the lodges and chapter appointed for the purpose, are making it a success. It is expected that a large library will soon be established. Valuable gifts from the members of Masonic works and periodicals are being sent in, and the purchase of a number of volumes of the best standard guides of interest to Freemasons is under consideration. The library will be open to members of the order, and will, no doubt, become a flourishing institution. These society libraries are commendable in many ways, and the Masonic order is to be congratulated upon the successful results attending their efforts to introduce the idea.

Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

—AND—

Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

AN OLD RUMOR REVIVED.

THE C. P. R. SOON TO ACQUIRE THE CANADA ATLANTIC.

Parliament Probably to be Called Late in January—The Sault Ste. Marie Canal Lock Contract Signed.

OTTAWA, Nov. 20.—The rumor is revived here that negotiations are in progress for the acquirement of the Canada Atlantic Railway by the Canadian Pacific and that the arrangement will very shortly be completed. The scheme, it is said, involves the lease or sale by the Canadian Pacific Railway to the Pontiac Pacific of the line from Hull to Montreal, the Canadian Pacific Railway making connection with Montreal by the Canada Atlantic to St. Polycarpe and thence by the short line from Toronto.

The fact that the private sealing companies of the Pacific coast, who are of course opposed to the monopoly of the Alaska Commercial Company, supported the Republican ticket, is taken as an indication that the rights of private sealers in Behring Sea may get better recognition under Republican than under Democratic rule and that American war vessels will not again be sent to capture and confiscate American and Canadian vessels sealing in Behring Sea.

Sir John Ross, Commandant of Her Majesty's forces in British North America, accompanied by his A.D.C., Lieut. Dhuleep Singh, arrived in the city this afternoon and is the guest of His Excellency the Governor-General, who gave a dinner at Rideau Hall to-night. Sir John Ross was administrator of the Government for the brief period between the departure of Lord Lansdowne and the swearing in of Lord Stanley, but this is his first visit to Ottawa.

The Governor of Montana Territory has asked the United States Secretary of State to make a requisition on the Canadian Government for the extradition of George Godin, a half-breed who escaped last August from the jail in Helena while under conviction and awaiting sentence for the murder of a farmer named Embody. Godin is now in jail in Edmonton.

Commissioner Herchmer of the Northwest Mounted Police is at present inspecting the patrol recently established in Manitoba to stop the depredations of Dakota smugglers and timber thieves.

Although the matter has not yet been formally discussed in council there is a sort of general understanding about the departments that Parliament will be called for the dispatch of business on either Jan. 24 or 31 and the preparation of annual reports and estimates is being hurried up.

Application will be made to Parliament to incorporate the Ontario Terminal Railway and Bridge Company, for the purpose of building a union depot on the west bank of the canal between Napper's bridge and the militia stores.

An order-in-council has been passed approving of the plans for the proposed bridge across the Bay of Quinte at Belleville. The Bay of Quinte Bridge Company was incorporated session before last. The Council of Belleville has agreed to take $30,000 worth of the company's stock and the municipality of Amelia $15,000. The bridge will unite the counties of Hastings and Prince Edward.

The contract for the lock on the new Sault Ste. Marie Canal was signed to-day by Hugh and John Ryan, who will commence work immediately.

POLLY BREDIN LOCKED UP.

Another Chapter in the History of the Barber Suicide.

TORONTO, Nov. 21.—The important event of yesterday in connection with the Barber suicide was the arrest of Polly Bredin on the charge of bigamy. The information reads: "That Polly Bredin, alias Mary Pattison Hill, on the 14th of November, at the town of Niagara Falls, New York State, did feloniously marry Frederick Barber, during the lifetime of her husband."

Mrs. Barber or Bredin was locked up in St. Andrew's Market Police Station and at once sent for her lawyers. She will be charged in Police Court this morning with the crime of bigamy, but it is not likely the case can proceed very far, because the clergyman who married her and Thomas W. Bredin, several years ago in that town, and Rev. C. J. Stowitts, of Niagara Falls, N.Y., who performed the marriage with Barber on Wednesday last, will have to be subpœned as witnesses. This will take a few days.

Barber's Last Letter.

NIAGARA FALLS, Nov. 21.—The following letter was found in the satchel of Fred. Barber, the Niagara Falls suicide, and was produced at the coroner's inquest:

Nov. 13, 1888.

My Dearest,—True yet, although this will be, I now feel, the last time I shall ever dare to address you, as I can't hurt myself to see you again, as my heart overcomes my head and makes me say and promise things which we both know are impossibilities unless we count on certain ruin in this world.

Up to my landing in this country I was an honorable man. Since then I have been a dishonorable one, in my intercourse with you. Had I the sense to see the drift of your letters I would have realized that you wished to put something to me and make me understand that what we wished for could not be.

On Saturday you were straight and honorable and I could not see it. Since then you have given me the opportunity and over again to say I would withdraw my attentions, and even last night you were straight and true. In your presence I am unable to think of anything but yourself; I can't look in any other direction. You know and I know well that any ceremony that we might go through as a marriage would be illegal either here or at home. What is the use, then, of putting ourselves in a more equivocal position than at present?

There is some arrangement, you tell me, at present with your friend in Montreal for your going home again. Be it so. He is a man of true thought, and I feel myself, compared to him, a worm. I have thought myself sincere (God help me, where is the sincerity?) I have no right to address you—you are so superior to me in thought and action and everything else. I keep thinking from your having my letters all tied up that you had made up your mind to this and intended it should be so. Forget me, Polly; wipe me out as not worthy to tie your shoes. I feel it is so. I won't persecute you again, but shall look upon it as an honor to be able to do anything I can for you at any time, if you wish it. I do not desire shooting for the crime of trifling, but God knows it has been without the [illegible] so, and yet I can see now what I have [illegible] I can also see that after my vacillating [illegible] of yesterday, you could not respect me as a man of moral courage and as one you could [illegible] to.

This all seems well, and I feel I have done you wrong. Forgive me if you can, but our loving intercourse shall cease and then perhaps you will be able to look up to the man whom I feel I have wronged horribly. Punishment will overtake me, and I deserve it, and shall not try to run away from it. You ask me for your letters, which have during the last three months been such a comfort to me I can't describe, and I am in honor bound to comply with your request. I hate not slept all night, am sick and ill, and don't know what to do. I dare not see you. Break this off, for God's sake, and our own happiness of any kind. What we proposed to do would only bring more unhappiness than we have ever experienced. I cannot say more, but legally marry we cannot, and the other way means destruction to ourselves and our children, whatever we may think when talking to one another.

Good-bye; God bless you, my darling. Still your own loving FRED.

[Perils of the Deep.

WASHINGTON, Nov. 17.—Gen. J. A. Dumont, chief of the steamboat inspection service, reports that during the fiscal year ended June 30, 6425 vessels were inspected and 29,541 officers were licensed, being a decided increase over the work of the preceding year. The total number of accidents during the year resulting in loss of life was 36, causing the death of 208 persons or 18 less than during the previous year. Of the killed 85 were passengers and 117 employes. The loss of life is less than the average annual loss for the decade terminated with the year.

LOST BY A BIG MAJORITY.

GLADSTONE'S PROPOSAL NEGATIVED BY THE HOUSE.

The Motion to Introduce the Bill Granting $5,000,000 to Extend the Operation of the Ashbourne Act Agreed to.

LONDON, Nov. 20.—On motion of Mr. Smith, the Government leader in the House of Commons, this evening, the rule requiring an adjournment at midnight was suspended in order that the debate on the land purchase bill extending the operations of the Ashbourne Act should proceed until a division was reached.

John Dillon said he thought the time had come to take a broad view of the Ashbourne Act and show the British taxpayer what advances might be asked and the nature of the security for them. He hoped the debate had resulted in making up the taxpayer to the imminence of the danger of finding themselves committed to a scheme of landlord purchase without due guarantee. It was astounding to hear the Tories speak with fervor about the creation of a peasant proprietary, at the same time charging the peasants with trying to frustrate the measure which was directed to that end. Among the first principles of the League stood the peasant proprietary. The League aimed at procuring such an alteration in the law as would enable every occupier of the land to become an owner. He said that he had formerly spoken in favor of the Ashbourne Act but it was when no coercion existed. With coercion the act was assisting the landlords to raise the price of land while it was breaking up the combinations of the tenants. He must warn the English people that the day might come when the national program would include the repudiation of liabilities under the act. This position has been forced upon the Irish people at the point of the bayonet. ["Hear! Hear!"]. Mr. Goschen had tried to show that there was adequate security for advances because the terms of purchase included both the landlords' and the tenant's interest. The truth was that in hundreds of cases the land commission had reported that the landlord's and tenant's interests together would not afford sufficient security for the prices at which it was proposed to purchase. ["Hear! hear!"] It was absurd to say that the existence of arrears was not used to raise the price of land, and it was equally untrue to deny that coercion tended to raise the price by crushing the power of the tenants to combine. The Government were trying to reduce the tenants to the unprotected position held by them in 1879. Such a course was cruel, dastardly, mean. It might inflict more misery upon the people, but they were wedded to liberty and were prepared to make sacrifices to achieve it. [Cheers.]

Lord George Hamilton (Con.) assailed the Parnellites as opposing the bill because they were conscious that it would enable the people to forsake the League yoke. The landlords' yoke might be heavy, but it was nothing compared with the tyranny of the League.

Mr. Gladstone's amendment was rejected, 320 to 246, and the motion to introduce the bill was agreed to.

The East African Blockade.

LONDON, Nov. 20.—In the House of Lords to-night Lord Salisbury stated that negotiations still proceeded in France with reference to the blockade of the East African Coast. Concessions by France would practically enable the Government to stop the slave trade. The objections that M. Goblet had taken were rather to the right of search theory than to its practice under the blockade. M. Goblet's promise to send a war ship for the surrender of vessels flying the French flag ended the difficulty.

Sackville's Successor.

LONDON, Nov. 20. The Government is considering the advisability of appointing a successor to Lord Sackville before President Cleveland vacates his office. A successor may possibly be appointed in December. Lord H. C. Vivian, the Minister at Brussels, could have the Washington post if he wanted it, but it is believed that he does not desire it. After him the choice rests upon either Mr. Plunkett, the present envoy to Japan; Sir F. C. Lascelles, the minister at Bucharest, or Mr. Monson, the minister at Athens. It is understood that Lord Sackville will go to Madrid and that Mr. Ford, the present minister there, will be transferred to Vienna. Mr. Satow, the minister resident at Bangkok, will succeed Mr. Palgrave as minister resident at Montevideo.

Gov. Blake Would Accept.

LONDON, Nov. 20.—Sir H. A. Blake arrived at Queenstown to day. In an interview he said that if the Government up held his appointment as Governor of Queensland the hostility expressed toward him would not prevent his accepting the post. He believed that only a small section of the Irish opposed him and this opposition he considered strange as he thought he had won the esteem and confidence of the Irish in Newfoundland as shown by the address presented to him on his departure.

Simpletons at Sackville's Sale.

WASHINGTON, Nov. 20.—The sale of the effects of Lord Sackville was continued at the British Legation to-day, and as was the case yesterday the articles sold brought generally more than they were worth. A considerable quantity of silver and plated ware was first sold and the hotel men were the best bidders. The contents of the stables were then sold. Everything which was marked with a coat of arms or looked peculiarly English brought good figures, sometimes two or three times their real value. A team of dark brown horses, which were said to have cost $900 a short time ago but which necessarily had no distinguishing monogram, brought only $370. The double harness they wore, covered at every available place with the Sackville crest, brought a good price. After everything in the stables had been sold the wines and cigars belonging to Lord Sackville were put up at auction and the bidding on them was brisk and spirited.

AMBITIOUS CITY NOTES.

Business Transacted at the Session of the Presbytery—A Small Meal.

HAMILTON, Nov. 20.—At the meeting of the Hamilton Presbytery to-day deputations were appointed in each constituency to wait upon the members of Parliament and request them to bring the matter of closing the Welland canal on Sunday to the attention of the Dominion Government. The call from St. John's Church, Hamilton, to Rev. H. Abraham of Burlington at $1001 per annum was sustained.

There are a few clerical errors in the literature that decorates the front of the city coat-of-arms on the new City Hall. The sandstone artist has placed a period after the I in "I advance," and has omitted to put commas after the first two words of "Commerce, Prudence, Industry."

Mrs. Sandberg of 147 John-street north reported to the police this morning that there were four men at her house last evening. About 9 o'clock, after they had departed, she missed $12 in cash, a gold locket, a silver locket, a silver fruit knife, a penknife and a box containing 200 tickets for an organ lottery. The value of the steal is about $25.

A special meeting of the City Council was held last evening to arrange for the public reception which it is proposed to give Lord Stanley of Preston.

LATE LONDON CHRONICLES.

The Queen Takes a First Prize at a Dairy Show—What's the Matter With Sandy?

LONDON, Nov. 20.—The Queen here her journey very well and looked bright on her arrival at Windsor station. Only the railway officials and the Mayor of Windsor were on the platform to welcome her. No one was admitted to any station when the train stopped. Even at Perth, where some of the privileged public are occasionally admitted, no exception was made. The station was kept absolutely cleared while the Queen dined and during her departure.

There are ominous difficulties ahead if Lord Salisbury adheres to his resolution of not sending another minister to Washington until the American government has expiated the offence of dismissing Lord Sackville. Phelps is certainly to be promptly recalled, and thus both posts will be practically vacant.

What has come over Lord Randolph Churchill? is the question everyone is asking. His meeting at Paddington was large, enthusiastic and expectant, and though his speech was excellent—indeed, one of his best—the feeling left on the minds of the audience was slightly disappointing. They had gone to hear him curse the Government: he did nothing but bless them. Herein was the disappointment. Lord Randolph's great power lies in attack. He is never better than when pointing out the foibles and shortcomings of his opponents. There were not opportunities for creating—notably the opportunity of criticising his whilom friend and adviser, the Home Secretary. But Lord Randolph forebore. He is clever enough to see the increasing power of the temperance party in England and is therefore a little ungrateful to his old friend the publican, but he is satisfied that the real work for Parliament is to be found at home. In social questions that interest and affect the masses of working people in England he is perfect.

The much talked of inauguration of the Lyric club on Friday eclipses the glory of any similar function ever attempted in clubland. Phippe has contrived to adapt the building to its present uses with marvelous skill. It is difficult to say whether the white and gold music crypt with blue carpet and luxurious arm chairs, the Elizabethan billiard room, the oak, lined with bamboo, draped with delicate Persian embroidery, bears off the palm. There is nothing like it in London. Everybody in town was to be seen at the concert. The Duchess of Manchester, in flowered blue silk, wore seven rows of enormous pearls. The Duchess of Leinster was in white, Lady Randolph Churchill in terra cotta brocade, Lady Goldsmith in sea green crepe de chene. Lady Charles Beresford in black, the Marquise de Santurce in black silk and pink moire, and Lady Hothfield in black velvet and felt. Lord Hartington related his experiences with Chubb and the non-conformists to select circles of friends. Sir Morell Mackenzie chatted in a quiet corner to his old lieutenant, Mark Lovell.

The Queen took a first prize in one of the classes at the recent dairy show with a beautiful shorthorn, originally bought for Her Majesty at Windsor, from a well-known breeder in Westmoreland. A fine herd of black Galloway cattle has recently been purchased for the royal farm.

The price paid by Kennedy for the Murrity and Grantully estates, the sale of which was announced last week, is stated in Edinburgh to exceed £500,000.

At the arts and crafts exhibition on Thursday evening last, Walker's lecture on printing was the occasion of an amusing scene. Walker had expressed himself mildly as to the mechanical ugliness of new face type, and the folly, from an artistic printer's point of view, of illustrating books with pictures designed without reference to their destination as a part of the printed page. By this Walker meant, though he did not say so, that the monthly Harper's or Century is looked at as a decorative object, an abomination of desolation. An American gentleman present ventured to remonstrate. Thereupon Wm. Morris clothed Walker's unspoken thought in unmeasured words, denouncing American artists, engravers and printers alike, regardless of the fact that the American gentleman happened to be Joseph Pennell, whose works in black and white are the pride of the Century. The arts and crafts speedily made a ring and looked on with much relish. Crane was there with Sanderson, the veteran J. J. Linton and other more or less well-known spectators. Poor Pennell, too polite to retort on the ill-usage of his older and more famous adversary, could only appeal mutely from the injustice and the explosiveness of the poetic socialistic man. The Pennell incident will probably be the staple topic for next Thursday, when Sanderson lectures on bookbinding. EDMUND YATES.

A GATHERING IN GOTHAM.

ANNUAL DINNER OF THE NEW YORK CHAMBER OF COMMERCE.

The Chief Magistrate is Lauded and the Republic Gravitated—"Our Relations with Canada."

NEW YORK, Nov. 20.—The 120th annual dinner of the Chamber of Commerce held tonight drew out a brilliant gathering in which much of the wealth of this commercial centre was represented. Charles S. Smith as president of the Chamber presided. On his right were Gen. W. T. Sherman, Hon. Warner Miller and Chauncey M. Depew. On his left sat Prof. Goldwin Smith, Hon. Frank Hiscock and General D. Babcock.

President Smith spoke to the toast "The President," of whom he said that no words or sentiment could add force or dignity to the simple assertion that the Chief Magistrate represent 60,000,000 people.

Gen. W. T. Sherman responded to "The United States" and briefly got over the subject. He said that with an educated, united and patriotic people her success will continue to be commensurate with her opportunities and her power co-extensive with her vast domain.

Prof. Goldwin Smith handled "Our Relations with Canada," and said: "As a Canadian I have the greatest pleasure in responding to the toast. Such an expression of good will on the part of such a body of American citizens as the Chamber of Commerce of New York towards Canada would be welcome at any time, but especially at this time, when there has been a little misunderstanding not between the two communities but among the diplomatists. As you have some gentlemen among you whose delight is to feed the fall of the lion so we have some whose delight is to twitch the feathers of the eagle but their number is very small. The fisheries dispute will be at rest by and by when the fisheries are common to us all."

AGAINST HIS WILL.

The First Action Taken By the K. of L. Convention to Powderly's Wish.

INDIANAPOLIS, Nov. 20.—The afternoon session of the Knights of Labor was taken up by the Committee on Law with many changes of the constitution. Contrary to Powderly's recommendation the time of meeting is unchanged, which is the first action yet taken against his will. The General Master Workman shall hereafter fill all vacancies on the board by appointment, this being a new power added to the office. It is now proper for any member of the General Executive Board to approve the reports of the Secretary-Treasurer, although that was formerly permitted only by the General Master Workman. The General Assembly so desiring may hereafter declare vacant any place on the board, and it can do so without at the same time expelling the officer so removed. Before appointment organizers must pass a proper examination.

The same committee reported approval of Powderly's denunciation of the provincial committee.

CAN BE TOLERATED.

Rome Won't Squelch the K. of L. if the Constitution is Amended.

NEW YORK, Nov. 20.—The Catholic News has received from its Rome correspondent the following text of the reply sent by Cardinal Simeoni, perfect of the Propaganda, to his Eminence Cardinal Gibbons:

"It is my duty to inform your eminence that the fresh documents relative to the association known as the Knights of Labor, forwarded to this Sacred Congregation, were examined by it at the sitting of Aug. 16 of the current year.

"After having attentively studied the whole subject, the Sacred Congregation has directed me to reply that, so far as at present appears, the association of the Knights of Labor can, for the moment, be tolerated. The Sacred Congregation merely requires that the necessary modifications should be introduced in the rules of the society to make clear whatever might seem obscure, or might be interpreted in a bad sense. These modifications are required particularly in consequence of the preface to the rules concerning local associations.

"And then the words savoring of socialism and communism must be corrected in such a way that they shall only affirm the right conferred by God on men acquiring property, using legitimate means, and respecting the proportionate rights of all others.

"I am most happy to be able to inform your Eminence that the Sacred Congregation has highly approved of the design of the American hierarchy to see with us that in this and similar associations nothing should be secretly introduced which is contrary to justice and morals, or not entirely conformable to the regulations regarding the Masonic sect. Whilst confirming your Eminence in this excellent design in the name of the Sacred Congregation, I beg you to accept the assurance of our respectful and devoted sentiments."

A Fatal Quarrel.

NEW YORK, Nov. 20.—John Noland, who had quarreled with his mistress, Emma Boch, shot her this afternoon at No. 1 Second-street where they had lived, and she will likely die. The young couple hired a room at that address only weeks ago and lived there quietly until yesterday, when they had a fight. He was injured and was told by the girl to go to a hospital. He went however to a dispensary, but on his return home last night Emma would not admit him. He went there again at noon to-day and learned that a better looking man was in his room with Emma. He swore and fumed in the hall, but Emma would not let him in. At 7 o'clock he again went to the house and talked with the landlady in the hall. He sent up for Emma and she finally came down. He told the landlady to retire as he wanted to speak privately to Emma. She retired and soon after heard five pistol shots in the hall. On rushing up she saw Noland fleeing through the front door and Emma lying in the hall covered with blood. The girl was found to have been shot in the abdomen, shoulder and wrist. She was removed to a hospital, where doubts are expressed of her recovery. Noland was caught by an officer in his flight. He gave his age as 23 years and said the girl had grievously injured him the day before and he wished revenge.

EIGHTH PAPER.

London.

Spurgeon has long been the central figure in the Baptist church—a church which can justly claim a highly educated and zealous clergy. But his magnanimity of heart and zeal for the Master's service can scarcely be confined by any creed. His sympathies are world-wide and for all classes. In personal appearance he is rather short and stout, with a massive head, abundance of hair, sallow complexion, broadish face, large firm chin, and a thick crop of whiskers. He appears to be about fifty-five years of age. His voice is pleasant, intensely impressive, and under thorough control. He can utter his sentences in the purest language, and with all the eloquence and polish of the most refined orator, or he can talk with inimitable ease the common parlance of the street.

It seemed a little incongruous to one used to ordinary church etiquette to see the congregation laugh at or applaud some of his utterances, but there was a feeling of intense solemnity permeating the whole discourse.

In the afternoon we turned our steps to St. Paul's, that grand cathedral which, at least as a building, occupies much the same place in the English Church as St. Peter's does in the Catholic. What pomp and pageantry have been seen within those ponderous walls. What grand and solemn strains of music have reverberated through that massive dome and along those spacious aisles. What sacred vows have been taken at its altar, and what eloquent and learned divines have from that pulpit proclaimed the gospel message. Within its portals, the great ones of the nation have often met to take one "last look" at the placid face and to consign to mother earth the remains of each warrior or statesman as he fell before the relentless destroyer—Death.

The history of St. Paul's is rather unique. "It is said that a temple to Diana of the Ephesians once occupied the same spot, when the Romans brought their pagan worship to England." The first St. Paul's was destroyed by fire in the reign of Stephen. On its ruins rose a second magnificent cathedral, more notable for its beauty than for the decorum of its services. Its motley crowds were a facsimile of the one so righteously scourged out of its great prototype—the temple at Jerusalem. The council in Mary's reign forbade the citizens carrying casks of beer, or baskets of bread, fish and vegetables through it. Elizabeth had to shut down on duelling, sword-drawing and shooting in it. Business men used it as an exchange. Lawyers selected particulars pillars for holding consultations with their clients. Advertisements of all sorts covered the walls. Undesirable servants came there to be hired; and even thieves and assassins made it their meeting-place.

Unorthodox though it may seem, yet it was a church where Christians would not want to go. It does not appear to have been a very great improvement on its predecessor—the heathen temple of Diana. It was destroyed by the great fire of 1666.

On the 21st June, 1675, the architect, Sir Christopher Wren, laid the first stone of the present edifice. He construed the following little incident into a favorable omen. A workman was asked to bring a stone as a mark for the centre of the great dome. He brought a piece of gravestone, on which was the word "Resurgam"—"I shall rise again." "And true enough, St. Paul's did rise again, with a splendour which posterity has ever admired." "It fixes the eye of the spectator as he passes, and challenges his admiration, and, even next to the Vatican, though by a long interval, it claims superiority over all the trans-Alpine churches, and furnishes a fit subject of national pride." The dedicatory sermon was preached Dec. 2nd, 1697, from the text. "I was glad when they said unto me, let us go into the House of the Lord." It cost over three millions of dollars. Its front, which faces an open space, is adorned by several pairs of massive columns, and on each corner there is a sort of combination of tower and spire. Between and rather behind these is the immense gilt dome, which can be seen very distinctly for quite a long distance. The lower half of nearly the whole structure is very much blackened.

On entering, one is struck with the immense size. It is in the shape of a cross, the central portion being surmounted by the great dome, which is gorgeous with gilding, and contains paintings portraying events in the life of St. Paul. The roof is supported by massive columns, placed along each side of the centre aisle. The space between these is seated with common wooden benches, in strange contrast with the elegance of the building. The frequenters of St. Paul's can't take in their sermons as comfortably as we can, hence fewer sleepers to be seen. The outer aisles are chiefly a mausoleum of great soldiers and sailors. The first tomb erected in the church was the architect's, Sir Christopher Wren. The last line on the famous epitaph is, "Reader, if thou seekest his monument, look around." Of the others since set up, the chief are Howard's, Sir Joshua Reynold's, Nelson's, the Duke of Wellington's and Turner's.

The altar, royal pews and the portion occupied by the choir are of very elaborate design. The pulpit is near the centre. The musical service is very grand and impressive. But one of the most pleasing features of the service was witnessing the patient endurance of the learned Canon Morrow. He preached on calmly and eloquently notwithstanding the fact that his audience were incessantly going and coming, and a large irreverent crowd moving round examining and talking about the monuments. Most ministers would have stopped preaching and have given the people particular fits, for showing more interest in worldly than in spiritual matters. A good lecture about irreverence would not have been out of place. However, there is a mitigating circumstance, the acoustic properties are so bad that the echo makes it almost impossible to hear a speaker.

At City Temple, Holborn Viaduct, that celebrated divine, Dr. Parker, preaches to large audiences. Regent Square Church was ably filled by the accomplished Dr. Dykes; and Christ Church was thrilled by the impetuous eloquence of Dr. Newman Hall. These are the brighter stars in the ecclesiastical firmament of London.

CHILDRENS' CORNER.

The following story of a young Scotchman shows how careful boys and girls should be to listen to the advice of wise and thoughtful parents. This young man got some money from his father and started a store. He soon lost all he had, and became very poor. A gentleman met his mother one day and asked why John—her son—had failed in business. She said, "Whom father and I began business we lived on porridge, and as we got richer we were able to have a roast; and now we sometimes have boiled chicken. But John began with boiled chicken and worked backwards, so that now he has nothing but porridge."

The lesson is that we should be contented with plain food and clothes until we are rich enough to have better things.

COUNCIL MEETING.

Council met 29th October, present the Reeve and councillors. The minutes of the previous meeting were read and signed. Orders on the Treasurer were passed to the amount of $81.80. On motion the taxes charged against Thos. Towler on the roll of 1886 was remitted. The Reeve was authorized to have the culverts near David Quinn's repaired or rebuilt as deemed necessary. Martin McManus was commissioned to expend $25 on line of road between concessions 2 and 3 opposite lot 16. P. M. Lemby, Inspector under the Tree Planting Act, laid his report on the table which was received and adopted. The Reeve and Clerk were instructed to forward a certified copy of same to the proper department. On motion the Reeve, Clerk and Treasurer were instructed to prepare a detailed statement of the Treasurer's accounts up to Dec. 15th, 1888, as required by sec. 12, sub.-sec. 3 of the Municipal Act. By-laws were passed, appointing the places for holding the municipal nominations and elections, and appointing deputy returning officers. Council adjourned to the 15th day of December next, at 9 o'clock a.m.

Keene.

From Our Own Correspondent.

The Good Templars are suffering disgraceful annoyance. On Tuesday evening some parties entered their place of meeting, over the town hall, and, while the meeting was in progress, defaced the wall by objectionable writing. This is conduct which cannot be permitted to go unpunished, if the guilty parties are detected.

The other night some ill-conditioned scamp threw a heavy stone and struck the window of a citizen, carrying away the sash and glass. All good citizens should unite to put a stop to this disgraceful lawlessness.

Your Opportunity.

G. C. Clark's clearing sale of clothing and gents' furnishings for the next two months will afford an opportunity seldom met with for obtaining first-class new goods at less than cost price. Suits—ordered clothing—from $3.00 to $5.00 less than former prices; overcoats and pants at same rate; 50 dozen ties at 15 and 20c.; shirts from 25c. to 50c. less than regular prices. This is a genuine sale, and an unequalled opportunity to secure bargains.

BABY'S SKIN AND SCALP

Cleansed, Purified and Beautified by Cuticura Remedies.

One infant child, now six years of age, whom we have had under our medical care since it was a year old, was afflicted with a severe, scaly, crusting and itching humor, which appeared to be a virulent, inflammatory skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with added inflammation and virulence, until the lower portion of the little face and throat, down the left shoulder of his mamma down to his knees, was one solid mass of scabs, ugly, painful, mortified, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDIES. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

Clear Skin, Pure Blood.

No mother, who loves her children, who takes pride in their beauty, purity, and health, need to controvert upon them a child's greatest inheritance,—a skin without a blemish, and a body nourished by pure blood,—should fail to make trial of the CUTICURA REMEDIES.

I have seen the CUTICURA REMEDIES used for milk crust by a visitor in my house, and can testify that the cure was speedy and permanent. I have also used them myself, for eruptions of the skin on my little child, with satisfactory results in every respect. The skin was broken out and began to assume ugly proportions. I have also heard my neighbors speak of CUTICURA REMEDIES in the highest terms.

LIFE ASSURANCE COMPY OF CANADA.

HEAD OFFICE, MONTREAL.

Both in Magnitude and Profitableness, the Business for 1887 has been almost everything that could be desired.

The life policies now in force are 7,128 for $10,873,777.69, on 6741 lives. We have moreover $3,207,600.00 insured under 1,840 accident policies, so that the total current contracts of the Company are 8,969 for $14,081,377.69.

The income for the year shows the very large increase of $122,231.23 over the figures of 1886, the total being $495,831.54. The revenue is now half a million dollars per annum, or as mentioned in the report, over $1,600 for every working day in the year, and even this he believed was but a mere introduction to what it will be in a few years hence. The gains from time to time are well illustrated by the following table:—

Period	Gain in income.	Gain in assets.	Gain in assurances.
1872 to 1876, four years	$ 44,611 21	$169,482 69	$1,140,743 00
1876 to 1880, four years	38,560 67	196,186 29	1,167,396 14
1880 to 1884, four years	192,976 84	368,284 31	2,902,934 90
1884 to 1887, three years	217,451 99	475,977 24	4,023,373 65
Total in 1887	$495,831 54	$1,750,004 46	$10,873,777 69

It is very pleasing to notice that the gains for the last three years only are 60 per cent. more than those of the preceding four years.

MUNCASTER'S

DARING AND SUFFERING.

[CONTINUED]

In sore perplexity I read the Bible from day to day and prayed, taking my turn in praying aloud and reading with the others. At length I thought I began to see that trusting Christ meant something like taking his words and teachings for my guide, trying to do all that he commands, and leaving the result, while I did this, with him. This was not that sudden transformation that I had hoped, but I soon found that it opened up a good many things that I had never dreamed of. One of these seemed especially strange under the circumstances. I had yet but a slender hope of ever escaping from the prison except by the way of the scaffold. But in spite of the dark prospect the question came as an absolute test of my obedience, "Will you, if satisfied that it is God's will, be ready to give up the profession of law if you ever get home and go into the ministry?" The first and spontaneous reply was, "No!" I had studied law and meant to practice it if I ever got where

law reigned. But at once the self responses was clear, "What kind of obedience is this?" I saw that I was not sincere in proposing to enlist under Christ as my captain, unless I would really obey him. It would be a poor allegiance that stopped short with the things I wanted to do. For a long time I could not pass this point. The difficulty when communicated to my prison companions seemed utterly absurd.

"Try to serve God in the prison, where you are," they said with a rough plausibility, "and don't bother about preaching, being a lawyer, or anything else, when you get out, for you never will get out." This seemed good advice, but it would not bring a serene mind or the victory over the fear of death which I so much desired. One after another of those in the prison found the comfort I lacked; and it was not till wearied and worn out with the struggle that I vowed if God would only give me his peace, I would serve him as sincerely in the prison or out of it as I had tried to serve my country, and in any way that he might direct. Oh! that this vow had been always more faithfully kept!

From this time I did have a steady conviction that I was on the Lord's side, and that I had a right to commit myself and my life to his keeping. The prison did not prove a palace; its discomforts were still felt keenly, and the prospect of death by the gallows did not appear more inviting. I would not have been the less ready to make any desperate venture for escape; but I had a hope which went beyond the prison and the scaffold—beyond any contingency of earthly fortune, while it did not take away any real earthly good.

We all remember with deepest gratitude the Rev. George G. N. MacDonell, one of those who attended our comrades on the day of death. We did not see either of the clergymen then, or know who they were, or, indeed, that there was such attendance until long after. Whether Rev. Mr. Scott did visit us or not I am unable to state with positiveness. A minister came, and I was afterward told that his name was Scott, but he may have been another person, as I think this one was not a resident of the city. The interview in this latter case was unpleasant. The preacher had been brought in by our old jailer on the very natural presumption that persons who prayed and sung so much would like to meet a clergyman. He promised the officer of the guard that he would talk only about religion. But his first question built up an impassable barrier between us. He asked how we could be so wicked as to come down there and fight against the south and try to overturn their government? We had been trying to repent of our sins, but had not got so far as that particular one yet, and answered a little tartly by asking how he and his friends could be so wicked as to rebel against a good government. He answered by a reference to the north trying to overthrow slavery, and I asked him if it was possible that he, a minister, was an apologist for slavery! It happened that he was a zealous defender of the institution and very sensitive on this point; and so much noise was soon made in the discussion that the guard removed him. He did not come again.

But our interview and subsequent acquaintance with Rev. Mr. MacDonell was of a very different character, though it also opened unpromisingly. In his first prayer he petitioned very earnestly that our lives might be spared if consistent with the good of the Confederacy! This offended some of us, but the better opinion was that if sincere in his loyalty to the rebel authority, he could hardly have prayed differently. So kind was he to us afterward that some thought he might possibly be a Union man in real sentiments; but he has since assured me that he was not in the slightest degree, and that all he did for us was at the dictates of humanity and religion. We had a very pleasant interview. He gave us valuable counsel, and I felt it a great privilege to talk over religious questions with one so intelligent and sympathetic. When he left he promised to send us some books, and did not forget to promptly forward them. These we took good care of, read thoroughly to all in the room and then returned, asking for more. These he generally gave, and we thus continued till we had read nearly his whole library. Those only who know what a dreadful weariness it is to pass days without any definite employment can realize the great boon these good books bestowed on us. It made the prison room a veritable school; and in view of our religious efforts the character of the books was just what we would most have desired. I did not care, as in Knoxville, for law books, but the fact that many, though not all, of the minister's books were of a theological and religious cast only made them the more welcome. This Atlanta jail was my theological seminary!

CHAPTER XXIV.

A DARING ESCAPE PLANNED.

From the very beginning of our imprisonment we had thought and planned about escape. A very hopeful scheme had been foiled at Chattanooga by the separation of the band when the twelve were sent to Knoxville. Andrews and Wollam had actually gotten outside the prison walls—the latter remaining at large for many days. How to escape was one topic of conversation which never lost its interest. We felt that if once more in the open air our chances of reaching our lines in the clear October weather, and with the abundant supplies in the fields, would be far greater than in the spring. We went over all the errors committed on first leaving the train, and each gave all others the benefit of all the knowledge of geography he possessed.

But in many other respects we were less favorably situated now than we were when we had ever been before. The distance was greater to be traversed, for Gen. Buell had been forced back almost to the Ohio river. Our own number was diminished by death. We were all weakened by more than six months of terrible imprisonment, and some of our best men were too sick to take a very active part in the struggle, while a strong guard was constantly on duty and we were in a strongly barred and locked upper room in the edge of a city which was almost in the center of the Confederacy.

But we resolved at every hazard to make an attempt if there should be the slightest intimation of an intention to bring us before another court martial. It was better to die on the bayonets of the the scaffold.

(*To be Continued.*)

A Colored Brute Jailed.

WESTCHESTER, Pa., Nov. 20.—James Mills, the colored assailant and would-be murderer of Bertie Howard, the 11-year-old adopted daughter of Farmer Isaac Beck, residing near Paoli, was brought to Westchester this afternoon and immediately lodged in prison. He was captured in bed last night at Cranberry, N.J., by Officer Jefferis of this place. The blast in which he was conveyed to prison was surrounded by a hooting crowd. On Thursday evening, Sept. 20, Bertie Howard was returning from school when she was met by the colored brute. He dragged her into a field close by and assaulted her. He then dragged her to a neighboring pond and threw her in. She dragged herself to the bank and was again thrown back by Mills. This was repeated the third time. The girl lay still in the water and the assailant, thinking she was dead, left. He went to his house, where he had been living with a white woman, changed his clothes and left. Bertie managed to drag herself from the water and to a neighboring house where she was taken in and cared for. For several days it was thought that she would die, but she finally commenced to mend and is now apparently healthy in body, though she has never been the bright, happy child she was before the assault. Mills acknowledged committing the assault, but says he was drunk at the time. He denies, however, that he attempted to drown her.

He Had No Jurisdiction.

NEW YORK, Nov. 20.—Haytien Consul Vamet to-day demanded of Deputy Collector McClennand that the steamship George W. Clyde, scheduled to sail this afternoon, be prevented from sailing. He said she was loaded with guns and ammunition for Monte Cristo, San Domingo. McClennand said he had no jurisdiction.

Referring to the proposal to change the hour and to hold joint municipal nominations for mayor and councillors, and the objections made that the would-be mayors would take up all the time and crowd the others out, and that ratepayers of one ward would not care to hear councillors of another ward, the Port Hope *Times* remarks:—This is a narrow view to take of the subject, the advantage of such a meeting to the ratepayers generally being entirely over-looked,—but those Peterborough fellows are great talkers, and each councillor wants a hall for himself.

The Hunters' Return.

They returned in the evening after a rather unsatisfactory day's sport. There was too much crusted snow on the ground, that gave the alarm before they could get near the birds.

Lord A. P. Cecil,

who has been for many years devoting his time and energies to the service of Christ, and who has during the last six or seven weeks been addressing crowded meetings in Toronto, is to be here two nights this week, and will preach in the old Baptist church, Aylmer street, on the second coming of Christ, as advertised in our columns. The importance of the subject ought to command a large and interested audience in a Christian community. Mr. E. J. Hayhoe preaches to night at 7.30.

Mesmeric Mysteries.

Everybody seems to be crazed with the mesmeric mysteries now being presented nightly. It is all very puzzling but not so puzzling to the public as how gough bros., the wonderful cheap men, can sell boots and shoes at such marvellously low prices. This is an easy one and has often been explained before. They buy for spot cash and thus get big discounts, they watch the markets—some big firm fails and goughs rake in the stock at half-price. That's why the people can get boots and shoes at bottom prices. The best of goods at the lowest figures. Don't forget the place, 375 george street.

Reading the Death List.

The daily death list published in the newspapers is anxiously consulted by more people than those who have an idle curiosity to know who is dead. During a campaign, candidates for office are anxious to attend funerals that are liable to congregate men of influence. A certain class of lawyers are on the lookout for damaged suits. Tombstone dealers take notes with view to business in the future. Insurance agents make a memorandum to call upon the surviving relatives in due time. The keepers of the beer houses out near cemeteries gauge their orders according to the outlook for the day. The class who want free carriage rides scan the column attentively, and dozens of other classes read the dreary list with more or less selfishness. —Undertaker in *Globe-Democrat*.

Does the Earth Really Move?

Science says that it does, but we cannot help wondering sometimes if there isn't some mistake about it, when we see how stubbornly certain old fogies cling to their musty and antiquated ideas. It was believed once that consumption was incurable, and although it has been clearly demonstrated that it is not, thousands of old-time physicians close their eyes and put their hands to their ears and refused to abandon the theory. But for all that the world moves on, and Dr. Pierce's Golden Medical Discovery continues to rescue sufferers from consumptives' graves. It is a sure cure for this dreaded disease, if taken in time. All scrofulous diseases—and consumption is included in the list—yield to it. c

A Homely "At Home."

The "At Home" held at the residence of Mr. A. Rutherford, Reid street, under the auspices of the W.C.T.U., of which she is President, was a social success indeed. The house was comfortably filled with guests, who were all made to feel "at home" and enjoy themselves. The usual amusements were provided—parlor games, a programme and refreshments, and conversational intercourse. The programme consisted of a piano solo by Miss Tucker, a reading by Dr. Clarke, a vocal solo by Mrs. Seward, readings by Misses Ford and Lewis, of Norwood, a song by Mrs. Jones and a piano solo by Miss Jennie Rose. The reading by Miss Ford, of Norwood, a selection from Longfellow's "Hiawatha," deserves special mention. Miss Lewis has histrionic ability of unusual merit for an amateur. There was quite a contingent of visitors from Norwood in attendance. During an intermission substantial refreshments were served, to the satisfaction of the guests. Altogether the "At Home" was a gratifying success, and scores another for the W.C.T.U. and its able President, Mrs. *Rutherford*.

The Greenfield Extradition Case.

It is a lamentable fact that the Conservative press is lacking in fairness to its political opponents. For instance, the local Conservative journal re-published from the *Empire* about half a column of misrepresentation of the Ontario Government in the Greenfield extradition matter. The *Empire* published a virtual retraction of its misleading article in the shape of a presentation of the real facts of the case, by the Deputy Attorney-General, yet the local opposition organ could not publish the *Empire's* retraction without again seeking to place the government in a position of blame in a matter in which it acted in the public interest and sought to protect the funds of the province, as it was in duty bound to do. If the government had failed to require from the municipality a part of the expense of Greenfield's extradition, the Conservative organs would have been prompt to make a charge of neglect of the financial interests entrusted to its protection. Carpers and fault-finders will have an excuse for railing on the most trivial grounds. They will strain at an infusorial Liberal gnat, and swallow a brobdignagian Conservative camel.

The Power of the Press.

Mr. A. P. Poussette Q.C., Chides the Newspapers for Over-Seriousness.

At the conclusion of the preliminary hearing of the charge of forgery preferred against Wm. Ross, of Port Hope, before P. M. Dumble this morning, Mr. A. P. Poussette, Q.C., rose and addresses the magistrate. He complained that the public press of the town had been too forward in publishing Ross misdemeanors—

County Crown Attorney Wood objected to the remarks. They were here to try the case and not to listen to charges against the newspapers.

Mr. POUSSETTE—Excuse me, Mr. Wood, you're not running this court; if you would not interupt me so often you would'nt be so rude.

Mr. WOOD—This court is not here for everyone to air their grievances. I want to get through with this case and get away. have other business to attend to.

Mr. POUSSETTE—Well, if you don't want to listen *you needn't stay.*

Mr. WOOD—But that's just it—we're not through and I can't get away.

Mr. Dumble remarked that he would hear what Mr. Poussette had to say, and Mr. Wood replied "all right," and retired.

Mr. POUSSETTE, continuing, said 'the public press ever since this case was first brought up had been attempting to rake up charges against the prisoner. The newspapers were read by a great many people, and probably the very persons who would act on the jury would have read these statements and will come into the court prejudiced against the prisoner. "It seems to me," he said, "almost a contempt of court for the newspapers to make any comment upon cases of this kind before they come to trial, and thereby, perhaps, prejudice the court against the prisoner," and he thought it would be well if the press understood it. He believed that a few words on the subject from the magistrate would be beneficial and show the newspapers their duty.

Mr. DUMBLE replied that he was aware the newspapers had stated there were charges waiting against Ross, the prisoner, in Kingston and other places, and not only had the local newspapers published this statement, but the *Globe* as well. A telegram to this effect is received by the Chief of Police and it is published as a matter of news. Just where the line could be drawn, of course, he could not say. As a general thing the press of this country acted fairly and our juries see that prisoners get just treatment.

Mr. POUSSETTE complained that the newspapers had taken it for granted that the William Ross who committed forgeries in Kingston was the same William Ross just committed for trial, whereas the prisoner states that at the time of the Kingston forgeries he was in Port Hope. He contended that such statements were prejudicial and unfair.

Mr. DUMBLE—The newspapers will no doubt notice your remarks and perhaps they will help guide them in the future.

[As far as the EXAMINER is concerned Mr. Poussette's strictures are uncalled for. All that we published was on authority of despatches from Kingston and credited to that source. There has been no "comment" whatever in the EXAMINER'S columns upon Ross' foreign frolics, and the Canadian press in general is too equitable and conservative of the rights of individuals to merit the "rounding up" dealt out by Mr. Poussette.

Ross Committed for Trial.

Enough Evidence of Forgery to Send Him Up Granted Bail.

Wm. Ross, accused of uttering a forged check, was committed for trial by P. M. Dumble this morning. Mr. R. E. Wood, C.C.A., conducted the prosecution, and Mr. A. P. Poussette, Q.C., defended the prisoner.

The witnesses were Messrs. Foot and McWhinnie, upon whom the check was passed, and Mr. C. McGill, manager of the Ont. Bank, upon which institution the check was drawn. The two former witnesses identified the prisoner, though Mr. Foote was not together positive. Mr. Foote said he had no conversation with the prisoner at the time he took the cheque which led him to believe that it had been made out by Mayor Stevenson, but he could not recollect whether he had asked the prisoner if it was signed by "Mr. Stevenson, of Peterborough," or "Mayor Stevenson." Mr. Foote said he accepted the cheque in the belief that it was in Mayor Stevenson's name, and would not have accepted it had he believed it was made out by any other Jas. Stevenson. The prisoner had made his mark on the back of the cheque, claiming he could not write. Mr. McGill stated that the signature was not that of Mayor Stevenson nor even a clumsy imitation of it. It did not bear any resemblance to the genuine. Mayor Stevenson was the only James Stevenson having any dealings at his bank.

Mr. Poussette contended that no *prima facie* case had been made out. In the first place no forgery had been proven, as it was admitted that the writing on the cheque did not bear the slightest resemblance to the signature of Mayor Stevenson. Then he claimed it had not been shown that the prisoner had said the cheque was made out by Mayor Stevenson, but simply Mr. Stevenson. Mr. Foote's evidence was not positive enough to be accepted.

Mr. WOOD argued that there had been an evident intention to defraud. The prisoner had given his name as Ferguson, when it was Ross, and, though Mr. Foote could not distinctly recall the conversation, he stated the prisoner gave him to understand the check was made out by Mayor Stevenson. Then the only Jas. Stevenson who had any account at the Ontario Bank, and, in fact, the only one in the locality, was the Mayor, and, though the signature did not resemble his, there remained the intention on the part of the prisoner to pass it off as such.

Mr. DUMBLE considered there was sufficient evidence to send the prisoner up for trial, and committed him for trial at the next court of competent jurisdiction.

The prisoner was admitted to bail, himself in $1,000 bonds, and two sureties at $500 each. Mr. Wood protested on the ground that if the prisoner was allowed out on bail he would be arrested for offences committed at other places, of which the crown was aware, and when he was wanted here for trial he could not be got. The magistrate replied that this court had no cognizance of any other crimes, and could not reasonably prevent his liberation on bail.

News Nuggets.

—A burning chimney at the Nicholls Hospital Tuesday morning alarmed the inmates, but it was easily subdued.

—Some fine views of the 57th Batt. and No. 6 Company, taken by Mr. R. M. Roy on inspection day, are shown at Muncaster's.

—Excavations are being made to lay a sewer from the George street main to Dawson's old stand on Hunter street.

Health vs. Business.

R. H. Green, on account of ill health, has decided to sell his entire stock of groceries and provisions at greatly reduced prices, for cash, for the next six weeks, after which time if his health is not improved will offer his stock in trade (*en bloc*) on reasonable terms, etc.

In the meantime parties desiring to procure good fresh groceries, etc., for the holiday season will find it to their advantage to call at the corner of Hunter and Aylmer streets where they will find a well assorted stock to choose from, and which will be sold very cheap for cash.

Apples, potatoes and vegetables always in stock, and will be delivered to any part of the town free of cartage.

Havelock.

Service was held in the Presbyterian church here on Thanksgiving Day at 11 o'clock, and was well attended.

In the evening a social was held in Mr. Matthewson's Hall, which was a decided success. This may be attributed to the ladies of the congregation doing their part so well. Some excellent music was rendered by the choir during the evening under the management of Mr. Shipman. A very pleasant evening was spent by all. The proceeds of the social amounted to $35 00.

The corner stone of the new Presbyterian church, Havelock, will be laid on Wednesday, Nov. 28th, 1888, at 1.30 o'clock. Following the ceremony, a dinner will be served in Matthewson's Hall, from 3 to 5 p.m.; tickets, 50 cents. Addresses will be delivered on the occasion by several ministers and others.

Mr. Geo. Masters, of Kendall, comes to Peterborough to reside.

The Fenelon Falls *Gazette* says:—Mrs. John Nugent, of Peterborough, left for home on Friday, after a week's visit amongst her numerous old friends at Fenelon Falls.

Mr. Isaac Maude received a telegram on Tuesday that his brother-in-law, Mr. David Little, had dropped dead on the street at Mitchell, Ont. Mr. Maude left on the evening train to attend the funeral.

By the death at Kingston on Sunday of Miss Macdonald, Sir John Macdonald loses his only sister. She was a lady of much ability, well read, and brilliant in conversation. The premier and his deceased sister were warmly attached to each other, and the former feels his bereavement keenly, and will have thousands of sincere sympathizers in every part of the Dominion.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

Evangelizing Nassau.

Evangelistic services are being held all this week at Nassau, in the Orange Hall, by the Laymen's Evangelical Association, assisted by some of the clergy. Last night sixteen persons drove out from town and took part in the meeting. The attendance is large at all the meetings, and they are very successful. These meetings are being held for the special benefit of the lumberman employed at the mills, who will shortly be leaving for the woods to work during the winter. Rev. M. L. Pearson will assist Thursday night and Rev. S. J. Shorey Friday night.

CATARRH CAN BE CURED.

NASAL BALM INSTANTLY RELIEVES Cold in the Head.

THE PROOF.

MR. G. T. GODSELL, Mail Clerk on C. P. R. says:—Nasal Balm is a boon to all sufferers from cold in the head. It gives relief rapidly and never fails to effect a speedy cure.

D. DINNEYSTEIN, President of the Ontario Creamery Association says: Nasal Balm, beats the world for catarrh and cold in the head. In my own case it effected relief from the first application.

NASAL BALM POSITIVELY CURES CATARRH In all Forms and Stages.

THE PROOF.

MR. A. W. MALLORY, Mollerytown, Ont. says: My daughter suffered for years from a most distressing and annoying catarrh. Her case was under the treatment of eminent physicians in the United States and Canada. Two months' use of Nasal Balm has had more beneficial effects than all former treatments combined.

MR. HORATIO COLLIER, Woolen Manufacturer, Cannonstown, Ont., states:—Nasal Balm is the only positive remedy for catarrh that I ever used.

O. L. POTTER, Manufacturer of Woolen Ware, Mc'intosh Mills, Ont., says:—Nasal Balm completely cured me of a case catarrh from I had suffered for over ten years. It cannot be too highly recommended, and should be used by anyone troubled with catarrh. It is one of the wonders of science.

NASAL BALM IS UNEQUALLED When used for the Stoppage of the Nasal Passages and Difficult Breathing in Children.

THE PROOF.

MR. M. RAY CRANE, N. S., says:—I have used Nasal Balm on several occasions with the children for cold in the head, and always find it effects a speedy cure.

MR. R. G. HART, of Gananoque, says:—My child was suffering severely from cold in the head, indeed to such an extent that breathing was difficult. One application of Nasal Balm gave instant relief, and in a short time made a perfect cure.

R. A. HARRISON, Druggist, Denville Ont., says:—I used your Nasal Balm in my own family, and find it by far the best remedy we can get. When baby gets cold we rub his forehead and nose well at night, and in the morning he is all right.

BEWARE OF IMITATIONS. The reputation achieved by NASAL BALM from its wonderful curative properties has induced certain unscrupulous parties to place imitations on sale closely resembling the style of our packages, and with names similar in sound. Beware of all preparations styled Nasal Cream, Nasal Balsam, etc. Ask for NASAL BALM and see that you get it.

If you cannot obtain NASAL BALM from your dealer it will be sent post-paid on receipt of price, 50 cents and $1, by addressing, FULFORD & CO., Brockville, Ont.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

—AND—

Black and Gray Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell cheaper than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Starlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

THE LEGAL BATTLE BEGUN

ARGUING THE CROSSING CASE IN THE SUPREME COURT.

Hon. Edward Blake Opens for the Canadian Pacific Railway—A Grand Concession to be Pinned Upon the Charter of the British North American Act.

OTTAWA, Nov. 22.—Arguments in the Manitoba railway crossing case was commenced at 2 o'clock to-day in the Supreme Court. Hon. Edward Blake, Christopher Robinson and G. M. Clark appeared for the Canadian Pacific Railway and Hon. O. Mowat, D'Alton McCarthy, Attorney-General Martin and J. J. Gormally for the Province of Manitoba. Hon. F. Langelier watched the case on behalf of the Province of Quebec. The counsel who it was said would appear on behalf of New Brunswick and Nova Scotia did not file an appearance.

Mr. Blake commenced shortly before 2 o'clock and spoke about two hours. He seemed in excellent health and spoke as clearly, forcibly and logically as is his custom. He submitted that the whole question with which the court had to deal was the one as to the validity of the Manitoba act authorizing the construction of the Portage extension.

Hon. Mr. Mowat said that the other side had to prove that the provincial act was not valid.

Chief Justice Ritchie observed that it was usual for the persons attacking the validity of legislation to commence the case.

Mr. Blake resuming read the reference to the court by the Railway Committee of the Privy Council and contended that the simple question to be decided was whether any work or undertaking under the exclusive legislation of the Canadian Parliament was ultra vires of the Provincial Legislature, and any assumption of authority over such work or undertaking by the Provincial Legislature therefore void. He held that the ninety-second section of the British North America Act had removed the legislative authority which would otherwise have been with the province. That section did not declare that certain specified works were to be regarded as for the general advantage of Canada but that such works as were declared by the Parliament of Canada to be for the general advantage of Canada were to be so regarded. The test question to be applied in any case was not whether the work mentioned was one for the general advantage of Canada but whether the Parliament of Canada had declared it to be so. He contended that if Parliament declared a work to be for the advantage of Canada, no matter if it ran only from the city of Ottawa to Hogs Back, a little way out, the declaration was indisputable, and no matter what our private opinion was they would be works for the general advantage of Canada.

He argued that the clauses of the British North America Act must be treated in the broadest possible way. The Provincial Legislature might build a railway itself, subsidize that railway, embarrass its finances and burden itself for the future in order that the railway may be built under its control, and yet ten years after its construction three words of the Parliament of Canada might declare that to be a specific work for the general advantage of Canada, and would be competent to remove it from the jurisdiction of the province and place it within the jurisdiction of the Parliament of Canada.

Mr. Christopher Robinson followed for a few minutes in a similar strain until the adjournment of court at 4 o'clock and will continue his argument in the morning.

NOTES FROM THE CAPITAL.

The Canada Atlantic and the Canadian Pacific Railway.

OTTAWA, Nov. 22.—Mr. Andrew Flack, Secretary of the Canada Atlantic Railway Company, says that there is no truth in the rumor that negotiations are in progress for the acquirement of the road by the Canadian Pacific Railway. Such rumors are current, however, and those who are supposed to know say there is some foundation for them.

Dr. Scott and Mr. A. Lindsay of Southampton, Ont., had an interview with the Minister of Public Works yesterday, with reference to the harbor improvements at that place.

The Marine Department has received information that all buoys in the north and south channels of the St. Lawrence below Quebec have been taken up except five, which will be left until the departure of the last ocean-going steamer.

Sir John Macdonald returned from Kingston this morning.

General Middleton will go to London next Monday to inspect the Seventh Battalion.

Burned Out.

HAMILTON, Nov. 22.—All last summer the family of Mr. Joseph Wright had been living in a small cabin on the Beach, between the Ocean House and Burlington. They have been a curiosity to many a traveller. Yesterday Mrs. Wright and one child came to this city, leaving her husband and four children in the cabin. At about 4 o'clock Mr. Wright left for Burlington to meet his wife, and when he got about half a mile away he looked back and saw his cabin in flames. The children had piled the stove full of wood and set fire to the place. Mr. Thomas Hood was in a boat shooting near by and heard the children's screams. He went quickly to their assistance, but was too late to save the place. Just as he arrived he saw the oldest boy aged 7 years, carry the baby out of the flames. The lad certainly saved the infant from a horrible death. The cabin and every bit of clothing, bedding and food were burned, not a cent's worth being saved. The family are very poor.

A Grapevine Transaction.

HAMILTON, Nov. 22.—At the Police Court yesterday William Henry of Stamford was committed for trial in $1000 bail for obtaining by alleged false pretences a note for $136 from Isaac Smith of Winona in a grape vine transaction which originated in 1883.

There is a peculiar state of affairs existing at one of Murton & Reid's large coal sheds at the bay. About $100,000 worth of coal has been piled in one large shed. The most of it was put in wet and the immense mass has commenced to heat like grain and volumes of steam are pouring out of it. It is feared that the heat may become so great as to end in spontaneous combustion.

Suits Against The Empire and News.

MONTREAL, Nov. 22.—J. M. Conroy, plothier of this city, has entered two actions for $10,000 damages each against The Empire and The Toronto Evening News because of libellous remarks which they recently published in their respective columns.

An Elopement Spelled.

MONTREAL, Nov. 22.—This city appears to be a perfect paradise for eloping couples. Wednesday G. Kennedy of Norwich, Ont., located his truant wife here. She was about departing for England with his widowed brother-in-law, John Vener. The tranks were seized, but the woman refuses to return to her children.

An Advance in Freight Rates.

CHICAGO, Nov. 22.—The Northwestern lines have agreed to advance their proportion of the through rate on traffic from the seaboard to St. Paul to the basis of 50 cents first-class, taking effect Dec. 1. This is an advance of 10 cents and is made in consequence of the reduction in west bound rates by the trunk lines.

HARRISON IS AMBITIOUS.

HE DESIRES A BRILLIANT PAGE IN HISTORY.

It is Said That His First Message to Congress Will Propose the Purchase of Canada—Willing to Pay a Bonus.

CHICAGO, Nov. 22.—A News special from Indianapolis says: A[illegible] intimate friend of Gen. Harrison said [illegible]day that Gen. Harrison, like all [illegible] would like to do something that [illegible]e his administration a prominent place in the history of his country, and "I have reason to believe," continued the speaker, "that one of his first official acts will be negotiations for the annexation of Canada."

"What is his plan of annexation?"

"He believes the United States can and should receive Canada in a peaceful manner. His idea is that the territory can be annexed to the United States by assuming Canada's debt. If the territory can be obtained for that consideration I think Gen. Harrison would favor paying a considerable bonus. I understand he has said privately that the surplus in the treasury could not be spent in a wiser manner than by buying Canada. Whatever his plan for making Canada a portion of the United States may be I know he heartily favors such a move, and will so recommend in his first letter to Congress."

THE LAND PURCHASE BILL.

Mr. Labouchere and Sir G. O. Trevelyan Attack the Measure.

LONDON, Nov. 22.—In the House of Commons yesterday afternoon, Mr. Madden, Solicitor-General for Ireland, moved the second reading of the Irish land purchase bill.

Mr. Labouchere moved that the bill be rejected. He complained of the undue haste in which the measure was being pressed forward and said there was an obvious desire on the part of the Government to prevent the country from considering their proposals on the question of land purchase. He denied that Parliament had obtained at the last election any authority to legislate upon this question, the immense importance of which requires the special sanction of the country. As the bill stood it was a gross injustice upon the British taxpayer. Besides that, it was injurious to Ireland as it would encourage a gigantic system of absenteeism. Until a home-rule measure was carried nothing ought to be done towards land purchase.

Sir George Otto Trevelyan (Lib.) warned the House that if it assented to the bill it would not be able to stop further grants and it would soon be called upon and compelled to advance millions. Among the dangers of the Ashbourne Act not the least was that it committed the British taxpayer to a system of landlord purchase which gave no good security for advance, and which left the tenant in a condition to repudiate if bad years rendered him unable to pay his installments.

On motion of Mr. Parnell the debate was adjourned.

The Parnellites are discontented with the manner in which the debate on the Ashbourne extension bill is conducted. They declare that the bill is not fought with sufficient spirit and tenacity and that the attitude of the Liberal leader is wanting in hostility. Mr. Parnell, responding to the desires of his party, has decided to fight every stage of the bill.

THE EMPRESS' BIRTHDAY.

Berlin Decorated in Honor of the Event—The Military Budget.

BERLIN, Nov. 22.—Many public and private buildings were decorated with flags yesterday in honor of Empress Frederick's birthday. The Reichsanzeiger says: "With sincere sympathy for the grief which during the past year of her life has fallen to the lot of Her Majesty are everywhere mingled heartfelt wishes for her future."

It is semi-officially denied that the ex Empress will return here at Christmas. On leaving England, it is stated, she will go directly to Italy for the winter.

Although no extra military credit has as yet been presented in the Bundesrath, in military circles it is considered certain that a loan of 350,000,000 marks will be demanded. This will be distinct from the credit already before the Bundesrath, amounting to 62 million marks, to meet extra expenditures under the annual provisional budget.

An Aquatic Fed.

POUGHKEEPSIE, Nov. 22.—Prof. Oldreive the aquatic pedestrian who is attempting the feat of walking on the water from Albany to New York, reached here at 6 o'clock last night and left at 7. He will try to make Sing-Sing by Thursday night and New York Friday night. He complained of the cold.

The O'Connor-Teemer Race.

WASHINGTON, Nov. 22.—John Teemer and William O'Connor of Toronto, who will row a 3 mile race with a turn on the Potomac here Saturday for $1000 a side and the championship of Ontario, are both in good condition. Mr. J. R. Elder of the Columbia Athletic Club has been selected as referee.

Fatal Tenement House Fire.

NEW YORK, Nov. 22.—At a fire in a tenement at 110th-street yesterday afternoon a woman named Mrs. Mary Lally was burned to death on the top floor. The fire only did $3000 damage and originated in a shop on the first floor. There was a scramble among the tenants to escape but no other casualty is reported.

Brockville's Enoch Arden.

BROCKVILLE, Nov. 22.—After an absence of 26 years Mr. Shanum, a former resident, turned up in town to claim his girl bride, and finding that she is about to be married to a Cleveland man, having removed to that city some years ago, he returned to his Western home without seeing her.

Honor to a Brave Canadian.

WASHINGTON, Nov. 22.—The Secretary of the Treasury has awarded a silver medal to Walker Claus of Canada for rescuing the crew of the schooner G M. Bond of Oswego, while stranded near Loudran light-house, Lake Erie, in October, 1886.

Hanged for Murder.

WICHITA, Kan., Nov. 22.—Jake and Joe Jobler (colored) were executed yesterday in the county jail for killing Case and Goody Kunz near the Sac and Fox agency in August, 1885.

INTERESTING ITEMS BY WIRE.

Cleveland was admitted to the National League yesterday in the place of Detroit.

Mr. James Russell Lowell was banqueted by the Liverpool Philomathic Society last evening. He leaves for New York to-day.

Mr. Gladstone leaves London on Saturday for Hawarden. He will not return to London during the present session of Parliament.

At the meeting of the International Baseball Association yesterday Detroit and Toledo were admitted, Troy and Albany dropped and the salary limit fixed at $12,000 for each club for the season of 5½ months.

Found Responsible for His Crime.

BINGHAMTON, Nov. 22.—A few days ago Patrick Donahue, whose mind has been diseased for some years, killed his 18-year-old son with a bed slat and attempted to commit suicide by cutting his throat with a razor. The self-inflicted wound was slight and he was immediately removed to the insane asylum at Utica. The coroner has had the case on hand for several days, much evidence being taken, and last night found Donahue responsible for the killing.

MR. COCHRANE ELECTED.

He Defeats Dr. Mallory in East Northumberland by 58 Majority.

CAMPBELLFORD, Nov. 22.—The election in East Northumberland yesterday to fill the vacancy in the House of Commons caused by the unseating of Edward Cochrane (Con.), resulted in his return by a majority of 53 over Albert E. Mallory (Lib.). The vote was as follows:

East Northumberland had several contests since 1880. In that year Darius Crowter, a local preacher and a Liberal, defeated William Kennedy (Con.,) in a contest for the seat made vacant by the death of the late Joseph Keeler; his majority was about 200. In 1884 Edward Cochrane, the new member elect, left Mr. Crowter at home. At the general election in 1887 Dr. Mallory fought the constituency and beat Mr. Cochrane by 8 votes. He was unseated and at the next election in December, 1887, Mr. Cochrane was successful by 24 votes, only in his turn to be unseated.

QUEBEC POLITICS.

The Legislature to be Called Jan. 10—Proposed Cabinet Changes.

MONTREAL, Nov. 22.—The Quebec Official Gazette will on Saturday contain a proclamation calling the Legislature for Thursday, Jan. 10.

It is understood that the Magentic local election, rendered vacant by the unseating of the Conservative member, Mr. Johnston, will take place about the middle of December and that the Government candidate will be Lieut.-Col. Rhodes of Quebec, the former representative of the county, who will previously be sworn in as Minister of Agriculture, Premier Mercier taking the new portfolio of President of the Council. These facts were obtained from a gentleman who had a conference with the Ministers yesterday.

Mr. Marcier has been detained at his Quebec residence for three days past through illness. His ailment however is not considered serious.

All the departments are in full blast preparing for the session.

A Conservative M.P. stated yesterday that the Ottawa session would begin in the third week in January.

TORONTO TOPICS.

Polly Bredin in the Police Court Charged With Bigamy.

TORONTO, Nov. 22.—At the Police Court yesterday Polly Bredin was arraigned on the charge of bigamy. Mr. W. R. Meredith, Q.C., M.P.P., appeared for the prisoner, pleaded not guilty and demanded a jury trial. At the request of the crown a remand was had until Tuesday to secure witnesses to prove the two marriages.

Alkins Pfeffers, arrested in Listowel on a charge of having stolen $15 from a milk-dealer named Hobbs, was yesterday remanded by Justice Wingfield till Friday.

The alleged confidence man Alexander and Hunter appear to have been quite skilled in the various arts of bank smashing and other styles of gentlemanly theft. The detectives have in their possession a cane belonging to the prisoners which has a history. Apparently it is simply a walking stick with a stout ferule and a nobby handle. The ferule, however, is sectional, and when the top is unscrewed a pair of tweezers is discovered, which opens and shuts by operating the handle. The idea is for the owner to walk into a bank, and when he sees a package of bills within easy reach of his cane he unscrews the ferule, distracts the attention of the cashier, and rakes in the notes with dexterity. He does not take them himself, but simply transfers them from the cashier's desk to a confederate in waiting, who, if the steal is successful, picks them up from the floor and walks out.

A SHOCKING ACCIDENT.

Two Men Horribly Mutilated and Killed at Dorval by a Grand Trunk Train.

MONTREAL, Nov. 22.—Ulrich Noel, aged 19, and Philip Casavant, aged 21, both employed as plasterers at the new Grand Trunk station in course of erection at Dorval, were walking along the track coming from the direction of Lachine yesterday and just as they neared a timber-stack situated a few yards from the station two trains were noticed coming along close behind them, both going in the same direction. One was the Toronto express leaving Montreal at 9.10 and the other was a ballast train out from Pt. St. Charles. Seeing that the men made no attempt to get off the line, the driver of the Toronto train blew the whistle, and shouted out to them:

"Get off the line if you don't want to be killed."

Charles Burton from the station platform and the other officials seeing that the men were running the deadliest risk frantically shouted and waved their arms to them to jump off the track, but just as the unfortunate men seemed suddenly to realize their danger the express swiftly ran them down and all was over.

The engine caught up Noel and flung him with terrific force against the side of the boiler, dashing his brains out on the spot. The other man seemed to be crushed right underneath the body of the engine and was dragged on for nearly 200 yards. Both his legs were missing and the trunk of his body was badly mutilated. The poor fellow just gasped once for breath and then expired without a word.

An inquest was commenced last night.

Death of An Aged Oshawa Citizen.

OSHAWA, Nov. 22.—Elder Benjamin Rogers, one of Oshawa's oldest residents, died yesterday morning in the 87th year of his age. He was among the early settlers of this section.

Will Prosecute the City.

MONTREAL, Nov. 22.—Mr. Paquette, whose mills were recently burned down, has in contemplation the institution of an action for $75,000 against the city on account of the inefficiency of its fire protective service.

Annie Lyons' Complaint Not Proven.

NEW YORK, Nov. 22.—The case of Annie Lyons of Toronto, who charged Druggist Scott of Fourteenth-street and Seventh-avenue with deceiving her, was resumed in the Jefferson Market Police Court yesterday afternoon before Judge Duffy.

Judge Duffy reviewed the case briefly and at the end made a rather bitter speech against Mr. Scott, saying that he had received several anonymous letters giving Scott a bad character, but as the case was not proven he dismissed it. Miss Lyons was led back to her cell weeping and moaning piteously. She will be held to answer to a charge of disorderly conduct and pointly attempted suicide.

LABBY'S LONDON LETTER.

"THE MOST RISING MAN IN EUROPEAN POLITICS."

The Czar Furious at the Condition of Russian Railways—Political and Fantastic Prospects.

LONDON, Nov. 22.—Count Herbert von Bismarck is absurdly described as perhaps the most rising man of the day in the field of European statescraft. So far is this from being the case that I hear from a person who is behind the scenes at Berlin that Count Herbert's days at the Foreign Office are numbered, and that on the retirement of Prince Bismarck, which is certain to take place next spring, he will be practically shelved by being dispatched to London as ambassador. The fact is that Count Herbert, instead of being a man of great political talent, is simply nothing beyond a manly, agreeable German, with a great father to guide him. The most rising man in European politics is Count von Waldersee, who will be the de facto ruler of the German Empire in conjunction with the Kaiser before another year has passed.

The marriage of the Crown Prince of Greece and the Princess Sophia of Prussia is to take place at Athens during the first week in May.

Emperor Francis Joseph celebrates the 40th anniversary of his accession to the throne on Sunday week, and has positively forbidden all rejoicings. Nor will he receive any gifts. He desires that the money which might be expended in such ways be devoted to the poor and to charitable objects.

The Czar is furious at the discovery that the Russian railways, on which hundreds of millions of roubles have been expended, are in such a rotten condition that in the event of war the whole transport arrangements must inevitably be broken down.

John Bright has rallied and I sincerely hope that he will entirely regain his health and strength. For, Unionist and hard hitter as he is there is much about the old athlete that is very loveable to those who know him. But I am sorry to hear that his general condition is not deemed satisfactory by his friends.

If Mrs. Chamberlain is as witty as her mother she will prove a most pleasant addition to the Birmingham upper circles. Mrs. Endicott is reported to have said that there were five obstacles to her daughter's marriage—two below the ground and three above.

It appears from Thornton's shorthorn circular that at the fourteen sales that have been held during the past three months 636 animals were sold for £14,920 18d., giving an average price of £23 7s. 3½d a head.

In the Dominion a minister of the Scotch establishment, at a place called Whiteinch, received an impressive lesson a few Sundays ago on the subject of politics in the pulpit. It seems that the general assembly has published a manifesto on the bi-centenary of the revolution of 1688, and the Rev. Quintin Johnston, after reading this edifying document to the congregation proceeded to supplement it with his own valuable views on the political situation, describing Gladstone as a tool in the hands of Romanism, and so forth. Thereupon up rose a young lady in the congregation who called upon the preacher to stop, and, having frightened him into silence, proceeded to rate him soundly for desecrating the house of prayer by propagating partyism within its walls. The effect seems to have been excellent, for the Rev. Mr. Johnson was moved to apologize frankly for the offence. We could do with a few young ladies of the same type on this side of the ocean.

There really appears to be no bounds to the aberrations and fantasticalities of the clergy of the present day. I heard last week of a reverend parson of a western diocese who astounded his congregation by exhorting them before he commenced his sermon to pray earnestly for the early discovery of the Whitechapel murderer.

The feeling with regard to the action of the Parnell Commission is growing stronger every day, and to judge by the observations which have fallen from the president, Sir James Hannen, it would seem that the commissioners themselves are beginning to perceive that they have fallen into the trap baited for them by the Attorney-General in his double capacity as The Times' advocate and a member of the Tory Government. At present every species of outrage, whether true or false, is being put in, the excuse being that the Attorney-General will connect them with the Nationalist speeches. The connection, however, can only consist in this, that the speeches were made and that the outrages took place. Whether one was the result of the other is, and must be, a matter of opinion. But if an opinion is to be formed on the cause of the outrages it is clear that it will be obligatory on the defendants to show that there were other causes which, irrespective of the speeches might have led to the same result. It will then be necessary for them to produce all the victims of evictions and of excessive rents. Excessive rents followed by evictions are, it will be contended by many, a sufficient cause for the outrages. Where, then, is this to end?

It is stated that Lord Salisbury has decided to send Lord Sackville to Vienna, as successor to Sir Augustus Paget, whose term of service expires next January. Lord Sackville must, of course, be provided for at once in an adequate way, but I do not believe he will be sent to Vienna.

HENRY LABOUCHERE.

Milanese Workmen for Peace.

MILAN, Nov. 22.—Forty-six workmen's societies at a meeting yesterday protested against the triple alliance and against war in general. A resolution was adopted declaring that they would not support the Italian Government in the event of war. The protest will be sent to workmen's associations throughout Italy, and the workmen of France will be invited to adhere in the name of the brotherhood of labor. The Milanese workmen ask other associations to co-operate.

Bishops to be Created Next Month.

ROME, Nov. 22.—The Duke and Duchess of Aosta have left Turin en route to Berlin. They have been invited to visit Emperor William.

At the papal consistory in December a number of bishops will be created. The nomination of cardinals has been postponed until the March consistory. The postponement is due to difficulty experienced in the creation of French cardinals.

Bermondsey's Victims, Not Jack The Ripper's.

LONDON, Nov. 22.—Investigations by the police show that the Whitechapel woman who reported yesterday morning that she had been attacked by a man, who went to her lodgings with her, is a fallen woman of the lowest order. She suffered only a slight abrasion of the skin on her throat and the police place no credit in her story of an attack. They believe she inflicted the injury herself while she was drunk.

Pugilistic Pugs.

NEW YORK, Nov. 22.—A prize fight with kid gloves for a purse of $100, Marquis of Queensberry rules, took place on Long Island yesterday afternoon between Benny Moore, 18 years old, and Eddie Morgan, of the same age. Both are from this city. Moore's weight was 114 pounds and Morgan's 118. The referee was Jack Goldsmith and the fight was to a finish. Both were new to the prize ring, neither having ever fought for stakes, although they have been well known as amateurs. They fought six rounds. In the first three minutes Moore went down. In the last three minutes Morgan punished Moore severely, finishing and catching his opponent on the jaw, which knocked him out. The fight lasted 56 minutes.

NINTH PAPER.

London.

On Monday morning we visited the site of the ancient city of Westminster, where a bridge named after the old city, spans the Thames, and where are to be seen two of the most interesting as well as most remarkable structures in the world—the artistically designed and venerable Westminster Abbey, and that elegant, stately, massive pile of buildings—the Houses of Parliament. This is historic ground, but the purport of these papers being to simply describe things as they are, we can only notice but few facts relating to the past.

The Abbey is a series of chapels. It faces the west. Beside the grand entrance door there are two towers, which, for beauty of design, artistic finish, and general grandeur of appearance, surpass—in our judgment at least—anything of the kind to be seen elsewhere. Of course Westminster Abbey is very much blackened, and lacks the more sprightly appearance of Notre Dame and St. Peter's. Yet it has an exquisite charm about it that the others lack.

Canon Farrar advises the visitor "before beginning to study the Abbey in detail to wander through the length and breadth of it without any attention to the minor points, but with the single object of recognizing its exquisite beauty and magnificence. He will best understand its magnificence as a place of worship if he visit it on any Sunday afternoon and see the choir, and transepts crowded from end to end by perhaps three thousand people. Here the Puritan divines thundered against the errors of Rome; here the Romish preachers anathematized the apostacies of Luther. These walls have heard the voice of Cranmer as he preached before the boy-King, on whom he rested the hopes of the Reformation, and the voice of Frechenham as he preached before Philip of Spain and Mary Tudor. They have heard South shooting the envenomed arrows of his wit against the Independents, and Baxter pleading the cause of toleration. They have heard Bishop Bonner chanting the Mass in his mitre, and Stephen Marshall preaching at the funeral of Pym. Here Romish bishop and Protestant dean, who cursed each other when living, lie side by side in death; and Queen Mary, who burned Protestants, and Queen Elizabeth, who burned Papists, share one quiet grave, as they once bore the same uneasy crown."

In regard to those who are buried within these sacred precincts, Dean Stanley has said, "Here lies the body of the Confessor, himself like the now decayed seed from which the wonderful pile has grown. Around his shrine are clustered not only the names but the early relics of the principal actors in every scene of English history. Seventeen kings lie here, from Edward the Confessor to George II, and ten queens lie buried with them, amid England's greatest statesmen, warriors, divines, poets, and scholars."

In the different chapels of the Abbey there are about one hundred monuments and shrines. Many of these are very beautiful and represent the different phases in the particular lives they commemorate. For instance, on Newton's are three little genii minting money and a boy looking through a prism, etc., and under Pitt "history is recording his words of eloquence, Anarchy sits, like a chained giant, at his feet."

What associations loom up as one moves along and reads the names of Chaucer, Spencer, Shakspere, Drayton, Addison, Thomson, Goldsmith, Gray, Sheridan, Macaulay, Dickens, and a host of others. These tombs speak of the evanescent character of human life.

The cloisters and the Chapter House, adjoining the Abbey, are well worth seeing. The former are gloomy, dismal looking dens, and the latter, which is an indescribable, circular structure, was once the meeting-place of the House of Commons. Judging from the seats, the M. P.'s didn't go in for comfort.

Near by, and stretching some nine hundred feet along the river front, are the immense Parliament Buildings. The whole pile, which forms one of the largest and most imposing Gothic edifices in the world, covers eight acres. The appearance is very impressive—the immense size, the number, massive proportions, beauty of design, and architectural elegance of the towers, and the great clock, with its four dials, each thirty feet in diameter, all seem in harmony with the great national work transacted within its portals.

The present buildings stand on the site of old Westminster Hall founded by the second son of William the Conqueror. In the reign of Richard II. it was used for the sitting of Parliament. The last coronation banquet held in it was that of George IV. Several important State trials were held in it—that of Charles I., also those of Warren Hastings and Lord Melville. The Courts of Law were held here from the time of Henry III. down to 1882. The hall now forms the vestibule to the Houses of Parliament.

The prettiest gem of English art is the chapel in the Royal Palace at Westminster, and is found on the left side of the stairs leading from Westminster Hall to the House of Commons. It is elegant in the art of design and richly embellished by the best works of sculpture and the highest class of paintings.

The interior of the Commons has not the gorgeous gilding, stained glass, and brilliant colorings of the Lords' chamber. In the former the seats are arranged along the sides with the speaker's chair at the north end, and the "Gangway," which separates the bigger and more party dyed politicians from the lesser and more changeable legislators. In the latter their Lordships have a very comfortable place in which to take the affairs of State "under their careful consideration."

The principal apartments are the Queen's Robing Room—where are two great frescoes: "The Meeting of Wellington and Blucher" and "The Death of Nelson"—the Prince's chamber, where the Sovereign is received before entering the House, and the Peers' Lobby.

On the floor of the Lords' chamber are the throne, the canopy, State chairs and woolsack.

In the Peers' Robing Room are two interesting pictures—"Moses Descending from the Mount" and "The Judgment of Daniel."

J. HUNTER.

Forging a Farm Mortgage.

A Sharper Stalking after Big Game.

On Thanksgiving Day a man, giving his name as Robert Gardner and his residence as Dummer, called on business at the law office of Messrs. Sawers & Stone. He stated that last spring he had borrowed $2,050 from Washington Vosburgh, of Belmont, and should have given a mortgage in security, but he had neglected to do so and wished to give the mortgage then on his farm in Dummer. Accordingly the mortgage was drafted and duly signed and witnessed. Though giving his name as Robert Gardner, he signed his name to the mortgage as Robert Garner. He took the instrument away to get his wife to sign it. When he brought it back it bore the additional signature of "Hannah Garner," the "d," however, having been inserted by the wife in one signature and not in the other. The mortgage covered the west halves of lots 1, 2 and 4, concession 8, township of Dummer.

This is the little history of the making of the mortgage. The person represented as Robert Gardner, was a man between fifty and sixty years of age. He had every appearance of a thrifty, old-hand, well-to-do farmer. That the mortgage was fraudulently procured is shown by the following which the Norwood *Register* gives the following particulars of a sharp game practised on the Midland Loan and Savings Company by a man representing himself as "Washington Vosburg, of Belmont." As the sequel will show, however, "Washington Vosburg" is not the only person implicated, as there is certainly a gang in the plot. On Saturday last "Washington Vosburg" presented himself at the office of the Midland Loan and Savings Co. in Port Hope, and offered for sale a mortgage for $2,050, purporting to have been given by Mr. Robt. Gardiner, of Dummer, on the west halves of lots 1, 2 and 4, in the 8th concession of Dummer. The document appeared to be genuine. The dates showed it to have been made on the 15th inst., and recorded in the registry office, Peterborough, on the 16th. "Vosburg" represented that since lending the money his dwelling house and barns had been destroyed by fire, and that he required the money to build again—hence his desire to sell the mortgage. The Company agreed to purchase it, providing the value of the property would warrant their doing so, and on Monday, Mr. Henry Mulligan, of Millbrook, inspector for the company, arrived in town on the evening train. Tuesday morning he drove out to Mr. Gardiner's, armed with the mortgage, to value the property. Mr. Gardiner, who, by the way, is a very wealthy man, was thunderstruck when Mr. Mulligan stated his business, and pronounced the document to be a fraud of the first water. Whether the company advanced any money on the mortgage or not we are unable to say, but it, being in their possession, would lead us to suppose they had. Mr. Gardiner's christened name was not given properly on the document, and the names of the witnesses and the mortgagor are evidently fictitious. The document was made out in a Peterborough law office, and we have no doubt but that the guilty parties, if they have not by this time fled the country, will be brought to justice."

Shall Women Be Allowed to Vote?

The question of female suffrage has agitated the tongues and pens of reformers for many years, and good arguments have been adduced for and against it. Many of the softer sex could vote intelligently, and many would vote as their husband did, and give no thought to the merits of a political issue. They would all vote for Dr. Pierce's Favorite Prescription, for they know it is a boon to their sex. DARING AND SUFFERING.

[CONTINUED]

Long before this, when utterly wearied with captivity, we wrote a letter to Jefferson Davis—still preserved in the government archives—stating our case from our own point of view. This brought no response. More recently we wrote again to Gen. Bragg, commanding the department in which we were. This had been forwarded, step by step, to the president of the Confederacy, bringing from him a savage question as to why we had not all been executed like our comrades! This letter and its numerous indorsements are published in the War Records. We only knew of the danger it indicated at the time indirectly. Our guard was strengthened; the jailor was overheard by a prisoner in another room saying: "Those Ohio men will soon all be hung!" The commander of the post, Col. Lee, visited us and asked of us almost the same question Davis asked, as to the difference between our case and that of our comrades, and urged great vigilance on the guards.

These things convinced us that our only chance of life was by taking the matter in our own hands. One plan proposed was to try to get out secretly, at night, by sawing off the bars of our windows and lowering ourselves, one by one, to the ground. The fatal objections to it were that it required us to await a dark night, and even then it was scarcely possible that more than one or two would get out before an alarm was given. I had no hope from it.

But the other plan could not fail if every man did his exact duty, and we were now so well acquainted that we had perfect confidence in each other. It was simply to attack our foes in broad daylight. When our food was brought in the afternoon, and the door opened, we could rush out, seizing and holding perfectly quiet the jailer and his assistant, threatening them with death if they moved, unlocking all the doors so that we might have the assistance of all the prisoners, and then charge upon the seven soldiers below, dispossessing them of their muskets in the first rush; and if this was done without noise or alarm, march them up into our room and gag them there. It was not likely, however, that we would be able to keep everything quiet enough for this; in which case we were to run as soon as an alarm was raised, for we knew that there was a strong reserve close by, and did not feel able to reckon with any more than the seven rebels on hand.

In such an attack, the element of time and exact planning of every man's work so that there is no confusion and hesitation, are of vital importance. We arranged with the utmost nicety. Capt. Fry was to begin the movement, for he was the oldest, and we gave him the post of honor; I was to stand by and help him with the jailer and the watchman Thoer, if the latter was on hand, as he usually was; probably I was given this place from the correct view that with my poor eyes I would be of more service in a scuffle in the hall than in the glaring light outside. Then Buffum, who was as agile as a cat, was to snatch the keys, and, waiting for nothing else, to open all the doors above. There were three, and the fitting of keys from the bunch under such excitement was likely to make this take some time. I think no one of us felt that Buffum had a desirable office. But it was desirable to to have all the prisoners released if only to distract the pursuit. All the others were arranged into two bands with leaders, to slip down the stairway at the proper time and break out on the guards at the front and rear doors simultaneously. Then quickness, courage and desperation were to be pitted against loaded muskets and bayonets, and the issue left to the God of battles.

We had also chosen our comrades and routes. We were to travel in pairs and in every direction. Capt. Fry was to be my partner, and all the rest considered that I was fortunate, for he would be at home in the Cumberland mountains, toward which we were to journey. The intended course was marked out for each couple and everything done to forward the movement on which we believed depended our last chance of escaping the gallows. We did not forget to make most earnest supplications in prayer, and to vow, in the old time manner, that we would render faithful service to the Lord of Hosts if he would aid us in this great emergency.

It was afternoon when we received the intelligence which determined our action and we could not very well be ready to start that day. So the work was set for the following afternoon. We patched our shoes as well as we could, and made cloth moccasins to protect our feet, for many shoes were worn out. We gave messages to each other beginning with the form, "If you get out and I do not"—for we could not tell who would be the fortunate ones in the effort, or how many might fall. We had a strong conviction of success, but whether seven guards would allow their muskets to be taken without using bullet or bayonet against some of their assailants with fatal effect, seemed more than doubtful! I have made ready for battle more than once, but never had so deep and solemn a realization of the uncertainty of the issue as on this occasion.

CHAPTER XXV

THE ATTEMPT.

The last night that we ever spent together was a very quiet one. We sung but little—only the usual number of hymns in our worship. But we talked late and thoughtfully. We were never all to meet again in this world, and the shadow of the separation was already upon us.

The next day was long and tedious. All our usual exercises had lost their zest, and we could do little but discuss in low tones the coming effort. We would not risk an attack in the morning, for that would have given our enemies all day to search for us. It was far better to wait for evening, even if the day seemed well nigh endless. Slowly the sun rose up, reached the meridian and disappeared behind the jail. We watched the shadow slowly moving up the hill opposite our window till it had well nigh reached the line on the summit that usually marked our supper time. The hour was come! We shook hands with a strong, lingering clasp, for we knew not how many of us might be cold in death before the stars came out. Capt. Fry, who was another hearted as a child, wept at the parting. He had two scouts, and as he had immediate use for one only he loaned the other to me. It was a wonderful boon, for I was nearly destitute of clothing. Everything that we felt ought to be taken we secured about us, so as not to be in the way of the coming struggle. We still had on hand a lot of books belonging to Rev. George MacDonell, who had sent them in not long before. We had not dared to return them for fear of arousing suspicion, and I carefully piled them in the corner and wrote him a note thanking him for the use of them.

At length the noise of shuffling feet and the voices of the colored women who carried in our provision was heard in the hall—a sound always welcome, for we were hungry enough to make the coming of our miserable dinner a great event. The door was unlocked—only one was kept fastened in the daytime now—our food was handed in and the door locked as usual, while the company moved on to give rations to the other prisoners.

Again we heard the shuffling feet in the hall as the waiters returned. For a moment I felt a sharp, knifelike pang shoot to my heart. So keen was it that I thought for a moment that my physical strength was about to fail in this time of sore need—something that had never happened or even been feared before, for always in the presence of danger I had possessed more than usual power. But in an instant it passed away, and I looked about to see if all were at their post. A glance was enough to show that there would be no flinching. The men looked pale, but their teeth were firmly set, and they were leaning slightly forward like a horse straining on the bridle. If there was any fear it was that they would strike even too soon. As for Capt. Fry, whom I had seen weeping a few moments before, he was perfectly calm and his face wore a pleasant smile.

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of tea or coffee without the knowledge of the person taking it; it is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. *It never fails.* The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. Pearson, President of the Bay of Quinte Conference, Wm. Burns and Dr. Bredin. Mr. J. R. Stratton, M.P.P., will occupy the chair. 1d1w

AT OPERA HOUSE

Hymeneal.

Last evening at the residence of Mr. Thos. Galvin, near Lakefield, the marriage of Mr. Frank Adams, of Ashburnham, and Miss Jennie Galvin was solemnized by Rev. J. B. Hough. The bridesmaid was Miss Minnie Garbutt, of Smith, and Mr. T. H. Adams, brother, supported the groom. There were 50 or 60 guests present, relatives of the contracting parties, who practically testified to their esteem for the young couple by their handsome gifts. Mr. and Mrs. Adams will reside in Ashburnham.

The Fightin' Editor Wasn't in.

The Hastings *Star* man is right up on his ear this week. His political ire was roused over the elections, and while in the humor he thus relieves himself:—"A sharper struck our village last week and endeavored to work the 'business notice' dodge. His *modus operandi* was to visit the merchants and for the small sum of $2.50 would engage to write and insert in the local paper an elaborate business notice. Had we been at home on the occasion of his visit to our office, the scamp would have been fired out quicker'n scat. None of our people were caught, but we learn that several Norwoodians were taken in and done for. Our exchanges will please sound a note of warning to their patrons."

"Scots Wha Hae!"

At the meeting of St. Andrews Society this evening, all Scotchmen whether members of the Society or not, are invited to be present. The object is to have a grand rally of the sons of the heather, in order to enlist their hearty and united support in the celebration of St. Andrews Day, which occurs on the hin'most day o' November.

"Just Lovely!"

is the remark you will hear from about nine out of every ten of the ladies who stop in front of Mr. Clegg's window. The attraction just now is a splendid drawing-room suite, richly carved walnut frame, covered in garnet and gold brocatelle; the seats have spring edges buttoned; the backs have springs, also, and are biscuit tufted. This suite is made to order, as are nearly all the good suites exhibited by Mr. Clegg. 1d

Terms most reasonable, and made known on application. d

A Mesmeric Entertainment.

Prof. Reynolds secured three good mental subjects at the opera house last night, and their mesmeric hallucinations, carried out in a most realistic manner, kept the audience convulsed with laughter. The physical experiments of Monday night were repeated, and new mental illusions introduced. The subjects saw beautiful singing canaries, filled their pockets with gold dollars picked off the floor, had a game of football, talked through a telephone, caught glimpses of Niagara Falls, Barnum's circus, and many other things. The entertainment to-night is well worth patronizing.

Lord A. P. Cecil

is advertised to preach to night and to-morrow in the old Baptist Church, Alymer Street, on the second coming of Christ. To-night he proposes to show from Scripture that our Lord will come again, more than a thousand years before the end of the world. As this is contrary to what is commonly taught by most theological preachers, it will be most important to bring all to the infallible test of the word of God *alone*, and not the bible and the church. What is called the church has often changed her voice, but the word of God never. Even the preaching of an Apostle was subjected to the test of Scripture, Acts xvii. 10. 11. 12.

Large Houses.

The Kingston *News* thus notices the Zera Semon Company, which will appear here next week in the opera house:—A very large house greeted the Zera Semon Company in the opera house last night, and everybody was well pleased with the entertainment. All the performers were first class, and the audience expressed its approval time and again by frequent encores. During the evening 100 prizes were distributed, among which were sets of dishes, a silver watch, hams, flour, pieces of china, parcels of dry goods, etc. Every prize was well worth receiving. The prospects are that another large house will greet the company to-night.

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor ten notice. I will clear out my entire stock of the famous Li-quor teas at one-half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

Salvation Army Notes.

Capt. Pople, an old Peterborough commander, lately stationed in Toronto, was in town yesterday on a day's leave of absence prior to his leaving to-day, with five comrades, for the Northwest. His old friends were glad to see him again.

The Army announces a Salvation drama to be presented at the barracks next Saturday and Sunday. The drama is entitled "The Farewell of the Hero," and the cast includes many Army celebrities. There will be matinees as well as morning and evening performances.

Next Monday the fine band of the House hold Troops of the Salvation Army, London, Eng., will visit Peterborough. The band comprises 27 instrumentalists and is said to be remarkably good.

A Wave of Crime.

Peterborough at the present time seems to be struck with a tidal wave of crime, and while the authorities seem to be doing their best to detect the perpetrators, they do not show one half the energy and enterprise shown by the gough bros. in providing bargains in boots and shoes for the public. An immense stock of first class boots and shoes, bought at half wholesale cost and thrown on the market at correspondingly low rates. Reflect on this state of things, and before you buy a particle of leather, call and see gough bros. stock, and be captivated with the excellent quality and low prices. Business is business—buy where you can get the best and cheapest. Because you have been dealing for years with a high-price house is all the more reason you should make a break now and buy your goods where you get the most boots for the least money.

Wedding Bells.

We clip the following from the *Daily British Columbian*. Mr. Armstrong is a nephew of Mrs. J. Stratton:—On Monday, 12th November, at Ladners, our popular deputy-sheriff, Thos. J. Armstrong, son of Mr. Sheriff Armstrong, was united in the holy bonds of matrimony to Annie, daughter of D. Kerr, Esq., of Ingersoll, Ont. The ceremony took place at the residence of the bride's brother-in-law, Mr. J. A. Paterson, and was performed by the Rev. Thos. Scouler. Only relations of the family were present. After a delightful wedding breakfast the happy couple took the steamer Princess Louise for Portland, Oregon, where the honeymoon will be spent. Mr. and Mrs. Armstrong were the recipients of numerous presents, over sixty in all, many of which are of considerable value. The *Columbian* extends heartiest congratulations.

An Inhuman Act.

A Little Five-year old Girl Cruelly Outraged—The Perpetrator of the Diabolical Crime Still at Large.

Yesterday afternoon shortly after one o'clock a little five-year old girl, scarcely more than an infant, whose parents live on Bethune-st, while returning to school from dinner was accosted on the street by a man who asked her to go with him and he would get her some sweetmeats. The child unsuspectingly complied, and the two entered Mrs. Minorgan's store, corner Sherbrooke and Rebidge streets, where the fellow bought some oranges. Before this he displayed a package of candies, and with these and the oranges he decoyed the little girl into the western outskirts of the town. They were followed a considerable distance by a small boy who had an eye upon the sweets, but the man drove him back with the most dire threats of what he would do if the youngster persisted. The man and girl continued walking to Chamberlen's hill, where they disappeared from view, and here, in a secluded spot, the unprincipled villain committed the diabolical crime which respectability should shudder to mention. After the child escaped from the brutal beast she returned home and revealed all to her mother, despite the threats made by the fellow to kill her if she told. Blood marks upon the girl's clothes first drew the mother's attention and led to the horrible revelations. Instantly Dr. King was summoned and he found her severely injured but not sufficient to cause any great alarm. The physician did all he could for the poor little victim and she is now in a fair way to recovery.

The police were next notified and Chief Roszel and his staff immediately took steps to capture the miserable miscreant. The little girl could give only a meagre description of her traducer, but with this and other acquired information the officers of the law sought all night long for the fellow, but without gaining the slightest clue to his identity or whereabouts. Not one of the force slept last night. It is considered extremely doubtful if the scoundrel can be found at all.

Out of respect for, and at the request of, the girl's parents, who are bowed down with grief over the shameful affair, no names are, for the present, mentioned.

It is reported that a little later in the afternoon two other young girls were accosted on north George street by a man, who offered them money to show him to the cemetery.

Ashburnham Brevities.

One of these happy events which relieve the monotony of the routine of life, occurred at the residence of Mr. John Craig, Elizabeth street, yesterday evening at 7 o'clock, being the marriage of his youngest daughter, Felicia, to Mr. Frank Bardett, of the Peterborough lock works. The ceremony was performed, at the residence of the bride's father, by the Rev. E. F. Torrance, M. A. The pretty bride was handsomely arrayed in a dress of white satin, trimmed with tulle lace. Miss Craig, of Oshawa, acted the part of bridesmaid, and was very neatly and handsomely dressed. Mr. W. Taber supported the groom. Mr. Bardett has made a happy choice of a partner, and best wishes are extended to them both for a prosperous future. The happy couple will occupy a handsome brick residence on Elizabeth street. The number and value of the presents attest to the high esteem in which the bride and groom are held by their many friends. The employees of the lock works presented Mr. Burdett with an elegant china tea set, and the men engaged in his own department gave him a handsome silver butter cooler.

Mrs. S. Rosebush, who has been visiting her daughter, Mrs. T. Bell, of Auburn, and her niece, Mrs. J. Throop, of Ashburnham, returned to her home in Bay City, Michigan, this morning.

Mrs. Harry Stewart and her sister-in-law Miss Cassie Stewart, returned on Monday from an extended visit among friends in Rochester and vicinity. Mr. Stewart accompanied them on their trip over, but returned three weeks before them.

Mr. Wm. Cooney, a retired farmer of Clark township, has moved his family and taken a residence on Elizabeth street.

Mr. Joseph Bryans, in the employ of Mr. T. G. Hazlitt, has purchased the brick house on the east side of Stewart street, north of Elizabeth street, and adjoining the residence of Mr. John Smith. The house belonged to Mr. Hiram Armstrong, from whom Mr. Bryans purchased it. The price paid was 1,600.

Police Court.

THURSDAY, Nov. 22.

S. Wyatt was charged by Henry Pace with using abusive language. The trouble arose over a business transaction, the barter of some goods for a watch, over which the defendant became angry and, it was alleged, used abusive and insulting language. The defendant was found guilty and fined $2 and costs. Mr. A. E. Peck conducted the defence.

Imperial Federation Meeting

Last night a largely attended meeting of the local branch of the Imperial League was held at the Y.M.C.A. hall. Mr. J.H. Long, President, occupied the chair. It was decided to invite Messrs. McCarthy, Montague and McNeil to speak here this winter on the subject of Imperial Federation. At last night's meeting eloquent and exhaustive addresses were delivered by Hon. R. Hamilton and Col. H C. Rogers, anent the advance of the movement. Mr. Wm. Brandrette also made a brief speech. It was shown that steady progress was being made in the movement all over the country, though a great many people seemed to think there was not a sufficient activity there should be; but this apparent lethargy, it was explained, was due to the necessarily slow motion which must attend such a great and important movement as this

The chairman read letters and a circular explanatory of the meeting of the council recently held in Toronto. As was mentioned in the EXAMINER a few days ago, the League is about to urge upon the Dominion Government the calling together in Canada of representatives from the Australian and other British colonies, for the consideration of an imperial trade policy, of telegraphic and postal communication, and of other important questions. There followed a general discussion of League matters, in which several speakers took part, and the Secretary was instructed to communicate with Mr. Dalton McCarthy, Q.C., M.P., (the President of the Canadian Branch) Mr. J. A. Barron, M.P., and other prominent members, with a view towards holding at an early date a large public meeting in Peterborough. The Secretary announced that he had received printed copies of the speeches delivered by Archbishop O'Brien and others at the last meeting in Halifax, and that branches had been formed at St. John, N.B., and elsewhere.

Purchase Extraordinary.

Macfarlane Wilson has purchased for less than 50 cents on the dollar of wholesale cost five thousand dollars worth of crockery, glass and china ware; and having all the goods his present premises will hold, he has rented the store on Water street, next Mr. Jas. Stevenson's office, where this lot will be opened up and sold regardless of its true value. The stock consists of 28 crates and over ninety other packages—barrels, cases, casks, etc., and cannot all be unpacked in less than a week, but he hopes to have enough open to begin selling on Saturday, the 24th inst., and expects to have it all displayed early next week. At the prices, however, it will be bought quickly, and the public will do well to visit the store daily for bargains in different lines, as they are unpacked. No goods will be put away for customers during this sale, but all goods will be delivered free the day bought. Terms strictly cash. dtf

Charged With Horse Stealing.

Henry Godfrey, an ex-convict, is in gaol at Belleville for horse stealing. He captured two horses, a rig and harness in Tyendinaga, selling one horse for $65. He was caught at Bowmanville, with the rest of the property. Godfrey says that he met Bill Jones, a Yankee, who lives near Napanee, and as Jones had the two horses and outfit he turned it over to him (Godfrey) to sell, as Jones intended going to the States. The money for the one horse was paid over to Jones in Peterborough. The yarn is considered too thin.

Your Opportunity.

G. C. Clark's clearing sale of clothing and gents' furnishings for the next two months will afford an opportunity seldom met with for obtaining first-class new goods at less than cost price. Suits—ordered clothing—from $3.00 to $5.00 less than former prices; overcoats and pants at same rate; 50 dozen ties at 15 and 20c.; shirts from 25c. to 50c. less than regular prices. This is a genuine sale, and an unequalled opportunity to secure bargains.

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c or 20c. than we will. All other lines just as cheap. Our 25c. and 30c. Shirts are Starlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

THE CASE OF MANITOBA.

PRESENTED BY MR. MOWAT BEFORE THE SUPREME COURT.

He is Frequently Interrupted by the Judges Who Make a Number of Suggestions and Ask Several Questions.

OTTAWA, Nov. 22.—Argument in the Manitoba railway crossing case was resumed in the Supreme Court this morning and Mr. Christopher Robinson, Q.C., in continuing his argument on behalf of the Canadian Pacific Railway commenced last evening, quoted a number of authorities to show the interpretation given to railway legislation by the Federal authorities. Dealing with the action of the Manitoba Legislature in authorizing the construction of the Portage extension, he said no legislature could of its own accord give itself jurisdiction. He showed the ill effects of concurrent jurisdiction. The Federal Parliament in declaring certain roads to be for the general advantage of Canada took a step which should be in itself sufficient to deter the provinces from constructing further railways intended to cross any of the railways declared by the Federal Parliament to be for the general advantage of Canada. It is unreasonable, he said, for the Provinces to object to the Dominion assuming the entire control of railways. Vast railways traversing the Dominion should not be handicapped by Provincial roads, which, while competing with the former, were governed by other regulations.

There can be no judicial interference. There cannot, he argued, be judicial interference in matters of policy, such as the assumption of all legislative control in railway matters. The tendency of the age is towards placing the various roads under the power of the central authority. The various provinces enacted legislation which conflicted with that of the Dominion. This formed the strongest argument, when the Dominion was obliged to assert its prerogative clearly bestowed under the British North America Act.

Hon. Mr. Mowat opened the case for Manitoba. He commenced by a general declaration that in endeavoring to assume control of provincial roads the Dominion Government was exceeding the power granted it by the British North America Act, and contended that the act did not give the Dominion Government the power with regard to railways which it was assuming. The question before the court was a twofold one:

First: Is the Manitoba act for the construction of the Portage extension valid?

Secondly: If so, is it valid to cross the Canadian Pacific Railway?

The enactment of the Federal Parliament in effect is to deprive the provinces of their rights to build roads. Since May, 1883, these provinces have no longer enjoyed a right granted them by the British North America Act. He disputed the wisdom of the Dominion in assuming legislative jurisdiction when it destroyed this vested right. If the terms of the Federal Railway Act are regarded, the construction of provincial railways crossing Dominion roads becomes an impossibility in British Columbia, Manitoba, Ontario, Quebec, and possibly the Maritime Provinces.

The Minister of Justice, despite the expense of Federal legislation preventing the granting of provincial charters authorizing roads to cross Federal roads, actually considered provincial acts relating to provincial railways in a favorable manner on various occasions during the past five years. Sir John Thompson made reports on these acts which granted provincial railway charters. Some of these acts were disallowed, but not in a single instance does the Minister of Justice suggest any difficulty regarding the method and manner of crossing Dominion roads.

Mr. Mowat then went on to argue touching what really should be the construction of the Act. It was impossible to imagine that Parliament really thought of forbidding railways built by the provinces, and this view was quite consistent with the legislation enacted by Parliament. All the language of the 306th section meant, or grammatically could bear, was that when the railway became a work it would be for the general advantage of Canada. There was no indication of any other meaning, and a larger construction would be utterly unwarrantable. The construction put upon them by the other side was much larger than the words require. The language of the 307th section also meant that not until the railway was built should it be subject to the legislation of Parliament.

Mr. Justice Taschereau referred Mr. Mowat to the definition of what a railway was. He mentioned it for what it was worth, Mr. Mowat having read the clause.

Hon. Edward Blake said it was worth more than was being given it.

Mr. Mowat: "It only stipulates what a railway shall do."

Proceeding, Mr. Mowat said that before 1883 the corresponding clauses in the old legislation would apply to all railways passed under provincial legislation which should cross a Dominion railway. That was the meaning before 1883 and we found it repeated in 1880, 1886, 1888. The construction would be that the legislature intended it to remain undisturbed. He held that the construction he was intending to prove was one recognized by the Minister of Railways and the province as acquiesced in by the Dominion Parliament.

Chief Justice Ritchie: "Have you not in Ontario an act which says it shall not have that effect?"

Mr. Mowat: "The Ontario Revised Act; yes, My Lord."

Mr. Justice Strong: "In a new clause which is introduced in an old enactment I think we must suppose that the new clause controls it."

Mr. Mowat: "If my learned friend's construction of the 306th section is right I think we must say that the 177th clause of the revised statutes excluded it."

Mr. Justice Strong: "Then you must come to what the construction of the 306th clause is."

Mr. Mowat, proceeding, argued that an Act of Parliament must be read by the light of the preamble. He argued that if the Canadian Pacific Railway's construction of the statute was correct all the money paid for the abandonment of monopoly had gone for nothing. The Dominion was not going to build that road and so $15,000,000 was guaranteed in order to get rid of the supposed monopoly. In his construction of legislation that was quite sufficient. Nothing more was needed and the province could build their own railways.

Mr. Justice Strong: "The abolition of that monopoly might have been done on the ground of policy. In the interest of its own public policy they might cause it to be regarded as a Dominion work."

Mr. Mowat: "It is one of a number of things which I thought I would mention in that direction."

Mr. Justice Strong: "It is not an argument that would commend itself to the judicial mind. Of course as a question of policy it may be very good."

Hon. Mr. Mowat went on to say that the Dominion Government had subsidized certain provincial railway lines which had been

Pacific and other railways mentioned as for the general advantage of Canada and more of them were disallowed. Amongst these were the Irondale, Bancroft and Ottawa Railway, the Richmond Hill Junction Railway, the Brockville, Westport and Sault Ste. Marie Railway, the Jacques Cartier Railway and others. All these had been built since 1883 and not disallowed.

Mr. Justice Strong observed that this would have the effect of recognizing these

Children Cry for Pitcher's Castoria.

persons to whom a grant was made as a corporation duly and legally incorporated. Would it have any effect beyond them particular bodies to whom the grant was made?

Hon. Mr. Mowat thought in a pretty strong argument that the operations of the companies were valid.

Mr. Justice Taschereau pointed out that it was the Canadian Pacific Railway who were taking action and not the Dominion Government.

Mr. Mowat closed by contending that any language held to take away certain powers from Provincial Legislatures must be clear and explicit and not contained in doubtful clauses of an act of Parliament.

Mr. D'Alton McCarthy, Q.C., followed on behalf of Manitoba. He dwelt upon the argument advanced by Mr. Mowat, that a work could not be declared to be for the general advantage until it is actually in existence and that Parliament must have an opportunity of exercising judgment before making such a declaration. He pointed out that the railway at present under discussion might actually be constructed without crossing the Canadian Pacific, although it was a matter of convenience that it should so cross, and held therefore that the charter granted by the Provincial Legislature must be valid without dispute.

Justice Taschereau: "Whether the act is valid or not is a question quite different to that we have to answer."

Mr. McCarthy said it was hard to understand how a charter which had been good when passed could become void merely by the carrying out of the authority given

Justice Strong: "We may answer the question in the negative without impugning the validity of the charter."

Mr. Blake: "Yes, since they can build the line without crossing the Canadian Pacific Railway."

Mr. McCarthy, continuing, held that in accordance with the ordinary rule if there was the slightest doubt in the matter, if the position of the province was not altogether unreasonable, it should be given the benefit of the doubt.

At the conclusion of Mr. McCarthy's argument Justice Ritchie intimated to Hon. F. Langelier, who was watching the case in the interest of the Province of Quebec, that if he wished to address the court he could do so, but he declined, saying he was quite content with the argument of Mr. Mowat.

Hon. Mr. Blake spoke for an hour in reply to the arguments of Hon. Mr. Mowat and Mr. McCarthy and had not concluded when the court rose.

HAMILTON'S ART EXPOSITION.

Preparations Progressing Favorably—Juvenile Burglars Wedding Bells.

HAMILTON, Nov. 22.—Eight small boys answering to the names of Joseph Forster, Wm. Dennis, Frank Larney, Ernest Schultz, Thomas Spence, David Martin, Burleigh Noyes and Henry Hyde, were tried at the police court this morning for being implicated in the theft of a quantity of tobacco, candies and biscuits from a store at the corner of Kelly and Cathcart-streets. Forster, Dennis and Schultz pleaded guilty to entering the store and stealing the articles. They lifted up a grating, and, in that way, gained an entrance to the shop. The value of the goods taken was not more than $3. The other defendants did not take any part in the theft; but they helped to get away with the spoils. The boys were severely lectured by the police magistrate and then allowed to go.

An enthusiastic and largely attended meeting of the ladies' committee of the art exposition was held this morning, and the result showed that everything is progressing most favorably. The work of erecting the booths and decorating the armory will commence on Monday morning.

There was a pleasant little gathering at the residence of William Webster, 53 Park-street north, yesterday afternoon, when Miss Lizzie Cusack of this city was married to Reuben S. Hamlin, vice-president of the Western Bank, Oshawa. The bride and groom were unattended, and the ceremony, which was performed by Rev. Dr. Mockridge, was witnessed only by the immediate relatives of the contracting parties.

Last evening Charles W. Graham, manager of Buntin, Gillies & Co.'s establishment here, was married to Miss Annie Nicholson, second daughter of the late Donald Nicholson, contractor. The ceremony took place at the residence of the bride's mother, corner of Markland and Ontario-streets, in the presence of a very large number of the friends of the young people. J. Gowinlock of Toronto acted as groomsman, and Miss Nellie Nicholson, sister of the bride, was bridesmaid.

Yesterday afternoon at the residence of M. W. Johnson, 249 Cannon street east, occurred the marriage of his cousin, Miss Millie Stancombe of this city, to Robert Irvine Russell of Bolton. Rev. Mr. Maxwell performed the ceremony.

TOPICS FROM THE CAPITAL.

Sale of Mr. Reed's Phosphate Property in Ottawa County.

OTTAWA, Nov. 22.—The Montreal deputation consisting of Acting-Mayor Clendenning, Ald. Laurent, Kennedy and Malone and City Surveyor St. George, accompanied by Messrs. J. J. Curran, M.P., and J. S. Hall, M.P.P., waited upon Hon. J. H. Pope, Minister of Railways and Canals, to-day and preferred a request for Government aid towards the construction of the proposed subway under the Lachine Canal. The deputation was affably received by the Minister, who promised that Chief Engineer Page should examine and report upon the matter as speedily as possible and it should then be brought before Council. The feeling in the deputation was that assistance will be granted.

Louis Weithiem of Frankfort, Germany, has purchased for $40,000 Mr. James Reed's phosphate property in Ottawa County. Mr. Weithiem is a dealer in asbestoes and phosphates, and intends next spring to erect large works at the mines for the purpose of getting out phosphate, which will be shipped to Frankfort, where it will be prepared for the German market.

The Chaudiere lumbermen are complaining that the high rates of ocean freights this summer have greatly reduced the exports of deals to England and board lumber to South America and Australia, and the result is that the yards are filled to overflowing, it being estimated that there are over 100,000,000 feet of lumber lying in the yards which is sold to the export firms but could not be exported for want of tonnage at reasonable rates. Last year the rate for lumber from New York to Liverpool was 28s. to 40s. per standard. Two railway men who have just returned from New York and Boston say that rates demanded this year are from 65s. to 80s. per standard. If the Chaudiere piling grounds are not relieved during the winter there will be no place to pile the first of next spring's cut and great inconvenience and loss will result.

Mr. J. M. Hall of Malden, Miss., had an interview with the Minister of Customs yesterday relative to a recent seizure of sprinklers at Woodstock for undervaluation. The matter was settled by the payment of a small addition to the duty charge and a fine under section 6 of the Customs Act.

The hearing of the case of the Canadian Pacific Railway v the Western Union Telegraph Company has been postponed until the February term of the Supreme Court.

AN IMPORTANT CONFERENCE IN LONDON YESTERDAY.

The Pacific Cable Scheme—The Parnell Commission—The Land Purchase Bill Passes Its Second Reading.

LONDON, Nov. 22.—A conference of influential Australians and Canadians was held to-day. Sir Donald Smith of Montreal presided.

The question of laying a cable from Vancouver to Australia, to touch at Hawaii, Fanning Island, Samoa, Fiji and New Zealand, was discussed and approved, and it was voted to urge the Imperial Government to support the project.

It was said that the tariff between England and Australia by this route would be four shillings per word.

The Land Purchase Bill.

LONDON, Nov. 22.—The debate on the Land Purchase Bill was resumed in the House of Commons to-night by Mr Parnell. He declared emphatically that he approved the bill, but he believed that it was so designed that under the present circumstances it would be impossible to put it into effective operation. He had always held that the creation of a peasant proprietary was the only means of solving the land question. His own bill simply asked that church tenants be allowed to acquire land by paying the church commission, annually for 49 years, a rent equal to four per cent. on the capitalised value of the holdings. That would have created no risk to the Imperial exchequer. The Conservatives opposed the proposal, but the time would come when they would find it needful to go further. The Irish party were always ready and eager to assist in a settlement of the land question. It was a calumny to say that anyone of the Irish members tried to make political capital out of the question or opposed the bill because it would make the government of Ireland easier. [Cheers.] On the contrary their opposition to the bill was due to the knowledge that it would cause a loss to the exchequer without effecting its ostensible object.

The Government had not taken up the land question with a view to helping tenants but as the solicitation of landlords who seeing that they could not any longer maintain their position wanted to dispose of their property at inflated prices. ["Hear, Hear!"]. The bill did not contain provisions enabling the state when supplying money to decide what tenancies it would be desirable to purchase in the public interest. The Government left the landlords to decide. Congested and rackrented estates would not be touched under the bill. The only way to make the landlords of congested estates agree to accept the value of their property was to empower the commission to purchase at such a price as would really represent the landlord's interests. Arrears ought to be considered along with rent reduction, otherwise the land purchase arrangements were futile. He would not like to predict that tenants might repudiate bargains made under the measure on the ground that advantage had been taken of their necessities, but the bill would not assist that large and permanent settlement that was desirable. Any bargain with the farmers ought to have a basis that would put repudiation out of the question ["Hear! Hear!"]

The measure showed an entire absence of consideration for the national sentiment. The present system of government trampled upon the national feeling. If the Government meant to attempt a large scheme of land purchase it was essential to establish in Ireland representative authority to act as a buffer between the tenants and the state. The tenants would have their 86 and may be 101 members of Parliament. [Parnellite cheers]. Government would be as much dependent as now upon the Irish vote. No sane government of self-respecting character would tolerate the sending of tax collectors around the cottages with an army and a crowbar brigade to enforce payments. If the national sentiment was conciliated there would be nothing to fear from the influence upon the hot-youth of the country of all the Fenian propagators from New York to San Francisco. It was those who exercised coercion that fomented disaffection far more than Rome. ["Hear!" Hear!"] This was not merely an agrarian question, it was knit up with national aspirations. If the Government meant well to tenants by the bill he implored them to insert suitable provisions dealing with arrears, the tenants' greatest difficulty. That done, he could cordially appreciate the measure and the legislature would reap its reward in the conciliation of the people. [Cheers.]

Lord Randolph Churchill said that the assertion that the bills was introduced to enable landlords to sell at inflated prices would not bear examination. The Parnellites knew that inflation did not exist in Ireland but very much the reverse. Regarding the national sentiment, he appealed to Mr. Parnell to say what room there was for romance in dealing with a matter of fact, advance and repayment of money. ["Hear! hear!"] Had Mr. Parnell any alternative bill? Would he support the principle of Mr. Gladstone's bill of 1886? [Mr. Parnell here gave a negative shake of his head.] Then, what other scheme?

Mr. Parnell: "I would accept the bill if the disadvantages connected with it were modified by dealing with arrears."

Lord Randolph, continuing, said he trusted that after the recent speeches of the ministers the Government would bring up the arrears question early in the future. In the meantime he could not admit that coercion militated against land purchase. How could it impede free action on the part of either landlord or tenant? As a financial operation the bill certainly was not good enough. The security for advances was totally insufficient, but the risk might be worth incurring when limited to an advance of ten millions which would not be tolerable under a larger scheme. It would never do to make the state the immediate landlord of the Irish tenantry. The present measure would not apply to more than 25,000 holdings. It was not likely to be a danger to the state though probably it could not be safely extended.

The bill passed the second reading by a vote of 299 to 224.

A GHASTLY DISCOVERY.

Mysterious Death of an Old Man in Charlotte County, N.B.

ST. JOHN, N.B., Nov. 22.—Another ghastly discovery has been made in Pennfield, Charlotte County. Wm. McCarthy, about 70 years old, who resided in an old tumbledown log hut in Pocologan, was found stretched on the floor of his dwelling with one foot caught in the flooring. The sleeves of his shirt were rolled up, one hand was covered with blood and his head touched the wall in the corner of the room.

How he came to his death is a mystery. He had probably been dead several days when found.

Disregarded the Judge's Instructions.

WINNIPEG, Nov. 22.—A verdict for $5000 was given against the Canadian Pacific Railway to-day in the case of the widow and children of Rajotte, the switchman who was killed last year by his feet catching in a frog. The judge directed the jury to return a verdict for the defendants, but the direction was disregarded. The case will be appealed.

A religious census of Winnipeg is being taken under the auspices of the Ministerial Association.

Wheat is still declining.

M. of L. Salaries.

INDIANAPOLIS, Nov. 22.—In the Knights of Labor Convention, by a vote of 38 to 32, it was decided to continue the salary of $2000 to the General Master Workman, and the Secretary Treasurer will be paid $1200. Members of the Executive Board will receive $4 a day and expenses. The report of the committee was adopted and these matters as to salary came up immediately afterwards.

THE RIPPER WRITES AGAIN

ANOTHER LETTER SENT TO THE LONDON POLICE.

Jack Likes the Work too Well to Leave It Long and Promises to Be the Next Lot With a Vengeance.

LONDON, Nov. 22.—The latest Whitechapel sensation has been sifted down to nothing but the mere ravings of a drunken woman after a row with her lover. The woman is even of a lower type than those who fell prey to the Whitechapel murderer. Her associates say that she is very quarrelsome and that the man whom she accused of trying to cut her throat has been visiting her for a year. The people in the house heard them quarreling, and when the man ran down stairs and the woman came to the top of the landing and screamed, "He tried to cut my throat; follow him," three men gave chase, but the fellow got away easily enough. But the police know who the man is and where he lives. They have been watching his house all day, and when he gets over his fright and returns home they expect to get him. There is, however, not the slightest reason to suppose that he is the Whitechapel fiend. The police say that the woman inflicted the wound in her throat herself. The injury is very slight.

The really interesting incident of the day is another letter from Jack the Ripper, dated Portsmouth. Here it is:

"DEAR BOSS: It is no good for you to look for me in London, because I am not there. Don't trouble yourself about me till I return, which will not be very long. I like the work too well to leave it long. O, that was such a jolly job, the last one. I had plenty of time to do it properly. Ha! ha! The next lot I mean to do with a vengeance; to cut off their heads and arms. You think it is a man with a black moustache. Ha! ha! When I have done another you can catch me. So good-bye, dear boss, till I return. Yours,

"JACK THE RIPPER."

The letter is in the same hand as the one received just before Mary Kelly was murdered.

TORONTO TOPICS.

Fatal Accident—The Barber-Bredin Mystery —A Shooting Case.

TORONTO, Nov. 23.—A market gardener named Thomas Hickey, who resided in Dixie, took a load of onions to Cooksville market yesterday morning, where he disposed of them. In the afternoon on his way home he endeavored to head off a ballast train on the C. P. R. but failed. The engine struck the wagon, and the unfortunate man was crushed under the wheels. Hickey was 71 years old, and leaves a widow and a married son.

The remanded case of Henry J. Thurle, charged with shooting his father-in-law, Adam C. Cooper, on Saturday night last, was resumed yesterday morning. The charge was proven and he was sentenced to three years in the penitentiary. Leaving the dock Thurle turned towards his mother and Mr. Cooper and said, "Good-bye, mother. I'll sing a song for you and pray for a blessing on you, father-in-law."

Nothing new has transpired in the Barber-Bredin case of much interest. The unfortunate man's effects at the Queen's Hotel have been carefully searched, but nothing bearing on the occurrence has been found. Rev. Mr. Wallace, pastor of the West Presbyterian Church, Denison-avenue, recollects distinctly marrying W. Bredin to the wayward Polly, who then gave her name as Mary Pattison Watson. The marriage took place on July 18, 1874. Why poor Barber shot himself is as much a mystery as ever.

A VALUABLE FIND.

Some MSS. of Lord Nelson in the Possession of a Waterdown Man.

HAMILTON, Nov. 22.—Through the efforts of George Dickson, M.A., of Upper Canada College, Toronto, some exceedingly valuable manuscripts belonging to Lord Nelson have been brought to light at Waterdown. They are in the possession of Luke Mulloch of Waterdown, grandson of Lieutenant Ramage, who was one of the officers on board the Polyphemus at the battle of Copenhagen. Besides several autographs of Lord Nelson, there is a water-color picture of the battle painted by Lieut. Ramage from a sketch made at the time the battle was in progress. The officer submitted the picture to Lord Nelson for his criticism, and the great admiral replied in an autograph letter, the original of which is in Mr. Mulloch's possession. He has also a copy of Nelson's plan of the battle and instructions to his officers. This is not in Nelson's handwriting, but it is signed by him and bears several interlineations in red ink in his writing.

On Saturday last E. J. Noyes, Hugh C. Baker and Mr. Dickson went out to Waterdown to see the manuscripts, and large photographs were taken of each paper. It is understood that Mr. Dickson proposes having them published in The Century Magazine as a sequel to the series of letters on the same battle which appeared in the last number.

The Case of the Bridgewater.

WASHINGTON, Nov. 22.—Mr. Allen, the owner of the ship Bridgewater of New York which was seized at Shelburne, N. S., in July, 1887, for alleged violation of Canadian revenue laws but unconditionally released after a detention of 31 days, is in this city on the matter. Mr. Allen has had an interview with Mr. Bayard and other high officials and expresses himself as being fully satisfied with the Government's action in the premises. From what could be gathered from the conversation it is inferred that the State Department has very recently made a further communication through the British minister resident and the hope is entertained that the matter will soon be amicably and satisfactorily settled.

CARIBOO IN DOUBT.

The Returns of the Election for the Commons Not all In—A Tie so Far.

NEW WESTMINSTER, B. C., Nov. 22.—The following are the returns so far as received of the election to fill the vacancy in the House of Commons for Cariboo:

There are yet several places to hear from. All the candidates are supporters of the Government.

Inspection of the G. R.

GUELPH, Nov. 22.—Mr. Ridout, the Government Engineer, arrived at Guelph to-day, and went over the road for the purpose of examining the structure reported upon in his former report, in company with President Bell, Messrs. Bond, Gowdy and Husband, and other directors of the road. He made a careful examination of all structures, and seemed to be impressed with the views of the directors as expressed to him, that, though at present and when he examined the road before, there was very little water in the streams, the necessity of some of the trestle work was not apparent, but that at other seasons of the year it would be impossible to provide for the greater quantity of water without the openings as they at present exist. He will make his report to the Minister of Railways at once, when his views will be fully explained.

Loyal Scots.

Adjourned Meeting of St. Andrew's Society —Treasurer's Statement—Celebration of St. Andrew's Day.

An adjourned meeting of the St. Andrew's Society was held on Thursday evening. The loyal and patriotic spirit manifested by those present, bespeaks an unusually successfully gathering at the annual supper to be held this year at the Morgan House on the 30th of this month (St. Andrew's Day). Energetic action was taken to assist the celebration committee in perfecting all the details of the work entrusted to them for the proper observance of "the day and a' wa' honor it." The tickets for the supper have been placed in the hands of men who never take refusals or excuses. A few sharp spies are on the look-out, determined to search out the land diligently, with instructions to discover if there can be found any Scotchmen shirking their duty between now and the first of December. A committee was also appointed to assist in decorating the spacious dining-hall of the Morgan House for the event, and it is expected they will produce effects that will provoke the admiration of all the guests.

The treasurer, Mr. Thos. Menzies, presented his report of the financial affairs of the society for the past year, showing a balance to the credit of Mr. Stewart as follows:—

Cash in bank	$22 27
Cheque	40 36

The secretary and Mr. Roderick McLennan were appointed to audit the treasurer's accounts. After some further discussion on matters respecting the celebration, the meeting adjourned amid much enthusiasm.

The new president, Mr. Chas. Cameron, occupied the chair, and grappled with the business of the evening in an expeditious manner.

Honor to Whom Honor,

Mr. W. F. Johnston, Barrrister, Dined by His Friends—A Jolly Evening at the Croft House.

Mr. W. Johnston, barrister, has made a record as a law student, one that has seldom if ever been equalled in Canada. In all of his three examinations he stood first on the list of successful candidates, winning a $100 scholarship at the intermediate and the gold medal of the Law Society at the final. This would show that that Mr. Johnston is possessed of more than ordinary ability and power of application to study, attainments which have been recognized by his associates in town. The supper tendered him at the Croft House Thursday night was a sincere expression of their appreciation of his talents and his many virtues of character, which have made him so popular among his young comrades. About 35 per-persons sat down to the tables spread by the genial proprietor of the house, who presented an admirable *menu* for the delectation of his guests. The dining-room was gorgeously decorated for the occasion by Mr. J. J. Turner, who artistically draped the walls with Union Jacks and bunting and other articles of adornment.

Mr. A. P. Poussette, Q.C., in whose office Mr. Johnston studied, occupied the chair, and after the cloth had been removed, so to speak, proposed a number of toasts, which were drunk with gusto in the excellent wines supplied by the host.

The Queen, Prince of Wales and royal family, the Governor-General and the Army and Navy were duly honored. Then followed the toast to the guest of the evening, which was given emphasis by three hearty cheers and "He's a Jolly Good Fellow." To this Mr. Johnston replied feelingly but briefly, making a neat little address expressing his thanks for the honor done him, which he accepted as a token of their appreciation of his hard work in the past with its gratifying reward. No one was more pleased that he had been able to win the medal than himself, and he felt as highly pleased with this banquet as if he had won another medal.

The "Learned Professions" was replied to by Messrs. O'Meara, Hays, R. R. Hall and Dr. Clarke; the "Banking Institutions" by Messrs. Parker, McDonald, Hamilton, Hewson, Shaw and McLellan; the "Commercial Interests" by Messrs. Geo. Schofield, F. Kingan, W. Hamilton jr., Chas. McClelland, R. Stevenson and F. Dumble. "The Ladies" were championed by Messrs. Charteris, Carlon, Hays and Hall. "The Press" was also remembered and responded to, and toasts to "The Host and Hostess" and "The Chairman" concluded the programme.

During the evening songs were rendered by Messrs. Shaw, Hamilton, Macauley, Hewson, W. Hamilton, Hays and O'Meara. Mr. Croft gave several recitations and Mr. "Tom" Claxbrow some Irish songs.

The proceedings terminated by the singing of the National Anthem and Auld Lang Syne, and cheers all round.

It was a pleasant and convivial occasion that did credit to the young men who managed the affair.

A Dummer Man Killed

By the Falling of a Tree in Burleigh.

On Saturday last, Mr. W. J. Darling, son of Mr. Richard Darling, of North Dummer, a young man of 31 years of age, was killed by a falling tree, at a shanty on Jack's creek, in the township of Burleigh—about five miles from the lake. The unfortunate young man was assisting preparations for the opening of the shanty. He was working near where another man was felling a tree, which, as it was falling, took a sudden swerve in the direction of Mr. Darling, who made an unsuccessful attempt to escape, and, unfortunately, was struck by the tree and instantly killed. The body was brought home on Saturday, and on Monday was interred in the Warsaw cemetery. The deceased was very popular and well liked in his neighborhood, and the family has the sympathy of the entire community in their sudden and terrible bereavement.

Health vs. Business.

R. H. Green, on account of ill health, has decided to sell his entire stock of groceries and provisions at greatly reduced prices, for cash, for the next six weeks, after which time if his health is not improved will offer his stock in trade (*en bloc*) on reasonable terms, etc.

In the meantime parties desiring to procure good fresh groceries, etc., for the holiday season will find it to their advantage to call at the corner of Hunter and Aylmer streets where they will find a well assorted stock to choose from, and which will be sold very cheap for cash.

Apples, potatoes and vegetables always in stock, and will be delivered to any part of the town free of cartage.

Children Cry for Pitcher's Castoria.

PANIC-STRICKEN CHILDREN.

Fire in a Long Island City School Building —A Brave Woman.

New York, Nov. 22.—At 1.15 this afternoon fire broke out in the First Ward Public School at Long Island City. One of the pupils of the school had gone into the basement and lighted a gas jet. The woodwork close to the jet took fire and flames instantly shot up through a crevice in the floor. Over 800 children were studying at their desks in the various rooms of the school building. When the children on the first floor saw the flame shooting up through the boards they raised the cry of "Fire! Fire!" Instantly there was a panic in every room of the building. The children rushed pell-mell for the narrow doors, crowding, jostling and striking each other in their efforts to get out. They did not wait to get their clothing or books. All efforts on the part of the teachers to bring order out of the chaos proved unavailing.

"Fire! fire!" rang out from one end of the building to the other and the children became crazed with terror. Those who succeeded in gaining the stairway in the upper stories were crowded and pushed on they could not stand, and many were thrown head first down stairs, where they landed in heaps of four and five.

In a room on the second floor were sixty children. Their teacher rushed to the door when the terrible alarm was echoed and re-echoed through the building, and placing her back to it cried out that not one scholar should leave the room until they had formed the regulation "fire line" and marched out in an orderly manner. Her authoritative tone had the effect of temporarily restoring the children's presence of mind and in a few seconds they had formed in line and began to march out. No sooner had they reached the hall way, however, than they saw the smoke coming up from the lower floor and the terrified children on the chairs. This was too much for them and again they broke into the wildest disorder. They threw themselves down the stairs in their mad rush for safety and fell on top of the other unfortunate little ones below.

Outside the schoolhouse there was also great confusion. The rumor that the schoolhouse was on fire spread through the streets and a great crowd was gathered. They were yelling, crying, hooting and swearing. Frenzied mothers stood on the sidewalk wringing their hands and crying pitifully to the men about them to assist the little ones inside. The firemen who were on the scene brought out a few of the injured children and added fuel to the growing excitement.

In the meantime the teachers had succeeded in quieting the little ones, and assured them there was no danger from fire. The police assisted them in the work and aided the firemen in bringing out the children who had been bruised and cut in their awful falls down the stairways.

The fire was soon extinguished, and an examination of the little ones was made. It was found that many of them had suffered contusions on their heads and bodies, and that many of them would have to go about for three or four days with bandages over their eyes. Large numbers were sent home suffering from the shock.

"Purgatory Bullets."

An excited Irishman lately rushed into a Boston drug store, having a "broken-up" appearance generally. "Be jabbers" he yelled, "I'm all wrong entoirely. I want some shtuff to straighten me out. Some o'thim 'Purgatory Bullets' will fix me, I'm thinkin'. What d'ye tax for thim"? "What do you mean"? asked the clerk. "Purgatory Bullets,' sor, or somethin' loike that, they call thim," replied the man. "Shure, I'm in purgatory already, with headache, and liver complaint, and bad shtomach and the divil knows what all." The clerk passed out a vial of Dr. Pierce's Pleasant Purgative Pellets, and Pat went off contented. These little Pellets cure all derangements of liver, stomach and bowels. The Magic Bottle Imp.

A very amusing trick, by means of which a bottle can be made almost anywhere. It is a capital and a brain puzzler. It will stand up as perfectly as a skittle, and may be passed from hand to hand, or lay on its side. But as soon as you take it in your hand, it will be very obliging—down it will fall, and roll about in a most helpless manner. It does not require the least bit of fun, and wonderful of merriment. Any one can try it, it is not easily seen. The bottle can be handed to any one for examination. Full directions how to perform the trick with each Bottle. MUNCASTER'S

DARING AND SUFFERING.

[CONTINUED]

As the jailer unlocked and opened the door for the bread pans to be passed out, Fry stepped forward in such a manner that it could not be closed, and said very quietly as if it were the most natural thing in the world:

"A pleasant evening, Mr. Turner."

We had no thought of hurting the old man if it could possibly be avoided, and hoped to frighten him into surrendering and giving up the keys without any alarm.

"Yes, rather pleasant," responded he, in a dazed and bewildered manner. He could not understand what Fry had come out there for.

The action of the next few moments was so quick and under such a fever of excitement that accounts of both words and deeds vary widely. I have reconciled them as far as I can, not always following my own recollections when the preponderance of evidence is strongly against me.

"We are going to take a little walk this evening—we are going out of here," continued Fry, standing close to him, and looking in his eye to see the first symptom of a motion. I was by his side equally watchful. There was no fear of an alarm being given by the colored women. They were frightened nearly white, but were our friends, and had enough of their wits about them to remain silent.

Turner seemed undecided. "How about the guards?" he said in a feeble tone. We were nearly all in the entry now, for there had been a slow, almost unconscious edging forward, and half a dozen low, quick voices answered, "We'll attend to the guard, Mr. Turner."

"Well, you can go then," he said trembling, while his face seemed to grow even whiter, for our looks were not pleasant.

"Well, give us the keys, then, and you'll not be hurt," said Fry, while Buffum reached out his hand to take them.

The action seemed to rouse Turner like an electric spark. "You can't do that," he said, and then sprang back, and opened his mouth in the cry, "Guar"—when my hand closed over his mouth and stifled the incipient alarm. It was scarcely fair, but in a moment the three of us were upon him. Fry had clasped him round the body and arms in no gentle embrace, Buffum had wrested away his keys, and was off like a shot and unlocked the doors as if his life depended upon it, while my hand had effectually stopped all noise. He bit my finger with all his might, but the teeth were not sharp enough to do any real injury, and the other hands were gliding down stairs.

Buffum unlocked all the doors easily till he came to the last one, in which were the four Union soldiers and the rebel deserter. Not one in the other rooms dared come forth! But the deserter was intensely anxious. He encouraged Buffum, saying, "Don't hurry, it will come in a moment." Finally it yielded, and the poor fellow flung himself out like a shot from a cannon and was soon in the front of the flight, but the four others remained inside.

One of the points about which there is a little difference of opinion among us is whether the attack on the guard below was not a few seconds too quick—a most natural error under the circumstances. If all the doors could have been first unlocked, and all who were willing to go have been ready, the jailer bound and gagged, and the whole number, led by those who had been appointed for the work, had burst upon the guard together, it is possible that the victory would have been more decisive and the number of escapes larger. But Knight thought, as he was gliding cautiously down the stairway, that there was a movement in the group of guards by the front gate indicating alarm. In this case the attack could not be delayed, and it was made with surpassing boldness and success.

Porter and Bensinger led at the back door. The former grabbed the gun of a guard that stood near, and jerked so hard that the guard, suddenly letting go, Porter fell flat, but was on his feet in a moment. Bensinger caught the sentinel who was disarmed and held him perfectly quiet. Another enemy was in the corner of the yard, and, seeing the rush, brought his gun up, but before he could take aim Porter's musket had covered him, and he was emphatically and briefly warned that any movement would forfeit his life. The third guard in the back yard was at once overpowered and knocked down, though not seriously injured, and in a moment the victory was completely won in this quarter. It was time, for matters had not gone as well in the front yard.

Knight and Brown went down the stairway as softly as cats, but the passage behind them was filled for a little time with those who were to make the attack at the back door, which left them without support, two men against four, and the latter armed. But they did not for a moment hesitate, though the guards were, unfortunately, not near the door. Knight darted on the nearest, who was by the fence, and as he was bringing the gun down to a charge, Knight seized it with his left hand and struck its owner so powerfully with his right that the gun was instantly released. Brown had dealt with another in an effective manner, and re-enforcements for the prisoners were now coming; but two other guards, who were close to the gate, instead of standing their ground, ran out and raised a great outcry. Wilson, Dorsey and others threw some loose bricks, which happened to be handy, after them, and prepared to charge out through the gate, when Knight heard the running of the reserve guard up the road, and, flinging away his musket, gave the word, "Boys, we've got to get out of this;" then, hurrying through the hall and down to the lower corner of the yard, was in a moment to the top of the fence, being the first over, but was closely followed by the others. The fence was nine or ten feet high and was no slight obstacle, but it was soon passed and then followed a most desperate and exciting chase.

SEIZING THE GUARD.

All of this took but a moment. The negro waiters had kept perfectly quiet, looking on the proceedings with the greatest interest, and only beginning to scream when the noise outside convinced them that they might as well contribute their share. Buffum had just succeeded in opening the last door, and flinging it wide with an impatient "There, now," when the thrilling outcry from below warned him that his own departure must be no longer delayed. Fry and myself had been engaged in securing the jailer, who, though old, was powerful, and fought vigorously, but had not finished when we were warned by the uproar that all thought of a quiet departure was at an end, and that there was no longer a motive in holding on to Turner. We all rushed down stairs as best we could, well knowing that we would now be last in the flight, which was not the post of safety. The deserter passed us all like a tiger on the leap—I never saw such speed in a narrow place—and getting to the back door found two guards awaiting him with bayonets at the charge. He seized one in each hand, cutting himself severely, but flinging them aside so forcibly that the men were very nearly overthrown, and then with the same swiftness continued over the fence and on to the woods, soon being in advance of all the fugitives. I learned that he escaped to Washington, but months after returning south secretly to visit his family, was captured, recognised and hanged.

Two Cents.

There is another stock of our celebrated two cent cotton just arrived. Procure some of it before it all goes. Have you seen our beautiful black kid gloves at 50c., and coloured kids at 75c. per pair? W. W. JOHNSTON. d

False Alarms of Fire.

It is disgusting to the volunteer branch of the fire department to be called from work for a false alarm. There is no false alarm, however, about the big bargains in boots and shoes at gough bros. Less than half price describes all their stock of fine boots and shoes.

Farewell Banquet.

To-morrow evening a farewell banquet will be tendered Adjt. Bolton, commander of this division, who is to be removed to another part of the province. The supper will be held in the basement of the barracks from 5.30 to 7.30 o'clock, and will be followed by farewell meeting.

Card of Thanks.

Mr. James Field desires to express his deep gratitude to the lady superintendent, staff of nurses, and medical men, for their unwavering kindness and attention to him during his two months sickness in the hospital; also to those who visited him and carried him literature and other delicacies. He is so far recovered as to be able to be removed to his home.

Oysters.

E. Welsh's oyster parlors are now open for the season. Fresh oysters received daily. Call and have a plate. d

Zera Semon and the Marionettes.

The attraction at the Opera House for one week commencing Monday, will be Zera Semon and the Royal Marionettes. Prof. Semon is one of the greatest magic makers and ventriloquists on the stage. Sig. Giovanni with his flock of trained canary birds, and Miss Adele Gilbert on the musical glasses are something wonderful, while unique and funny performances by the Marionettes are extraordinary. These wonderful figures are automatically arranged, and go through a minstrel programme with specialities, moving, singing and speaking, like actors. Mme. Strong's Fata Morgana is a fine work of art. In addition to the regular show, Prof. Semon distributes one hundred valuable presents among the audience at each performance, including a large number of capital prizes.

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Li-quor tea notice. I will clear out my entire stock of the famous Li-quor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

Purchase Extraordinary.

Macfarlane Wilson has purchased for less than 50 cents on the dollar of wholesale cost five thousand dollars worth of crockery, glass and china ware; and having all the goods his present premises will hold, he has rented the store on Water street, next Mr. Jas. Stevenson's office, where this lot will be opened up and sold regardless of its true value. The stock consists of 28 crates and over ninety other packages—barrels, cases, casks, etc., and cannot all be unpacked in less than a week, but he hopes to have enough open to begin selling on Saturday, the 24th inst., and expects to have it all displayed early next week. At the prices, however, it will be bought quickly, and the public will do well to visit the store daily for bargains in different lines, as they are unpacked. No goods will be put away for customers during this sale, but all goods will be delivered free the day bought. Terms strictly cash. dtf

Children Cry for Pitcher's Castoria.

Still at Large.

No Trace Yet Found of the Fellow Who Assaulted the Little Girl.

Though the police have been indefatigable in their efforts to trace the fellow who committed the assault on the little girl Wednesday afternoon, no clue to his identity or whereabouts have yet been discovered.

The affair is still the talk of the town, and every day new circumstances are coming to light which indicate that the young girls who attend the south ward school have been running fearful risks the past couple of months. Scarcely a girl below twelve years of age but can tell of being accosted on the street by an unknown man and offered money or candy to take him to the cemetery. And their descriptions of the impudent stranger all tally and point to the one man as being guilty of all the indecencies.

The result is a small panic among the female community of the town. Mothers and daughters are frightened, and fear that the bold criminal may again appear and succeed in his nefarious designs. A great many girls, those living on retired streets in quiet parts of the town, are actually afraid to venture out to school alone and wait for an opportunity to go along with some older person or with several other companions. This reign of terror will probably last until the perpetrator of Wednesday's crime is brought to justice or the excitement wears away.

The Suspected Forger Arrested

The Supposed Farm Mortgage Forger In Custody at Norwood.

This forenoon Messrs. Sawers & Stone received a telegram from Norwood stating that a man had been arrested there on suspicion of being the person who had forged the mortgage on the farm of Robert Gardner, particulars of which were given in the EXAMINER yesterday. The fellow who had the mortgage made out at Messrs. Sawers & Stone's office, it is said is a native of Dummer. Mr. Stone went down to Norwood on the 11.30 train to identify the prisoner. If it is found that the right man has been arrested he will probably be brought to Peterborough for trial.

An Attempted Burglary.

This morning, about two o'clock, Mr. Barry Phelan, who resides at 323 Rubidge street, was awakened by the noise of someone attempting to break down the back door of his house. Not having a revolver in the house, he did the next best thing by opening his bedroom window and shouting "police." This had the desired effect and scared the intruders away. The attempt was a bold one, as the moon was shining brightly, and the house-breakers seemed determined to force an entrance no matter how much noise they made. Fortunately the doors and windows were all well locked and barred, or the burglars might have had an easy job of it. The domestic employed in the house heard the man walking about on the platform at the rear of the house. This morning a side door of the house was found open.

Tokyo, Japan, Prices.

It is not probable that the low prices for certain market commodities will cause any considerable boom in immigration to Japan. A private letter received states that the price of butter in Tokyo, Japan, is 75 cents per pound. The butter is all imported, chiefly from Winnipeg. Milk is 17 cents per quart in the city and 28 cents in the country. This apparent discrimination against the rural Japs is caused, perhaps, by the fact that the cows are all imported and that the wealthy city people only can afford to keep such luxuries. All the apples used are also imported. There are no apples grown in Japan—a fact which decidedly bars the Japs from claiming their country as the site of the garden of Eden.

Your Opportunity.

G. C. Clark's clearing sale of clothing and gents' furnishings for the next two months will afford an opportunity seldom met with for obtaining first-class new goods at less than cost price. Suits—ordered clothing—from $3.00 to $5.00 less than former prices; overcoats and pants at same rate; 50 dozen ties at 15 and 20c.; shirts from 25c. to 50c. less than regular prices. This is a genuine sale, and an unequalled opportunity to secure bargains.

The Globe Christmas Number

The Board of Trade edition of THE GLOBE was a special number which opened the eyes of many people to what publishers in Canada can do. THE GLOBE has set out to beat its own record in the forthcoming Christmas number, which as seen from advertisement published elsewhere, will be ready for delivery early in December. This fine edition will be splendidly illustrated and will be accompanied by three presentation plates, the very finest that the color printer can produce. Chief among these will be a faithful reproduction of a splendid scene from Vancouver Park, B. C., one of the late productions of Mr. L. R O'Brien, president of the Royal Canadians academy of Arts, the greatest landscape painter Canada has ever produced. The literary features will be wholly Canadian and, as the matter is all written specially for this edition, it will be of the highest class and seasonable. In mechanical execution the Christmas number will be all that fine paper, new type and the most skilful workmanship can make it.

Mesmeric Mystery.

Prof. Reynold's had a select audience at the opera house last night. He secured four good subjects, whom he got under complete control of his mesmeric power. They were young men who had previously been mesmerised, and the Professor drew them from their seats in the auditorium to the platform by some inexplicable force. They could no more remain in their seats when the Professor wanted them than they could fly—but even flying would not seem so great an impossibility after what has been done in the opera house this week. One of the most pleasing effects was their mental illusion that they were a band of minstrels. At the word of command they sang "Climbing up the Golden Stairs" and other popular songs with true minstrel spirit and music. They stole under the tents into Barnum's circus and saw a first class performance for nothing, enjoyed buggy drives, imagined themselves women, nurses, photographers, etc., acting out each character to the life. While the hallucination is upon them they see things just as the Professor dictates with the most vivid imagination; and their look of surprise and chagrin when they are suddenly recalled to their senses in the midst of some silly scene is as amusing as their action while under the illusion. The Professor gives a performance to-night and a matinee to-morrow for children.

The Second Advent.

A Sermon on the Second Advent by Lord Cecil—Continued To-night.

Lord A. P. Cecil preached last night in the old Baptist church, on the second coming of Christ to an attentive audience. He began by reading Acts i., 10 11, and ii., 36, calling attention to three facts connected with the person of Christ—first, that man has been rejected and crucified; second, God has raised Him from the dead and made Him Lord and Christ at His right hand in heaven; and third, that this same Jesus shall come again in like manner as the apostles saw Him ascend. As man He was crucified, as man He sits at the right hand of God, and as man He will come again. The preacher emphasized the fact that though He (Jesus) was "God manifest in the flesh," yet at the same time He was a real man on the throne of God, and not a spirit, as is so often taught. Passing on to Acts iii., 19-21, he pointed out that there were "times of refreshing and times of restitution" spoken of in connection with Christ's coming whom the heavens must receive till those times come. Then going to Isaiah xi, 1-9 he showed that these times were introduced by judgment on the earth and the wicked one—AntiChrist. So that instead of the world being converted to God by means of the Gospel it is going to accept AntiChrist (see John v, 43.) Foreshadowings of this are seen already in the boycotting that is going on even in Canada, where more than one instance of a man not being allowed to work, because he did not belong to the union, has occurred (see Rev. xiii, 17). Passing on to Isaiah lxv we have a lovely picture of the times of restitution. In the days before the flood men lived hundreds of years, but in the glorious kingdom of Christ a man's life shall be "as the days of a tree," so that one dying a hundred years old is but "a child." How then can Christ's coming be at the end of the world, if men are to live hundreds of years after he comes?

Going on now to Zech. xiv he showed that Jerusalem, and not London nor New York was to be the metropolis of the earth in Christ's kingdom. The last Scripture referred to was Rev., xix and xx, where Christ, as the rider on the white horse, is seen coming from heaven to take vengeance on His enemies, and the armies of heaven (His heavenly saints) following Him. He smites the nations and treads the wine-press of the fierceness and wrath of Almighty God—casts the beast (the head of the revived Roman Empire) and the false prophet (the Antichrist) alive into the lake of fire. Rev., xx: The devil is bound and cast into the bottomless pit, then the thrones are set and they (that is, the heavenly saints who are thus associated with Christ in judgment—I Cor., vi, 2) set on them, and those who were put to death under Antichrist are raised and reign with Christ a thousand years. Now, if Christ is, as we have seen, to come more than a thousand years before the end of the world, what is to hinder Him coming to-night? Are you ready? Only those who are born again, washed from their sins in His own blood, and sealed with the Holy Spirit are ready. The preacher concluded with an earnest appeal to all present to make sure of salvation.

The two stages of Christ's coming will be taken up to-night.

A Pacific Coast Caller.

Hon. John Robson in Town A Brief Chat With a British Columbia Cabinet Minister.

Hon. John Robson, Victoria, Provincial Secretary and Minister of Mines, British Columbia, is in town to-day. Hon. Mr. Robson is going to Ottawa to discuss several matters in dispute between the two governments. He is a native of the province of Ontario, having been born at Perth. He went to British Columbia in 1859, residing in Victoria ever since. Mr. Robson published the first journal in British Columbia, and has, during his residence in that province, been chiefly connected with journalistic work. He represented New Westminster in the Crown Colony Legislature, and now represents it in the Provincial Legislature. During Hon. Mr. Mackenzie's Administration he held the position of paymaster to the Canadian Pacific surveys. He is very sanguine of the future of British Columbia, especially in mining matters. The local government, animated with a public-spirited policy, is establishing quartz reduction works, to treat the ore of private persons owning ledges. These works are intended to give an impetus to quartz mining, by showing beyond doubt that the ledges will pay for working. Gold mining is still carried on, and the lumbering interests are on the verge of immense expansion. Capitalists from the United States and old Canada are being attracted, and they are making extensive investments. The fisheries of the province admit of unlimited expansion, and, altogether, a bright future seems to be opening out for the Pacific province. Hon. Mr. Robson goes from here to Port Hope, and thence to Ottawa and Toronto.

Ashburnham Brevities.

The regular meeting of St. Luke's Young Men's Literary Guild was held in St. Luke's school room last night. The subject of the evening was impromptu speaking. Every male member of the society present took part in the speaking. Most of them being young in the art, the speeches were, on the whole, characterized by brevity, but the speaking was quite up to the average for beginners, and some of the young orators were greeted with deserved applause. The attendance was good. The next meeting will be held Thursday, 29th inst., when an illustrated lecture will be delivered.

News Nuggets.

—City water has been put into the Harper Block, Water street.

—The thermometer registered in perilous proximity to zero last night.

—The frost has penetrated the earth to a depth of about a foot.

—Chemong and Rice lakes are frozen over, and Little Lake is frozen in portions.

—Dr. Clarke yesterday completed the removal of his effects to his new office, Brock street.

—This day week is St. Andrew's Day, and every Scotchman in town scents the haggis from afar.

—The telephone system is being extended. Poles are being placed on Rubidge and Charlotte streets. Eight new instruments are to be put in

—Skating is on now. Every little stretch of level water has its tenants—chiefly small boys. Spalding's bay and Whyte's mill pond are the favorite resorts.

—This morning Mr. John Cousins, the competent, conscientious, capable, congealing and courteous caretaker of the skating rink, began "making ice." The curling rinks are flooded, and if Jack Frost remains propitious there may be curling ice by Saturday night.

A Five Hundred Dollar Fire.

About three o'clock this afternoon a small frame house on Ware street, near the cemetery, owned and occupied by Mr. Geo. A. Mann, was with all the household furniture completely destroyed by fire. There was no one in the house when the fire broke out, and the building was half consumed before it was noticed. The loss will be about $500 in all, including house and furniture. It is believed to be insured. The fire brigade went down, but were too late to be of any service.

Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

AND

Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Starlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

THE CROSSING CONFLICT.

CONCLUSION OF THE ARGUMENT IN THE SUPREME COURT.

Mr. Blake's Little Joke—Attorney-General Martin's Settlement and Justice Strong's Comment Thereon.

OTTAWA, Nov. 24.—In the Supreme Court yesterday morning Hon. Edward Blake continued his summing up in the Manitoba crossing case, concluding shortly after noon. He reviewed the arguments of Hon. Mr. Mowat and Mr. McCarthy and contended that the act of the Manitoba Legislature became invalid from the time it authorized the construction of a line crossing the Canadian Pacific, or for that matter any of the ten roads specially classified in section 306 of the Railway Act. Mr. Blake went on to show the effect of section 308. Provision by a distinct declaration is there made to legalize by proclamation all railway acts passed by the provinces after May, 1883. Before that date all these acts were legal without obtaining sanction by the Federal Parliament. Mr. Mowat proposed, he said to take advantage of an abolished preamble in order to place a proper construction upon the act. This Mr. Blake contended was going too far. Mr. Mowat improperly believes, he said that section 306 of the Railway Act does not affect the Legislature, and holds that the analogy between the Crown and the Provincial Legislature is greater than the analogy between the Dominion and the Crown. "Mr. Mowat," added Mr. Blake with a broad smile, "got his erroneous idea possibly because he has long possessed a little crown in his own province." After some further argument Mr. Blake concluded by holding that Parliament had in view the centralization of jurisdiction in railway matters in the hands of the Federal authority. Great necessity existed why the regulation of crossings and the settlement of a score of other questions should rest with a competent legislature, and Parliament in assuming this authority was simply acting in accordance with the principle of the British North America Act.

Attorney-General Martin rose to correct what he called a misunderstanding on the part of Mr. Blake. The portage extension never contemplated crossing the main line of the Canadian Pacific Railway. It proposed to connect with the Manitoba and Northwestern Railway south of Portage la Prairie, as the latter road has authority by virtue of its charter to cross the main line of the Canadian Pacific. Once the crossing at the Portage was effected the Red River road could make the desired connection. The Manitoba Government never contended it had power to cross the main line of the Canadian Pacific. Mr. Martin asked the court to bear this in mind, contending that the Pembroke Mountain branch did not come under the provision of the Railway Act.

Mr. Justice Strong: "We are bound to go by what we get. We must consider the case as was stated by the Railway Committee."

Mr. Mowat asked the court to distinguish in its judgment between the Canadian Pacific Railway and its branches, and expressed the hope that the judgment would be forthcoming shortly.

IMMORAL PUBLICATIONS

AN EXAMINATION OF THE MAILS TO BE MADE.

All Salacious Literature to be Confiscated—Lieut.-Col. Smith Appointed Extra Aide-de-Camp to the Governor-General.

OTTAWA, Nov. 23.—His Excellency the Governor-General has appointed Lieut.-Col. Henry R. Smith, 14th Battalion, extra aide-de-camp from July 25, 1888. Lieut.-Col. Smith filled a similar position under Lord Lansdowne.

Attorney-General Martin visited the Department of Railways and Canals to-day with reference to approval of the plans of the railway bridge across the Assiniboine River, authorized by chapter 92 of the acts of last session. This is intended to be the permanent bridge of the Red River Valley Railroad. The river is at present crossed on a temporary trestle bridge.

The mayoralty question is beginning to attract considerable attention. A meeting of French Canadians was held last night and eleven candidates were proposed. These were winnowed down to two: Ald. Durocher and Dr. Prevost, and on a vote being taken the former was declared the choice of the meeting. Dr. Prevost's friends say he will run. G. B. Pattee of Perley & Pattee, lumbermen, George Hay and Ald. Errott are also spoken of as likely candidates.

It having been brought to the notice of the customs authorities that numbers of copies of The Sporting World and other immoral publications are being received by newsdealers, it is understood that a thorough examination of the mails will be made in a few days and all literature of that kind confiscated.

NUMA GILLY'S CHARGES.

The Disturbed Condition of that Hastily Disturbed Country—France.

PARIS, Nov. 24.—While the sinister shadow of Boulangism steadily increases in the land, the republican factions seem to be on the brink of another quarrel over financial scandals which threatens to be even worse than that under which President Grevy and M. Wilson went down. People are talking more about Numa Gilly's wholesale charges than anything else, in spite of the fact that his sweeping accusations against the politicians of the right and left do not seem so far to have much proof back of them. But, from what I learn, much worse is to come.

The deputies have all received a circular letter signed by F. Martin, ex-agent of the Panama canal company, asserting that Baihute and Barbe, formerly ministers of Public Works, had each received the past two years large bribes in return for the official and parliamentary assistance they had rendered the Panama canal company. In addition Martin says that fifty 50 members of the chamber are implicated in a similar corrupt way in the fortunes of Compte DeLesseps' schemes, but he reserves their names in order to concentrate the charge on these ex-ministers and force them to proceed against him in the courts, where he is ready and anxious to meet them. I take the liberty of doubting, however, that they will sue him unless they are forced into it. Martin also attacks the present effort of Lesseps to obtain at least the formal backing of the Credit Foncier for his project of a new loan. It appears that the government is pretty deeply involved in support of this plan, M. Floquet relying a good deal on patriotic flummery about piercing the Isthmus of Panama under the French flag for electioneering capital in the general elections next year. Hence, any big scandal now about the Panama canal will not only smash finally M. DeLesseps' chances for getting any more money out of the confiding French people, but will seriously threaten the government itself.

Quite as important in another way is the opening of subscriptions for the new Russian loan here in France. It is not so much that the investment is a very bad and unwise one financially, but that it will create a lot of politic l sentiment of a dangerous sort. Every peasant who holds 500f. in Russian paper will have a new belief in the certainty of Russia's friendship for France to the obvious increase of willingness to engage in international adventuras.

ASSIMILATING EDUCATION.

The Matriculation Exams of McGill and Toronto to be Consolidated.

TORONTO, Nov. 24.—The masters of collegiate institutes and high schools in Ontario will be pleased to learn that the matriculation examinations of McGill and Toronto universities will be in all probability assimilated after the end of the present academic year. For years teachers had to struggle against the strain put upon them by a multiplicity of classes, and were considerably relieved when Queen's and Victoria universities decided to adopt the text-books and examinations prescribed by the Provincial University. The universities themselves reaped no little advantage from this wise policy, as the masters are now in a position to devote their whole time and energy towards training their students, thereby giving them a sounder foundation upon which to build during their arts course.

When it is remembered how wide and varied the curriculums of the universities of Ontario now are, it will be seen how impossible it is for teachers to do justice to all the subjects they are called upon to go over with their students, and at the same time prepare candidates for colleges, prescribing different text-books. In collegiate institutes, where there is a large staff, the load is lighter, but in smaller schools the task of the teacher is not by any means an easy one. In Eastern Ontario district, where the smaller schools are particularly found, perhaps more students find their way to McGill, then to the universities of Ontario, and if only one student aimed at matriculation there, and one other intended going through the arts course of the Provincial University, the work of the teacher would be just as irksome and as productive of waste of energy as if he were called on to teach two classes of fifty each.

In Western Ontario few students are prepared for the matriculation examination of McGill, but an occasional one, out of circumstances, will choose that institution for his alma mater, and consequently teachers have either to make a separate class for him or pursue the drudgery of instructing him privately. The Minister of Education, who has done so much during his incumbency for secondary education, was quite aware of these difficulties, and he some time ago opened communication with Sir William Dawson, president of McGill University, with the object of having the course of the sister universities assimilated. Sir William received the proposals in the most friendly manner, and, as already stated, teachers in Eastern Ontario especially will be relieved of a burden which they bore patiently, but which yet had the effect of retarding the progress of the schools under their charge. The text books prescribed for matriculation in Toronto University will now be available for the sister universities in the Province of Quebec.

SOTH CARSMEN CONFIDENT.

Excitement at Washington Over the O'Connor-Teemer Race.

WASHINGTON, Nov. 24.—Not since the presidential election has there been such excitement here as now prevails over the coming boat race for the championship of America between O'Connor and Teemer, which takes place on the Potomac River this afternoon. It promises to be the greatest aquatic struggle ever seen in America. Talk in the hotel lobbies all centres on the race. The Canadian contingent here is strong. Two trains arrived yesterday with upwards of 300 from Toronto and vicinity.

As to the betting, which is even, O'Connor has the most followers who are eager to wager their money on him, but there are few takers. The heaviest bet yesterday was made by Joseph Rogers, who wagered $1500 even with E. Morris of Pittsburg. It is estimated that there is upwards of $50,000 here to back O'Connor, but Teemer's friends are few and far between. I saw O'Connor and asked what he thought of the race. He said: "You can say that I never felt better and am confident of victory. Teemer is rowing fast, but I think I can beat him." O'Connor will row at 163 pounds and will use a Ruddock boat with a Warren seat.

Teemer is also sanguine, even more so than O'Connor, but the money is all behind Teemer's sculler. Teemer will also row at 163 pounds and be beaten by Ruddock.

The race will take place about 4 o'clock, over what is known as the "lower course," from the foot of F-street to Long Bridge and return, a distance of 3 miles. John B. Hill of the Columbia Boat Club will act as referee.

DEATH OF JUDGE ARMSTRONG.

The Chairman of the Labor Commission Falls Lifeless in the Street.

SOREL, Nov. 24.—General regret is felt here at the sudden death yesterday afternoon of Chief Justice Armstrong, chairman of the Labor Commission. While walking in the street the judge was seen to suddenly stagger and fall on the pavement. The bystanders immediately rushed to his assistance and carried him to an adjoining house where medical aid was sent for, but death had meanwhile ensued from apoplexy. Judge Armstrong was 68 years of age and had resided over ten years in the island of St. Lucy, West Indies, as chief justice. He was also for some years president of the Montreal and Sorel Railway.

Powderly Re-Elected.

INDIANAPOLIS, Ind., Nov. 24. Powderly was yesterday re-elected General Master Workman of the Knights of Labor for the next two years.

Morris L. Wheat of Iowa was elected General Worthy Foreman.

Hayes was elected Secretary-Treasurer, a Powderly victory, and Mrs. Barry director of women's work.

Powderly was chosen to represent the order at the Paris Exposition. He took the floor and stated that although his salary had been left at $5000 he would accept only $2000.

A. W. Wright of Toronto, J. J. Holland and John Costello of Pittsburg and John Davlin of Detroit were elected members of the General Executive Board, A. W. Wright receiving the largest single vote, 94, given in any of the ballots.

Four Brothers Wedded to Four Sisters.

LOUISVILLE, Ky., Nov. 24.—Four brothers married to four sisters by the same minister was the record furnished yesterday afternoon, when George Rothenberger was married to Miss Louisa Wieglieb by the Rev. Adam Zimmerman, of St. John's Church. The parents are German Lutherans, of Zimmerman's congregation. Thirty years ago they settled upon adjoining farms ten miles from the city and their families have grown up together. Two years ago the first couple of brothers and sisters were married. There remain three pretty girls of the Wieglieb family who will soon seek husbands, but there are no more Rothenberger boys. The couples already married are living happily in this vicinity.

A Battlegerent Ex-Inman.

NEW YORK, Nov. 24.—Owing to a division in the ranks of the Irish Revolutionary Brotherhood memorial services were held in two halls in celebration of the twenty-first anniversary of the execution of Allen, Larkin and O'Brien, the Manchester martyrs. At the Cooper Union about 1000 people were present. Another meeting was held in Chickering Hall. Patrick Sarsfield Cassidy presided. He praised the work of Charles Stewart Parnell for his noble battle for Irish independence. He said it was time war was begun for Ireland's freedom. [illegible]

THE DETROIT EXTENSION.

THE C. P. R. SHAREHOLDERS CONFIRM THE LEASE.

President Vanhorne Points Out the Immediate Necessity of the Acquisition—Indications of a Favorable Year.

MONTREAL, Nov. 23.—At the adjourned meeting of the shareholders of the Canadian Pacific Railway Company held to-day to consider the lease of the Detroit extension of the Ontario and Quebec Railway 267,600 shares were represented and voted unanimously to confirm the lease. The President submitted the correspondence with the Grand Trunk Company concerning a trackage lease between London and the Detroit river, from which it appeared that the Grand Trunk had been approached three times on the subject with fruitless results.

He stated that the real cause of the failure of the last negotiations was a new condition, imposed by the Grand Trunk at the last moment, requiring the Canadian Pacific to discontinue the carriage of its freight traffic between Ontario points and the Canadian Northwest by its own line, via Smith's Falls, and to turn it over to the Grand Trunk for carriage between Toronto and North Bay on terms which he pronounced unreasonable and absurd.

Mr. Van Horne also referred to Sir Henry Tyler's statements concerning the Canadian Pacific, in his speech at the recent half-yearly meeting of the Grand Trunk Company, as unfair and misleading.

He explained the relations of the Canadian Pacific with the Michigan Central and pointed out that the connection with that line was rendered valueless through its control by the New York Central.

He also pointed out that the Ontario and Quebec system and the other eastern lines controlled by the Canadian Pacific Company were practically debarred from participation in the heavy freight and passenger traffic between the Western and New England States and from much other valuable business, and now that the eastern connections of the company were well established the immediate completion of the Detroit extension seemed to be an absolute necessity. It would at once place the company in an independent position and add very largely to its earning power.

The President spoke with great confidence of the general position of the company and stated, that while owing to the late movement of the crops of the Northwest, to the delay in completing and opening the American lines west of Sault Ste. Marie and to other similar causes the results of the year's working would fall short of earlier expections, the surplus above fixed charges would be at least as large as that of last year, and that the excellent condition of the railway, the extensive improvements made this year and the large additions to its rolling stock and other facilities would at once be felt in reduced expenses and increased earnings.

To Run Trains into Chicago.

CHICAGO, Nov. 23.—The Evening Journal says the report that the Canadian Pacific road has made arrangements to run trains into Chicago is corroborated by J. Francis Lee, the commercial agent in this city. In answer to inquiries Mr. Lee said: "The Canadian Pacific has made all its arrangements to that end. It is now building a line between London and Windsor, Ont., to connect at Detroit with the Wabash system. It will run trains in to this city over the Wabash tracks and will have terminal facilities here in connection with that system."

"Have any arrangements been made for reaching from the northwest, say from St. Paul, as reported?"

"I know of no such arrangements and do not think it has been thought of."

"How soon will you be running your trains into this city?"

"We expect to have everything in shape in about a year from now. We will probably be running trains in here by this time next year."

The Daily Examiner.

SATURDAY, NOVEMBER 24, 1888.

The Second Advent.

Lord Cecil preached again last night in the old Baptist church, taking up the two stages of Christ's second coming, viz., as the Son of God coming to take His brethren home to be with Himself in the Father's House, according to His promise in John, xiv, 1-3; then as the Christ—God's anointed—to set up His Kingdom in power and glory, according to the prophecies of the Old and New Testament. Referring to 1 Thess., iv, 15-18, he pointed out that the hope of the Christian was the Lord descending into the air with a shout, and gathering all the redeemed to Himself. Then will take place the marriage of the Lamb. Then, after a brief interval, He and they return to reign over this world. The first stage is like the morning star—Revelation, xxii, 16. The second as the sun of righteousness.—Malachi, iv, 1, 2. The preacher very earnestly exhorted his audience to search the Scriptures for themselves, and not take for granted what is preached to them. This the Bereans did when an apostle was the preacher, and they are called noble, adding, that it is by the word of Christ that men will be judged at the last day.—John, xii, 48. It was announced at the close that Messrs. Hayhoe and Rochester would continue to preach on Lord's Day at 3 and 7 o'clock and Tuesdays and Fridays at 7.30.

Literary Notes.

BRYCE'S PUBLICATIONS.—The latest issues are Jules Verne's thrilling tale of adventure, "Michael Strogoff," and "The Story of Troy Town," a most sprightly and entertaining character sketch by "Q". Both are capital light reading. At all the bookstores.

THE DOMINION ILLUSTRATED—for Nov. 24. contains portraits and biographical letterpress of the leading members of the Evangelical Alliance, a fine two page reproduction of Schmutzler's "Dancing Lesson," besides a large number of beautiful plates and excellent reading matter.

Health vs. Business.

R. H. Green, on account of ill health, has decided to sell his entire stock of groceries and provisions at greatly reduced prices, for cash, for the next six weeks, after which time if his health is not improved will offer his stock in trade (*en bloc*) on reasonable terms, etc.

In the meantime parties desiring to procure good fresh groceries, etc., for the holiday season will find it to their advantage to call at the corner of Hunter and Aylmer streets where they will find a well assorted stock to choose from, and which will be sold very cheap for cash.

Apples, potatoes and vegetables always in stock, and will be delivered to any part of the town free of cartage.

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Li-quor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

Another Wonderful Exhibition.

Prof. Reynolds gave the best entertainment of the week at the opera house last night. The audience was large, and eight or ten good subjects were procured, who were brought under the mysterious power of the professor. Several of them were brought from their seats against their will by the professor and drawn helplessly to the stage. Many of the old experiments were repeated and some entirely new mental ones introduced. The minstrel performance was well rendered indeed, a couple of the subjects singing solos to the imaginary accompaniment of violins, banjos, bones and other orchestral instruments. One of them was transformed into John L. Sullivan and had short scraps with Mitchell and Kilrain (in his mind). Five of them mounted chairs and a spirited horse race twice around the stage followed. Then they tobogganed down hill, and had games of football and baseball. They were swarmed with bees and rats, perfumed with eau de cologne and skunk, suffered the extremes of heat and cold, and, altogether, acquitted themselves well under a great variety of imaginary circumstances. One of the subjects borrowed a shawl and hat from a lady in the audience and at once became Queen Victoria, around whom the other subjects bowed and did homage in true courtier fashion. It was a wonderful exhibition of the power of one man to make another believe anything he willed, and well worth the price of admission. This is the professor's last night in town. He goes to Lindsay from here.

BABY'S SKIN AND SCALP

Cleansed, Purified and Beautified by Cuticura Remedies.

Our oldest child, now six years of age, when an infant six months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, blotched, and malicious. We had no rest at night, no peace by day. Finally, we were advised to try the CUTICURA REMEDIES. The effect was simply marvellous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.

Clear Skin. Pure Blood.

No mother, who loves her children, who takes pride in their beauty, purity, and health, and in bestowing upon them a child's greatest inheritance,—a skin without a blemish, and a body nourished by pure blood, should fail to make trial of the CUTICURA REMEDIES.

I have seen the CUTICURA REMEDIES used for milk crust by a visitor in my house, and can testify that the cure was speedy and permanent. I have also used them myself, for eruptions of the skin on my little child, with satisfactory results in every respect. The skin was broken out and began to assume ugly proportions. I have also heard my neighbors speak of CUTICURA REMEDIES in the highest terms.

BLEW THE FELLOW'S HEAD OFF.

A Kentucky Judge in the Capacity of Both Court and Executioner.

LOUISVILLE, Nov. 24.—At Sharpsburg last night Judge E. B. Withers, a prominent citizen, shot and instantly killed Lewis Daniels, a negro desperado. Daniels had gone to Judge Withers' house in the absence of that gentleman and outrageously abused the lady members of the family. This the Judge endured, hoping to avoid bloodshed. A few nights ago as Mrs. Withers and her sister, accompanied by a colored woman, who had been Daniels' wife, were on their way home from Judge Withers' store, they were met by Daniels', who at once attacked his wife, threatening to kill her. The terribly frightened colored woman appealed to her white companions. At this Daniels pointed a pistol at Mrs. Withers, telling her he would shoot. The ladies screamed and assistance came, but Daniels was gone.

Judge Withers that night loaded his shotgun. Last night he heard a noise in his kitchen. Taking his gun he went in and found Daniels, whom he ordered to leave. The negro reluctantly left, but had gone only a few steps, when he suddenly wheeled around, thrusting his hands in his pocket as if to draw a pistol. Withers then fired with both barrels of his gun, blowing Daniels' head off. Withers is 55 years old, has been Police Judge of Sharpsburg and is now a justice of the peace. He surrendered and gave bond to appear Monday.

FROM BENCH TO GUTTER.

A Former Chief Justice of Utah Drags Bond in a Barber Shop.

CHICAGO, Nov. 24. William W. Drummond, ex-Chief Justice of Utah, died suddenly in a low barrel-house on Desplaines-street last night. He was in rags and tottering with the infirmities of dissipation. He had entered the place, presumably to rest a while. While sitting on a chair by the stove he fell forward to the floor, and when the bartender reached him he was dead.

Judge Drummond came to Chicago from West Virginia in 1851 and practised law here. In 1853 he was appointed by President Pierce, Chief Justice of Utah. Soon afterwards he met a woman named Pleasant Ridgeway, for whom he left his wife and family of five children—four girls and a boy—and on reaching Utah he abandoned himself to a life of such notorious dissipation that in a short time he was forced to resign the judicial position he held. He returned to Chicago and resumed the practice of law, but his reputation was such as to render success impossible. He continued to live with the Ridgeway woman until she wearied of him and abandoned him for another. He went down fast after that.

For the past eight years he has been a frequenter of low lodging houses, and eked out a livelihood by begging, and has been arrested for stealing letters from the street boxes and other like offences. The body was taken to the Morgue. When he was a young man he was looked upon as the most brilliant and promising lawyer in the West.

DIED IN AN OPIUM JOINT.

Sad Fate of a Pretty Canadian Girl Who Was Ruined and Deserted.

CHICAGO, Nov. 24.—A pretty girl dead in a Chinese opium joint. Such was the fate of Louise Cavilles, a handsome Canadian, who was found lifeless in a bunk at the den of Ah Wah, No. 117 Fourth-avenue. Louise came here four months ago and was known as Eva Johnston, and plunged into a life of shame. When she went into Ah Wah's place, with a companion named Albert Rogers, she was under the influence of wine, and the effects of both the wine and opium smoking caused her death.

The pretty red brown hair of the dead girl fell over the head of the copper dissecting pan in the Morgue yesterday, while the keen scalpels were busy cutting into her fair flesh. Ah Wah, Ah Lee and other Chinamen stood around in their queer, satin lined blouses and chattered in their strange sing song. They looked scared. Wah, Lee and Rogers were held to answer for her death.

Not long ago Louise was a happy, innocent girl at Toronto, Canada, her parents being well to do. She was graduated from a leading female seminary. It was the same old story of ruin and desertion; her father died of a broken heart because of his daughter's disgrace, and the mother removed from the old home so full of painful memories. The body of the girl will be sent to a small town in Michigan, where the bereaved mother sorrowingly awaits her.

THE ANGLICAN CHURCH.

Opening of the Buffalo Congress—Prof. Clarke on Church Colleges.

BUFFALO, Nov. 22.—Yesterday morning's session of the Church Congress was opened by Bishop Coxe with prayer, followed by the singing of the hymn, "A Glory Gilds the Sacred Page." The first paper was presented by Rev. W. B. Bodine, president of Kenyon College, Gambier, O., on "Colleges and Universities in their relation to the Church."

Rev. Dr. Potts, president of Lobart College, read a lengthy paper upon "The Church University and Church Colleges an Ideal for the Future Church."

Rev. Arthur Brooks of New York, Rev. P. W. Sprague of Charlestown, Mass., and Rev. Wm. Hughes of Norristown, N.J., spoke on the subject.

Rev. Prof. Wm. Clarke of Toronto followed and cited the names of a number of men, graduates from what is called church colleges. He believed in having church colleges, and that all the denominations should have them.

Another session was held last evening, when the subject for discussion was "The Question of Race in this Country."

A Frightful Leap to Death.

YOUNGSTOWN, O., Nov. 22.—A horrible suicide occurred at the residence of H. O. Bonsall, Wick avenue. Mlle. Julia Goudart, aged 23 years, a French governess, came from New York city about ten days ago to teach French to Mr. Bonsall's child. Friday she became melancholy, and she has acted strangely ever since. This morning she went to the attic of the house, set fire to her clothing, which was piled on the floor, walked out on the roof and threw herself head foremost to the flagstone walk below. She alighted on the head, crushing her skull and died in a few minutes. Disappointment in love is said to be the cause of the suicide.

Gen. Sheridan's Memoirs.

WASHINGTON, Nov. 23.—Mrs. Gen. Sheridan left here yesterday for Canada for the purpose of securing the copyright to her husband's memoirs to be published in London on Nov. 28. Slain After a Drunken Quarrel.

WILKESBARRE, Pa., Nov. 22.—Bertis Kasack, a Hungarian, was murdered last night at the "Swamp," a settlement near Frenchtown, by one of two Hungarians who were visiting him. The party had been drinking heavily and were all drunk. During a quarrel one of the visitors shot Kasack as he was going out of his shanty, causing instant death. The murderer, whose name is as yet unknown, made his escape.

More Body Snatching.

KINGSTON, Nov. 21. At a meeting of one of the Anglican committees here recently Rev. Mr. White of Iroquois stated that in his section recently many graves had been desecrated and bodies stolen. He believed that a regular market for corpses existed at Ogdensburgh, where they were purchased and sent on to New York and Philadelphia.

THE FLOUR MARKET SICK.

Decline in Production—The Output Reduced One-half.

MINNEAPOLIS, Nov. 23.—The Northwestern Miller says: The flour output of this country is on the decline, the falling off of 5000 barrels last week being only preparatory to a much heavier loss the current week. The total production last week was 141,700 barrels, averaging 23,617 barrels a day, against 149,200 the previous week and 143,600 barrels for the corresponding time in 1887. Since our last issue the millers here have entered into an agreement to reduce their output one-half. This arrangement went into effect Monday and is to continue until Jan. 1. This takes in every merchant on the falls, but the owners are allowed to consult their own convenience as to how they shall accomplish the desired end. The arrangement is evidently designed to pave the way for a water pool as soon as the power becomes poor. The effect of the arrangement is already felt in the flour output, five mills representing a daily product of over 7000 barrels being idle to-day and there are several others which are almost on the point of stopping. The mills at St. Louis, Milwaukee and Lacrosse, as well as those located at less prominent points in Minnesota, Dakota and Michigan, have practically agreed upon the plan to reduce the flour output one-half for a number of weeks to come. The flour market is very sick and the millers report that they are practically getting no orders. The decline in wheat induced millers to lower quotations 25 cents per barrel Monday. There is no improvement in foreign trade. The direct exports last week were 23,600 barrels against 21,580 barrels the preceding week. There were 1,720,070 bushels of wheat received for the week. The receipts were 214,800 bushels of wheat, 138,764 barrels of flour and 4600 tons of mill stuff.

Does the Earth Really Move?

Science says that it does, but we cannot help wondering sometimes if there isn't some mistake about it, when we see how stubbornly certain old fogies cling to their musty and antiquated ideas. It was believed once that consumption was incurable, and although it has been clearly demonstrated that it is not, thousands of old-time physicians close their eyes and pat their hands to their ears and refused to abandon the theory. But for all that the world moves on, and Dr. Pierce's Golden Medical Discovery continues to rescue sufferers from consumptives' graves. It is a sure cure for this dreaded disease, if taken in time. All scrofulous diseases—and consumption is included in the list—yield to it.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. A Narrow Escape.

People who are exposed to the sudden changes of our northern climate have little chance of escaping colds, coughs, sore throat and lung troubles. The best safe-guard is to keep Hagyard's Pectoral Balsam at hand. It is a quick relief and reliable cure for such complaints. 2w47d

LIFE ASSURANCE COMP'Y OF CANADA.

HEAD OFFICE, MONTREAL.

Both in Magnitude and Profitableness, the Business for 1887 has been almost everything that could be desired.

The life policies now in force are 7,128 for $10,873,777.69, on 6741 lives. We have moreover $3,207,000 00 insured under 1,840 accident policies, so that the total current contracts of the Company are 8,969 for $14,081,377.69.

The income for the year shows the very large increase of $122,331.23 over the figures of 1886, the total being $495,831.54. The revenue is now half a million dollars per annum, or as mentioned in the report, over $1,600 for every working day in the year, and even this he believed was but a mere introduction to what it will be in a few years hence. The gains from time to time are well illustrated by the following table:—

Period	Gain in income.	Gain in assets.	Gain in assurances.
1872 to 1876, four years	$ 54,611 21	$169,432 69	$1,149,743 09
1876 to 1880, four years	35,580 67	195,188 29	1,167,326 14
1880 to 1884, four years	136,976 96	363,294 31	2,992,924 80
1884 to 1887, three years	217,451 89	476,977 24	4,029,375 65
Total in 1887	$495,831 54	$1,750,004 45	$10,873,777 69

It is very pleasing to notice that the gains for the last three years only are 60 per cent. more than those of the preceding four years.

Mr. Stewart Corrected.

In the report of the adjourned meeting of the St. Andrew's Society, which appeared in yesterday's EXAMINER, a typographical blunder was made. It was stated that the financial statement for the year showed "a balance to the credit of *Mr. Stewart*." It should read to the credit of *the Society*.

George's Peril.

The Lindsay *Warder* says that when Mr. Geo. S. Matthews was lighting the fire under the boiler in the packing house on Cambridge street, on Tuesday morning, gas that had accumulated in the fire hole exploded, throwing the fire into his face. Fortunately he escaped without serious injury, although he was slightly scorched about the face and hands.

The Sullivan Bridge.

The Road and Bridge Committee of the County Council met on Thursday and inspected the new Sullivan bridge between the third and fourth concessions of Douro. It was found satisfactory and accepted from the contractors, except for some slight improvement in the gravelling of the approaches. The bridge is of iron, and was built by Mr. W. H. Law, of the bridge works. It cost $2,800.

Purchase Extraordinary.

Macfarlane Wilson has purchased for less than 50 cents on the dollar of wholesale cost five thousand dollars worth of crockery, glass and china ware; and having all the goods his present premises will hold, he has rented the store on Water street, next Mr. Jas. Stevenson's office, where this lot will be opened up and sold regardless of its true value. The stock consists of 26 crates and over ninety other packages—barrels, cases, casks, etc., and cannot all be unpacked in less than a week, but he hopes to have enough open to begin selling on Saturday, the 24th inst., and expects to have it all displayed early next week. At the prices, however, it will be bought quickly, and the public will do well to visit the store daily for bargains in different lines, as they are unpacked. No goods will be put away for customers during this sale, but all goods will be delivered free the day bought. Terms strictly cash. dtf

The Bible as Viewed by Protestants and Roman Catholics.

At the Rev. M. L. Pearson's Bible Class to-morrow, after the half hour's study of the Sunday school lesson, the statements made in Bishop Dowling's lecture on the respective attitudes of Protestants and Roman Catholics to the Bible, will be considered. This will be the subject for several Sundays. "Bring your Bibles and come prepared to ask questions" is the request of the teacher. All invited.

Nassau Services.

One of the most successful meetings of the series was held at Nassau last night, when the hall was completely filled, and a deep interest was taken by all present in the proceedings. There were a large number of personal testimonies and seven stood up for prayer. Rev. S. J. Shorey gave an admirable address on Blind Bartimeus, the lesson of whose life he applied spiritually. Messrs. Might, Sutherland and Riper also spoke. Announcements for next week's services will be made at the Sunday evening service.

Carton's New Departure.

Mr. George Carton, grocer, has leased the corner shop in the Cox block, opposite the market square, and will occupy his new premises about the first week of December. The shop has been fitted up specially for the business, and Mr. Carton will lay in a magnificent stock of groceries, and will inaugurate his new premises by holding a rousing opening sale, when goods will be sold at grand reductions in price. Here's a chance to stock up for the holiday season. Reserve your orders till you can practically double the buying power of your money at Carton's rousing opening sale of groceries.

Pigeon Creek Bridge.

At a meeting of the Sullivans Bridge Committee of the County Council held this day, after other business was concluded, a communication of the Town Council, with reference to the Pigeon Creek bridge was considered and the following resolution adopted:—

That no action be taken in reference to the repairs of Pigeon Creek bridge, as requested by the town, till the County of Victoria joins in making snob repairs; and that in the event of Victoria not contributing a proper proportion, this Committee recommend the Council to abandon the bridge.

Institute Notes.

The weekly meeting of the Literary Society was held Friday afternoon in one of the forms Mr. H. Fife, President, in the chair. The programme consisted of a reading by Miss S. Hest, well received; a spirited discussion took place between Miss S. Brown, for the affirmative, and Mr. R. McWilliams, for the negative, on the subject: Resolved, that the drama is productive of more good than harm; in which the latter had the best of the argument. A comic reading by Mr. R. Thompson, which kept the pupils in roars of laughter from start to finish, brought the programme to a close. Voting on the appointment of a committee, to arrange about giving a concert near the close of the term, resulted in the election of the following pupils: Capt. Fitzgerald, chairman and secretary; Miss Halliday, Miss Hall, Mr. H. Dumble, Mr. R. Smitheon, Lieutenant H. Fife, Lieutenant M. Fife and Lieutenant G. Boucher.

Market Mems.

Our wide-awake market clerk, Mr. John Doherty, has made things very pleasant for the ladies attending market. He has arranged seats on the second floor of the market building and had it nicely warmed ready for business at 9 o'clock. Farmers' wives and daughters can now be seated as comfortably as in their own kitchens, and town housewives can haggle over the prices of butter and eggs without suffering the distraction of freezing feet and fingers.

Peterborough is the best market for hogs in Ontario, west of Kingston. While the top figure for hogs in Toronto is $6.50 to $7, the figures in Peterborough have been $7 to $7.50, and hogs can be bought in Port Hope, commission and freight paid and laid down here at $7. Farmers in the neighborhood of Port Hope and Lindsay should bear in mind that Peterborough is the best market in the district, not only for hogs, but every other commodity.

There was a very large market this morning. Grain was moving slowly at the prices that have ruled all week—wheat $1.07 and and $1.08; barley, 60 and 70c. Several loads of hay sold at $15 and $16 each. Considerable wood is coming in, selling at $4 to $4.50 for hard and $2 to $2.50 for soft. There was an abundance of beef offered, selling 4 and 5c., some being anxious to get it off their hands at even 3c. Potatoes and apples sold at standard prices. Fowl were somewhat lower in price, the best turkeys bringing 80c.; other fowl in proportion. Butter went at 24 and 25c.; tub, 18c.; eggs, 18c.

The Famous Furniture King.

The season of home festivities, home enjoyment and social entertainment of friends is at hand, and what comfort it gives the proud housewife if her home, is according to her means, elegantly, comfortably or decently furnished! And how the woman who bought her furniture of Belleghem is envied by the woman who did not! Hundreds of happy homes in this town and county owe their happiness to the sweet even temper of the mistress, who doesn't have her patience exhausted with ricketty furniture, because she buys from Belleghem. Good furniture is always to be obtained in any style—expensive or economical, plain or elaborate, at Belleghem's warerooms, Hunter street, Peterborough. There is no danger of not finding what you want, for an endless variety confronts every visitor to the warerooms, and the wonder is that such strong, elegant, superbly upholstered and exquisitely finished goods can be sold at such exceedingly reasonable prices. Belleghem has the reputation of keeping and making the best furniture in the Midland District, and he has every right to such a reputation—for he has earned it by years of square and honest dealing. Year after year his business has grown, and year after year his buildings have been enlarged to meet the imperative demands of his growing business. He always gives satisfaction to his customers and his business friends are growing constantly. His motto, carried out, is first class goods, honest workmanship, reasonable prices. When you want first class furniture ready for use or wish it made to order call on Belleghem, the furniture shop furthest west on Hunter street, Peterborough.

Steps Being Taken to Effect His Capture—A $100 Reward Offered—Full Description of the Suspect

Every effort is being made to capture the fugitive girl ravisher, and the Mayor has offered a reward of $100 for "information that will lead to the apprehension and conviction of the guilty party." Posters were issued to-day and circulated throughout the town and country, giving notice of the reward and a full description of the suspected man.

The suspected man is from 30 to 35 years of age, about 5 ft. 8 inches high, slimly built, sandy moustache and goatee; when last seen he wore long rubber boots, light check pants, dark coat and black cap with peak, or brown christie.

The Suspect Identified.

Irvine Roraback, of Dummer, is the Man Who Committed the Forgery.

Irvine Roraback, of Dummer, alias Robert Gardiner, alias Washington Vosburg, was yesterday remanded till next Tuesday by the Norwood magistrates. Mr. E. E. Stone, who with Mr. Sawers, drafted the mortgage at Roraback's instance, positively identified him as the man who signed the name of Robert Gardiner, on whose farm the mortgage was made out. An information will be laid against him by Mr. Robert Gardiner the genuine, who has retained Messrs. Sawers & Stone for the prosecution. The prisoner's counsel is Mr. Henderson, of Norwood.

Irvine Roraback in this little transaction was both the mortgager and mortgagee, assuming names for each personage. He told Messrs. Sawers & Stone to forward the mortgage to Washington Vosburg, at Norwood, care of Irvine Roraback. There is said to be another man connected with the case who has not yet been apprehended.

Church Chimes.

Mr. E. A. Pearson, B.A., son of Rev. M. L. Pearson, has decided to enter the Methodist ministry. "Ed" will make an intelligent, manly clergymen, and a fearless exponent of the doctrines of his church. He will probably enter upon his probationary period in the spring.

GEORGE ST. METHODIST CHURCH.—Rev. M. L. Pearson, pastor. Early prayer meeting 7a.m. The Rev. A. C. Wilson of the Mark st. church will preach at 11 a.m.; and the pastor at 7 p.m. Subject for evening, "Sailors on the perils of the sea,"—a parable. Ushers will be in waiting to welcome strangers, and conduct them to seats. S. School and pastors' bible class at 2.30 p.m.

Sunday services in Mark street Methodist church, Ashburnham, will be as follows:—11 a.m., conducted by Rev. M. L. Pearson, President of Conference; 7 p.m., conducted by the pastor, A. C. Wilson, sermon. Subject—"The great agent which shall force asunder, life-long ties, at the day of judgement, is matured character.

Referring to Bishop Dowling's lecture on "The church and the Bible," at Cobourg on Monday night, the *World* says:—Bishop Dowling is a very captivating speaker. He is never lost for a word, and his well of "English undefiled" seems inexhaustible. Whether regarded from the standpoint of the orator or logician, it must be admitted that his lecture was powerful, and even those who could not give assent to his conclusions were forced to admit that it would be no easy task to disprove them.

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral, Roman Catholic, there will be two masses celebrated, the first at 8 a.m., the second at 10.30 a.m. Vespers at 7 p. m.

Rev. Mr. McCrae, of Cobourg, has decided to accept a call to Jamestown, N.Y., and has tendered his resignation to the Presbytery of Peterborough.

Layman's evangelistic services for to-morrow are as follows:—Jail, 9.30 a.m.; Protestant Home, 2 p.m.; Nassau, 7 p.m.; Grange Hall, North Monaghan, 3.30 p.m. All are invited.

ST. PAUL'S CHURCH.—Rev. Mr. Torrance will preach, as usual, in the morning at 11 a.m. In the evening at 7 he will deliver the annual sermon to the members of the St. Andrew's Society.

BAPTIST CHURCH, MURRAY STREET.—Rev. P. Clifton Parker, the pastor, will preach morning and evening. Evening subject, "What think ye of Christ?" Evening sermon, special to young men. Collection for Y. M. C. A. All seats free. Strangers welcome.

AUBURN MISSION.—Mr. E. S. Eloome, superintendent. Service at 7 p.m.

Grand Opera House.

A Great Crowd Witness a Really Good Entertainment The Gifts.

From the Ottawa Free Press.

A crowded house greeted Zera Semon's novelty company at its first performance in the opera house last evening. Hundreds had standing room only. The performance was opened by Zera Semon in his wonderful illusions of the black art, which were all new and interesting. Miss Adele Gilbert, assisted by Signor Giovanni, gave a choice selection of popular melodies upon the musical glasses, and was repeatedly encored. Zera Semon, the wonderful ventriloquist, kept the audience in roars of laughter. Signor Giovanni, the successful bird educator, and his marvellous flock of performing canaries entertained the audience, after which the royal marionettes gave a most entertaining minstrel performance, which surprised and delighted everybody. Mme. Strong's magnificent pictures in the air concluded the performance which is a first-class one in every respect, all the numbers being new and interesting.

Great curiosity existed as to the character of the hundred gifts to be given away, and the many expressions of admiration proved that the presents were better than some expected, none of them being of an inferior kind. Every gallery occupant got one and every down stairs patron two tickets, one out of every seven having a prize number. The management gave away a very large number of very valuable presents including a tea set to Mr. W. McKay and a chamber set to Mr. Arthur Proulx.

Crowded houses will doubtless be the rule every night this week. There will be a change of programme every evening, and a drawing of prizes nightly.

This Company will begin a week's engagement at Bradburn's opera house, Peterborough, Monday evening.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

CLEVELAND BROTHERS, ALBANY, N. Y.

ROYAL BAKING POWDER

Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind and cannot be sold in competition with the multitude of low cost, short weight, alum or phosphate powders. *Sold only in Cans.* ROYAL BAKING POWDER. No 106 Wall street, N. Y. 1yd5w

To The Town Council.

To the Editor of the Examiner

DEAR SIR.—What is the council doing? Why has the Mayor not called them together and offered a reward for the capture of the wretch who outraged the little girl on Wednesday? Is he to be allowed to be sheltered till his escape is effected, and justice defrauded and the lash robbed of its deserving prey, by the apathy of the town authorities? Surely our city fathers will do something to strengthen the hands of the police. Why is not a reward of one, two or even five hundred dollars offered for the miscreant? An outraged public demands prompt action.

Yours, etc.,
A FATHER.

[Since the above was in type we are glad to be informed that bills, offering a reward of $100, are being issued.—ED. EXAMINER.]

The Salvation Army.

A farewell banquet to Adjt. Bolton will be held this afternoon from 5.30 to 7.30 p.m., in the basement of the Salvation Army barracks, and to-night a hallelujah drama will be presented at eight o'clock, entitled "Farewell to the Hero." To-morrow from seven in the morning till ten at night there will be farewell meetings led by Adjt. Bolton, assisted by Capt. Woodgate, Capt. Macklin, Capt. Grant, Capt. Webber, Capt. McKee and Capt. Deeson, Adjt. Bolton has been in command of this division for two years and has done a grand work. He has been promoted to a Staff-Captaincy, with headquarters at Chatham.

The Household Troops Band will be here on Monday.

Ambitious Kingston.

Another railway scheme has been developed in Kingston. The new idea is to construct a railway from Kingston to the Georgian Bay, to be officered and equipped by Kingston men, to run through North Hastings, the centre of Peterborough County, part of Haliburton and Muskoka district, connecting with the Pacific junction and the Sault Ste. Marie railways at Gravenhurst, going through a country not served by railways. It is claimed that the scheme would be entitled to the maximum bonus from the government.

CATARRH CAN BE CURED.

NASAL BALM
INSTANTLY RELIEVES
Cold in the Head.

THE PROOF.

MR. G. T. GORRELL, Mail Clerk on C. P. R. says:—Nasal Balm is a boon to all sufferers from cold in the head. It gives relief rapidly and never fails to effect a speedy cure.

D. DERBYSHIRE, President of the Ontario Creamery Association says: Nasal Balm, beats the world for catarrah and cold in the head. In my own case it effected relief from the first application.

NASAL BALM
POSITIVELY
CURES
CATARRH
In all Forms and Stages.

THE PROOF.

MR. A. W. MALLORY, Mollerytown, Ont, says:—My daughter suffered for years from a most distressing and annoying catarrah. Her case was under the treatment of sentinent physicians in the United States and Canada. Two months' use of Nasal Balm has had more beneficial effects than all former treatments combined.

MR. HORATIO COLLINS, Woolen Manufacturer, Cameronstown, Ont., states:—Nasal Balm is the only positive remedy for catarrh that I ever used.

O. L. POTTER, Manufacturer of Woden-Ware, McIntosh Mills, Ont., says:—Nasal Balm completely cured me of a case catarrh from I had suffered for over ten years. It cannot be too highly recommended, and should be used by anyone troubled with catarrh. It is one of the wonders of science.

NASAL BALM
IS UNEQUALLED
When used for the Stoppage of the Nasal Passages and Difficult Breathing in Children.

THE PROOF.

MR. M. RAY CASSE, N. S., says:—I have used Nasal Balm on several occasions with the children for cold in the head, and always find it effects a speedy cure.

MR. R. G. HART, of Gananoque, says:—My child was suffering severely from cold in the head, indeed to such an extent that breathing was difficult. One application of Nasal Balm gave instant relief, and in a short time made a perfect cure.

R. A. HARRISON, Druggist, Dunville Ont., says:—I used your Nasal Balm in my own family, and find it by far the best remedy we can get. When baby gets cold we rub his forehead and nose well at night, and in the morning he is all right.

BEWARE OF IMITATIONS. The reputation achieved by NASAL BALM from its wonderful curative properties has induced certain unscrupulous parties to place imitations on sale closely resembling the style of our packages, and with names similar in sound. Beware of all preparations styled Nasal Cream, Nasal Balsam, etc. Ask for NASAL BALM and see that you get it.

If you cannot obtain NASAL BALM from your dealer it will be sent post-paid on receipt of price. 50 cents and $1, by a increasing. FULFORD & CO., Brockville, Ont.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

—AND—

Black and Gray Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and prices are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Starlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

UNFLAGGING INTEREST IN THE PARNELL COMMISSION.

Tales of Horror Rehearsed Daily—The Debate on Extending the Ashbourne Act—Mr. Gourley's Question.

LONDON, Nov. 26.—The Parnell Commission last week has once more brought freshly before the English public old stories of Irish murder and other outrages. What one Home Rule paper sneeringly calls the inevitable tragedy recurs daily. Besides all this evidence, mutterings of a coming storm are heard daily. There are charges and counter-charges on both sides. The Attorney-General has more than once intimated his belief that Times witnesses are tampered with. A very curious shooting case, tried last week at the Central Criminal Court, supports his view. Sir. Charles Russell, on the other hand, alleges complicity between The Times and the Irish Administration. He said Friday: "My Lord, we charge deliberately, and shall endeavor to make it good in evidence, that the whole of the executive authorities, as represented by the police and some of the resident magistrates, have been agents of The Times in getting up their case. An inspector, however, who was asked if he was employed by The Times, denied it. On the whole there seems little danger of public interest in these proceedings fading out.

Mr. Parnell has stated with his usual clearness his objection to the extension of Lord Ashbourne's Act. He is for it in principle; that is, he is for the creation of a peasant proprietary. But circumstances are now such in Ireland that in his view no fair trial of the principle is possible. Rich tenants can buy; and the poor cannot. Landlords can choose to whom they will sell; the estate has no voice. The rents on which the purchase money is to be calculated, though judicially settled, are still too high. Arrears will be used by landlords as a means of forcing tenants to make bad bargains. "Buy or go" will be their formula. If tenants do not wish to buy they will be ejected for non-payment of arrears.

Such is a summary of the points the Home Rule leader made. An equitable bargain, added Mr. Parnell, cannot be made on such terms, and tenants would have a claim hereafter to say they were compelled to take advantage of the bargain and were entitled to repudiate it; to which the Tories retort that the authorized plea of the Nationalists is that the Irish peasant cannot be trusted to pay what he has promised to pay. Mr. Parnell's statement would have had more weight with the English public had he omitted this threat of repudiation.

Not less interesting than Mr. Parnell, if less important, was Lord Randolph Churchill's contribution to this debate. The House was thronged to hear him. Few know when the member for Paddington rises in the House of Commons whether he comes to bless or to curse the Government of which he was once, next after Lord Salisbury, the chief ornament. This time he did both. He criticized both the principle and the details of the bill; attacked its financial provisions, but promised to vote for it on the condition that it was the last of its kind. Mr. Goschen replied to Lord Randolph, pointing out with obvious satisfaction a curious financial error of his predecessor in the Chancellorship of the Exchequer.

The second reading was carried by a majority little less than the first, and this was again reduced on the arrears issue, as presented by Mr. Parnell, to thirty-four.

Opportunities for testing more or less intelligently the opinion of the country about Home Rule multiply. The Holborn election will give some fresh indication of what London thinks. Colonel Duncan, who died last week, had 1500 majority two years ago, but the constituency since then has increased and otherwise changed. The Liberals have a good candidate in Lord Compton, and will contest the seat with some hopes of winning, or at least of reducing the old majority. Sundry other vacancies are probable.

Mr. Gourley's question about the Fisheries has been twice postponed at the request of the leader of the House. It now stands for Monday next, but may not be asked then.

Horrible Murder in South Russia.

LONDON, Nov. 26.—A murder has occurred at Gravoron, South Russia, which is one of a series resembling in many respects the Whitechapel butcheries except that in connection therewith there is a vein of superstition not revealed within the motives actuating the London fiend. The corpse of a young peasant girl was found in the woods, several parts of the body having been removed and apparently destroyed. A day or two after the discovery two peasants were arrested for burglary. The dead girl's handkerchief was found in their room. The culprits confessed to having murdered the girl and stated in extenuation of their crime that they had slain her in order to procure fat with which to make a candle, believing that the burning of a candle made from the fat of a human body would secure them immunity from detection. This is a common superstition among the inhabitants of southern Russia who believe that the possession of a finger or a candle made from human fat, is a perfect safeguard from detection of crime.

Lady Compton's Maiden Speech.

LONDON, Nov. 26. Mrs. Gladstone presided at a meeting Saturday afternoon in support of Lord Compton's candidacy for the vacant parliamentary seat for the Holborn district of Finsbury. In the course of a speech announcing that she was working to achieve Lord Compton's election Mrs. Gladstone said: "In working for the election of Lord Compton you are furthering the cause of justice and right in Ireland and also in the rest of the kingdom." Lady Compton followed Mrs. Gladstone, making her maiden speech. She was exceedingly nervous at the start and remarked at the close: "The next time I hope I shan't be so terrified."

Gov. Blake's Appointment Withdrawn.

LONDON, Nov. 26.—The Cabinet at its session on Saturday occupied two hours in discussing the matter of appointing colonial governors, especially the Governor of Queensland, and also devoted some time to the question of appointing a chief commissioner of the Metropolitan Police force to succeed Gen. Sir Charles Warren. The discussion of the Queensland matter resulted in the withdrawal of the appointment of Mr. H. A. Blake, late Governor of Newfoundland.

A Fatal Feud.

OMAHA, Nov. 26. A feud of two years' standing between the McCarthy and Williams factions, living about ten miles north of here, resulted in a general fight Friday night at a dance given at the house of Jake Le is, during which George Williams, John Bagley and George Zucher were shot, the first being fatally wounded. Dick McCarthy is supposed to have done the shooting, the weapon used being a shot gun.

A Rebel Outbreak in Venezuela.

PANAMA, Nov. 26.—A rumor which the Venezuelan Consul at Colon has reason to credit has reached here to the effect that a serious revolution has broken out in Venezuela. It is reported that General Crespo, supported by General Sergis Camargo, has landed in the east with an army of 5000 men.

THE KNIGHTS OF LABOR.

Work of the General Assembly Drawing to a Close.

INDIANAPOLIS, Nov. 26.—The work of the General Assembly, K. of L., is slowly drawing to a close. Saturday General Worthy Foreman Morris L. Wheat of Iowa, who is ex-officio chairman of the general co-operative board, presented his nominations for members of that board as follows: H. A. Beckmeyer of Newark, N. J., John O'Keefe of Rhode Island, Rudolph Kirchman of St. Louis and Oliver D. Benoit of Montreal. The vote resulted: Beckmeyer 95, O'Keefe 70, Kirchman 24, Benoit 64.

At the afternoon session the law committee took the floor and reported on a couple of propositions. The first looked to the establishment of jury trials in the order, but no action was taken on it. The other opened up the temperance question, and a long discussion ensued. A proposition had been handed in to the committee to abolish the section in the constitution which provides that no intoxicants shall be sold at picnics or other entertainments of the Knights of Labor. It was reported with the remark that the committee deemed it inexpedient. According to the present constitution saloon keepers are now ineligible to membership in the order, and to get around this an amendment was presented to give leave for outsiders to sell liquors at such entertainments, but that members of the order, as knights, shall have no such privilege. The matter was warmly discussed on both sides, but an adjournment was taken before positive action, and it will be again taken up to-day.

General Master Workman Powderly has received a number of telegrams of congratulation on his re-election. Two cities have been heard from with invitations for the next meeting—Toronto, Ont., and Atlanta, Ga. In both cases a formal invitation signed by the mayor and city clerk has been received. The place of meeting will be decided on to-day.

T. B. Barry on Saturday gave to the press the last chapter in his serial story, in which he paid his compliments to the new administration of the order.

MR. BLAKE'S REPORTED RETAINER IN THE CROSSING CASE.

Supreme Court Matters—Mr. Blake to be Present at the Opening of Parliament—Increase in Dominion Land Sales.

OTTAWA, Nov. 26.—The Supreme Court, having got through the Maritime Province list, has adjourned until Dec. 14 when judgments will be delivered. It will then adjourn for the usual Christmas vacation and meet again on Jan. 15, when the Quebec list will be taken up.

The Free Press says that Mr. Blake will be present at the opening of Parliament, although his physicians may order him to spend a portion of the winter in a southern climate.

The arbitrators in the case of the claims of the Canadian Pacific Railway against the Dominion Government in connection with the British Columbia section of the road will meet here on Dec. 3 for examination of witnesses. Hon. Edward Blake will appear as one of the counsel for the Canadian Pacific Railway.

The sale of Dominion lands in the Northwest for the year ending Oct. 31 has been greatly in excess of last year, notably in the last three months of the year, which show an increase of $60,000.

The members of the bar attending the Supreme Court presented a memorial asking for a change in the rules of the court so that two days shall elapse between the close of the maritime province list and the calling of the Quebec list, and two days between the Quebec and Ontario lists. The object is that counsel may neither be taken by surprise by the dropping of cases bringing on their suits sooner than expected, nor obliged to wait here several days for cases to come on.

They also ask that the court adjourn for half-an-hour each day for lunch. At present the court sits from 11 to 4 without intermission. No reply has yet been given.

The Evening Journal states on what it says is "good authority" that Mr. Blake's retainer in the Manitoba Railway crossing case before the Supreme Court was $10,000.

It is rumored that two of the vacancies in the Senate for the Province of Quebec have been filled by the appointment of Mr. C. S. Rodier in the place of the late Senator Roland and of Mr. George A. Drummond in the place of the late Senator Ferrier.

THE RACE ON THE POTOMAC.

William O'Connor Brings Back the Champion Sculling Championship to Canada.

WASHINGTON, Nov. 26.—Never has a boat race aroused so much enthusiasm in America as Saturday's 3-mile sculling contest on the Potomac River between William O'Connor of Toronto and John Teemer of Mc-Keesport, Pa., for $1000 a side and the championship of America. The long-talked-of battle between the two famous oarsmen has at last been settled and the Canadian boy is the hero of the hour. That he well earned the title of champion of America it is useless to say, for he led from start to finish, Teemer at no time being able to overtake him.

It was 4 o'clock when the referee called the men out, the water being in good condition. O'Connor was the first to make his appearance, wearing a white sleeveless shirt, with blue hoops and black cap. It was fifteen minutes later before Teemer stepped into his shell, dressed in a maroon shirt with a pink cap, and pulled towards the starter's boat.

Teemer, who won the toss, chose the Virginia shore. The men were then got into position and the referee gave the word "go." O'Connor was the first to strike the water and before Teemer could realize it the Canadian had a length to the good, rowing at 41 strokes to the minute. Teemer pulled 40. It then looked as if the race was over as the Canadian was rowing well within himself and increasing his lead.

When half way up the course, three-quarters of a mile from the start, O'Connor settled down to 34 while Teemer was rowing 38 strokes. The Toronto oarsman had three lengths to the good, but steered a little out of his course which gave Teemer a slight advantage, and on reaching the turning buoy Teemer was only 1½ lengths behind O'Connor. That the pace was fast may be judged by the time, O'Connor reaching the buoy in 8.35.

That seemed to break Teemer's heart, for when both men were straightened for home O'Connor quickly increased his advantage to five lengths and it was a procession to the finish. A wind now blew up and with the tide against them the speed was decreased. O'Connor, however, pulled a strong stroke while Teemer was laboring, and though the McKeesport man made several spurts O'Connor drew away, finishing 10 lengths in front in 21.29, Teemer's time being 21.38. The slow time is accounted for by the wind and strong tide.

At the finish O'Connor was loudly cheered, the Potomac four-oared crews carrying the British flag, which was waved to the Canadian. Had the race been rowed on Toronto Bay O'Connor could not have received a better reception, the feeling of the Washington people being with him. Joseph Rogers of Toronto, the backer of O'Connor, said that he now proposed to go to Australia, and wrest the world's championship from Searle. Rogers won a big pot of money.

There have been ugly rumors since the race was decided to the effect that Teemer sold out. In an interview Referee Elder said: "There have been some comments that the race was not an honest one, but I am satisfied that it was and cannot find any reason for changing my decision. I consider myself competent to judge of the character of the contest and I am confident that the race was won fairly and that O'Connor deserves his victory. I regard him as being a wonderful oarsman and I think now that he can not only beat anyone in this country but that he can beat anyone in the world."

The men who had bet money on Teemer declare that Teemer could have beaten O'Connor if he had tried. Jas. W. Sullivan, the Pittsburg man who had increased the stakes to $2500 and who had made other wagers to the extent of $2000 that Teemer would win, has sent a formal notice to each stakeholder not to pay over the money, as he proposes to contest the referee's decision. Mr. Sullivan also called on Referee Elder, and stated that he regarded the race as being unfair and requested that he withhold his decision in order that the matter might be investigated. Mr. Elder, however, replied that he was satisfied that the race was decided on the merits of the two men, but that he was willing to hear any evidence to the contrary which they might desire to produce.

Mr. Sullivan has already employed Campbell Carrington as his attorney and it is likely that some trouble will be caused before the matter is ended. It should be borne in mind that these complaints come from the losers. O'Connor and his friends deny that there was anything wrong about the race and this is the feeling among disinterested observers.

The Scotchmen's Sermon.

A Patriotic Sermon to the St. Andrew's Society by Rev. E. F. Torrance.

Sunday evening the annual sermon to St. Andrew's Society was preached in St. Paul's church by Rev. E. F. Torrance. The edifice was filled with an attentive and appreciative congregation that had the pleasure of listening to a concise, pithy and instructive address, suitable to the occasion. Among the congregation were a great many of the members of St. Andrew's Society, for whose special benefit the sermon was delivered.

The musical portion of the services was also prepared with reference to the occasion. The large choir rendered an anthem in good style, and the closing hymn, No. 113, was sung to the tune of Auld Lang Syne.

Rev. Mr. Torrance chose for his text Psalm cxxii, 6:—

"Pray for the peace of Jerusalem; they shall prosper that love thee."

Patriotism had always been regarded as a virtue of a very high character, and while it had always existed more or less among all nations of the earth, to the Jew his country was particularly dear. Jerusalem was associated with all that was sacred to the Jew; it was the place where the temple stood. Hence the Jew had a peculiar reverence and love for the great city. One of the objects of a St. Andrew's Society sermon, said the preacher, was to appeal to the patriotism of Scotchmen and their adherence to the principles for which their forefathers died. Scotland was small, doubtless, in comparison to other countries; yet its rugged highland scenery and sweet-scented heather were dear to Scotchmen. These were beautifully described in the Lady of the Lake. There were no more beautiful spots on the earth than Loch Katrine and Loch Lomond; they were equal in beauty to the softer mildness of English scenery. The Scottish people owed much of their hardy ruggedness of nature to the natural scenery and vigorous climate of their country.

Scotchmen, too, had reason to be proud of their history. Though the English kings of yore had sought again and again to conquer Scotland, the patriotism of the people successfully resisted the invaders, and the names of Wm. Wallace and Robert Bruce shine today as the beacon lights of Scottish liberty.

Though a plain people the Scotch were intelligent; their literature was equal to the best in the world. And in religion they were equally prominent. The great John Knox was the pioneer of Scottish religion, and the preacher gave a brief history of his remarkable career; of his noble efforts, finally successful, to free his people from the slavery of the religion that held them in thrall and bring them into a knowledge of a true salvation.

Some of the most interesting chapters in Knox's life were his interviews with Queen Mary, who sought to convince him of his heresy, and, failing that, charged him with treason. All the trying vicissitudes of his life told on his health, and in 1570 he was stricken with apoplexy and died two years later. Knox was blamed for being harsh and intolerant, especially towards Queen Mary, but the truth is that he had to do it or be false to his faith. After the reformation a great religious movement followed, in which Chalmers, Cunningham, Chandler and Guthrie were leaders. This movement led to what was called the disruption of the Scottish Church, when 400 ministers left the church whose forms they could not conscientiously adopt.

The people of to-day should seek to imitate their Scottish forefathers in their industry and perseverance, two of the greatest and most valuable qualities that have characterised the Scottish people. Again, in their Christian home life, which was indicative of the national life. Lastly, in their love for the word of God. To the question, what is the secret of England's greatness, a Bible was held out; so with the Scottish people they were early taught the Bible truths and ever cherished them. It was said that the Scotch preachers of the present day were departing from the doctrines of the church and were denying the inspiration of the Bible; if that were so, said the reverend gentleman, disaster threatened the nation. Rev. Mr. Torrance concluded his sermon with a powerful appeal to his congregation to keep "the love of Jerusalem" warm in their hearts and they would ever be a prosperous people.

The annual dinner of St. Andrew's Society takes place at the Morgan House Friday night next, the evening of St. Andrew's Day.

Farewell to the Adjutant.

A Two Days' Farewell to Adjutant Bolton—Two Years' Successful Work—To-Night's Attraction.

Saturday and Sunday were "special" days with the Salvation Army here. Adjutant Bolton, who has been in charge of the Peterborough division for two years, has been promoted to the position of staff-captain, and will in future have his headquarters in Chatham, Ont. During his term of office here he has done a grand work, with satisfactory, practical results. The division is in a flourishing condition, comprising, now, 20 corps, four outposts and nearly 40 officers. Ten new stations had been opened by Adjt. Bolton, and a considerable debt has been paid off. He has also had the new temple on Simcoe street built during his regime.

The two days' farewell was inaugurated by a grand banquet Saturday night, at which there was "plenty to eat and lots of it." Then followed a street parade and meeting in the barracks. There were quite a number of visiting officers present, besides the Adjutant and Capt. Howell. There were Capt. Woodgate, of Guelph, formerly in charge here; Capt. Deeson, of Cobourg, who has just returned from a two years' service in British Columbia; Capt. Webber, of Norwood; Capt. Macklin, of Port Hope; Capt. McKee, of Bobcaygeon; Capt. Grant, of Lakefield, and Lieut. Tully, of Omemee.

Several of these officers sang and made addresses. The meeting was of the usual order of service.

On Sunday the proceedings were continued. The barracks was crowded afternoon and evening. At night Adjt. Bolton made his farewell address. He dwelt largely upon the success of the Army's work in Canada, giving figures showing the progress made. There are in Canada to-day 323 corps, 109 outposts and 845 officers—a wonderful growth for the time the Army has been established in the Dominion. Regarding his labors here, he said he had merely done his duty, and had tried to conscientiously carry out his Master's commands. He exhorted the people to remain firm in their faith, and win the glorious reward. In closing, he appealed to unconverted sinners to lay their burdens at the foot of the cross and have them rolled away.

Adjt. Bolton will remain in town probably till about Thursday to settle up affairs.

THE ATTRACTION TO-NIGHT.

The Household Troops band of London, Eng., comprising 27 skilled musicians, will arrive in town on the 5.15 G.T.R. train, and will be met by the local officers, who will conduct them up street. The "band boys" will be entertained at the barracks, and in the evening a grand "go" will be held.

Nearly all the officers in the district, about 40 in all, will be present. They have been arriving all day from all directions, and are going in for a big time at the barracks to-night. It will be well worth attending.

Millbrook.

From Our Own Correspondent.

Messrs. T. B. Collins & Co. are establishing a private bank in this place. Temporary quarters have been secured over Dr. Ough's drugstore. Mr. Collins has been for many years a prominent figure in business circles and is well and favorably known in the vicinity, and will, doubtless, attract a share of the business of the place in his line.

The curling and skating circles are beginning to awake. There are prospects for a good season for the rink, which has been greatly improved, with large accessions of membership to both departments.

Very little grain is coming into the village. Port Hope and Peterborough, Peterborough especially, proving superior attractions.

Miss Anne Howden will give a concert in the Town Hall here on December 11th. She will be assisted by friends from Toronto, Cobourg and other places.

In municipal matters, the reeveship for 1889 causes considerable speculation. Dr. Ough's name is favorably mentioned, and should he offer is pretty sure of election. Millbrook wants more "go" put into her civic matters, and the Doctor, being a public-spirited, energetic man, will make a good live reeve, who will seek to promote the interests of the village instead of his own personal aims. I have supported the present reeve, but, with others, have come to the conclusion that he has pretty well sabout his usefulness. He appears to want to serve only his own interests. He would take the whole earth, with the moon thrown in by way of bonus. He should, now, having had rather more than his share of the honors of our first magistrate, gracefully retire on his laurels.

Rheumatic Pains

Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nervilline. It is safe to say that nothing yet discovered has afforded equal satisfaction the to the suffering. A trial can be made at a small cost, as samles bottles of Nervilline can be had at the drug stores for 10 cents, large bottles 25 cents 6d48w

Prevailing Sickness.

The most prevailing complaint at this season are rheumatism, neuralgia, sore throat, inflammations and congestions. For all these and other painful troubles Hagyard's Yellow Oil is the best internal remedy. 2w47d

A SUICIDE IN MONTREAL.

ARTHUR REED GOES ASTRAY BECAUSE A GIRL JILTED HIM.

He is Found in His Room at the Richelieu Hotel With a Hole Bored Through His Head and a Revolver by His Side.

MONTREAL, Nov. 26.—Arthur E. N. Reed, a step-son of Dr. A. Roberts, of Kensington-square, London, Eng., and nephew by marriage of General Sir Fred Roberts, committed suicide here Saturday night. Deceased, whose brother died at one two years ago, was engaged to be married to a Miss Sutherland who jilted him, since which he has gone to the bad. He came to Canada some time ago and was in the Northwest for a short time. He arrived here about 15 days ago and put up at the Windsor Hotel. He stayed there for two weeks, leaving a couple of days ago and going to the Richelieu Hotel.

About 8 o'clock Saturday night there was a report of a pistol, and upon the officials of the hotel proceeding to his room he was found lying on his bed with a pistol beside him. He had shot himself behind the right ear, and the ball came out over the left eye and fell on the floor. In his pocket was a letter from his mother urging him to live better than he was doing, $443 and some pawn tickets. His trunk and clothes are still at the Windsor, where he owes a week's board. He had presented a letter of introduction to a prominent man here, to whom he applied for a loan of $200, but was refused. The deceased was about 26 years of age. The coroner will hold an inquest to-day.

TORONTO TOPICS.

Serious Charge Against a Physician—Polly Bredin's Children.

TORONTO, Nov. 26.—The sensation in police circles yesterday was the arrest of Dr. John Valentine on a charge of criminal malpractice. Ally Wilkinson, a barber, was also arrested on a charge of being concerned in the crime. The police late in the evening were searching for a third party, a business man on King-street west, but he had got posted in time to evade capture and place himself in safety on the other side of the line. The victim of the alleged malpractice is Miss Lizzie Charlton, who lives with her widowed mother at 95 Sackville-street. She was employed at Simpson's Knitting Factory and is 19 years of age. At present she lies between life and death, and in fact the attendant physician has no hope for her recovery. How the police learnt of the case is a mystery, as both the girl and her mother firmly refuse to say anything. When the authorities went to the house on Saturday night to take her dying statement Miss Charlton refused to say anything that would implicate anyone in the crime.

The three children of Polly Bredin have been sent home to 17 Windsor-street from Loretto Abbey, where they were being educated. They were recommended for admittance there by a well-known lady of the city.

H. E. Simpson, photographer of No. 74½ King-street east, has been summoned to appear in the Police Court to-day at the instance of Mrs. C. S. Ferol, who charges Simpson with tapping her gas pipes for his own use. The parties are in the same building.

The explosion of a lamp in Geo. Lovell's grocery, at 289 Parliament-street, at 12.05 yesterday morning caused a fire which did $200 damage.

Henry Hunter and William Algeo, the two suspected confidence men, were released on bail on Saturday morning on depositing $250 in cash as a bond for their reappearance. The Boston police want to be notified if the men cross the line into the States.

Last Thursday night a gang of youths raised a disturbance at Kelliher's Hotel, at Esther and Queen-streets. In the fight which ensued a 17-year-old boy named Herbert Verral, received a severe kick in the face, breaking the bridge of his nose. On going home he took to his bed and Dr. Gibb was summoned. Yesterday erysipelas set in and his condition became so serious that it was deemed necessary to inform the police. Last night Detective Johnson arrested William Seagriff, proprietor of the Occident Hall billiard room; Stephen Sinnath, 53 Augusta-avenue, and Louis Edmunds, a colored youth residing on Centre-street, on suspicion of having been concerned in the assault on young Verral.

A RAILROAD IN TROUBLE.

The South Norfolk Company Sued for $30,000—A Bad Pitch-in.

HAMILTON, Nov. 26.—On Thursday the new railway between Simcoe and Port Rowan was opened with much jubilation. The road was built by the South Norfolk Railway Company, and is seventeen miles long. But the popping of the inauguration corks had hardly ceased when, on Friday, Sheriff Deeds served on the company a writ for $30,000. Some years ago the Port Rowan and Lake Shore Railway Company, of which Col. Collier was president, secured a charter to build a road along the shore of Lake Erie, between Port Dover and Port Rowan, and continuing along the lake shore from each place. Work was commenced, and eight miles of road, reaching from Port Rowan to Lynnville, was graded. Owing to the fact that the promised money was held back the company fell into financial difficulty and work was suspended. Subsequently the South Norfolk Railway Company secured a charter to build a road from Simcoe to Port Rowan. This company appropriated the eight miles of grading which had been done by Col. Collier's company, and the $30,000 suit is brought to compel the new company to pay for the work done by the old company.

A pitch-in occurred on the Grand Trunk about midnight on Friday at a point east of the city and though no person was hurt the company will sustain considerable loss through damage to the railway stock and delay of traffic.

THE LATEST FROM PARIS.

Lively Debate in the Chamber of Deputies on the Boulin Question.

PARIS, Nov. 26.—In the Chamber of Deputies Saturday M. Lainert (Boulangist) proposed that the remains of the revolutionist Boulin be transferred from the cemetery where they now lie to the Pantheon.

M. Baudet claimed priority for his motion to a similar effect.

Prime Minister Flequet expressed astonishment that a party allied to the Bonapartists could make such proposals in view of the fact that M. Boulin was a Republican. If the question were discussed M. Baudet's motion ought to have priority, especially as it included similar honors for the remains of Gens. Hoche and Marceau.

M. Lainert insisted that his proposal should be given priority. He declared himself a Republican, but he was dissatisfied with the present republic, which was governed by Orleanists.

M. Flequet retorted: "I never received the adhesion of the Comte de Paris." [Applause].

A vote on the question of priority resulted in favor of M. Baudet's motion, 370 to 91.

Two Remarkable Times Issues.

LONDON, Nov. 26.—The Times presented its readers with two remarkable issues on Wednesday and Friday. Each day the editor found room for but a single editorial, a fact perhaps, without precedent in recent days. The Parliament report on Wednesday filled twenty-two columns, and the Parnell Commission twelve. On Friday eighteen columns were occupied by Parliament, thirteen by the Commission, and one by foreign telegrams. The paper consisted on both days of the usual sixteen pages, or ninety-six columns.

Genteel Quackz.

"Yes, it pays," said a big, fat physician, with a name which is known throughout the medical world. "I have practice worth $40,000 a year." "Women"? "Yes you've guessed it first time. They pay $10 every time they come into my office. When one gets on my list I tell you she stays"! and Dr. H—— laughed long and loud. This is quackery—gilt-edge, genteel quackery—to keep suffering women paying tribute year in and year out, and doing them no good. Dr. Pierce's Favorite Prescription cures the peculiar weakness and diseases of women. It does not lie to them nor rob them.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. A Narrow Escape.

People who are exposed to the sudden changes of our northern climate have little chance of escaping colds, coughs, sore throat and lung troubles. The best safe-guard is to keep Hagyard's Pectoral Balsam at hand. It is a quick relief and reliable cure for such complaints. 2w47d

LIFE ASSURANCE COMP'Y OF CANADA.

HEAD OFFICE, MONTREAL.

Both in Magnitude and Profitableness, the Business for 1887 has been almost everything that could be desired.

The life policies now in force are 7,128 for $10,873,777.69, on 6741 lives. We have moreover $3,207,600 00 insured under 1,840 accident policies, so that the total current contracts of the Company are 8,969 for $14,081,377.69.

The income for the year shows the very large increase of $122,331.23 over the figures of 1886, the total being $495,831.54. The revenue is now half a million dollars per annum, or as mentioned in the report, over $1,600 for every working day in the year, and even this he believed was but a mere introduction to what it will be in a few years hence. The gains from time to time are well illustrated by the following table:—

Period	Gain in income.	Gain in assets.	Gain in assurances.
1872 to 1876, four years	$ 54,611 21	$188,482 60	$1,146,743 00
1876 to 1880, four years	35,580 67	195,188 29	1,167,336 14
1880 to 1884, four years	136,976 84	353,264 31	2,962,924 90
1884 to 1887, three years	217,451 89	475,607 24	4,029,373 65
Total in 1887	$495,831 54	$1,750,004 48	$10,873,777 69

It is very pleasing to notice that the gains for the last three years only are 60 per cent. more than those of the preceding four years.

Police Court.

MONDAY, Nov. 26.

P. C. McGinty picked up a pair of tights on the street Sunday, and this morning when presented before P. M. Dumble they wore a sadly dilapidated appearance. One young man's nose and forehead were skinned and bleeding from the effects of his encounter with the "peeler," while the other, Micky Driscoll, exhibited a general air of depression and looked bleached, while his limbs shook and trembled as if afflicted with ague, the result of a protracted three weeks' "hoot." He is an old Bobsaygeon bandmaster and is a good musician. Geo. Fady was also there for using abusive language towards P. C. McGinty when the latter was arresting the first named. Both Fady and he denied the charges preferred against them and called several witnesses, but the former was fined $2 and costs (in all $5.50), and the latter $5, without costs. Fady left court with the very logical remark that he might better have got drunk and saved half a dollar. Driscoll, not being able to pay his fine of $2 and costs, was sent to gaol to straighten up.

Ashburnham Brevities.

A great many persons wonder if the G. T. R. authorities are aware of the inconvenience which is caused to pedestrians by leaving strings of coupled cars on the track opposite the old elevator. It causes a long and unnecessary tramp round by another street to any one taking Robinson street to reach any of the churches, or in going to any part of the town or village. It would take but a very few seconds to uncouple the cars and make a passage. Besides, it is not legal to blockade a street by cars. When the attention of the authorities is drawn to this matter, there is no doubt it will not occur again.

A property owner was heard the other day to complain of having to help pay part of the price of the town fire-engine, when the town had all the use of it. When asked if he was anxious to have it round, he said he didn't just know that he was, and, in fact, he had never thought before that it was, on the whole, better not to have to use it.

The Rev. M. L. Pearson occupied the pulpit of the Mark street Methodist church yesterday morning and preached a very eloquent, instructive and impressive sermon from Matthew xix., 27—"Behold we have forsaken all and followed thee; what shall we have therefor?" The music rendered by the choir was in keeping with the other part of the service and would compare favorably with that of much larger choirs. The music was in charge of Miss *Emma* Smith and reflects much credit upon her.

Two small boys nearly met a watery grave on Saturday afternoon on a small pond at the north end of the village. During the day the ice became soft and the boys broke through, but very miraculously escaped with a good drenching. The wonder is that more boys don't go through, as they are on ice which is scarcely thicker than ordinary glass.

Personal.

Miss Maggie Dixon has returned home from Chicago.

Miss Bloomfield, of Lakefield, was the guest of Mrs. H. T Strickland over Sunday.

Mr. E. B. Bart spent Sunday in Toronto, being called there on urgent business.

Mr. Jas. Morris is recovering from his severe attack of fever, and is expected to leave the hospital this week.

Mr. J. H. Wyatt, of Wyatt & Turner, clothiers, wishes THE EXAMINER to state that he is not the Wyatt fined in the police court last week, for using abusive language.

Miss Lucy Stevenson, assistant teacher in the Lakefield public school, has been appointed to fill the vacancy caused by the resignation of Miss Hattie Benson, on the staff of the Ashburnham school.

Mr. W. H. Casement, reeve, and Finance Minister Hall, of the Lakefield council, are in town to-day. They report that the plans prepared by Ranev & Ludgate for the new town hall have been accepted.

Mr. R. Whitla, of Peterborough, leaves this evening for Banff, N.W.T., for the winter. Mr. Whitla has not been well for some time past. His friends in this section will wish him a speedy recovery to health and a quick return to town.

Mr. T. H. Hudson, inspector for the Phœnix Fire Insurance Company of England, called to-day on the local representative, Mr. Henderson, on his way west to adjust the heavy claims arising out of the recent disastrous fire in Hamilton.

Mr. R. H. Matson, superintendent of the British Empire Mutual Assurance Company, has been in town for some days, assisting the general agent to bring reluctant candidates to the application point. The business of this company is already $300,000, in the way of new business, ahead of the corresponding date last year.

Children Cry for Pitcher's Castoria.

The Professor's Last Night.

Those who attended the mesmeric entertainment in the opera house Saturday night certainly got the better value for their money than ever before. Prof. Reynolds is a great believer in the virtues of hearty laughter, and the audience was fairly convulsed from beginning to end of the performance. It was the closing night of the Professor's engagement here, and the audience was perhaps the largest of the week. The subjects, some half dozen in number, were made to do a number of ridiculous things with the utmost gravity and seriousness. They climbed off the stage into the gallery to put out an imaginary fire that they saw raging there, and the way they worked would give the best organized fire brigade valuable pointers. The Professor took them on a balloon trip from Chicago to New York and across the Atlantic to London and Paris. The subjects experienced all the sensations of an actual aerial voyage, ascending to great heights and again falling near the earth and their countenances plainly mirrored their varied feelings of surprise, fear and horror at the different stages of the trip. They taught school, went fishing, sold papers, made stump speeches, sang songs and did many other things with a realism that was not to be doubted. A wonderful effect was created by the Professor stopping one of his subjects in the middle of a song while others went on with their pieces. Returning to the first one, the Professor commanded him to finish the song. The subject could not recollect anything for the moment, and Prof. Reynolds, throwing out his own hand, told him to sing on, for there, in his hand, was the music. The subject replied that he could not read notes, and was told by the Professor that the words were there too. The subject looked at the palm of the Professor's hand, *his face lit up with an intelligent* smile and he resumed the song at the exact place where he had left off several minutes before. There had been a complete stoppage in the memory during that time. Other equally wonderful things were done, and when Prof. Reynolds returns to town, as he announces he will do on December 17th, no doubt he will draw crowded houses. He goes to Lindsay from here.

"Y" "At Home" Saturday Night.

"Scotch night" was a decided success; it was pronounced by those who have attended all these gatherings, "the best of the series." An atmosphere of real sociability pervaded the entertainment. The young people, of whom there were a goodly number present, joined heartily in the games, growing positively hilarious at times. The unique feature of the evening was a duet, piano and bones, by *Miss* Lamsden and *Master* Bertie Brooks. The appreciation of the audience was so manifest that later in the evening another selection was asked for. Miss Sophia Cameron gave a comic recitation which was well received, while her song, one of those charming Scotch ballads, touched everyone. Cake and coffee, served by active and honorary members of the Association, would have dissolved the last particle of stiffness had there been any. The programme closed by the audience singing "Auld Lang Syne," led by the Y.M.C.A. orchestra. Those present will want to return and bring their friends. Just as good a time is promised next Saturday evening.

Murdered in Washington Territory.

This morning Chief Rossel received a communication from Walla Walla, Washington Territory, asking him to find one John Davis, a carpenter working here, and inform him that his brother, Thos. N. Davis, had been murdered near that city on Nov. 16th. The murdered man was a young Englishman, whose parents live in the old country. A newspaper clipping, giving a full account of the sad affair, was also enclosed. The writer of the letter, an attorney at-law, was not certain regarding the surname of the Davis living here, but expressed the hope that the right man could be found. The body of the murdered man was interred in Walla Walla after an inquest was held, at which no clue was obtained as to the perpetrator of the crime.

That $100 Reward.

It is to be feared that the offer of $100 for the arrest of the villain who committed the outrage on Wednesday last will not effect his capture. There are many reasons. Some persons decline to earn blood money. Besides, thousands of dollars have been paid out in rewards to the public by gough bros. since they went into the boot and shoe business. That is, the people have received a reduction in prices equivalent to thousands of dollars. And gough bros. are still at it. They still offer the grandest bargains in boots and shoes. There is no let up to their philanthropy. Day after day the rush continues for the wonderful bargains to be found at the store of the goughs, the wonderful cheap men, 375 george street.

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Liquor teas at one-half price, as I will not have space for them in my new premises. On Friday evening a musical and literary entertainment will be held in the school-room. Proceeds of sale and entertainment in aid of the Hazel Brae branch of Dr. Barnardo's Homes. sod

A Tumble in Teas.

Householders and hotel-keepers are urgently requested to note the advertisement of Mr. W. J. Morrow in this issue. A magnificent lot of fresh teas received, being sold at a sacrifice. Daily consignments of choice canned vegetables. Coffee ground fresh every day. Lowery's choice hams and bacon.

Committed for Trial.

Thos. Shouldice, of Harvey, charged with house-breaking, was this morning formally committed for trial by P.M. Edmison, chiefly on the strength of the prisoner's admissions of guilt to different parties as elicited in the evidence taken a week ago. The prisoner was allowed to find bail. —Several ladies were obliged to leave the church during service at St. Paul's Sunday morning on account of faintness. One lady quite fainted away.

—An excavation is being made at the intersection of George and Hunter streets to discover if possible the direct cause of the stoppage in the sewer.

A Grateful Member.

On 22nd October Mr. Wm. Collins, Secretary of the Agricultural Society, sent Mr. J. D. Naylor, of Fenelon Falls, a cheque for $41, the amount of his prize money. The cheque was made payable to order. It was never received by Mr. Naylor, and a strange circumstance is that about the same time another cheque sent him, for over $400, fortunately payable to order, also went astray. Payment of the cheque was stopped here and a new one made out after a month's delay. This was the first instance of any of the Society's cheques being lost. Mr. Naylor, in a letter, asks the Society to retain $3 as a voluntary subscription from him, and thanks the officers in warm terms for their kindness, fair treatment and gentlemanly conduct towards him on all occasions. Such words of commendations encourage the officers and show that their efforts to please are appreciated.

Your Opportunity.

G. C. Clark's clearing sale of clothing and gents' furnishings for the next two months will afford an opportunity seldom met with for obtaining first-class new goods at less than cost price. Suits—ordered clothing—from $3.00 to $5.00 less than former prices; overcoats and pants at same rate; 50 dozen ties at 15 and 20c.; shirts from 25c. to 50c. less than regular prices. This is a genuine sale, and an unequalled opportunity to secure bargains.

Grand Union Tea and Entertainment.

A grand union tea and entertainment will be given, under the auspices of Jubilee L. O. L., No. 178, Union Lodge, I.O.G.T., and the fourth line brass band, in the Union Temple, fourth line, Smith, on Tuesday, the 11th of December, 1888. Tea will be served from five to seven o'clock, after which addresses will be delivered by Revs. Ewing, Hough, Parker, and others. During the evening a good musical programme will be presented, in which the band will take part. Mr. J. R. Stratton, M.P.P., will occupy the chair. All are invited. 1d2w

The Costs of the Case.

Lindsay.

The new post office and customs building is progressing rapidly, the roof being begun. It will be a fine building.

A public meeting of citizens was called Tuesday evening to consider the advisability of spending $500 to obtain plans of a system of waterworks, for fire and domestic purposes, the water to be supplied from flowing wells, and also the practicability of a system of electric lighting in connection therewith. The attendance was decidedly slim, and a motion was unanimously adopted to the effect that, in view of the present indebtedness and high rate of taxation, it would be unwise to undertake any new works of this kind.

Mr. S. A. McMurtry, who is leaving Lindsay, was tendered complementary farewell suppers and valuable parting gifts by the carriers, the Oddfellows and the citizens in general.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

CLEVELAND BROTHERS, ALBANY, N. Y.

ROYAL BAKING POWDER

Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind and cannot be sold in competition with the multitude of low cost, short weight, alum or phosphate powders. *Sold only in Cans.* ROYAL BAKING POWDER, No 106 Wall street, N. Y. 1yd21w

Turnbull's Column.
This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer
Astrachan Caps at $1.00, $1.25, and $1.50,
—AND—
Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.
Who ever heard of Caps at such prices!

READY-MADE CLOTHING.
Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.
In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR
In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c or 20c. than we will. All other lines just as cheap. Our 25c. and 30c. Shirts are Starthers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.
When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

PROVINCIAL BOUNDARIES.

THE NORTHERN LIMITS OF ONTARIO AND QUEBEC.

Arrangements in Progress for a Meeting to Adjust the Questions—The St. Lawrence Telegraph System.

OTTAWA, Nov. 27.—When the Premier and Auditors of Ontario and Quebec were here some time ago for the purpose of endeavoring to settle the outstanding debt between these provinces and the Dominion it was mentioned in this correspondence that Mr. Mercier had an interview with Sir John with a view to arranging for a meeting for the purpose of trying to agree on the northern boundaries of Ontario and Quebec. It is now understood that arrangements for such a meeting are in progress and it is expected to take place shortly.

The Minister of Justice has three cases of capital punishment under consideration just now.

Surveys of Lakes Winnipeg, Manitobe, and Winnipegosis were made by the Interior Department last year and charts will be issued as soon as further data regarding adjacent land, etc., are obtained.

In the Exchequer Court yesterday morning the case of Clark and Barber v. the Queen was called and by the consent of the parties interested the hearing was adjourned sine die. In the case of Pouliot v. the Queen argument on demurrer was fixed for Thursday.

Representations having been made to the Government urging a further extension of the telegraph system on the north shore of the St. Lawrence towards the Straits of Belle Isle, it is probable that another section of the line will be undertaken next summer. It will be remembered that this was a private scheme of the late Senator Fortin and at his instance the Government has built about 300 miles of the line, from Sale St. Paul to a point beyond the Moisic River. It will require 400 miles more, a portion of which will have to be cable to reach Fortune Bay.

A petition containing over 3500 signatures has been received by the Department of Justice praying for the repeal of the Scott Act in the County of Victoria, Ont.

It is expected that the water will be let out of the Dominion canals about next Saturday.

Hon. J. A. Chapleau is reported somewhat better, but is still very unwell.

Hon. G. E. Foster returned yesterday from his trip to New Brunswick to be present at the death-bed of his father.

C. H. McIntosh returned to the city yesterday from a two weeks' trip to Winnipeg.

Parliament to Meet Jan. 24 or 31.

OTTAWA, Nov. 27.—Parliament will meet for the despatch of business on either Jan. 24 or 31. The matter was informally discussed by the Cabinet yesterday and a definite decision will be arrived at in a few days.

M. WILSON REAPPEARS.

The Deputies Adjourn as an Expression of Their Sentiments.

PARIS, Nov. 27.—M. Wilson, son-in-law of Vice-President Grevy, appeared yesterday in the Chamber of Deputies for the first time since his trial. After the transaction of some formal business M. Mesureur, alluding to the presence of M. Wilson, proposed to suspend the sitting for one hour, stating that the Chamber of Deputies would understand the reason.

M. d'Ornano, a Bonapartist, thought the Chamber ought to adjourn altogether.

M. Mesureur's motion was approved by a vote of 336 to 90.

On resuming its sitting M. Millerand moved that the Chamber, having given sufficient indication of its sentiments, return to the order of the day.

M. Wilson thereupon left the Chamber accompanied by M. Andrieux.

A Chinaman Roasen and Robbed.

MONTREAL, Nov. 27.—A brutal assault was made last evening upon a Chinaman named Sang Wah, who keeps a laundry at 286 St. Lawrence Main-street. About 5 o'clock two men entered the place, and while one of the ruffians set to work to beat the proprietor, the other rifled the till, and after securing $60 the scoundrels made off, leaving Sang Wah in almost a dying condition. No arrests have yet been made, and the life of the injured man is despaired of.

THE FISHERIES QUESTION.

MR. GOURLEY RECEIVES A CURT REPLY IN THE HOUSE.

The Debate on the Land Purchase Bill Resumed—Another Amendment Proposed by Mr. Parnell Rejected.

LONDON, Nov. 27. In the House of Commons last night E. T. Gourley (Lib.) asked if the correspondence on the American fisheries question was to be produced; whether it was the intention of the Government to negotiate for a new Commission, and whether in the meantime, owing to the difference of legal opinion relative to the treaty of 1818, it was intended to suspend the enforcement of these provisions.

Sir James Ferguson, Parliamentary Secretary for the Foreign Office, curtly replied: "The Government will not publish any papers nor make any statement on the subject at present. A modus vivendi is in operation."

W. H. Smith, the Government leader, replying to a question intimated that the Government under the present circumstances was unable to make any statement regarding the appointment of a minister at Washington.

Mr. Stanhope, the War Secretary, announced that British troops would be sent to Suakim if the naval authorities required support in driving the rebels inland.

The House then went into committee and the debate on the Land Purchase Bill was resumed.

Mr. Parnell proposed an amendment to the effect that no money be advanced for the purpose of more than one holding, if such holding were rated at not less than £20 yearly. He urged that the adoption of his proposal was necessary in order to provide for a useful distribution of this parliamentary grant. The sum ought to be husbanded and used as far as possible to establish a genuine peasant proprietary.

Mr. Balfour replied to Mr. Parnell. This was his first appearance in the House since his sickness and when he rose to speak he was loudly cheered. He contended that Mr. Parnell's amendment if adopted would interfere with the smooth working of the plan of sale. The men who had various holdings were as a rule the flower of the country, they were thrifty, energetic farmers who saved money for the purpose of land investment. It would be unwise to exclude these men from the benefits of the act. Besides it was a great convenience to both the landlords and the tenants when an estate was sold as a whole.

Mr. Sexton contended that unless the amendment was accepted a new class of small landlords would be created, giving trouble in the future.

At this point David Sheehy, member for South Galway, a Nationalist, stopped the debate, appealing to the chairman on a question of privilege. He stated that he was leaving the House when an attendant handed him what appeared to be an ordinary visitor's card. Upon going into the lobby a constable from Ireland served him with a summons under the Coercion Act. He moved to report progress in order to give the House an opportunity to discuss this audacious breach of privilege.

Mr. Balfour deplored the incident and did not know under what authority it had happened. He entirely disapproved of such measures occurring within the precincts of the House. ("Hear! Hear!")

Sir William Harcourt held the Government responsible for the instructions which had been given the constable serving the summons. The dignity of the House was affronted by it and an inquiry was therefore necessary.

Mr. Balfour disclaimed responsibility for the act and stated that he would give an emphatic pledge that so far as the Irish Executive was concerned the incident would not occur again.

John Morley proposed that a committee be appointed to enquire into the circumstances of the incident. Mr. Smith consented and a committee was appointed including Sir William Harcourt, Mr. Morley, Sir Charles Russell, Mr. Parnell, Mr. Timothy Healy, Home Secretary Matthews, Mr. Goschen, Mr. Madden, Sir Edward Clark and Sir Walter Ridley.

A vote was then taken on Mr. Parnell's amendment and it was lost, 154 to 111.

A Warrant Issued for Mr. Harrington.

DUBLIN, Nov. 27.—Edward Harrington, M.P., failed to appear in court yesterday in answer to a summons charging him with inciting tenants to adopt the plan of campaign through his paper, The Kerry Sentinel. His counsel applied for a postponement of the case in order that Mr. Harrington could attend the sitting of the Parnell Commission in London. The magistrate refused to grant the application because the inciting continued. A warrant has been issued for Harrington's arrest.

Six Summons for Mr. Finucane.

LONDON, Nov. 27.—Six summons were served upon Mr. Finucane, M. P., last evening as he was entering the House of Commons. Detectives were waiting to serve summons on other Irish members, who are to be prosecuted for intimidating farmers who have taken holdings from which tenants have been evicted.

Chocolates Sprinkled With Yellow Powder Turn Up in a Dead Letter.

OTTAWA, Nov. 27. What is either another case of attempted poisoning by means of candy or a silly joke of some Toronto crank has just been brought to light by the officials of the Postoffice Department. A few days ago there reached the dead letter office here a small cardboard box addressed to an individual at Galt, Ont. The package had been sent letter postage from Toronto, but only bore a one cent stamp, and consequently, being short of postage, was forwarded to the dead letter office for additional postage. On being opened by the officials to discover, if possible, the name of the sender, the following appeared on a piece of paper about four inches square, evidently written by a female:

"Charles—I send these with my love. Meta murdered. HANNAH.

"I defy you to show these to Mat Howie. I curse the day I ever saw you. Eat of these and die, you cowardly villain."

An examination of the box was made yesterday and it was found to contain three or four chocolate creams, which had evidently been broken before being placed in the box. The white, creamy substance, probably congealed from exposure, had been well sprinkled with a yellowish powder having something of the appearance of insect poison. The precise number of the candies cannot be ascertained, as they were separated in about a dozen or fifteen pieces.

The box is one of ordinary cardboard, 3½ by 2 inches. The address was evidently in a female hand-writing, as also the word "Hannah" on the bottom of the receptacle. There has been no little discussion among the officials here as to whether the candies were sent in a joke or in earnest. The Postmaster-General has the matter under consideration and will decide in a day or two what to do about it.

CHICAGO, Nov. 27.—The steamer Gratwick, whose crew is supposed to be afflicted with smallpox and one of whom died after leaving the boat at Buffalo, arrived from the latter place off South Chicago yesterday morning. The vessel was not permitted to come to her dock.

Striking Coal Miners on Strike.

BRUSSELS, Nov. 27.—The strike of Belgian coal miners is spreading. Gendarmes and guards are patrolling the troubled districts.

TORONTO TOPICS.

A Gambling House Keeper Fined—Poor Lilly Charlton—A Crook in Quod.

TORONTO, Nov. 27.—Charles W. Chesson, the young man who keeps the house No. 21 Mercer-street, where young Payne of Illinois lost $140 at poker, surrendered to the police yesterday, and upon pleading guilty to a charge of keeping a gambling house was fined $50 and costs or thirty days' imprisonment.

A cripple giving his name as William Brennan was arrested yesterday on a charge of vagrancy. It is thought that his real name is Lownaboroughs, that in 1873 he was tried with a man named Francis Smith on a charge of having killed one Currie, on which he was acquitted; that a year or so afterwards he was sent to penitentiary for robbery, and that after serving three months he escaped and fled to the States, where he lost a leg while railroading.

The case against Herbert E. Simpson, photographer, charged with illegally using Mrs. Pierce's gas, was dismissed by the Police Magistrate yesterday, the evidence failing to support a criminal charge.

The young girl Lilie Charlton, on whom there was an abortion performed, is still lying at the point of death at her widowed mother's home, No. 85 Sackville-street, and although apparently not suffering as much as she did Sunday night she is evidently weaker and steadily growing worse. Dr. Valentine was too ill at the jail to put in an appearance at the Police Court yesterday and the other prisoner charged with the crime, young Ally Wilkinson, was remanded until Dec. 3, bail being refused. Druggist John O. Wood, who is wanted in connection with the case, cannot be found.

Draughtsman McMinn of the Waterworks Department has resigned.

On Saturday a man named John Crocker was arrested at Port Credit on a charge of having stolen a horse and buggy from Wm. Stock of this city. When the prisoner was brought before the magistrate yesterday his counsel got him remanded to jail for a week to sober up. It appears that the young man is highly connected, and was sent from New York to this city to be treated for dipsomania. He, however got drunk, became delirious, and while in this condition jumped into Mr. Stock's rig and drove away to escape from the devils that were pursuing him.

The firm of Lowden, Paton & Co., wholesale druggists, is on the point of dissolution and liquidation and a chequered career will be closed. John Paton was taken into the firm about fourteen months ago and has sunk $25,000 in the concern. He has instructed his solicitor to take proceedings against Mr. Lowden for obtaining money under false pretences, claiming that misrepresentations were made to him when he entered the partnership.

Fred. A. Clarry of Parkdale, whose prosecution for selling tickets in his lottery, called Clarry's Grand Villa Sweepstakes, is still fresh in the public mind, was arrested yesterday, charged with running a lottery.

Mid-Winter in Montreal.

MONTREAL, Nov. 27.—Sunday and yesterday a characteristic November wind and snowstorm has prevailed at Montreal. The wind began from the northeast and attained a maximum velocity of 46 miles per hour. Snow began falling late in the evening and continued falling until about 9 o'clock yesterday morning, when it was blowing at a mile a minute steady, with a few gusts as high as 72 miles per hour. The snow piled up in great drifts and the streets had a mid-winter look, sleighs making their appearance pretty generally, though the windswept many places bare.

Belleville Briefs.

BELLEVILLE, Nov. 27.—At the Police Court yesterday morning Henry Godfrey, found guilty of horse stealing, was sentenced to two years in the penitentiary.

Stephen Cummins was yesterday fined $10 or 30 days for having fowls in his possession for the purpose of fighting.

The case of Mary Champagne against Edward Caton, charging him with seduction, has been adjourned until Dec. 3.

It being found that the work performed by the Grand Trunk Railway employes on Sunday was a necessity, the case against them has been dismissed.

TRADE AND TRAFFIC.

Leading Features of the Grain and Produce Markets at Home and Abroad.

TORONTO, Nov. 27.—St. Lawrence Market was flat yesterday morning. The supply was small and the demand nil.

The receipts of hay and straw were small and the demand was poor. Hay sold at $20 to $23 and straw at $14 to $15.

The street grain market was active. Receipts of wheat were small and the demand fair; 400 bushels were offered and sold at $1.06 for fall, spring and red, and 67 and 68 cents for goose. The supply of barley was fair, but the demand was not large, and the price came down a little; 5000 bushels were offered and sold at 62 to 67 cents. The price of oats was a little easier, 200 bushels selling at 38 and 39 cents.

On the Call Board $1.25 was bid for No. 1 Manitoba hard wheat, with sellers offering at $1.25 to arrive. No transactions were made.

Eggs are 25c per dozen. Tub butter is 18c to 23c and rolls 22c to 27c.

LIVERPOOL MARKET.

Liverpool reports:—Wheat, dull; demand poor; holders offer freely. Corn dull; fair demand. Spring wheat, 8s 2d.; red winter, 8s 1d; No. 1 Cal., 8s 2½d and 8s 3d. Corn, 4s 9d. Peas, 5s 1d. Pork, 82s 6d. Lard, 47s 0d. Bacon, short cleared, 47s; long cleared, 45s. Tallow, no stock. Cheese, white, new, 55s; colored, 53s.

BEERBOHM'S REPORT.

Beerbohm reports: Floating cargoes—Wheat very dull and steady; corn nil. Cargoes on passage—Wheat very inactive, corn steady. Mark Lane—Wheat a turn easier; corn quiet; flour a turn easier. Good cargoes No. 1 Cal. wheat off coast 41s 6d and 41s 9d, was 41s 9d. Liverpool—Spot wheat very dull; corn quiet. Corn prompt; steamer, 28s, was 22s 6d. French country markets dull. English farmers' deliveries of wheat during the past week, 54,432 qrs.; average price, 31s 9d was 31s 11d.

THE CHEESE MARKETS.

The Utica market yesterday was not very active for cheese. Many lots were closed out altogether while others were left to be finished up next week. The usual number of large factories were still making skim cheese and will probably continue until into December some time, but next Monday will finish up the market days for this season. Factorymen are congratulating themselves on the successful ending of the season and the fine prices they are getting for late ends. Following is a list of sales: 1619 boxes at 10c., 265 boxes at 10½c., 150 boxes at 10¾c., 698 at 10½c., 115 boxes at 10¾c., 410 boxes at 10¾c., 425 boxes at commission.

At Fulton 2660 boxes of cheese were sold at 10c. and 11c.

THE WORK OF THE STORM

NEW ENGLAND'S COASTS STREWN WITH WRECKS.

A Worcester on the Atlantic—The Fated Crew of the Edward Norton—"On the Roof of Norman's Woe."

BOSTON, Nov. 27.—The schooner Mattie A. Eaton, hence for Port Spain, is ashore on Nantasket beach full of water. The schooner Avalon, St. John for New York, dragged ashore on Spectacle Island on Sunday. She will probably float when the weather moderates. She experienced terrific weather in the bay. Three of the crew were washed overboard and lost. Their names were Charles Blackford, John Doucelle and James Todd, all of Tiverton, N.S. The schooner Cox and Green from Philadelphia is ashore here and reported to have bilged. The schooner Bertha F. Walker from Philadelphia is ashore at Hull. Captain Westgate and the first mate were lost. The schooner Gertrude Abbott of Philadelphia is also ashore here.

At Danvers, Mass., the storm is the worst ever experienced at this time of year. The wind blew a hurricane and the snow drifted to the height of three and four feet. Horse cars were abandoned all along the line and religious services at the churches were abandoned last night.

At Portsmouth, N.H., the schooner Oliver Dyer of Sees went ashore at Joy's Point, Newcastle, yesterday morning. The crew took to the rigging and were rescued by the life-saving crew with the exception of the cook, who was drowned. The vessel will be a total loss. The schooner James H. Deputy of Bath is ashore at Newcastle, but will be gotten off. An unknown schooner is ashore on Clark's Island high and dry.

At Salem, Mass., reports of damage by the storm, which continues with unabated fury, continue to come in. The yacht Gracie went ashore at Ormes' Point and was badly stove. The schooner Richard Derity of Sedgwick, Me., broke her moorings and drifted ashore at the Willows where she lies high and dry and will probably go to pieces.

At Gloucester, Mass., the British brig Alice, of Lockport, N.S., which was at anchor inside of Ten Pound Island, went adrift on Sunday and her crew abandoned her Sunday night and went aboard of the schooner J. and J. Locke of Barrington, N.S. The J. and J. Locke afterwards went adrift and the two crews abandoned her and went on board of another schooner, where they remained all night. Both the Alice and the Locke are supposed to be lost as they drifted to sea.

The beach in the neighborhood of Norman's Woe is strewn with wreckage, consisting of lumber, lath, barrels, etc. Several vessels that lay in the outer harbor are missing and it is supposed that they have drifted to sea. Several could be seen from Stage Fort with colors in the rigging signalling for tugs. The northeast storm still continues with unabated fury. The snow has changed to rain and the weather is so thick that it is almost impossible to see more than 200 yards from the shore. The wires of all the telegraph companies are down and no communication by telegraph can be had with Boston or any of the adjoining towns. It is feared that great damage has been done to shipping along the coast. There have been numerous minor accidents in this harbor. The storm is of longer duration than any known here for years.

As far as can be learned here the names of those lost on the schooner Edward Morton are Captain Frank Curran and his son, 14 years old; Michael McDougall, Patrick Mullaly, Michael Curran, James Brown, D. Lafferty, Lawrence Flaherty, John Hornish, Lawrence Bennett (colored), Archie Campbell. There were probably four or five others on board, supposed to be Nova Scotians, whose names could not be ascertained. Lawrence Allen, one of the crew, is the only one known to be saved. He reported in person this morning to the owner.

There Has be Worse News to Come.

NEW YORK, Nov. 27.—This city and the surrounding neighborhood are still suffering under the storm which raged over almost the entire country Sunday and more especially Sunday night. Until noon it was drizzling and blowing in New York, and going about was most disagreeable. The force of the storm was shown by the number of broken telegraph and telephone wires seen everywhere, and by the damage reported along the river front. Telegraph and telephone communication with a great number of other places were cut off and telegrams were only received subject to indefinite delay. But according to Sergeant Dunn, the officer in charge of the signal service bureau in this city, the worst effects of the storm may not yet have been reported. He said:

"The storm is a very destructive and extensive one. It is now clearing off, the storm centre having passed us in a northeasterly direction, following the course of the steamer line. Steamers coming from Europe—those which left the latter part of last week—will encounter it in its full strength. The steamers leaving later were warned by this bureau from Washington via Paris and London of the storm and its direction and were therefore prepared in time to change their course. The area of the trouble has been a very extensive one, covering the entire coast from Florida to Nova Scotia."

Driven From Their Homes.

ATLANTIC, N. J., Nov. 27.—The terrific storm which began Sunday continued all through the night with increasing fury and is still raging and spreading destruction from end to end of the ocean boulevard. Houses, galleries and cottages were broken to pieces. Should the gale continue it is predicted that to-night's tide will complete the work of destruction along the ocean front. Many of the owners of the properties destroyed are non-residents and in the confusion and excitement of the hour an accurate estimate of the losses cannot be made, but they will be very heavy.

There have been many narrow escapes from drowning but so far no lives have been reported lost. Residents along the greater part of Baltic-avenue were compelled to use boats to get away from their flooded houses and many distressing scenes were witnessed during the night as the poor, badly frightened and in many cases scantily clad inhabitants, mostly colored people, sought safety and shelter from the rising water and the blinding hail and howling wind.

Manhattan Beach Disasters.

MANHATTAN BEACH, Nov. 27.—About 1 o'clock yesterday afternoon the esplanade, which runs along the whole front of the Manhattan Beach Company's property abou 700 feet, was thrown into the air and destroyed from one end to the other. Immediately afterwards the depot at the west end of the marine railway was swept out to sea bodily and in a few minutes more fully one-third of the track of the road was carried away. The Brighton pavilion was partially carried away and it is feared the rest of the building and what is left of the marine railroad and the east end depot will go at the next high tide if the storm continues.

The Quebec Boodle Enquiry.

QUEBEC, Nov. 27.—In the boodle enquiry yesterday a number of witnesses were examined, amongst others Mr. Landry, ex-M.P., who deposed that when he was contributing the articles to The Nouvelliste charging the mayor and councillors with illegally receiving money in connection with the waterworks contract, they had offered Mr. Langelier to publish any reply he had to make in their columns, and he never took advantage of such offer.

Music at the Barracks.

The Famous Household Troops' Band in Town—A Night at the Barracks.

Last night the grand band of the Household Troops of the Salvation Army, London, Eng., paid a visit to Peterborough, and the occasion was one long to be remembered by the Salvationists. The band arrived on the 5.15 train from Bowmanville and marched to the barracks, escorted by the local officers and troops. The band numbers 27 instruments, nine of which are cornets, and the music they produced, though not brilliant or refined, had plenty of volume and soul-stirring melody. The uniform of the band is neat and attractive. Arrived at the barracks, they were given a substantial supper—a much-needed repast, too, as they had only had a light breakfast before leaving their last station.

In the evening the band, followed by the troops, paraded the principal streets, and afterwards proceeded to the barracks. The building was crowded to the doors. Among the officers of the division present, besides those mentioned in Monday's EXAMINER as participating in the farewell to Adjt. Bolton, were Captains Maida, Wale, Campbell and Kempt, and Lieutenants Westmore, Brett, Smith, Bruff, Flowers, Spencer, Boyler and Purdy. Staff-Capt. Bolton and Capt. Howell were also present and assisted.

The proceedings consisted of instrumental selections and vocal choruses by the band and addresses and solos by individual members. The band boys are all musicians, and can sing as well as "toot" their instruments. Staff-Captain Appleby, bandmaster, is a first-class cornetist, having for years been in the English army. He led the meeting and gave an interesting address, in which he defined the object of the band's visit to Canada. It was not to make money and take it back to England with them, as many seemed to think; no, they didn't get a cent for coming to Canada and they weren't taking a cent back with them. Another idea was that they had been organized especially for this trip. That was not so. One year and eight months ago General Booth had advertised for men able to play instruments who were willing to give up all and follow the Master. He got 160 men, and from these organized two large bands to travel about the country and assist the Army work. These bands didn't have any fine time running about, either. The men left good positions where they were earning a comfortable living, forsook their families and broke all ties of friendship to work for the Master. Not one of them received a cent of salary, and they had to put up with whatever accommodation they could get. Often they were obliged to sleep on bare boards and often they went without their meals; this band had walked 2,800 miles since it was organized, as much as 318 miles in a week, and as much as 26 miles in a day. Many of the brave lads had plodded on with blistered feet and weary bodies—all for the purpose of carrying the Gospel tidings to their fellowmen. Some people would say, what fools they were! And so they would be if they did all this for General Booth without salary. But, apart from General Booth (whom the Lord bless) and the Salvation Army, they loved Christ and were living for Him. When Commissioner Coombs was in England and heard the band he thought it would be nice to have them over to help him raise some $3,000 he was in debt on account of overdrawn sick and relief account. The home in Toronto for sick-listed officers cost a great deal and they were in debt. So the Commissioner promised to have them over, and here they were. They were delighted with the warm sympathy and kind appreciation they met everywhere in Canada, and would be sorry to leave. He hoped the people of Peterborough would subscribe $100 towards this debt.

Then subscriptions and collections were taken up and a considerable amount raised.

Before making a closing address Staff-Capt. Appleby announced song No. 13 of the special song-book, entitled the Salvation Army Alphabet. This, he said, had been composed by a young man of 22, who was converted at Dumfries, in Scotland, the very night he was planning to commit a robbery. Though so young, he had been committed to gaol about 75 times and had spent eleven years of his life between prison walls. After the band had sung the beautiful song the Staff-Capt. made an earnest appeal to the unconverted to seek pardon at once and fall at the Master's feet.

The meeting was then concluded.

The band went to Lindsay to-day.

Card of Thanks.

To the Editor of the Examiner:

DEAR SIR,—I wish to give public expression to my feelings of gratitude towards the Rev. Father Kelly, of Keninmore, for his constant attendance at the bedside of my dear son, Michael Henry Moher, during his eight days' illness prior to his death. No father could be more attentive or anxious for the recovery of his son, nor could a spiritual adviser be more zealous in preparing one of his members for a happy death and a favorable judgment. His words of consolation to the distracted widow and relatives I shall ever treasure in my bosom and carry to my grave. Long may he be spared to continue his good work of charity, in imparting consolation to the afflicted souls under his spiritual care.

To the immense gathering of kind friends from far and near, many of whom, at great personal inconvenience, assembled to honor the dead and to sympathize with the bereaved—to those, one and all, I return my most sincere thanks, and pray that God, in his infinite mercy, may prolong their lives and the lives of their families, and in the end grant them a happy death.

WILLIAM MOHER.

A Dictionary of American Politics.

Comprising accounts of Political Parties, Measures and Men; Explanations of the Constitution; Divisions and Practical Workings of the Government, together with Political Phrases, Familiar Names of Persons and Places, Noteworthy Sayings, etc., etc. By EVERIT BROWN AND ALBERT STRAUSS, 565 pages.

"It is for those who are more or less interested in the politics of the United States, but who have neither time nor opportunity for seeking information in various and out-of-the way places, that this book has been prepared. The main facts in the political history of the federal government from its foundation to the present moment are given under appropriate headings and in alphabetical order. There are also accounts of the origin and meaning of political slang expressions, familiar names of persons and localities, famous phrases, and the like."—*Author's Preface.*

SENATOR JOHN SHERMAN says: "I have to acknowledge the receipt of a copy of your 'Dictionary of American Politics'. I have looked over it, and find it a very excellent book of reference, which every American family ought to have. The introduction of the important documents of our history, like the Constitution and the Declaration of Independence, will give it great value. It contains in convenient form the elements of American history arranged in alphabetical order.

Two Cases of Local Interest Before the High Court of Justice in Toronto on Saturday.

Queen v. Fife.—Motion on behalf of defendant by way of appeal from the order of *Armour, C.J.*, refusing to grant a writ of certiorari to remove a warrant committing the defendant to stand his trial for burning a fence which the prosecutor claimed to own. W. M. Douglas for the motion. No one showed cause. Granted.

Fitzgerald v. Midland Railway Co. and the G.T.R.—Motion on behalf of the defendants, the Midland Railway Co., by way of appeal from the order of the Master-in-Chambers refusing on application to set aside an interlocutory judgment, entered by plaintiff on default of appearance. Service of the writ was effected on Mr. Geo. A. Cox, Vice-President of the company, and three or four days thereafter he transmitted it to the solicitors of the company, who inferred, from the letter accompanying it, that it had been the same day as received by them served upon Mr. C. The action is brought to recover $1,000 damages in respect of an embankment constructed and kept raised by the defendants as a road-bed for their lines of railway over and across Smith and Benson streets, public highways in the town of Peterborough, and immediately off plaintiff's premises; for an injunction restraining the defendants from continuing to maintain the said road-bed and embankment, and for a mandamus to compel arbitration, etc. Douglas Armour supported the motion. Masten showed cause. Stands until Monday (a motion on behalf of the defendants, the G.T.R., being returnable on that day before the Master in-Chambers to postpone the trial), that the court may be advised of what action the co-defendants will take in the matter.

MONDAY.

Fitzgerald v. Midland Railway Co. and G. T.R.—Motion on behalf of defendants, the G.T.R., to set aside notice of trial served by plaintiffs as irregular. Aylesworth for the motion; Masten, for plaintiff, contra.

Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nervilline. It is safe to say that nothing yet discovered has afforded equal satisfaction the to the suffering. A trial can be made at a small cost, as samles bottles of Nervilline can be had at the drug stores for 10 cents, large bottles 25 cents 6d48w

DARING AND SUFFERING.

[CONTINUED]

Buffum followed after him and got over the fence with difficulty, but though a very brave man and a hard fighter, he was a poor runner. One Confederate, who was quite swift footed, kept right after him, gaining considerably, and threatening to shoot him if he did not stop. To this Buffum paid no attention, for a running man has an unsteady hand and no certain aim, but he soon stopped because of exhaustion, just as the man overtook him. Now Buffum thought it the right time to try his "Yankee wit;" so he threw himself down and said: "I am so done out that I can go no further; you run on and catch that fellow," pointing to a fugitive running a short distance ahead. But the man saw the design, and with a great oath declared that he had him now and meant to keep him. Poor Buffum was allowed a very brief time to rest, and then was marched back again to the prison. I have scarcely a doubt that if he had not waited to unlock the doors he would have made good his own escape.

Capt. Fry and myself were close together in going down the stairs, he being a little in advance. At a glance he saw there was no chance in the front yard—the way we had intended to take—and at once turned to the back door, which was left open by the passage of the rebel deserter. He got over the wall with little effort, but finding himself chased as Buffum had been, he used a little strategy: A good many shots were being fired in all directions, and he suddenly threw up his hands and fell flat. Those who were following him passed on after unwounded game, and when the way was clear he arose and resumed his course. He was seen again and had a most desperate chase, but reached the shelter of the friendly woods.

At no time in all my southern experience did I find defective vision to be such a dreadful misfortune as just now. My eyes were easily dazzled by a sudden increase of light, and as I came out of the obscurity into the broad light, for some seconds I could scarcely see at all. In this interval I was parted from Fry by running to the front door according to our original plan. There were two frightened guards in the gate tossing their guns about and seeming not to know what they should do. These were not dangerous looking and I ran up to them—for now the power of seeing had come back; but just as I was about darting out of the gate I saw the stream of guards outside. They called on me to surrender, but I was not ready for that and hurried back into the yard. A sentinel tried to shoot me at point blank range, but, fortunately, his gun failed to go off. I got back into the jail and now started out the back way—the course I should have taken at first. There were a number of guards in the back yard by this time, but in the confusion I got through them and to the top of the fence. What was my dismay to see a considerable number of self possessed soldiers outside waiting with lifted guns to shoot any one whose head might appear above the fence. I jumped very quickly down on the inside. One hope yet remained. I ran into the building and out at the front door, thinking that now the front gate might not be guarded, and that in this least likely way I might slip through. But it was vain; a large number of soldiers were on the ground and they were being carefully posted. I saw that the first panic and all the advantages of surprise were over. I ran back into the jail to try the back door once more, but a sentinel was now standing at it and several soldiers followed me into the building. I did not care whether they fired or not, for I now utterly despaired. I went up the stairway, the guards not molesting me, and looked out at the chase which was continuing over the adjacent hills.

It was a wild and exciting spectacle. Company after company of soldiers came up. The bells of the city were ringing, and shots were being fired rapidly, while loud commands and screams were mingled. I feared that many of our number were or soon would be killed. Then I left the window and went to the front room where the prisoners of war were, and to my inexpressible surprise found that they had not gone out of their room at all! They said that there was too much risk in it—that it would not be possible for any one to get off.

Parrott and Reddick were captured inside the prison yard and Buffum outside. Bensinger, who had been so gallant in the struggle in the jailyard, had a fearful experience afterward. After the first race for the woods he was discovered by some men with dogs. For some three hours they pressed him sorely. He could get out of sight of the men, but the hounds clung to his trail, like bloodhounds as they were! When wearied almost to death, he found a stream of water, and by running for a long distance in that, was able at last to get away from them. But he was utterly exhausted in this long and critical chase, and, being alone, was in no fit condition for the terrible journey that lay before him.

The next evening he went to the negro quarters on a plantation and was received by the slaves with the sympathy they were always prepared to extend to fugitives. But the planter also saw his approach, and, coming unawares upon Bensinger, revolver in hand, forced his surrender. A messenger sent to Atlanta brought a company of cavalry very promptly, and we had the melancholy pleasure of welcoming back our comrade.

Mason was brought in shortly after, and the account stands: Six recaptured, and eight of our own party, with two others—Capt. Fry and the deserter—escaped. This was a better result than we had any good right to anticipate, when planning the attempt.

The most lamentable part of the story was the case of Barlow, a young East Tennessee soldier, who alone attempted to go with us. He was only 18, but brave and very amiable. No harm came to him in the fight, but in jumping down from the fence he broke his leg just above the ankle, and was dragged back to his cell in a very rough manner. No attention was paid to him till the next morning, and very little then. He died from the injury after enduring great suffering.

From the window where I was I had a good view of the proceedings below. In a short time all the force of the place, including a regiment of cavalry, was drawn up in front of the jail. I heard Col. Lee directing the pursuit. He was in a towering passion, and shouted out his orders in a very angry tone. Said he: "Don't take

FLIGHT TO THE WOODS.

one of the villains alive. Shoot them down and let them lie in the woods." He ordered pickets to be placed at the ferries of the Chattahoochee, along the railroads and at all cross roads. I was glad to hear such arrangements, for these were the very places we had agreed to avoid!

All night long the guard talked over their adventures. There was a hammock belonging to one of the prisoners in the front room, and this he kindly permitted me to occupy. It was suspended right before the window, and I could hear and see much that was going on. The guards had their reserve around a camp fire close by, and I could hear their discussion of their parts in the affray. Generally they lauded their own bravery to the skies, telling how they had served the prisoners who had broken out upon them. Occasionally one who had been present then would suggest that it did not show a great deal of bravery to let unarmed men snatch their guns from them, but such hinted slanders were always received with the contempt they deserved, and the work of self praise went on. One wondered at the speed of the Yankees who had been kept in prison so long. Another, of a philosophical turn of mind, accounted for it by saying that they had received so much practice in running away in all the battles they had fought, that it was no wonder they were fleet of foot! This sally received prodigious applause!

This was a doleful night. As I heard one after another of the guards tell how he had shot one of the prisoners, how another had been wounded and had no doubt crawled off somewhere to die, and speak of the great preparation for the search, it did seem very doubtful whether any would survive.

(To be Continued.)

Shocking Accident.

So read the headline of many a newspaper column, we peruse with palpitating interest the details of the catastrophe, and are deeply impressed by the sacrifice of human lives involved. Yet thousands of men and women are falling victims every year to that terrible disease, consumption (scrofula of the lungs), and they and their friends are satisfied to believed the malady incurable. Now, there could be no greater mistake. No earthly power, of course, can restore a lung that is entirely wasted, but Dr. Pierce's Golden Medical Discovery will rapidly and surely arrest the ravages of consumption, if taken in time. Do not, therefore, despair, until you have tried this wonderful remedy.

LIFE ASSURANCE COMP'Y OF CANADA.

HEAD OFFICE, MONTREAL.

Both in Magnitude and Profitableness, the Business for 1887 has been almost everything that could be desired.

The life policies now in force are 7,128 for $10,873,777.69, on 6741 lives. We have moreover $3,207,600 00 insured under 1,840 accident policies, so that the total current contracts of the Company are 8,969 for $14,081,377.69.

The income for the year shows the very large increase of $122,331.23 over the figures of 1886, the total being $495,831.54. The revenue is now half a million dollars per annum, or as mentioned in the report, over $1,600 for every working day in the year, and even this he believed was but a mere introduction to what it will be in a few years hence. The gains from time to time are well illustrated by the following table:—

Period	Gain in income.	Gain in assets.	Gain in assurances.
1872 to 1876, four years	$ 54,611 21	$169,482 69	$1,149,743 00
1876 to 1880, four years	28,580 67	195,186 29	1,197,386 14
1880 to 1884, four years	136,976 84	363,264 31	2,982,924 90
1884 to 1887, three years	217,451 89	475,697 24	4,029,373 65
Total in 1887	$495,631 54	$1,750,004 48	$10,873,777 69

It is very pleasing to notice that the gains for the last three years only are 60 per cent. more than those of the preceding four years.

TUESDAY, NOVEMBER 27, 1888.

LOCAL NEWS.

The Weather.

Fresh and strong north to north-west winds, partly cloudy and slightly milder preceded by light falls of snow or sleet in the southern portion.

Ashburnham Brevities.

Mr. H. Calcutt is having additional sheds erected at the brewery for storage of barrels, boxes, etc., in connection with his business.

It is thought that there should be two more letter boxes in the village, one for the convenience of the residents of the south and east of the village, and one at the north. The only one at present is that at the corner of Lake and Elisabeth streets, giving persons at either extremity of the village a long distance to go to post letters or papers.

The authorities of the Mark street church are having a tile drain sunk for the purpose of draining the basement of the church in order to protect the walls.

There was a ball in the town hall last night, gotten up by a combined party made up of some of the youth and beauty of the town and village. The dancing was kept up till the wee sma' hours. Some of the residents in the immediate vicinity of the hall say they lose their rest through the noise of these dances and threaten to petition the council not to rent the hall for such purposes. However, this would be severe on those who enjoy themselves by a trip of the "light fantastic toe." There is no doubt the management of such affairs should use discretion and not allow boisterous persons to cause undue noise and disturbance.

Personal.

Rev. Wm. Johnston, of Omemee, was in town to-day.

Mr. Jas. Alexander, of F. S. McKinnon & Co., Toronto, is in town to-day.

Prof. Robertson, of the Agricultural College, Guelph, arrived in town to-day. He will address a meeting of cheesemakers at the Cherry Grove factory this afternoon, at the Lakefield cheese factory this evening, and at the North Smith factory to-morrow afternoon. He will address a series of meetings throughout this district, continuing for about a week, the dates of which have already been announced in the EXAMINER.

News Nuggets.

—Mr. K. Brown's trotting horse performed an acrobatic feat last night on George street by rearing up and taking a back handspring—or footspring, rather—in the harness. Fortunately no damage was done.

—Uneasy consciences must have prevailed last night amongst pedestrians who recollected the Bible proverb: "The wicked shall stand in slippery places." The streets were uncomfortably slippery last night.

—In order to correct a misunderstanding we wish to state it was a Mr. Joseph Wyatt, of Ashburnham, who was fined in the police court last week for using abusive language to H. Pace. On account of the similarity of names a false impression was conveyed.

Very Gratifying Success

Of Mr. H. LeBrun's Clearing Sale

The great success which has so far attended the clearing sale of Mr. H. LeBrun, shows that the public have confidence in the sale being a *bona fide* clearing sale at the promised reductions, a genuine reduction in price of first class goods. The great success of this sale shows that the public know when they are getting real bargains in the best of clothing and furnishing goods. Meantime the public should remember that the sale still continues and that goods of excellent quality are being offered at great reductions.

Important.

We have just been advised, and we are sure the people of Peterborough will be pleased to know, that A. L. Davis & Co. have decided to put the whole of their stock of books, stationery and fancy goods on the market at cost price, commencing 1st December, and their stock, being in such good condition, the public are sure to get dollar for dollar. This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

A Bicyclists' Trouble.

Last Sunday the roads were hard and smooth and in prime condition for bicycling. A local wheelman left Peterborough in the early morning and enjoyed a bracing run to Young's Point. After a short rest he began the return trip, but when about four miles from the village the backbone of his wheel broke and rendered the machine useless. There was nothing for it but walking, so, gathering himself together, he made a brave start, pushing his wheel ahead of him. On the tramp he met a number of vehicles—going the wrong way, of course—whose occupants' laughter and jeering questions if it was "too cold to ride," but increased the miseries of the long, long walk. He arrived in town, close behind his wheel, about dusk, footsore and weary, and it is safe to presume that at least one church attendant that night was not in an exceedingly amiable or worshipful frame of mind.

Children Cry for Pitcher's Castoria.

A Pleasant Evening.

The Endeavor Society of Charlotte Street Methodist Church held its regular meeting last evening. The attendance was larger than at any previous meeting. Mr. A. Tebb, president of the society, occupied the chair. Business of considerable importance was transacted, including the engagement for January of John E. Clarke, the eloquent boot-black orator. His subject will be, "Gough, in humor and eloquence." Mr. Clarke is now in Albany, N. Y., delighting thousands with his matchless eloquence. Arrangements were made for a joint entertainment with the Y. P. A. of George Street Methodist Church, and Messrs. H. Stock and T. Barrie were selected as the debaters for that occasion. The programme was short but exceedingly interesting. Mr. Herbison, secretary Y.M.C.A., gave a very fine reading, which was followed by an able essay on "The Pleasure Dance," by the ex president of the society. Wonderful interest was taken in the programme throughout. The meeting closed with the doxology and benediction.

The Drop in Wheat.

Business generally will, no doubt, be affected by the big drop in the price of wheat. If the farmers do not sell their wheat, and they will hardly do so on a falling, or rather tumbling, market, the farmers will have no money to spend with business men; or if they have a little they will spend it to the best advantage, and that will be by buying their boots and shoes of gough bros., the wonderful cheap men. At their shop, 375 george street, the public will find a huge stock of prime boots and shoes going like hot cakes at less than half wholesale cost. No matter how the market in grain may flatten out, while there is a shot in the locker, gough's store will be patronized. It takes so little money to equip a family in stout, serviceable boots that the people *will* go to gough's and spend their money and get double value for it, both in quality of goods and in reduction in price.

Y. P. C. E. S.

Last night there was a large attendance at the Young People's Christian Endeavor Society of the Baptist church. Rev. P. Clifton Parker was in the chair. The subject for discussion was: "Perseverance in grace." Dr. Scott introduced the Calvinistic side of the doctrine in a very able and exhaustive paper. After stating the doctrine, he produced evidence from Scripture—from its connection with other doctrines, etc., then met some of the common objections raised against it. Mr. Minore very gallantly and faithfully laid the Arminian view before the meeting, and arranged his arguements as historical, inferential and Scriptural. Afterwards Messrs. Lapham, J. C Turnbull, T. Bell, M. Kidd, W. Turnbull, Billings, Gillespie, Hillier, etc., took part in the discussion. The chairman weighed the evidence pro and con and pronounced favorably to the Calvinistic view. The interesting and profitable meeting was brought to a close at 9.30.

Will be Tried by Jury.

This forenoon Thos. Shouldice, the alleged Harvey house-breaker, was brought before Judge Weller and elected to be tried by jury at the Sessions. He was allowed to find bail for $400 and two sureties in $200 each, but as yet none has been furnished. This makes the third criminal case awaiting trial at the Court of General Sessions, the other two being against Greenfield and Ritchie. Rose, accused of forgery, cannot be tried till the spring assizes.

One Way to Advertise.

The proprietors of the Golden Seal Baking Powder, a new article just out on the market, have adopted a new method to bring their powder before the public. At Elliott & Tierney's grocery store, where it is sold, a *beautiful* $25 silver water pitcher is exhibited, which will be given to the person buying *bona fide* the largest number of packages of Golden Seal. The piece of silver is well worth winning, and Golden Seal is said to be the best baking powder manufactured.

A Valuable Trotter.

Mr. A. P. Morgan has purchased the famous little trotting mare, Mayflower, from Messrs. McCrae, of Beaverton. This well-known little trotter is considered the fastest horse in the district, and Mr. Morgan, who is a connoisseur in horseflesh, expects to make her the best in the province. The horse arrived in town last night.

Arctic Mystery.

The best and newest things in boys' hose is of Canadian manufacture, heavy, warm, and durable. You can get all sizes of the above at W.W. Johnston's, also a nice selection of women's hand knit wool mitts. We have in stock a full line of lace for trimming window curtains at half the usual prices. d

Attacked by a Footpad.

Shortly after twelve o'clock last night a man who had the appearance of having been in the close embrace of a threshing machine, entered the police station and said he had been attacked by a footpad and brutally assaulted. His head and face were cut and bleeding in several places, his nose had been severely bitten by his assailant, and he said his ribs and nearly every bone in his body were aching from the effects of the encounter. The man's name is Boakes, and he is a working tailor employed at Mercer's. He said he was walking near the corner of Charlotte and George streets just after the electric lights were put out at midnight, when he was suddenly accosted by a stranger, who asked him for a match. He gave the fellow the lucifer and was asked what time it was. When in the act of consulting his watch the other pounced upon him, and before he could recover himself he was knocked down and almost powerless. After being kicked and beaten unmercifully in the attempt to rob him, in which his assailant flourished a knife and threatened to finish him, Mr. Boakes succeeded in breaking away, and was not pursued. He immediately reported the affair to the police, and his appearance certainly bore out all his statements. He thinks he could identify the man if brought before him. The police are investigating.

Zora Semon's First Night.

It was a large and complimentary audience that gathered at the opera house last night—its appreciation of the entertainment was highly complimentary to the management. Zora Semon is a master magician and his wonderful exhibitions drew forth tremendous applause. The automatic minstrels were perhaps the most novel feature of the programme and took immensely. The musical glasses, ventriloquism and hand-pictures were highly interesting and amusing. The dissolving views were truly beautiful and were presented with fine effect. The most attractive part of the whole performance was the distributing of the gifts which Zora Semon gives away nightly. Only those who paid at the door were entitled to receive a chance envelope, every one in seven of which contained a numbered ticket winning a prize. Master Fred Nesbitt won a valuable china tea set and Mr. R S. Henderson the bedroom set. These were the principal gifts, but, besides these, thirty or forty others, including lamps, glass dishes, vases, cruets, cups and saucers, hams, bags of flour, etc., were also distributed. The first night's show was an undoubted success and no doubt large crowds will attend during the remainder of the week. To-night a silver watch will be the principal gift.

Another Visit.

In deference to the expressed wish of very many of our citizens who were unable to meet Mr. Morris, the expert optician, during his visit to my store last week, I have succeeded in arranging for another visit for Saturday next, the 1st December, which will afford the desired opportunity for the disappointed ones; and I would counsel all those who value their sight to see him. His unequalled ability assures, to all purchasers, unexampled ease and comfort in the use of the very best spectacles—the "B. Lauran ce & Co.'s" manufacture, for which I am the sole agent in Peterborough and vicinity. Do not mistake the date; for one day only, Saturday 1st December.

Rorabeck Escapes.

Irvine Rorabeck, arrested for forging a farm mortgage, and imprisoned at Norwood, was to have received his preliminary trial to-day, but he has managed to escape. He was left in charge of Constable Hill, and, as the lock-up was not a fit place for confinement, he took him to his own house. On Saturday evening the constable had to go down street, and left the prisoner in charge of two other parties, he being locked in a room, but, on returning, he found he had departed, unnoticed by the keepers. Telegrams were sent to different places, but so far no trace has been found of him.

Mr. E. B Stone, of Sawers & Stone, went down to Norwood to-day. It is said another man has been arrested in connection with the affair.

The Bazaar Booming.

A bazaar for the sale of fancy and useful articles is being held this week in the school room of St. John's Church in aid of the Barnardo Home. The bazaar is open from ten a.m. to five p.m., and is being fairly well patronized. The display is a creditable one indeed, comprising a wide range of articles, useful and ornamental, costly and cheap, rich and plain. The bazaar is in charge of Misses Wrighton and Stennett, who are assisted by a number of other ladies. This bazaar is entirely undenominational, ladies from all the churches in town contributing donations and aiding in other ways. An entertainment Friday night will conclude the bazaar.

A Coming Debate.

The Young People's Association of the George street church met last evening and arranged for a series of monthly inter-union debates with the Endeavor Society of the Charlotte street church, the first of which will be held in two weeks in the George street church. The subject of debate was settled this morning. It will be: Resolved, that Canada is a better country to live in than the United States." The Endeavor Society champions (whose appointment is noticed elsewhere) will support the affirmative. The opposition will be conducted by Messrs. F. H. Dobbin, W. A. Dixon and E. A. Pearson, B.A., for the Young People's Association.

Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

—AND—

Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Bine and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress clothe are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 30c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have no hesitation.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

SCHNEPPER DID KILL HIMSELF.

Waited in Central Park Until 5.40 o.m., and then Shot Himself Dead.

NEW YORK, Nov. 28.—The warning to the Park police on Saturday that Barber Christian Schnepper had gone to the Park to commit suicide did not save Schnepper. At 5.40 o'clock Sunday morning Policeman Bagley heard a pistol shot near the Arsenal, and, hastening in the direction of the sound, found a man with a wound in the right temple. Beside him was a revolver. The man died in a few minutes. He was Schnepper, who left the house of his sister-in-law, Mrs. Rose, at 71 Bank-street, on Saturday night. He took her little boy into the street, gave him his watch and other jewelry and money, and told him to give them to his mother and tell her that Schnepper had gone to Central Park.

Schnepper had a barber shop in Red Bank for five or six years. His business was good and he was prosperous and happy until about three years ago. He fell sick then, and when he was again well enough to go to work he found his skill gone. His hand was unsteady and he did not dare use a razor. He sold his business and subsequently tried to make a living by selling books and other light work. A year ago last summer he bought a kerosene oil route. He was obliged to give that up when cold weather came on. These reverses brought on the despondency which ended in his suicide. He was a member of the Knights of Pythias and other benefit orders.

THE LATEST IN TRUSTS.

Contemplated Formation of a Gigantic Railway Combine.

CHICAGO, Nov. 27.—A local paper says For several weeks past, Jay Gould, C. P. Huntington, Charles Francis Adams, W. B. Strong and other railroad magnates interested in Western railroads have been holding conferences in New York, in which Chairman Midgley of the Southwestern Railway Association has taken a prominent part. It has been learned that the project under consideration contemplates the formation of a gigantic railroad trust or clearing house comprising all roads between points west of a line drawn through Chicago and Milwaukee on the east, St. Paul and Minneapolis on the north, Colorado, New Mexico and Wyoming on the west and Arkansas on the south. All the existing freight and passenger associations within the territory named are to be abolished and merged in the new trust or clearing house.

RECKONING THE LOSSES.

Terrible Destruction of Life and Property Caused by the Storm.

COHASSET, Mass., Nov. 27. The damage by the fearful storm which has raged along the south shore for the past three days is far in excess of anything of the kind before known in this locality and a careful inspection of the property along the coast line from Cohasset to Windmill Point, Hull, shows it to be much greater than was indicated in yesterday's despatches. All day long wreckage of various descriptions has been coming ashore along the beach, more particularly at Sandy Cove. Huge timbers, spars, cabin furniture, fine inside furnishings, chairs, life-preservers and other articles appertaining to the steamer's outfit and many of them stamped with the word "Allentown" have been seen in the breakers off shore and found scattered along the water front. This wreckage tells too plainly that the steamer Allentown has been broken up on one of the huge sunken ledges off this port. The vessel must have gone down with all on board a very few minutes after striking.

$30,000 Damage Done at Coney Island.

NEW YORK, Nov. 27. The amount of damage done at Coney Island by the storm will probably reach $30,000.

The Cable Parted.

NANTUCKET, Mass., Nov. 27.—The cable connecting this island with the mainland has parted at the shore end and is lost.

Quick and Complete Destruction.

ATLANTIC CITY, N. J., Nov. 27.—The storm has abated, much to the relief of property owners along the beach. A survey of the situation shows that no such destruction to property has ever been known since the incorporation of the city. The work of the waves was quick and complete.

DOINGS IN THE DOMINION.

POLLY BREDIN HELD FOR TRIAL FOR BIGAMY.

Mr Toronto Malpractice Case—Montreal's Jack the Ripper—The St. Elmo Perjury Cases Dismissed.

TORONTO, Nov. 28.—Herbert Verral, the young man who was maltreated in a west end saloon on Thursday, and who it was thought would succumb to erysipelas, was yesterday morning pronounced out of danger.

The enterprising Mr. Clarry who strove to part with his mansion at Parkdale with the aid of a $5 ticket lottery, and who was fined $20 and costs for doing so, was again in the Police Court yesterday, charged with not surrendering the books and tickets of the "Grand Ville" sweepstakes as he was required to do. Mr. Clarry obtained a remand.

J. Henderson, of Burlington, missed a horse from his stable Monday. Yesterday morning it was found at Duck's Hotel at the Humber, where the gentleman who unceremoniously borrowed it had left it.

Lilly Charlton, the victim of the alleged malpractice with which Dr. Valentine is accused, is in a critical condition, and a consultation of physicians took place yesterday afternoon. Wood, the druggist charged with aiding in the criminal operation, is reported by his attorney to be visiting friends and ready to return when wanted for trial. The girl has made a dying statement which is not to be made public if she recovers.

Fred Barber's inamorata Polly Bradin was again in the dock yesterday on a charge of bigamy. She looked haggard, and during the proceedings wept copiously. Rev. Mr. Wallace, who married her to Bredin in July, 1874, at the Queen's Hotel, testified to the regularity of the marriage, but could not identify the woman. William Thomas, one of the witnesses to the union, remembered the occurrence, but not the parties. Rev. Mr. Bredin, father of the husband, told how he met the couple a few days after the marriage, and they subsequently stopped in his house in Bowmanville. Rev. C. S. Stewith, pastor of the First Presbyterian Church at Niagara Falls, N. Y., said he married the woman in the dock on Nov. 14 to Frederick Barber, and the marriage was solemnized according to the laws of New York and the ordinances of the Presbyterian Church. Mrs. Woolnough, who lived next door to Mrs. Bredin when the latter kept the house at 182 Adelaide-street, swore that Bredin was a frequent visitor, and that when Mrs. Bredin moved to Windsor-street he was on hand at the removal and assisted in the work. Finally, Detective Slemin deposed that Mrs. Bredin had admitted to him before her arrest that she divorced herself from her husband, but that the latter was not divorced from her. Police Magistrate Denison decided that a strong case was made out sufficient to commit, but as Mr. Meredith, counsel for prisoner, desired that the case should go before the Assizes and not the General Sessions, it was agreed that until the latter are concluded the case should be remanded from week to week. Mrs. Bredin was subsequently admitted to bail, herself in $1000 and two sureties in $500 each.

A. B. Cameron, barrister, and Miss Alice Walker, daughter of ex-Ald. David Walker, were married in St. Andrew's Church yesterday morning in the presence of a large and fashionable assembly.

The case of the Queen v. Gibson was argued in the Queen's Bench yesterday. This is a crown case reserved by the County Court at Hamilton as to the sufficiency of an indictment charging the defendant with injuring one Edward Buscombe in his trade as a bricklayer. A resolution was passed in the Hamilton Bricklayers and Masons Union that no union men should work on the new City Hall building as long as Buscombe was employed. Upon these facts an indictment was laid, which the County Judge reserved for the decision of the full court. After an extensive argument judgment was reserved.

The agreement between the city and the University authorities respecting Queen's Park lease and the chairs to be endowed by the city in connection therewith was finally concluded yesterday. The agreement provides that the actions against the city shall be dismissed, thus restoring the original lease with the balance of its term, namely, 970 years at a nominal rent. The two chairs established by the city are made conditional upon the Government of Ontario spending an equivalent sum ($6000) on the salaries of professors and lecturers in the School of Science to be maintained in Toronto. The effect of this is that the city practically secures an endowment of $12000 a year for the University by spending $6000 on the two chairs selected by it.

THE WHISKY DETECTIVES.

Charges of Perjury Against Them Fall to the Ground at St. Catharines.

ST. CATHARINES, Nov. 27.—Police Magistrate Comfort this morning gave his decision in the whisky detective perjury cases. He first took up the case of John Jaynes, which also applied equally to the case of Elijah Jaynes, and also indirectly on the case of Mrs. Sherlock. All the evidence, generally speaking, was greatly modified on cross-examination, and was not sufficient to commit the prisoners. In the case of Mrs. Sherlock, although there was no doubt she was anxious to tell what she thought to be true, she contradicted herself in several instances, and he thought it was simply from her memory failing her that caused her evidence to break down when it did. He would, therefore, also dismiss her case.

Montreal's Jack the Ripper.

MONTREAL, Nov. 27.—When the wife of Baker Jos. Cloran of McCord-street awoke this morning at 5.30 o'clock she found a man lying on the sofa in the sitting room. She hastened to the telephone to summon the police and then demanded the man's business in her house. He suddenly jumped up and drawing a large knife from his hip pocket remarked: "I am Jack the Ripper, and if you don't keep quiet I'll silence you." Hearing a noise on the front stair the individual rushed through a rear door and escaped just as four policemen entered the house.

Ingersoll Cheese Market.

INGERSOLL, Nov. 28.—This week 14 factories registered 7675 boxes principally September and balance of season's make, the total offering being considerably smaller than last week on account of several factories having sold through the week. Yesterday 4 factories sold 2735 boxes at 11½c. Sales through the week run from 11½c to 11¾c. Market brisk, 19 factories represented, 9 buyers present. Cable, 55 shillings, Cable, Nov. 26, 1887, was 59 shillings.

Albany Barley Market.

ALBANY, Nov. 28.—Barley grows weaker in price every day although small changes have been made in quotations. Consumers are holding off for a lower basis of values before buying very extensively. Two-rowed state 70c. to 81c., six-rowed state 87c. to 93c., Canada 90c. to 99c., the latter price for choice No. 1 bright. Receipts 11 cars.

Caught in the Hurricane.

NEW YORK, Nov. 27.—Steamers which reached port to-day report having been caught in the hurricane, but no serious damage was sustained. The schooner Jonathan May, from Savannah with lumber, was driven ashore at Sandy Hook last night. She will probably go to pieces as the surf is very high.

Children Cry for Pitcher's Castoria.

THE LATEST FROM LONDON

RESUMPTION OF THE LAND PURCHASE BILL DEBATE.

Another Batch of Evidence Concerning Outrages Given Before the Parnell Commission.

LONDON, Nov. 27.—In the House of Commons to-day Mr. Smith stated that if British troops were sent to Quebec they would not be employed beyond the vicinity of the port.

Mr. Balfour intimated that Mr. Harrington, Mr. Finucane and other members of the Irish party under warrant of arrest would be permitted to attend the sittings of Parliament during the time the Irish estimates were under discussion.

The debate on the Irish Land Purchase bill was resumed and Mr. Shaw-Lefevre moved to insert in the bill a provision directing that no advance shall be made to any tenant or purchaser exceeding £2000. He urged that tenants borrowing money that sum came within the landlord and not within the peasant proprietor class.

Mr. Balfour proposed as a substitute for Mr. Shaw-Lefevre's proposal that no advance exceeding £2000 be made unless the land commission decide that a large advance, not, however, exceeding £5000, is expedient.

Mr. Balfour's proposal was agreed to.

Mr. Shaw-Lefevre next moved that no advance be given unless the tenant or his predecessors in the title had occupied the holdings for at least five years. The motion was rejected. The Government accepted a clause proposed by Mr. Healy exempting the purchaser from all liabilities for rent arrears from the date the purchase is sanctioned.

Mr. Healy then proposed a clause with the object of preventing the enforcement of purchase by threats of eviction. Rejected.

Other amendments proposed by Mr. Healy were negatived and the bill finally passed the committee stage.

The Oaths Bill Passed.

LONDON, Nov. 27.—The Oaths Bill was passed in the House of Lords to-day without amendment.

SICK AND TIRED OF REITERATION.

The Parnellites' Counsel Object to the Mass of Evidence Touching Outrages.

LONDON, Nov. 27.—At the sitting of the Parnell Commission to-day Sergeant Gibbooly of County Kerry testified concerning outrages. He said that an increase of police had been necessary at Castle Island.

Sir Charles Russell, counsel for the Parnellites, interrupting the witness said: "We admit all that, we are sick and tired of reiteration entailing enormous expenses."

Presiding Justice Hannen said he hoped the details would be given as briefly as possible.

Witness continuing said that since 1880 the police force had been doubled. Prior to the founding of the league in 1880 the district had been quiet. Afterwards outrages had been general. He had kept a book for recording outrages.

Sir Charles Russell demanded that the book be produced.

Sir Henry James said the book contained letters and official communications respecting certain persons and it was desirable they should not be published.

Sir Charles Russell asked: "Why should The Times counsel have access to the book and we be denied the same privilege? Until the judges rule otherwise I shall continue to call for this and every other book referred to in the case."

Mr. Reid, for the Parnellites, also urged that the book be produced. He said if counsel were not allowed to see the book they would not have an opportunity to meet the case properly.

Justice Hannen said it was highly desirable that the whole book, including a column headed "Motives," should be produced. Special entries relating to certain persons ought not perhaps to be disclosed. He suggested that Sir Henry James and Sir Charles Russell inspect the book, and then if they did not agree the judges themselves would inspect it.

Other policemen then testified at length concerning outrages. Mr. Reid suggested that in order to save time witnesses should state simply the number of outrages they were cognizant of and the period in which they were committed. Justice Hannen welcomed the suggestion and Sir Henry James promised to comply with it as far as possible.

Inspector Davis said he had discovered that there was an inner circle of the League which organized Fenians to execute the League's behests. He declined to give the name of his informant. Mr. Reid pressed him for the name and witness finally appealed to the court for protection against the question. Mr. Reid complained that his clients were at the mercy of an anonymous informer. If he had the name he might prove the informant the greatest liar in the three kingdoms. Sir Henry James said the witness might have good reason for concealing the name. Mr. Reid said he would defer the question. Witness then in answer to questions said the man who gave him the information was not in the pay of the police. He was a member of the League and had taken part in the work of the inner circles. Another person similarly situated had also informed him of the workings of the inner circles. One of the informants could be cornered, but the other could not. Mr. Reid concluded his cross-examination by reading extracts from speeches made by Father O'Reardon denouncing outrages as a shame and a disgrace.

DUBLIN, Nov. 27.—The Baronies of Cornell and West Offaly in Kildare have been proclaimed under the second section of the Crimes Act.

The Grasping Landlords.

LONDON, Nov. 27.—Henry George in an address in London this evening said that the grasping for land in America was rapidly making that country similar to England. He wanted to utterly abolish landlordism and to grant to every child a share in the soil.

The Queer French.

PARIS, Nov. 27.—The Journal des Debats and other Parisian journals ridicule the action of the majority of the Chamber of Deputies in adopting the motion of M. Mesnoeer yesterday to adjourn the sitting for an hour on account of the presence of M. Wilson, the son-in-law of ex-President Grevy. They say the members who voted for the motion evidently desired to give France a proof of the purity of conscience, austerity and virtue of the Chamber. M. Wilson, in an interview, said the incident would not have the effect of keeping him from the Chamber. He would continue the struggle no matter what action the members might take.

Destroyed by Incendiaries.

BELAIRE, Md., Nov. 27.—The canning house of McGaw Bros., near Sparrow Island, was burned by incendiaries Saturday night. Twelve thousand cases of canned corn, 8000 empty cases and all the machinery and fixtures were destroyed.

Extension of Bonding Privileges to the Southern Pacific—The 60-Days Quarantine on American Cattle to Scotland.

OTTAWA, Nov. 27.—It is understood that the Government has decided to extend to the Northern Pacific Railway the same bonding facilities enjoyed by other roads on their giving the customary surety bonds, which will amount to $60,000.

Ever since the Dominion Government surveyed the Swan district efforts have been made to get the parties who settled the surveys to make entry of their lands, but with only partial success. Circular after circular has been issued by the Dominion Lands Commissioner, but very little attention has been paid to them. The districts in which entries have been most backward are Prince Albert, Carlton, Duck Lake and along the south branch of the Saskatchewan. The Government has now sent Mr. Bourgeois, D. L. S., to Duck Lake and Prince Albert to try to get entries made, and a new circular has been issued informing the settlers that it is in their own interests to have their entries made right away. The circular says in effect: Notice is also hereby given that inasmuch as many of the persons herein referred to are desirous now entitled to a patent for their lands, application for patent in all such cases should be made at the same time that homestead entry is obtained." In this connection it may be stated that the half-breeds of Batoche have never made any entries in the Interior Department, but nevertheless the Government has never disturbed them in the enjoyment of their lands.

It is understood that the request of the Montana ranchmen, that the ninety-day quarantine on American cattle entering the Northwest be removed, will not be granted, as it is felt that if this was done the English Government would most probably schedule Canadian cattle and our exporters would lose the advantage which they now possess over American exporters of being able to transport their cattle from one point of the United Kingdom to another while American cattle must be killed at the port at which they are landed.

Some anxiety was felt in the Marine Department to-day as to the safety of the new Government steamer Stanley, built on the Clyde, which was to have sailed on Nov. 21. If she did so she was probably in the storm which raged on the Atlantic on Saturday and Sunday, and being, comparatively speaking, a small vessel she may have had difficulty in weathering so severe a gale. A cablegram was sent to Glasgow to-day to ascertain whether she had sailed.

The United States Treasury Department officials deny the truth of the report that there has been any change in the policy of the Administration or of the department towards the Alaska seal fisheries. There has been a relaxation this season of their watchfulness in Behring Sea.

General Middleton and Adjutant-General Powell to-day examined a new water bottle, the invention of Mr. Lewis of Quebec, and expressed themselves so pleased with it that its adoption by the Canada Militia will be recommended. It is of block tin, stout and serviceable, and will stand a good deal of knocking about. Its chief advantage, however, is that it contains a small charcoal filter so that muddy or partly impure water can be rendered drinkable in a few minutes, a great advantage to troops on the march in a poorly watered country. General Middleton said with reference to it: "No European army has yet got anything like a good water bottle. They are either of glass or wood. In England the troops carry the latter. If I am not mistaken the Imperial authorities have offered a reward for a suitable water bottle, one that will suit all requirements. This new invention costs something like 50 cents, I believe. It is a little heavier than the ordinary article."

Over 200 members of the Northwest Mounted Police, or about one-fifth of their number, have postoffice savings bank accounts, their joint accumulation amounting to about $25,000.

One of the small portable buildings at the Mounted Police Barracks at Regina was destroyed by fire on Saturday night.

The last of the fishery cruisers in commission, the Vigilant, was docked for repairs at Halifax on Saturday.

General Middleton says that the visit of Sir John Ross, Commander of Her Majesty's Forces in British North America, to British Columbia is purely one of pleasure, and has no connection with the Imperial fortification scheme.

His Excellency the Governor-General and Lady Stanley visited the Collegiate Institute to-day. They will leave for Toronto Thursday night to attend the ball of the St. Andrew's Society on the following evening. On Saturday they will go to Hamilton, when His Excellency will open the Art Exhibition.

FOR BURGLARY.

A Hamilton Dry Goods Clerk Arrested on a Serious Charge.

HAMILTON, Nov. 27.—John James Jarvis, a good-looking dry goods clerk, who has been working for James Shea for about three weeks, was arrested this afternoon on a serious charge of burglary. Jarvis is a well-dressed young man about 21 years old. He was formerly employed by J. L. Mader, a dry goods merchant in Attwood, a small town in the county of Perth. He worked there off and on for about two years, but left four or five weeks ago to accept a more lucrative position in Listowel. One Sunday night about a month ago he returned to Attwood and went into Mr. Mader's store without getting his permission. Jarvis retained possession of some keys which enabled him to get into the premises. He was caught in the act of going through the safe, but the level-headed person who detected him allowed him to escape out of the back door. That was the last seen of Jarvis in Attwood. Mader got a tip from a commercial traveler that the young man was working in a store here, and Constable Struthers was sent to hunt him up. He arrived this morning, and in company with two detectives went to the store where he was employed and took him in charge.

Judge Sinclair to-day granted a summons to quash a conviction in a liquor case against John Berlinghoff and H. R. Hall. The defendants were fined $40 by the police magistrate for keeping their bar-rooms open during prohibited hours. The case will come up for argument on Dec. 10.

The New M.P. for Caribou.

VICTORIA, Nov. 27.—Mr. Barnard, who has just been elected M.P. for Caribou by a majority of 23, is a son of Mr. F. J. Barnard, who formerly represented Yale, B.C., in the House of Commons, and is also a nephew of Mr. J. T. Barnard of Hamilton, Ont. Caribou is the smallest constituency in the Dominion. Its inhabitants number 7650 and the voters on the roll 489.

A Foundered Collier.

BOSTON, Nov. 27.—The steamer Allentown, said to have foundered off Cohasset, carried her full capacity of coal consigned to Salem, Mass., parties and had a crew of 19 men. She sailed from Philadelphia Nov. 21, and was due to arrive on Saturday last. The steamer cost $200,000 and belonged to the Philadelphia and Reading Company, to whom the cargo also belonged. Nothing can be learned here of the crew but on insurance on the vessel.

Mormonism and the Bible

Being a Series of Papers which will Appear from Time to Time. Exposing One of the Most Absurd Parodies of Christianity Ever Attempted to be Palmed Off on the Unlearned and Untaught in Biblical Study.

THE "HOW AND WHEN" THIS NEW REVELATION WAS TO BE DISCOVERED, AND THE OPPOSITION OF UNBELIEVERS.

(Fourth Paper.)

Joseph Smith pretended that he had discovered a book containing the history of the origin of the American Indians, who were the descendants of a chosen portion of the tribe of Ephraim, who had crossed over to America, by command of God, about B. C. 592. This book he found half buried in the earth. In order, however, to get people to believe him, he had to show scripture warrant for his discovery. Mr. Smith quotes the following passages as those selected by the prophet:—

Ps., lxxxv, 11: "Truth shall spring out of the earth," and, Isa, xxix, 4: "A nation to speak out of the ground." The meaning of these will be found in my first paper. Mr. Smith then attempts to prove the time of the discovery of the book of Mormon from Ezek., xxxvii, 15-28, joined with Ps., lxxxv, 11, 12. The first of these passages refers to two sticks, upon which Ezekiel is told to write the names of the southern and northern divisions of the once united kingdom of Israel, with their tribes, and join them together in representation of their becoming united again, the whole image being a reproduction of Num., xvii, 2, 3. But this obvious explanation does not suit Mr. Smith, so he incorporates into the stickes the meaning of two separate written revelations, or laws, viz., the old Mosaic law and the new one, delivered, as he asserts, to Ephraim in America, and points to the supposed commencement of the return of the Jews to Palestine in 1847, as fulfilling the time appointed for the joining of the two sticks. He further says that "before the two sticks, Ephraim and Manasseh, could be joined together, truth should spring out of the ground," in fulfulment of Ps. lxxxv, 11-12, truth here meaning God's word, according to Jno. xvii, 17. This is a pure invention of his own, and it is not difficult to see that the whole thing is a mere make-up to suit a theory. To begin with, Ezekiel's two sticks can, by no manner of interpretation, be taken for written documents or books of laws, etc. Again, it cannot for one moment be held that any serious return of the Jews has already commenced. It is quite true that in recent years numbers of poor Jews, persecuted by various European peoples, have been emigrating to Palestine. But up to the present time there are not more than 25,000 Jews in Jerusalem, and about the same number scattered throughout the rest of the country. What makes matters worse, the Turkish government has forbidden any Jews newly arriving to remain longer than three months in the country. So that this puts a stop to even the incoming of poor Jews who have nowhere else to go, and who naturally would wish to return to their own land. My authority for the number of Jews in Palestine and the command from the Porte forbidding new arrivals to remain, is a recent issue of the official paper of the Society for the Conversion of the Jews, "The Jewish Intelligence," published by Nisbet & Co., of London, England.

Mr. Smith wishes us to believe that, just prior to the return of the Jews, the book of Mormon, represented by the stick of Ephraim and truth springing out of the ground, was to be joined to the Mosaic law. He says that Ezek. xxxvii, 20-28, shows that when Ezek. xxxvii, 15-19, should be accomplished God would then gather Israel, etc. But the gathering of Israel is the joining of the two sticks. "I will take the stick of Joseph, which is in the hand of Ephraim, and the tribes of Israel his followers, and will put them with him, even with the stick of Judah, and make them one stick, and they shall be one in mine hand. And the sticks whereon thou writest shall be in thine hand before their eyes (the people) and my note them * * I will take the children of Israel * * and I will gather them * * and I will make them a nation, etc." Thus the joining of the two sticks could not be prior to the return, for the sticks only became one at the return. But again, Ezekiel reads, "the sticks upon which thou writest, etc." Mr. Smith represents Ephraim's stick as the book of Mormon. How then could Ezekiel have written upon it? Ezekiel's writing upon this stick shows plainly that it can have no connection with Joseph Smith's discovery. But Ezekiel further says at the time of the return "they shall dwell in the land, they and their children for ever." But at present such is not the case, for they are not allowed to remain for more than three months. Again, the prophet says "the sanctuary is in the midst of them for evermore, my tabernacle also shall be with them * * and the heathen shall know that I the Lord do sanctify Israel, when my sanctuary shall be in the midst of them for evermore." And this is to be at the return, but they have neither tabernacle nor sanctuary in Palestine at present as a recognized centre of worship, although, even according to Mr. Smith, they have been returning for forty-one years, that is, from 1847. The whole of the 36th chap. of Ezekiel refers to the national restoration, and this has not yet taken place, so that the two sticks have not been joined, as Mr. Smith would have us believe. If he had understood his Bible he would have known that the time of the joining of the sticks had not yet arrived. "Jerusalem," said the great Master, "shall be trodden down of the Gentiles till the time of the Gentiles shall be fulfilled. "The Turkish Gentiles" writes Sir William Dawson, in his Egypt and Syria, "who now tread the city of Jerusalem under foot, are near their end." We hope it is even so, but until that time must the Mosque of Omar stand where the sanctuary should be, until that time must the Jews remain a scattered people, without a national inheritance, and without the fulfilment of the gracious promise. "I will make them one nation in the land upon the mountains of Israel, and they shall dwell in the land that I have given unto Jacob my servant and I will place them and multiply them, and will set my sanctuary in the midst of them for evermore, my tabernacle also shall be with them, yea, I will be their God, and they shall be my people." Mr. Smith adds "in a very little time after the discovery of the book of Mormon, Lebanon or Palestine should turn into a fruitful field, and then the deaf shall hear the words of the book, the meek shall increase their joy, Jacob, not now be ashamed, but shall fear the God of Israel, and the erring and murmuring ones shall learn doctrine.—(Isa, xxix, 17, 18, 19, 22, 23 and 24.) Mr. Smith evidently wishes us to believe that Palestine is now in a very flourishing condition, and that, owing to the returning Jews, who are *no longer ashamed of their position*, for they are beginning to learn true doctrine. But this is not so. It is true that the country is now presenting a far different appearance to what it did years ago, but this is not owing to the returning Jews, but to Russia, France and Germany, "who," writes Sir William Dawson, "are rivalling each other in purchasing property and establishing colonies throughout Palestine." He refers especially to the German colony at Jerusalem, which, by its enterprise, "is improving the apparently hopeless stony country between that place and Bethlehem." The London *Pall Mall Budget* for Sept. 12th, 1888, refers to the rapidly developing trade of Germany with Palestine, owing to her large and prosperous colonies which she has established in that country. The Jews themselves own very little property in Palestine, for most of them are very poor. Mr. Smith would have us believe that, since the discovery of the book of Mormon, the return of the Jews has set in, and Jacob is not now ashamed. Listen, however, to the words of the Rev. J. Jamel in the *Jewish Intelligence*, Sept., 1888: "Went to the waiting place, men and women of all ages were there, some were chanting mournfully from the book of Psalms, swaying their bodies to and fro. Some were sitting on the bare pavement, some on stools under the lofty wall, some were burying their faces in the rents and crannies of the old stones, *kissing them with* their arms spread out as if they would clasp them to their bosom; some were bathing them with tears, and all the while sobbing as if their hearts would burst. It was a sad and touching spectacle." And yet Mr. Smith wishes us to believe that the time has arrived when Jacob is not ashamed. We pass on without further comment to

THE OPPOSITION OF UNBELIEVERS.

Mr. Smith refers to Isaiah xxix, 9, where the prophet is denouncing the Jews as "drunken, but not with wine." In his note on this passage he connects the 9th and 8th verses together and maintains that the drunken nations represent those of the present day who oppose the book of Mormon. But the prophet in the 8th verse is not addressing *the nations* then nor now, but the Jews themselves only. The 9th verse says "they are drunken, but not with wine," this refers to Ariel or Jerusalm in verse one and not to the nations in verse 9. Isaiah in the 51st chap. and 17th verse says of Jerusalem, "which has drank at the hand of the Lord the cup of his fury, thou hast drunken the dregs of the cup of trembling, and wrung them out." And in the 21st verse, "*therefore* hear now thou afflicted and drunken, but not with wine." We thus see, not only the ignorance of Mr. Smith in connecting the last clause of the 8th verse of the 29th chap. with the 9th verse, but also the palpable dishonesty in trying to make a prophecy connected with Jerusalem refer to the nations of the present day, who refuse to accept the book of Mormon.

CHAPTER XXVI.

JOURNEYING TO THE UNION LINES.

The next morning the jailer put me back in the room I had occupied with the remainder of my comrades. I was much amused when he told me that a man had put his hand over his mouth and nearly smothered him, but he added, with great seeming satisfaction: "I bit his finger terrible deep, and the rascal is sure he will marry to his grave." However, he had not bitten as severely as he supposed, as I had received only a slight scratch that healed in a week or two. I had always been rather a favorite with him, and I did not apprehend that I was the guilty person, as his fright had prevented him from observing anything closely. He spoke in strong complaint of the ingratitude of [illegible] and said that was the return he got for it. While we remained with him he watched more closely, though he supposed he was flattering us by saying that he had no doubt the men who had gone off were much worse than we.

Some time in the forenoon several officers came to see us in no mild humor, and one roughly demanded the course our boys intended to travel. I had no deliberacy whatever about giving the information; I even took a good deal of pleasure in telling him that they had said that Atlanta was in the middle of what was left of the Confederacy, and that they were going to travel over all the country. The officer was so [illegible] with the information that he ceased to annoy [illegible] questions!

But it was [illegible] which our brave boys [illegible] ment to the [illegible] though it could [illegible] I cannot look back [illegible] they did without thinking that in dangers encountered, and [illegible] the proudest [illegible] Livingstone or Stanley were felt. [illegible]

A whole volume would be required for the adventures in detail of these different parties, but [illegible] account seems needful for the [illegible] of our story. The different narratives have been furnished me for publication by the parties themselves, or are condensed and revised from accounts published by them, some very near the time of the return of the fugitives. The story in each case was of such extraordinary character that local [illegible] were glad of the privilege of laying it before their readers. These different accounts have been carefully compared, and any paragraphs which have only passing or local interest have been omitted.

The first story is that of our engineers, and is furnished by Knight, with [illegible] additional items by his companion, Dukes. They were the foremost of the whole party in the run for the woods, as they had been in attacking the guard. Knight says:

We started [illegible] some [illegible] miles distant. We ran through gardens or anything else that came in the way, kicking the pickets or sentry guards aside to the fullest way to get over them. To say we were tired out when we reached the woods does not half express our condition. The woods was but narrow, and [illegible] there was enough to shade our [illegible] Mason, [illegible] awhile we [illegible] We [illegible] to [illegible] the [illegible] of [illegible] a [illegible] rested and took our bearings, and then traveled on. Mason now began to get sick, but we worked him along till dark; then through the night we moved along slowly, secreting ourselves a good share of the time.

During the day we hid, but some men caused us to change our position once or twice to avoid them. The second night we also made but little progress on account of Mason's sickness, and after hiding all day again, we still found him no better. We held a consultation, Mason urging us to leave him to his fate and save ourselves, but it was decided not to leave him in the woods, as [illegible] rested a bonus that was [illegible] little [illegible] a [illegible] [illegible] [illegible]

LOCAL NEWS.

The Weather.

★ ...rth and northwest winds, cloudy to partly cloudy with light showers of snow or rain in some localities, not much change in temperature.

From Frisco to Australia.

Mr. Dixon Best, son of Mr. Wm. Best, of Emily, has sent to his father a letter relating the incidents of his voyage from San Francisco to Australia. The letter is written on board the steamship "Mariposa," and in sight of the Sandwich Islands. The voyage was very pleasant from "Frisco," which Mr. Best did not fall in love with—"I do not admire Frisco nor the coast; nothing but sand hills all around the city, which, when the wind blows, is filled with clouds of flying sand." Mr. Best recounts the usual incidents of a sea voyage, a little sea sickness to start with but after that the enjoyment of splendid weather, and the unusual sight of whales gambolling in and leaping clean out of the mighty waters. There were 132 passengers, of which twenty-five or thirty were Canadians. Reverting to his experience of California, Mr. Best says:—"The cost of living in California is very high; they do not know what to ask for anything. Board, $7 per week, and poor at that. You would starve there, for the potatoes are something horrid—soft, salvy, soapy, nasty things. Fruit is no cheaper than it is in Peterborough, and not half as good. It is very fine to look at, but it has no flavor. I have not eaten a good apple since I left home. * * * If we arrive safely in Sidney, we shall, after two or three days, go on to Melbourne. I learned from Australians on board ship that it is cooler around Melbourne than around Sidney and a better farming country, and that is what I want." Mr. Best promises to write from Sidney when he arrives, and the EXAMINER will from time to time give interesting extracts from his letters.

Personal.

The family of Mr. George Bolton have removed to Detroit, which will be their future home.

Mr. Wm. Walsh, druggist, showed us a circular to-day announcing that Mr. J. Nicholl had been promoted to the position of president of the Natchez, Jackson and Columbus Railway. Mr. Nicholl's father, Mr. T. F. Nicholl, was, about twenty years ago, a resident of Peterborough, and carried on an auction business, while acting as county engineer. He was also the instrument through which the town and county graded the court house green and fenced it in. The older residents will remember him as an enterprising and industrious Englishman, and will be glad to hear of his continued prosperity.

Health vs. Business.

R. H. Green, on account of ill health, has decided to sell his entire stock of groceries and provisions at greatly reduced prices, for cash, for the next six weeks, after which time if his health is not improved will offer his stock in trade (*en bloc*) on reasonable terms, etc.

In the meantime parties desiring to procure good fresh groceries, etc., for the holiday season will find it to their advantage to call at the corner of Hunter and Aylmer streets where they will find a well assorted stock to choose from, and which will be sold very cheap for cash.

Apples, potatoes and vegetables always in stock, and will be delivered to any part of the town free of cartage.

Important.

We have just been advised, and we are sure the people of Peterborough will be pleased to know, that A. L. Davis & Co. have decided to put the whole of their stock of books, stationery and fancy goods on the market at cost price, commencing 1st December, and their stock, being in such good condition, the public are sure to get dollar for dollar. This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

That Railway Suit.

The following case was decided at the Toronto law courts Tuesday:—Fitzgerald v. Midland Railway Co. and G. T. R.—Motion on behalf of the defendants, the irregular, on the ground that the joinder of issue was not filed at the hour of three o'clock on the last day for filing same, and the defendants' solicitor was informed that no issue was filed when he made enquiry at three o'clock. The joinder of issue was received that day by the officer at his house, and the person filing it was given to understand that it would be filed as of that day. The officer when he received the issue had marked "filed" on it, but had not endorsed the date, nor had he cancelled the stamp. Aylesworth supported the motion. Masters showed cause. Motion dismissed. Costs to plaintiff in any event.

PERSONAL.—The lady who lost a letter on Saturday last while purchasing tea at M. R. Kidd's can have the same by applying at the store.

Children Cry for Pitcher's Castoria.

One Thousand Dollars Reward.

A reward of one thousand dollars is offered by the publishers for the best letters of suggestions for a Christmas souvenir that will equal the Christmas number of the Montreal *Star* at the published price. Competitors to give their full name and address. This year's Christmas *Star* has twenty-eight pages of beautiful illustrations, articles by eminent writers, four superb supplements and other attractions of a surpassing character. It is far and away ahead of anything yet published. Orders for copies to send to England are the largest on record. Those who cannot procure it from a newsdealer will received it by sending the small amount of 40 cents to the publishers, Montreal. Postage stamps of one and three cent denomination will be accepted. 1w48

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats. this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Liquor teas at one-half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

Handy With the Knife.

Two young men became involved in an altercation at the Lock Works yesterday, and one threw off his coat and threatened to lick the other in about two minutes. Number two drew a knife to defend himself, and number one being nothing daunted, the pair were about to engage at close quarters when they were fortunately separated before blood was spilt. The one upon whom the knife was drawn called at the police station to-day to lodge a complaint against his adversary who handled the knife, but on thinking the matter over determined to let it drop.

Talking Scotch.

As St. Andrew's Day approaches every leal Scotchman rolls an extra strong bur-r-r off his tongue and indulges in braider Scotch. But plain, honest English is good enough to express the fact of the marvellous bargains in boots and shoes given by gough bros., the wonderful cheap men. Thousands of feet of shelving piled high and deep with tip-top boots and shoes, at less than half wholesale prices. Not a clap-trap reduction in a few lines for a few days, but a steady stream of wonderful bargains in every kind of foot wear at gough bros., 375 george street.

A Question for Farmers' Wives.

Mrs. Wm. Porter, of Douro, is a practical and thrifty housewife. She has, during the past summer, kept a comparative record of the profits accruing from cows and poultry. With seventy hens, besides using about three dozen eggs a week and raising over 100 chickens, she netted $80 clear profit, and, with the milk of five cows sent to the cheese factory, she realized $117. Here's an important question for farmers' wives to debate—are not hens, carefully managed, more profitable on the whole than cows?

The Lucky Prize Winners.

A large audience attended Zera Semon's second performance in the opera house last night, and their satisfaction was evinced by their hearty applause. Mr. A. P. Morgan won the watch, Mr. Herbert Dickson the china tea set and Mr. J. E. Harris the bedroom set. About three dozen lesser presents were given out to ticket-holders. These gifts are genuine, as those who have been lucky enough to win, can testify. To-night a fine gold watch will be the principal prize.

A Change in the Programme.

Rev. Mr. McCamus, of Fraserville, wishes the EXAMINER to state that Rev. S. J. Shorey has kindly consented to take the place of Rev. M. L. Pearson at the anniversary entertainment in connection with the Fraserville Methodist church Monday evening next, 3rd December. Rev. Mr. Pearson is unavoidably prevented from attending owing to other pressing duties in connection with his office as chairman of the district.

"EXCUSE me, sir, but can you tell me where that man, Kidd, is selling 5 lbs. of excellent tea for $1?" "Yes, certainly—364 George street." dw

A Trio of Weddings.

STEAM FIRE ENGINE.

The committee appointed to select a steam fire engine from the numerous tenders have, we understand, decided to recommend the "Ramsid" to the council, who will, no doubt, adopt the report. The Silsby was a close second in point of favor, but one of home manufacture carried the day.

TIRED OF OFFICE.

We regret to learn that Councillor Nelson has expressed his determination not to again offer his services as village councillor for 1889. Councillor Nelson has been one of the best workers who have ever graced the council board, and has devoted much valuable time during the past year to the improvement of our roads and walks. We hope Councillor Nelson will be persuaded to change his present intentions and remain in office until the new town hall, tanks and other improvements are completed.

OYSTER SUPPER.

The young people in connection with the Baptist church intend to have an oyster supper and tea in the P.C.A. hall next Friday evening, after which an intellectual feast will be provided by a number of the local clergy, assisted by the choir. The object in view is to provide funds for the Sabbath school library in connection with the church. Every one will receive a welcome.

CLOSED UP.

The cold nights of last week had the effect of closing up many of the back lakes and narrows between the larger bodies of water. Mr. Strickland's steam yacht "Undine" continued running up to the last moment when she too had to tie up for the winter and thus close what has proved a prosperous season for most of the steamers which have made Lakefield their headquarters.

TEACHERS ENGAGED.

At a meeting of the Lakefield school board Tuesday evening Mr. W. J. Campbell, of Keene, was engaged as head-master of the public school, with Miss Alice Shearer and Miss Lizzie McDonald as assistant teachers.

Young's Point.

From Our Own Correspondent.

Mr. C. Young's lumber and shingle mills have shut down for the season. The cut this season was a large one.

On Tuesday evening Mr. C. Young's employees gave a supper in the McFarlane house, at which a large number were present. In the absence of the appointed chairman, Mr. J. Godfrey, who was prevented from being present on account of temporary illness, Mr. Wm. Walters occupied the chair, and Mr. Jas. A. Johnston the vice-chair. After ample justice had been done to the sumptuous fare provided, the chairman read the following address:—

C. Young, Esq., Young's Point:

DEAR SIR,—We, your employees desire to thank you for the kindness and consideration you have always shown us, and ask you to accept this meerschaum pipe and case as a slight token of our esteem and good wishes toward you, and hope you will enjoy many years of health and prosperity.

Signed, on behalf of the employees,

JOHN GODFREY.

Mr. Young replied in suitable terms and alluded to his employees in very complimentary terms, after which the usual toasts and speeches followed.

Another Visit.

In deference to the expressed wish of very many of our citizens who were unable to meet Mr. Morris, the expert optician, during his visit to my store last week, I have succeeded in arranging for another visit for Saturday next, the 1st December, which will afford the desired opportunity for the disappointed ones; and I would counsel all those who value their sight to see him. His unequalled ability assures, to all purchasers, unexampled ease and comfort in the use of the very best spectacles—the "B. Lauranoe & Co.'s" manufacture, for which I am the sole agent in Peterborough and vicinity. Do not mistake the date; for one day only, Saturday 1st December.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,
—AND—
Black and Grey Persian Lamb, at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

PUBLIC NOTICE

is hereby given that a Notice in writing in the form following namely:

"*To the Honorable the Secretary of State of Canada*:

"SIR,—We, the undersigned Electors of the County of Peterborough request you to take notice that we propose presenting the following petition to His Excellency the Governor General of Canada in Council:

"'*To His Excellency the Governor General of Canada in Council*:

"'The petition of the electors of the County of Peterborough, qualified and competent to vote at the election of a member of the House of Commons, in the said County of Peterborough, respectfully shews that your petitioners are desirous that the Order in Council passed for bringing into force within the said County the second part of The Canada Temperance Act, should be revoked; wherefore your petitioners humbly pray that Your Excellency will be pleased, by an Order in Council under Section nine of The Canada Temperance Amendment Act, 1888, to declare that the said Order in Council which brought into force and effect the said second part of the said The Canada Temperance Act in the said County, shall no longer be in force. And your petitioners will ever pray, etc.'

"And that we desire that the votes of the electors of the said county be taken for and against the revocation of the said Order in Council.'

Which notice is signed by electors qualified and competent to vote at the election of a member of the House of Commons in the county of Peterborough, will be deposited in the office of the Sheriff of the said county, at the court house, in the town of Peterborough, on Tuesday, the 18th day of December, 1888, and will there remain for ten days from said date for public examination by any person.

This notice is given in pursuance of section six of the Canada Temperance Act, and of the provisions of the Canada Temperance Amendment Act, 1888.

Dated 29th November, 1888. 2d126

ONLY TWO BIG HOLES WERE FOUND.

And 1000 Pounds of Nitro-Glycerine. a Team and a Magazine Vanished.

TITUSVILLE, Pa., Nov. 29. A shock like an earthquake was caused by an explosion of nitro-glycerine at the Van Vleck Magazine, one mile north of Pleasantville. "Doc" Haggerty, employed by the Torpedo Company, whose factory is situated on Hemlock Run, ten miles above Warren, left the factory early in the morning with a load of 1000 pounds of glycerine in cans for the Van Vleck Magazine. He passed through Pleasantville about 11.30 o'clock. Half an hour later the explosion was heard.

A party left at once for the magazine. At the place where it had stood they found a great cavity in the hillside, and just in front of this where the team had stopped with the load was another hole twenty feet square and ten deep. Not the slightest trace of Haggerty was found. About two hundred yards away a few small bits of horse flesh were picked up, but not another vestige of the team, driver or magazine remained.

Haggerty lived at Hemlock and leaves a widow and six children. He was an experienced driver, and it is thought that rough roads caused the disaster, although another theory of the explosion is that in unloading the nitro-glycerine Haggerty dropped one of the cans.

A schoolhouse about a quarter of a mile from the magazine was completely wrecked and the dwelling-house of a man named Gutshaw was shaken to pieces, and Mrs. Gutshaw, who was looking out of the window, was fatally injured by flying debris. Trees, rocks and earth were hurled in all directions. Luckily for the people of the village the magazine did not contain the usual amount of nitro glycerine.

VICTORIA AND FEDERATION.

Lindsay District Declines for Various Reasons to Accept the Allotment.

LINDSAY, Nov. 29. At a convention of the Lindsay district in the Cambridge street Church yesterday, after a most exciting discussion this resolution, moved by Rev. Foster McAmmond of Fenelon Falls, and seconded by Rev. W. D. P. Wilson of Janetville, was finally carried:

"That whereas the Conference special committee has allotted to this district the sum of $2485 to be raised for the federation scheme, it is the opinion of this convention that the amount is out of all proportion to the financial ability of the district, and while we fully accord to the Secretary of Education the right under General Conference authority to collect by personal subscriptions throughout the district for the federation scheme, we do not feel as a district that our present financial circumstances and the attitude of our people generally towards the movement would justify us in accepting the allotment laid upon the district."

FIRE AT SARNIA.

The Alexander House Completely Gutted Late Last Night.

SARNIA, Nov. 29. The Alexander House of this town caught fire about 11.30 last evening. Fire was first discovered near the roof in the back part of the building and an alarm was quickly given. All the guests and employes had plenty of time to get out and save their personal effects. The building being a frame structure burned very rapidly and the inside of the building is completely gutted. A large quantity of the furniture was saved in a damaged condition. It is believed to have been insured but details cannot be obtained at present.

HIS TRUNK WAS MISSING.

A Montreal Commercial Traveler Loses Goods Worth of Jewelry Samples.

MONTREAL, Nov. 29.—Arthur St. Jean, commercial traveller for Alfred Eaves, wholesale jeweler, has returned from a three weeks' trip in the Eastern Townships, during which he had with him two valuable trunks, each containing over $6000 worth of jewelry. When St. Jean came to Waterloo from Sherbrooke on Tuesday, of last week he missed one of his trunks, and since then every effort to find it has been fruitless. One supposition is that it was stolen and smuggled over the line.

Woodstock Cheese Market.

WOODSTOCK, Nov. 29.—The bulk of cheese in this section is sold at 11½c to 11¾c, about 2000 boxes still unsold.

HEALY HATES HASTINESS.

HIS AMENDMENTS TO THE LAND PURCHASE BILL ACCEPTED.

But He Objects to the Third Reading and the House Adjourns—Mr. Harrington Not to Be Arrested at Present.

LONDON, Nov. 29.—In the House of Commons last evening Mr. Balfour said that Edward Harrington would not be arrested under the pending warrant against him during the debate on the Irish estimates.

Mr. Smith announced the withdrawal of the Tax Bill.

The debate on the Irish Land Purchase Bill was resumed and Mr. Mahony (Nat.) moved the insertion in the bill of a new clause to the effect that the Land Commission shall take as security for the payment by tenants of their instalments the improvements executed by the tenant or his predecessor on his title.

Mr. Balfour opposed the motion on the ground that it would introduce great confusion, and also because it was against the interests of the purchasing tenant.

The motion was rejected.

Mr. Smith, the Government leader, appealed to the House to assist in closing the discussion on the bill. The Government, he said, was desirous of meeting the Opposition as far as possible and would accept the series of amendments proposed by Mr. Healy relating to subletting to laborers and also the provision that the Land Commission shall not sanction an advance of money to a tenant unless they are certain that the application of the tenant was not made under duress. The Government also intended to promote the bill dealing with the registration of titles.

Mr. Morley and Mr. Shaw-Lefevre both expressed themselves satisfied with these concessions and Mr. Smith thereupon moved that the bill be read a third time.

Mr. Healy, however, objected on account of undue haste and the House adjourned.

Henry George on the Land Purchase Bill.

LONDON, Nov. 29. Henry George, in a speech at Glasgow last evening, said that the feeling of the country was against buying out the Irish landlords. If it was good to use the national credit to enable countrymen to buy their own land, why was it not good to use the national credit to enable townsmen to buy their house?

What "Roaster" Means.

LONDON, Nov. 29.—Several witnesses were examined before the Parnell Commission yesterday with reference to outrages in the Castle Island district, County Kerry. Maurice Kennedy, a farmer, reluctantly gave evidence regarding the proceedings of the local league of which he himself was a member. He had heard the word "roaster" used at meetings of the League but did not know its meaning. Mr. Shannon, a Dublin solicitor who is assisting The Times, testified that Kennedy told him that the local league had a list of roasters hung up in the office. Roaster meant a turn-spit for roasting or boycotting landlords. The people were forbidden to work for men whose names were on the list of roasters.

The Plan Failed.

DUBLIN, Nov. 29.—The efforts of the tenants on the Marquis of Conyngham's estate at Glenties to carry out the plan of campaign has failed and they have accepted a reduction of five shillings. Their demand was for a reduction of eight shillings.

European Disarmament Impracticable.

BERLIN, Nov. 29.—In the Reichstag yesterday the debate on the budget was resumed and Herr Liebknecht (Radical) attacked the foreign policy of the Government and suggested that it ought to propose a general European disarmament.

Herr von Boettticher, Prussian Minister of State and Imperial Secretary of State for the Interior, declared that the suggestion was impracticable. Prince Bismarck, he said, had never provoked a conflict—on the contrary he steadfastly sought peace. The Federal Governments were well aware that the social legislation of past years has not removed all evils, but they would have been held forgetful of duty if they had done nothing. Their endeavors had been to remedy the evils singly. The Government cast back upon the Socialist party the charge of pursuing a policy of aggravation. It was the desire of the Government to reconcile antagonism and promote the welfare of all classes.

Papal Questions.

ROME, Nov. 29.—The Vatican has received hundreds of telegrams inquiring whether the Pope intends to quit Rome. Cardinal Rampolla has replied to the Nuncios abroad that nothing has been decided upon.

An inquiry has been addressed to the German government through Baron von Schloezer as to whether the Emperor William's silence with reference to his visit to the Pope is to be interpreted as an indication of coolness between Germany and the Vatican.

German Distrust of Austria.

BERLIN, Nov. 29.—The Cologne Gazette alluding to a reported difference between Prince Henry of Reuss, the German ambassador at Vienna, and Count von Taafe, the Austrian Prime Minister, says that Germany regards with ever increasing disquiet the growing strength of those Austrian parties which are at heart hostile to the German alliance. The Post, discussing the situation in Austria, expresses fear that the influence of Germany is seriously threatened and that the alliance is imperilled.

A New Australian Industry.

SYDNEY, N. S. W., Nov. 29.—Ferret breeding is a new and highly profitable branch of farming in Australia and New Zealand. One firm has commenced business on a large scale, and has contracted to supply 14,000 ferrets per annum for three years to the government at $2 a head, the creatures being delivered when three months old. The stud of this particular firm consists of 200 ferrets and 30 rabbits, and the milk of three cows is required every day for their food.

The Hasdin Demonstration.

PARIS, Nov. 29.—The members of the Radical Left in the Chamber of Deputies have decided to take part in the demonstration at Baudin's grave on Dec. 2. The Municipal Council are receiving numerous adhesions from the provinces in favor of making the demonstration one of immense proportions.

Two Bodies Washed Ashore.

GLOUCESTER, Mass., Nov. 29.—It is reported that the bodies of two men have been washed ashore at Thatcher's Island. They are supposed to have been those of the men lost from the steamer Carrol.

Muskoka District's First Court.

BRACEBRIDGE, Nov. 29.—The first court for the judicial district of Muskoka, under the act of last session of the Ontario Legislature, was opened here Tuesday afternoon by His Honor Judge Mahaffy.

Burglary at Stouffville.

STOUFFVILLE, Nov. 29.—Early yesterday morning someone entered the house of Rev. Mr. Percy of this place and stole a pair of pantaloons and $20 in cash. No trace of the burglar can be found.

Rioting Pennsylvania Miners.

MOUNT CARMEL, Pa., Nov. 29.—Two gangs of Russian and Italian miners, between whom there has existed a bitter feud for months, met on the streets of Mount Carmel yesterday, and for an hour a bloody riot followed. Several on both sides were stabbed, and the injuries of three of the men may prove fatal.

Children Cry for Pitcher's Castoria.

TIMELY LONDON TOPICS.

KING MILAN'S GAMBLING ENTERPRISE FORBIDDEN.

Alleged Royal Surgeon—Serious News from Suakim—Emperor William's Illness—The Queenstown Governorship.

LONDON, Nov. 29.—Prince Louis Ferdinand of Bavaria, who married the Infanta Paz of Spain, is a very clever surgeon, and in one of the hospitals at Madrid recently operated on a woman suffering from cancer of the breast with complete success. His relative, Duke Charles Theodore, of Bavaria, the brother of the Empress of Austria, is both an oculist and a surgeon, and very skilful. But his fondness for the knife is not appreciated at the Vienna and Munich hospitals, for whenever he operates all regular arrangements are upset, and the whole staff is required to be in attendance on him. He must always be respectfully addressed as "Your Royal Highness," and strict etiquette is observed, all of which is decidedly a nuisance. When the Duke is at Vienna he often passes his whole day at the general hospital, and if any arms or legs are to be cut he hastens joyfully to the work.

King Milan, who is fearfully short of money and whose credit is utterly exhausted, has been obliged by the emperors of Russia and Austria to relinquish the plan which he had formed for realizing his coffers by establishing public gaming tables at Belgrade. As the wealthy nobles of Hungary, Austria and Russia would inevitably have become the earliest victims of his Servian majesty's roulette and rouge et noir tables, the two emperors have peremptorily forbidden the enterprise.

News from Suakim increases in seriousness. It is admitted that the present garrison is unable to drive off the besieging force. Suakim itself cannot be taken, for the causeway by which it must be approached is commanded by British gunboats, but neither can the native entrenchments be carried, nor their fire silenced. There is talk of sending more British troops to Suakim, and questions are asked in the House of Commons. Mr. Stanhope said troops would certainly be sent if needed, but no more than were needed to dislodge the rebels.

Lord Randolph Churchill's advice to Lord Salisbury to appoint a successor to Lord Sackville forthwith has been declined with thanks, so Mr. Smith's answer to Mr. Gourley in the House of Commons was understood to signify. But there is some feeling on the matter, and some sound Tories interpret his answer as meaning no more than that Lord Salisbury has not yet made up his mind. Lord Randolph, I hear, considers it so important that unless something is done he will call the attention of the House to the subject. The House has really nothing to do with sending diplomatists abroad, and if Lord Randolph speaks it will be to put pressure on the Government indirectly. Many member of the House agree with him, and the Opposition may be trusted to back him up if he wishes to be disagreeable to the Prime Minister. There is outside the House very little interest in the matter.

The Duke of Marlboro's quarrel with the rector of Woodstock has drawn forth a letter from the rector. The Duke, he says, has not closed the schools and has no power to close them. He has withdrawn his subscription, but it was only $50, not $500 as reported. He has forbidden the rector to give religious instruction in other schools, which seem to be under the duke's control. Finally he has withdrawn the rector's privilege of driving through Blenheim park. The rector, it must be said, put himself in the wrong originally by assuming to pronounce against the validity of the duke's recent marriage. Whether the duke could not afford to ignore this is a question which perhaps can only be answered in Woodstock.

The Duchess of Sutherland's death is sincerely regretted, but socially will have little effect in London, except that of putting a number of families into mourning. Stafford House has rarely been opened of late. The Duchess has for many years had not only the respect, but for reasons widely known, the deep sympathies of society. The duke's absence at such a moment, the circumstances of his journey and his companionship are commented upon with severity. The Queen's journey to London and visit to the family are a striking proof of her friendship for the late duchess.

There have been sundry reports in court circles here of late that Emperor William is suffering from an acute attack of his chronic trouble, a swelling inside the ear, about which the doctors are much alarmed. It keeps him awake almost continually, and drives him to constant occupation for relief. His odd way of turning up at sunrise drills, and his strange activity in rushing from one function to another all day, are thus accounted for. On Sunday one of the people best informed in England on inner Berlin news told me that he had become worse during the last few days and it is announced that owing to a cold he will remain indoors during the rest of the week. If the ear malady should take a serious turn there would be immense excitement all over Europe.

There is a rumor in the lobbies that Lord Balfour of Burleigh is to be Governor of Queensland, in place of Sir Henry Arthur Blake, who will be forced to resign in the face of the Irish protest.

CUT HIS THROAT.

A Letter to Two Witnesses in His Pocket—Walter Strong Will Not Die.

NEW YORK, Nov. 29.—George Strong, 47 years old, a waiter by occupation and an Englishman by birth, tried to kill himself at 3 o'clock yesterday afternoon by cutting his throat with a razor at his lodging house, 56 New Chambers-street. Thomas Cassidy and Charles Broad, who lived in the house, and Thomas Gorman of 18 Cherry-street told the Oak-street police that they were all in Strong's room when Strong caught up a razor, the blade of which was tied to the handle by a string, and drew it across his throat. After notifying the police they found the following note:

"Dear Tom and Charley: God Bless you both. I am starving for hunger. I hope the Lord will forgive me for this. George Strong."

On the other side of the sheet Strong had written:

"Mr.——has Being the Carce of all this, but I forgive him."

Strong is said to have a wife living in England. The police noted "despondency" as the cause of his attempt at suicide. He was taken to the Chambers-street Hospital, and will probably recover.

France's Extra Budget.

PARIS, Nov. 29.—The Budget Committee of the Chamber of Deputies before approving the extra budget of 1,000,000,000 francs for proposed defensive work has decided to interrogate M. De Freycinet, Minister of War, on the necessity for the works and the Minister of Finance on the extent of resources already available.

The Haytian Blockade.

WASHINGTON, Nov. 29.—The Secretary of State has received a telegram from Cape Haytien stating that in spite of the blockade declared by the provisional Government at Port au Prince against that port several ships have entered, among others the German steamer Holmtia on Nov. 22, which landed 10,000 bags of coffee, and the German steamer Cremona, which entered on Nov. 27, and landed a cargo from Europe.

THE LAST DAY IN JANUARY

FINALLY FIXED FOR THE MEETING OF PARLIAMENT.

The Stanley Wasn't in the Storm—Continuing Geographical Reconnoissance—The Chaudiere Lumber Cut.

OTTAWA, Nov. 29.—At the meeting of Council yesterday it was decided to call Parliament for the despatch of business on Thursday, Jan. 31.

The anxiety felt about the new Government steamer Stanley, which it was feared had been caught in the recent storm, has been allayed by the receipt by the Marine Department of a cable message from Glasgow stating that the steamer was only handed over by the builders to the agent of the department on Saturday, and was expected to sail from Greenock yesterday.

Sheriff Hathaway of Clark County, Mont., arrived here yesterday for the purpose of getting the warrant for the extradition of George Godea, or Cedea, a French half-breed who escaped from Helena Jail while under sentence of death for the murder of an old settler named Embody. Godea was captured by the Northwest Mounted Police and is in jail in Edmonton. The police will receive a reward of $300 for his arrest. Sheriff Hathaway left for Edmonton last night.

The Commissioner of Inland Revenue will probably order another analysis of milk to be made shortly. The department is at present analyzing baking powders and lard.

In a letter received by a gentleman here the school instructor of the Obe Indians who removed a few years ago to the Township of Ofisco, Muskoka district, reports that the crops have been very good. There is plenty of work on the reservation and wages are high.

Dr. Montizambert, medical officer at Grosse Isle quarantine station, is in the city. He says that the number of cases of infectious disease dealt with at the quarantine station were about the same as last year. The new regulations which went into operation in 1887 are working admirably and producing the most satisfactory results. Dr. Montizambert states that it is not uncommon for him to have yellow fever cases at Grosse Isle. Last August he believed three convalescent cases arrived at Grosse Isle. The patients were landed and kept in the hospital until well and the vessel was thoroughly fumigated. In regard to the scheme of building a landing at Grosse Isle on the plan of that at New Orleans for disinfecting clothes and bedding, Dr. Montizambert says he is still inquiring into the subject and he will very likely recommend that the New Orleans plan be not adopted and that the construction of the landing be put off for another year. He has studied the whole question in the United States and is convinced that it is possible to get some better system.

A deputation representing the Dominion Land Surveyor's Association had an interview with the Minister of Interior yesterday with reference to geographical nomenclature in the Northwest. They pointed out that the same names for lakes and rivers were repeated over and over again, which made it very confusing. Mr. Dewdney promised to take the matter into consideration.

The lumber cut by the Chaudiere mills during the past season is estimated at about 500,000,000 feet which is somewhat in excess of last year's cut.

The contract for harbor works at Penetanguishene has been awarded by the Public Works Department to Porter & Reed of Waterloo.

Hon. Mr. Chapleau's health does not improve, and some of his friends are urging another trip to Paris, but he scarcely feels strong enough to undertake a sea voyage at this time of the year.

Commander Bolton of the Bayfield has presented to the Marine Department his report on the survey of the Georgian Bay conducted last summer in the entrance to Collingwood harbor and a portion of the bay near Owen Sound.

Mr. A. M. Burgess, Deputy Minister of Interior, who has been on sick leave for three months, will resume his duties on Jan. 1, by which time it is expected his health will be entirely restored.

NO LAW TO FIT THE CASE.

A Woman Arrested in Montreal for Wearing the Attire of a Man.

MONTREAL, Nov. 28.—A woman named McKeen was brought before the Chief of Police yesterday charged with going about dressed in man's clothes. She came from below Quebec some six months ago and hired out as a gardener to a gentleman in this city and has been working there ever since. She has occupied the same room with the coachman who yesterday morning made the discovery that she was a woman dressed in man's attire and had her arrested. The Chief discharged her as he could find no law under which he could hold her. She says that she left her husband because he threatened to kill her and she was dressed in men's clothes in order to obtain employment.

Ambitious City Notes.

HAMILTON, Nov. 29.—Shortly before noon yesterday a scaffold on which several men were working at a house in process of erection, gave way and Marshall Kirkendall, a painter, was thrown to the ground, a distance of about 20 feet. His jaw was broken and he sustained other painful injuries. The other men saved themselves by jumping on the roof of the bay window.

J. D. Barnes of Philadelphia, Supreme Chief of the Knights of the Golden Eagle, instituted a lodge of the order here last evening.

A painter named Pollit took a fit at the top of the main staircase of the Masonic Building yesterday morning, and tumbled to the bottom. The fall cured his fit and he was able to walk home.

The work on the two arches for the Stanley reception is proceeding rapidly. The merchants' and manufacturers' arch will be 70 feet high. It is a double arch, with one passage for the street car lines, and the other for carriages.

Belleville Briefs.

BELLEVILLE, Nov. 29.—An expert is examining some of the Marmora gold mines in the interest of an English company.

Thos. Gordon, who left Millbridge on Sunday night on his way to a shanty, was the next morning found drowned in a creek.

Thos. Minor was yesterday remanded until Monday on the charge of stealing $33 and a bank check from his employer, John Matthewson. The money was stolen from the pocket of Matheson's vest which he had hung up in his office.

Yesterday afternoon while Mr. F. Pymer was working over a spirit lamp it exploded, burning his face very badly.

Burned to His Cabin.

ST. THOMAS, Nov. 29.—The facts regarding the death of Stephen Shelby who was burned to death in his cabin on the fifth concession of Yarmouth, are such as lead to the impression that deceased had while drunk overturned the lamp, which set fire to his cabin, consuming it and him also.

The Crew Probably Drowned.

PROVINCETOWN, Mass., Nov. 29.—The steamer Matherson has arrived and reports having "picked up" on Monday last yesterday the schooner M. E. Morrison of Shelburne, N. S., which had been abandoned. She was dismasted and waterlogged, only the bow and after house are above the water and her hatches are off. The fate of the crew is a mystery, but they were probably washed overboard during the gale.

Letters From Colorado

And From the "Pen of a Ready Writer."

NUMBER ONE.

The following is the first of a series of letters from the pen of Rev. W. C. Bradshaw, which the EXAMINER will have the pleasure of presenting to its readers from time to time.

DENVER, Nov. 22nd.

DEAR EXAMINER,—According to promise, I send you a first instalment in the way of correspondence, recording some of my impressions of this great western state, and especially of this *marvellous city* under the shadow of the Rockies. I reached Denver on Hallowe'en, and since then have been about the city so much that I think I can form a fair estimate of its present condition and future prospects.

But first let me describe the journey here. It has, no doubt, often been done before, and one cannot but wonder at the contrast in travelling to this far-off state in 1888, as compared with the experiences of the hardy pioneers who made their toilsome way across the prairies some thirty years ago, by ox train and on foot.

After leaving Toronto, per C.P.R., my first stopping place was Detroit. Here we passengers from Canada had to pass the customs officer, and this caused a considerable delay. For my own part, it was not difficult nor troublesome. The first thing on which Uncle Sam's servant looked was a stole. "What's this?" he said, pointing to it. When I answered it was a stole and that was a clergyman *en route* for the west, he immediately chalked my baggage and suffered me to depart in peace! I might have had a great deal of dutiable stuff and got off scot free. As it was, I did not fear his searching, and these good judges of human nature generally can tell who are likely to have contraband material in store and who are legitimate travellers. Still one cannot but ask, why subject the ordinary tourist to such inconvenience at all? Why should not travellers between the States and Canada have the privilege of passing to and fro over the imaginary line which divides the two countries,

WITHOUT LET OR HINDRANCE?

Detroit is certainly a very fine, prosperous and growing city. It is, I understand, filled with Canadians, who have made their homes there, and who stand in no respect behind the native Americans, in push, enterprise and vigour. Pity they couldn't remain at home, one thinks, and aid their own country. The latter part of October found the city by no means a pleasant place. The weather during my four days' stay was execrable—rain and fog were continuous, and the mud on the streets and crossings was something terrible. There is no need to describe the principal buildings; they are a credit to the city and illustrate splendidly the go-aheadativeness of the population. I was principally interested in the churches and had the privilege of attending four on the Sunday I was there. The Episcopal clergy are, many of them, from Canada, and, indeed, throughout the whole diocese it is said they number at least one-half of the entire body.

I must tell your readers of one service which I attended—very unique in its style and character. Accompanied by Dr. Johnston, the rector of Christ Church, with whom I dined, we went to a coloured church at four o'clock, when evening service was generally held. This little church, entitled St. Matthew's, owes its origin, I understand, to a lady now resident in Denver, Mrs. Williams, wife of General Williams, and mother of the Rev. G. Mott Williams, editor of the *Michigan Churchman*. For many years Mr. Williams officiated at St. Matthew's, but now they have no regular priest. Yet, these coloured people are very deeply interested in their little church, and have a first class Sunday school and also regular services conducted by laymen from among themselves, when clergy cannot be had. They have a very nice chapel, a splendidly trained and surpliced choir of boys and men (all coloured people), an organist of the same dusky hue, and everything is done decently and in order. Their choir enters from the vestry, headed by a lad bearing a processional cross, and the service on the occasion when I was there was one of the heartiest in which I have ever joined. Every church here has an altar cross standing at the offertory, as a rule, and yet there is no talk whatever of high or low, and

NO DIVISION BECAUSE OF RITUAL.

The coloured people especially like an ornate service, and, without attention to these matters, Episcopacy does not thrive among them. A coloured priest from New Orleans preached the sermon, which was scholarly and devout. To my utter astonishment, he read it closely from manuscript, but I could not help wishing it had been otherwise.

On Monday I left Detriot for Chicago, at which latter city I also remained some time to see the sights. I was privileged, through a friend, to enter on the floor of the Stock Exchange and mingle for a time with "the bulls and bears." There was not much earring that day, but the noise was sufficient to give you an idea of the uproar there must be during a panic. During the evening the city was full of processionists and bands of music, for Democrats and Republicans vied with each other in enthusiasm, and even little children of tender age were in the ranks and showed by their colours to which party they belonged. On this side the border every chance for making a display is eagerly seized and then it is "done up" in gallant style. I have witnessed this in Denver, both before and after the election. Of this more anon.

Leaving Chicago by the Burlington Route at 1 p.m. on Tuesday, Oct. 29th, I started on my long ride of 1,026 miles. This road has solid vestibule trains of the most comfortable *description*, and a *dining car runs along as* far as the Missouri river. Unfortunately no trains ran "diners" beyond that point, and in consequence the meals are not nearly so good. The dining car meals are noted for their excellence by all travellers on these roads, and they deserve the good name they have acquired. The uniform price is 75 cents per meal and they are worth it. The country in the vicinity of Chicago is flat and uninteresting, and, indeed, the same description will answer for many hundred miles. At 7 o'clock a.m. on Wednesday we are roused up for breakfast at Lincoln, the capital of Nebraska, a smart town of about 20,000; and here the waiters at the refreshment room produce many smiles by their peculiar method of "serving tables." They offer you fish, eggs, potatoes, steak, in the most extraordinary disorder, and preface each dish with the words, "would you like some ——?" The humorist of the party wanted to know if the hash were fresh? It is surprising how one becomes accustomed to the motion of the train. These

VESTIBULE COACHES ARE A GREAT IMPROVEMENT

on the old plan, especially in keeping out dust. The Pullman seemed as cosy and nice as a drawing room, and I reached the end of the 1,026 miles without the slightest particle of fatigue. We arrived at Denver to the very minute of the advertised time—a feat, surely, in railway travelling. All day long we have come over the dry, dusty, dreary looking soil of Nebraska and Colorado. To all appearance, it would be useless to plant seed on such a barren-looking desert. Yet *everywhere the settler's house* can be seen, and there is very little land unoccupied. Here and there we see Indian corn, but apparently nothing else. Yet I am told that, by means of irrigation, splendid results accrue to the farmer, and this dreary stretch of country blooms and blossoms as the rose. All I can say, is, to me the country is much less inviting than the forests of Canada, and life, either on a ranch here, or in one of the wretched looking "towns," or villages, through which the iron horse carries us so quickly, would be miserable in the extreme. The great lack of the country is water. Not a single stream or lake of any consequence have I seen in a day's rapid travelling. In my next I will *give* a description of Denver—this Mecca of invalids and consumptives the wide world o'er.

Yours truly,
W. C. BRADSHAW.

Another Visit.

In deference to the expressed wish of very many of our citizens who were unable to meet Mr. Morris, the expert optician, during his visit to my store last week, I have succeeded in arranging for another visit for Saturday next, the 1st December, which will afford the desired opportunity for the disappointed ones; and I would counsel all *those who value their sight* to see him. His unequalled ability assures, to all purchasers, unexampled ease and comfort in the use of the very best spectacles—the "B. Laurance & Co.'s" manufacture, for which I am the sole agent in Peterborough and vicinity. Do not mistake the date; for one day only, Saturday 1st December.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats. This season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Li-quor tea notice. I will clear out my entire stock of the famous Li-quor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

Rheumatic Pains

Require no discription, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nerviline. It is safe to say that nothing yet discovered has afforded equal satisfaction the to the suffering. A trial can be made at a small cost, as samles bottles of Nerviline can be had at the drug stores for 10 cents, large bottles 25 cents 6d48w

"Eureka" and "Golden Hair Wash."

These are two of A. Dorenwend's standard preparations. The "Golden Hair Wash" gives the hair that beautiful golden shade so universally admired; it does not injure the hair in the slightest degree. "Eureka" removes all superfluous hair from the face, arms or neck at one application. See that each bottle of either preparation bears on the label the signature of A. Dorenwend. For sale by all druggists everywhere. dw

Children Cry for Pitcher's Castoria.

WIDDEMER CHOOSES HIS WIFE.

He Could not Keep Her and His Pastorate too, so He Threw up the Latter.

PHILADELPHIA, Nov. 29.—By the terms of the sentence imposed upon the Rev. Howard T. Widdemer by Bishop Whitaker, the clergyman was practically obliged to choose between keeping his wife and remaining in the Protestant Episcopal Church. He has now decided to accept the former alternative, and on Friday last he sent the following letter to the Bishop of the Diocese of Pennsylvania:

"NEW YORK, Nov. 23, 1888.

"Right Rev. O. W. Whitaker:

"I desire hereby to withdraw from all connection with the Protestant Episcopal Church, in order that I may feel entirely free to continue the Lord's work in whatever direction his providence may seem to point. Please accept this letter as a final and absolute severance on my part of all relations with the above named church.

"Very truly, HOWARD T. WIDDEMER."

The charge upon which Mr. Widdemer was found guilty by an ecclesiastical court and sentenced by the Bishop was the violation of the church canon upon marriage and divorce. It was shown that he had been divorced from his first wife in Hartford, Conn., on April 11, 1882, upon a charge of desertion, and that on Nov. 1 of the same year he married again, the first wife being then living.

GUILTY OF MURDER.

A Philadelphia Woman Convicted of Poisoning Her 9-Year-old Daughter.

PHILADELPHIA, Nov. 29.—The jury in the case of Mrs. Sarah Jane Whiteling, who has been on trial for the past three days on a charge of causing the death of her 9-year-old daughter Bertha, by administering poison in April last, brought in a verdict of murder in the first degree last evening.

[The crime for which Mrs. Whiteling was tried was one of a series of three with which she is charged, the allegation being that she not only murdered her daughter Bertha but also her husband and their baby boy, aged 2 years, and collected insurance on the lives of her victims amounting in the aggregate to $3500. The defence at her trial was insanity.]

Genteel Quacks.

"Yes, it pays," said a big, fat physicain, with a name which is known throughout the *medical world*. "I have practice worth $40,000 a year." "Women"? "Yes you've guessed it first time. They pay $10 every time they come into my office. When one gets on my list I tell you she stays"! and Dr. H—— laughed long and loud. This is quackery—gilt-edge, genteel quackery—to keep suffering women paying tribute year in and year out, and doing them no good. Dr. Pierce's Favorite Prescription cures the peculiar weakness and diseases of women. It does not lie to them nor rob them. a

Reliable Remedy for Rheumatism.

Procure a bottle of Hagyard's Yellow Oil from our medicine dealer, and use according to *directions*. It cured Ida Johnson, of Cornell, Ont., of that complaint, and she recommends it as a sure cure. For 25 years it has never failed to give satisfaction. 2w47d

DARING AND SUFFERING.

[CONTINUED]

On the tenth day we reached the Chattahoochee river. There was a rail fence alongside of the woods, and we took two large rails, crossed them near one end, lashed them fast with bark, and putting our clothes on the highest end, we floated at the other till we got across. We took a good sleep in the thick cane break on the other side.

The next evening we came to a drove of small pigs and began to figure for one. Finally I stood behind a tree with a club; Brown bit off little pieces of apple and pitched to the pigs; and soon one little fellow commenced to pick up the pieces; then Brown kept working backward till he passed the tree where I stood, and when the pig followed up I shot him with my stick! Previous to this we found an iron strap that had fastened a shovel to its handle, and one part of it had been worn thin. This was rubbed up a little on a stone and it made a very good butcher knife. We split the pig, and with such a half run up the side of the mountain, and waited till dark for a wonderful feast! We could see over the farm where there was a fire burning out in a back field, and we went there and roasted pig most of the night. Then we had one of those feasts you read about! That pig lasted us till we struck the Hiwassee river in the corner of North Carolina. Here we had thoughts we could run a boat down by night and hide in the day time. But when we saw the river we changed our mind, for it was a swift stream, full of great rocks, where we could not have run a canoe by daylight. But we tried to cross, and each picked out a rock that we intended to reach. I plunged in and missed my rock, as the current swept my feet away while I tried to put my hands on it. I looked to see what had become of Brown after I had got on a flat stone much further down the river than I intended. He was sitting on a stone laughing at me, though I did not see where the laugh came in. He aimed me to wait and see if he could get that far down! He started, and landed far below me, and did not feel so much like laughing!

But the hue of war came when we were on the other side, for now we had to cross the mountains which we had been traveling lengthwise before—mountains "it took two men and a boy to see to the top of it!" It was so rough that we were four days going eight miles.

In a deep mountain valley beside a river we met two men armed to the teeth. We all stopped as if we had been shot, but quickly moved on again. We simply spoke when we met, and all seemed glad to get by without anything more to do with each other. Soon we came to a small log cabin, the door of which was fast. We waited a

BROWN AND KNIGHT CAPTURING A PIG.

long time to see if anybody came, and as none did, we concluded to investigate it. Brown stood guard, and I climbed down the wide outside chimney and found nothing inside but two ears of corn. I went up the ladder and there was a bed all made up ready for a person to get in. I turned down the covers and found a rifle and all the furniture but powder; and as there was none of that I did not care to take it. But I carried the two ears of corn out of the chimney with me. There was fire in some of the stumps on the mountains and we roasted the corn, and that was our supper. We went down the river a little further and camped for the night.

The next morning we continued down the river, making good progress, for now the trail was better; when suddenly, around a sharp bend, we came to a large house with two men sitting on the porch. We concluded to go up to them and ask how far it was to Cleveland, and maybe we could get something to eat. When we hailed and asked, one of the men came down to us and told us it was sixty miles. Then we asked for some dinner, telling him that we were sick soldiers. He said we could have some dinner, but for his part he was opposed to the war. We were, too!

We got to some water and some soap, which improved our appearance a good deal, and finally dinner was ready. There were two ladies, one old and the other young. The old lady was one of the kind that do a good deal of thinking and say just what they think. After we were down at the table, she said she wished the Yankees would get there, so that they could get some Lincoln coffee. Then I said that I wished so, too. Then she accused us directly of being Yankees ourselves, and as we concluded that those two men could not arrest us anyway, we said that we were Union soldiers, and belonged to the party called "engine thieves." They had all heard of that raid, and now made us welcome indeed! They invited us to stay a week and rest up. We were willing, if we could be secreted somewhere. They told us that they could hide us where the "damn grass rebel" could not find us. I told them that was just where I wanted to go!

We had a good time, being kept in the back room during the afternoon. They put a large dog out on picket, and we told them army stories and sang songs till dark. Finally the dog barked and then stopped. They told us not to be uneasy, as the dog's master was coming. They told him whom they had in the back room, and he came in and took us by the hands, and laughed and cried, and told us some hard tales about his being impressed because he was for the Union.

It was now settled that we should stay for a few days. A large basket of grub was prepared, and their boy, pretending to be going down hunting, made ready a large torch. We were to follow a short distance behind, with quilts and provisions. We first went down the river, and then turned up the mountain and went up, up, till I thought we would never get to the top. We turned into another ravine and again went up, up, till we came to a solid wall across our ravine. It looked as if the top of the mountain had slid down and barred the passage. Our guide turned a little to the left, and anon the bushes he got down and showed us a hole big enough to crawl in. He entered with his torch and we followed. There was a good sized room in the cave, and he said we could have all the fire we wanted, and halloo as loud as we pleased without danger. He did look as if the Evil One would have quite a feast to find us here. Then he gave us countersigns and promised to come again, and left us to enjoy our good fortune alone. We began to eat the provisions brought along, and continued till it was nearly gone. We would eat and lie down, but get hungry again before going to sleep and eat some more. Finally we quit lest our friend should not come back in time; but he did, and brought plenty of food with him.

For five days we were fed and rested in this safe retreat; then our kind friend took us down again to the river and gave us a guide whom we followed over the mountains. After a long time I noticed a light in the woods and that he was making for it. There we found an old house standing alone and surrounded by the forests. When we got to the door my pulse sprang up, and to my surprise it was full of men. They told us to come in, for we were among friends. We had a good handshake all around, and then one old man asked us if we had any money. We told him we had not. He said that our looks showed that we had no clothes, and turning to the company he said, "We must get them clothes and money, for men cannot travel without them." We were taken to a barn and kept till the next night, and were then given a suit of clothes (this was the first they had received since leaving the Union army) and $10 each, and a guide who was to receive $50 for taking us three nights' journey.

This placed us across the Tennessee river, when we were sent with instructions from one house to another.

This was comparatively easy traveling, and we passed rapidly and safely on till we reached our own lines. We had spent forty-seven days and nights passing over some of the roughest country that ever laid out of doors!

The rough and simple language of this sketch covers a truly heroic achievement. The devotion to their sick comrade, who was, in spite of all, returned to us in prison, and gave an account of their adventures that led to their singular battle with the hounds and the still more terrible race in which they escaped from horsemen and dogs.

The Magic Bottle Imp.

A very exciting trick, by means of which a bottle can be made to jump from one end of a table to the other, or from one chair to another, or from the floor to the table, or from your hand to your friend's, can make it lay on its side. But as soon as you command it to stand up it will be very obedient, and will stand up as quiet as a sleepy Kitten. Richards keeps it for fun, and wagers he can make it perform this simple trick, but the way it is done is not easily seen. The bottle can be handed to any one for examination, and full directions for performing the tricks sent with each Bottle. Sample by mail, postpaid, 25 cents; 3 for 50 cents. SUN
LIFE ASSURANCE COMP'Y OF CANADA.
HEAD OFFICE, MONTREAL.

Both in Magnitude and Profitableness, the Business for 1887 has been almost everything that could be desired.

The life policies now in force are 7,128 for $10,873,777.69, on 6741 lives. We have moreover $3,207,600 00 insured under 1,840 accident policies, so that the total current contracts of the Company are 8,969 for $14,081,377.69.

The income for the year shows the very largo increase of $122,331:23 over the figures of 1886, the total being $496,831.54. The revenue is now half a million dollars per annum, or as mentioned in the report, over $1,600 for every working day in the year, and even this he believed was but a mere introduction to what is will be in a few years hence. The gains from time to time are well illustrated by the following table:—

Period	Gain in income.	Gain in assets.	Gain in assurances.
1872 to 1876, four years	$ 54,611 21	$169,482 69	$1,149,743 00
1876 to 1880, four years	38,580 67	195,188 29	1,167,386 14
1880 to 1884, four years	136,976 84	363,264 31	2,962,924 90
1884 to 1887, three years	217,451 89	475,607 24	4,029,373 65
Total in 1887	$495,831 54	$1,750,904 48	$10,873,777 69

It is very pleasing to notice that the gains for the last three years only are 60 per cent. more than those of the preceding four years.

DRUNKENNESS
Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of tea or coffee without the knowledge of the person taking it; it is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an confirmed drunkard. Thousands have been given drunkards as a cure, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it is an utter impossibility for the liquor appetite to exist. Full particulars in pamphlet free. Address in confidence, GOLDEN SPECIFIC CO., 185 Race Street, Cincinnati, Ohio.

They Must Go!

Experience in past years has taught us that it is a big blunder to keep goods from one season to another, even if the goods are sold at less than cost.

"TURN THE MONEY OVER," we think is the correct idea. We began this season with a

Fresh New Stock of Imported MANTLES

made at close cash prices. We bought largely, and have a large stock still. They must go—let the price be what it may; you will get the benefit and we shall be glad to give you a bargain in a mantle for yourself or your friend.

The Daily Examiner.

THURSDAY, NOVEMBER 29, 1888.

The Weather.

North and northwest winds, mostly cloudy, light rain or sleet in some localities, not much change in temperature.

Police Court.

THURSDAY, Nov. 29.

George Williamson, of Hastings, came to town yesterday and proceeded to do the rounds. By night he was *hors de combat* and minus his "wad" of about $70, which had been lost. He was taken in charge by the police, who found the money in the pocket of an overcoat that had been left in one of the hotels he had visited. This morning he made his bow before the police magistrate, pleading guilty to a charge of drunkenness, and was discharged with a warning.

An assault case was next called. A lad named Zotique Lafleur laid a complaint against James Craig, foreman in Mr. John Craig's bakeshop, for striking him several times. It was shown that the boy was using foul and insulting language, and when told to shut up refused to cease his talk and was struck therefor. While not justifying the defendant in striking the boy, the magistrate held that the lad's conduct had been such that he could not expect the court to do anything for him. The case was dismissed.

Chancery Court.

The autumn Chancery Sittings of the county of Peterborough will begin to-morrow morning at nine o'clock, before Chancellor Boyd. Following is a list of the cases:—

BURNHAM VS MOLONEY.—Blake & Co., for plaintiff; Dumble & Leonard, for defendant.

HILLIARD VS BECK AND STOTHART.—Dumble & Leonard; A. P Poussette.

MOLSON'S BANK VS DREW, LEWIS & Co.—Lavell; McClive & Co.

REDPATH VS CASTLE.—Hall & Hays; Edmison & Dixon.

BEAVIS VS BRADBURN.—A. P. Poussette; Edmison & Dixon.

FITZGERALD VS MCWILLIAMS.—K. B. Edwards; McLaren, Shepley & Co.

Blasphemy Against the Holy Ghost.

To the Editor of the Examiner:

DEAR SIR,—There is hardly a more misunderstood scripture than the subject above, as referred to in Matt., xii, 31-32; Mark, iii, 29; Luke, xii, 10.

Men's wisdom and speculation are plentiful enough, even "learned and deep thinking" men have gone far from the meaning, while others, thinking the passages "hidden," have not failed to give the world "their thoughts" on "so deep" a subject.

As was said to the Saducees in Matt., xxii, 29, might be applied to them: "Ye do err, not knowing the scriptures." It is one thing to *read* and quite another to *know* the scriptures: for "the natural man receiveth not the things of the Spirit of God: for they are foolishness unto him; neither can he know them, BECAUSE they are spiritually discerned."—I Cor., ii, 14.

There is nothing mysterious whatever, nor hidden, about the passages relative to sin or blasphemy against the Holy Ghost, which any sensible person can easily see for him (or her) self. Now, turn to Matthew, xii, and verses from 22 to 30, and Mark, iii, verses from 22 to 27, and we find the occasion that draws from the Lord the solemn words concerning blasphemy against the Holy Ghost. He had been casting out devils, but the scribes and Pharisees (learned men and religious folk) in hypocrisy rejected Him, as many of the very same kind do in this age also. The words of the Lord on the occasion may well strike terror into the hearts of those who heard him; and they are full of solemn warning in these days of apostacy and hypocrisy also; for the world's religious systems of to-day is a counterpart of apostate Israel in the days of the Lord Jesus, on the earth 1850 years ago; so men should "take heed what they hear," Mark iv, 24.

I have before me three copies of the Scriptures, all of which show plainly what this sin is; and besides I have the translation, by Tischendorf, of the Vatican, the Sinaitic, and Alexandrian Manuscripts, the three oldest known, reliable manuscripts of the New Testament Scriptures. The three copies first mentioned are the Authorized, the Revised and the Douay Version. Mark iii, 30, gives the answer as to what the sin is. The two verses, 29 and 30, read, "But he that shall blaspheme against the Holy Ghost hath never forgiveness, but is in danger of eternal damnation, because they said He had an unclean spirit." (Authorized Version.) "But whosoever shall blaspheme against the Holy Spirit hath never forgiveness, but is guilty of an eternal sin, because they said he had an unclean spirit," (Revised Version. "But he that shall blaspheme against the Holy Ghost shall never have forgiveness, but shall be guilty of an everlasting sin, because they said: He hath an unclean spirit." (Douay Version.)

In the manuscript mentioned there is this change only in the words (Sinaitic) "but shall be in danger," and both Sinaitic and Vatican the words "of eternal sin."

There is I hope no further comment necessary; the word "because" (for the reason that) shows plainly that the blasphemy against the Holy Ghost consisted of saying that Jesus cast out devils by the power of the devil, see Mark 3, verse 22.

Creditors' Meeting.

A meeting of the creditors of Mr. Thos. Menzies was convened in the law office of Mr. W. H. Moore, his solicitor, yesterday afternoon, when nearly all interested parties were represented. Mr. Menzies made a detailed statement of his affairs, of which the following is an abstract:—

Liabilities, unsecured:	$18,000 00
" secured	14,000 00
Total	$32,000 00
Assets:—	
Stock	$14,000 00
Book debts	200 00
Real estate, estimated	16,000 00
	$30,200 00

The secured liabilities are mortgages upon town property, farms in Dosro and Chandos, a farm in Proton and a house and lot in Mount Forest. A proposition was made by Mr. Menzies to pay all unsecured creditors 25c. on the dollar, cash, within one month, after all had signified their acceptance. Some present were willing to accept the compromise. It was apparent that Mr. Menzies had the sympathy of his creditors from the fact that a suggestion to put the estate into liquidation received no support. A circular is being sent to-day to all creditors asking them to state their intentions as to their acceptance or rejection of the 25 per cent. compromise. Mr. Menzies has been a long time in business in Peterborough, and a knowledge of his careful business methods makes his suspension a matter of surprise and regret.

A Very Sudden Death.

Yesterday between twelve and one o'clock Mr. Matthew Bell, an old and respected resident of Smith, died very suddenly while sitting in his chair. He was in his usual health and was talking to a lady visitor, when he fell forward in a faint and would have fallen had he not been caught. In a few minutes he expired, before anything could be done for his relief. Apoplexy or heart disease is supposed to have caused his death. The funeral will be held Friday afternoon at two o'clock to Lakefield. Deceased was born in Canada 68 years ago, shortly after his parents arrived in this country from England. While yet a child his parents settled in Smith on lot 17, concession 9, and here he grew up to manhood. When his parents died he came into possession of the homestead, and lived there with his family till five years ago, when he rented the farm and moved to Selwyn, where he died. Deceased married 45 years ago, Nancy a daughter of Mr. Stephen Nicholls, Smith, who survives him. Their children were four in number, but two daughters died at an early age. The remaining son, Thos. N. Bell, lived with his parents, while the daughter, Mary Jane, is married to Mr. Robt. H. Braden. Deceased was one of the most respected residents of the township, and his sudden death has created much sympathy for the bereaved wife and family.

Change of S. A. Officers.

Capt. Howell, of Peterborough corps of the Salvation Army, received instructions this morning to proceed to Toronto, and will leave this evening. He has been promoted to the position of supervising officer. The captain has made many friends during his four months' residence in town, who will wish him success in his new field of labor.

It is expected that Capt. Howell will return to take charge of farewell meetings on Sunday next. Staff Capt. Marshall will also be present at these meetings.

Staff-Captain Marshall, of Ottawa, will take the position recently held by Staff-Captain Bolton, and will take charge of the meetings at the Salvation Army barracks on Saturday and Sunday. He will arrive in town on Saturday.

Progressive Campbellford.

The Campbellford *Herald* issued a special edition this week containing a six column business review of the village and its mercantile and manufacturing interests. The present population is 2,100 and the villagers are looking forward to incorporation as a town. Campbellford boasts of anumber of important industries, including two iron foundries, three woollen mills, two flour mills, paper mill, two sash and door factories, two saw mills, a furniture factory and several other smaller industries. The cheese and dairy industry is also developed, some $120,000 worth of cheese being annually exported from the district.

Change in Confectionery Business.

Mrs. Harvey, of Midland, having purchased the confectionery business of Mr. John Craig (the lower shop), took possession yesterday and will hereafter conduct the business, as confectionery shop, lunch rooms and pastry shop. Mrs. Harvey comes well recommended from Midland, and, having employed a first class confectioner and pastry cook, is prepared to serve the public in these lines with a guarantee of satisfaction. Fresh oysters received daily and served in every style at all hours. Hot lunch at all hours. Remember the shop, 422 George street. Patronage solicited. 6eod126

This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

The Late Mrs. Roxburgh.

The EXAMINER announces with deep regret, which will be shared by a sympathizing public, the death of the wife of W. E. Roxburgh, Esq., of Norwood. This melancholy event took place on Wednesday morning. This bereavement is doubly heavy, coming, as it does, so closely upon the death of Mr. Roxburgh's eldest daughter, which occurred only about two months since. Mr. Roxburgh and family have the earnest sympathy of the entire community in the terrible bereavement that has removed from the household both hope and head within two brief months.

A Practical Proof.

Mr. G. C. Creelman, B.S.A., of the Ontario Agricultural College, and brother of Messrs. A. R. & W. F. W. Creelman, barristers, of Toronto, has lately been appointed lecturer on botany and geology to the Mississippi Agricultural College, which is one of the best and most largely attended agricultural colleges on the Continent. No more practical proof of the high standing of the Ontario Agricultural College could be presented than the fact that the foremost agricultural institution comes to it for professors.

Still at Large.

P. C. Adams returned from his trip through the northern townships yesterday without having discovered a single trace of the man who is suspected of outraging the little girl. The constable has been gone since Saturday night last, and made a thorough search of Eumismore and other townships, reaching even the lumber shanties back of Minden, where, it was thought, he might have gone. But the fugitive has carefully covered up his tracks and not the least clue could be obtained that might point to his whereabouts.

Church Officers Elect.

A congregational meeting of the George Street Methodist Church was held last evening when the following stewards, nominated by the pastor, Rev. M. L. Pearson, were elected:—Messrs. W. J. Mason, B. Shortly, T. W. Robinson, G. W. Powell, Dr. Pitts and J. Carey; Mr. Dumble, recording steward, and Mr. B. Shortly, poor steward. The following representatives were also elected: Messrs. J. J. Hartley, Thos. Morrow, Dr. Goldsmith, W. J. Yelland, Jas. Emmerson, Jas. Might and A. E. Scott.

Presentation

Master Willie Noyes, of Ashburnham, eldest son of Mr. Charles Noyes, has accepted a position in Belleville. The Sunday school class of which he has been teacher, presented him with a handsome volume of poems. Mr. Noyes' friends wish him every success in his new departure. He leaves this week for Belleville.

New Church.

The corner stone of the new Presbyterian church at Havelock, was laid Wednesday, the ceremony having been performed by the pastor's wife, Mrs. Madill. A dinner was served during the afternoon, and in the evening a platform meeting was held, when addresses were given by Rev. James Madill and other clergymen.

The Gift Show.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,
—AND—
Black and Grey Persian Lamb Cap $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

PUBLIC NOTICE

is hereby given that a Notice in writing in the form following namely:

"*To the Honorable the Secretary of State of Canada*:

"SIR,—We, the undersigned Electors of the County of Peterborough request you to take notice that we propose presenting the following petition to His Excellency the Governor General of Canada in Council:

"*To His Excellency the Governor General of Canada in Council*:

"The petition of the electors of the County of Peterborough, qualified and competent to vote at the election of a member of the House of Commons in the said County of Peterborough, respectfully shews that your petitioners are desirous that the Order in Council passed for bringing into force within the said County the second part of The Canada Temperance Act, should be revoked; wherefore your petitioners humbly pray that Your Excellency will be pleased, by an Order in Council under Section nine of The Canada Temperance Amendment Act, 1888, to declare that the said Order in Council, which brought into force and effect the said second part of the said The Canada Temperance Act in the said County, shall no longer be in force. And your petitioners will ever pray, etc.'

"And that we desire that the votes of the electors of the said county be taken for and against the revocation of the said Order-in-Council.'

Which notice is signed by electors qualified and competent to vote at the election of a member of the House of Commons in the county of Peterborough, will be deposited in the office of the Sheriff of the said county, at the court house, in the town of Peterborough, on Tuesday, the 18th day of December, 1888, and will there remain for ten days from said date for public examination by any person.

This notice is given in pursuance of section six of the Canada Temperance Act, and of the provisions of the Canada Temperance Amendment Act, 1888.

HE LIVED ONLY AN HOUR

CAPTAIN BRISE OF THE WEST RIDING REGIMENT SHOT.

Killed by a Kick—Fleshy Excuse—Eviction at Hamilton—Kingston Votes Two Railway Bonuses.

HALIFAX, Nov. 29.—Captain Raggles Brise of the West Riding Regiment, met with a terrible and fatal accident to-night. He had just returned from a shooting excursion in the country and was alighting from his wagon at Robinson's livery stables. As he went to step out, his foot caught in some way with a double barrelled gun, both barrels of which were loaded. The weapon was discharged and the contents of the two barrels lodged in his stomach. He was carried into the stables and afterwards removed to the Artillery barracks, living for only one hour. His wife was summoned and reached him just before he lost consciousness. Captain Brise was about 35 years old and came to Halifax from Bermuda with his regiment a couple of months ago. He was married two years ago to a Bermuda lady and had one child.

An inquest is to be held to-morrow.

EVICTION AT HAMILTON.

An Old Woman Put on the Sidewalk—A Lively Runaway.

HAMILTON, Nov. 29.—This afternoon the police were notified that Mary Foley, an old woman who lives on Young-street, between Cherry and Wellington-street, was cruelly ejected from her home by a bailiff, who had a distress warrant for rent. The old woman was found lying helplessly drunk on a mattrass in front of the house. The bailiff made the seizure, put Mrs. Foley and her trunk on the sidewalk and locked the door. Sergeant Pinch provided her with lodgings at the police cells.

James Manning's house, on the Governor's road, was broken into a few evenings ago. A watch, a brooch, $4 in cash, and all the food in the house were stolen.

Yesterday afternoon Mr. Cruickshank was practicing the children of the Hess-street school in the fire drill in preparation for the visit of the Governor-General. A little crippled girl named Baker was in one of the upper rooms and she did not go out with the rest of the children when the alarm sounded. Two young rascals of boys ran up stairs after the rest of the children were out and yelled to her that the stairs were burning. She was so badly frightened that she became unconscious, and the teachers had much difficulty in restoring her.

About 10 o'clock this morning a runaway horse made things lively in the vicinity of the James-street market. David Henry, a lad who drives for Charles Vosper, butcher, left a colt standing in front of 42 Market-street. While he was away the horse became restless and started off at a 2.40 gait along Market-street. A man who works for James Goldie, flour dealer, tried to stop it and was dragged along the road for some distance. The wagon also passed over him, but luckily he was not hurt. After two collisions in the last of which the wagon was demolished, the animal was stopped.

A PLUCKY RESCUE.

Narrow Escape From Drowning of a Campbellford Girl.

CAMPBELLFORD, Nov. 29.—This afternoon as a 12 year-old daughter of Mr. J. Alexander was getting a pail of water from a flume, her hat fell off and reaching for it she fell in and was carried down with the current. This flume is covered and extends for several hundred feet without an opening. Fortunately she was observed going under the covered place by Mr. Henderson, who plunged in after her. Others arriving the planking was torn up some distance down the rise and both were rescued.

KILLED BY A KICK.

Fatal Accident to a Manitoba Man—News of the Northwest.

WINNIPEG, Nov. 29.—The Northwest Assembly has decided that a vote on prohibition shall be taken by ballot.

Both bylaws submitted to the people to-day were defeated by large majorities, that against Colonization being 123, and against debentures 92.

Hector McDonald of Rat Portage was found wandering on the Canadian Pacific Railway track this morning with his feet all torn and suffering from the D. T.'s. He had walked over seventy miles.

George Parker was killed by a kick from a horse at High Bluff to-day.

Mrs. Edy, whose husband eloped with another woman from McGregor, has joined him in St. Paul.

Henry S. Shields, a Toronto boy, has been sent down for stealing a check and gun. He was previously convicted of theft in Toronto.

Flour has fallen 15 cents per hundred.

BOTH CARRIED.

Kingston Votes Big Bonuses to the N. and T and the K. and S. F. Railways.

KINGSTON, Nov. 29.—The bylaws granting a bonus of $75,000 to the Napanee and Tamworth Railway and $150,000 to the Kingston and Smith's Falls Railway were voted on here to-day and both carried. The vote was:

	For.	Against
Napanee and Tamworth	817	361
Kingston and Smith's Falls	963	209

Chatham Votes Another.

CHATHAM, Nov. 29.—The bonus bylaw granting $40,000 to the Canada Pacific Railway to run their road through this town was voted on to-day and carried by about 220 majority.

THE SARNIA FIRE.

Doubtful if the Hotel can be Re-built—The Insurances.

SARNIA, Nov. 29.—The Alexander House badly burned last night, was valued at from $8000 to $10,000 and was insured for $4500, $2500 being in the Western, $1000 in the Royal and $1000 in the Scottish Union. It is a question whether or not the building will be a total loss, the damage being so great as to possibly prevent its being rebuilt under the fire limits bylaw. Andrew Alexander, sr., is the owner.

The contents were insured by George Johnston, the landlord, for $4,335, $1000 being in the Royal and the balance being in the Lancashire.

Belleville Briefs.

BELLEVILLE, Nov. 29.—Mr. Edward Mastoy, one of Belleville's oldest citizens, died on Wednesday night, aged 91 years.

A child of Mr. Rogers of Mill-street died on Wednesday night from diphtheria, the first case in this city in several years.

Mr. John Stewart, barrister, formerly of Bell & Biggar's office here, died this morning at Brussels, Ont., aged 32 years.

Dr. Willson is a candidate for re-election as mayor.

The Bay Bridge Company is being organized and tenders will soon be asked for the construction of the bridge.

A Rebuke for Sir Morell.

LONDON, Nov. 29.—At a council meeting of the British Medical Society a resolution was passed deprecating the publication of the details of the late Emperor Frederick's sickness as a violation of professional confidence. The council accepted the regrets of the editor of the society's organ concerning the publication of them.

AN ENTIRE WESTERN POUCH FOR OTTAWA MISSING.

Executive Clemency to be Exercised in the Case of Murderer Kelso—The Atlantic Mail Service.

OTTAWA, Nov. 29.—It is understood that His Excellency has decided to exercise executive clemency in the case of Kelso, now under sentence of death in Montreal for the murder of Dagherty, and that the death sentence has been commuted to imprisonment for life.

In the case of Webb, who pleaded guilty of the murder of his wife in Brandon, Man., and of a British Columbia Indian named Taimappero, which have been under consideration, the law will be allowed to take its course.

Captain Labelle, M.P., had an interview with Hon. C. H. Tupper, Minister of Marine and Fisheries, this morning and urged the placing of two new lighthouses on the St. Lawrence opposite Sorel. He also wants some dredging done at the entrance to the Richelieu River.

A deputation of seed merchants, consisting of Messrs. Bruce & Evans of Hamilton and Mr. Briggs, representing the Steele Company of Toronto, had an interview with Hon. Mackenzie Bowell, Minister of Customs to-day, and urged that millet and Hungarian grass seeds, which are now charged 15 per cent. ad valorem duty as agricultural grass seeds, be brought under the order-in-council declaring ordinary grass seeds as free from duty. The Minister promised to take the matter into consideration.

There is no truth in the reports which have been circulated that the Government is throwing obstacles in the way of intending exhibitors at the Paris exhibition next year. The Dominion Government have simply decided not to be officially represented at the exhibition, but private exhibitors are, of course, at liberty to do as they please.

J. F. Wood, M.P., was here to-day. He said it is intended to push the construction of the New York, St. Lawrence and Ottawa Railway, chartered last session to run from Ottawa to Brockville or to a point between Brockville and Westport on the Brockville, Westport and Sault Ste. Marie Railway.

It is stated in the Department of Agriculture that the reports of the existence of hog cholera in South Essex have been greatly exaggerated, and it is expected that the disease will be speedily exterminated.

A cablegram was received by the Marine Department to-day announcing the sailing of the new Government steamer Stanley for Pictou, N.S., where she is expected to arrive about Dec. 9 or 10. She will at once be put on the route between Prince Edward Island and the mainland.

It is stated that new tenders for the Atlantic mail service will soon be called for.

Mr. Rufus Stevenson, ex-M.P. for Kent Ont., had an interview with the Minister of Finance yesterday, and urged the imposition of an export duty on elm logs, which are exported in large quantities from Kent, Essex and Lambton to be manufactured in the United States.

James VanAlstine, a conductor on the Canadian Pacific Railway residing at Chesterville, has fallen heir to an estate in Scotland, valued at $1,000,000, by the death of a relative and will leave for the Old Country in the course of a few days to enter upon his fortune.

It is reported that some three weeks ago a mail from the west consisting of registered and unregistered letters was either lost or stolen in transit to Ottawa, and that no trace of it has so far been found. Mr. French, Postoffice Inspector, refused to give any information about the matter.

DOC. TUMBLETY.

Hamilton Reminiscences of the Notorious Patent Medicine Fakir.

HAMILTON, Nov. 29.—The Spectator to night says: Since the patent medicine fakir Doc. Tumblety got himself into prominence by being arrested in connection with the Whitechapel crimes numerous reminiscences of his sojourn in this country are coming to the front. During 1854 the doctor was in Hamilton selling patent medicine on the market. He used to ride about the streets when not engaged in business, at a mad gallop on a magnificent horse and was a prominent figure about town. The block below where Reid's cigar factory now is on King street east was at that time the Burlington hotel. John Smith, Dominion emigration agent, Dr. Chittenden and other prominent Hamiltonians were then young fellows boarding there, and Dr. Tumblety took up his abode there too. He hired the small brother of a big Irish chambermaid to assist him with his fake medicine seances on the market. The boy would come up crying with toothache and the skilful doc. would instantaneously cure him before the gaping rustics. One night, however, Tumblety loaded the kid up with a wrong dose, which instead of allaying the counterfeit pain gave him a very tangible pain in his little inside and threw him into convulsions. When Tumblety returned to the hotel the big Irish chambermaid sailed into him Marquis of Queensberry rules, gave him a black eye, badly disarranged his hair and made him such a laughingstock that he had to leave the city.

THANKSGIVING IN THE STATES.

A Day of Mingled Religious Devotion, Charity and Saturnalia.

NEW YORK, Nov. 29.—Thanksgiving was a day of religious devotion, charity and saturnalia in this city as heretofore. The customary services of praise and thanks, the customary sermons on the bounties of Providence and the increasing prosperity of the land, drew many to the different churches in the morning. In the different missions, houses of industry and the prisons, substantial meals, in which of course the turkey figured, were distributed.

The Bonanza Gold Fields.

QUEBEC, Nov. 29.—The Beauce gold fields are just now being vigorously boomed, and considerable quantities of land in the vicinity of the mines, as well as mining rights, are changing hands. Among others, Mr. Lockwood is reported to have disposed of $10,000 worth of rights to McArthur Bros., and the latter firm have sold part of their claim for $50,000.

A Weather Victim.

ST. JOHN, N.B., Nov. 29.—A man named Hoyt of St. John River has drowned himself because of the continuous wet weather, which interfered with farming operations.

Children Cry for Pitcher's Castoria.

AN M. P.'s BREACH OF TRUST.

The Holborn Division of London Elect a Conservative.

LONDON, Nov. 29.—Robert Gent Davis, M. P. for the Kensington division of Lambeth, was committed to prison on Tuesday for contempt of court in failing to pay £3778 due by him as administrator of his uncle's estate. He appeared in court to-day and offered to apologize and to refund the money. The judge, however, refused to interfere, and the order of arrest was handed to the sheriff for execution. Davis' debt was subscribed by Tory members of Parliament to prevent the disgrace of the arrest of a member for a breach of trust.

In the House of Commons to-day Timothy Healy asked what steps Mr. Smith, the Government leader, intended to recommend the House to take regarding the charge against Mr. Davis of using money received in a fiduciary capacity.

Mr. Smith denied the existence of any proof to justify him in asking the House to pronounce judgment on Mr. Davis.

Edmund Robertson (*Lib*) reminded the House that the expulsion of a member should be decreed for a breach of trust, and he asked if Mr. Davis' conduct did not amount to that.

Mr. Smith protested against hasty action in a matter affecting the character and honor of a member.

Mr. Healy intimated that unless the Government acted in the matter he would move on Tuesday next that a writ be issued for an election to fill the seat now held by Mr. Davis.

Mr. Davis has been imprisoned.

Mr. Bradlaugh moved to adjourn the House in order to call attention to the continued imprisonment of Mr. Moroney in Silmainham jail for contempt of court under the Coercion Act. He said that Mr. Moroney was suffering in health and becoming insane. He represented that bankruptcy proceedings had been used with the view to compel Mr. Moroney to divulge certain things which Mr. Moroney refused to divulge. Mr. Bradlaugh maintained that his refusal although illegal was morally justified and that Moroney ought not to be punished by indefinite imprisonment.

Mr. Balfour and Sir Richard Webster contended that the Government had no power to order the release of Moroney. It was his own fault if he refused to purge himself of his contempt.

After a long debate the motion was rejected, 195 to 159.

A desultory discussion on the Ashbourne Act then followed and finally the bill passed the third reading, 202 to 141.

During the evening a report reached the House that Lord Compton, the Gladstone candidate in the Holborn district of London, had been elected. When the news was received the Gladstonian members stood on their benches and cheered themselves hoarse. A subsequent report showed Mr. Bruce, the Conservative candidate, was successful and a similar scene was enacted by the Conservative members. So prolonged was the cheering that the Speaker with difficulty restored order.

Lord Compton's in the Soup.

LONDON, Nov. 29.—The election in the Holborn district of London to-day resulted in the choice of Mr. Bruce (Con.) by a vote of 4398 against 3433 for Lord Compton, the Gladstonian.

Crime and the League.

LONDON, Nov. 29.—Inspector Crane gave evidence before the Parnell Commission to-day as to the progress of crime in Ireland being coincident with the formation of branches of the league. Wherever a league organization was started outrages followed. Not every leaguer was a moonlighter but the majority of moonlighters were leaguers. On cross-examination the witness admitted that he had never been able to trace directly the connection of persons convicted of outrages with the league. Certainly no official of the league had ever been convicted. No crime has occurred in connection with Home Rule agitation or the extension of the franchise. Every crime arose over land disputes.

Inspector Rice deposed that he had always understood that moonlighters executed the behests of the League. On being cross-examined by Mr. Harrington the witness said he could not point out a single instance supported by proof, where the League had directed a moonlight outrage.

Rents Reduced.

DUBLIN, Nov. 29. The Land Commission has reduced the rents on the Kenmare estates at Killarney 50 per cent.

A JUVENILE RIPPER.

Arrest of a 13-year-old Boy for the Havens Murder.

LONDON, Nov. 29.—A boy named Husband, aged 11 years, the first to give notice of the discovery of the body of the boy Zarle, who was found dying in the streets of Havant yesterday morning with his throat cut from ear to ear, has been arrested for the murder. The crime was undoubtedly committed in imitation of "Jack the Ripper," the chronicles of whose butcheries have excited depraved youth in many parts of the kingdom to emulation of his deeds and the police throughout the country are thus confronted with a new problem.

The Spitalfields Vigilance Committee, organised to aid the constabulary in detecting the Whitechapel murderer and preventing further crimes, have secured the approval of the police to their appointment of ten men each night to watch the courts and alleys of the East End and otherwise act conjointly with the metropolitan force. Each man will carry a dark lantern, a whistle and a night stick, and be invested with all requisite authority.

The New Metropolitan Chief.

LONDON, Nov. 29.—Col. James Munro who has been appointed Chief Commissioner of Metropolitan Police to succeed Gen. Sir Charles Warren, served 25 years in Bengal, whence he returned to England in 1884 to replace Mr. Howard Vincent, at present member of Parliament for the central district of Sheffield, as director of criminal investigations. He was subsequently appointed Assistant Commissioner of Metropolitan Police, but resigned recently owing to his inability to endure the harshness of Gen. Warren, and accepted a position in the Home Office. His appointment, which the Queen has sanctioned, is a personal triumph and universally approved.

TORONTO TOPICS.

Death of Billy Owen—Rumored Business Disaster—Lilly Charlton Still Alive.

TORONTO, Nov. 30.—The Mining Commission resumed its session at 10 o'clock yesterday morning and took more expert evidence.

Mr. W. G. Owen, the well-known horse trainer, died at 4 o'clock yesterday morning of inflammation of the lungs after a week's illness. His name was familiar on every race course in America.

Lilly Charlton, the victim of Dr. Valentine's alleged malpractice, is still alive but there is no hope of her recovery. Dr. Valentine is much better at the jail, and it is expected that he will be around in a few days. He is still suffering, however, from the terrible shock to his nerves, occasioned by dissipation and his subsequent arrest.

Yesterday morning's express brought up from Ottawa Capt. the Hon. C. C. Colville and Mrs. Colville and Capt. A. McMahon, aides of His Excellency the Governor-General. They drove at once to the Queen's Hotel to attend to the preparations for the stay of the Vice-Regal party on their visit to Toronto, to be present at the St. Andrew's Society's ball to-morrow night.

SOCIETY SADLY SHOCKED

THE GREAT SIR ROBERT WALPOLE'S NAUGHTY HEIR.

Miss Valtery Weidemann's Suit for Breach of Promise—The Case Comes to a Sudden End.

LONDON, Nov. 29.—Society has received another distressing shock by the announcement that the heir of Sir Robert Walpole, the celebrated Prime Minister of the first and second Georges, and the future Earl of Orford, has been sued for breach of promise. The case was called in the Queen's Bench division. The plaintiff, Miss Valtery Weidemann, brought the suit against Capt. Robert Horace Walpole for breach of promise and for libel, claiming £1000 damages.

Not many months ago Capt. Walpole and Miss Corbin, an American lady, were quietly married in Paris, and from subsequent events it is presumed that the affair was conducted privately owing to Miss Weidemann's avowed intention of making trouble for the groom.

The principal witness was Miss Weidemann herself. She is a bright, fresh-looking blonde, the daughter of a North German pastor, and a person of education and refined manners. Although subjected to sharp interrogations she told her story in an impressive manner. She testified that Capt. Walpole met her in 1882 at the Hotel d'Angeleterre at Constantinople, where she was employed as governess to the proprietor's daughters. He met her at dinner one night and made her acquaintance, much against her will. He paid her marked attention for several days after that, and finally asked her to marry him, at the same time forcibly kissing her. She angrily left him and when she returned from the opera that night she did not notice that the lock on her bedroom door had been removed. She sat at the window a few minutes before she knew that Walpole was at her side. She ordered him from her room and tried to ring the servants' bell, but he forcibly restrained her, and, after convincing her that he loved her sincerely, he finally accomplished his purpose. Next evening he dined with her, and as an earnest of his intentions he placed his signet ring on her finger. She has it now, though Capt. Walpole made repeated attempts to recover it. Next day he persuaded her to go to Cannes, and gave her £100. On arriving there she met his mother, but when she spoke of her supposed engagement, Mrs. Walpole told her the captain was only a friend, and that he would be ruined if he did not marry a rich girl. Mrs. Walpole contrived to have her put out of the hotel. Capt. Walpole then sent a friend—Capt. Darlington—to her to take her to Paris, where he promised to meet her. At Paris Walpole told her to meet him in Berlin, but when she arrived here she found that he had no intention of meeting her. She then went to her brother-in-law's in Germany, where her child was born in 1883.

The witness admitted by implication that when she heard of Capt. Walpole's intended marriage she sent to Miss Corbin the following note:

"I shall meet you one day, and you will bear my curse to the d——d end of your existence. This for marrying a man you have no right to marry."

Capt. Walpole will deny the promise, and plead that if it was made it was in Turkey, where no action is maintainable. He claims that the signet ring was stolen, and the letter which he wrote his agent accusing her of theft in the hands for an action for libel, which Walpole will plead as privileged.

A Verdict for the Defendant.

LONDON, Nov. 29.—The case of Valtery Weidemann against Robert Horace Walpole, the heir presumptive of the Earldom of Welford, for breach of promise, was continued to-day. The plaintiff contradicted herself and declined to answer vital questions. Finally the jury interfered, the trial was stopped and a verdict for the defendant was rendered.

A Triple Tragedy.

ST. LOUIS, Nov. 29.—Details of a horrible outrage, murder and suicide come from Nevada, Mo., to-day. The outrage and murder were committed about eight miles west of Nevada, the victim being Miss Ella Wray, aged 21, the daughter of a widow lady and belonging to one of the best families in that section. Yesterday Miss Wray accompanied George Corb, who taught the district school and boarded with Mrs. Wray, to the city. Corb returned last night alone and informed a brother of Miss Wray that the girl had been dragged from the buggy and murdered by two unknown men. The body was found in a clump of bushes near the roadside, the young woman's throat having been cut from ear to ear. Corb was placed under guard and during the night committed suicide by taking poison, thus escaping lynching. The coroner's inquest developed the fact that the girl had been outraged and then murdered.

The Strikers in the Soup.

INDIANAPOLIS, Ind., Nov. 29.—The railroads have filled the places of the striking switchmen, and the strike is claimed by the company to be practically over. The companies have refused to treat with Grand Master Switchman Sweeney, as he is regarded as a disturber. At the railway superintendents' meeting concession to the strikers' demands was unanimously refused. The latter hope to receive aid from the firemen and engineers.

He Was a Hustler.

MONCTON, N. B., Nov. 29.—The other day a young mechanic left Berwick in the care of the Windsor and Annapolis Railroad for Kentville. At Waterville he stepped from the cars for his bitters and tarrying too long at the cups was left behind. Under the pressure of a little extra steam he at once started in pursuit of the cars, and after running two miles overtook them at Canbridge, and there resuming his seat went on his way rejoicing.

It Puzzles the Vets.

WOODSTOCK, Nov. 29.—Noah Bowman of Terry's Corners has a horse which has a peculiar ailment. He was driving the animal last week and it almost instantly became covered with a frothy sweat. He got out of the wagon to examine it and found a swelling on the neck in front of the collar nearly the size of a foot-ball. The swelling still being stationary makes the matter most mysterious.

Didn't Want Her Chickens.

BRANTFORD, Nov. 29.—A curious case came up at the Police Court this morning when Mr. R. Elliott was charged with cruelty to a domestic fowl. It appears that some hens belonging to a neighbor, Mrs. J. Cunningham, strayed on his premises and he took one up and threw it hard with such force as to break its thigh. He was fined $2.

Suicide of a Strickland Man.

COBOURG BAY, Nov. 29.—A man by the name of Charles Tobin, supposed to be from Strickford, committed suicide on Wednesday morning of this week by cutting his throat with a razor. It is supposed that he was suffering from melancholia. He had been working in the woods for some time, but on his return home he was taken sick, and came out to go home and was staying at Tyne Mills' boarding house at the Ganaska River mills until the body was discovered.

North Smith Dairymen.

Annual Meeting of the North Smith Dairy Co.—Financial Statement—A Pleasant Termination to the Year's Business.

The annual meeting of the North Smith Dairy Company was held Wednesday afternoon at the factory near Selwyn. Four years ago the company was established, and it has prospered steadily. Starting with 40 patrons, they have now on the roll 75. About $1800 of the stock is paid up. This year the dividend will be 20 per cent; the first year it was 7 per cent; the second, 15 per cent, and the third, 25 per cent.

The annual meeting took place at 4 o'clock, and after the business of the past year had been satisfactorily wound up, an adjournment was made to the lower room, where a bountiful repast of oysters was served by the ladies, under the superintendence of Mrs. Chiddick, the maker's amiable and obliging wife. About three hundred people were present—farmers with their wives, sons and daughters—and all enjoyed the supper exceedingly. The ladies excelled themselves on this occasion.

About eight o'clock an entertainment began in the upper room, which was filled with people. This was the second annual entertainment, and its success assures it repetition at future annual meetings of the patrons of North Smith cheese factory.

During the evening, the President of the factory, Mr. M. E. Sanderson, read a brief statement of the year's business, as follows:—

Total milk received	1,874,312 lbs.
Total number cheese manufactured	150,015
Total value of cheese	$11,057 50
Average for season	10.56
Average price per lb	9¼ cts

Rev. E. R. Roberts was unanimously called to the chair, and in his opening remarks said it afforded him much pleasure to be at such a gathering as this, for he was an old farmer himself. In looking over the past he was surprised at the advance made in the agricultural profession—in the quantity and quality of the products, the improved machinery and facilities of many kinds. Farming was a noble occupation, the original one upon which man depended for his sustenance. Such meetings as these, including farmers' institutes, were pleasant and profitable gatherings where much valuable information might be acquired. He congratulated the managers and directors of the cheese factory and the patrons upon their success during the past year.

Then followed a short musical and literary programme, consisting of an organ solo by Mrs. W. A. Graham; a vocal duet, "The Plains of My Life," by Mr Fred McKee and Miss McKee; a comic reading, "Betsy and I are Out," by Mr. James Roberts; then a vocal solo, "Mavourneen," by Miss Blewett.

Mr. J. R. Stratton, M.P.P., made a short address, referring to the social and other benefits of entertainments such as this, the great progress made in farming and dairying and the immense amount of information yet to be acquired by even the most advanced farmers; the favorable prospects of young men upon the farm compared to those of young men engaged in business; the beneficial legislation that the Provincial Government had given to the farmers, and in conclusion congratulated the dairymen of North Smith upon their good financial standing, hoping that they would continue to prosper.

Miss Nelson sang "Tit for Tat" in good voice and with expression. Prof. Robertson, of Guelph Agricultural College, next delivered an excellent half-hour address upon the dairy interests of Canada, a report of which will be found elsewhere.

The meeting terminated by the singing of the National Anthem, after which the people dispersed well satisfied with the way the evening had been spent.

The Champion of America.

O'Connor's History.

A word as regards Champion O'Connor and his family may not be out of place. His next race will be with Searle in Australia. It only requires the journey to the Antipodes. Prior to the arrangement of Saturday's match some sportsmen laughed at the idea of the Torontonian presuming to row Teemer. But it will be now generally admitted that he is sufficiently proficient in aquatics to row the world's champion, and when this match is arranged the betting, will undoubtedly be somewhat lobsided. No one more deserves success, for a more upright, honest, straightforward man never entered the athletic world. He goes in to win all the time, and usually succeeds in accomplishing what he undertakes to do. His family are naturally greatly elated over his accomplishments, and the proudest of them all is John, his brother, who resides at the corner of Adelaide and Simcoe streets. From babyhood he has watched over his brother Bill, who is twelve years his junior, and who has never been seen by either father or mother. His mother died when he was born, and his father, who was foreman of the blasting works down at the Don, of the Grand Trunk construction works, lost the use of his eyes and suffered other injuries by a premature explosion. Peto, Brassey & Betts the contractors, gave Mr. O'Connor some land in the east end on which to live in compensation for his misfortune, but omitted to give the deeds, and when new contractors came in O'Connor family lost their all. These incidents naturally bound the family together and it can therefore be imagined with what interest the doubly bereaved blind father and the other members of the family have watched the successful career of the young man who is now the premier oarsman of his day. As for John, he treasures every relic, and his house from roof to garret bears traces of his brother's prowess and his own affection. There are portraits of Bill, in and out of his boats, double and single, almost without number; there are his trophies; there is his sleeping room reserved only for himself, and there are pretty little models of shells, showing the finest lines.

Shocking Accident.

So read the headline of many a newspaper column, we peruse with palpitating interest the details of the catastrophe, and are deeply impressed by the sacrifice of human lives involved. Yet thousands of men and women are falling victims every year to that terrible disease, consumption (scrofula of the lungs), and they and their friends are satisfied to believed the malady incurable. Now, there could be no greater mistake. No earthly power, of course, can restore a lung that is entirely wasted, but Dr. Pierce's Golden Medical Discovery will rapidly and surely arrest the ravages of consumption, if taken in time. Do not, therefore, despair, until you have tried this wonderful remedy.

The Dairy and Farming Interests.

How to Run the Farm More Profitably — The Importance of the Dairy.

At a meeting of the people of North Smith at the factory near Selwyn, on Wednesday night, Prof. Robertson, of Guelph Agricultural College, delivered an address on the dairy and farming interests of Canada. The address was interlarded with a number of illustrative anecdotes, which are not repeated in the following condensed report:

Prof. ROBERTSON said it afforded him much pleasure to be present at such a large and representative meeting. These gatherings were of great benefit to the farming community, but unfortunately they were not held frequently enough among the farmers. In all other classes of life men were bestirring themselves to better their condition, and he hoped the farmers would soon wake up to the needs of the hour and hold these kinds of meetings more regularly.

As the chairman had remarked, the farmers produced the food supply of the world, but the world was growing, and unless the farmers adopted some means to increase the product of the soil without increasing the cost of production, the food supply would soon become insufficient. Therefore, it behooved them to study up the best means to meet the increasing demand with benefit to themselves.

The dairy was an important branch of farm work, but, unfortunately, it was too often neglected. Farmers frequently complained that their dairy business was unprofitable—and why? Because they turn the whole management of it over to their already over-burdened wives, and allowed their cows to be exposed in all sorts of weather without proper food and drink. The dairy should be

THE MOST PROFITABLE BRANCH

of a farmer's business, and one to enrich him; and when the farmer realized this, he would grow crops for his cows and learn how to feed them.

The dairy industry does not, he said, meet with its proper recognition in Ontario. In the countries of the old world Canada is famous for her cheese more than for anything else. In the fall of '86, the Professor said, he was sent by the Ontario Government to take charge of a large exhibit of cheese and butter to the Colonial Exhibition in London. The expense was very small for the three weeks' he was there, yet they were more than repaid by the fame it brought to Canadian cheese. All the newspapers and periodicals in the country gave the display a notice, accounts of the exhibit were telegraphed all over the world, and the result was that in newspaper reports of the best kind, they got 600 miles of single column advertising in journals all over the world. This brought the Canadian dairy industry before the world, and as a result, the Professor said, he received many enquiries from all parts of the globe, for a whole year after, regarding our country and the dairy business.

Then the dairy has done much for our country in keeping the soil fertile. By keeping stock, there returned to the soil in the form of manure all its valuable elements enrich it. It improves as well as maintains the soil. It adds also to the value of a farm in this way—a farm three miles from a cheese factory will be worth $10 an acre more than a farm equally as good situated 20 miles away. The people of this province were worth fifty millions more money on account of this extra farm value, which yielded the large extra income of nine millions. These were facts that were proved by a system of careful calculation. The money made by this factory for the year has been $11,000; multiply this by all the factories in the province and it will be seen where this extra value comes in. This extra $11,000 from the dairy business has largely increased the wealth and purchasing power of the farmers in this district. And the dairy business does not thrive at the expense of other branches. The province exports nine million dollars worth of cheese annually, but there is not a bushel less of grain on that account.

AND IT MIGHT BE MADE

to do more if farmers understood their business. They should aim to get the highest price for the milk they produced. The patrons of North Smith factory got on an average 9½ cents a pound for their cheese; that was good, but he advised them to keep on improving their milk and cheese, or they would fall behind in the race.

The profit in dairying lies between the cost of the article produced and the price at which it is sold—as the latter exceeds the former the profit is proportionate. For instance, butter sells in this country all the way from 12c. to 30c. By a united effort to bring the poor butter up to a first-class standard the line of profit was lengthened. This could be done by diminishing the cost of production and increasing the price for the article produced.

The Professor urged farmers to carefully reckon the cost of everything. He was prepared to say that half the farmers who sent milk to the North Smith factory lost money by it. They got as good a price for their milk as the others, but they did not reckon up the cost of its production, and they do not adopt means to bring expenses down as low as possible.

Analyze everything and count the cost, he urged. In order to make dairying profitable they must first understand the kind of a cow that was wanted to produce milk. (For this purpose Prof. Robertson had a couple of charts of model cows displayed, to which he frequently referred.) First of all the dairy cow should have a pretty face—and he was serious in saying he would not own a cow that had not a good looking face. If she has not a big forehead and large lustrous eyes she is no good for milking. Then a cow should have a soft, moist skin—this indicated pure blood and good heart action. Then she should have a long body and big udder. These four points in a cow were a guarantee of her milking value. Cows like these should be carefully housed, but too often they are expected to be hardy cows and are turned out on cold days, and

THE SHELTER OF A WIRE FENCE

is considered quite enough for them. The function of a dairy cow is maternity—to give milk and have calves; her function is not to be hardy but to produce, and it was the place of her owner to protect her. If a cow is turned out in the cold her heart must beat faster to keep the blood in circulation and in consequence her milk production is lessened.

The Professor next dealt with the way to handle a cow to get the best quality and quantity. First, pure air was necessary. Impurities in the air got into the lungs, and thence find their way to the blood and heart and finally into the milk pail. One case he recollected where he was called upon to investigate a case where cows were giving foul milk, and he found that they were pastured in a field where a dead horse was lying rotting. Too often barnyards had dead matter lying around. They should be kept clean and pure. Then pure water was another necessity, for impurities in the water drank by a cow worked their way into the milk. The Professor cited another case where a family afflicted with fever gave their cattle well water containing the typhoid germs that had caused their illness. The cows' milk contained the very same germs as were found in the water—a sure proof that milk was made impure by the animals drinking bad water. He was also aware of a number of instances where children had died of diphtheria caused by drinking impure milk from cows given bad water to drink.

Milk should be kept clean and not diluted. Too many farmers were in the habit of skimming and diluting, and the result was that these few dishonest ones crippled the honest patrons and brought disfavor upon the cheese made.

Then a cow should be given salt every day. He found where a cow got no salt for a week or so at a stretch she loses 14½ per cent. in milk yield, and her milk sours much quicker. The Professor emphasized the necessity of feeding a cow salt once a day.

Coming to the second part of his address, how to

REDUCE THE COST OF PRODUCTION,

he first advised keeping the right breed of cows and caring for them. Dairy cows should calve during the winter, so that they may be milked by May; this plan followed out would be profitable both ways. To feed a cow cheaply, cheap food must be used, and the cheapest he knew of was fodder corn. The cows of this province cost too much. Fodder and grass were things that man could not consume, but his cows did and produced therefrom for his profit. A cow should not consume more than the product of one acre of fodder a year. The Professor said he had done it on less than that. On the product of 1¼ acres he kept twenty cows from the first of August to first September, with supplementary food. The cost was just 5½ cents a day. Corn fodder put in silo should keep a cow, with a little extra food, for 5½ cents a day all winter; while, if hay were bought and fed instead, it would cost 25 cents a day without any extra return. Sixteen tons, at least, of fodder can be grown to the acre, and this, put in a silo, makes it possible to feed cows at a cost not exceeding five cents a day. One ton of this fodder will keep a cow six weeks; four tons will keep her six months. Ten acres of corn fodder will feed thirty-two cows six months, with a little meal added; and ten acres will feed twenty-two all they require without any extra feed. The cost is less than one-fifth that of hay at the price it is this year. A silo can be built for $1 for every ton of its capacity, while a place for hay will cost $5 per ton capacity. This showed the cheapness of 'silage' compared to hay.

The farmers, to be able to hold their own in this day of competition, said the Professor, must co-operate, and they must inform themselves upon all these methods of doing their work in a better way. He urged them to educate themselves and learn how to apply the latest improvements and systems of farming to their own benefit. In conclusion, he made a few remarks anent the education of farmers' sons, whom he urged to study and exercise their judgment. Fathers were advised to be liberal with their sons, and not construe a desire for knowledge and education into meaning a dislike of work on the part of their boys. Give them every reasonable latitude; allow them to feel that they have an interest in the farm and stir up their ambition to become masters of the agricultural profession. The boys he urged to be progressive and seek to make their calling a profitable and worthy one.

Rheumatic Pains

Require no discription, since, with rare exceptions, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known and it is now frequently resorted to my medical men, is the application of that now famous remedy for pain—Polson's Nerviline. It is safe to say that nothing yet discovered has afforded equal satisfaction the to the suffering. A trial can be made at a small cost, as samles bottles of Nerviline can be had at the drug stores for 10 cents, large bottles 25 cents 6d48w

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itching and stinging, most at night, worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of tea or coffee without the knowledge of the person taking it; is it absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It never fails. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. The Daily Examiner.

FRIDAY, NOVEMBER 30, 1888.

The Weather.

North and northwest winds, mostly cloudy, light rain or sleet in some localities, not much change in temperature.

Ashburnham Brevities.

Mrs. A. C. (Rev.) Wilson has been called to Whitby to the bedside of her mother, who is dangerously ill.

An incident which shows the depravity of human nature occurred in the village the other day. A farmer who lives out north called at one of the grocery stores, wishing to purchase a wooden pail to carry home some brewer's yeast to be used, so he said, in performing the operation of amputating his wife's leg. The price asked for the pail was eighteen cents, which the farmer refused to pay, saying fifteen cents was enough to pay, as he knew she (meaning his wife) would die after the operation was performed, and the pail would then be of no use to him. He left and visited another business man and obtained an empty candy pail for the fifteen cents, and went on his way (it is presumed) rejoicing.

A lecture was given in St. Luke's school room last night, under the auspices of the Young Men's Literary Guild and the C.E.T.S., by Mr. E. B. Burt. The subject of the lecture was "A year in the Arctic regions," and was illustrated by dissolving views by means of a magic lantern. The lecturer gave, in detail, the history of Captain Healy's expedition of discovery to those regions, giving a pictorial illustration of each important scene, eliciting from the audience deserved applause. At the conclusion of the regular programme, a number of comic illustrations were given, which produced peals of laughter from the juvenile part of the audience. The whole lecture was well delivered, and the views were good. Those present were delighted with the evening's entertainment.

Chancery Court.

Beginning of the Chancery Sittings—Two Cases Done.

The chancery sittings of the County of Peterborough began at one o'clock to-day before Chancellor Boyd.

The bar was represented by Mr. W. A. Reeves, Q.C., Toronto; W. Creelman, of Blake & Co., Toronto; J. McClive, St. Catharines; G. H. Watson, Toronto; Dumble & Leonard, A. P. Poussette, Q.C., R. E. Wood, Q.C.A., Edmison & Dixon.

BURNHAM VS MOLONEY.—A dispute over an award of $800 made by Mr. C. McGill against Mr. John Moloney in favor of Mr. C. Burnham. Plaintiff held account against defendant, who had contra-account. Matter referred to arbitration of Mr. McGill, who made award without taking evidence of defendant. The latter repudiated the award and action was brought to enforce it. The court held that award did not hold good as defendant had not been consulted at all in the matter. Plaintiff non-suited. Creelman for plaintiff; Dumble & Leonard for defendant.

The case of FITZGERALD VS. MCWILLIAMS, it is understood, has been settled out of court.

HILLIARD VS. BECK AND STOTHART was still in progress at three o'clock.

Personal.

Mr. A. E. Pearson, B.A., has been appointed local preacher by the George street Methodist church.

Miss Stapleton, of Peterborough, the Millbrook *Reporter* says, visited her friend, Miss Snider, of that village, last week.

Mr. F. Hilliard is one of the society representatives of the George street church, instead of Mr. Jas. Emmerson, as published yesterday.

Mr. William Drope, J.P., of Harwood, died on Thursday, Nov. 22. Deceased was 77 years of age, and was well known and esteemed by the people of Harwood and Hamilton, having held several high positions in the latter place.

Mr. J. C. McGuire, of Howard Place, Pasadina, California, and formerly of Port Hope, gave us a call to-day. Mr. McGuire has many friends in this place who are pleased to see him looking so well. He left for Lindsay on the evening train to visit friends.

Rev. J. Cheyne Davidson, B. A., late of Colborne, is in town, the guest of His Honor Judge Weller. He will, on Sunday next, the first Sunday in Advent, enter upon his duties as curate-in-charge of St. John's, Peterborough, and conduct the services morning and evening.

Says the Cobourg *World*:—Mr. Geo. S. Dean, B.A., B.Sc., is now principal and manager of the Peterborough Business College—the most practical school in Ontario for a complete course in commercial science. We congratulate Principal Bean on his new position and wish him success in his new responsibilities. Mr. Bean is a graduate of Victoria University, and a son-in-law of our townsman, Mr. Jonathan Salisbury. Cobourg, therefore, claims him as a "close connection."

Teachers' Bible Class.

The Friday evening Bible Class, conducted by Rev. S. J. Shorey, will meet in Charlotte street school-room to-night. Subject—"Israel under Judges" (Judges ii, 11-23.) Every teacher and officer is urged to attend.

See 2nd Page for additional Local and other interesting news.

Girls' Guild Entertainment.

An interesting and successful entertainment was held under the management of the Girls' Guild of St. Johns' Church. There was a good attendance, and the following excellent programme was well carried out: Pianoforte solo, Miss Annie Sherwood; chorus by girls; recitation, Maggie Pratt; solo, "Rock-a-by Baby," Miss Lily Foote; tableau, "Innocence"; chorus by Hazel Bros children; solo, "Cricket on the Hearth," Miss Dawson; duet; pianoforte solo, Annie Sherwood; chorus; tableau; chorus; solo, Master W. Bowman; recitation, G. Guy; chorus, "The Kite"; duet and chorus, "Golden Stairs"; dialogue, "Red Riding Hood"; boys' chorus, "Volunteers"; tableau, in two scenes, "The Reaper and Flowers"; chorus, "Good Night." The entertainment was one of the most successful ever held under the auspices of the Society, and much credit is due to Miss B. Rickey, who had charge of the programme and trained the children, whose performances reflected so much credit upon her instruction. Particular reference might be made to the excellence of the first tableau, to the appearance of Miss Lily Foote who covered herself with glory, and was warmly encored. The chorus by the tiny youngsters of Hazel Bros was very pleasing. Miss F. Rickey played the accompaniments, and Master Bruce Rickey, who occupied the chair, closed the entertainment with a neat little speech.

A Requish Farmer.

The other day Mr. P. Sheehan, of Ashburnham, purchased and paid for a bag of apples on the market square with the agreement that they should be delivered at his residence. The farmer fulfilled his contract all right, but, on delivering the apples, found only Mr. Sheehan's daughter at home, and succeeded in making her pay for the bag also. A police court case will likely result from the farmer's duplicity.

Is He the Man?

Last Saturday Mr. H. W. Watson, the painter, was in Toronto, and dined with a couple of friends at an hotel. One of them was Mr. Warren, Mr. Cox's gardener. On returning to Peterborough, Mr. Watson read the description of the man wanted for rape, and believes he is the very person who had dinner with him Saturday. The matter is being investigated.

Prize Winners.

Large audiences attend Zera Semon's performances at the opera house every night, and last evening was no exception. The show itself is a good one, and the gifts are an additional attraction. Last night the silver watch was won by Mrs. C. S. Miller, the china tea set by Wm. Doucet and the chamber set by Master Gus Borette. Similar prizes will be given away to-night.

The Growth of a Year.

Building operations have been unusually brisk this past season, as a comparison of the grand total value of the new buildings erected the past four years will show. It is as follows:—1885, $250,000; 1886, $200,000; 1887, $220,000; 1888, $316,000. This is a certain indication of the substantial growth of the town during the present year. The EXAMINER will publish a complete and comprehensive building list in a short time.

Failed to Arrest Him.

The police, with all their exertions, have failed to arrest the wretch who abused the little girl, but there is no failure in the big run of bargains in boots and shoes at the store of gough bros., the wonderful cheap men. Going, going, going at less than half wholesale cost—an immense stock of splendid goods. Don't miss this big certainty of getting double value for your money.

PERSONAL.—The lady who lost a letter on Saturday last while purchasing tea at M. R. Kidd's can have the same by applying at the store.

Auction Sale of Crockery, etc.

Stevenson's office, by auction for a few days and then close the place till after the holidays. Sale, afternoons and evenings, on Saturdays and Wednesdays. The store will be closed during the rest of the week. Haggart, auctioneer. dw

—A Roseneath correspondent writes the Cobourg *Star*:—A new pump has been put in at the school house; it was furnished by Forsyth, of Peterborough, and put in by Mr. Smith English, one of Forsyth's best men. Mr. English does a big business around this locality, selling pumps and fanning mills.

Springville.

(From Our Own Correspondent.)

Mr. John Lewin, our popular village Smith, reports a boom in the horse-shoeing line.

Farmers are busy threshing now, the outlook for fodder is rather slim.

Mr. J. J. Brealey has purchased a fine team of young horses from Dr. Kincaid, the price being away up in the hundreds.

Mr. Fred Stenson has been improving his farm very much by having a large number of pine stumps extracted, the citizens of Peterborough may expect to be supplied with potatoes from the virgin soil early in the coming season.

Mr. John Green, jr. is spoken of as a candidate for municipal honors in North Monaghan.

A LARGE YIELD.—Not long ago Mr. Fred Brouix, farmer, threshed the enormous yield of eighty bushels of buckwheat from twenty-eight pounds sowing. This must be true as Mr. James Boyd, being an eye-witness on both occasions, vouches for the truth of the story.

The ratepayers of North Monaghan are appreciating the services of our local M.P.P. in securing the large grant from the Ontario Government, to be expended in the northern part of the county, which will tend to have the effect of reducing our county rate, which is felt very heavy here, on our highly assessed lands. Mr. Stratton appears to surpass any of his predecessors in the way of rendering service to his constituency after the elections are past.

Outside Markets.

MONTREAL, Nov. 27.—There was no improvement in the grain market, the demand having continued slow and business has ruled quiet in all lines of grain. The continued weak western markets caused an easier feeling, but in the absence of any business, prices were quoted as before. A number of private despatches which have been received from different points in Manitoba say that 75 per cent. of the wheat crop has been delivered already, and at some points farmers will be obliged to import wheat for seed. We quote: Canada spring wheat, $1.24 to $1.25; red winter do., $1.24 to $1.25; white, $1 24 to $1.25; No. 1 (new) hard Manitoba, $1.28 to $1.30; No. 2 do. (new), $1 28 to $1 30; No. 1 Northern, $1.28; peas, 75c. to 76c.; oats (new), 36c. to 38c.; corn, 52c. to 53c. in bond; barley, 70c. to 75c.

CHEESE.—Finest September and October, 11c. to 11½c.; finest August, 10c. to 10½c.; fine, 9½c. to 10½c.; medium, 9c. A year ago prices were 11½c. to 11½c.; cable, 58s. In 1886 the cable was 62s.; in 1885, 45s. and 1884, 58s. Cable to-day, 55s.

TORONTO, Nov. 27.—Wheat receipts to-day reached 1,500 bushels, and sold again lower at $1.03 to $1.04 for fall; at $1.04 for red winter; at $1.04 for spring, and at 86½ to 87½c for goose. Oats receipts were 500 bushels at 37 to 39c. Barley much as before, with sales of 7,000 bushels at 62 to 66½c. About 100 bushels of peas sold at 67c. Hay fairly steady at $21 to $24. Straw sold at $14.50 for sheaf. Hogs ranged from $7 to $7.25 for the few in.

Health vs. Business.

R. H. Green, on account of ill health, has decided to sell his entire stock of groceries and provisions at greatly reduced prices, for cash, for the next six weeks, after which time if his health is not improved will offer his stock in trade (*en bloc*) on reasonable terms, etc.

In the meantime parties desiring to procure good fresh groceries, etc., for the holiday season will find it to their advantage to call at the corner of Hunter and Aylmer streets where they will find a well assorted stock to choose from, and which will be sold very cheap for cash.

Apples, potatoes and vegetables always in stock, and will be delivered to any part of the town free of cartage.

IMPORTANT.

We have just been advised, and we are sure the people of Peterborough will be pleased to know that A. L. Davis & Co. have decided to put the whole of their stock of books, stationary, and fancy goods on the market at cost price, commencing 1st December, and their stock, being in such good condition, the public are sure to get dollar for dollar. This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

Another Visit.

In deference to the expressed wish of very many of our citizens who were unable to meet Mr. Morris, the expert optician, during his visit to my store last week, I have succeeded in arranging for another visit for Saturday next, the 1st December, which will afford the desired opportunity for the disappointed ones; and I would counsel all those who value their sight to see him. His unequalled ability assures, to all purchasers, unexampled ease and comfort in the use of the very best spectacles—the "B. Laurance & Co.'s" manufacture, for which I am the sole agent in Peterborough and vicinity. Do not mistake the date; for one day only, Saturday 1st December.

J. MCKEE, Chemist, etc.,

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Li-quor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

To Be Continued.

From the *Globe's* report of Toronto High Court of Justice proceedings:—FITZGERALD v. MIDLAND RY. CO.—Aylesworth, for the defendants the Grand Trunk Ry. Co., appealed from an order of the Master in Chancery refusing to set aside a notice of trial, given by the plaintiff, as irregular. On the last day for giving notice of trial for the Peterborough Chancery Division Sittings, the plaintiff filed a joinder of issue and served notice of trial. The irregularity alleged is that the joinder was not filed till after three o'clock, and not in the proper office, but with the officer at his private house. Masten, for the plaintiff, contra. Our Store is like an Auction Room on Market Days, and the Best of all the Public is delighted. The people say who see our Goods, "where do you steal them," but we answer, we don't steal them, but we buy right and therefore can sell right. Of course, we have no two thousand dollars rent to pay; no three thousand five hundred dollar salaries to pay; no sixteen hundred dollars for printing, but we cut down expenses, and sail right in for quick sales and small profits, and the public are appreciating our mode of doing business, by flocking in and buying where they can get dollars' worth for dollar every time. We are still ahead and intend to keep ahead, come what may.

We will have EXTRA HELP ON FOR SATURDAY, so you will not have to wait to be served as you have done before. Come early and secure THE BEST BARGAINS OF THE SEASON.

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c or 20c. than we will. All rubber lines just as cheap. Our 25c. and 50c. Shirts are Starlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

SONS OF THE HEATHER.

Grand Gathering of the Clans on St. Andrew's Night.

Annual Supper of St. Andrew's Society—An Excellent Spread—Speeches, Songs And Refreshment the Order of Things.

Scotland's patron saint was honored by the "sons o' the heather" in Peterborough on Friday evening by a sumptuous dinner at the Morgan House. These affairs are of annual occurrence, and every year they are becoming more popular and successful. Friday night nearly one hundred persons gathered about the festive board and commemorated the anniversary of St. Andrew in a right jovial manner. Sprigs of heather adorned the button-holes of a number of those present, and those, who could not boast of the proud emblem, lacked nothing in loyal patriotism. Every Scotchman swelled with pride, and his bottled up enthusiasm burst forth in uncontrollable ebullitions of delight. "It's all over for another year," is the remark; but the remembrance of Friday night's enjoyment will remain warm in their hearts till the next St. Andrew's Day comes around and the process will be repeated. The dining room was tastefully draped with gorgeous Union Jacks and bunting, while long streamers of Scotch plaid among them the Cameron and other clan tartans, gave to the decorations a more marked indication of the event being celebrated. The effect was pretty indeed, and reflects much credit upon Mr. J. J. Turner, who superintended the decorations. A couple of mottoes, "Bonnie Scotland," "The Land we love," and a large placard "Welcome," also adorned the walls.

Of the menu what need be said. Mine host Morgan set up one of those admirable spreads for which he is famous, and the hundred hearty Scotch appetites were quite equal to the emergency. The result was, it may be imagined, highly satisfactory to all parties concerned.

Mr. Charles Cameron, the enthusiastic and indefatigable President of the Peterborough St. Andrew's Society, occupied the post of honor, having on his right hand Mayor Stevenson, M.P., and on his left Mr. J. R. Stratton, M.P.P. Mr. Jas. Hendry, first vice-president, ably presided at the other end of the table, and out quite a dash in his gay Highland costume.

Of course, everything passed off in the orthodox manner. After the extensive bill-of-fare had been run through and the haggis, dear to every native of Auld Scotia, had disappeared, the merriment increased. A full stomach is ever conducive to a happy frame of mind, and the old truism proved itself once again. During the speech-making that followed the supper, laughter and hilarity were predominant and the utmost good feeling and conviviality reigned uninterruptedly among those present.

While the supper was in progress Prof. Doucet's orchestra supplied several musical selections, including a number of Scottish airs that thrilled the hearts and fired the enthusiasm of the descendants of St. Andrew.

On account of illness, Piper McDonald was unable to be present, and the lively birl of the bagpipes was much missed.

After the tables had been cleared and liquid refreshment dispensed for the drinking of toasts, the chairman introduced the first on the list with a few appropriate remarks.

"The Queen and Royal Family" were honoured by singing of the National Anthem, and a toast to the Governor-General was given a send off with "He's a jolly good fellow."

To "The Army, Navy and Volunteers" the company sang Canada's national song, "The Maple Leaf," and the Vice President, Mr Hendry, gave a couple of stanzas of "The Death of Nelson."

Dr. KINCAID, who has for a long time held the position of Surgeon in the 57th Battalion, with rank of Colonel, made a patriotic and decidedly military speech, expressing his admiration of the military forces of Britain and our own volunteer force of Canada as well.

MAJOR R. W. BELL pointed out that many of the best of Her Majesty's soldiers, here and abroad, were Scotchmen, who represented the intelligence and bravery of our country.

CAPT. R. M. DENNISTOUN referred more particularly to the need there was for new armories, and he felt assured as soon as Peterborough was supplied in this respect the 57th Battalion would be second to none in the province. As it was, the corps was composed of brave and well-drilled men, ever ready to respond to a call to duty As Captain of No. 4 Company, he could personally vouch that 46 men were always prepared to follow him into danger in defence of their country.

"The Day and a' wha' honor it," was next proposed. Mr. Wm. Telford, Bard of the Society, by special request read one of his poems, entitled "My Granny and Me," and further supplied an original one prepared especially for and appropriate to the occasion. Both efforts were warmly applauded. The President also read a handsome memorial card he had received from an unknown friend in Hamilton, expressing a number of beautiful sentiments.

Ex-President WM. CUMMING referred expressly to the past history of the local Society. Organized some thirty years ago in Downer's house, Ashburnham, it had flourished and grown, and he took the large attendance on this occasion as an evidence of its prosperity.

Mr. Alexander Stewart, in lieu of a speech, contributed a patriotic song, "The Sons of the Thistle."

Mr. WM. LEARMONTH gave some interesting reminiscences of his early life in Peterborough. He came here 53 years ago, and had watched and materially assisted in the growth and building up of the town.

Vice-President HENDRY introduced the next toast, to "Canada, our Home," adding that though only four years a resident of the Dominion, he had learned to love this land of liberty. The toast was drunk with extra gusto by the company.

Mr. DUNCAN MCLEOD made a flowery and patriotic speech in behalf of this, the land of his birth. Going back over the history of the Dominion, he pointed out how much of our greatness and prosperity was due to the Scotch element in our population, naming a large number of celebrated statesmen, legislators and public benefactors who were Scotch or of Scotch descent. Scotch industry and integrity were bound to win; and he hoped the young men of to-day would seek to emulate their forefathers.

Mr. G. M. ROGER following, boasted of his Canadian birth, and while admitting that Scotland was certainly a country to be proud of, our fair Dominion was still more so.

With a few preliminary remarks the 2nd Vice-President, Mr. THOS. TELFORD, introduced the toast to the "Parliament of Canada and the Legislature of Ontario."

Mr. JAS. STEVENSON, M.P., in a brief speech commended the members of St. Andrew's Society for their laudable patriotic efforts to keep alive the national spirit. Their's was a country of heroes and one to be cherished by all her people. The Society had reason to be proud of their bard, Mr. Telford, whose weight of years was not in the least cooling his enthusiasm or impairing his ability.

Mr. J. R. STRATTON, M.P.P., expressed his pleasure at being present at this celebration of St. Andrew's Day, which was the thirteenth he had the honor of attending in Peterborough. The Society was a benevolent and patriotic one, worthy of every encouragement. In thanking them for the toast on behalf of the Legislature, he stated there were many Scotchmen on the Legislative benches, and besides the Premier and Lieut.-Governor of the Province were "sons o' the heather." He believed that Canada was blessed with a better government than the old country, but while proud of his Canadian birth he appreciated the merits of Scotchmen. Their efforts to commemorate their patron saint were laudable in the extreme. This national spirit should be preserved among all peoples. The speaker drew attention to the many liberties enjoyed by Canadians as the direct result of the early labors of the Scotch pioneers. He hoped their annual gatherings would be continued and meet with even greater success in future.

Mr. Henry Bowie sang "Alister McAllister" with true Scottish spirit and expression. It pleased the company so well that they demanded an encore, which was responded to.

Mr. WALTER PATERSON proposed "The Learned Professions." This brought to their feet a large number of the professional gentlemen present.

Mr. J. O'MEARA led off with a spirited address, commending the effort to maintain national sentiment among men who had made their homes in another country; he believed by so doing a national spirit could best be awakened in Canada.

Mr. G. M. ROGERS favorably compared the Canadian bar with the legal fraternity of the old country, and said Scotch industry and integrity were characteristics of Canada's prosperity.

Mr. R. R. HALL reiterated the sentiments relative to Scotland and her people made by other speakers, but disagreed with Mr. O'Meara in one thing. He believed a man's thoughts should be first of the country in which he lived, and afterwards the land of his birth. Men's efforts should be to build up the country in which they lived.

Mr. J. H. BURNHAM held that man's first duty was towards his mother land, and he was pleased to see Scotchmen doing honor to the land of the heather, from which they sprung.

Mr. R. M. DENNISTOUN, Dr. KINCAID and Dr. BELL also replied, the second named expressing his opinion that it was the duty of young men to forget old traditions when in a new land, which they proposed to make their home. They should carve out their destiny regardless of old country ties.

Mr. DUNCAN MCLEOD proposed a toast to the "Agricultural, Mercantile and Manufacturing Interests."

Mr. Henry Bowie sang another of his excellent Scotch songs.

Mr. JOHN SPENCE made an address pointing out the progress that the world was making in all the lines of life.

Mr. D. BELLEHEM also made a few remarks, congratulating the town on its excellent manufacturing industries, which were all standing on their own bottom. As the Mayor was present, he would say for himself he was only dissatisfied in the matter of taxes, in which he thought the manufacturers, as a rule, had reason to complain. They didn't want any bonus but lower taxes.

Mr. DAVIDSON, of Smith, replied on behalf of the agricultural interests.

To the "Mayor and Corporation," proposed by Vice-President HENDRY, Mayor STEVENSON and Councillor CAHILL responded. Both pointed with pride to the financial eminence and prosperity of the town. Mr. Cahill understood from the demonstrations made by the men present that they endorsed the actions of the municipal council.

Mr. Morrison interlarded a song entitled "The Ploughman."

The pleasing duty of proposing the toast to the ladies devolved upon the bard, Mr. Wm. Telford, and he did it quite gracefully and gallantly.

Mr. Stewart contributed a nice little domestic ditty appropriate to the toast, which was further honored by a trio from Messrs. McKim, McCallum and Munro, entitled "Willie Brewed a Peck o' Malt." Messrs. C. H. Allison and R. R. Hall added a few chivalrous remarks, and Mr. Wm. Breckenridge contributed a vocal solo.

The "Press" and "Our Host and Hostess" were remembered and honored with a toast. Mr. Morgan, in addition, was treated to an ode in his honor by Mr. Telford. The popularity of the host was evinced by the applause his appearance created.

"Auld Lang Syne" by the company with joined hand, and the National Anthem, brought the very pleasant proceedings to a close.

AGAINST EXEMPTIONS.

Victoria County Council Moves Abolition—Lindsay Notes.

LINDSAY, Nov. 30. A carpenter named Alex. Bell fell from the new postoffice here to-day and broke his leg.

The County Council of Victoria, which closed its session to-day, passed a resolution in favor of abolishing all exemptions from taxation and a petition will be presented to the Provincial Government to that effect. The Council also unanimously passed a resolution to memorialize the Minister of Militia for the establishment of the Victoria County Battalion of active militia with a battalion drill shed at Lindsay. It was decided to appeal to the Supreme Court the question of boundary bridges between Peterboro and Victoria, Peterboro now declining to assist in the maintenance of the same.

Adam Hudspeth, M.P., on Thursday received a cablegram from Sir Charles Tupper informing him that his application for a Royal Humane Society's medal for bravery by a young Englishman of Peterboro, aged 19, named Heathcote, was granted. Heathcote last summer saved two young ladies from drowning.

A COPYRIGHT QUESTION.

Meeting of Montreal Booksmakers — The Berne Bill in Distress.

MONTREAL, Nov. 30.—At a meeting of publishers, booksellers and printers of Montreal this afternoon resolutions were adopted to the effect that having heard the explanations of the deputation from the Copyright Association of Canada, showing conclusively the great injury which would result to the publishing, printing, bookselling and bookmanufacturing interests of the Dominion by the adoption of what is known as the Berne Bill, and also being convinced of the inadequacy of the present Canadian Copyright Act to secure justice to important Canadian interests, and also believing that if said act is amended in the direction suggested by the Copyright Association of Canada the interests of every industry connected with the manufacture of books in Canada would be thereby universally benefitted; therefore we express our hearty sympathy with and approval of the objects of the Copyright Association of Canada in their crusade against the Berne Bill and in their agitation in favor of amending the present Copyright Act in the direction indicated.

Indignation at Jacksonville.

JACKSONVILLE, Fla., Nov. 29—Three new cases of yellow fever were reported here yesterday, no deaths. There is great indignation over the refusal of the Board of Health to issue a proclamation allowing the return of refugees to the city. Hazen, a returned New York refugee who has been residing at Burnside Beach of late, came to town yesterday and was arrested and fined $100. He refused to pay the fine and now lies in the city jail. On the other hand one or two refugees are known to have come in on yesterday's Northern train and no notice of the fact was taken by the police.

THREE NEW SENATORS.

THEIR APPOINTMENT OFFICIALLY ANNOUNCED.

Another Attempt to be Made to Propagate Lobsters in British Columbia—The Edison Patent Case.

OTTAWA, Nov. 30.—The calling to the Senate of Hon. C. S. Rodier for the Mille Isles division, of Hon. George A. Drummond for the Kennebec division, and of Hon. E. J. Price for the Laurentides division, mentioned in this correspondence on Monday last, was officially announced to-day.

T. O'Hearn left for Kingston yesterday to superintend the laying of the Government cable to connect Wolfe and Howe Islands with the mainland.

It is understood that the Fisheries Department will make another attempt next spring to transport live lobsters from the Maritime Provinces to British Columbia for propagation.

The evidence taken in the Edison patent case was distributed to counsel some days ago, and argument will be heard by Mr. Pope, Deputy Commissioner of Patents, on Dec. 12.

Mr. Blanchard, owner of the barges wrecked at Cape Vincent during the recent gale, which were loaded with lumber from the Eddy Manufacturing Company, had an interview with the Department of Railways and Canals to-day with reference to getting his barges through the canals to winter here. He was informed that water would not be let out of the canals while the present mild weather lasted.

Mr. Lowe, Deputy Minister of Agriculture, says the Department has no knowledge of there being any leprosy in British Columbia as reported in some newspapers.

TORONTO TOPICS.

Death of the Victim of Criminal Malpractice—A Bigamist's Light Sentence.

TORONTO, Dec. 1.—The Mining Commission sat again yesterday for the hearing of testimony. Messrs. Latimer (at one time assayer at Port Arthur), W. H. Lockhart Gordon, Chas. S. Morris, James Lobb, W. J. Hughes and other witnesses were examined.

The medal and diploma of the Royal Humane Society awarded to Frank Reynolds for rescuing two boys from drowning in the Don in June last has been received by the Mayor, who will present it to the lad in Dufferin School on Tuesday morning.

Lillie Charlton died about midnight. To her attendants yesterday she had frequently expressed the wish to be relieved from her terrible suffering and was fully resigned to her fate.

Yesterday morning early Governor Green visited Dr. John Valentine in his cell at the jail, and found him so far progressed towards recovery from the effects of his recent prostration, caused by excessive indulgence in strong drink, that he concluded his health would not be endangered by a ride to police headquarters. Governor Green telephoned to Inspector Stark that the doctor was in a fit condition to be removed. He looked pale and anxious when he appeared in court and was indicted as follows: "That on the 20th day of November unlawfully and feloniously did cause to be taken by one Lillie Charlton, certain poison or other noxious thing with intent then and thereby to cause the miscarriage of the said Lillie Charlton." The prisoner, through his counsel, requested leave to defer making an election for the present, as there was no hurry. The Crown not being in a position to proceed with the prosecution, the request was granted, the prisoner being remanded till Monday next, to which day Wilkinson, the other prisoner had already been remanded. On a second charge of using an instrument he was also remanded.

Edward Bell, who a month or so since fiercely attacked Mrs. Ferguson on Edward-street with an axe, wounding her seriously, was yesterday sent to the Central for a year.

Staff-Inspector Archibold explained to the Police Magistrate yesterday morning that Fred A. Clarry, who was arrested for managing and conducting a lottery, had given up all the books and tickets connected with the lottery and had satisfied him that nearly all the money received for tickets had been paid back. There was an end to the lottery. The law having been thus vindicated, the charge was withdrawn and the accused discharged.

Before Col. Denison, at the Police Court yesterday, David Hatch, alias Ames, pleaded guilty to being a bigamist. He pleaded in extenuation of his crime that having been separated from his wife for over seven years, he thought the marriage ties had been dissolved. In answer to His Worship, he said he knew his first wife was alive. In September last Hatch, who assumed the name of Ames, married a woman named Sarah Chester in this city, going to housekeeping at No. 243 Wilton-avenue. He was first married in the town of Dundas fourteen years ago, but only lived with his wife four years, their separation being due to interference on the part of his wife's relations. Both wives were in court. The magistrate sent him to the Central Prison for four months.

German Apathy Annoys Austria.

PESTH, Nov. 29.—The Nemzet, the organ of Premier Tisza, in replying to an article in The North German Gazette of Berlin, declares that it is the wish of Premier Tisza to maintain treaties only as a safeguard to Austrian interests, and that he does not desire to share the Balkans with Russia. He hopes that the German press will cease treating eastern affairs with apathy, as it is annoying to Austria.

A BIG BLAZE IN LONDON.

THE McCLARY MANUFACTURING COMPANY'S BUILDING BURNT.

Nothing Standing but the Walls—The Loss Estimated at $100,000—Several Firemen Thrown from a Ladder.

LONDON, Ont. Nov. 30.—At 9.45 this evening fire broke out in the japanning department on the top floor of the four-storey building belonging to and occupied by the McClary Manufacturing Company, the largest stove and tin woking establishment in Ontario, if not in the Dominion.

Within thirty minutes the entire main building was a roaring furnace, floor after floor with the finest machinery of the kind in the country falling, until nothing remained but the walls.

It is difficult to estimate the loss at the present moment, but one of the managers thinks it will be in the neighborhood of $100,000.

Three or four of the firemen were thrown from one of the ladders by a mass of falling debris but none of them seriously injured.

An $8000 Fire at Trenton.

TRENTON, Ont., Nov. 30.—A fire broke out in the store of B. E. Bell last night. It was supposed to be extinguished, but this morning broke out afresh, destroying the whole block and burning out S. E. Bell, grocer, J. F. Weir, hatter, W. Baird, tailor, and the opera house. Loss, $8,000, covered by insurance.

ST. ANDREW'S DAY.

Vice-Royalty and Beauty at the Toronto Pavilion.

TORONTO, Dec. 1.—Could St. Andrew, the patron saint of Old Scotia, have taken a peep into the Pavilion at Horticultural Gardens last night he would have seen something that would interest him. There, beneath a canopy of flags and bright lights, surrounded by a profusion of decorations and pervaded by the perfume of flowers and exotics, the whole softened by tuneful music, between two and three hundred revelers whiled away the midnight hours. It was the annual ball of St. Andrew's Society, generally the public social event of the season.

Last night's affair has been the talk of the town for a month past, because the Governor-General had promised to attend in person and bring with him Lady Stanley of Preston and his entire court. His Excellency did, to the unbounded delight of President D. R. Wilkie and his brother officers and members of St. Andrew's Society. Mrs. Langtry, who it had been whispered would be there, did not put in an appearance.

Many of the dresses were really handsome. Of course all eyes were on the ladies from Rideau Hall.

Lady Stanley of Preston wore a dress of heavy green velvet and pink brocade; ornaments, diamonds.

Hon. Mrs. Colville wore a dress of white tulle, with body and sash of rich brocade, trimmed with white ostrich feathers; ornaments, diamonds.

Mrs. Josseline Bagot wore a dress of rich pink brocade, trimmed with white crepe de chene; ornaments, diamonds.

Miss Lister wore a dress of soft white tulle, with large pink moire sash; ornaments, diamonds.

VALLERY'S SUIT.

How Governess Wiedemann Broke Down in Her Evidence.

LONDON, Dec. 1.—The sensational suit which was begun by Miss Weidemann, a German governess, against Capt. Robert Horace Walpole, for breach of promise, ended in an extraordinary manner. The Queen's Bench Division Court was crowded by representatives of every grade of society, owing to the great publicity given to the case by the newspapers. Miss Weidemann was placed in the box and the solicitor-general resumed his cross-examination. She said she wrote to Capt. Walpole's mother and fiancee that she had a child living.

"Is it living now?"

"I decline to answer."

The judge told her to answer and she reluctantly said it was.

"Was your child born in June, 1883?"

At this question Miss Wiedeman's face blazed with indignation. She stamped her foot and burst into tears. "I will not answer those questions," she cried hysterically; "it is disgraceful. I am only suing for breach of promise, and my child has nothing to do with the case. I would rather go out of court than answer. After six years to put such a disgrace upon me! It is a shame to humanity!" The judge told her kindly she must answer the question; her counsel tried to reason with her, but to no purpose.

She declared amid sobs she would rather abandon the case. Arguments, threats, pleadings failed to alter her mind, and the judge reluctantly directed the jury to find a verdict for Walpole, who was a breathless witness of this remarkable scene. It is understood that the defence would have tried to prove that the child was not Walpole's and his friends say Miss Wiedemann dared not undergo examination on the point.

Her friends claim that she has been driven almost distracted by her troubles and the prospect of having to face exposure in court nearly drove her mad. It was feared from the first that she would refuse to answer questions relating to her child. The presumption is that the child was adopted by someone on the condition that its whereabouts and identity would never be revealed.

A motion for a new trial will be made to the Divisional Court on the ground that the plaintiff being a foreigner did not understand the consequences of her refusal to answer the Solicitor-General's questions, and meant to retire simply to have time to consider her position.

UNIVERSITY CONFEDERATION.

District Convention at Cannington—A Non-Committal Resolution.

CANNINGTON, Nov. 30.—A district convention was held in the Methodist Church here in the interest of college federation on Thursday. After a full discussion this resolution was carried:

"Resolved, That the amount placed upon our district ($2062) be apportioned to the several circuits and missions upon the basis of the superannuation fund, to be dealt with according to the best judgment of the several ministers and quarterly meetings of the district, and we pledge ourselves to open the way for any one appointed by the General Secretary of Education to canvass our district for subscriptions, but that any action of ours to-day is not to be considered with any responsibility on our part to raise any stated amount laid upon our several fields of labor."

THE VACANT ARCHBISHOPRIC.

A Rumor at Montreal That Bishop Cleary Has Been Appointed.

MONTREAL, Nov. 30.—It is reported in ecclesiastical circles here to-day that Bishop Cleary has just been named by the Holy See Archbishop of Toronto and that Canon Gauthier of Brockville has been appointed Bishop of Kingston.

A Postal Occasion at Maidstone.

WINDSOR, Nov. 30.—Sixty of the tenants of Mr. Alex. Cameron in the counties of Essex, Kent and Lambton gave a banquet and ball to their landlord yesterday near Maidstone, the festivities being in honor of the marriage of Mr. Cameron's son, Alfred B. Cameron of Toronto, and Miss Walker, to whom a handsome silver set was presented.

The Bridges Dispute.

Victoria County Council met this week and have been dealing with the Bobosygeon and Pigeon Creek bridges. With reference to the former the county solicitor read the judgments of Judges Burton and Osler, (already published in the EXAMINER) and it was pointed out that the township of Verulam would have to maintain the bridges. The propriety of taking the case to the Supreme Court was discussed and referred to a committee.

A petition signed by 104 ratepayers of Emily was presented to the council, praying that such assistance be given to the town and county of Peterborough as will assure the immediate opening of the Pigeon creek floating bridge. The matter was referred to the committee on roads and bridges. Referring to this matter the *Post* says:—"Mr. J. C. Leary, of King's wharf, Emily, has been in town this week waiting on the county council in the interests of the Pigeon creek floating bridge. Mr. Leary puts the case strongly before the road and bridge committee. The matter was deferred to the January session. In view of Peterborough's sharp and selfish conduct in the Kinmount and Bobcaygeon bridges this county has to be very circumspect," and to this the *Warder* adds:—"Peterborough county having temporarily won the suit re the Bobcaygeon boundary bridges, has closed Pigeon river floating bridge. Victoria county should see it kept closed."

The Omemee *Herald* says:—"Yes, by all means, let the bridge be abandoned. It will be all the better for Lindsay, Omemee and Bobcaygeon. Let the farmers support their own county, which is Victoria."

A despatch from Lindsay Friday, 30th says:—"It has been decided by the County to appeal to the Supreme Court the question of boundary bridges between Peterborough and Victoria.

A Plucky Rescue.

A Brave Action Recognized by the Royal Humane Society.

On Tuesday Mr. Adam Hudspeth, M. P., Lindsay, received the following cablegram from Sir Charles Tupper:—

LONDON, Eng., 27th. Nov.— The *Times* this morning says "Royal Humane Society have granted William Heathcote silver medal."

This cablegram was the result of an application made by Mr. Hudspeth on behalf of Mr. William Heathcote, a young Englishman about 22 years of age who has been in Canada two or three years, and is now studying engineering with Mr. John Belcher, C. E. of Peterborough.

The following particulars of the plucky rescue for which the medal was granted are given by the *Warder*:—When Mr. Hudspeth went down to his lodge on the narrows between Pigeon and Buckhorn Lakes in the latter part of July last, he learned the following facts. Dr. Boucher and Mr. Wood of Peterborough, with their families, had come to their lodge at Oak Orchard a few days before. A domestic servant of Mrs. Wood with a friend of hers, a young woman from Kankamore, wanted to go out on the Lake, and got a boy to paddle them in the canoe. It was a lovely moonlight night, the moon being like a mirror. The two young gwemen and the boy paddled up towards Pigeon Lake. Young Heathcote who was staying with Mr. Belcher at his lodge was paddling a canoe full of children and heard the young women laughing and screaming as they passed up the lake.

It appears the boy was trying to frighten them by rocking the canoe, and they attempted to change places. In a moment they were upset. Heathcote saw the accident but could do nothing with his canoe full of children. Luckily another canoe was near in which a son of Dr. Boucher was paddling, and he called to him and as speedily as possible transferred the children into it. He then paddled to the scene of the accident. He found the canoe bottom up and the boy clinging to it and screaming. The two young women were not to be seen. A considerable time had elapsed and they had evidently sunk to rise no more. Heathcote paddled slowly around the canoe, looking down into the water and presently saw something white, which proved to be part of one of the young women's underclothing. He soon got hold of one of her legs, and in some way got her lifeless body into the canoe and laid her in the bottom of it. He then commenced looking for the other, and had a good fortune to see some dark object down in the water which he grasped. It proved to be the hair of the other young woman, and he pulled her up but could not get her into the canoe. He lay down in the bow and got his arms under hers and raised her head and shoulders out of the water, holding her there and shouting as loud as he could. Mr. Chase heard him and put off in his punt to the rescue. They soon had the young woman in the punt and rowed and paddled to the lodge Oak Orchard where Dr. Boucher and others worked at them until both young women were resuscitated. If the night had not been so calm and the moon shining all attempts to save them would have been in vain but the coolness and presence of mind of young Heathcote were very remarkable and such as not one in a thousand would have exhibited. Mr. Hudspeth on his return to Lindsay wrote to Sir Charles Tupper giving him the facts and asking him to bring the matter before the Royal Humane Society which he had done with a very satisfactory result.

One Good Point

Out of the many possessed by Burdock Blood Bitters is that it may be taken at all seasons of the year, and by either young or old. In this way the three busy B's are always at work and doing good. 2w47d

Prevailing Sickness.

The most prevailing complaint at this season are rheumatism, neuralgia, sore throat, inflammations and congestions. For all these and other painful troubles Hagyard's Yellow Oil is the best internal remedy. 2w47d

Will Be Fully Met.

Indications of dyspepsia, such as Sour Stomach, Heartburn Sick headache, Rising and Souring of food, Wind on the stomach, or a Choking or gnawing sensation at the pit of the stomach are fully met by Burdock Blood Bitters which has cured the worst on record. 2w47d

"Eureka" and "Golden Hair Wash."

These are two of A. Dorenwend's standard preparations. The "Golden Hair Wash" gives the hair that beautiful golden shade so universally admired; it does not injure the hair in the slightest degree. "Eureka" removes all superfluous hair from the face, arms or neck at one application. See that each bottle of either preparation bears on the label the signature of A. Dorenwend. For sale by all druggists everywhere. dw

A Reasonable Hope.

Is one that is based on previous knowledge or experience, therefore those who use B. B. B. may reasonably hope for a cure because the previous experience of thousands who have used it, shows it to have succeeded even in the worst cases. 2w47d

Reliable Remedy for Rheumatism.

Procure a bottle of Hagyard's Yellow Oil from our medicine dealer, and use according to directions. It cured Ida Johnson, of Cornell, Ont., of that complaint, and she recommends it as a sure cure. For 25 years it has never failed to give satisfaction. 2w47d

Eczema. Itchy, Scaly Skin Tortures.

The simple application of "Swayne's Ointment," without any internal medicine, will cure any case of Tetter, Salt Rheum, Ringworm, Piles, Itch, Sores, Pimples, Eczema, all Scaly, Itchy Skin Eruptions, no matter how obstinate or long standing. It is potent, effective, and costs but a trifle. Lyman, Sons & Co. Montreal, Wholesale Agents. dw

MUNCASTER'S

PRICES AND PROSPECTS.

MOST MARKETS QUIETER THAN LAST WEEK.

The Tone of Stock Speculation Improved Continued Evidence of a Short Wheat Crop Active Demand for Wool.

NEW YORK, Nov. 30.—Special telegrams to Bradstreet's indicate that the storm of the early part of the week, the Thanksgiving holiday and the approach of the end of the month, together with the proximity of the Christmas holidays, have had some effect on the course and volume of general trade, but cities sending least favorable reports state the situation to be fairly satisfactory and the outlook favorable. Most markets, excepting wool, cottons, boots and shoes, are slightly quieter than last week.

Cattle are lower at western centres after heavier receipts, but hogs at most points are higher under better demands for packing.

The situation in the steel rail industry has grown worse instead of better. Notwithstanding the published statement that the steel rail mills had partitioned the east, central west and west among themselves in order to establish a profitable minimum price for rails the determination of one or two mills to have their way has not been overcome by conference or solicitation. Business has therefore been checked, buyers waiting to learn whether $27.50, $26.50 or $25.50 is to be the established price.

The steel rail consumption for 1888 is about 50 per cent. of the capacity of domestic mills. There is no gain of moment in pig iron, western furnaces are relatively most active. Under the new contract between the copper mining companies and the French combination a 20 per cent. reduction in output beginning Jan. 1 is contemplated.

The conclusion of an arrangement to advance railroad rates in the west and southwest, aided by symptoms of a trunk line pacification, improved the tone of stock speculation and caused irregular improvement in values. In general the money markets continue easy with no material change in the rates. Money at New York is easy, call loans 2 and 2½ per cent., foreign exchange strong at figures just below the gold shipping point, though gold is still being exported on special arrangements. About $2,000,000 have gone abroad this week. Demand sterling $4.82 to 4.83½.

Evidence of a short wheat crop continues. Bradstreet's telegraphed advices from San Francisco are that inquiries have been received there from Australia for wheat and corn. The New Zealand surplus for export is only 980,000 bushels, most of which will go to New South Wales and Queensland, owing to the dry weather there. During the past week but 704,911 bushels of wheat (and flour as wheat) were exported from the United States, both coasts (Portland not heard from), compared with 1,446,411 bushels last week and 2,663,000 bushels in the corresponding week of 1887. The total wheat (and flour as wheat) exported July 1 to date (five months) is 45,717,311 bushels, against 66,000,000 bushels in a like portion of last year. Wheat is off 1½c. on the week and flour, high grades, is about 5c. to 10c. off. Corn is 2½c. and oats 1c. lower.

The active demand for wool continues well sustained at all leading markets, but woolen fabrics do not show a corresponding advance which does not aid smaller manufacturers. It is believed spring woolen goods are bound to sell higher. The mills are all fully employed. Conditions before noted check dry goods jobbing operations. Transactions in print cloths are very heavy and lighter stocks are a result, with prices advanced ¼c. Fine bleached goods are higher and fine colored cottons and low grade bleached goods are stronger. There are a large number of orders for spring delivery. Leading makes of ging hams are ordered well ahead. Flannels have advanced in price. Cotton is more active on a declining market (¼c. on the week), due to tame advices from abroad. There is an increased crop movement and lower quotations at primary points. A tendency to further decrease in the crop estimates is noticeable.

Prices of raw sugars have favored holders about 1-16c. As meltings exceeded arrivals refiners' stocks were reduced at New York 4137 tons and importers stock to an extent which makes them the lightest at New York in a long series of years. Foreign advices per cable favored the tendency of prices here. There has been more enquiry for refined, and prices are up about 1-8c. Two ships have been chartered at San Francisco to proceed to Manilla and load sugar for New York at $930 per ton. Refined sugar is 1-16 higher at San Francisco. New Orleans new crop receipts show a noteworthy increase in the yield over late expectations.

Coffee sustained an advance of about ¼c. on more liberal purchases of desirable invoices by jobbers and distributors, the demand being conspicuous in East Indian as well as Brazilian.

The Week's Failures.

NEW YORK, Nov. 30.—The business failures occurring throughout the country during the last seven days, as reported to Dun, Wiman & Co., number for the United States 261 and for Canada 31, or a total of 292 as compared with a total of 296 last week and 237 the week previous to the last. For the corresponding week of last year the figures were 244, made up of 215 in the United States and 29 in Canada.

Ample Satisfaction.

WASHINGTON, Dec. 1.—The United States Consul at Port au Prince informs the Department of State that the schooner Wm. Jones of Boston, which was captured on Oct. 20 while proceeding to Gonaives and arbitrarily ordered to Port-au-Prince, has been released and an indemnity of $10,000 paid to Captain Collins. All port charges and custom duties on the cargo were remitted. The consul says this may be considered a very satisfactory disposition of the incident of the illegal capture and detention of the vessel.

Lake's Arrest.

MONTREAL, Nov. 30.—Edward Lake, who was arrested in Toronto Wednesday on a charge of vagrancy and on suspicion of being one of the crooks who murdered Policeman Thayer at Detroit on Monday night, was arrested on suspicion of having committed a burglary in Wheeler & Wilson's store last Sunday. He was discharged and warned to leave the city immediately.

The Millers Will Meet.

MINNEAPOLIS, Minn., Nov. 30.—The Northwestern Miller states that enough assurances have been received from the millers of St. Louis, Buffalo, Milwaukee, Chicago, Minneapolis, and other points to make it reasonably certain that the proposed millers' conference at Milwaukee on Dec. 17, will take place.

HAPPY HAMILTON.

Preparing for Lord Stanley's Visit—Sent Two Tramps Across.

HAMILTON, Nov. 30.—As rapidly as possible everything is being put into readiness for the reception of the Governor-General Lady Stanley and party. Men were employed until a late hour last night in the erection of the arch on King-street, which is beginning to present the appearance of a portion of an old castle. The men worked by the light of two electric lamps, in the light of which the arch looked rather imposing. Under Chief Aitchison's direction the city arch in front of the temporary City Hall is beginning to look well. Words of welcome have already been put in place upon it. The private decorations are going on all over the city. Streamers bearing mottos, flags and banners are being hung out on all hands.

A farmer named Copp living in Nelson township is suing Henry Foster, J. P., of Burlington, for $10,000 damages for false arrest. Copp's cows were impounded and he was fined $1 and costs. This he refused to pay and after the justice of the peace had given him a week to do it in he was brought up again, but refused to pay, and addressed a most unseemly remark to Mr. Foster, who at once sentenced him to twelve days' imprisonment—seven for not paying his fine and five days for contempt of court. At the end of the seven days he was bailed out, and a writ has been issued against Mr. Foster.

The charge against Drill Instructor Athawes, for assaulting Walter Champ, occupied the attention of Police Magistrate Cahill again to-day. William Bell, chairman of the Board of Education, was called as a witness. The magistrate reserved his decision until Wednesday.

Rheumatic Pains

Require no discription, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nerviline. It is safe to say that nothing yet discovered has afforded equal satisfaction the to the suffering. A trial can be made at a small cost, as samles bottles of Nerviline can be had at the drug stores for 10 cents, large bottles 25 cents 6d48w

SORE FROM KNEE TO ANKLE.

Skin entirely Gone. Flesh a Mass of Disease. Leg Diminished one Third in Size. Condition Hopeless. Cured by the Cuticura Remedies.

For three years I was almost crippled with an awful sore leg from my knee down to my ankle; the skin was entirely gone, and the flesh was one mass of disease. Some physicians pronounced it incurable. It had diminished about one third the size of the other, and I was in a hopeless condition. After trying all kinds of remedies and spending hundreds of dollars, from which I got no relief whatever, I was persuaded to try your CUTICURA REMEDIES, and the result was as follows: After three days I noticed a decided change for the better, and at the end of two months I was completely cured. My flesh was purified, and the bone (which had been exposed for over a year) got sound. The flesh began to grow, and to-day, and for nearly two years past, my leg is as well as ever it was, sound in every respect, and not a sign of the disease to be seen.

The Court of Chancery.

Conclusion of the Business of the Session.

The November session of the Court of Chancery closed to-day. Following are brief sketches of the cases disposed of:

HILLIARD VS. BECK, *et al.*—An action brought by Mr. Geo. Hilliard against Rev. J. W. R. Beck and J. Stothart, to recover the value of certain buildings erected on lands leased from Rev. Mr. Beck, rector of St. John's, Peterborough. The lease, dated in 1866, was good for 21 years, and included a covenant for perpetual renewal, or, in case of expiration, the lessor should pay the lessee the value of the buildings erected on the premises. In 1875 the lands were sold to the defendant, Stothart, subject to the existing leases. Plaintiff's lease expired in November, 1887, and Stothart was by award directed to pay $350 to plaintiff for the buildings and also one-half the expenses of arbitration. The latter refused to pay this amount on the grounds that the rector had no power to grant the lease for longer than a 21-year period, nor to covenant for payment for improvements, and that he (defendant) was not liable for such a lease, but rather that the onus rested on the other defendant, Rev. Mr. Beck. The Chancellor held that the rector, whether he had the power to grant longer time or not or to covenant as he did, yet he was, by these acts, liable to the plaintiff for fulfillment of the lease agreement. The rector himself thought so, for at the time of sale to Stothart it was stipulated that the latter should be bound by existing leases; and, as the rector had stated in his evidence, the burden of his liability was thereby transferred to the defendant Stothart. Further, the Chancellor held that Stothart, by accepting rental from the plaintiff from 1875 to 1887, and by his conduct in seeking the arbitration, had made himself liable, and he directed the defendant Stothart to pay the full amount of plaintiff's claims and costs, and costs of co-defendants also. Dumble & Leonard, for plaintiff; A. P. Poussette and H. T. Beck (Toronto), for defendant Beck; G. H. Watson (Toronto) and R. E. Wood for defendant Stothart.

MOLSON'S BANK VS DREW, LEWIS ET AL.—An action transferred from Perth and wholly one of legal points. Mrs. Lewis, one of the defendants, denied her liability on the ground that she was a married woman when she entered into a certain agreement or contract, and had no separate estate. W. A. Reeve, Q.C., Toronto, and J. R. Lavell, Smith Falls, for plaintiffs; W. A. McClive, for defendant Mrs. Lewis; other defendants had no counsel. Judgment reserved.

REDPATH VS. CASTLE.—The plaintiff, Mr. Wm. Redpath, applied to have certain documents removed from the registry office on the ground that the first and most important one had been forged and registered contrary to the provisions of the Registry Act, claiming title by right of possession. Hall & Hays for plaintiff; Edmison & Dixon for defendant. Action dismissed, the Judge holding that plaintiff's title was a possessory one and not affected by the instruments in question.

HEAVIS VS. BRADBURN.—An action to set aside an agreement for sale of land in town. Defendant claimed agreement was not binding and plaintiff sought to enforce it.

ERRATUM.—In Burnham vs. Moloney there was no non-suit, but the accounts were referred to the Master in the usual way.

Musical Reunion and Review.

By the Pupils and Former Pupils of the Convent.

Last night a musical reunion and musical review of the pupils and ex-pupils of the Convent of the Congregation de Notre Dame, was held in the music room of the convent. Besides the pupils there were present His Lordship Bishop Dowling and the resident clergy, Rev. Father Lynch, Rev. Father McKay, Rev. Father Rudkins, Rev. Father Dubis and Rev. Father Nolan, of Italy. The contributors to the programme were of two kinds, the present pupils and the former pupils, the occasion *furnishing an opportunity of judging if* the latter have kept up their practice and profited by their instructions, and this test was very satisfactory. The music performed was of the classical order and was excellently rendered. The young ladies contributing the instrumental part of the programme were Misses K. Lynch, G. Coleman, M. F. Sullivan, M. Balter, M. Smith, Aggie Sullivan, K. Hall, I. Mahoney, M. Doherty, Kate Henderson, E. Crummie, K. Howden, J. McCabe, Mary Stratton, Annie Lynch, Bella Fairweather, C. Laplante, and Bertha Lech. The vocalists were Misses Annie Dunn, Jennie McCabe, G. Coleman, Gertie Sullivan, Annie Simons, E. Lynch, Minnie Bagley and other smaller misses in chorus, *Miss Lizzie McCollough*, accompanist. The programme, which was beautifully rendered, opened with the "Welcome Chorus," and closed with the chorus "Many Happy Returns." A dutiful address to His Lordship was read by Miss Essie Crummie, to which he replied in a most amiable and happy vein, highly complimenting the pupils upon the excellence of their performances.

AUBURN MISSION.—Preaching as usual at 7 p.m.; Sunday school at 3 p.m.

Change in Confectionery Business.

Mrs. Harvey, of Midland, having purchased the confectionery business of Mr. John Craig (the lower shop), took possession yesterday and will hereafter conduct the business, as confectionery shop, lunch rooms and pastry shop. Mrs. Harvey comes well recommended from Midland, and, having employed a first-class confectioner and pastry cook, is prepared to serve the public in these lines with a guarantee of satisfaction. Fresh oysters received daily and served in every style at all hours. Hot lunch at all hours. Remember the shop, 422 George street. Patronage solicited. 6eod126

Ennismore to the Fore.

Mrs. John N. Telford, of Ennismore, has kept, during the past summer, a comparative account of the profits accruing from six cows up to the 15th of August, and seven from that time on. Besides keeping a family of seven, a hired man and servant girl, and having a dairy supply on hand sufficient to do over the coming winter, she has netted $150.44, and raised four calves, which, averaging them at $4.00 each (a low average), would make a total of $166.44. The number of pounds of butter sold was 705. Who can beat this record?

Cheesemakers' Meetings.

A meeting of the Peterborough Cheesemakers' Association was called for this morning at the council chamber, but the attendance was so small that no meeting was held. However, Prof. Robertson explained to those present the provisions of the Milk Adulteration Act, and expressed the belief that there was no danger of the Act being rendered invalid. This afternoon a meeting began at two o'clock, at which the attendance was larger.

Private Residence.

Mr. Joseph P. Picard offers for sale a very fine private residence in one of the most quiet localities in the town. It is a beautiful solid brick house, with every convenience to make a comfortable home, and surrounded with shade trees. It has a fine lawn and excellent garden with choice fruit trees, and situated only fifteen minutes' walk from post office. See advertisement in another column and enquire at the City Clothing Store. A bargain for somebody. 1d1w

Institute Literary Society.

The above society had a meeting Friday afternoon, Mr. H. Fife, president, in the chair. The programme consisted of two readings by Miss B. Merrick and Miss M. Noble. There was also a debate on the programme, but the pupils from the Business College were unable to attend, owing to the absence of one of their debaters. The Institute orators are willing to wait, and we may expect to hear, before long, of a struggle between these two schools.

Farewell S. A. Services.

Farewell services, in connection with the departure of Capt. Howell, will be held in the Salvation Army barracks to-morrow. Staff Captain Marshall, who arrived in town from Ottawa last night, will be present, and no doubt large meetings will result. Staff-Captain Marshall, *the successor to Adjutant* Bolton, has met with great success, having opened nine new stations. Everybody come and welcome.

News Nuggets.

—Mr. Wm. Denoon shipped a carload of cattle to Montreal to-day.

—There was no debate of the Otonabee Canoe Club last night. It was postponed.

—During November 16 births, 7 marriages and 8 deaths were registered at the town clerk's office.

—The east dial of the town clock has been fixed by Mr. Thos. Irwin, and in future it will mark the correct time.

—A town cabby will appear in the police court Monday for violating the hackmen's by-law by over charging.

—Mr. James McNamara, of Coaticoke, Que., formerly of Peterborough, has a word to say to the people in the "notice" column.

—A man named Robert Henderson had the fingers of one of his hands crushed in the roller at Meldrum & Davidson's mill yesterday. No amputation was necessary.

—Meldrum & Davidson's roller mills have been closed down for some days past and will probably be for a week yet while some repairs are being made and new spouting put in.

—An old land mark has been removed off Sherbrook street, in the old building that stood along side the creek. It was built about 70 years ago, when Peterborough was a mere hamlet. It has been torn down and new sheds are being erected on its site.

Personal.

Mr. J. J. Garrock, of "Aberdeen awa'," is in town on a visit to his cousin, Mr. G. M. Roger.

T. Blazard, Esq., M. P. P., is in town to-day, having fully recovered from his recent severe illness.

Mr. W. H. Hill, general agent for this district for the Sun Life Assurance Company, has gone west for a week or ten days to visit with friends, recuperating.

Miss Lily Begley has been appointed to the position of organist and director of the choir of the R. C. Church, Norwood. She is completely restored to health.

Closing the Barnardo Bazaar.

The bazaar, conducted by Misses Wrighton and Stennett in the school room of St. John's, came to a close by a nice entertainment, presented under the auspices of the childrens guild of St. John's last night. The programme consisted of dialogues, recitations and *music, etc., and was very successfully* presented. The children of Hazel Brae gave very efficient assistance. The success of the entertainment reflects great credit on Miss B. Rickey, who had the management of it. The sum realized was a good one.

The Town Taxes.

The time for paying in taxes is drawing to a close. Collector Cumming and his staff are kept busy, and during the past week have taken in, on an average, about $3,000 a day. So far $25,000 have been taken in, but more than half the collectable taxes are still outstanding. After Wednesday next, Dec. 5th, a five per cent. addition will be made on all unpaid taxes. Those who wish to save themselves this extra burden had better a spear at the collector's office before that date and pay their bills.

Business Change.

The announcement has been made public of the purchase of Mr. G. C. Clarke's tailoring and shirtmaking business by Mr. W. H. Meredith, who has for some time past been cutter for the firm. Mr. Meredith is well acquainted with the business and besides is an experienced cutter. He will in future manage the business and will no doubt meet with his share of public patronage. The EXAMINER wishes Mr. Meredith success in his business enterprise.

P. B. C. Literary Society.

The following were elected officers for the ensuing month of the Peterborough Business College Literary Society, at a meeting held last evening:

PRESIDENT—Miss Moffat.
VICE-PRESIDENT—Miss Sailsbury.
SECRETARY—Mr. T. Jos. Cleary.
ASST. SECRETARY—Mr. Ed. N. Easton.
TREASURER—Mr. D. McCabe.

Hall Thieves at Work.

This morning Mr. Geo. B. Sproule made the discovery that some light fingered gentleman had stolen from the hallway of his house a Christie hat, a large grey Irish frieze overcoat and a Winchester rifle. He thinks the articles were stolen early in the week, but not having occasion to use any of them they were not missed from their places in the hall until to-day.

The Last Shot Fired.

The Gun Club held its last shoot of the season at Riverside Park yesterday. There was a rather small attendance on account, no doubt, of the unpleasant weather. Fifteen birds were allowed each man, and the following scores were made:—R. Tivey 14, H. W. Kent 10, H. Neil 12, H. Calcutt 11. Mr. R. Tivey has been making good scores lately and is prepared to shoot with any member of the Gun Club for a medal.

DON'T forget attending the auction sale of that nice two storey brick house, No. 789 Water street, north, at 2 p.m. next Wednesday, on the premises. There is room on the lot to build two more houses fronting on George street. This property must be sold, and it will be open for inspection every day from 10 a. m. until 3 p. m. Terms to suit purchaser. 3d128

"Y" At Home.

IMPORTANT.

We have just been advised, and we are sure the people of Peterborough will be pleased to know that A. L. Davis & Co. have decided to put the whole of their stock of books, stationary, and fancy goods on the market at cost price, commencing 1st December, and their stock, being in such good condition, the public are sure to get dollar for dollar. This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

Removal Sale.

W. J. Green, having decided to remove to *more convenient premises on Hunter street*, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Li-quor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

VICTORY ON OUR SIDE.

Reinforcements Still Coming Up—The Greatest Success Ever Achieved by any Company in a Hand-to-Hand Conflict—We Cut and Slash to Pieces the Bar of High Prices.

We make the Enemy take Back Water, and we send our Large Parcels out daily to the Honest Public. Last week's Trade far ahead of anything we expected.

Our Store is like an Auction Room on Market Days, and the Best of all the Public is delighted. The people say who see our Goods, "where do you steal them," but we answer, we don't steal them, but we buy right and therefore can sell right. Of course, we have no two thousand dollars rent to pay; no three thousand five hundred dollar salaries to pay; no sixteen hundred dollars for printing, but we cut down expenses, and sell right in for quick sales and small profits, and the public are appreciating our mode of doing business, by flocking in and buying where they can get dollars' worth for dollar every time. We are still ahead and intend to keep ahead, come what may.

We will have EXTRA HELP ON FOR SATURDAY, so you will not have to wait to be served as you have done before. Come early and secure THE BEST BARGAINS OF THE SEASON.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

Black and Grey Persian Lamb Cap at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

PLAIDINGS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

SOME SENATORIAL GOSSIP.

FOUR VACANCIES LIKELY TO BE FILLED AT ONCE.

Charlie Rykert and Mr. Montplaisir, M.P., Mentioned as Two of the Probabilities—The Crossing Case.

OTTAWA, Dec. 2.—There are still four vacancies in the Senate which it is most probable will be filled before Parliament meets. One for New Brunswick, caused by the death of the late Mr. John Ferguson, one for Quebec by the death of the late Mr. P. Fortin, one for Ontario by the death of the late Speaker J. B. Plumb and one for Manitoba by the appointment of Hon. John Schultz to the Lieutenant-Governorship. The Quebec vacancy will probably be filled by the appointment of Mr. Montplaisir, M.P. for Champlain, and rumor has it that Charlie Rykert will be Mr. Plumb's successor.

The transcription of the notes of the argument before the Supreme Court in the Manitoba railway case has been completed and copies sent to the judges, and judgment will probably be delivered when the court meets again on Dec. 14.

It is stated that Sir Charles Tupper will shortly visit Canada to give evidence in the arbitration case between the Government and the Canadian Pacific Railway arising out of the Onderdonk contracts on the British Columbia section.

Mr. P. Purcell, M. P., Glengarry, has contributed $100 to the Parnell defence fund.

The Customs Department received notice yesterday of the burning of the revenue cutter Prince Albert at Sandwich Pier.

The Free Press states, apparently on information furnished by someone in the Militia Department, that an appropriation will be asked next session for a Quartermaster-General at headquarters, a position provided for by the Militia Act but not hitherto filled, and mentions the name of Lieut.-Col. Ducheanay in connection with the appointment.

Mr. Schwab, Vice-Consul of France, and Mr. Boissere of the French line of steamers had an interview with the Minister of Finance yesterday, with reference to a continuation of the subsidy to the line of steamers between Canada and France.

Extensive seizures of smelts which were being shipped to the United States from Chatham Junction and other places in New Brunswick were made last week. The close season for smelts only expired yesterday, and these fish were consequently illegally caught. Some of the barrels seized were marked oysters.

Seven divorce suits will come before the Senate next session.

Yesterday's Canada Gazette contained new regulations relating to salmon and trout fishing in British Columbia.

Church Chimes.

Rev. J. Cheyne Davidson, the new curate in charge of St. John's Church, preached his inaugural sermon Sunday night to a pleased congregation. He has a powerful address and gives an instructive and impressive discourse.

In the course of his sermon Sunday, Rev. P. Clifton Parker, pastor of the Baptist church, touched upon a couple of points in the late lecture on "The Church and the Bible," by Bishop Dowling. He denied the claim of the Roman Catholic church to be the only true church of God, and maintained that the standard of a church should be based on its deeds and endeavors in the cause of Christ, and not upon past traditions, temporal supremacy or imposing church ritual. He also contended that there was not a particle of evidence to sustain the claim of the Roman Catholic church that it was founded by St. Peter, for St. Peter never was in Rome. Another commonly accepted error, said Rev. Mr. Parker, was that the Babylonian church was merged into the church of Rome; but the fact was that the Babylonian and Romish churches were distinct and separate at the other churches of apostolic times.

At the George street church Sunday night Rev. M. L. Pearson preached a memorial sermon to the late Mrs. Lilly, who was one of the oldest and most esteemed members.

THE BAUDIN DEMONSTRATION.

A Failure in Point of Numbers—The Procession Made Ridiculous.

PARIS, Dec. 2.—A host of sightseers gathered around the Baudin monument at the entrance to the Montmartre Cemetery this morning. Delegates from the Deputies Union of the Left and the Republican Union and from the Republican Left of the Senate, not wishing to take part in the municipal procession, arrived in separate groups and placed wreaths at the foot of the monument. The municipal parade started from the Hotel de Ville at 1.15 p.m. and slowly proceeded through the streets, reaching the cemetery at 3 o'clock. The police stopped all carriage traffic along the route at noon and formed a cordon in order to keep back the crowd. No incident occurred that impeded the march of the paraders. On passing the Northern Railway station there were cries of "Vive la Republique," mingled with hissing. On the Boulevard Magenta a man who tried to break through the line of paraders was arrested.

The procession in point of numbers was a failure, the number of those in line being variously estimated at from 3000 to 4000. Half of those taking part were delegates from the provinces. The spectators were mostly sightseers, making no display of political feeling. At the corner of the Boulevard St. Denis the students' delegation, which was greeted with cries of "Vive la Republique," responded with "A bas Boulanger." A trophy of The Journal la Lanterne evoked shouts of "Down with the Jews." The appearance of a group composed of persons proscribed in the coup d'etat of 1851 or wounded in the revolution of 1848 everywhere elicited fervent cheers.

The first portion of the procession presented an orderly and dignified appearance, but the latter part was disorganized owing to the pressure of the crowds following, which consisted mainly of the rabble and which sang the "Marseillaise" and the "Carmagnole." A number of women joined the ranks in the heart of the city. This detracted from the serious appearance of the procession and the crowd was afterwards inclined to make the demonstration a matter for jest, laughing and jeering at the delegates. Some of the delegates were annoyed by the jeers of the spectators and falling out of the ranks disappeared into the crowd.

On arriving at the monument M. Darlot, president of the Municipal Council, delivered an oration. He said the object of the demonstration was to commemorate Baudin's intrepid defenced the republic's rights against Cæsarism and to honor those who had been proscribed or had fallen at the time of the coup d' etat. After a vigorous attack upon Boulangism he said: "The democracy, acquiring renewed strength in the example of the glorious dead, is prepared to face Cæsarism—which is again daring to raise its head. Comforted by the noble memories of the past, let us unite with confidence."

The speech was received with cries of "Vive La Republique" and prolonged cheers. There were no dissenting cries. The procession filed past the monument and then returned singing the "Marseillaise." In the evening the city resumed its normal aspect. The Boulangist committee in its manifesto declares that although it refrains from the Baudin demonstrations, it venerates the memory of Baudin. It urges citizens to withstand the provocations of the Government which is seeking a chance to create in Paris another second of December.

Congress to Meet To-day.

WASHINGTON, Dec. 2.—President Cleveland's annual message will be sent to both Houses of Congress to-morrow immediately upon receipt of the usual notification that they are ready to receive any communication he has to make. No delay is anticipated in the organization as no deaths occurred in the recess and there are no new members to swear in. It is more than probable that the reading of the message will consume the first legislative day, and it is understood to be of unusual length. The report of the Secretary of the Treasury will not be sent to Congress until Tuesday. The program for the week in the Senate will depend on the result of the meeting of the Committee on Finance called for Tuesday morning. If it is then decided to take up the committee's revenue measure, the Senate's substitute for the Mills tariff bill, pending at the close of the last session, its consideration will preclude the possibility of any other bill coming to the front until it is disposed of. It is the expressed desire of Senators Morrill, Allison and Sherman to push the measure to a vote so that it seems probable the bill will be taken up. If by any possibility the revenue bill should not come up the probabilities of the course of legislation are rather vague.

A BURNING MINE.

No Hope for the Eight Men Imprisoned in the Calumet Mine.

HANCOCK, Dec. 2.—The Calumet mine continues to burn freely. All hope of rescuing the eight imprisoned miners is given up. The authorities have permitted the fire to burn itself out, as it is not more than 600 feet from the surface, and everything to aid in burning out the shaft is being done.

A Fork Packing House Burnt.

OMAHA, Neb., Dec. 2.—Just after 6 o'clock last evening fire was discovered in the Armour-Cudahy packing house, South Omaha, and before the flames were extinguished the engine rooms, blacksmith shops, boiler rooms and guano department were almost destroyed. The origin of the fire is a mystery, although the general impression among the employes is that the fire originated from the petroleum gas machine. The damage to the building will be fully $10,000, and may be much more, while, if the machinery be ruined, as it likely is, the total loss will foot up to $100,000.

A $100,000 Loss in New York.

NEW YORK, Dec. 2.—Fire broke out last evening in the fourth floor of a large six-story building at Crosby and Houston streets, causing damage amounting to nearly $100,000 before being extinguished.

France's War Budget.

PARIS, Dec. 2.—At a meeting of the Cabinet yesterday M. De Freycinet explained that he had arrived at an agreement with the Budget Committee for an extra loan on account of defensive works. He said the estimates of the total expenditures of the War Department were 500,000,000 francs, of which the estimates for 400,000,000 would immediately be submitted to the Chamber. The credits for the War Office for 1889 were estimated at 180,000,000 francs.

Henry George Banqueted in London.

LONDON, Dec. 2.—Henry George spoke at a banquet in London last night. Many notable Radicals were present. The first thing to do, he said, was to secure land values for public use, which would open a whole vista of possible reforms. He opposed a peasant proprietary. His speech was received with great enthusiasm.

Drowned on Her Way to Church.

ORILLIA, Nov. 27.—On Sunday while Wm. McPhee was drawing Miss Kate Rook to church on a hand sleigh the ice gave way precipitating both into the lake. McPhee was rescued in an exhausted condition but Miss Rook was drowned. Her body was found during the night.

Children Cry for Pitcher's Castoria.

THE WORLD OF LONDON.

AN ANGRY WEEK IN THE HOUSE OF COMMONS.

Lord Salisbury's Cheery Confidence—Sympathy Wasted on Harcourt—Queensland's New Governor—The Holborn Election.

NEW YORK, Dec. 2.—Mr. Smalley cables The Tribune from London: Lord Salisbury's visit to Edinburgh has given occasion to a great demonstration, intended perhaps as a set-off to Mr. Gladstone's at Birmingham. Each leader carries the war into the enemy's country. There is no difficulty in arranging a Tory meeting in the heart of Mid-Lothian. The platforms bristle with celebrities. Lord Rosebery excepted, almost every man of rank, social position or high position of any kind who used to figure at Mr. Gladstone's meetings in his last Mid-Lothian campaign, in 1884, is now a Unionist. Lord Salisbury was overwhelmed with addresses, deputations, applause and entreaties for more speeches. The half-dozen addresses he delivered are remarkable for their cheery confidence. Their chief novelty consists in a cynical avowal of his readiness to see women vote, because he thinks they would vote with the Tories.

The week in Parliament has been an angry one. Mr. Smith's efforts to get on with business are met with what he and his party regard as obstruction. Mr. Labouchere appears to be leading the Liberal party in Mr. Gladstone's absence. The Ashbourne Act has been carried at last. All business relating to the estimate is so much in arrears that the House suspends the midnight rule and even sits to-day. Mr. Labouchere austerely protesting. The Irish estimates come on next week, and scenes without number may be expected. All the Irish members for whom summonses are out are to be left unmolested while this battle rages.

The Mooney case is one on which sympathies are thrown away. He is a bankrupt who refused to answer the judge's questions about his bankruptcy in the Bankruptcy Court. He was, therefore, as any other bankrupt in contempt would have been, sent to jail. There he has lain for two years. His health is bad and he is an Irish tenant, so his case is one out of which a grievance may be manufactured by treating it as a matter of sentiment and not a matter of law and fact.

Queensland is treated like a spoilt child. Sir Henry Norman, Governor of Jamaica, who has accepted Queensland, is one of the ablest men in the service, well entitled to a much better post. He takes this to get the Ministers out of trouble, and because a man of sound judgment and firm character is wanted at Brisbane.

Nothing could be more satisfactory than the Holborn election. Both sides are pleased. The Liberals are pleased because they have increased their vote more than their opponents have and diminished the majority against them by some 900 votes. The Unionists are pleased because they have elected their man. Lord Compton, though defeated, is one of the heroes of the week, a distinction which he shares with Mr. Jeremiah Sullivan, of the Royal Irish Constabulary; Mr. Thomas Moroney, the recalcitrant debtor in an Irish jail; Mr. Moarce, the new Chief of Police, and Mr. Gerst Davis, who, as one Radical journal puts it, has transferred his public address from the House of Commons to Wandsworth Jail.

Miss Wiedman and the Honorable Horace Walpole should be added to this list. The action of this German governess against the heir to the Earldom of Orford for breach of promise ends in his favor, but not to his credit.

Birmingham is to become a city. Perhaps you supposed it was one already, being a place of 440,000 inhabitants. It has been a borough for 50 years, and now is ambitious of a title which, says the town clerk in a letter to the Home Secretary, is popularly supposed to carry with it as accession of dignity. What is the difference between a town and a city is hard to determine with precision. Liverpool and Manchester were made cities when they had Bishops created for them, but Belfast has lately been made a city, though it certainly has no Bishop. Leeds is not a city, nor is Sheffield. Only the Queen can transform a town into a city, and she only does it on a petition by the town. So Birmingham, through its Town Council, is going to implore Her Majesty to bestow this favor. As the Home Secretary is one of the members for Birmingham, and as Birmingham is the third place in England, it is supposed the petition will be readily granted.

The book of the week is Earl Stanhope's "Notes of Conversations with the Duke of Wellington." This little volume abounds in anecdotes of the most interesting kind; interesting, above all, as giving the Duke's opinions in his own words on people and events in his own time.

Mr. Gilbert's new play, "Brantinghame Hall," in four acts, produced at the St. James Theatre, met with a dubious reception. The critics are divided, as the house was, but on the whole the majority reluctantly condemn the play.

A Murderer's Body Found.

NEW HAVEN, Ct., Dec. 2.—The body of George Donovan, the murderer of young King, was found yesterday morning in the Prospect-street reservoir.

INTERESTING ITEMS BY WIRE.

In the House of Commons on Saturday John Morley moved a nominal reduction in committee of supply on the vote of £236,900 for embassies and missions, to raise a discussion on the proposal to send troops to Suakim, and attacked the Government's Egyptian policy. Rejected, 126 to 101.

The Italian Government has introduced in the Chamber of Deputies a bill asking supplementary credits of 109,000,000 lire on account of the army and 27,000,000 lire on account of the navy.

A murderous fight took place in the streets of Portland, Ore., yesterday, between two factions of Chinese highbinders. Over fifty shots were exchanged, four highbinders were shot down and two others seriously injured.

The propeller Michigan caught fire off Sandusky yesterday and was partially destroyed.

The People's Bank at Fairmount, Neb., failed Saturday with $20,000 liabilities and meagre assets. The president is missing.

In his annual report the Postmaster-General of the United States argues strongly in favor of postal telegraphy and urges the appointment of a commission to that end.

The second big mineral strike in Helena, Mont., was made on Friday. The first was about a month ago, on the principal street, of placer gold. The find Friday was in the residence portion, of a gold quartz vein seven feet wide, assaying handsomely. Property owners are much excited.

At New York Saturday Emerson C. Salisbury, aged 30 years, killed himself in the boarding-house, No. 108 West Forty-fifth-street, with a dose of morphine.

Dynamiter Hronek was convicted at Chicago Saturday, of participation in the plot to assassinate Inspector Bonfield and Judge Gary and Grinnell, and his punishment was fixed by the jury at 12 years in the penitentiary.

Arrested on Suspicion.

BUFFALO, Nov. 30.—David McAuliffe and Wm. Smith were arrested here last night on suspicion of being implicated in the robbery of Joseph Mills & Son's jewelry store at Hamilton, Ont., Sunday night. The men were trying to sell Persian lamb caps that had Mills' name stamped inside, and they were immediately taken into custody. The authorities have notified Chief McKinnon of Hamilton of the arrest, and he instructed them to hold the men.

WILLIAM KEEPS 'EM BUSY

A RUMOR THAT THE KAISER SUFFERS FROM AN AURAL TUMOR.

Semi-Official Reports Say His Majesty is a Severe Cold—Meanwhile the Cabinet Finds His Activity Intense.

BERLIN, Dec. 2.—The Emperor's prolonged absence from public life has given rise to rumors that he is suffering from an aural tumor which is assuming an aggravated form. Semi-official reports state that his illness is simply a severe cold contracted through exposure during the recent hunt at Hetalingen. No medical advice has been sought beyond that of the household doctors. The ear complaint slightly increased during the height of the catarrhal fever but improved with the return of normal health. Although the weather is mild the Emperor is advised to remain indoors for some days to come. He has been in excellent spirits and has been fit for work throughout the week, receiving visitors and transacting business as usual. He employed part of his enforced leisure in elaborating the details of further army and navy reforms. He kept his military cabinet very busy, demanding immediate reports on a variety of questions. The officials of the Cabinet find his incessant activity something too much for them. He keeps them working sometimes night and day, insisting that there be no delay in the report he demands, his unvarying orders being to reply within 24 hours. The Admiralty officials share the excitement of the war officers. The Emperor's ardor extends into every department.

The Reichstag Commission will begin to consider the budget Monday. The Commission will hear privately more about the armament than was disclosed in open debate in the Reichstag. Chief of the Admiralty Court DeMoats candidly told the Reichstag that the memorandum on the navy was drawn up purposely so that foreign nations might not learn more than was necessary. The feeling of distrust among members of the Reichstag regarding the appropriations for armaments is on the increase, and some opposition will doubtless be offered.

Prince Bismarck will appear in the Reichstag on the occasion of the debate on colonial affairs.

THE LEAGUE AND CRIME.

Important Testimony Given Before the Parnell Commission.

LONDON, Dec. 1.—It has been an important if not a sensational week of the Parnell Commission. The Times has at last begun its effort to connect the League more directly with crime. Mr. Crane, District Inspector of Police in Ireland, is a shining example of this new class of witnesses. He is an Englishman educated at Oxford and belonging socially to the landlord, not to the tenant class. Kerry was his district. The substance of his evidence was that Kerry down to 1879 was quiet, orderly and peaceful; the landlords popular, the rents paid; evictions began in 1880; the League came in 1881, and disorder and crime came with it; coercion stopped much of this crime, but when coercion ceased crime revived, again to diminish as coercion was renewed. He asserted that there was a direct connection between the League and the Moonlighters. Wherever, he said, the Land League existed, Moonlighters were sure to be found. Mr. Crane was asked in cross examination, "Do you suggest that branches of the League and the Moonlighters are in co-operation?" He answered, "I do. I say that a majority of the Moonlighters are National Leaguers; but not a majority of the National Leaguers are Moonlighters. The resolutions of the League were invariably carried out by the Moonlighters." And to this opinion Mr. Crane adhered through all the vicissitudes of cross-examination. Mr. Wright, another police inspector, swore to the same thing. "I know," said he, "the Moonlighters carried out the League's behest." This evidence will of course be disputed by the defendants, but it is at least evidence, and very strong evidence, until overthrown.

Yesterday brought Mr. Hussey into the witness box, the famous land agent to Lord Kenmare and other great land owners. He, like Mr. Leonard last week, had the whole Irish question at his fingers' ends. He is an owner of land as well as a land agent. "We had no serious trouble," he said, "till the League appeared." He was on excellent terms with his own and his employers' tenants down to 1880; since then rents have been unpaid, evictions resisted and crimes frequent. He himself went about under police protection, and his house, with women and children inside, was blown down with dynamite. Sir Charles Russell's cross-examination of Mr. Hussey is one of the most interesting and instructive episodes of the trial. They were a fair match. Each knew his case thoroughly. Sir Charles' point was that Kerry before 1879 was by no means the Arcadia Mr. Hussey had painted. Then Mr. Biggar took Mr. Hussey in hand with this startling result:

Question—You say you were popular down to 1880?

Answer—I was fairly popular till you named me as a subject for murder in Castle Island, and promised if I was shot that the person charged with the murder should have the means of obtaining a fair trial.

"I suppose," remarked Sir James Hannen, blandly, "we shall have Mr. Biggar's speech?" and the Attorney-General cheerfully undertook that it should be forthcoming.

AN INCREASE ALL ROUND.

Winnipeg's Exports and Imports—A Deficit in the City Sinking Fund.

WINNIPEG, Nov. 30.—The trustees of the city sinking fund say there is $250,000 now owing to the fund, and they intend notifying the bondholders of the fact and ascertain what shall be done.

Supporters of the bylaw defeated yesterday claim that taxation will increase 50 per cent. next year.

The customs returns for November show a large increase over the same month last year. Exports $105,524, increase $31,096; imports $121,248, increase $28,106; entered for consumption $126,741, increase $32,158; duty collected $36,068, increase $7832.

Shields, the Toronto boy convicted of stealing a check and gun, was sentenced to two years.

The Northern Pacific and Manitoba road discharged 100 laborers to-night.

A 3-weeks-old foundling was left at the door of Rev. Mr. Pentreath last night.

During the year 16,863 immigrants have arrived, being 351 less than last year to the same date.

Dr. Griffin Convicted.

VICTORIA, Nov. 30.—After a three days' trial the jury to-day found Dr. G. Hamilton Griffin guilty of sending threatening letters to Hon. Robert Dunsmuir and recommended him to the mercy of the court. Judge Begbie sentenced him to five years' penal servitude.

John McCullough's Memorial.

PHILADELPHIA, Nov. 29.—The bronze bust of John McCullough, the dead tragedian, in the character of Virginius was unveiled at Mount Morish Cemetery yesterday afternoon in the presence of a distinguished company of members of the histrionic profession and friends of the actor.

The Rate Conference Committee.

CHICAGO, Nov. 29.—The Conference Committee representing the lines east and west of Chicago, having under consideration the division of rates on through traffic, adjourned yesterday subject to the call of the chair.

REV. MR. BELL'S REPLY.

To Bishop Dowling's Lecture on the Church and the Bible.

The Reverend Gentleman Combats His Lordship's Statements—A Large Congregation in Attendance.

Rev. A. Bell, pastor of St. Andrew's Church, on Sunday evening preached on "The Church and the Bible." It was pretty generally known that the sermon would be a reply to Bishop Dowling's lecture a couple of weeks ago, and the spacious edifice was filled with an attentive congregation. The reverend speaker chose for his text the 19th and 20th verses of the 28th chapter of Matthew:

Go ye therefore and teach all nations, baptizing them in the name of the Father, Son and Holy Ghost,

Teaching them to observe all things whatsoever I have commanded you; and lo, I am with you always, even unto the end of the world.

In beginning, Rev. Mr. Bell divided the subject of his discourse into three separate heads—first, the Church; second, the Bible; third, the duty of the Church towards the Bible.

What was the Church? The Scriptures gave it the invariable meaning that it was an assembly of God's people, a society of Christians, large or small, as stated in Col. iv, 15, and Acts xi, 22. In its widest application it includes all the family of God, saints in heaven and believers on earth—pastors and people together in one society, and never in a single instance are they separated. How very different from this was the definition of His Lordship Bishop Dowling. He separates the pastors from the people and restricts the meaning of the church to include pastors only. This was unscriptural, but it served a purpose which would presently appear. It was an arrogant assumption that the true church was composed of the pastors of the Papacy only, and the Bishop had proceeded to build on the assumption, and tells us that that church of pastors only has a right to interpret the Bible; to say what is the Word of God and what is not; what shall be read and what not. The modesty of this assumption, said Rev. Mr. Bell, was remarkable, and it amounted to just this, that the priesthood of the Papacy, and they alone, have divine right to the exclusion of all other ministers of the Gospel. But the creed of Pope Pius spoiled this assertion; for it, and all priests of Rome promise solemnly to abide by it, ordains that they shall not interpret the scriptures "unless by the unanimous consent of the fathers"—and this unanimous consent has never yet been found.

THE BIBLE.

By the Bible was meant that collection of sacred books which we believed to be written by inspired men and given as a revelation of God's will, and which we accepted as our standard of faith. The apocrypha was not recognized, because the Canon of the Bible, as it is to-day, was fixed and accepted by all the then churches in the fourth century, before the present Church of Rome had existence. And these churches did not recognize any special commission of the Church of Rome to be the preserver of the Bible. This same Bible we find to-day; it had been preserved intact by the Greek and Syrian churches and by the Waldenses without the aid of Rome. So the statement of Bishop Dowling was not a fact that the church of Rome only protected and preserved the Bible fifteen hundred years before Protestantism was known; and to the taunting question as to what Rome might have done with the Bible had she not been its friend, the preacher would reply that had Rome been swept out of existence fourteen centuries ago and no trace of her left, we still would have the Bible. And as to Rome's claim that she had given us the Bible, he emphatically said no, on the contrary the Bible was wrested from her hands, she forbade its use; the fires were kindled, the dungeons prepared and the swords unsheathed to prevent its spread. And for this we should be grateful to Rome? And after all this had failed, said the reverend gentleman, history showed that her darkest maledictions were hurled after us and the Bible lies under her curse at the present hour. All this was contrary to the New Testament which commanded that it be taught to all nations and to every man for his understanding. The preacher quoted a number of passages of the same trend as the text, to show that the Bible was intended to be read and understood by all men openly.

THE CHURCH'S DUTY.

The duty of the church towards the Bible was clearly expressed in the text, which was Christ's commission to the true church. The true church of Christ would be found on this side of God, teaching and defending the Bible as He commands. Has the Church of Rome proved herself to be, to the exclusion of all others, the true church of Christ? Confidently and deliberately the answer was made, no; but, rather, if the spreading of the Word of God is to be the test of the true church, she has proved herself the enemy of the Bible, and, according to His Lordship's own logic, the enemy of God. In early centuries, no doubt, she did her share in spreading the Gospel before Papacy arose and the temporal power was established and unscriptural dogmas promulgated—purgatory, saint-worship, venial and mortal sin, transubstantiation, worship of Mary, and such things were not up. Men of conscience in the church, who read the Bible, rebelled against all these unholy things, and were denounced as heretics therefor. The church's next step was to prohibit the Bible in the vulgar tongue—this that the common people might not be able to read it. This was done at the council of Toulouse in 1229, and ever since her path has been marked by opposition to the spread of the Bible. At Toulouse, also, the inquisition was established, which had the power of torture and death over those who possessed the Bible.

The reasons advanced by Bishop Dowling for the church beginning this course were said the reverend speaker, remarkable ones. He says the version was a corrupt one, and the church thought fit to prohibit its use on that account; but, if that were so, why did she make Rome, when she deprived the people of a corrupt version, supply them with a corrupt one? Another of the Bishop's reasons was, that the Albigenses, who, it was alleged, believed in two Gods and denounced marriage, were corrupting the faithful; and for this reason the Bible was taken from the whole people! The decree was not, moreover, against a "corrupt version," but simply against the Bible. The Albigenses were a quiet, Godly people and not the heretics His Lordship affirmed. Faber had long since exposed that slander on their name, and Rome's own witnesses, Paredin, the annalist of Burgundy, and Bernard Girard, the Historiographer of France, have brought out the fact that they were falsely accused through sheer malice, because they spoke of the vices of the clergy of the church of Rome; and this libel on their name was made to do duty as an excuse for

PROHIBITING THE BIBLE.

His Lordship put forward the letter of Pope Pius VI. to Martini, who had translated the Bible into Italian, and asks us to judge from that whether Rome encouraged reading of the Bible or not. But he forgot to add that the very next Pope, Pius VII., 17th Jan., 1820, put that same Martini Bible into the index of prohibited books. Seymour, in Morning with the Jesuits, says that in 1849 he could find only 2 Bibles for sale in Rome, and these at the enormous price of 150 francs, or $30 each. This same Pius VII. on 29th June, 1816, denounced Bible Societies, and on 19th Sept., 1819, denounced the circulation of the Scriptures in the Irish schools. Leo XII on May 23, 1824, denounced Bible Societies; Pius IX. did the same on Nov. 9th, 1846; Clement XI, in 1713, also denounced as false, blasphemous, scandalous to pious ears, etc., the proposition to permit reading of the scriptures in the vulgar tongue, in his famous Bull Unggenitas. Since 1229 Gaumen has enumerated no less than sixteen Papal bulls denouncing the Bible, and the decrees of seven or eight councils ending with Trent.

His Lordship says twenty editions of the Bible were printed by Rome before Luther was born; Dr. Wiseman does better and mentions fifty-four editions issued during the 15th century—and still there were not enough to supply every clergyman with a single copy each. This was generous! On the contrary look what Protestantism had done. In 22 years of the reign of Henry VIII., 48 editions were published; Edward VI., 6½ years, 45 editions; Mary, 5½ years, 1 edition; Elizabeth, 44 years, 111 editions; and so it has gone on ever since, Protestants printing and scattering, Rome prohibiting and

SURROUNDING WITH DIFFICULTIES.

Tyndall, who translated the first English Bible, had his work condemned and burned, and himself met the same fate in 1536. The later translations of Fryth and Miles Coverdale were treated similarly, and at Seville and Salamanca, Spain, in 1490, thousands of Bibles were burned in public. In 1834 a petition was received in English Parliament from Ireland, complaining that the priests were burning Bibles.

It has been said all these denunciations of the Bible were things of the past and that Rome had not in late years done anything of the kind—but what about the following?

The preacher read a letter published in a book entitled "The Power Behind the Pope," by Henry Lasserre, who got out a French translation of the Bible. The letter was dated Dec. 4, 1836, and signed by Cardinal Jacobini, and conveyed the sanction of the Pope; 825 editions were printed, but just one year and fifteen days later, on Dec. 19, 1867, Pope Leo XIII. put this same translation on the index of proscribed books, and called on all people possessing copies to deliver them over.

What, now, about this huge assumption? There was nothing like putting a bold face on a bad matter, and certainly Popery would not suffer on this ground. It could not be proven that Rome was the friend of the Bible, but rather that she was a slanderer of the Bible, and, therefore, according to His Lordship, the enemy of the Word of God.

Rome, said Rev. Mr. Bell, sought to put God's Book out of the way because it rebukes her; and to save herself from ruin, and to keep up the power which she values far above everything else, hides, burns and curses the sacred Book.

TORONTO TOPICS.

The Charlton Inquest—No Trace of Druggist John G. Wood.

TORONTO, Dec. 2.—The inquest into the death of Lillie Charlton was opened at the residence of the deceased, No. 35 Sackville-street, at 4.30 o'clock Saturday afternoon. It took some time to get a jury together. County Crown Attorney Badgerow and Inspector Archabald were immediately on the cause and were followed by Coroner Johnson. The jurors were sworn, viewed the body and dismissed to assemble in the Police Court room at 8 in the evening. Mr. Archibald, Coroner Johnson had instructed Drs. Geraghty, Wherry, Drew Aikens, J. E. Richardson and Allan Cowan to make a post mortem examination. The report will not be known for some time, but it is understood that enough evidence was adduced to satisfy the medical men that the girl had died from malpractice. The immediate cause of death was peritonitis, the result of the operation which she had undergone. The inquest was reopened at 10 o'clock. There were present Coroner Johnson, the jury, Mr. Badgerow, Detectives Reburn, John Clark and Hayward, the two prisoners, a dozen specialists and the reporters of the morning papers. Mr. M. Gordon Bigelow, counsel for Wilkinson, was on hand, but Mr. N. Murphy, Dr. Valentine's lawyer, did not appear, having made a mistake in the hour of the meeting of the court. Inspector Archibald was the only witness examined. His testimony was with reference to the arrests. The inquest was adjourned until Dec. 10 at 8 p. m. The man that the public would most like to get their hands on just now is Druggist John G. Wood. There are various estimates of his location; some say he never left the city, that he is under safe cover; others there are who report that he is in the vicinity of Niagara Falls, and a number of his acquaintances believe that he is now safe in Mexico. Wherever he may be he has successfully covered his tracks up to date.

The police on Saturday night were called upon to handle two stabbing cases. The first occurred on Nelson-avenue about 7.30 and was the result of a fight over a woman. The victim of the stabbing is John Vasile. Vasile charged the alleged wielder of the stiletto Pasquil Rigch, an Italian who lives in rear of 37 Morton-avenue, and of which he is the nominal proprietor. The story goes that Young visited the place to take his wife Martha home, and Regis in an attempt to prevent it stabbed the husband in the abdomen with a knife. The police succeeded in arresting Regis. The house at 95 Bathurst-street was also the scene on Saturday night of a drunken orgy, which resulted in a raid by the police. The only two persons found were Messrs O'Connor and John Teed. The latter was found to be suffering from several cuts in the face and head, which Dr. Sprague dressed on his arrival at St. Andrew's Market-station. Teef refused to tell how he came by his wounds, and was promptly locked up as a frequenter, Messrs bernard being charged with being the keeper of the den.

There is no little comment over the Jersey Lily's non-appearance at the St. Andrew's ball. The World says when it came to the ears of Lady Stanley that Mrs. Langtry would attend and expected to be presented, the former intimated that she would not receive Mrs. Langtry, to whom this information was delicately conveyed. The ground that Her Excellency took was that as Her Majesty the Queen had declined to receive the famous beauty she as a vice-regal representative could not do so either.

The first free breakfast of the season was given at Richmond Hall yesterday and 70 persons enjoyed the feast.

HAMILTON'S HOLIDAY.

An Enthusiastic Reception to the Vice Regal Party.

HAMILTON, Dec. 3.—His Excellency and party and several servants arrived from Toronto at 1.45 p.m. Saturday. Gen. Middleton and Lady Middleton came up on the same train. The crowd at the depot to receive their Excellencies was nearly 10,000. Many of the prominent men of the city were on the platform. Mayor Doran, who was the first to shake hands with His Excellency as he stepped from the tail end of the Cumberland, was surrounded by his council and the members of the reception committee. Over a carpeted way the vice-regal party was escorted to the ladies' parlor of the station. Here His Excellency listened to two addresses, one from Mayor Doran and one from Clerk Comsell on behalf of the County of Wentworth.

Then the party emerged from the waiting room and proceeded amid enthusiastic cheers to Senator Turner's residence where they will remain during their stay in town. Gen. and Lady Middleton are the guests of Mr. Ramsay.

The event of the night was the levee in the Court House at which nearly all the leading citizens, their wives and their daughters were presented to their Excellencies. The city was beautifully illuminated, especially "The Gore" which was gorgeous with Chinese lanterns. The Court House square was jammed with people and the 13th Batt., headed by their fine band, turned out 300 strong. The men looked spick and span in their bright scarlet tunics, spotless belts and white helmets.

THE LIQUOR PLEBISCITE.

Decided Against by the Northwest Assembly—A Crooked Customs Official.

WINNIPEG, Dec. 2.—The legal experts of the Northwest Assembly have reported that the proposed plebiscite on the liquor question would be unconstitutional, and the Assembly by a vote of 7 to 14 have decided not to take the vote.

Crossley and Hunter's evangelistic services close this week. Over 1200 have professed conversion.

Queer Shavers at Windsor.

WINDSOR, Dec. 2.—The police were notified last evening that a drove of strangers were flooding the town with counterfeit half dollars of Canadian denomination. A citizen who had received one pointed out a stranger to Officer Nash, alleging that he was the person who gave him the bad coin. He was immediately arrested and gave his name as Benj. Meadows, a machinist of Detroit. None of the stuff was found on him.

UNCLE SAM'S BANKS.

Annual Report of the Comptroller of the Treasury—Bond Purchases.

WASHINGTON, Dec. 2.—The total amount of bonds purchased to date under the circular of April 17 is $97,101,800. The total cost of these bonds was $116,377,114.

The twenty-sixth annual report of the Comptroller of the Currency contains a summary of the condition of the national banks during the year. The number reporting on Oct. 4 was 2140, of which the capital stock exceeded $662,000,000, surplus funds $185,000,000, other undivided profits $70,000,000 and the outstanding circulation against bonds $151,700,000. The individual deposits amounted to $1,630,000,000 and government deposits to $24,000,000. The total number of new national banks organized during the year was 132. Forty-two banks went out of the system during the year, of which 24 went into voluntary liquidation and 9 failed. The net increase of capital in the year has been over $14,000,000 and the net decrease of circulation nearly $17,000,000. During the year 34 dividends have been paid to creditors of insolvent national banks, aggregating $6,000,000 and the affairs of five failed banks have been closed, in each case the creditors receiving payment in full.

Of Great Utility

There is no other medicine of such general usefulness in the household as Hagyard's Yellow Oil for the cure of rheumatism, neuralgia, sore throat and all internal and external pains and injuries. 2w49d

Grand Results.

For several years R. H. Brown, of Kincardine, suffered from dyspepsia, he says he tried several physicians and a host of remedies with out relief. His druggist recommended B. B. B. which he declares produced "grand results," for which he gives it his highest recommendation. 2w49d

In a Dreadful Condition.

Hattie E. Manthorn, of Mill Village, Ont says, "My cough was dreadful, I could not sleep at nights on account of it, but when I used Hagyard's Pectoral Balsam I had rest and was quickly cured." All druggists sell this invaluable cough remedy. 2w49d

A Pleasing Duty.

"I feel it my duty to say," writes John Borton, of Desert, P. Q., "that Burdock Blood Bitters cured my wife of liver complaint, from which she had been a chronic sufferer. Her distressing, painful symptoms soon gave way, and I can highly recommend the medicine to all suffering as she did." 2w49d

A High Valuation.

"If there was only one bottle of Hagyard's Yellow Oil in Manitoba I would give one hundred dollars for it," writes, Philip H. Brant, of Monteith, Manitoba, after having used it for a severe wound and for frozen fingers, with, as he says "astonishing good results." 2w49d

A Festive, Fond Farewell.

Mr A. H. Stratton Tendered a Parting Token of Attachment About the Festive Board.

Saturday evening about a score of young friends of Mr. A. H. Stratton tendered him a formal farewell, in the shape of an oyster supper at the Commercial House. Mr. Stratton leaves this evening for Montreal, where he accepts a position as traveller for a wholesale hardware firm. A few of his brethren of Otonabee lodge of Oddfellows were present, and the noble order (or disorder) of "goats," of which also he is an esteemed member, was numerously represented and made things jingle.

Mr. W. F. Green occupied the chair and Mr. R. R. Hall the vice chair, while Mr. E. E. Henderson presided at the second table. The customary toasts were tendered, and an ovation followed that to "The Guest." Mr. Stratton replied briefly but feelingly, stating his regret that business matters obliged him to sever his connection with Peterborough and its pleasant associations. He hoped to see the boys frequently, however, and assured them he would never forget the good times and jovial companions he had met with in Petesborough.

Other toasts followed in quick succession, and all the speakers were loud in their expressions of sincere regret at the approaching departure of their friend. The assembly broke up about midnight.

Mr. Stratton leaves Peterborough bearing the best wishes for his success in life of his very many friends, young and old. "Ab." has been a life-long resident of the town, and is well-known to be a sociable, entertaining companion and a faithful friend. All the boys (and, without a doubt, a great many of the fair sex also) will deeply lament the loss of one for whom they bore such respect and affection, and THE EXAMINER begs to add its quota of regret. Should he ever return to town he may be assured of an open-armed welcome.

A Rumor Denied.

Chief Rozel received a telegram from Mr. Warren, of Toronto, Saturday, stating there was no truth in the report that the man Pope had dined with him last Sunday. He had not seen the man in question for the last two years.

Arctic Hosiery.

Acknowledgment.

The lady superintendent thankfully acknowledges the following donations to the Nicholls Hospital in November:—Mrs. Morrow, milk daily, jelly; Mrs. Weller, jelly; Mr. G. M. Rogers, fruit, cream and illustrated papers; a friend, one barrel of apples; a friend, a large quantity old cotton and muslin.

A Big Egg Business.

Mr. Ostrom, the well known egg buyer, of Peterborough, the *Gazette* says, made his last business trip to Fenelon Falls, for this season, on Thursday. How many eggs Mr. Ostrom purchased in this village we do not know, but the Red Store alone sold him more than $2,000 worth. Last year he bought and shipped (chiefly to Boston) eggs to the value of over $100,000, and this year his business has been nearly or quite as large.

Dr. Halliday and Dr. Pigeon in attendance on private ward patients.

Your Friend Committed Suicide.

You never suspected it, none of his friends dreamed of it, he did not know it himself, but it is exactly what he did, nevertheless. Do you remember his sallow complexion? Do you recollect how he used to complain of headaches and constipation? "I'm getting quite bilious," he said to you one day, "but I guess it'll pass off. I haven't done anything for it, because I don't believe in dosing." Soon after that you heard of his death. It was very sudden, and every one was greatly surprised. If he had taken Dr. Pierce's Pleasant Purgative Pellets he would be alive and well to-day. Don't follow his example. The "Pellets" are easy to take, mild in their action, and always sure. a

Police Court.

MONDAY, Dec. 3.

An interesting case was decided this morning, which proved the incapacity of the present cabmen's license by-law. Harry Drake was charged by James Kellert with over-charging for conveying Mrs. Kellert from the station home. The by-law reads that 25 cents shall be collected from each person carried to any part of the town, but Mrs. Kellert had to pay 50 cents. The defence, conducted by Mr. A. Stevenson, of Dennistoun & Stevenson, maintained that only 25 cents had been charged for Mrs. Kellert, the other quarter being for freightage of a small valise carried by her. The magistrate dismissed the case, without costs, because the by law did not cover the case, and, according to the contention of the defence, no breach had been committed. In all well-regulated by-laws of this kind provision is made for the carrying of a certain number of trunks or valises free of charge, but the by-law in force in town now makes no such provision, and the hackmen cannot be prevented from charging extra for trunks and valises if they choose. The magistrate hoped some of the councillors would take the matter up and have the by law readjusted properly.

PERSONAL.—The lady who lost a letter on Saturday last while purchasing tea at M. R. Kidd's can have the same by applying at the store.

Reavis vs. Bradburn.

Judgment in this case, tried at the Chancery sittings, was given Saturday. The Judge held that the agreement in question was sufficient in form to be binding, but that the other sale to O'Brien was made before the registered agreement was accepted, and that defendant had notice of that sale before registering the agreement. A. P. Poussette, Q.C., for plaintiff; Edmison & Dixon for defendants.

The Soldiers' Farewell.

Capt. Howell, who leaves his command of the corps here to become an associate travelling Army evangelist with Capt. McHardy, made his farewell to the people at the barracks Sunday night. The meetings were led by the new commander of the division, Staff-Capt. Marshall, an energetic and fiery officer and an eloquent speaker. Capt. Howell leaves Peterborough with the regret of all the soldiers of the corps. He was a popular and successful officer. Lieut. Hague will be in charge until Capt. Howell's successor arrives.

Commitment Quashed.

The following case was disposed of at the Toronto law courts Saturday:—

Queen v. Fife.—W. M. Douglas moved on return of certiorari for an order nisi quashing a warrant of commitment issued by two J. P.'s for the county of Peterborough on a charge against defendant for having wilfully and maliciously burned down a rail fence. The prosecutor, Alexander Kemp, claims to be the owner by possession as against the defendant, who has the legal title. Granted.

Change in Confectionery Business.

Mrs. Harvey, of Midland, having purchased the confectionery business of Mr. John Craig (the lower shop), took possession yesterday and will hereafter conduct the business, as confectionery shop, lunch rooms and pastry shop. Mrs. Harvey comes well recommended from Midland, and, having employed a first class confectioner and pastry cook, is prepared to serve the public in these lines with a guarantee of satisfaction. Fresh oysters received daily and served in every style at all hours. Hot lunch at all hours. Remember the shop, 422 George street. Patronage solicited. 8eod126

Volunteer Prizes.

Capt. Edwards, of No. 1 Co., 57th Batt., believes in the practical encouragement of his men to emulation of a high standard of military perfection. At the close of the drill season he presented several money prizes—three for the best drilled recruits joining last year, which were won by Ptes. W. Weatherhead, S. Somerville and T. Dodds respectively. A special prize was also awarded to Pte. J. Cranhold, who was recommended by the D.A.G., as being the best and neatest dressed soldier of No. 1 Company on parade inspection day; and another to Pte. Somerville for being the most regular attendant at drill during the season.

At the "Y."

Quite a number of people met in the pleasant "Y" parlors last Saturday night. Among the numerous attractions were an instrumental duet by Miss Mabel McGuire and Miss Nettie McFadden and a solo by Miss Tooe Kincaid which did great credit to the small performers. Another little girl (Miss Laura McGuire) gave a recitation entitled "A Boy's Loves," showing how many attacks of the tender passion a masculine heart is capable of enduring without any disastrous consequences. A song was rendered in effective manner by Mrs. Jones. Merry games and social chat were interspersed, while substantial creature comforts in the shape of oysters, cake and coffee were not wanting. The young ladies are arranging a programme for next Saturday night in which those martyrs to the public weal (editors), are to receive due attention.

Changes in the Insurance World.

It is learned that Mr. J. Frith Jeffers, of London, for many years a resident of Peterborough, well and favourably known in town, who has for the past three and a half years been the manager for Western Ontario of the British Empire Mutual Life Assurance Company, has resigned his position and has accepted an important and responsible one with Mr. Geo. A. Cox, manager for Eastern Canada of the Canada Life. In this change the Canada Life secures a first-class man and the British Empire loses one of their best men, if not the best in the company. Mr. Jeffers is to be congratulated on his promotion, and at same time returning to his first affection. It is also understood that Mr. R. H. Matson, superintendent of the British Empire Life, a gentleman who is well-known in town, has tendered his resignation and retires from the service of the company about 1st January prox. The loss of Mr. Matson will, no doubt, be greatly felt, as he is probably one of the best posted insurance men in the country, a gentleman of splendid address, pleasing manners and superior ability. During his stay here recently, while assisting the Peterborough agent, he added largely to his already hosts of friends. It is not yet definitely known whether Mr. Matson will join the staff of the Canada Life. Rumour has it that Mr. W. E. Gammage, well-known in connection with the Foresters' Society for many years past, and of late inspector in Toronto and the west, of the British Empire Life Company, is about to sever his connection with that office. Peterborough has of late been favoured with a deluge of insurance men, from general managers down, and the average citizen cries out, "Oh, give us a rest, please."

News Nuggets.

—Additional local news on first page.

—The town council meets to-night and the School Board to-morrow night.

—Rev. J. J. Cox conducted the services in the St. John's south ward mission school Sunday evening.

—Mr. Richard Cox is confined to the house from the effects of a fall down the steps at the S. A. barracks the other night. He is recovering all right.

—Some young hoodlums Sunday evening snapped off a young tree in front of Mr. E. Green's residence on Water street. Such wanton vandalism should be put down with a firm hand.

—The Omemee *Herald* says:—Work on the new station at Omemee, is progressing as rapidly as the inclement weather will permit. When finished it will be as fine as any on the line between Peterborough and Midland.

—On Thursday of last week Mr. Joseph Hewson, brakeman on the Midland, had one of his hands badly smashed while coupling cars at the Omemee station. Two fingers were broken besides other serious injuries.

—The Telephone Company have issued December directories for the use of patrons. In Peterborough there are now 175 instruments in use. During the past few days Mr. H. W. Kent has put in 8 new 'phones.

—It would be well if all ratepayers understood that they have up to and including Wednesday next, Dec. 5th, to pay their taxes before the 5 per cent. addition is made. By a mistake it was announced on the collector's bills and notices Dec. 1st.

—The Zera Semon Novelty Company closed their engagement at the opera house Saturday night. They had good houses during their stay here. Saturday evening a ladies' gold watch, the principal gift, was won by Mr. Geo. Brown.

—A Harvey correspondent says the cordwood industry in that township is developing. Several men are cutting wood, among them Mr. Fossitt has a gang at work for Mr. H. Best of Peterborough and Garner Nicholls is clearing twenty acres of bush for Mr. James Donelly of Smith.

—The *Post* says:—Captain M. Line left town Thursday last for the timber limits of the north with a gang of forty-three men hired in Peterborough and Lindsay for M. M. Boyd & Co. The camp is about twenty miles beyond Kinmount, in the town ship of Dysart, and he will have in the neighborhood of seventy men at work.

IMPORTANT.

We have just been advised, and we are sure the people of Peterborough will be pleased to know that A. L. Davis & Co. have decided to put the whole of their stock of books, stationary, and fancy goods on the market at cost price, commencing 1st December, and their stock, being in such good condition, the public are sure to get dollar for dollar. This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Liquor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR.

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

Cheesemakers in Session.

Prof. Robertson's Address to Cheesemakers—The System of Milk Inspectors Discussed.

About thirty of the cheesemakers of the Peterborough district met at the council chamber here last Saturday afternoon. President J. W. Moore occupied the chair.

The first business was a discussion relative to the milk inspectors. The following motion was introduced:

Moved by Mr. Stewart Payne, seconded by Mr. McCribbin, that while we approve of the principle of inspectors, believing it to be beneficial to the business, we hereby express our dissatisfaction with the management, believing it would be better under the control of the Dairy Department of Ontario.

Both the mover and seconder supported the motion by a brief address, condemning, not the principle of employing these inspectors, but the apparent carelessness shown in the appointment of incompetent men. They did not visit the factories as often as it was claimed they would, and, besides a knowledge of how to test milk, they knew very little about cheesemaking. They considered if a responsible head was placed over these inspectors and better men appointed it would be more satisfactory.

Mr. ALEXANDER SMITH, of Warsaw, approved of milk inspectors when they did their duty.

Mr. PILKEY, of Lakefield, was satisfied the system was a good one if carried out. He charged that one of the inspectors on his second trip was in the personal employ of the President of the Eastern Ontario Dairymen's Association while receiving salary as milk inspector. He broadly hinted, moreover, that the inspectors abused their privileges and were altogether too fond of whiskey and loafing about hotels.

A WORD FOR THE INSPECTORS.

Mr. BONNISTEEL, of Keene, didn't believe either of the inspectors were in the employ of Mr. McCargar, for he knew they had never bought any cheese.

Mr. PILKEY replied that though they had never bought any cheese they had examined and reported to their employers, and he was prepared to prove it.

The Chairman brought the discussion to a close by putting the motion to the meeting. It was carried.

PROF. ROBERTSON, of the Dairy Department of the Guelph Agricultural College, began his address by first referring to the subject just discussed. He believed most of the complaints against the inspectors were just, but he could say for himself he had no part in handling the funds subscribed by factories for the employment of these inspectors, nor in their appointment or control. He was glad, however, that the resolution just passed approved of the principle, because it had succeeded in Western Ontario, where the four inspectors were made directly responsible to him. Not one complaint had been heard. He regarded the system of inspectors as the best means to preserve the quality of our cheese, and it would have to be adopted in order to compete with the old country and United States dairymen, who were spending lots of money for this same thing. For himself he intended doing his best to make it successful in the province, and the dairy department was doing its utmost in this behalf.

THE COMPOSITION OF MILK.

Passing on to the real subject of his address, he said he would first speak on the composition of milk. Very few men had the least idea what milk was composed of, and a knowledge of its parts would help them to handle it with more intelligence and judgment. In the first place, it was composed of liquid and solid matter, the latter comprising fat, sugar (four pounds to 100 pounds milk), what is called casine or curd-part, and an ash composed of ten different ingredients, including iron, magnesia, etc. This casine was an albumen, which, in the process of milk-making, passed in a slightly changed form from the cow's blood into the milk. If a cow is not feeding well she does not change as much of this albumen into casine as she should, and if there is too much of it in the milk it will not thicken and spoils quickly. The proportionate composition of 100 pounds of milk was about as follows:—Water, 87 lbs.; sugar, 4 lbs.; fat, 3½ lbs.; casine, 3½ lbs.; ash and albumen, each .705.

The whole secret of cheesemaking was to compress the nourishing qualities of milk into a small space and getting rid of the water. A simple way is by thickening the solid parts and letting the liquid run off. This was accomplished by the use of rennet, which curdled the casine and separated it from the water. This curd-matter resembled a sponge, for it still bore water among its many minute particles. In order to get rid of this water, the means adopted were to cut the curd into small pieces, about ⅜ of an inch square—not too large so that the water may draw complately off, and not too small so as to save loss from unnecessary cutting. This freshly-cut curd was adhesive and if two surfaces were touched together they would re-unite. So the best way to cut it was first horizontally, because water naturally drained down, and if cut horizontally the water formed a scum between the layers and prevented their adhesion; then cut perpendicularly. The use of heat, by which the particles of curd were contracted and the water squeezed out, was referred to, and the speaker pointed out that a gentle, steady heat was necessary so that the contraction may be even and the outside of the curd not scum over too quickly and hold back the water. Stirring was sometimes adopted, and by the constant motion the water was forced out, but it was not the best means.

CHEMICAL AGENCIES.

Passing on to the chemical agencies employed, he explained the action of nitric acid and the process of fermentation. An important factor in cheesemaking was the use of salt, which promoted fermentation.

Then it was needful for cheesemakers to understand how to handle tainted milk. There were three causes of taints—volatile oil caused by leeks, turnips, etc., the presence of ferments which cause the milk to spoil, and the taint from an unhealthy state of the cow. In the first case he advised heating the milk to 130 degrees and adding a spoonful of saltpetre to 100 gallons of milk. The second taint was brought about by the decomposing action of small microbes in the milk, which could not begin life in milk that was stored with oxygen by dipping or pouring; but in this case the use of ½ more than the usual quantity of rennet will thicken it as required. The third taint was often caused by the cow getting no salt, which diminished the quality and rendered the milk liable to sour 24 hours quicker than if the animal were fed salt; this was overcome by heating to 96 degrees and using a double quantity of rennet.

HINTS TO CHEESEMAKERS.

The Professor then drew attention to several points in the pamphlets which had been distributed to the audience, enlarging upon and explaining each.

84 or 86 degrees Fahr. are satisfactory setting temperatures when the milk is in good condition.

Over-ripe or acidy milk may with advantage be set as high as 96 degrees, according to the degree of its ripeness.

The addition of sour whey to hasten the maturing is most objectionable and should never be resorted to, because the taints were only perpetuated from day to day as long as it was maintained.

Pure rennet extract or powder of known strength is indispensable. The speaker advised cheesemakers to have their rennet made ahead of time, so they would know its strength.

Rennet should be diluted to the volume of at least one gallon of liquid for every vat before being added to the milk.

When milk is over-ripe or acidy, a proportionately increased quantity of rennet should be used to effect a sufficient separation of the moisture from the curd (often termed "cooking") before the presence of lactic acid is perceptible to the taste or smell, or is discernible by the hot iron test.

The result of late investigations recommend an allowing of the curd to become fairly firm before commencing to cut, except in the case of a quick curd.

The horizontal knife should be used first, lengthwise, and then followed by the perpendicular knife, crosswise, after the whey has separated to half cover the curd.

The temperature should be gradually raised to 96 degrees Fahrenheit at a rate not faster than one degree every four or five minutes.

Pains should be taken to make the curd particles so dry, before the development of acid is perceptible, that after being pressed in the hand and released they fall apart when slightly disturbed.

The pressure of too much moisture in the curd while the acid is developing is the cause of tenderness of body and pastiness in cheese.

After the curd is dry or firm enough, but not before, it may be allowed to mat into one mass.

When the curd is gassy or very porous, souring should be allowed to go further before it is arrested by cutting or salting.

Delay at this stage, or coldness of curd destroys the desirable rosy flavor and imparts to the cheese the bitter taste of the salt white whey.

A NUMBER OF QUESTIONS.

Several gentlemen asked questions. To one regarding the manner of salting cows, he advised putting it on a cloth and leaving it lying in the open field where the cows could lick it when they liked. A cow will lick about ¼ lb a day.

In reply to a question about the use of rennet, he gave some figures showing the increased yield from an extra use of rennet. On one occasion with four ounces of rennet he had produced 165 lbs., with 5 ounces 169 lbs. and with 6 oz. 170½ lbs. On another occasion the results were 172, 173 and 171 respectively. In every case where whey was drawn sweet extra rennet would give a bigger yield, but he advised not using too much. In spring put in enough rennet to make the curd fit to cut ½ hour after it is put in; in summer the time should be ¼ hour, and in fall ¾ hour.

After some other questions Prof. Robertson invited the cheesemakers to the annual convention at Smith's Falls, January 8 and 9.

In conclusion a vote of thanks to the speaker was moved by Mr. Pilkey, seconded by Mr. Fitzgerald and carried.

A DRINK-CRAZED WOMAN

FIENDISH ATTEMPT TO MURDER A BABE AT MONTREAL.

The Infant's Face Blistered With a Hot Flat Iron—Cruel Finger Marks on Its Throat—Committed for Trial.

MONTREAL, Dec. 4.—At the Police Court yesterday during the preliminary enquete into the charges against Bridget Hogan of attempted child-murder these particulars were learned: Mrs. Michael Lightstone left her home on Saturday evening to make a call. The hired woman, Bridget Hogan, was left alone with Mr. Lightstone's infant boy. When Mrs. Lightstone came in she saw Bridget stooping over the cradle with her right hand deep in the child's throat. The blood was pouring out of the child's mouth. Mrs. Lightstone shrieked and fainted.

When people from the store came up they found the nurse trying to wipe the blood from her hand and arm. She was secured and a physician called, who found that the child had been throttled, as there were finger marks on its throat. Its little mouth and throat were all lacerated and a hot flat iron had been pressed on its face leaving one entire side with a blister over a quarter of an inch in height. There were also burns on the forehead. It is hoped the child may not die, but its recovery is doubtful.

The culprit, her hand still beamcared with blood, said at the enquetes that she did not know what she did on Saturday night, but she did not deny the charge. She was committed to stand her trial in the Court of Queen's Bench. All those present say that the woman was slightly under the influence of drink at the time of her cruel act.

WINNIPEG, Dec. 4.—The St. Boniface station of the Canadian Pacific Railway was completely burned yesterday afternoon. The loss is light.

It Was a Hoax.

HALIFAX, Dec. 4.—Two weeks ago a Digby paper published an alleged deathbed confession of Patrick Lyons, dated Cleveland, Ohio, to the effect that he had fired the steam saw mill of Raymond & Sons, at Digby, eleven years ago, for which Charles Borden, an innocent man, had been convicted and sent to penitentiary. The alleged confession pretended to be witnessed by William Greenwood and James S. May, justices of the peace. The "confession" gave some details of the crime, which involved a loss of nearly $50,000, and said he (Lyons) had been paid $25 to set fire to the place and that Borden, the convict, was entirely innocent. There were some suspicious circumstances in connection with the "confession," and correspondence with the mayor of Cleveland reveals the fact that the confession was bogus, that there are no magistrates there named Greenwood and May, and never have been, and no person named Patrick Lyons has died in Cleveland within a year.

Borden was convicted upon strong circumstantial evidence. Raymond had twice convicted him of selling liquor, and Borden swore to be revenged. The outburst of sympathy for ex-convict Borden has given place to a feeling of disgust at the contemptible effort to gull the public.

CLEVELAND TO CONGRESS

GROVER'S LAST MESSAGE A VOLUMINOUS DOCUMENT.

The Fisheries, the Southville Episode, the British Columbia Alaska Boundary and Other International Matters.

WASHINGTON, Dec. 4.—President Cleveland's annual message to Congress contains about 25,000 words. The home and local features which were omitted in the last annual features are treated very fully, but the tariff issue, which was the only one referred to a year ago, is not neglected, the President asserting that the citizens are inordinately burdened for the benefit of a favored few.

Of those matters relating particularly to questions in dispute between Great Britain and the United States the President writes:

The questions between Great Britain and the United States relating to the rights of American fishermen under treaty and international comity in the territorial waters of Canada and Newfoundland, I regret to say, are not yet satisfactorily adjusted. I merely repeat as applicable to the present time the statement which will be found in my message to the Senate of Sept. 13 last: That since March 3, 1887, no case has been reported to the Department of State wherein complaint has been made of unfriendly or unlawful treatment of American fishing vessels on the part of the Canadian authorities in which reparation was not promptly and satisfactorily obtained by the United States Consul-General at Halifax.

Having ceased in the discharge of my duty to procure by negotiation the settlement of a long-standing cause of dispute, and to remove a constant menace to the good relations of the two countries, and continuing to be of opinion that the treaty of February last, which failed to receive the approval of the Senate, did supply a satisfactory, practical and final adjustment, upon a basis honorable and just to both parties, of the difficult and vexed question to which it related, and having subsequently and unavailingly recommended other legislation to Congress which I hoped would suffice to meet the exigency created by the rejection of the treaty, I now again invoke the earnest and immediate attention of the Congress to the condition of this important question as it now stands before them and the country, and for the settlement of which I am deeply solicitous.

Near the close of the month of October last occurrences of a deeply regretable nature were brought to my knowledge, which made it my painful but imperative duty to obtain, with as little delay as possible, a new personal channel of diplomatic intercourse in this country with the Government of Great Britain. The correspondence in relation to this incident will in due course be laid before you and will disclose the unpardonable conduct of the official referred to in his interference by advices and counsel with the suffrages of American citizens in the very crisis of the Presidential election then near at hand, and also in his subsequent public declarations to justify his action, superadding impugnment of the Executive and the Senate of the United States in connection with important questions now pending in controversy between the two Governments. The offence thus committed was most grave, involving disastrous possibilities to the good relations of the United States and Great Britain, constituting a gross breach of diplomatic privilege and an invasion of the purely domestic affairs and essential sovereignty of the Government to which the envoy was accredited. Having first fulfilled the just demand of international comity, by affording full opportunity for Her Majesty's Government to act in relief of the situation, I considered prolongation of the discussion to be unwarranted and therefore declined to further recognize the diplomatic character of the person whose continuance in such function would destroy the mutual confidence which is essential to the good administration of the two Governments and was consistent with the welfare and self-respect of the Government of the United States. The usual interchange of communication has since continued through Her Majesty's legation in this city.

My endeavors to establish, by international co-operation, measures for the prevention of the extermination of fur seals in Behring Sea have not been relaxed, and I have hopes of being enabled shortly to submit an effective and satisfactory conventional project for the approval of the Senate. The coastal boundary between our Alaskan possessions and British Columbia, I regret to say, has not received the attention demanded by its importance, and which on several occasions heretofore I have had the honor to recommend to Congress. The admitted impracticability, if not impossibility, of making an accurate and precise survey and demarcation of the boundary line, as it is recited in the treaty with Russia under which Alaska was ceded to the United States, renders it absolutely requisite for the prevention of international jurisdictional complications, that adequate appropriation for a reconnoissance and survey to obtain proper knowledge of the locality and the geographical features of the boundary, should be authorized by Congress with as little delay as possible. The knowledge to be only thus obtained is an essential prerequisite for negotiations for ascertaining a common boundary or as preliminary to any other mode of settlement.

It is much to be desired that some agreement should be reached with Her Majesty's Government by which the damages to life and property on the great lakes may be obviated by removing or humanely regulating the obstacles to reciprocal assistance to wrecked or stranded vessels. The act of June 19, 1878 which offers to Canadian vessels free access to our inland waters in aid of wrecked or disabled vessels, has not yet become effective through concurrent action by Canada.

London Opinions.

LONDON, Dec. 4.—The Morning Post commenting on the President's message says: "If Americans are really inclined to resume negotiations on the subject of the fisheries they will find the English ministers animated only by a sincere desire to promote the satisfactory and final adjustment which Mr. Cleveland mentions."

The Daily News says that it would express more regret over Mr. Cleveland's acrimonious reference to the dismissal of Lord Sackville if Lord Salisbury had not set the example. Mr. Cleveland, it thinks, evidently has Lord Salisbury's gift of a bitter tongue.

The Cedardusk Contracts Arbitration—An Important Case in the Exchequer Court—Public Works Contracts Let.

OTTAWA, Dec. 4.—Chancellor Boyd, T.C. Keefer and G. C. Gregory, the arbitrators in the case of the Canadian Pacific Railway's claim against the Dominion Government arising out of the Onderdonk contracts on the British Columbia section, met in the Railway Committee's rooms yesterday. S. B. Osler, Q.C., and Christopher Robinson, Q.C., of Toronto and W. D. Hogg of Ottawa appeared for the Government, and Hon. Edward Blake, Q.C., Walter Cassels, Q.C., and G. T. Blackstock, Q.C., of Toronto for the Canadian Pacific Railway. The only evidence taken was that of H. P. Bell, civil engineer of Victoria, B.C., who made an examination of the road. His evidence was to the effect that the country was about the most difficult through which to construct a railway he had ever seen, and that taking into account the difficulties to be encountered the road was well built, the bridges substantial and the engineer in charge of the work has shown good judgment.

In the Exchequer Court yesterday Judge Fournier gave judgment in the case of McGrdery v. the Queen, arising out of a contract on the Intercolonial Railway, and holding that a certificate of the engineer was valid and allowing the case to proceed on its merits. The amount involved is about $600,000.

ST. THOMAS TIDINGS.

A Burglary of the Traders' Bank Planned—Peculiar Death.

ST. THOMAS, Dec. 4.—The authorities have learned within the last 48 hours that two of the cleverest crackamen in the country have been stopping in the city for the past few days, and have been plotting for a stupendous robbery. Their plot was given away by a third party, who is a fugitive from the United States, and who was approached by the two men and asked to become an accomplice in the robbery of the Traders' Bank. The plan sketched out was to secure ingress by the cellar, and thence to the bank, and force an entrance to the vault with gunpowder. The entrance to the bank through the cellar could easily have been accomplished, but inside the vault is a large burglar-proof safe, which in addition to the vault, would have to be forced open before the funds of the bank could be reached. The police believe that the attempt would undoubtedly have been made had not the plot been given away.

Emma Bennett, an inmate of the Elgin House of Industry, met with a peculiar death Sunday. On Friday morning last she was in good health, and at dinner ate inordinately of roast pork. Next morning she complained of being ill, and some cathartic medicine was administered without effect. Sunday she became comatose and a physician was called, but could not rouse her, and she died at 8 o'clock Sunday evening. Drs. Kains and Luton made a post-mortem examination and discovered a venous congestion of the brain, together with slight peritonitis, which combined, they believe, caused her death. The deceased was one of Miss Rye's proteges and was 22 years of age.

A lady named Mrs. Jenkins, ate a quantity of pink-colored lozenges on Sunday, and soon after was taken violently ill with unmistakable signs of poisoning. A physician was summonsed and restoratives applied, and after a while she rallied sufficiently to be out of danger. The material used for coloring the candy is supposed to have contained some poisonous substance.

A PAUPER IMPOSITION.

Peterborough the Haven for County Indigents.

And the Mayor Objects—Efforts Being Made to Bring New Manufactories Here—Polling Places and Returning Officers Appointed—The Usual Grist of Communications, Petitions and Accounts.

At the regular meeting of the town council Monday night Mayor Stevenson presided and there were present Councillors Hartley, Langford, Moore, Yelland, A. Hall, E. H. D. Hall, Kelly, Davidson and Cahill.

Before proceeding with the regular business the Mayor called the attention of the council to the wholesale imposition that was practiced upon the Charity Committee of the town by indigent persons being sent into the town from all parts of the county for the corporation to support, and it seems they cannot be removed when once settled here. The Mayor cited a couple of recent cases, one from the township of Hope and another from north of Kinmount, the latter of which was a woman with three children who had been shipped by the township authorities to Lindsay and from there forwarded here. The committee could do nothing but send her to gaol. The Mayor stigmatized the imposition as a mean business, and if it was kept up the taxes would not pay all the expenses. Every municipality should support its own poor he said, and it was a dishonest trick for these outside corporations to ship all their poor into Peterborough with the express purpose of finally saddling them upon the town. The Mayor believed some legislation should be enacted to make each municipality support its own poor.

The Mayor also stated that since the last meeting the Commissioners had sold the debentures at a loss of about $800, for which they would have to pay about 4½ per cent.

HELPING INDUSTRIES.

A discussion was begun by the Mayor stating that some time ago McCleary & Co., foundrymen, of London, had written him asking what the town could do in the way of granting the establishment a bonus for its removal to Peterborough. The Mayor said he had not held out any promise of bonuses, but he saw since by the papers that the works had been burned down and perhaps they would be induced to come here now without any bonus. The Mayor pointed out the efforts Port Hope was making to induce factories to locate there by offering large bonuses; besides those they already had, a boiler factory and organ factory were in prospect.

Mr. Kelly mentioned a Hamilton establishment that had been burned down. The stove works were about idle now and perhaps their buildings could be got and this firm brought here.

Mr. Moore advised advertising as a means to bring the better class of manufactories to town, which would not be moved by offers of bonuses when placed against our superior facilities.

COMMUNICATIONS AND PETITIONS.

A communication was read from the Mayor of Ottawa, enclosing the draft of a petition to the Legislature to have the exemption of taxes on churches, colleges, seminaries, hospitals, salaries of clergymen, etc., struck out.—Referred to the Finance Committee.

The secretary of the School Board applied to have the elections for school trustees and councillors held at the same time and place.—Received.

Mr. A. P. Poussette, on behalf of Thomas Howden, presented a claim for $500 on behalf of his client for damages caused by an open drain on George street the 11th of October last, whereby his son's arm was broken and his buggy damaged; threatening action if the claim was not settled.—Referred to the Town Solicitor.

Thos. Gunn applied to have the council pay the rent of an indigent person occupying one of his houses. Mr. A. Hall stated that this was the woman sent up from Hope a couple of weeks ago.—Referred to Charity Committee.

Martin Connors applied for a reduction of billiard license for seven extra tables.—Referred to the License Committee.

A petition of Geo. W. Rubidge and 13 other ratepayers, asking for the extension of the water mains on Rubidge street, between Charlotte and Sherbrooke streets was referred to the Fire, Water and Light Committee.

Mr. E. P. Cook, asked for a crossing on George street in front of his house.—Referred to the Street and Bridge Committee.

A number of applications for remission of taxes were received. Messrs. F. J. R. Mitchell and Joseph Brault asked remission of statute labor tax; James McCullough, John Paterson and J. K. Sabine for remission of dog tax; Benj. Vought, Mrs. Barrie, Geo. Coon, Mrs. C. Daly, Mrs. Aeglayc, Harriet Malcolm, R. Larmer, Melissa Thornton, Frederick Lewis and Emanuel Lock, remission of taxes on premises.—Referred to the Court of Revision.

Mr. E. Pearse, county clerk, sent in a statement of the expenditure of Locke Bridge repairs, of which the town's share was $9.91.—Filed.

FINANCE.

The report of the Finance Committee, presented by Mr. Davidson, chairman, recommended payment of the following accounts: Toronto Rubber Co., $221.75; Geo. A. Cox, insurance, $22.50; R. Wainwright, $7.00; Electric Light Co., $453.00; Dickson Co., $1,526.58; Union Bus Line, $4.50; Ormond & Walsh, $3.30; Salisbury & Bro., $8.00; H. W. Watson, $2.00; Nicholls Hospital, $348.29; Thos. Menzies, $36.05; Wm. Brandreth, $2.90; Jas. Edgecombe, $42.50; Thos. Beddy, $21.60; Fred. Dover, $105.00; Geo. I. Rossi, $1.85; E. B. Edwards, $41.06; Wm. Metcalfe, $2.50. The order to Robert Howden for rent the committee could not recommend payment of. With reference to John Adlam's case, the town solicitor holds the corporation not liable, but the committe would recommend the matter to the Charity Committee.

The report was adopted.

THE ELECTIONS.

Mr. Moore presented a by-law to appoint deputy-returning officers and places for holding municipal elections. The appointments were made as follows:—

No. 1 Ward.—At mission school house; Jos. Landy returning officer and Angus Williams poll clerk.

No. 2 Ward.—Old music hall, Charles Cameron returning officer and James Noble poll clerk.

No. 3 Ward.—Office of Rathbun Co.; John Irwin returning officer and C. E. Roach poll clerk.

No. 4. Ward.—Wm. Lee's shop; Wm. Lee returning officer and G. W. Powell poll clerk.

The by law was adopted.

The by-law regarding exemption from taxation of the Blythe woollen mills, given a first reading at the last meeting, was finally passed with a slight amendment.

THAT SCHOOL MATTER.

Mr. Moore, in introducing the following resolution, said he understood there was some difficulty about the Collegiate Institute grant, and this motion set the town right in the matter:—

That this council declares its readiness to assist the school board in the matter of the improvements required to be made in the schools by the government inspector: and that the only misunderstanding between the council and board is as to the raising of the money: this council being of opinion that debentures should be issued to cover a term of years instead of the amount being placed on the roll for one year.—Carried.

MOTIONS.

Mr. Moore moved, seconded by Mr. Yelland, that the town solicitor be instructed to draw up another by-law with respect to hacks, cabs, etc.—Carried.

Mr. E. H. D. Hall moved, seconded by Mr. Kelly, that the town clerk be instructed to communicate with the McCleary Manufacturing Company, of London, and the Osborne Holly Manufacturing Company, of Hamilton, calling their attention to the facilities this town offers as a manufacturing centre; and to ascertain on what terms they would move their manufactories here.—Carried.

Mr. Hartley moved, seconded by Mr. Langford, that the taxes of Rev. G. H. Davis be remitted, he being exempt by law.—Referred to the Court of Revision.

Moved by Mr. A. Hall, seconded by Mr. Moore, that the Peterborough Gas Company be instructed to place their gas lamps at the following places, the same to be lighted at 12 p.m. and burn till daylight, the police to turn them out:—One each at the corners of George and Brock streets, George and Charlotte, George and King, Water and Hunter, and Charlotte and Aylmer; the lamps at the corner of George and Brock streets and George and Charlotte streets to be the same as those now at Hunter and Simcoe and at the same price as ordinary lights.—Carried.

The council adjourned till the 15th inst., as required by law in order to receive a statement of the accounts of the ensuing year.

Edwin Forrest's Secret.

The great tragedian, had a secret which everybody ought to learn and profit by. Said he, "I owe all my success to the fact that everything I have undertaking I have done thoroughly. I never neglect trifles." That's the point—don't neglect trifles. Don't neglect that hacking cough, these nights sweats, that feeble and capricious appetite, and the other symptoms, trifling in themselves, but awful in their significance. They herald the approach of consumption. You are in danger, but you can be saved. Dr. Pierce's Golden Medical Discovery will restore you to health and vigor, as it has thousands of others. For all scrofulous diseases, and consumption is one of them, it is a sovereign remedy. b

TORONTO TOPICS.

The Charlton Case—The Guelph Agricultural Fire to be Investigated.

TORONTO, Nov. 4.—The remains of the unfortunate victim of malpractice, Lillie Charlton, were interred yesterday in St. Michael's Cemetery. Pity and curiosity drew a crowd of several hundred spectators to the house of the dead girl and to St. Paul's Catholic Church, where the burial service was read.

At the Police Court yesterday the Italian Rugia, charged with the stabbing affair already reported, was remanded for a week. Charles Brennan and William Turner were acquitted on a charge of prize-fighting, the accused stating it was merely a friendly boxing-match. Frank Miller, for the larceny of a coat, was sent to jail for 60 days. For keeping a disorderly house in the rear of 27 Mission-avenue, Frank Polson was fined $40 or 40 days.

The Ontario Government have appointed Mr. J. Winchester, Inspector of Legal Offices, and Mr. Archibald Blue, Deputy-Minister of Agriculture, to investigate into the recent fire at the Agricultural College, Guelph. There is a strong suspicion that the fire was the work of an incendiary, and the Government are determined to sift the matter to its foundation.

The firm of A. Ross & Co., late Ross, Hillyard & Co., wholesale dry goods, suspended yesterday.

Yesterday Detective Cuddy brought to Police Headquarters a young woman named Mrs. McGuire, who was supposed to know something about the Charlton mystery. She was closeted with Inspector Archabold and County Crown Attorney Badgerow for an hour and then locked up. She was a friend of the dead girl and was cognizant of the fact that she was desirous of having an operation performed. Two other persons, a young girl and a young man, were also examined at Headquarters but neither were held. Druggist John O. Wood still continues to elude the police.

James Henderson of Barrie was arrested at Union Station last night on a telegram from the Chief of Police of that town, who wants him on a charge of larceny.

LOVE KNOWS NO BARRIERS.

A Romantic Story from the Neighborhood of Montreal.

MONTREAL, Dec. 4.—Quite a romantic tale comes from the neighboring village of Chambly. Some months since, so the story goes, a son of Mr. Joseph Dewey, 18 years of age, fell desperately in love with Mlle. Letitia Lajeunesse, a first cousin of Albani, the world-renowned cantatrice, who will be remembered to have been a Miss Lajeunesse and likewise a native of Chambly. Although Miss Letitia was five years older than her youthful lover and a Roman Catholic, while Dewey is a Protestant, the boy's affections seemed to have been fully reciprocated by the handsome French-Canadian lady. Here, however, the trouble came in, as the cure of Chambly refused to marry the young couple and advised them to go and see the Archbishop of Montreal, or the administrator of the diocese.

On the other hand the boy's parents failed to realize that anything so serious as matrimony was contemplated by their son, although it is alleged that Madame Lajeunesse encouraged the scheme to a certain extent. Mr. Dewey had, in the meantime, made arrangements to send the lad to the Methodist Institute in Montreal, and the other day the boy, having got a message delivered to his father purporting to be from Rev. Mr. Taylor, saying to send the youngster along, his trunks were packed and off he went to college.

The next morning, however, affairs assumed a serious turn, when it was discovered that Miss Lajeunesse had also left for parts unknown, and the same day a genuine despatch was received from the principal of the Montreal institution, which told at once that the first one had been a cleverly connected forgery.

Efforts were made to capture the runaway couple, but in vain. They reached Worcester, Mass., and were married, and the young man is clerking it while his wife is working in a dressmaking establishment.

A ROYAL RECEPTION.

All Toronto Turns Out to Greet Champion Oarsman O'Connor.

TORONTO, Dec. 4.—Probably never in the history of Toronto has such an enormous, enthusiastic crowd turned out to welcome a conquering hero as met William J. O'Connor, champion oarsman of America, on his return to the city last evening. His appearance on the rear platform of the Hamilton train was the signal for a deafening cheer. Then the band of the Royal Grenadiers struck up "See the Conquering Hero Comes," O'Connor jumped in the boat that was on the Lombard-street hook and ladder wagon, and the procession started up York-street en route to the Pavilion. Thousands of people lined the route and the champion was greeted with roars of cheers.

In the Pavilion 5000 people were waiting and when O'Connor entered they cheered and yelled for fully five minutes. Mayor Clarke then read the address from the citizens of Toronto and handed the oarsman a marked check for $1000. O'Connor replied as follows:

"YOUR WORSHIP, LADIES AND GENTLEMEN: I do not know how to accurately express my feelings of kindness for this grand reception. When I learned that I was to be publicly received, I was more afraid of it than of my race with Teemer. I may be a fair sculler, but I am a mighty poor speaker; and if I could make as many strokes to the minute with my tongue as with my oars I would be satisfied. (Cheers and laughter). But I am glad to have brought back to Toronto the sculling championship of America, and I must say that when I beat Teemer I beat the best man on the continent. More than this, I have hopes of bringing back from Australia the championship of the world. (Cheers). Let me say a good word for my old friend Ned Hanlan, who was always and is yet a friend to me, and also for Mr. Joe Rogers. If I win the world's championship I will always try to keep it in Canadian waters."

There were a number of other speeches and then Mr. A. F. Jury produced a surprise in the shape of a box containing $300 in gold, the gift of the boys who went to Washington to see the race. Rule Britannia and cheers for the Queen and the champion closed the proceedings.

A Pastor Chosen.

PARIS, Ont., Dec. 4.—At a meeting of the Dumfries street congregation held yesterday, presided over by Rev. Dr. Cochrane of Edinburgh, Rev. E. Cockburn, M.A., of Uxbridge, was unanimously chosen as pastor of the vacant charge.

John Bright had a bad night and his condition is worse.

HAMILTON'S ART SHOW

Formally Opened by His Excellency the Governor-General.

HAMILTON, Dec. 4.—Lord and Lady Stanley, accompanied by Capt. and Mrs. Bagot and Capt. McMahon, Senators Turner and Sanford, Adam Brown, M.P., Alex. McKay, M. P., Mayor Doran, Lieut.-Col. Gibson, M.P., George Roach, Major Moore and Ald. Thomas, started from Highfield at 9.30 yesterday morning on a tour through the city. Among the places visited were the Queen Victoria and Hess-street schools, Wesleyan Ladies' School and Loretto Convent, Canada Life Building and Sheridan Britannia works, the city hospital and the fire stations. The round of visits was concluded at about 1.30 o'clock, and the Governor-General and party proceeded to Ingleswood, the residence of Mr. John Stuart, for lunch.

When the Governor-General, Lady Stanley and suite arrived at the Art Exposition in the Drill Hall, they were greeted by a brilliant assemblage of ladies and gentlemen waiting to receive them. On the south balcony the Band of the 13th Battalion played the National Anthem as the Vice-Regal party entered. They were immediately conducted to seats on the dais erected in the centre of the aisle, where they were welcomed in a speech by Col. Gibson, M. P. P., President of the Art School. The Governor-General responded in a brief but appropriate speech declaring the exposition opened. He was also introduced to Mesdames Brown, Charlton and Crerar, the President and Vice-Presidents respectively of the Ladies' Committee. Mr. Adam Brown, M. P., followed with an address on behalf of the ladies. This ceremony being over, the Vice-Regal party was conducted through the art department and the various booths.

It is difficult to give anything like a bird's-eye view of the many pretty things on exhibition or of the fine works of art, but as far as this city is concerned, never in its history has such a showing been made of rare and valuable pictures, of the highest artistic merit. Larger collections may have been shown, but none so meritorious. In regard to the extent of the collection it may be mentioned that there are one hundred and twenty-one oil-, fifty-two water colors, three pastels and sixteen engravings.

The Vice-Regal party left the city last evening on the 6.55 train en route for Ottawa where they will arrive this morning.

THE MARRIAGE ANNULLED.

A Matrimonial Alliance Obtained by Forgery Dissolved.

MONTREAL, Dec. 4.—Judge Gill gave judgment yesterday in the case of Mrs. Craig against Miss Artemise Chabot annulling the marriage of the latter with George Craig, a minor son of plaintiff. In May last young Craig and Miss Chabot, who is of age, went to Quebec, and there a false letter was presented to Cardinal Taschereau, purporting to be from Mrs. Craig, consenting to the union. The banns were thus obtained and the marriage ceremony was performed. After the marriage the couple returned to this city, but the mother separated them and they have since lived apart. The Archbishop of Montreal declared the marriage null and void and now this decision has been confirmed by the Civil Court.

Sunday School Convention.

Annual Session Opens in the George Street Methodist Church.

There was a fair and fairly representative attendance at the opening of the County of Peterborough Sunday School Convention in the George street Methodist church.

In the absence of the President of the Convention, Rev. John McEwen, of Lakefield, detained by illness in his family, Rev. M. L. Pearson, President of the Bay of Quinte Conference of the Methodist Church, occupied the chair, and after welcoming the representatives from a distance, Mr. T. Dixon Craig, M.P.P., Port Hope, was called to the platform.

A nominating committee, composed of Mr. Sheriff Hall, Rev. Mr. Johnston, of Lakefield, Rev. Mr. Bennet, Lakefield, Messrs. Matthews and Rutherford, was, on motion of Rev. Mr. Parker, appointed.

Mr. T. Dixon Craig entered on an address upon "The Claims of the Church upon, and the Obligations of the Church to its Sunday School Department." The church had a right to expect teaching from its Sunday schools, which implied study on the part of the teacher, with the direct object in view of teaching the Bible and the chief doctrines of the church. It was the duty of the Sunday school to see that all children connected with the church and congregation attended. The church should see that the Sunday school should do its work well. The church expected that teachers should work for the conversion of pupils and their union with the church.

THE OBLIGATIONS OF THE CHURCH

involved a suitable place for the Sunday school, and supply it with proper books and periodicals, and with teachers. The church should give the school credit for good results. Finally, the church should pray for the school, not in a general way only, but there should be stated prayer meetings when the Sunday school alone should be prayed for. The importance of Sunday school work could not be over-estimated or even appreciated.

In comment on Mr. Craig's address, remarks were made by Rev. Mr. Johnson and Rev. P. Clifton Parker and Mr. H. S. Griffin.

The session adjourned.

(Report of to-day's proceedings published to-morrow.)

Police Court.

TUESDAY, Dec. 4.

A complaint of assault was lodged by Wm. Beavis against F. J. Bell, Division Court clerk. It seems that Beavis went into the Division Court office to pay the costs in a case, and, according to the defence, used abusive language towards Mr. Bell, practically calling him a cheat and fraud, and saying that he would have him dismissed from office. When the account was settled and the bill receipted, Mr. Bell stepped outside the counter and kicked the plaintiff out of the door. The magistrate dismissed the case with costs to plaintiff, holding that the provocation was sufficient to justify the defendant in the action he had taken. Mr. W. F. Johnston for plaintiff; Mr. W. A. Stratton for defendant.

A Skeptic Convinced.

A Drama in One Act.

Dramatis Personæ:—Belleghem, the Furniture King, and an Emily farmer.

SCENE—Belleghem's Furniture Shop.

(*Enter Emily Farmer.*)

EMILY FARMER—G'day, Mr. Belleghem. You're the man they call the Furniture King.

MR. BELLEGHEM—I'm sometimes known by that title.

E. F.—And I guess you've earned it. I've often read your advertisements and thought they was mostly blow. But the other day I was at a neighbour's house and saw some new furniture he bought of you, and when I saw what good stuff it was, how nice it was finished, and so reasonable in price, I thought I'd call and see if we could make a dicker. Wife wants some new parlour furniture, for the parlour suite she has is all scratched up and she's going to put it in the dining room.

MR. B.—All right—and so you thought your neighbour's furniture he got from me was good?

E. F.—You bet I did! And I was a'most swearin' mad when I found out that he didn't pay near as much as I did for the same kind of goods. And then he said you delivered 'em and they come to hand without a scratch, whilst I had to lug mine home the best I could, and they was scratched as though a harrow had been drug over 'em. And then, as "she" wanted some new furniture, I made up my mind that I'd go to the shop where I could get the best money's worth and have the goods delivered in good shape.

MR. B.—And you won't regret it. I'll sell you as good furniture as there is in Canada at a fair price, and deliver your goods safe and sound. And you may tell your neighbours I'll do the same for them.

E. F.—All right; I'll do it. I see you've got a mighty lot of furniture here, and as soon as she is through her marketin' I'll bring her in and we'll have a look at your stuff. Good-day, for the present. I'll be sure to be back. *Exeunt omnes.*

Popular Debates.

Next Monday evening a triangular debate will be held at the Murray street school, under the auspices of the St. Peter's Literary Society. Three phases of Canada's national outlook will be alternately discussed—Imperial Federation, Annexation or Independence. Imperial Federation will be supported by Messrs. L. M. Hays and J. J. Sheehy; Annexation to the United States by Messrs. J. O'Meara and Dr. McGrath; National Independence by Messrs. J. D. McIlmoyle and C. J. Leonard. President Brennan will appoint a committee to decide the debate. All members of other debating societies or anyone desirous of being present are cordially invited.

Next Monday evening also the inter-union debate between representatives of the Y. P. A. and Endeavor Society of the Methodist churches takes place in the George street church. The subject of discussion will be the preference of Canada to the States as a place of residence. Further announcements will be made.

Is Cider a Dangerous Drink?

The fates appear to deny Mr. Harry Ray, of Smith, the pleasure of keeping fresh cider on draught at his house. Not long ago Mr. Ray drove out to Young's Point and got a barrel of new cider, but on the return trip the jarring of the waggon opened the bunghole and the apple-juice all leaked out unnoticed. Mr. Ray soon afterwards took a load of apples to the Point and exchanged them for a 40 gallon barrel of cider. This time he succeeded in safely storing the cider away in his cellar, but another calamity occurred to rob him of his anticipated pleasure. By some means or another, air got inside the barrel and the cider began to ferment, and one day, as he was drawing some of his favorite beverage, there was a terrific explosion. Mr. Ray was knocked down, the cellar stairs broken, the ceiling (or floor of the house) stayed upwards, and, worst of all, not a mouthful of cider was left in the mere remnant of a barrel that had withstood the shock.

Rush Bros.' Holiday Stock.

Messrs. Rush Bros., as the public who desire first-class goods in the grocery line will be pleased to learn, are now receiving their holiday stock of imported goods. Their staff is busy opening out the consignments as they arrive, and on Friday the show windows of the establishment will give some idea of the extent, excellence and variety of their stock. This stock includes the very best quality of grocery goods obtainable at home or abroad; the choicest of sugars and teas, the finest of fruits and canned goods, all fresh and of the highest quality. The most exhaustive holiday buyers will find in the stock an excellent and varied supply of all the goods which the holiday season or household requirements may demand. The public may rely on securing at the grocery establishment of Messrs. Rush Bros. the very best goods which the markets of the world can supply and at reasonable prices. Those who require choice goods, at fair prices, should not forget that the place to secure them is at the Messrs. Rush Bros.', 355 George street. 3d130

New Bridges.

Mr. T. G. Hazlitt is erecting over the flumes at the entrance of the Dickson race three new wooden bridges for the use of the public. These bridges will involve an expenditure of $7,000, which will include cribbing of the embankment. Mr. Hazlitt is also widening the bank of the race and making other improvements in order to keep Dickson street in a fairly passable state. But notwithstanding these heavy expenditures the mill-owners along the race are denied by the town council a little gravel to make the road a safe one for heavily loaded wagons. This at a time, too, when the councillors are exempting manufactories from taxes and talking of advertising and exempting to induce new ones to locate here. Would it not be a little more consistent if they endeavored to retain and assist those they have when the granting of such small favors as the manufacturers along the race are asking will do it?

Sunday School Convention.

There is at present a Sunday School Convention in Peterborough, whose important function is to teach teachers how to teach, but the people of Peterborough do not need to be taught, only to be told, that the very best bargains in boots and shoes are to be found at the store of gough bros., the wonderful cheap men. Boots and shoes for the million—of all kinds except the dear ones. Nothing high-priced on their shelves, but the best of good goods at bottom prices. Remember the place, 375 george street.

It is a creditable and useful church publication, and the subscription is but $1 a year. It is edited by Rev. Dr. Mockridge, of Hamilton, general secretary of this society.

DON'T forget attending the auction sale of that nice two storey brick house, No. 789 Water street, north, at 2 p.m. next Wednesday, on the premises. There is room on the lot to build two more houses fronting on George street. This property must be sold, and it will be open for inspection every day from 10 a. m. until 3 p. m. Terms to suit purchaser. 3d128

A Fine Animal.

A fine large buck, about twice the ordinary size, was suspended from the telegraph pole in front of Rush Bros.' store yesterday. The deer weighed about 250 lbs., and had remarkably fine antlers. It was shot by a hunter named Blewett near Gold Lake, and was one of several which have been bought by Rush Bros. for customers.

Assigned.

The Bishop Translated.

His Lordship Bishop Dowling to be Removed to Hamilton.

Our telegraphic despatches announce that His Lordship Bishop Dowling has been translated from Peterborough to the See of Hamilton to succeed the late Dr. Carberry, and that the Rev. Richard A. O'Connor, Dean of Barrie, has been nominated to succeed Bishop Dowling. If the despatch is correct, the announcement of the removal will cause general regret, as His Lordship has made many warm friends during his regime.

The news has been received at the priest's house, though no official confirmation has yet arrived. There is, however, scarcely a doubt of the accuracy of the report.

All classes in Peterborough will part with Bishop Dowling with regret, and the people of Peterborough, while commending the good judgment, cannot compliment the amiable anxiety of the Hamilton diocese to regard Peterborough in the light of a preserve for prelates. The first bishop of that diocese was from Peterborough—Bishop Farrell—and now they are taking another bishop from us, in the person of Bishop Dowling—with the added amiable cruelty of leaving him long enough with us to learn his many good qualities, and then taking him from us.

Personal.

Mr. A. H. Stratton left for Montreal last night.

Mr. A. V. R. Young has received official notice of his appointment as U. S. Consular Agent, at the Port of Peterborough. Upon enquiry from Mr. Young we were shown the official notification.

Mr. J. S. Parker, organist of St. Paul's church, will take part in a service of praise in the Church of the Ascension, Toronto, to-morrow night. Mr. Parker will be solo organist at the service.

TRADE AND TRAFFIC.

Leading Features of the Grain and Produce Markets at Home and Abroad.

TORONTO, Dec. 4.—The St. Lawrence market was very flat yesterday. The supply and demand were almost nil.

Receipts of hay and straw were small and the demand poor. Prices were a little easier, hay selling at $20 to $23 and straw at $13 and $14.

Trade in the grain market was light and prices easier. One load of peas sold at 88 cents; 200 bushels of oats at 36½ and 37½ cents; 200 bushels of barley at 60 to 65 cents, and 450 bushels of wheat at $1 for white and red, $1 to $1.03 for spring and and 85 to 86 cents for goose.

On the Call Board 65 cents was bid for 5000 bushels of No. 1 barley, but none was offered.

AT THE WHEAT CENTRES.

The bears on the Chicago Board of Trade succeeded in making another raid on the wheat market yesterday. On Saturday December wheat stood at $1.04¾, and closed at $1.03¾. Yesterday morning it opened at 1.02¼ and dropped to $1.01¼. January options stood at $1.06 on Saturday, and yesterday prices touched $1.02. From $1.11 on Saturday, May wheat dropped to $1.08 yesterday. There was a drop of three cents on all leading options. At Detroit all futures declined two cents, and at Milwaukee cash wheat dropped to $1. The English markets are all tamer.

BEERBOHM'S REPORTS.

Beerbohm reports: Floating cargoes—Wheat dull, corn nil. Cargoes on passage—wheat and corn slow. Mark Lane—wheat quiet, corn firm, flour quiet. Spot—good mixed American corn, 24s 3d, was 24s; a. m. 27s, unchanged. French country markets dull. English farmers' deliveries of wheat for the past week 54,020 qrs.; average price, 31s 8d, was 31s 9d. Liverpool—Spot, wheat very dull; corn firmer; No. 1 Cal. wheat, 8s 1d, ¼d cheaper; No. 2, 7s 10d, ¼d cheaper.

LIVERPOOL MARKETS.

Liverpool report: Wheat dull, demand poor; holders offer freely. Corn firm, demand good. Spring wheat 8s 1d, red winter 8s; No. 1 Cal. wheat 8s 4d to 8s 1d. Corn 4s 8¾d. Peas, 5s 10½d. Pork, 82s 6d. Lard 47s. Beacon 45s to 47s 6d. Cheese 57s.

BARLEY MARKETS.

Oswego reports: Barley quiet; No. 1 Canada held at 84 and 85; No. 2 extra Canada, 82 and 83.

Albany reports: Barley remains dull and weak; two-round stale, 79 and 81; six-round stale, 85 and 88; Canada, 80 and 90; the latter price for choice No. 1 bright. Receipts, 40 cars.

CHEESE MARKETS.

Yesterday was the last market day for cheese on the Utica Board of Trade. The offerings aggregated 1405 boxes which sold from 10 to 10¼ cents. There is but little stock left in the country. The season as a whole has not been as profitable to the dairymen as last year.

At Little Falls the sales were: 1211 boxes at 10c; 715 boxes at 10½; 329 boxes at 10¼; 95 boxes at 10⅝; 740 boxes at 10⅜; 566 boxes at 11c; 387 boxes at commission; 458 boxes dairy sold at 10 and 11; 45 packages butter sold at 20 to 24c.

IMPORTANT.

We have just been advised, and we are sure the people of Peterborough will be pleased to know that A. L. Davis & Co. have decided to put the whole of their stock of books, stationary, and fancy goods on the market at cost price, commencing 1st December, and their stock, being in such good condition, the public are sure to get dollar for dollar. This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc.; gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Liquor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J. Green, merchant tailor. dw

The Choicest of Apples.

Messrs. Elliott & Tierney have purchased from Mr. G. W. Hatton the entire crop of "Walkerfield" orchard, including Snows, Spitzenburghs, H. Reinforcements Still Coming Up—The Greatest Success Ever Achieved by any Company in a Hand-to-Hand Conflict—We Cut and Slash to Pieces the Bar of High Prices.

We make the Enemy take Back Water, and we send our Large Parcels out daily to the Honest Public. Last week's Trade far ahead of anything we expected.

Our Store is like an Auction Room on Market Days, and the Best of all the Public is delighted. The people say who see our Goods, "where do you steal them," but we answer, we don't steal them, but we buy right and therefore can sell right. Of course, we have no two thousand dollars rent to pay; no three thousand five hundred dollar salaries to pay; no sixteen hundred dollars for printing, but we cut down expenses, and sell right in for quick sales and small profits, and the public are appreciating our mode of doing business, by flocking in and buying where they can get dollars' worth for dollar every time. We are still ahead and intend to keep ahead, come what may.

We will have EXTRA HELP ON FOR SATURDAY, so you will not have to wait to be served as you have done before. Come early and secure THE BEST BARGAINS OF THE SEASON.

Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,

—AND—

Black and Grey Persian Lamb Caps at $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress cloths are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c. or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Snarlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

THE SCHOOLS RAKED OVER

The School System of the Town Condemned.

The Collegiate Institute Question Again Before the Board—More Accommodation Wanted—An Enquiry Established—New Collegiate Institute and North Ward School Buildings in Prospect.

A regular meeting of the school board was held Tuesday night, when there were present Mr. Jas. Stevenson, chairman, and Messrs. Dumble, Hill, Denne, Weir, McWilliams, A. Rutherford, Wrighton, T. Rutherford, English, Baraham and Stratton.

The application of Miss Sara Hamilton, of Beaufort, whose home is in Ashburnham, for a position on the public school teaching staff on the first vacancy occurring, was referred to the Committee on Appointments.

The following report of the attendance at the schools in November was read:—

	No. on roll.	Ave. att.
Central School	703	609
Collegiate Institute		121
West Ward School	169	143
South Ward School	302	239

The report of fees received for November was:—Collegiate Institute, $131; public schools, $6.50.

Mr. Tilley, inspector public schools, presented a voluminous and exhaustive report on the condition of the public schools of the town, going into detail upon the accommodation of each room and the outbuildings, the ability of the teaching staff and general standing of the schools.

ENQUIRIES.

Mr. Dumble enquired if the plans had been received for the north ward school?

The Mayor replied that they had not, but Mr. Denne added the plans were expected to be here before the board adjourned.

Mr. Denne enquired if any of the gentlemen appointed to represent the school board at the Provincial Association meeting in Toronto attended at either of the sessions?

The gentlemen concerned all stated that they had been unable to attend.

Mr. A. Rutherford thought this board should have been represented as became its importance.

Mr. Stevenson said he did not think it made much difference as nothing of importance was transacted.

THE COLLEGIATE INSTITUTE.

Mr. RUTHERFORD further enquired what was the present standing as regards the Collegiate Institute—was it an Institute or High School?

The CHAIRMAN—Collegiate Institute, of course.

Mr. RUTHERFORD said the impression was abroad that the school had been degraded to a High School standing.

The CHAIRMAN replied that they had Collegiate Institute standing but received only a High School grant until the changes suggested were made.

Mr. RUTHERFORD considered that equal to reduction to High School standard, and he considered it unfortunate that the town should be placed in such a bad light throughout the county, because a few small improvements had been demanded by the inspectors. The Collegiate Institute had as good a teaching staff as any, and he hoped the question of its rating would be settled at once.

Mr. STRATTON thought that the Board should rather pass a resolution of want of confidence in itself for not abiding by the regulations of the law—not what the inspectors or the Department demanded, but what was required by the school law of the province. Mr. Rutherford well knew that teachers have long been employed in our schools who had not the qualifications, and, yet, he nor anyone else never mentioned the matter until the inspectors made the fault known. The Department has had to take the Board by the nose and say it must comply with the law, and hence the trouble. Mr. Rutherford also knew that for years past the Department had notified the Board that the Collegiate Institute building did not meet requirements, and, though much has been said about the conflicting reports of the inspectors, he (Mr. Stratton) had found that there had been no clashing of opinions; for one report was made when the Institute was in the building below, and another after it had been replaced in its former position in the central building. The government was accused of smallness for demanding mats at the school doors, but he held that the education of children should tend to inculcate tidiness and habits of cleanliness in the pupils, and he was glad to perceive that Inspectors Tilly had mentioned the same defects in the public schools in his report just read. The statement had also been made that he had used his influence with the government to have the Institute grant withdrawn, but he would say most emphatically that he had no communication whatever with the government relative to the matter until after the grant had been reduced to a high school standard, and then he had written the department for copies of the Inspector's reports. He was as anxious as anyone to have the grant raised to its original amount, and if the following resolution was passed, it would, he hoped, help to settle the difficulty:

Moved by Mr. Stratton, seconded by Mr. A. Rutherford, that whereas the following resolution was on Monday evening passed by the town council of Peterborough:—

That this council declares its readiness to assist the school board in the matter of the improvements required to be made in the schools by the government inspector; and that the only misunderstanding between the council and board is as to the raising of the money; this council being of opinion that debentures should be issued to cover a term of years instead of the amount being placed on the roll for one year.—Carried.

Be it resolved that the Secretary of this Board be instructed to forward the above resolution to the Hon. Minister of Education, with the intimation that, in the opinion of this Board, the said resolution, in conjunction with the action of this Board in endeavoring to comply with the requirements of the law respecting Collegiate Institutes, would justify the department in reconsidering its action so far as to forward the full amount of the Collegiate Institute grant, inasmuch as it is the desire and intention of the Board to endeavor to maintain the Institute in an efficient condition in all respects.

THE SCHOOL SYSTEM CONDEMNED.

Mr. DUMBLE, speaking to the resolution, congratulated the Board upon Inspector Tilly's report, for just such a thorough report was necessary. Mr. Dumble considered the report mild, for the condition of things was much worse than reported, especially as regarded the closets, and he blamed the teachers, and the janitors in particular, for their disgraceful condition. Then the whole report showed that the standard of our public schools was below par, chiefly from overcrowding, and it came to this, they would either have to drive some of the children out or increase the school accommodation. This Institute building was common school property, and they were paying a high rent ($750) for a condemned building. He believed the Board should be separated, for it was too large as at present constituted, and the management was lax in consequence. The result was the town school system was deteriorated, and, in consequence, the children were not taught well in the public schools, and the people's money was not, therefore, well spent. They had poor common schools, poor accommodation, and a poor high school. The two boards should be separated and a new Collegiate Institute building erected. Never mind the north ward school, he said, but rather remove the Collegiate Institute to a new building and thereby increase the public school accommodation. He urged borrowing $30,000, which could be raised on 4 per cent. debentures at a cost of $1,200 a year. This would be a saving, for they were paying $750 a year rent, besides their share of all other expenses, and had to pay $3,600 or $4,000 at once or less the Collegiate Institute grading. He advised careful consideration of Mr. Stratton's motion and to see which would be the best way to expend the money.

Mr. STRATTON said his resolution would not interfere with Mr. Dumble's remarks, and asked to have his motion adopted, which was unanimously approved of.

PLANS PREPARED.

Mr. Blackwell, architect, having entered with the plans for a proposed North Ward school building, was heard. The plans were examined by the board and left on the table.

INCREASE OF SALARY.

Moved by Mr. Hill, seconded by Mr. Stratton, that the salary of Mr. Jas. A. Fife, a Collegiate Institute teacher, be $800 per annum, beginning January 1st, 1889.—Carried.

REPORT OF FINANCE COMMITTEE.

Dr. Burnham presented the report of the Finance Committee, recommending payment of the account of Mr. Turner for $24.42, but that Mr. Walbrook's account, for acting as substitute for Mr. McCreary, be not paid.

The report was adopted.

SCHOOL SUPERVISION.

Mr. Rutherford presented the report of the School Supervision Committee, recommending that the Property Committee be authorized to at once put in Principal Long's room hat and cloak racks, for the better accommodation and comfort of pupils during the winter season; also to re-cover steam pipe leading from the boiler to main building, and also to raise smoke stack if by so doing it will give better draft to boiler.

The report was adopted.

THE INSPECTOR'S OPINION.

Mr. STRATTON asked the opinion of Inspector Tilley regarding the general condition of the schools and the suggested separation of the two boards and school buildings.

Mr. TILLEY said as far as his observations went he believed the Institute and public schools should be separated. The grounds were too small and a couple of rooms used for the public school should be abandoned. As to the north ward school, he would not care to say anything, as he was not acquainted with the position of affairs. A couple or three more teachers were also required in the public schools and more accommodation, but if the town would build a new Collegiate Institute building the additional rooms in the central building would meet what was essential and necessary to the placing of the public schools in a proper position to do better work.

In answer to Mr. Stratton, he said it was very necessary to have several changes made in the rooms of the public school, and the proposed change would give them all the accommodation necessary.

DEBENTURES.

Mr. Denne moved, seconded by Mr. Wrighton, that the Secretary of this Board is hereby instructed to communicate with the town council of the town of Peterborough and request them to furnish this Board with a statement of all school debentures issued and sold; the amount cash debentures sold for, the length of time made for, and when falling due; also a detailed statement of all moneys paid and received on account of such debentures since first issue; and what amount is still due and owing on debentures, and when the same will be paid off under the present rate of interest and sinking fund now collected by taxation from year to year.

Mr. DENNE explained that he saw in the newspapers that a councillor had given a statement of school debenture affairs, but he thought it was only a partial one and did not go far enough back.

The chairman stated that about 10 years ago the council had been asked to do the same thing and it had cost them about $150; and after the statement was made out no one read it. Besides, the resolution should be to the town trust commissioners, who had charge of the debentures. Mr. Pearse, secretary-treasurer, could give anyone who wished to know a pretty accurate idea of the position of affairs without making out this statement. The chairman entered into a review of the matter, as he understood it, and stated that the annual auditors' report supplied a complete statement of the debenture account.

The resolution was adopted.

A NEW INSTITUTE BUILDING.

Mr. Dumble moved, seconded by Mr. McWilliams,—That it be referred to a special committee to report on the expediency of erecting a suitable building for a Collegiate Institute; that such committee report also the probable cost of such building; also as to the expediency of separating the high school boards; that the following be the committee: Messrs. Denne, Stratton, Hill, Barnham, Wrighton, A. Rutherford and the mover.—Carried.

Mr. RUTHERFORD opposed the motion on the ground that it would incur a large extra expense, whereas by the expenditure of a much less sum they could fit out the present building to meet requirements. Besides, the Board was in honor bound to build the north ward school.

Mr. DUMBLE held that the adoption of the resolution would not commit the Board to anything; the committee would merely report upon the "advisability" of building the new Institute. He held that the Institute should be separated from the common school because the presence of 700 children was very confusing; besides, it was beneath the dignity of Collegiate Institute students to have to make their way through this number of small pupils; and other features were bad. If the two Boards were separate they would do their duty better; and as a matter of dollars and cents it would not cost any more, for at present it was a waste of money the way the schools were managed. They would not have to pay more interest on the borrowed money than they paid now, because besides the rent of $750 they paid their share of all the other expenses. The resolution was worthy of consideration. The whole school management was disgraceful, and he wanted to see some action taken to repair the irregularities and make the schools more useful.

Mr. WEIR contended that a new north ward school was first of all necessary and peremptory, and after that he favored also the building of the Collegiate Institute building.

The motion was adopted.

AN ENQUIRY INSTITUTED.

Mr. Barnham moved, seconded by Mr. Rutherford,—That the charges preferred against Mr. Earl be referred to a committee composed of Messrs. Dumble, Wrighton, A. Rutherford and the mover, to report at next meeting.

[The above resolution was adopted to investigate certain statements and charges that had been made by Mr. Dumble during the discussion with regard to the habits of the teacher referred to.

WARD MEETING.

Mr. Denne moved, seconded by Mr. Weir,—That the Board grant the ratepayers of the North Ward the use of one room in the West Ward school, for one night, when wanted, and that the janitor be instructed to have it heated and lighted.—Carried.

Mr. DENNE explained that the room was wanted to hold a ward meeting about election time to discuss municipal matters.

NORTH WARD SCHOOL.

Moved by Mr. T. Rutherford, seconded by Mr. English,—That Messrs. Denne, Weir, A. Rutherford, Kendry and the mover be a committee to ask for tenders for North Ward school and decide which one would be best; and ascertain cost of same and report to this Board.—Carried.

POLLING OFFICERS.

On motion of Mr. A. Rutherford, the same polling officers and places appointed for municipal elections, were appointed for elections of school trustees for 1889.

The Board then adjourned.

The C. P. R. Arbitration Continued—The Ocean Mail Contract—Some Banking Questions—The Bell Farm.

OTTAWA, Dec. 5.—The Canadian Pacific Railway arbitration was continued yesterday, most of the time being occupied in cross-examination of Mr. Bell, C.E., who gave his evidence Monday.

It is understood that the sub-committee of the Council to which the matter of the ocean mail service contract was referred has made a report on the subject, but the nature of the report has not transpired.

Mr. J. M. Courtney, Deputy Minister of Finance, was yesterday shown an interview with Mr. H. W. Darling, President of the Canadian Bank of Commerce, published in The Budget, in which Mr. Darling advocated legislation at the coming session with reference to the renewal of bank charters expiring in 1891, suggested legislation to prevent frauds similar to those connected with the Central Bank, and discussed the question of appointing a Government bank inspector. Mr. Courtney did not think legislation next session necessary as the charters did not expire until July 1, 1891, and legislation in 1890 would give ample time to the banks. He, of course, condemned frauds such as those in the Central Bank, but thought it would be difficult to frame legislation so as to prevent them. On the subject of a bank inspector he declined to express an opinion until asked to do so by the Government.

RANDY ON THE RAMPAGE.

BRITAIN'S POLICY IN EGYPT SHARPLY ATTACKED.

The Conservatives Surprised by the Onslaught—O'Brien Bitterly Assails Secretary Balfour.

LONDON, Dec. 5.—In the House of Commons last evening Lord Randolph Churchhill moved to adjourn the debate in order to discuss the sending of troops to Suakim. He said he believed that the Government was going against the advice of high and responsible military authorities. Within a few days a battle would be fought, and probably a desperate one, between British and Egyptian troops and Arab tribes. For what end were a mere handful of British soldiers exposed to the risk of an encounter with the Soudanese. They were in a totally inadequate force and the presence of 40000 utterly unreliable Egyptians did not remove the danger. Even if success attended the battle it would necessitate larger operations in the interior. He implored the House to prevent renewed slaughter in the Soudan and to save the lives of the soldiers who were being uselessly sacrificed.

Mr. Stanhope, Secretary for War, said that Lord Randolph spoke without knowledge regarding the position at Suakim, whereas the Government's action was based upon full information as to what troops were required. The black battalions at Suakim were most unjustly styled "unreliable." They had been tested as a force upon which thorough reliance could be placed. The natives comprising the battalions were of more than ordinary stamina and courage. The English troopes who are going to Egypt were, in the opinion of the military authorities there, adequate for the purpose. Their operation would be limited and of an easy nature and they would be certain of success. [Cheers.]

Sir William Vernon-Harcourt supported Lord Randolph Churchill, saying that the latter's motion was amply justified by the gravity of the situation.

The motion was rejected, 231 to 189.

All the Gladstonians and Parnellites and four Conservatives supported Lord Randolph Churchill's motion. Several Conservatives abstained from voting. Lord Hartington and 27 dissidents supported the Government.

Mr. O'Brien resuming the Irish debate made a long and vigorous attack upon Mr. Balfour for his treatment of John Mandeville. He accused Mr. Balfour of shooting poisoned arrows at his prisoners and then indulging in peals of laughter as a requiem over their graves. The hour of his condemnation would surely come for his levity and cowardice.

Mr. Balfour replying said he failed to understand how a gentleman having such flowers of rhetoric as those employed by Mr. O'Brien could accuse others of using coarse and brutal language.

After further discussion a vote was taken on Mr. Ellis' motion relative to a reduction of the Irish appropriations. It was rejected, 233 to 181.

A Surprise to the Conservatives.

LONDON, Dec. 5.—Lord Randolph Churchhill's challenge of the policy of the Government in Egypt in the House of Commons last night was a surprise to the Conservatives and nearly caused the Government a serious defeat. They had no intimation that Lord Randolph intended to move to adjourn the debate in order to ensure the Government for the Suakim expedition. During the debate messengers were sent in all directions to drum up absent Conservative members. At one time the Government whips, seeing that the Opposition was growing in force despaired of the result. The Liberals were alive to the numerical weakness of the Ministerial supporters and sought to cut short the discussion in order to have an early division. The Government, however, succeeded in postponing a division until their benches began to show a majority. The conduct of Lord Randolph Churchill was severely censured by the Conservatives.

The Conservative papers infer that Lord Randolph Churchill informed the Gladstonians of his intention to move an adjournment. The Conservatives were ignorant of his proposed action and when they learned of his intention summoned Lord Hartington from Devonshire House and sent urgent whips to the various clubs in order to rally the Liberal-Unionists.

"The Boys."

LONDON, Dec. 5.—On the reassembling of the Parnell Commission yesterday the authors of the placard made public last week, convening a public meeting to hear addresses by Norah Fitzmaurice and a man named Mitchell, who had appeared as witnesses for The Times, presented themselves in court and made an apology which was accepted.

A witness named O'Connor testified that George Twiss and John Connell induced him to join the inner circle of the League, saying it was a fine thing to be a soldier of Parnell's and that he would get a little pay for doing almost nothing. The circle which he joined was known as "The Boys." Witness took part in moonlight expeditions of The Boys carrying guns and revolvers. Timothy Horan, Secretary of a branch of the League paid witness and nine others six shillings each on the occasion of one outrage. Timothy Harrington promised to pay the witness and others their own price if they could secure the election of a member of the league as poor law guardian. He instructed them not to kill voters but only to frighten them greatly and compel them to sign voting papers. Those who refused were coerced and compelled to sign. Mr. Harrington paid witness £7. All the members of the inner circles belonged to the league. Membership in the league was essential to membership in The Boys. O'Connor said the day Culloty was shot his offence was discussed at a meeting of the league committee. Afterward Father O'Callaghan said he knew Culloty was an ugly man and would soon be uglier. The Curragh branch of the league applied to the Central League for aid for evicted tenants and received a reply refusing any relief, on the ground that the district was too greatly disturbed. By the same post, however, was received a private letter, signed Timothy Harrington, in which the reason given for the refusal was that the place was too small.

Encounters Ever Since October.

JERSEY CITY, Dec. 5.—Patrick Silk of 120 Bay-street beat his wife with a poker and kicked her until she was unconscious on Oct. 20 last. She was taken to the City Hospital and he was locked up to await the result of her injuries. She has not regained consciousness since she was admitted to the hospital, and Dr. McFarland, who is attending her, says there is very little chance of her recovery. The only signs of life that she has shown since she was beaten, the doctor says, was on two or three occasions when she murmured like one disturbed by troublesome dreams. Once she opened her eyes. Her daughter was by the bed. She did not recognize her, but closed her eyes again, and has not opened them since. She is fed a little milk every day or two, and has had no other nourishment. She is large and well built. Dr. McFarland says she is suffering with alcoholism as well as from the beating she received. She is 43 years old. Her husband is fifty. Both are hard drinkers.

Conclusion of the Annual Session—Tuesday's Proceedings.

The convention assembled at 9.30, with a good attendance, the president, Rev. J. McEwen, in the chair. After devotional exercises, Rev. P. CLIFTON PARKER addressed the convention on the subject of "The Seed, its Origin and Vitality." He insisted upon the indispensable necessity of teaching the Word of God as the seed of eternal life, and emphasized, in eloquent and forcible terms, the indestructibility of the seed, the Word of God, and that its vital force was eternal. The fullest fruition from the scattering of the seed of life might be expected from the operations of the Sunday school. Though he favored the employment of converted teachers, yet God could use unconverted men to accomplish his purposes. The vitality of the seed did not depend upon the sower, and the seed sown could be brought to perfection of fruit even if a weak human instrument were employed. The vital forces of the seed operated silently, as did all the forces of nature.

A brief discussion followed by Rev. Messrs. Huff, Pearson and McEwen.

Rev. JOHN MCEWEN, Lakefield, gave an address on the subject of "The Soil, its Condition and Character." The soil was defined as the mind and heart of the pupil, and he dwelt on the importance of arriving at a just appreciation of the nature of his character, of interesting his sensibilities, and developing his mental and moral energy in order to arouse the conscience, and through it the will, the component parts of our moral nature. The development of spiritual life through these steps resulted in the changing of the nature and quickening it into spiritual life. Thus defined, the soil possessed the conditions of the virgin soil, shallow soil, preoccupied soil, and good soil. The conditions of the soil were tabulated as the hereditary elements of character—the good to be improved and developed and the evil to be counteracted. The historical condition of the soil, referred to the surroundings and associations of the pupil.

The conference on the subject which followed, was joined by Rev. Messrs. Huff, Wilson, Pearson, Bennett and others.

Mr. ALFRED DAY addressed the convention on "Sowing and Fruitfulness." The conditions of success in sowing were pointed out as work, solid work, with the class, before the class and out of the class. The best time for sowing seed in the human heart is in the morning of life. The tendency of the present day was to substitute "lesson helps" for the word of God—the seed. The seed to be sown was Christ and his atonement. The teacher should make himself acquainted with the material, intellectual and spiritual movements of the pupil, and that the seed should be sown earnestly and prayerfully, and a little at a time, and with a lively faith which will be apparent to, and inspire confidence in the pupil.

TUESDAY AFTERNOON

After devotional exercises the Convention resumed. The first business was the election of officers as follows:

PRESIDENT.—Rev. J. McEwen.

VICE PRESIDENTS.—Rev. M. L. Pearson and Rev. Alex. Bell.

SECRETARIES.—Messrs. J. D. Collins and J. F. Emmerson.

TREASURER.—Mr. J. T. Emmerson.

MANAGING COMMITTEE.—Messrs. J. McNeil and Dr. Harrison, Keene; J. Stephenson and W. E. Roxburgh, Norwood; B. Matthews, O. C. Rowse, J. A. Hall and Alex. Brodie, Peterborough; J. and A Kidd, Warsaw; G. W. Mann and J. Greer, Bridgenorth; J. C. Sherin and W. Graham, Lakefield and all the pastors of the churches.

The next meeting of the convention was appointed to be held at Lakefield, on the first Tuesday in December 1889.

Rev. Mr. MCEWAN dealt with "The Father as the Sower," pointing out that the father should be held responsible for the moral and spiritual training of the child, and that the Sunday school was never intended to be the substitute for parental training. The immense importance of the subject was indicated.

The discussion following, exposed the subject from every point of view, and brought out the opinions that maternal influence was equal, if not paramount, to the influence of the father.

Dr. HARRISON, of Keene, spoke upon the subject of the "Superintendent as the Sower." He detailed his qualifications. The superintendent should possess administrative ability, capacity as a conductor, vim and energy, and must be in harmony with the pastor and congregation, the latter being a means of enlarging his influence and consequent usefulness. He would be able to secure efficient teachers and have better chances of drawing in pupils from every source.

Mr. H. S. GRIFFIN dealt with the "Teacher as a Sower," and showed that his success involved his perfect knowledge of the mental and moral condition of his pupils, and his perfect knowledge of the seed, the Word of God He should be careful what he taught and of the influence his life exerted. He should sow in season, that is early in the morning of life, and should possess courage, for he would have many discouragements and troubles to encounter.

The usual discussion followed.

TUESDAY EVENING.

The convention resumed at 8 o'clock. After devotional exercises, Rev. A. C. Wilson presented the report of the Business Committee, which was adopted. It provided that the County Convention raise $35, apportioned as follows:—Peterborough, $25; Lakefield and Smith, $15; Norwood, $7; Keene, $5, and Warsaw, $3; that township conventions be held as follows:—Otonabee, at Keene, on March 1st; Smith, at Bridgenorth, on Friday, March 4th; Asphodel, at Norwood, on Wednesday, March 2nd; Dummer, at Warsaw, on Thursday, March 3rd, the secretary of the county convention to be responsible for the assembling of these conventions.

Mr. DAY introduced the subject, "The Harvest, its Certainty." The element of certainty belonged to only one sphere, that of the divine, and this thought should inspire Sunday school workers—God's promise was sure and steadfast. No perfunctory performance of work, forgetful that the promise of God would be rewarded. There were examples of a harvest, from teaching the most hopeless pupils, where the work was properly and faithfully done. The faithful teacher, though he may see no direct results upon his class, yet he often reaped the harvest in his own personal experience. Effective teaching sent every pupil into the home a missionary. From a patriotic point of view the country reaped the harvest of the faithful Sunday school teacher's work. Mr. Day's address was illustrated by frequent and well-told anecdotes.

The discussion was joined in by Rev. Mr. Huff and Rev. Mr. Shorey, the latter paying an eloquent tribute to the faithful and effective work of the good Sunday school teacher.

This brought the sessions of the convention to a close. All the meetings were well attended and the discussions took a most practical and profitable range.

BAXTER'S LITTLE GAME.

It is Said He Intends to Have the Wandering Jew Arrested in Montreal.

MONTREAL, Dec. 5.—It was learned on good authority last night that there is a probability that Barnett's visit to the Queen City will be delayed. A leading lawyer, and one generally supposed to have some knowledge of the facts, declared that when Inspector Stark of Toronto passed through here en route from Halifax with Barnett, the latter will be arrested at the instance of James Baxter, who will thus turn the tables on Barnett who is his debtor to a large amount, and on the Toronto people also.

Baxter Will Come if Wanted.

MONTREAL, Dec. 5.—Inspector Stark of Toronto passed through here yesterday to take care of R. G. L. Barnett, who is expected to arrive at Halifax on Saturday on the Sarnia.

James Baxter yesterday stated that as soon as Barnett arrived in Toronto he would if notified go to Toronto of his own accord and without a warrant.

ACCIDENT AT LONDON.

Several Men Badly Injured by a Falling Wall at McClary & Co.'s Building.

LONDON, Ont., Dec. 5.—Yesterday afternoon about 5 o'clock part of the southern wall of the McClary & Co.'s building, left standing after the recent fire, fell in upon a gang of men engaged removing the debris and machinery, burying three of them. When the poor fellows were extricated it was found that two of them, Harry Hussey and Joseph Holman, had probably received fatal injuries, the legs of both men being broken and in addition they are badly hurt internally. The third man, John Packham, received severe injuries about the head and face but will be all right in the course of a few days. The policemen who happened to be in the vicinity of the building at the time were badly cut by the falling bricks, as were also several of the men at work about the building at the time.

We accidently overheard the following dialogue on the street yesterday.

Jones. Smith, why don't you stop that disgusting hawking and spitting?

Smith. How can I? You know I am a martyr to catarrh.

J. Do as I did. I had the disease in its worst form but I am well now

S. What did you do for it?

J. I used Dr. Sage's Catarrh Remedy. It cured me and it will cure you.

S. I've heard of it, and by Jove I'll try it.

J. Do so. You'll find it at all the drug stores in town. c

A BIG BLAZE IN LYMAN BROS. & CO.'S DRUG WAREHOUSE.

Explosion After Explosion of Blazing Chemicals — Firemen Narrowly Escape Death—The Loss $150,000.

MONTREAL, Dec. 5.—A fire broke out tonight in the warehouse of Lyman Sons & Co., wholesale druggists, and before it was extinguished $150,000 damage was done. The fire was confined to the fourth and fifth stories, but the stock in the flats below is damaged by water.

During the fire explosion after explosion of chemical substances took place and most fanciful colored flames shot into the air. Two firemen who were on one of the ladders had it burned beneath them, and had a very narrow escape from death. Two other firemen were [illegible] colds.

The [illegible] buildings are insured for $100,000. The London, Liverpool and Globe have $16,000 and several other companies are interested.

Benny McPherson & Co., hardware, had their stock damaged by smoke and water.

Fire at Perth, Ont.

PERTH, Dec. 4.—A fire broke out about 3 o'clock this morning in the needle factory owned by Dixon & Davidson. As soon as the fire alarm was sounded the firemen were on the spot and applied the waterworks to good advantage. Only a portion of the building was destroyed. The principal loss was the machinery, which is costly. Loss about $6000, no insurance.

Three Children Burnt to Death.

LEXINGTON, Ga., Dec. 4.—A negro woman yesterday locked her three children up in her house and went visiting. On her return she found the house burned to the ground. Her three children perished. This makes the third time such a fire has occurred in this county.

HAMILTON WORKINGMEN.

Formation of a Trades and Labor Council in the Ambitious City.

HAMILTON, Dec. 5.—A meeting of organized workingmen was held in Central Labor Hall to decide on the matter of the formation of a Trades and Labor Council for Hamilton. Mr. Wm. McAndrew of the Typographical Union was chairman. Sixteen organizations were represented. A resolution was put and carried unanimously that an organization be formed at once, to be known as the Hamilton Trades and Labor Council. The labor organizations are now asked to send permanent representatives to the next meeting, to be held on Monday evening, Dec. 10. A number of bylaws were adopted and others were referred to a special committee. The first two articles of the constitution explain the aims and objects of a Trades and Labor Council:

"The object of the council is to unite the various trades and labor organizations of the city, and to assist in the formation of organizations where none exist, so that they may form one brotherhood for the defence of the rights and the protection of the interests of the laboring classes; to discuss and examine all questions affecting the interests of labor which cannot be acted upon in special trade organizations, and to so concentrate labor as to enable it to successfully compete with concentrated capital in controlling the law-making power of the country."

The question of trade disputes came up during the reading of the bylaws, and it was unanimously decided that the settlement of such disputes should only be managed by those directly concerned, and that such was not the business of a council.

WILLING AWAY MILLIONS.

Capt. Ward's Widow Saved a Big Estate for Quarrelling Heirs.

DETROIT, Dec. 5.—Mrs. Alexander Cameron, wife of a well-known Toronto capitalist made her will in this city yesterday. She is the widow of the late Capt. Asher Ward of Detroit and niece of the late Senator Ben Wade of Ohio. Capt. Ward's estate, originally worth $1,000,000 he bequeathed to his widow and her two children. To his seven children by a previous marriage he left the remainder of his fortune, estimated at $4,000,000. Three of the children contested the will unsuccessfully. The panic had prostrated values of all kinds at that time, and the executors began to realize that the magnificent $5,000,000 estate would not pay its indebtedness. At this point Mrs. Ward's two brothers, John L. Lyon, the grain merchant of Chicago and New York, and Thomas K. Lyon, came to her assistance, and they first bought up the claims against the estate and then the property itself as it was sold piece by piece.

The liquidation of the estate, as a matter of course, wiped out all the legacies, but Mrs. Ward resolved to carry out the intentions of her husband's will. The heirs had antagonized and abused her without stint at the trial, but she nevertheless paid them, and to Capt. Ward's relatives, and has fulfilled the conditions of the will. In Mrs. Cameron's will she has left a handsome bequest to the city of Detroit. Her possessions are estimated to be worth $4,000,000.

Lost $3000 at a Walking Match.

NEW YORK, Dec. 5.—W. R. English, a fruit dealer of Baldwinsville, Onondaga County, lost $3000 on the walk. He was standing in Madison-square garden watching the winding on Saturday night in a crowd of 10,000 persons when a roll of bills was extracted from a pocket of his pantaloons. The pocket had been ripped down the side by some sharp instrument. The $3000 was gone, and the police said there were no crooks, so far as they knew, in the garden. Mr. English had come from Philadelphia, and he thinks the pickpockets must have followed him from that city. At the station in Philadelphia he hadn't enough change to buy a ticket and brought out the roll of greenbacks. Some crooks, he thinks, very likely saw him and followed him here. Most of the money was in $100 bills, so that it made but a small roll. Mr. English was broken down by his loss and said that it would ruin his business. He reported the circumstance at Police Headquarters yesterday and then left for home.

New Bedford's Women Terrified.

NEW BEDFORD, Mass., Dec. 5. For two weeks an unknown man has frequented the centre of the city after dark and assaulted women who have been on the streets without an escort, striking them with his fist in the pit of the stomach with sufficient force to prostrate them. On Thursday night he knocked Mrs. John Rebbire down twice, and she has since been confined to her bed with nervous prostration. Last evening Mrs. Annie T. Soule was seized on Kempton-street by the man, who said, "I want you to go along with me." She struck him in the face and screamed, and the man fled. A reign of terror prevails.

HAD TO SIGN OR DIE.

Stabbing of a Rich Old Cuban Who Refused to be Robbed.

HAVANA, Dec. 5.—At the late conflagration at Regla forty-two buildings were destroyed, rendering 110 families homeless, who are suffering from cold and hunger. The loss is considerable, with only $5000 insurance.

News of another barbarous crime comes from Ciego de Avila. As Manuel Beldarrain, a rich planter aged over 70 years, was crossing a street, he was called by a man he had known a long time, who invited him to enter his house and partake of coffee. At first the old gentleman refused, but finally accepted the invitation. He had just seated himself at the table when this man, Sanchez, presented him a paper, saying: "You will either sign that document or you will give me $6000 that I need." Beldarrain refused, when Sanchez, drawing an immense dirk, said: "I will make you sign that document," at the same time attempting to stab him. A struggle ensued, the old gentleman holding his would-be-murderer by the wrists until finally, his strength failing him, he embraced Sanchez, who quickly stabbed him several times in the back, after which he mounted a horse and escaped. The victim is not expected to live, owing to his advanced age.

Fatal Accident at Ottawa.

OTTAWA, Dec. 5.—Mrs. Stopplebor, a woman over 60 years of age who had been ill for some time, was accidentally strangled in the shed of her son's house yesterday morning. She is supposed to have been standing on a board which slipped, and a rope which was hanging in the shed caught her under the chin and strangled her.

SORE FROM KNEE TO ANKLE.

Skin entirely Gone. Flesh a Mass of Disease. Leg Diminished one Third in Size. Condition Hopeless. Cured by the Cuticura Remedies.

For three years I was almost crippled with an awful sore leg from my knee down to my ankle; the skin was entirely gone, and the flesh was one mass of disease. Many physicians pronounced it incurable. It had diminished about one third the size of the other, and I was in a hopeless condition. After trying all kinds of remedies and spending hundreds of dollars, from which I got no relief whatever, I was persuaded to try your CUTICURA REMEDIES, and the result was as follows: After three days I noticed a decided change for the better, and at the end of two months I was completely cured. My flesh was purified, and the bone (which had been exposed for over a year) got sound. The flesh began to grow, and to-day, and for nearly two years past, my leg is as well as ever it was, sound in every respect, and not a sign of the disease to be seen.

Love's Young Dream.

Its Realization Rudely Disturbed by the Prospective Mother-in-law.

The passengers of the 5.15 G.T.R. train last night, and those who happened to be on the platform were treated to a nice little sensational one-act drama in real life, that was hugely enjoyed. A young couple walked into the ticket office and purchased two tickets for Gravenhurst. The young woman was Miss Nellie Higgins, well known about town, and her companion was a Frenchman named Roy, from Gravenhurst, who has been in Peterborough only about a week. Theirs had evidently been a case of love at first sight, for in the space of their acquaintance Cupid had firmly convinced them their two hearts beat as one, and without each other the remainder of their mundane existence would be an aching void.

As the train rolled into the station they were about to board it, when an elderly women appeared hastily on the scene and caused no little excitement and laughter by her loquacious and forcible efforts to prevent the girl, her daughter, from entering the car. A lively war of words began. Miss Nellie declared she was going with her companion, who was "such a dear good man," to be married at Gravenhurst, where he had sold her he owned 200 acres of land. The mother, fearing that the youth and innocence of her daughter was being played upon by the amorous stranger, bade him show "the marriage lines." This the gay Lothario angrily refused to do, but said he had it in his inside pocket. He protested that they were already married and that she had no right to prevent his taking his wife home, but maternal instinct was suspicious and the old lady become obdurate. Not a foot should her daughter set in that car till the "marriage lines" were produced. If they wanted to be married at all, they must be married right here in Peterborough so that she could see it was all right. Thus the battle raged, and in the midst of it the train moved out, Monsieur Roy on board but without his fiancee. The latter supplicated for permission to go with "her dear, good man," but without avail. Their realization of their sweet dreams of love had to be indefinitely postponed. The two fond hearts were torn asunder and their bright hopes shattered, and, after watching the train disappear with a pitiful countenance, the young woman turned homeward with her mother. Their walk was diversified by angry expostulations, and finally an officer of the law was appealed to and each side of the question diligently ventilated for his benefit. The young woman, though defeated for the present, was not conquered; she vowed she would go on the train the next night. But her mother grimly replied that one would see about that, and so they left him.

Personal.

Mr. A. Wood and wife of Millbrook, are the guests of Mr. John Wood, Ashburnham.

The marriage notice of Miss Lou. Canning to Mr. Kelly, of Toronto, appears elsewhere. Miss Canning's many friends will congratulate her upon the happy event.

Mr. A. E. Gammage, Inspector of the British Empire Mutual Life Insurance Co., and R. A. Wade, Toronto, representative of the C. P. Railway and Steamship Journal, were in town yesterday. They had just returned from a hunting expedition, in which they secured a quantity of partridge, rabbits, etc.

News Nuggets.

—James Wilfred, a tramp, occupied the cells last night and was let go this morning.

—Every hill in Ashburnham was besieged with a brigade of youngsters this morning, "coasting."

—The new plant for the Electric Light Co., arrived Tuesday and will be placed in position at once. The new dynamos are necessary to supply power for the additional electric lights being put up through the town, which it is expected will be running in a week or so.

Fraserville Anniversary Entertainment.

On Monday evening the entertainment in connection with the anniversary services of the Fraserville Methodist church was held in the church. This year the annual tea was abandoned and the evening devoted entirely to a musical programme presented by the choir and addresses, which were made by the chairman, Mr. J. R. Stratton, M. P. P.; Rev. Wm. Barns, of Millbrook; Rev. Dr. Bredin and Rev. S. J. Shorey. The attendance was not as large as on former occasions, which probably was accounted for by the absence of the tea and a knowledge that subscriptions would be asked for the defraying of the debt upon the church, amounting to $206. The sum raised by subscriptions amounted to about $160, not including the door receipts. The usual votes of thanks were given and a pleasant entertainment closed about ten o'clock.

The Municipal Elections.

As the time approaches for the holding of the municipal elections, conjecture is rife as to who will enter the arena and strive for civic honors. Very little excitement is aroused as yet over the impending contest. Until it is known whether Mayor Stevenson will offer himself for re election, all other prospective candidates will remain in the background. Mayor Stevenson has been asked by many ratepayers to again seek the office, and he is now considering the request, to which he has promised to reply by Monday next. If Mr Stevenson complies with the wishes of his friends, his decision will altogether likely settle the question. The general impression seems to be that no opposition would be offered him. On the other hand, in case he declines, several men have been mentioned as his would-be successors. In the wards things are pretty quiet. Plenty of names are passing around as probable candidates, but everything is, as yet, very indefinite. It is likely all the present councillors will seek re-election.

A New Machine.

A radically new sewing machine, patented in November, 1887, by the Wheeler and Wilson Manufacturing Company, has just been introduced in Peterborough by E. S. Mitchell, agent, 142 Hunter street. The new machine has so many points of advantage over all others that it would require a half-column article to do justice to its many excellencies. The manufacturers challenge the world to show a machine its superior. It does perfect work on leather and stitched goods alike, and is so constructed as to secure the highest degree of durability with the greatest facility of adjustment and least liability to get out of order. Its speed and ease of running is remarkable. If the leather belt were removed from the drive-wheel, the machine runs so easily that a single thread of No. 60 cotton would furnish power to sew four ply of ordinary tweed. It is also the simplest in construction ever shown in Peterborough, and since its patent 27,555 have been sold. The works are all rotary and perfectly noiseless. The cabinet work is of the old English oak, and of handsome finish, and is supplied with a "secretary" that becomes an extension when in use. This is the machine for family use as well as for manufacturing purposes, and all persons requiring a machine could not do better than call on the agent. 4d131

Lindsay Post Office.

The Bobcaygeon *Independent* remarks:—The new Post office in Lindsay is making good progress and will be a handsome building. At present, however, it has the same fault that the Peterborough office had in its plan, there is no way of getting a letter into the office, after it is closed unless by dropping it down the chimney. There is an awkwardness about this method especially for ladies, and there is no certainty that the postmaster will think of cleaning out the chimney regularly. In Peterborough they had to permanently close one of the doorways and cut a hole through the door for the purpose of mailing letters. It must be admitted by even the most skilful architect, that the Post office without any means for the reception of mail matter, though it may, be an architectural adornment to the town and a tower of political strength to the Party, is not of any appreciable use to the general public.

True Blue's Anniversary.

King William Lodge of True Blues, No. 43, elected the officers for the ensuing year Monday night, as follows:—

Bro. George Sloane	W.M.
" R. Russell	D.M.

" Geo. Spenceley,	I. Tyler.
" Wm Butch r,	O. Tyler.

S. Weir, J. Russell, Lecturers; Jas. Lattimore, John Phippen, Auditors; Bros. Sloan, Jamieson, Russell, Relief Com.

After installation the members adjourned to Mr. John Craig's restaurant and enjoyed an oyster supper.

The first anniversary of the Lodge will be celebrated this evening, Dec. 5th, by a grand ball and supper. The ball takes place at the lodge room and the supper at Craig's. The Blues expect to have a big time.

The Five Per Cent. Addition.

After to-day tardy taxpayers will have five per cent. added to their tax bills. This is all very well for a corporation which has no soul, but it is far removed from the principle of fair play. Instead of adding five per cent., one hundred per cent is knocked off the price of all boots and shoes bought of gough bros., the wonderful cheap men. gough bros. keep up the warfare on high prices. They still offer the largest bargains in the best of boots and shoes, and the people appreciate their liberality. Day after day the rush continues for the wonderful bargains to be found at the store of gough bros., the wonderful cheap men, 375 george street.

One Little Word Alters it.

It might appear, from a police court item in yesterday's issue, that Police Magistrate Dumble's decision in the assault case, Beavis vs. Bell, was rather far-fetched, when it was stated the defendant "kicked" the plaintiff out of his office door and was dismissed therefor, on the ground that the provocation warranted the treatment. The word should have been "forced," not "kicked." The evidence showed that the plaintiff pushed the defendant through the door without any violence being used.

Children Cry for Pitcher's Castoria.

HE MET TWO WILY SHARPERS.

A Rich Old Gentleman in Baltimore Robbed of $2000.

BALTIMORE, Dec. 5.—A prominent retired merchant was very neatly fleeced by confidence men yesterday. He could only be persuaded to lay the case before the police authorities late last night upon the understanding that his name should not be given out by them until the rascal who victimized him was caught. He was robbed in a room in a boarding house on Pearl-street, and is now suffering from nervous prostration, the result of a violent fistic encounter with one of the men who was in the gang.

About 10 o'clock yesterday morning the old gentleman started to leave his residence when he was hailed by a young man who was driving a horse and buggy. A conversation followed, and the stranger said his name was Roberts and that he was a nephew of a well-known citizen and a son-in-law of another. He also said he was a clerk in a National Bank, and had recently arrived from Colorado, where he represented his father-in-law in certain mercantile transactions. He persuaded the old gentleman to get into the buggy and ride down as far as the bank. While in the carriage the young man told him that he had two copies of Bancroft's History of the United States to call for. One was his own and the other his father-in-law's. Further, he said his father-in-law already had one copy, and he would turn over the other to the old gentleman if he would go to the agent's office. The bait was a good one, and the pair went to 121 Pearl-street. Entering the parlor, they met man No. 2, who said that the books were not there, but would be sent to their address on Wednesday. The couple gave their name.

No. 2, addressing No. 1, then said that his book had drawn a prize of $51. No. 1 asked for the money and got $50. He asked for the remaining dollar, when No. 2 said that for this amount he was entitled to two more tickets in another drawing—nothing to lose and all to gain. No. 1 let the $1 go for the chances. The old gentleman sat by all the while and took it in. No. 2 then counted out eight cards which when added up counted thirty-three. No. 2 said he had drawn $40. The other ticket he presented to the old gentleman and asked him to draw. He did so, and the cards counted thirty-nine. No. 2 then said it had drawn a prize of $5000, but he must have evidence that the men were responsible or else he could not pay them. They must have an equal amount to show before it could be paid over. The old gentleman said he could not draw a check, but would get it.

He sent a friend to his home, who got $6000 worth of bonds and then advanced $5000 on them. The money was turned over to the old gentleman in the presence of No. 1. They then went back to see No. 2. The money was tied up and placed on the table. No. 1 had the money. No. 2 said he must see if it was all right, and started to count it with his back turned. Suddenly he said the amount was as represented, and tying up the bundle replaced it on the table.

The old gentleman did not tumble to the fact that a spurious roll had been shoved in front of him, but appeared jubilant over his drawing. No. 1 put the roll in his pocket, and was so elated that he began to thump the old gentleman on the chest and congratulate him on his success. Finally the old gentleman became exhausted, his high hat was knocked on the floor, and when he recovered the two men were gone. So were both his money and the spurious bundle of notes.

BIRTH.

GIROUX.—On Monday, Dec. 3rd, 1888, at River Lawn, Peterborough, the wife of Mr. G. H. Giroux of twin boys.

MARRIED.

KELLY—CANNING.—At St. Matthias' Church, Toronto, on Monday, Nov. 19th, 1888, by the Rev. F. G. Plummer, Thomas Joseph Kelly, of Toronto, to Louise Canning, of Peterborough.

CLEVELAND'S SUPERIOR BAKING POWDER

THE PUREST AND BEST

Is made only of strictly pure grape cream of tartar, strictly pure bicarbonate of soda, and a small portion of flour as a preservative, nothing else whatever, and is warranted entirely free from alum, ammonia, phosphates, lime, and all the adulterants frequently found in baking powders. The character of materials used, their purity, and the nicety of their combination, render Cleveland's superior baking powder the most healthful and most economical in use, and it always affords wholesome, nutritious, and delicious food.

It is recommended for purity, healthfulness and efficiency by Government and State chemists, chemists of Boards of Health, and professors in institutions of learning throughout the country.

Sold only in cans, full weight.

CLEVELAND BROTHERS, ALBANY, N. Y.

ROYAL BAKING POWDER

Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. *Sold only in Cans.* ROYAL BAKING POWDER, No 106 Wall street, N. Y. 1yd81w

IMPORTANT.

We have just been advised, and we are sure the people of Peterborough will be pleased to know that A. L. Davis & Co. have decided to put the whole of their stock of books, stationary, and fancy goods on the market at cost price, commencing 1st December, and their stock, being in such good condition, the public are sure to get dollar for dollar. This sale is made necessary on account of extensive improvements which are to be made this winter in their store.

Removal Sale.

W. J. Green, having decided to remove to more convenient premises on Hunter street, will, for the next few days, give great bargains, so as to reduce his stock. Gents' tweed suits, gents' fine suits, gents' underclothing, gents' shirts, collars, ties, etc., etc., gents' hats, this season's stock; also big bargains in tweeds, worsteds, nap and beaver overcoats, (cut and finish guaranteed) at specially reduced rates. Now is the time to order your clothing, and especially overcoats, as this is a genuine sale. Liquor tea notice. I will clear out my entire stock of the famous Liquor teas at one half price, as I will not have space for them in my new premises. Parties holding vouchers will please call at once and get their prizes. Opposite the town clock, George street. Marriage licenses issued by W. J Green, merchant tailor. dw

Important Notice to Oddfellows.

SUN LIFE ASSURANCE COMP'Y OF CANADA.

HEAD OFFICE, MONTREAL.

Both in Magnitude and Profitableness, the Business for 1887 has been almost everything that could be desired.

The life policies now in force are 7,128 for $10,873,777.69, on 6741 lives. We have moreover $3,207,600 00 insured under 1,840 accident policies, so that the total current contracts of the Company are 8,969 for $14,081,377.69.

The income for the year shows the very large increase of $122,331.23 over the figures of 1886, the total being $496,831.54. The revenue is now half a million dollars per annum, or as mentioned in the report, over $1,600 for every working day in the year, and even this he believed was but a mere introduction to what it will be in a few years hence. The gains from time to time are well illustrated by the following table:—

Period	Gain in income.	Gain in assets.	% to to each year.
1872 to 1876, four years	$ 54,611 21	$169,432 69	$1,148,743 00
1876 to 1880, four years	35,580 67	195,188 29	1,167,386 14
1880 to 1884, four years	136,976 84	363,294 31	2,662,924 90
1884 to 1887, three years	217,451 89	475,977 94	4,092,273 45
Total in 1887	$495,831 54	$1,750,064 45	$10,873,777 69

It is very pleasing to notice that the gains for the last three years only are 60 per cent. more than those of the preceding four years.

The Battle Raging!

VICTORY ON OUR SIDE.

Reinforcements Still Coming Up—The Greatest Success Ever Achieved by any Company in a Hand-to-Hand Conflict—We Cut and Slash to Pieces the Bar of High Prices.

We make the Enemy take Back Water, and we send our Large Parcels out daily to the Honest Public. Last week's Trade far ahead of anything we expected.

Our Store is like an Auction Room on Market Days, and the Best of all the Public is delighted. The people say who see our Goods, "where do you steal them," but we answer, we don't steal them, but we buy right and therefore can sell right. Of course, we have no two thousand dollars rent to pay; no three thousand five hundred dollar salaries to pay; no sixteen hundred dollars for printing, but we cut down expenses, and sail right in for quick sales and small profits, and the public are appreciating our mode of doing business, by flocking in and buying where they can get dollars' worth for dollar every time. We are still ahead and intend to keep ahead, come what may.

We will have EXTRA HELP ON FOR SATURDAY, so you will not have to wait to be served as you have done before. Come early and secure THE BEST BARGAINS OF THE SEASON.

Turnbull's Column.

This Column Tells What is Doing at Turnbull's.

THOSE FURS we mentioned a few days ago are going out very fast, and that is just what we want, as they are not in our usual line of trade, and we do not expect to have any more like them. Those who have bought have got bargains and those who have come in time for what we have left will also. We have since secured a range of Caps, and can now offer

Astrachan Caps at $1.00, $1.25, and $1.50,
—AND—
Black and Grey Persian Lamb Cap $2.00, $2.50 and $3.00.

Who ever heard of Caps at such prices?

READY-MADE CLOTHING.

Our ready-made Clothing keeps coming in and going out so quickly, it is a sure sign that the quality and price are right. As this is only one branch of our business we can afford to sell closer than those who keep clothing only and it is often whispered over the counter that we have the best and cheapest clothing in town. This week we have opened out a fresh lot of boys' Tweed Suits and Overcoats. Call and see them.

DRESS-MAKING.

In our Dress Department we are introducing all the new fall fashions. Those wishing to have a dress stylishly made and neatly and well put together should remember this department. We are now very busy, but it takes an immense business to satisfy us. We have just opened out some New York Novelties, goods that are entirely new here, such as Black and Colored Girdles and fancy sets in Silver and Gold, Mixed Blue and Gold, Brown and Gold, and Brown and Silver, and every one knows our dress clothe are always right in style and price. See our German Costumes, the colors are just perfect. We are showing about twenty different styles of Ladies' and Misses' Mantles and Ulsters. Our long German tailor-made Coats are remarkably cheap.

FLANNELS and UNDERWEAR

In these days of keen competition you hear enough of cheap flannels and Underclothing, but you never saw the man yet who will give a better flannel for 15c or 20c. than we will. All other lines just as cheap. Our 25c. and 50c. Shirts are Startlers. Every one wanting Underclothing should see them, and if you want better goods we have heaps of them.

When you are in town call at Turnbull's We carry a Big Stock and have Big Bargains for you in every department.

Inspector Tilley's Report on the Town Schools.

Following is the report of Public School Inspector Tilley, read at the meeting of the Board of Education Tuesday night:

To the Chairman and members of the Board of Education for the town of Peterborough:—

GENTLEMEN,—I herewith respectfully submit for your consideration, my first report on the condition of your schools, for the current half-year.

I.—SCHOOL ACCOMMODATION.

In my remarks on the individual rooms, I shall refer to their suitability for school purposes, and I have appended to this report a table showing the size of each room room, the usual attendance and the number of cubic feet of air space per pupil. The school law provides that there shall be at least 250 cub. ft. of air space per pupil, where the ventilation is such as to cause a complete change in the air of the rooms not less than three times an hour. The Provincial Board of Health recommends at least double this air capacity, where the change is effected not less than six times an hour. By referring to the table, you can readily determine whether or not your public school rooms satisfy the legal requirements, but the question of ventilation is not so easily determined.

In most of your rooms I find that flat provision is made for ventilation by the method of adjusting the windows top and bottom. The efficiency of this plan will depend very largely on the care and watchfulness of the teachers and the caretakers. It is not easy, however, by this plan of ventilation to have pure air in the rooms, and at the same time to avoid drafts. It is, perhaps, impossible completely to avert the evils resulting from imperfect ventilation in schools and public buildings; but there is, perhaps, no question of greater importance to the well-being of the community than how to prevent the pupils in our large schools breathing and re-breathing the poisonous exhalations from their lungs and bodies and thus planting the seeds of ill-health in those whom we willingly sacrifice so much to protect and benefit. I call your attention to this mainly because some of your rooms are very much crowded at present, and in these it was not difficult to detect that the air had been rendered quite unfit for breathing purposes, even at the early hour at which I visited them in the day.

The play grounds, though small, are very good, except in the South Ward where they are low in the centre and hence in wet weather unfit for games. The closet accommodation is neither good nor well kept, and this is especially true of the ward schools. The South Ward closets are contracted and dark, and on the day of my inspection of that school, I found the floors and the seats of the closets wet and a little untidy. In the West Ward the boys' closets were in a filthy state and quite unfit for use. In neither of the Ward Schools are there urinals for the boys, and without something of that kind it is impossible to keep the closets clean and tidy. There is also a lack of scrapers, mats, or anything for cleaning the feet before entering the school room.

II.—ORDER AND CLASSIFICATION.

I do not consider the order, generally, first class. The pupils are apparently obedient and respectful, but there are rooms that are kept in almost constant confusion by pupils passing in and out during school hours, and these pupils are not all careful to avoid noise in passing along the halls or in going up and down the stairs. I am aware that this is a difficulty not easily overcome, but I believe with care it can be very much reduced. In central building there are eleven public school teachers, and the classification adopted there makes it necessary for a child attending that school to pass through the hands of each of these before entering the Institute. By grading the central school somewhat as the ward schools are now graded, the number of teachers under which the pupils would pass before reaching the Institute would be reduced to six, which in my opinion would be an improvement.

RANGE OF WORK TO EACH TEACHER.

After meeting with the teachers and talking over the subject of classification and grading, I have, with the assistance of your Headmaster and members of the staff, prepared a limit-table, fuller and more definite than the one now in use, which, with your consent, it is proposed shall take effect immediately after the coming holidays. In graded schools it is impossible to secure satisfactory results without carefully prepared limit tables for the different rooms, and the application of proper tests in passing pupils from one teacher to another. Unless this is carefully attended to, a large part of the time of the senior teachers will be spent in attempting to repair the defects of the imperfect teaching in the lower grades. In my opinion carefully prepared printed questions are an essential for properly testing the work in the various grades from the second book up.

With the exception of two rooms in the West Ward, your rooms are all very full, as may be seen by a reference to the appended table. By fixing a boundary for the West Ward it might be possible to fill the two rooms there. It may also be necessary for you to consider some plan for relieving the over-crowded state of the junior departments of the Central and South Ward schools.

[Here follows a lengthy commentory upon the individual rooms, their capacity, condition of pupils, qualifications of teacher, etc. If any ratepayer wishes to satisfy himself on any point he may read the report by applying to the secretary; but it is not deemed wise in the public interest to publish these remarks, which are intended only for the guidance of the School Supervision Committee of the Board.]

I have endeavored to give you an impartial statement of my impression of the work done in each room, as far as I have yet proceeded with my work. I am sorry that the time at my disposal prevented my presenting a more carefully prepared report, but I shall be pleased to answer any questions that the Board may see fit to ask, to the best of my ability. I hope to finish the examination of the IV classes in the Central buildings to-morrow forenoon. In the meantime, from the tests on written work already given in these rooms, I have every reason to believe that good work is being done in them, but I fear that the junior IV classes have not yet reached the limits that should be demanded for passing into Mr. Smith's room.

In my opinion it would be well to make as few promotions as the rooms will allow of this term, and endeavor to work all grades up to the proper standard by next midsummer.

I am, gentlemen,
Your obedient servant,
W. E. TILLEY,
Town Inspector.

A CURRENT MISTAKE TOUCHING THE C. P. R. ARBITRATION CASE.

Report of the Grosse Isle Quarantine Station—Dominion Sinking Fund Agents Appointed.

OTTAWA, Dec. 6.—The Canadian Pacific Railway arbitration case was continued yesterday. Mr Bell, C.E., being re-examined by Mr B. B. Osler, Q.C., after which Frank Turner, C.E., of Toronto was examined and corroborated Mr. Bell's evidence that the Onderdonk sections were built in a good and durable manner. It has not been decided yet whether Sir Charles Tupper will be summoned or not.

One statement with regard to the suit which has been made in several papers needs correction. It is that the Canadian Pacific Railway claim $5,000,000. This is not correct as no sum whatever is mentioned. The claim is simply that the British Columbia sections were not so well built as they should have been and the company is entitled to compensation to enable it to raise those sections to the proper standard. The amount to be allowed, if any, rests with the arbitrators.

The report of the season's work at Grosse Isle quarantine station shows that fifty cases of infectious diseases, including smallpox, yellow fever, diphtheria, etc., were taken off incoming vessels. There were two deaths, one of measles and one of enteric fever. Several thousand persons were vaccinated.

Mr. Lespise, M. P., accompanied by a deputation of printers employed in the Government office, waited upon Hon. Mr. Chapleau yesterday to enquire whether the positions now held by the printers were to be made permanent, how the bureau was to be conducted, what the rate of pay was to be and other matters. Hon Mr. Chapleau said he could not give a definite reply as the arrangements regarding the new bureau were not completed.

A large number of Manitoba and Northwest farmers have taken advantage of the offer of Professor Saunders and sent samples of wheat, slightly touched by frost, to be tested at the Experimental Farm as to fertility.

It is stated that an appeal will be made to the Federal Government for aid for the fishermen on the western coast of Nova Scotia, who are in great want on account of failure of the inshore fisheries, but the matter has not yet come before Council.

Baring Bros. and Glyan, Mills, Currie & Co. have been appointed agents of the Dominion sinking fund in place of the late Sir John Rose.

Rev. Father Prudhomme, parish priest of St. Annes, has taken a novel method of ridding his parish of houses of ill-fame. He has induced a wealthy parishioner to purchase a big row of houses near Anglesea-square, mostly inhabited by disreputable women, all of whom have been served with notice to quit, the reverend gentleman guaranteeing to find respectable tenants for the houses.
